#### MANAGEMENT DISCUSSION & ANALYSIS

#### **INDUSTRY STRUCTURE & DEVELOPMENT**

India is one of the fastest growing markets in the world. Our Company is engaged in the aviation industry mainly in the field of Passenger. The civil aviation sector has played an important role in India's economy. It provides fast and reliable mode of transport across the Globe and is particularly important for many areas / places which are not still connected by Rail or Road. With increasing globalisation, this sector will play a more significant role in integrating the Indian economy with the rest of the world.

The scene has changed drastically. The Indian middle class consumer is now dazzled by an array of airlines offering lower fares and new aircraft and striving for better services. The increase in demand for air transport depends on a number of factors, which include rate of growth of the economy and fall in real prices of air services. The Airlines operate at competitive margins. The utilization of capacity becomes another important factor for determining the viability of air operators. The Air Transport plays its role in accordance with its comparative advantage and it is necessary to remove the bottlenecks effecting the Aviation Sector.

Fuel is the largest component of cost of Airline Sector. Domestic Air Travel has turned costlier for Passengers in India. The recent wave of Air Fare hikes happened with Indian Oil increasing aviation turbine fuel prices. The fare hikes in many routes, even though the pricing of Aviation Turbine Fuel (ATF) is now on import parity basis, the rated applicable for domestic operations continue to be significantly higher than that of international operations. The high ATF cost for domestic air transport increases the cost of operation and makes it unlivable even in areas where it has comparative advantage over other modes of transport. Any hike in aviation turbine fuel prices immediately impacts airline operations.

#### **OPPORTUNITIES**

Presently the Company is having Three Dornier 228 Aircrafts and one Chetak Helicopter at its disposal. Company also has at its disposal 2 Nos. MI-172 Helicopters 26 Seators. At present Shimla, Kullu routes are available. The Company is also assigned some special duties by the State and Central Governments which helps the revenue of the Company. The company has received the Regional Scheduled Air Transport Services permit on 30th June, 2008 and is now planning to operate as Schedule Airlines shortly. The company also planning to go for such airlines routes as may be available and beneficial for the company.

#### **CHALLENGE & COMPETITION**

Jagson Airlines Limited faces normal market competition from Public sector Airlines. The Public Sector Airlines Companies are taking advantage of network in whole country and the benefits available from the Government.
