DIRECTORS' REPORT

TRADE CONDITIONS

The Textile Industry worldwide has been passing through the un-precedented crisis during the past 2 years. There was steep increase in the prices of cotton during the year and the cotton prices touched the high level because of various factors including the hike in Minimum Support Price by the Government of India for Cotton, huge capacity additions, which resulted in higher demand for cotton etc. The upward movement of dollar against rupee has made the import of cotton unviable. The yarn prices showed declining trend because of various reasons viz.,

- (i) Global demand for Textile products has drastically come down due to Economic slow down. Nearly 40% of our production goes for export market. Because of the Global Economic meltdown, margins on Exports came down drastically.
- (ii) The huge capacity spindle additions in short period resulted in mismatch between supply and demand. While the increased supply of yarn in the market has brought down the selling prices, the increased demand for cotton had increased the cotton prices. The cumulative effect of the above factors had affected the working of the Company substantially.

In addition to the above global crisis, there was severe power cut in Tamilnadu to the extent of 100% power cut for 4 Hours during 6 P.M. to 10 P.M. and 40% during the rest of the hours, which affected utilisation and productivity levels to a greater extent. Timely decision taken by your Directors to install Furnace Oil based Gensets and Windmills in previous years and purchase of power from Third Party have helped the Company to operate the Mills at optimum utilization level and also helped the Company to tide over the power crisis. Furnace Oil prices came down drastically during the 3rd Quarter of last year, but operating the Captive Gensets are still costlier when compared to the cost of power supplied by Electricity Board.

By implementing various cost reduction measures and production of flexible count pattern with more value added yarn, your Directors were able to achieve satisfactory results in the current market scenario.

FINANCE

The Company has availed working capital loan in foreign currency and incurred exchange loss of Rs. 880 Lakhs, of which an amount of Rs. 248 Lakhs is notional, since it is a provision entry made in accordance with Accounting Standard -11. This loss is because of rapid depreciation of rupee against dollar and the foreign currency loans were repaid at the higher exchange rate. On the other hand, because of depreciation of rupee, export sales realization was better compared to previous year, which has fully offset the above exchange loss.

To conserve the cash accruals for working capital of the Company and also considering the current working, the Company has approached the Banks for reschedulement of Term loan repayment installments of principal as per the norms suggested by the Reserve Bank of India. However the company is prompt in making the Interest payment on due dates.

DIRECTORS' REPORT

EXPORTS

On the export front during the year, we have made direct export of Cotton Yarn for a value of Rs. 84.36 Crores as against Rs. 83.80 Crores of the previous year.

Shri Ramco Bio-Tech, our Tissue Culture Unit, has exported live plantlets for a value of Rs. 70 Lakhs as against Rs. 197 Lakhs of the previous year.

Your Directors are thankful to M/s. Mitsubishi Corporation, M/s. Doko Spinning Co. Ltd., and M/s. Unitika Ltd., Japan for their continued support and efforts for promotion of exports to Japan and other countries.

MODERNISATION

As a part of continuous intensive modernisation programme, the Company has invested about Rs. 21.53 Crores by availing term loan under Technology Upgradation Fund (TUF) scheme for investment in state-of-the-art textile machinery & equipments like Elite Compact Set, Auto Coners, Carding Machines, TFO Machines, Soft Package Winding Machine etc.

EXPANSION

As reported in the Directors' Report in the previous year, the Company has implemented the expansion of Open End Spinning Unit at Andhra Pradesh with 1800 Nos. of automatic high speed Savio OE Rotors to produce high quality yarn at a project cost of Rs. 37.50 Crores. The project has been commissioned and commercial production has been started during December, 2008. This project is covered under Technology Upgradation Fund (TUF) scheme.

PROSPECTS FOR THE CURRENT YEAR

The cotton cost still has not come down as expected. The prices of yarn were stagnant due to recessionary trend in both domestic and global markets. The interest rates are coming down because of various measures taken by Reserve Bank of India. However, the power cut imposed in Tamil nadu to the extent of 50 % is severely affecting the operations of the Company and has also increased the power cost because of running Captive Gensets. The Company is maintaining high standards of quality yarn, cost effective production and stringent waste control measures. These measures strengthened the Company to face the challenges in the current scenario. By improving productivity, taking various measures for production of value added yarns and other cost reduction measures, your Directors are hopeful of achieving satisfactory results for the current year.

WIND MILL

The Wind Mill Division with an installed capacity of 21.90 M.W. is working satisfactorily. There were interruptions in the grid availability due to insufficient infrastructure facility at the evacuation point and also lower wind velocity during the peak season, which resulted in lower generation of power. The Division has generated 413 Lakhs Kwh as compared to 415 Lakhs Kwh of the previous year. The income during the year from the Wind Mill Division was Rs.15.55 Crores as against Rs.15.19 Crores of previous year.

DIRECTORS' REPORT

SHRI RAMCO BIOTECH (RESEARCH & DEVELOPMENT)

The working of the unit after charging all expenses but before providing interest and depreciation has resulted in operating profit of Rs.3 Lakhs. New initiatives have been taken to develop quality products and various new measures have been taken including setting up of poly house for hardening the plants near the marketing locations.
