MANAGEMENT DISCUSSION AND ANALYSIS

India continues to ride high on a platform of robust economic growth driven by practically all sectors of the economy so much so that it grew at a record 7% in fiscal 2008. The upgrade on India's rating to investment grade reflects the country's strong economic prospects.

The growth momentum has been broad based and reinforced by the opening up of crucial infrastructure sectors to private players and foreign investors. Landmark reforms have been witnessed in telecommunication, airports, transportation and real estate development activities and this strong trend is likely to continue. Industry experts expect the growth to sustain about the 7% mark in the years to come in spite of temporary fall in growth rates owing to the global recession.

BUSINESS ENVIRONMENT

The prevalent business environment is very conducive to the growth of infrastructure construction companies, which are still at the threshold of a new growth era with massive amounts of investment earmarked covering a wide spectrum of infrastructure sector.

FINANCIAL PERFORMANCE

The Supreme Court ordered immediate closure of all Aqua Farms in the year 1996, which halted entire operations of the Company. The promoters negotiated with Company's Banks and Financial Institutions and by infusing own funds settled the dues. The concerned Banks/Financial Institutions have thereafter issued NO DUES certificates to the Company. This process was completed during the previous financial year.

The Board of Directors decided to enter into Infra Structure related activities; and accordingly changed the name of the Company to Kings Infra Ventures Limited and also amended the Objects Clause in line with the new line of business activity with due approval of Shareholders and Statutory Authorities with effect from 5th April 2007. New business initiatives undertaken by the Company are under various stages of implementation.

The Company plans to execute Infrastructure Projects. Extensive activities are underway to procure required land at Kochi for the present.

The Board of Directors are of the opinion that, Infra Structure Development Projects, in which the Company is investing will bear fruits in the coming years. The Company is hopeful of showing improved performance in the year 2008-09.

During the year the Company made Net Profit after Tax amounting to Rs.2.55 Lacs.

SPECIAL ECONOMIC ZONE (SEZs)

Kings Infra Ventures Limited has been working with several state governments and private business groups across the country. However, given the uncertainties in government policies and the repercussions of farmer protests in certain SEZs, the progress in this line of business has been slow.

We are aggressively pursuing these SEZs project once the business and the policy environment for SEZs stabilizes in India.

RISK AND OUTLOOK

Our business is highly regulated by Government at various levels, several regulatory approvals, permits, licenses, etc are required to be obtained from the Government for all our projects. Any delay in obtaining such approvals can affect the timely execution of our projects. The company is developing built-in procedures and practices to effectively mitigate the adverse affects of the risks involved in the business and is laid down procedures for handling risks in carrying out the business of the best advantage of all stakeholders and to improve the shareholder value and to ensure continuity of business.

Therefore, Company's outlook for 2008-09 remains positive.

INTERNAL CONTROL SYSTEMS

The company is having internal control systems which are considered adequate for controlling the operations of the company. All transactions are authorized, recorded and reported correctly and adequately. The internal control being designed will ensure that financial and other records are reliable for preparing financial information and for maintaing accountability of assets. All financial and audit control systems are also reviewed by the Audit Committee of the Board of Directors of the Company.

INFORMATION TECHNOLOGY

One of the key pillar for the internal systems and processes of a modern Company is its IT systems and networks. We are transforming ourself to an IT based organization.

PERSONNEL

The key to the success of any Company is its people. To meet the ambitious growth plans of the company, a structured organization with succession planning and strategies for development of the required technical and managerial skills within the organization are being developed. SCHEDULE-XIV

NOTES TO THE FINANCIAL STATEMENT AS AT 31ST MARCH 2009

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis for preparation of Financial Statements

The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles under the historical cost convention, on the accrual basis except in the case of certain financial transactions which are measured on the basis of fair values. Accounting policies have been consistently applied except where a new accounting standard is newly adopted or a revision is made to the existing standard.

2. Revenue Recognition

The Company follows the mercantile system of accounting and recognises income & expenditure on accrual basis.

3. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities on the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's knowledge of current events and actions, actual results could differ from those estimates and revisions, if any, are recognised in the current and future periods.

4. Fixed Assets

Fixed Assets are stated at cost less accumulated depreciation and impairments if any. Cost includes all identifiable expenditure incurred to bringing the Assets to its present condition.

5. Depreciation

Depreciation is provided using the Written down Value Method, at the rates and in the manner specified in Schedule - XIV to the Companies Act, 1956.

6. Provisions and contingencies

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made.

7. Investments

All the investments are classified as either current or long-term based on management's intention at the time of purchase. Current investments are carried at the lower of cost and fair value. Long term investments are carried at cost less provisions made to recognize any decline other than temporary, in the carrying value of each investment.

8. Impairment of assets

Impairment of assets is recognised when there is an indication of impairment. On such indication the recoverable amount of the assets is estimated and if such estimation is less than its carrying amount, the carrying cost is reduced to recoverable cost.

9. Employee Benefits

The provisions regarding Provident Fund, Employees State Insurance, and Gratuity etc mentioned in Accounting Standards 15(Employee benefits) are not applicable to the company at present.

10. Income tax

A provision is made for Income tax annually based on tax liability computed after considering tax allowances and exemptions.

11 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

B. Notes on Accounts

1. Kings Infra Ventures Ltd was formerly known as Victory Aqua Farm Ltd. The company was operating an aqua culture farm. The farm had to be closed down on 31.03.1997 consequent upon an order of Hon. Supreme Court of India. Thus the

company was not in operation for a long period from 31-3-1997 to 2005. At present, the company has diversified its activities, and is pursuing land development and related activities. It is proposed to call for claims from creditors and lodge claims on debtors with a view to settling the dues amicably. Letters have been addressed to creditors/debtors to which the company has not received any replies. The matter is being pursued and as such debtors/creditors and loans and advances are subject to confirmation.

2. During the current year and previous year the Company has received advance for development of Projects which are refundable on completion of project with due share of profit.
3. During the year the Company was engaged in developmental activities. The Administrative and general expenses incurred during the year are accumulated under pre-operative expenses for project development.
4. During the year the Company has transferred 75000 shares of Kings Hotels & Resorts Ltd for a value of Rs.750000/-
5. There are certain Income tax cases pending for the period when company was engaged in aqua culture business. While the management argued that aqua culture farming should be treated as agriculture, the department has not accepted this contention. Similarly there were contradictory verdicts in Hon. High Courts in regard to the treatment of prawn ponds for the purpose of depreciation. In one verdict it was treated as plant and in another verdict it was treated as building. The entire matter is now under appeal with the Hon. Supreme Court.
6. Prior Year adjustments - NIL
7. Estimated amount of contracts to be executed on capital account and or not provided for in the accounts - Nil
8. Foreign currency loan disbursement -Nil
9. In the opinion of Directors, the current assets, Loans and advances have the values at which they are stated in the Balance Sheet if realized in the ordinary course of business.
