STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES:

1. Method of Accounting

The Financial Statements are prepared under the historical cost convention in accordance with the applicable Accounting Standards and the relevant provisions of the Companies Act, 1956. Further, the Company follows the mercantile system of accounting and recognises income and expenditure on accrual basis except in the case of significant uncertainties.

2. Inflation

Assets and Liabilities are recorded at historical cost to the Company. These costs are not adjusted to reflect the changing value of the purchasing power of money.

3. Fixed Assets

Fixed assets are stated at cost of acquisition which includes taxes, duties and other identifiable direct expenses net of modvat credit availed less accumulated depreciation.

4. Depreciation

Depreciation is provided on a pro-rata basis at the written down value method as per the rates prescribed in Schedule XIV of the Companies Act, 1956. However, in the case of Leasehold Land, depreciation has been provided on pro-rata basis using the straight line method over the period of the lease.

5. Investments:

Long Term investments are stated at the cost of acquisition, except where there is diminution in value other than temporary in which case the carrying value is reduced to recognize the decline. Current Investments are stated at the cost of acquisition or fair value, whichever is lower.

6. Inventories:

Raw Materials and Packing Materials are stated at cost net of modvat credit and sales tax setoff. Work in process and Finished Goods include indirect production overheads. Finished goods lying in the factory are valued inclusive of excise duty payable thereon. Finished goods are valued at lower of cost or net realisable value.

7. Foreign Currency Transactions:

Transactions in foreign currency are recorded at the exchange rate prevailing at the date of the transaction. Assets and liabilities denominated in foreign currency are translated into rupees at the exchange rate prevailing on the date of the Balance Sheet. Gain or loss in the exchange rate is accounted on payment or realisation basis.

8. Sales:

Sale of products is recognized at the point of dispatch to the customer. Gross Sales are inclusive of excise duty and exclusive of taxes.

9. Retirement Benefits:

Contribution to provident fund is charged to the Profit & Loss Account as incurred. The liability for payment of gratuity is covered through the Group Gratuity Scheme. Gratuity and Leave encashment benefits are accounted for based on actuarial valuations.

SCHEDULES FORMING PART OF ACCOUNTS (Contd.)

10. Taxation:

Provision for income tax is made for both current and deferred taxes. Provision for current income tax is made on the current tax rates based on the assessable income. The Company provides for deferred tax based on the tax effect of timing differences resulting from the recognition of items in the financial statements and in estimating its current tax provision. Deferred tax assets are recognized where there is certainty that there will be sufficient future taxable income available against which such deferred tax assets can be realized.

Provision for wealth tax is made based on the taxable assets.

Provision for fringe benefit tax is made based on the fringe benefits provided during the year.

11. Impairment of Assets:

At each Balance Sheet date, the Company reviews the carrying amounts of its assets to determine whether there is any indication that those assets suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing the value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to its present value using a discount rate that reflects the current market assessment of the time value of money and the risks specific to the asset. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Reversal of impairment loss is recognised immediately as income in the Profit & Loss Account.

12. Sundry Debtors and Loans and Advances:

Sundry debtors and loans and advances are stated after making adequate provisions for doubtful balances.

13. Borrowing Costs:

Borrowing costs attributable to the acquisition / construction of qualifying assets are capitalized and form part of the cost of the qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue as an expense.

14. Provisions and Contingencies:

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to present value and are determined based on best estimate required to settle the obligation at Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent assets and liabilities are not recognised.

15. Material Events:

Material events occurring after the Balance Sheet date are taken into cognizance.

16. Other Accounting Policies:

These are consistent with the generally accepted accounting practices.
