CHAPTER 1: EXECUTIVE SUMMARY

This Information Memorandum seeks to provide relevant details of securitisation of certain loan assets together with all other present and future rights and benefits arising therefrom. The Assets comprise of *inter alia* loan receivables arising from loans provided by the Seller in the ordinary course of business to borrowers for various activities.

All the expressions used in this document shall unless repugnant to the context or meaning thereof carry the same meanings herein as are assigned to them in Chapter 9 (Definitions and Glossary of Terms)

1.1 INTRODUCTION TO SECURITISATION

Securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of securitisation involves sale of specific receivables to a special purpose vehicle ("**SPV**") set up in the form of a trust or a company. The SPV in turn issues financial instruments (promissory notes, participation certificates or other debt instruments) to the investors evidencing the beneficial ownership of the investors in the receivables. The senior financial instruments are rated by an independent credit rating agency. On the recommendation of the credit rating agency, additional credit support is provided in order that the instrument may receive the desired level of rating. Typically the servicing of the receivables is continued by the Seller. Cash flows as and when they are received are passed onto the investors. Features of securitisation transactions include:

(a) Absolute and valid sale of assets to an SPV (with defined purposes and activities) in trust for the investors;

(b) Reliance by the investors on the performance of the assets for repayment - rather than the credit of their originator (the Seller) or the Issuer (the SPV);

(c) Consequent to the above, "bankruptcy remoteness" of the SPV from the originator;

(d) Support for timely payments, *inter-alia*, in the form of suitable credit enhancements;

(e) Securitised debt paper usually achieves a high investment grade credit rating.

1.2 BRIEF DESCRIPTION OF THE TRANSACTION

(a) The Seller has during the course of its business granted certain loans to the Obligors on terms and conditions contained in the Loan Agreements;

(b) The Taurus Trust December 2023 trust ("**Trust**") is proposed to be set up as a special purpose trust, settled by Catalyst Trusteeship Limited pursuant to the Trust Deed for acquiring (i) the Receivables together with all rights, title and interests therein, (ii) all collateral and underlying Security Interest created to secure the repayment of each Facility, which the Seller is entitled to, to the extent the Trustee shall have the right to enforce such Security Interest and appropriate the amounts realised therefrom towards the repayment of the Facilities and to exercise all other rights of the Seller in relation to such Security Interest, (iii) all its rights, title and interests under the Facility Agreements and the other Underlying Documents and all documents and data pertaining to the Receivables, and (iv) the rights, title and interests in the Cash Collateral, free and clear of any lien or encumbrance, save and except the rights that are personal in nature (collectively, the "**Assigned Assets**") to the end and intent that the Trustee will hereafter be deemed to be the full and absolute legal owner (to hold in trust for the benefit of the Beneficiaries) of the Assigned Assets or any part thereof and as such is legally and beneficially entitled to recover the Assigned Assets or any part of the Assigned Assets.

(c) The objects and permitted activities of the SPV are as laid out in Section 5.3 (*The Issuer/SPV*) of this Information Memorandum read with Clause 2.7 of the Trust Deed.

(d) The issue proceeds received from the Investors for subscribing to the PTCs, will be used by the Trust to pay to the Seller consideration for the Assets.

(e) After acquiring the aforesaid Assets, the Issuer will issue PTCs being the Series A PTCs to the Series A Investors.

(f) The Series A PTCs would be issued in dematerialised form and shall be listed on BSE as securitised debt instruments under the Securitisation Listing Framework, within the time period prescribed therein.

(g) To meet the minimum retention requirements ("**MRR**") stipulated by the Reserve Bank of India ("**RBI**"), in relation to the Assigned Assets being sold, the Seller shall provide the Cash Collateral, and shall subscribe to the Equity Tranche PTCs.

(h) In addition to the Cash Collateral, internal credit enhancement by way of the EIS and the subordinated facilities principal/overcollateral in respect of the Facilities shall also be available to the Trust. For the avoidance of doubt, it is clarified that the investments by the Seller in the Equity Tranche PTCs form a part of the internal credit enhancement (as defined in the Securitisation Directions).

(i) The Investors shall be entitled to receive Series A Interest and the other Series A Investor Payouts.

(j) The Seller will be appointed as the Servicer in relation to the Receivables, and in that capacity, the Seller shall be entitled to collect (and take any recovery proceedings in relation to the Receivables for and on behalf of the Trust.

(k) Claims or rights of the Investors of a particular series or tranche to receive payment of the Receivables shall rank *pari passu inter-se* and there shall be no difference in the rights, title and interest between the said Investors, vis-à-vis that particular series or tranche, irrespective of the date on which the application money shall have been paid by them.

(l) Each PTC of a particular series or tranche (i.e. Series A PTCs), will evidence the Investor's respective *pro-rata* share and undivided beneficial interest in the Assets on a *pari-passu* basis with other Investors of that series or tranche. The Seller shall have a subordinate interest in the Excess Interest Spread in the pool.

(m) The Series A PTCs are rated.

(n) Subject to Applicable Law, at any time after the residual value i.e., value of outstanding principal of the Facilities comprising the Pool, falls below the thresholds prescribed under the Securitisation Directions, the Seller will have the option to buy fully performing Facilities, exercisable by the Seller in its sole discretion ("**Clean Up Call Option**"). This option may be exercised only if, at the time of exercise of the Clean Up Call Option by the Seller, the amount available under the Cash Collateral is greater than the principal balance of non-performing Facilities belonging to the Pool.

The following legal documents shall be executed for the proposed assignment:

(a) Trust Deed;

(b) Assignment Agreement;

6.2 STAMP DUTY

(a) Transaction Documents

The Transaction Documents are required to be stamped at the rate of stamp duty applicable in relation to such instruments in the State in which such documents are executed. In the event that the Transaction Documents are taken outside the state in which it is executed for any purpose, including for the purposes of taking any enforcement action, additional stamp duty will have to be paid on the Transaction Documents, in the event that the stamp duty payable on the Transaction Documents in the State in which it is taken to, is higher than the stamp duty payable on the Transaction Documents in the State in which it has been executed.

(b) Pass Through Certificates

The issue of PTCs through a depository or otherwise will require payment of stamp duty at the rate specified in Schedule I of the Indian Stamp Act, 1899, which is currently specified as 0.005% of the consideration amount. Further, any transfer of PTCs made through a stock exchange or by a depository or otherwise will require payment of stamp duty at the rate specified in the Indian Stamp Act, 1899 or the relevant state legislation pertaining to stamp duty (as applicable).

6.3 RIGHTS IN THE CONTRACT

The Seller will sell, assign and convey to the Issuer, in trust for and for the benefit of the Investors, except as otherwise provided in Transaction Documents, without recourse to such Seller all the rights, title and interest of such Seller in and to the relevant Loan Agreements, the relevant Receivables (together with all corresponding rights and interests in relation thereto), in return for the payment of the relevant Purchase Consideration. Consequentially,

these contracts will be marked as sold in the records of such Seller and hence will not form part of the properties or the assets of such Seller. The Issuer, in turn, will transfer undivided beneficial interest in the Assets on the Deemed Date of Allotment to the Investors by issuing the PTCs.

6.4 TAX

Prospective Investors may note that the Finance Act, 2016 (No. 28 of 2016) has introduced provisions to replace the existing regime for levy of distribution tax by a new regime for the "securitisation trusts" wherein, though the income of the "securitisation trust" would continue to remain exempt:

(i) the income of an investor from the "securitisation trust" would not be exempt and any income from a "securitisation trust" would be taxable in the hands of an investor in the same manner and to the same extent as it would have happened had the investor made the investment directly and not through the "securitisation trust"; and

(ii) the "securitisation trust" will have to deduct tax at source while making payments to the investors. The tax deduction at source shall be effected by the securitisation trust at the rate of 25% in case of payment to resident investors which are individuals or HUF and at the rate of 30% in case of others In case of payments to non-resident investors, the deduction at source shall be at rates in force. Provided however, in case of those investors to whom payments are to be made without deducting tax at source or after deducting tax at a lower rate, either pursuant to the provisions of the Income Tax Act, 1961 or a certificate obtained in this regard from the tax department, the said investors should inform the Trustee of the same so that the Trustee can take appropriate steps in this regard. Notwithstanding anything to the contrary contained hereinabove, the calculation of tax will be in line with the Income Tax Act, 1961 read with the applicable double taxation avoidance agreement, if any.

6.5 SCOPE OF TAXATION OF TRUSTEE AS A REPRESENTATIVE ASSESSEE

Pursuant to the provisions of the Finance Act, 2016, the income of a 'securitisation trust' is exempt from tax. However, as stated above, every 'securitisation trust' must at the time of distribution of income to the investors, deduct tax at source.

6.6 LEGAL STATUS OF THE TRUST

The Trust shall be settled under the provisions of the Indian Trust Act, 1882 by way of the Trust Deed. The Trust shall be entitled to carry on the business as set out in the objects of the Trust under the Trust Deed.

6.7 APPLICABILITY OF THE SECURITISATION ACT

The proposed securitisation of loan receivables would fall outside the purview of the Securitisation And Reconstruction Of Financial Assets And Enforcement Of Security Interest Act, 2002 ("**the Securitisation Act**") as the proposed transaction envisages transfer of standard receivables to a trust and does not involve sale of receivables classified as "non-performing" to a securitisation company as provided in the Securitisation Act.

CHAPTER 7: SPECIAL CONSIDERATIONS AND RISK FACTORS

The Series A PTCs are rated. The Issuer believes that the risks described below are the principal ones inherent in this transaction for the prospective investors and does not represent that the statement of risks set out hereunder is exhaustive.

7.1 RISKS IN RELATION TO RECEIVABLES AND BORROWERS

The Investor Payouts are dependent on the timely payments of the amounts due under the Loan Agreements and in the event the Obligors default to make such payments, the Investor Payouts may get delayed or considerably reduced or become NIL.

7.2 MATERIAL CHANGES IN REGULATIONS TO WHICH THE BORROWER IS SUBJECT COULD IMPAIR THE BORROWER'S ABILITY TO MEET PAYMENTS OR OTHER OBLIGATIONS

The Obligors are subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Obligors or their future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

7.3 GENERAL ECONOMIC CONDITIONS

The Obligors operate within India and, accordingly, its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Obligors have a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

7.4 POTENTIAL LIABILITIES OF TRUST

There could be certain liabilities that may arise during the tenor of the Series A PTCs which will have to be discharged by the Trust utilising the Trust Fund and which may impact the cashflows to the Investors. These liabilities may include the costs to be incurred in replacing the Servicer in terms of the Transaction Documents, it should however be noted that the Transaction Documents do provide that the outgoing Servicer would be liabile to pay all the costs and expenses incurred by the Trust in replacing such Servicer. Further, currently the cost of servicing is being borne by the Servicer. However, upon change in the servicer, such servicing costs may fall on the Trust to be discharged from the Trust Fund if the new servicer does not undertake to bear the same. Other potential liabilities that may arise to the Trust which will have to be discharge by the Trust from the Trust Fund may include fees of third party service providers, expenses in connection with any disputes with the Servicer, audit of the Servicer, costs and expenses for any additional documents to be executed pursuant to any change in law etc.

7.5 LIMITED LIQUIDITY & PRICE RISK

There is no assurance that a deep secondary market will develop for the PTCs. This could limit the ability of the Investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

7.6 LIMITED RECOURSE, DELINQUENCY AND CREDIT RISK

The Credit Enhancement stipulated represents a limited loss cover to the Investors. These PTCs represent an

NeoGrowth Credit Private Limited Mumbai
CATALYST TRUSTEESHIP LIMITED

undivided beneficial interest in the underlying Assets and do not represent an obligation of either the Issuer or the Seller, or the parent of the Seller, Issuer. No financial recourse is available to the PTC Holders against the Trustee. Delinquencies and credit losses may affect the monthly Investor Payouts to be made to the PTC Holders.

7.7 SERVICER RISK

The Seller shall act as Servicer for the assigned contracts and continue to monitor the pool and make collections of its pool of Receivables. In the unlikely event that the Servicer is unable to perform its functions as a Servicer satisfactorily, their appointment as the Servicer may be terminated under the circumstances set out in the Servicing Agreement. In such an eventuality, the Trustee is required to appoint an alternate Servicer or to function as the back-up Servicer. The cost of servicing in that case may be recovered from its pool of Receivables that were serviced by such outgoing Servicer, which may cause a shortfall in the Investor Payouts to Beneficiaries.

7.8 RISKS DUE TO POSSIBLE PREPAYMENTS

There could be Prepayments and foreclosures under any of the Loan Agreements. The Investors are subject to the risk of changes in the average tenor of the respective Receivables on account of prepayments and foreclosures.

7.9 CLEAN-UP CALL

Please refer to the sub-section named "Clean-up Call Option" under Section 1.3.

7.10 BANKRUPTCY

(a) Bankruptcy of the Seller

If the Seller become subject to bankruptcy proceedings and the court or tribunal in the bankruptcy proceedings concludes that the sale from the Seller to the Trust was not a valid and absolute sale, then an Investor could experience losses or delays in the payments. All possible care has been taken in structuring the Transaction so as to minimise the risk that the sale to the Trust will not be construed as confirming to the Securitisation Directions.

(b) Bankruptcy of the Servicer

In the event the Servicer becomes subject to bankruptcy proceedings, given that such Servicer has been specifically permitted to retain the Receivables collected by the Servicer till the date by which such Servicer is required to deposit such amounts in the Collection and Payment Account in accordance with the Transaction Documents, the creditors of the Servicer may lay claim over the said Receivables on the grounds that the Servicer has been permitted to utilise the Receivables till such date and the obligation of the Servicer to make payment of the relevant Receivables is a normal contractual obligation. However, such claim may be countered by the fact that the Servicing Agreement provides that the Receivables collected by the Servicer are to be held by the Servicer in trust for the Trust, for the benefit of the Beneficiaries, till deposited in the Collection and Payment Account.

There might however be delays in recovering any such Receivables which are retained by the Servicer till the time that any such claim by the Servicer's creditor is not dismissed by a court/tribunal given that the court may issue moratorium/injunction with respect to the said Receivables.

The bankruptcy of the Servicer is a ground for termination of the services of the Servicer and the Trustee (acting on the instructions of the Beneficiaries holding Majority Interest) may terminate the services of the Servicer as per the terms of the Transaction Documents.

(c) Bankruptcy of the Trust

The acquirer of the Receivables is a Special Purpose Vehicle (SPV) set up in the form of the Trust. The Trust does not

have any creditors and is not permitted to take any additional liabilities without consent of the Investors, and hence it is unlikely that the Trust would be subjected to voluntary or involuntary bankruptcy proceedings.

(d) Bankruptcy of the Trustee

For creation of any trust while there is transfer of ownership of the trust property to the trustee. The trustee's ownership however is qualified by the annexed obligation and is not absolute ownership under law. The Trustee is placed under an obligation to use the ownership rights for the benefit of the Beneficiaries. Thus, the Receivables acquired by the Trust will be bankruptcy remote from the properties of the Trustee. Bankruptcy of the Trustee may however affect the administration of the Trust till the time a new trustee is appointed which may take some time.

The Beneficiaries holding Majority Interest shall be entitled to remove the Trustee in accordance with the Trust Deed by passing a resolution for the same at any time.

7.11 RATING OF THE CERTIFICATE

The Series A PTCs are rated.

7.12 RISK OF CO-MINGLING

The Servicer will deposit all payments received from the relevant Obligors into the Collection and Payment Account. However so long as the Seller is the Servicer of the Loan Agreements, there could be a time gap between collection by the Servicer and depositing the same into the Collection and Payment Account especially considering that some of the collections may be in the form of cash. Moreover, the pool consists of a large number of contracts which are generated all over the country and in this interim period, collections from the Loan Agreements may not be segregated from other funds of the Servicer. If NeoGrowth Credit Private Limited in its capacity as Servicer fails to remit such funds into the Collection and Payment Account, the Investors may be exposed to a potential loss. However, under the Transaction Documents, the Servicer would be providing an express undertaking that all collections received / realised by it would be held by it in trust for and on behalf of the Trust and for the benefit of the Beneficiaries.

7.13 LEGAL AND TAX CONSIDERATIONS

For legal and tax issues, please refer to **Chapter 6** of this Information Memorandum.
