EXPLANATORY STATEMENT PURSUANT TO SECTION 173(2) OF THE COMPANIES ACT, 1956

ITEM NO. 5:

The shareholders may note that Mr. Sandeep Lakhwara was appointed as the Managing Director for a period of 3 years with effect from 1st May, 2007 upon the terms & conditions including remuneration as approved by the Board at its meeting held on 30 April, 2007 and approved by the shareholders at their AGM held on 14 December, 2007.

Pursuant to the recommendation of the Remuneration Committee, the Board of Directors of the Company, at their meeting held on 30 April, 2010, re-appointed Mr. Sandeep Lakhwara as the Managing Director of the Company for a period of 3 years with effect from 1st May, 2010 at a salary of Rs. 1,00,000/- per month and upon the other terms and conditions as contained in the resolution pertaining to Item No. 5 of the Notice convening the AGM.

The abstract of the terms and conditions of appointment furnished in the Resolution pertaining to Item No. 5 may be treated as the statement required to be sent to the shareholders pursuant to Section 302 of the Companies Act, 1956.

Further, details regarding Mr. Sandeep Lakhwara, his expertise in specific functional areas, other Directorships / committee memberships, are furnished in the Annexure forming part of the Notice convening the AGM.

The Board recommends the resolution for approval of the shareholders.

Except Mr. Sandeep Lakhwara, none of the directors of the Company is concerned or interested in the said resolution.

Further, in terms of Clause 49 of the Listing Agreement entered into with the Stock Exchange viz., BSE, the shareholders may take note that Mr. V. Sivakumar, a non-executive director, does not hold any shares in the Company as on 12 August, 2010 (either in his own name or held by / for other persons on a beneficial basis).

3. MR. SANDEEP LAKHWARA

A brief resume and expertise of Mr. Sandeep Lakhwara is given under the Section “Profile of Directors” forming part of the Annual Report.

In terms of Clause 49 of the Listing Agreement entered into with the Stock Exchange viz., BSE, the shareholders may take note that Mr. Sandeep Lakhwara does not hold Directorship or Committee Chairmanship or Membership in any other Company.

LETTER FROM CHAIRMAN

Dear Shareholders,

This past year has been part of a journey that is going to lead our Company to not only eventually becoming a world class gold producer but also being a possible pioneer in the use of a new technology for extracting gold from the rocks without the use of Cyanide.

We have signed an MOU with the Karnataka Government for the establishment of a 2000 tpd gold processing facility in Ganajur to treat the ore extracted from this prospect. Our Mining License application over this prospect is in the final stages of processing with the State Government of Karnataka. Whilst approvals of the Director, Mines and Geology and the State Secretary have been received, the Mines Minister's approval is pending Applications will be made shortly for Environmental and other clearances.

The new technology to extract gold has been tested in the laboratory with positive results. The next stage will be to test its efficacy by building a pilot plant to treat at least ten tons per day of sulphidic ore provided from our Ganajur prospect. The system will allow for an environmentally clean process. All the heavy metals which cause so much world wide pollution from mines will be recovered instead of being left to pollute ground water.

If all goes well with the next stage, our Company will be amongst the first in the world to adopt this new environmentally friendly technology.

Our team at Ganajur have just completed a very successful drilling program. One of the drill holes passed through a 42.84 meter mineralized zone with an average grade of 8.9 g/t. This is the sort of result that a Mining Company can only dream about. What this now tells us, is that the potential for mining in Ganajur is excellent. Our aim during the next stage of drilling will be to try and prove up at least 500,000 ounces of gold. Our team believe that this is feasible.

Our on going battle with Hutti Gold Mines over legal rights to our new discoveries in the Hutti region is moving towards a conclusion. Revision Petition applications lodged in Delhi are being heard over the next few weeks. We believe our legal position is very strong as these areas were originally held by us under granted Reconnaissance Permits and considerable exploration work has been undertaken by us to upgrade knowledge on the prospect.

I would like to note that your company is also working very closely with the Government on various regulations relating to the enactment of new mining laws for the betterment of this sector. There have been some comments made lately on the inability of the company to fast track the grant of licenses. I have been personally involved at various levels with the State Governments and the Centre and can assure you that every effort is being made to ensure that licenses will be granted as soon as possible. As a benchmark, you need to compare the number of years taken by some of the world's major mining houses contemplating operations in India to actually commence such operations.

Deccan Gold Mines is at an exciting stage of its evolution. We are going to be a part of the Mining History of India. We not only plan to make good returns for our shareholders but we also plan to be a catalyst for social and economic change in the surrounding area of the Ganajur Mine, through our Foundation, called the Australian Indian Rural Development Foundation. Through this Foundation Deccan will be able to facilitate social and economic activities in the surrounding areas of the mine.

We are all excited in our company about the potential to develop a mine at Ganajur and though at times we may be frustrated with the Government and the bureaucrats dealing with our files, I can say categorically that we are now moving forward in a very positive way.

Yours Faithfully,

Charles E E Devenish
Chairman

PROFILE OF DIRECTORS

CHARLES E.E. DEVENISH

Chairman

Charles Devenish has extensive experience spanning 35 years in mining, with a large range of interests in India, Australia and Burma. He has strong involvement in mineral exploration in Australia and overseas for decades and was the founder and first chairman of two publicly listed companies in the 1980's and 1990's that pioneered diamond exploration in Australia. For 38 years, he was the Principal of Charles Edward Jewellers, one of Australia's leading specialist retail and wholesale outlets with international links in Europe, Middle East and USA. He also acted as an advisor to the Government of Vietnam on the development of that country's gemstone mining and cutting industry. Charles moved to India in August, 2002 and has been actively liaising with various Government Departments and providing support and guidance to progress the development of gold exploration and mining industry in India. His active role in exploration and mining projects, his profound knowledge of the mining industry, his extensive corporate background and his concerns for Indian rural development based on mining will provide significant and valued inputs to the Company.

SANDEEP LAKHWARA

Managing Director

Sandeep Lakhwara has several years experience advising junior Australian exploration and mining companies on development strategies. Educated at Curtin University in Western Australia, and a member of the Australian Society of Certified Practising Accountants (CPAs), Sandeep has been a principal and partner of several Australian based accounting practices specializing in capital raisings for the mineral industry, financial planning and corporate regulatory requirements for publicly listed companies. He has lived in Australia for over 2 decades, headed various organizations in the past, at times taking small start-ups to fully developed successful businesses, and moved to Bangalore, India during 2002 to oversee the development of the mineral exploration projects in India. He is primarily responsible for the acquisition and growth of Deccan Gold Mines Limited and is the Managing Director of the Company. Sandeep has made various presentations on factors influencing gold pricing, the operation and business model of international mineral exploration companies, and is regularly called upon to contribute articles on the gold mining industry to various newspapers and magazines.

V. SIVAKUMAR

Director

Mr. V. Sivakumar spent several years in equity and credit research in public markets with Crosby Securities, Peregrine Capital and CRISIL where his roles ranged from Analyst to Head of Research and functions included stock analysis, asset allocation and investment strategy and building and managing research teams and products. He also has six years industrial experience with ICI India where he worked in several commercial functions. Mr. Sivakumar holds engineering and management degrees from the Indian Institute of Technology and Indian Institute of Management, Ahmedabad respectively

PROF. V. K. GAUR

Director

Professor V.K. Gaur is an eminent geoscientist of this country. He is a former Director of the National Geophysical Research Institute. He is a Distinguished Scientist of the Council of Scientific and Industrial Research and Distinguished Professor at the Indian Institute of Astrophysics.

DR. M. RAMAKRISHNAN

Director

Dr. Ramakrishnan is a well known Precambrian Geologist. He was earlier Senior Deputy Director General of the Geological Survey of India. He is a Fellow of the Indian Academy of Sciences and Vice President of the Geological Society of India.

K.R. KRISHNAMURTHY

Director

K.R. Krishnamurthy is a well known Mining Engineer. He was General Manager of Chitradurga Copper Company and Manager at Ashanti Gold Fields, Ghana for 10 years. He was also Mining Consultant to Bharat Gold Mines Limited and many mineral based industries in India and abroad.

KEY PERSONNEL

CHIEF CONSULTING GEOLOGIST

DR. V. N. VASUDEV

Dr. V.N. Vasudev is Chief Consulting Geologist. An INSA Young Scientist Awardee with several years of experience in mineral exploration, Dr. Vasudev has published several papers on the geology structure, gold and sulphide mineralization in Archean greenstone belts of Dharwar Craton. He has also undertaken overseas research in Southeast Greenland and was associated with Russian geologists in a research project on Kolar Gold Fields, India. He was with Government of Karnataka, Department of Mines and Geology as a Senior Geologist and Mining Geologist of Chitradurga Copper Company Limited. He has carried out extensive literature research and field reconnaissance throughout India for the Company.

GEOLOGICAL CONSULTANT

S.C.R. PESHA, M.Sc., FGS

Mr. Peshwa has nearly 25 years of experience as a mining and exploration geologist and specializes in gold exploration and resource modeling studies. He worked as a Mining & Exploration Geologist for 13 years with Bharat Gold Mines Limited. He has the distinction of working in the world famous Champion Reef Mine and carried out detailed exploration of Champion lode system both in deep and shallow levels. This has resulted in delineating new parallel lodes of the Champion Lode system. From 1996 to 2002 he worked as a Project Manager with ACC Limited and was involved in exploration of gold and other minerals. Mr. Peshwa is an RQP holder from the Indian Bureau of Mines. He successfully carried out gold prospecting to Red Sea hills region of Sudan. Mr. Peshwa is responsible for all the Company's projects in the Hutti region.

GEOLOGICAL CONSULTANT

DR. M.K. DEVARAJAN

Dr. Devarajan guides the exploration activities in respect of some gold exploration projects of the company. He was with the Geological Survey of India for 17 years and while in GSI, had carried out geological mapping and exploration for copper in the extension areas of the world class Malanjkhand of Central India. He had also carried out exploration for manganese in the Sausar belt and for gold in the Mahakoshal belt. He also led the investigations for the site selection studies of a Nuclear Power Plant in the Ratnagiri district of Maharashtra.

GEOLOGICAL CONSULTANT

DR. M. HANUMA PRASAD

Dr. Hanuma Prasad has 8 years of experience as Geologist in Geological Survey of India and has carried out geological mapping and mineral resources assessment particularly gold, copper and nickel in the supra crustal belts in parts of Mahakoshal belt, Betul and Sakoli belt in Central India. He has several important publications to his credit.

GEOLOGICAL CONSULTANT

DR. SALEEM AHMED KHAN

Dr. Saleem Khan has over 26 years of experience as a Geologist in the Geological Survey of India. Dr. Saleem is highly experienced in geological mapping of all types of terrains and in exploration of gold, base metals and PGE. He holds the distinction of discovering the gold deposits of G.R. Halli, Kotemardi and C.K. Halli in Chitradurga schist belt and Lakkikoppa in Shimoga-Dharwar schist belt. He also carried out detailed exploration, including drilling for epithermal gold & silver mineralization in Republic of Djibouti (North East Africa). Dr. Saleem is presently involved in evaluating the gold resources in PL blocks of Mahakoshal belt in Madhya Pradesh, India. Dr. Saleem is an IBM recognized RQP for preparation of Mining Reports.

HEAD-LEGAL & COMPANY SECRETARY

S. SUBRAMANIAM

Mr. Subramaniam is an Associate Member of the Institute of Company Secretaries of India and a Law Graduate. He has 13 years of experience in the field of Company Law and other corporate laws. During his career, he has handled mergers, amalgamations, joint ventures, foreign collaborations etc., He is in charge of the legal and company secretarial matters and also functions as the Compliance Officer of the Company.

REPORT ON EXPLORATION ACTIVITIES

DGML Signs MOU with the Government of Karnataka

Deccan Exploration Services Pvt.Ltd, a subsidiary of DGML, signed an MOU with the Government of Karnataka during the Global Investors Meet at Bangalore on 4th of June 2010 for commencement of a Gold Mine and setting up of a processing plant at Ganajur village, which is subject to further feasibility study on the economic viability of doing so. As part of the MOU the state government has agreed to assist the company in getting the necessary approvals and clearances on priority as per rules and regulations. The state government will also endeavor to provide required infrastructure facilities such as water and power. The signing of the MOU captures our commitment for the establishment of a gold mine at Ganajur and the State Government of Karnataka's commitment to assist us in doing so.

Future plans for Ganajur Gold Project

DGML has filed a mining lease application for 0.29 sq.kms covering Ganajur Gold Project with the Karnataka State government which is being pursued vigorously. The ML application is in the final stage of being referred to the MOM, New Delhi by the State Government of Karnataka for approval.

DGML will also soon submit Terms of Reference and a pre feasibility report with the State Environment Assessment Authority to initiate Environmental clearance for the project. This will be followed by feasibility studies by an independent agency to establish the economic viability of mining operations and setting up a Gold Processing Plant at Ganajur as envisaged in the MOU.

To further enhance the existing resources mentioned in the following pages, DGML proposes to carry out detailed EM and IP ground geophysical survey in the entire Ganajur - Karajgi PL block of 2.20 sq. kms. Details of work undertaken to date are presented below.

DHARWAR-SHIMOGA BELT PROJECT

DGML explored the entire area of 5,329 sq km in the Dharwar-Shimoga Greenstone belt under 3 RP blocks and succeeded in identifying 22 prospects (Fig-1). Gold mineralization in all the prospects is hosted within sulphidic banded ferruginous chert. A total of 7 PL and 2 ML applications were submitted covering the prospects identified by DGML. Of the 7 PL applications only Ganajur-Karajgi PL was granted where detailed exploration is underway. Report of the exploration is furnished below:

1. Ganajur-Karajgi PL Block

Ganajur-Karajgi PL Block is part of the late Archaean-Dharwar-Shimoga greenstone belt in the western Dharwar Craton. Deccan Gold Mines Ltd (DGML) during the R.P. tenure carried out systematic reconnaissance in the Hanagal R.P. block covering an area of 1,542 Sq km.

DGML signs MOU with the Government of Karnataka on Ganajur Gold Project.

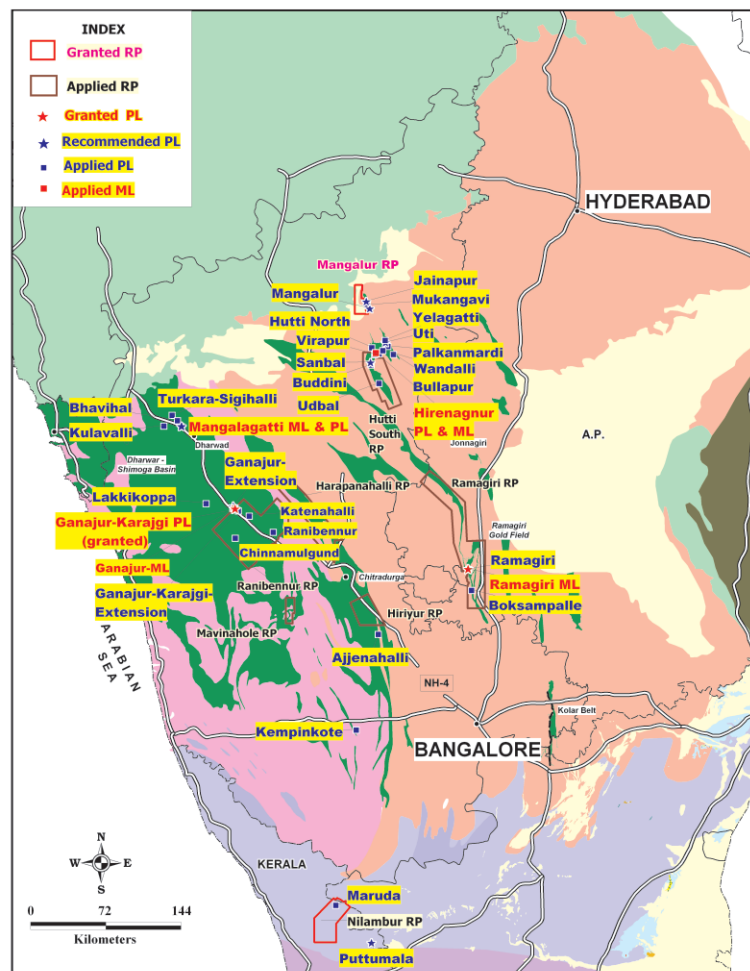

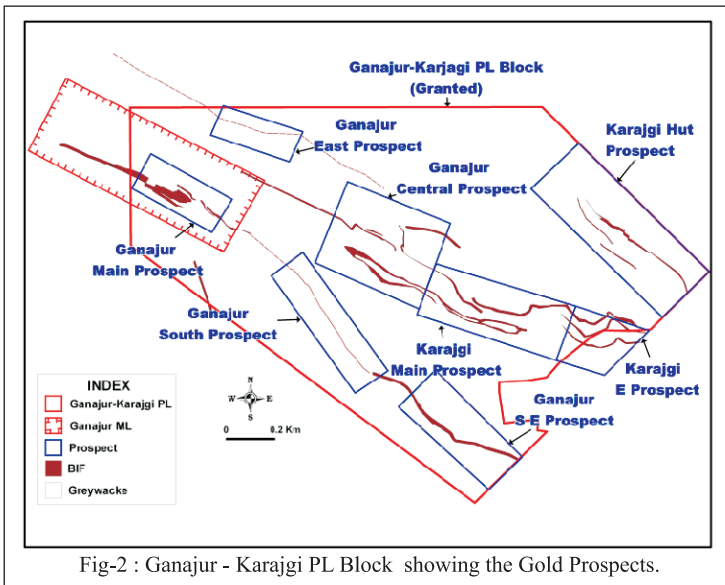

Fig-1 : Geological Map of Karnataka, Kerala & A.P. showing Gold Prospects under the control of DGML

The exploration efforts of DGML resulted in locating several significant gold prospects that included Ganajur Main prospect and the adjacent prospects in the Ganajur-Karajgi cluster (Fig-2).

DGML was granted the Prospecting Licence over an area of 2.2 sq.kms by the Government of Karnataka in September 2009.

Ganajur-Karajgi PL has eight gold bearing prospects designated as Ganajur Main, East, South, South East, Central prospects, Karajgi Main, Karajgi East and Hut prospects. The Ganajur Main prospect discovered by DGML has now progressed into a highly potential mineable resource. Immediately after the grant of the Prospecting Licence, DGML launched systematic and detailed exploration in Ganajur Main and its adjoining gold prospects. Exploration which has progressed substantially included trenching, diamond core and RC drilling in two phases in the PL block.

Phase I exploration involved 763.45 m of diamond

core drilling and 2328 metres of RC drilling at Ganajur Main, Central, SE prospects and Karajgi Main prospect while Phase II exploration consisted of 1739.45 m of resource and infill drilling at Ganajur Main Gold Deposit. Prospect wise exploration results are summarized below:

BH ID	From (m)	To (m)	Average Width (m)	Average Au (g/t)
G34	63	72	9	6.49
GMC-1	34.60	43.60	9.00	5.21

Fig-3 : Diamond Core Drilling operation at Ganajur Main Gold Prospect, Ganajur-Karajgi PL.

Ganajur Main Prospect:

The highly rated Ganajur Main gold prospect was investigated in detail in the phase I drilling programme. A total of 20 holes comprising of 10 diamond core and 10 RC drill holes were completed involving 1255.45 metres (Fig-3). The objective of the Phase I drilling programme was to explore the strike and depth continuity of the Ganajur Main ore deposit and also to carry out necessary infill drilling to increase the confidence level of the earlier drilling programme. More over the modern techniques such as core orientation and deviation surveys adopted during this drilling programme helped in understanding better the structural control of gold mineralization.

The average grade and width of mineralized zone intersected in the drill holes are furnished in Table below & in (Fig-4).

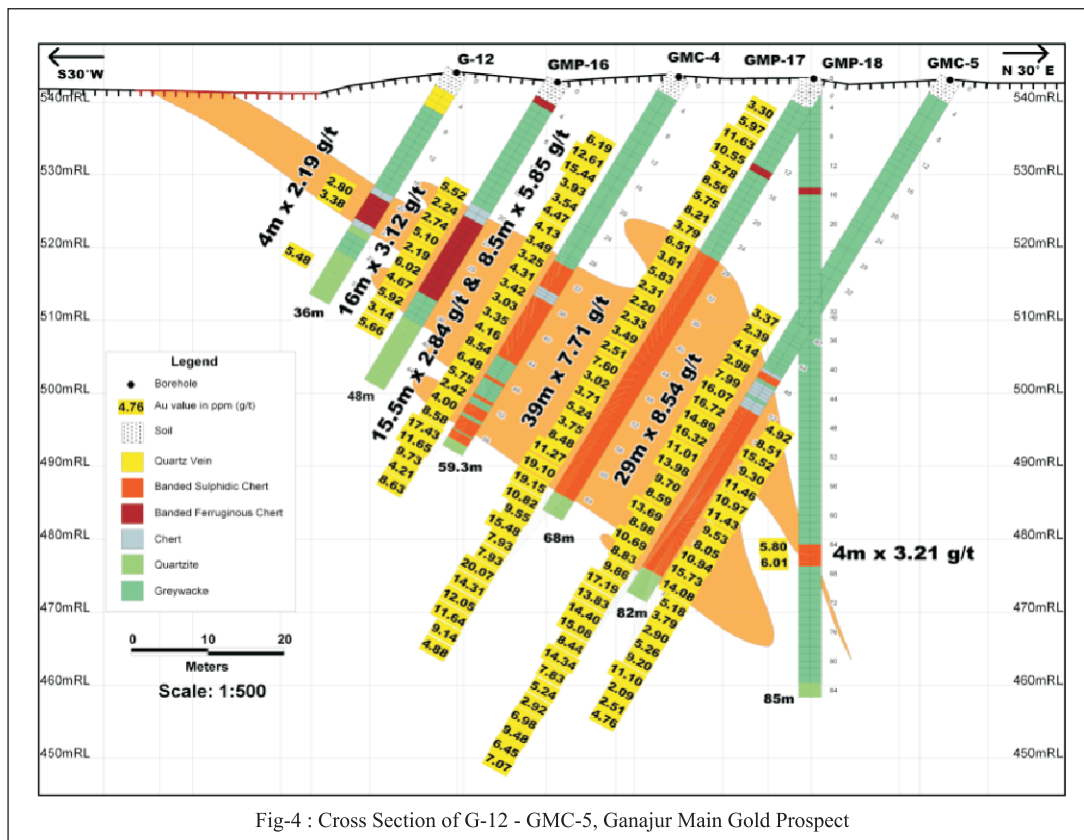

Fig-4 : Cross Section of G-12 - GMC-5, Ganajur Main Gold Prospect

Highlights of the drilling programme:

Core drilling was carried out using HQ accessories and down hole deviation was measured at regular intervals using sophisticated Bore hole camera. DGML followed strict quality control measures.

For the first time in India core orientation drilling was adopted for gold exploration for understanding the sub surface structures of the ore body. This technology to obtain oriented cores has been used successfully in Australia and other countries hosting large gold deposits.

Consolidation of the present drilling results with the results obtained during the RP tenure has resulted in increase in the overall length, depth and resources of the Ganajur Main ore body.

VISIT OF SRK

DGML appointed SRK Mining Services (India) Private Limited (SRK), for carrying out Independent Mineral Resource Evaluation and preparation of a Technical Report for the most promising Ganajur Main Gold Prospect. SRK team visited the project area in January and carried out detailed study of the exploration data, and an audit of QA/QC data. After a detailed evaluation of all the data SRK submitted a mineral resource estimation report as per internationally accepted JORC standards (Fig-5).

SRK also considered there is an opportunity to increase the mineral resources at depth below the current level of exploration and additional drilling will improve the classification of the resources. SRK also expressed satisfaction on the overall QA/QC procedures adopted by DGML.

Fig-5: Visit of SRK Consultants to Ganajur Main prospect.

The summary of the resource estimated by SRK is submitted below:

Category (JORC)	Quantity (tonnes)	Grade (g/t)	Gold (ounces)
1. Indicated			
Sulphide	1,430,000	4.45	204,600
Oxide	390,000	2.69	33,700
Total Indicated	1,820,000	4.07	238,300
2. Inferred			
Sulphide	182,000	2.28	13,400
Oxide	136,000	3.04	13,300
Total Inferred	318,000	2.61	26,700

Phase II Drilling

As per the recommendations of SRK, DGML carried out infill and resource drilling in order to explore the strike and depth continuity of gold mineralization of the Ganajur Main Prospect as per JORC standards. The drilling was also aimed at upgrading the existing category of resource. A total of 1730 metres of drilling were completed as per international standards and guidelines of SRK. Results of some of the drill holes received to date indicate extension of the ore body further North West by another 150 metres making the overall length of the Ganajur Main ore body to 600 metres. One of the drill holes, GMC-16 passed through high grade gold mineralization of 8.91 g/t over significant width of 42.84 m (Fig-6). The analytical results of GMC-11, 12, 16 and 20 received to date and given below are very positive.

Drill hole No.	From (m)	To (m)	Average Width (m)	Average Grade Au (g/t)
GMC-11	39.3	46.8	7.5	5.37
	54.2	57.7	3.5	6.65
	62.8	65.8	3	4.19
GMC-12	44	58.3	14.3	4.03
GMC-16	22.5	65.34	42.84	8.91
GMC-20	24.2	40.7	16.5	3

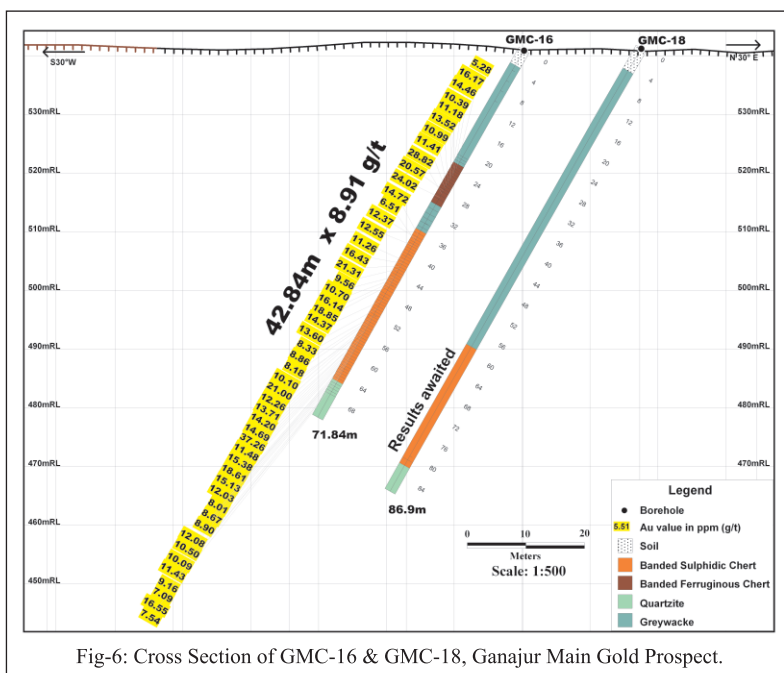

Fig-6: Cross Section of GMC-16 & GMC-18, Ganajur Main Gold Prospect.

Phase I and II drilling results have brought to light the existence of a high grade zone in the central portion of the Ganajur Main ore body for nearly 200 metres which is expected to increase the overall economics of the deposit (Fig-7).

Fig-7: Ganajur Gold ore body & proposed open pit mine design

Ganajur South East Prospect

Ganajur southeast prospect (GSEP) is located around 1.2 km SE of Ganajur Main prospect. Channel sampling and the follow up DTH drilling carried out during the R.P. tenure helped DGML to delineate a mineralized zone for a length of 455 metres.

Based on the initial reconnaissance carried out during the R.P. tenure, the north-west portion was found to be more promising and warranted further drilling. DGML carried out 576 meters of R.C. drilling involving 12 drill holes as part of the Phase I drilling programme. Some of the best drill intersections include 15m @ 6.23 g/t, 2m @ 4.36, 3m @ 2.43 g/t Au in GSEP-22, GSEP-24, GSEP-26 respectively.

Ganajur East Prospect

Ganajur east prospect is a new discovery of DGML as a result of recent geophysical survey and geological mapping. It is located around 500m east of Ganajur village and 300m north of Ganajur main prospect. The recent Ground magnetic survey and SP-Resistivity survey has resulted in delineating nearly 2.0 kms long NW-SE trending BIF band. All along this band a low geophysical SP and high resistivity anomaly was noticed.

DGML explored this band by excavating 4 trenches. The NW part of the chert band was more sulphidic compared to the SE part. One of the trenches analysed 12.0 g/t Au over 1.6 m width. DGML considers Ganajur East as highly prospective and plans to carry out RC drilling in the near future.

Ganajur Central Prospect

DGML carried out geological mapping, limited trenching, Resistivity- SP geophysical survey in the Ganajur central prospect. Based upon the recent work and the earlier exploration by DGML, two auriferous chert bands were delineated, named zone G and F. Previously one of the boreholes drilled for band G intersected 4m wide mineralized zone averaging 18.31 g/t Au. Trenches were exposed to trace the continuity of this mineralization one of which exposed 4.15 wide mineralized chert averaging 3.77 g/t Au.

DGML carried out a detailed RC drilling programme involving 661 metres from 16 holes. Best results were obtained in drill holes GCP-2 (2.0m @ 3.92 g/t Au) and GCP-7 (2.0m @ 6.33 g/t Au).

Karajgi Main and East Prospects

Karajgi Main is located 1 km East of Ganajur Main Prospect and comprises of two sulphidic chert bands designated as bands A and B. Band B has a drilled resource of 90000 tonnes averaging 2.23 g/t. Ancient workings are noticed all along this prospect. DGML explored the sulphidic bands A and B by geological mapping and trenching in addition to the ground geophysical magnetic survey. A total of 13 trenches were excavated and 48 samples were collected for gold analysis. Most of the trenches indicated good gold values in the range of 1.19 to 5.69 g/t over 2.0 to 4.0 m width.

Following the encouraging results Band A of the Karajgi Main prospect was explored by RC drilling involving 379 metres. Six bore holes returned significant gold values as given in the table below:

Drill hole No	Width(m)	Grade (g/t)
KMP-17	1	3.79
KMP-19	3	7.22
KMP-28	1	5.46
KMP-29	1	2.64
KMP-30	2	4.28
KMP-31	2	2.46

Karajgi East prospect is located east of Karajgi Main prospect. Geological mapping, channel sampling and the recent ground magnetic survey has resulted in delineating 3 BIF bands of which two bands designated as C and D are found to be promising with a cumulative strike length of 450 metres. The third zone exposed towards north is the strike extension of the band B of Karajgi Main Prospect. Two samples from the trenches assayed 19.54 g/t and 3.12 g/t respectively.

Karajgi Hut Prospect

Hut Prospect is located towards North East corner of the PL block. The recent Ground magnetic survey and the earlier rock chip sampling have revealed 3 auriferous sulphidic chert bands (Zones 1-3). One of the trenches exposed 7.0 m wide sulphidic BIF averaging 3.50 g/t Au.

2. Mangalagatti SE Prospect:

This prospect is 12 kms north of Dharwar city. RC drilling and channel sampling has revealed significant mineralization with high grade patches of gold. Two auriferous zones extending for nearly 500 metres over a width of 30 metres are defined (Fig-9). A probable resource of 1.5 million tonnes @ 1.63 g/t Au is estimated based upon results of shallow drilling programme. DGML has applied for a Prospecting Licence of 4 sq.kms and a Mining lease of 0.24 sq.kms covering the Mangalagatti Prospect. The Ministry of Mines approved the PL application and is with the State Government for final grant. The Detailed resource drilling will be undertaken once the PL is granted. Other prospects in and around Mangalagatti include Mangalagatti NW and Mangalagatti E. DGML has also identified several promising prospects at Bhavihal, Kuluvalli and Lakkikoppa, worthy of detailed exploration.

HUTTI-MASKI BELT PROJECTS:

Hutti Maski Greenstone belt is one of the most important Archaean gold bearing belts in India. The Auriferous tracts of Hutti greenstone belt is remarkably similar to the classic Archaean Superior Craton in Canada, the Yilgarn Craton in Western Australia and the Kolar greenstone belt in India. The Hutti-Maski belt hosts world class Hutti Gold deposit that is being presently mined by The Hutti Gold Mines Limited. DGML carried out exploration over an area 851 sq km in the Hutti Belt under its two Reconnaissance exploration Permits (RPs). The systematic exploration efforts of DGML geologists resulted in defining 21 gold bearing blocks. A total of 12 prospecting licenses (PLs) applications covering the 21 gold targets and 1 Mining lease (ML) application in Hirenagnur have been filed with the Karnataka State Government (Fig-10).

Karnataka Government's proposal to reserve the entire Hutti-Maski Belt in favour of Hutti Gold Mines is being challenged by DGML. The company filed a revision petition application with the Ministry of Mines, Delhi to adjudicate on the Karnataka Government's reservation proposal. The hearing is scheduled for August 2010. The outcome of the hearing will not be known at the time of going to press with the Annual report but hopefully will be available for disclosure during the course of the Annual General Meeting. Due to various delays in grant of the licences, DGML was unable to undertake further exploration in the Hutti-Maski prospective blocks as originally planned. Highlights of the key prospects which were explored by DGML during its RP tenure are re presented below.

A. Hutti Mine North Prospect

This block is located immediately north of the currently operating Hutti Gold Mine located 80 kms west of Raichur town in Karnataka. A total of eight parallel gold bearing quartz-sulphide veins are known to exist in the currently operating Hutti Mines. DGML's exploration resulted in tracing the extensions of atleast 5 of these lodes into DGML's PL block north of the Hutti Gold mine. The best finding was extension of the New East Reef which has analysed upto 10.0 g/t gold and the extension of the Main Reef that has analysed upto 16.0 g/t Gold. Strike Reef was explored by DGML by limited drilling with positive results.

DGML has applied for a Prospecting Licence that covers all the mineralized zones. A detailed drilling programme will be undertaken to explore the highly prospective North Hutti Block once the PL is granted.

B. Hirenagnur Prospect:

DGML considers Hirenagnur prospect as one of its best discoveries which is located 5 kms southeast of Hutti Gold Mines. Systematic exploration by means of geochemistry, ground geophysics, RC drilling and structural mapping has established a mineralized system of 2 kms length over a width of nearly 50 metres. Preliminary drilling indicates presence of 4 parallel mineralised zones of which the eastern most zone i.e zone III has a strike length of 600 metres. The drill hole data was processed by

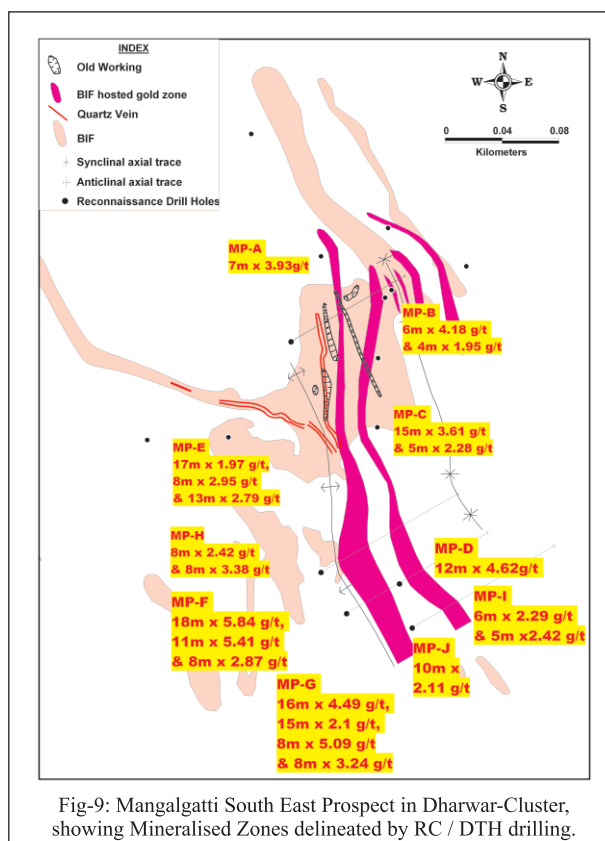

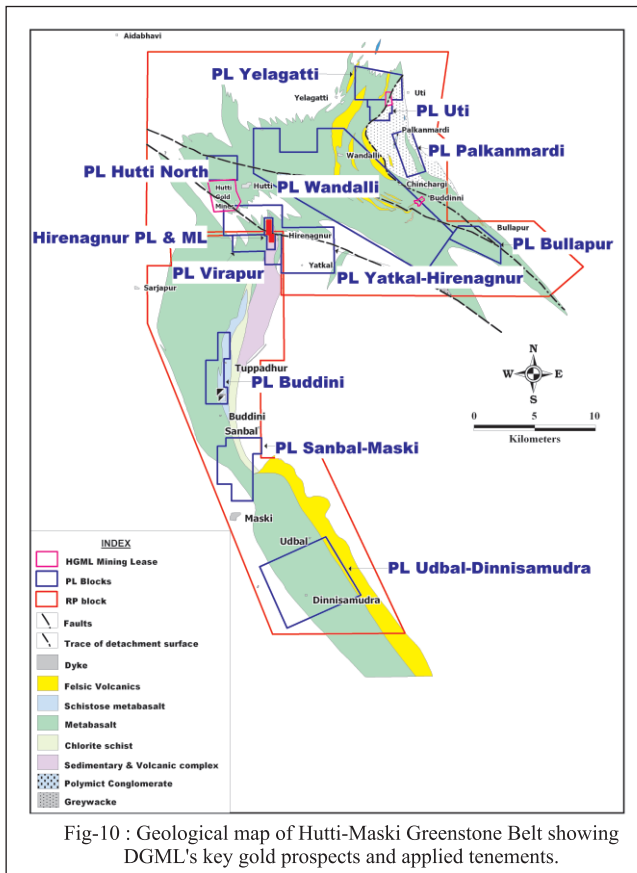

Fig-9: Mangalagatti South East Prospect in Dharwar-Cluster, showing Mineralised Zones delineated by RC / DTH drilling.

C. Chincherggi-Wandalli Block:

This block is an excellent exploration target defined by DGML as a result of extensive geochemical exploration, geological mapping, ground magnetic survey and limited Reverse Circulation drilling. DGML targeted a part of the major WNW trending Chincherggi- Amareshwara lineament between Chincherggi Prospect and Wandalli Prospect. Several ancient workings are seen all along this block.

In order to locate new targets in addition to tracing extensions of Wandalli and Chincherggi mineralisation, a bedrock geochemical programme was carried out involving 22 profiles and 1160 samples. The exploration has resulted in delineating two geochemical gold anomalies for 3.6 kms.

Other key projects of DGML in the Hutti-Maski belt are, Yatkan, Palkanmardi-Chincherggi block, Bullapur block, Uti Extensions, Sanbal-Maski block, Tuppadhur-Buddini block etc. All these prospects are covered under different PL applications.

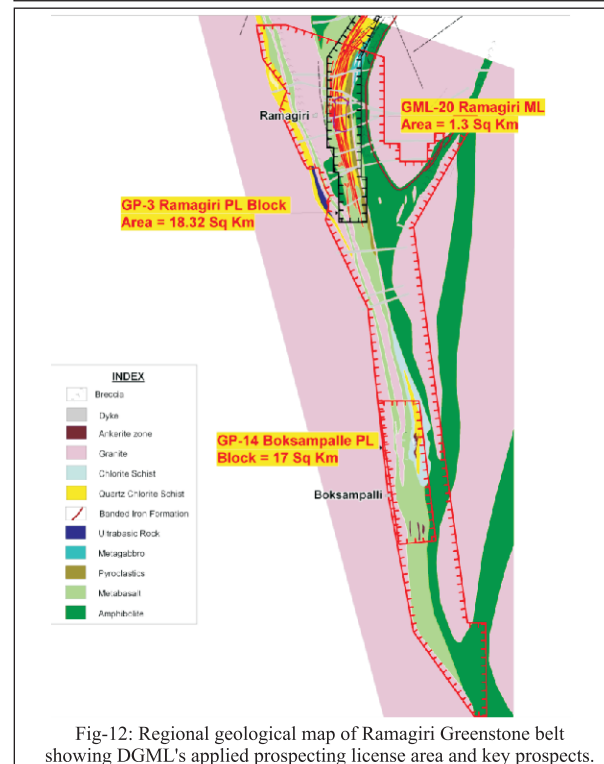

RAMGIRI BELT PROJECT

The Ramagiri belt forms the southern half of the Ramagiri-Penkacherla greenstone belt. Ramagiri is located 40km south - southeast of Anantapur and 180km due north of Bangalore. It is one of the important gold-bearing greenstone belts of the Eastern Dharwar Craton.

The Ramagiri belt comprises the well known 13 km long Ramagiri Gold Field (RGF) that was a scene of intensive

using Datamine Geological software which shows that all the 4 ore zones are open along strike and depth that would be investigated by detailed drilling. The data generated also suggests possibility of open pit mining of the Hirenagpur ore body (Fig-11). Some of the best drill intercepts are furnished below:

Drill hole No	Width (m)	Grade(g/t)
IHN-2	8	3.52
IHN-5	8	5.02
DHN-5	19	3.02
DHN-6	16	6.38
DHN-16	11	4.52

Sitting on either end of the HGML's Mangalur mine, Jainapur and Mangalur village prospects are considered very good exploration targets.

Out of the 3 PL applications filed by DGML, Jainapur PL was approved by the centre. The final grant notification from the State Government is awaited.

The Government of Karnataka granted Mangalur-Jainapur Reconnaissance permit over an area of 243.34 sq.kms and the same was executed on 30-6-2010. This RP block covers the western portion of the Mangalur greenstone belt. DGML plans to initiate the reconnaissance in the new RP.

DGML's Consultancy Wing

DGML's consultancy wing launched through Deccan Exploration Services Pvt Ltd (DES), a fully owned subsidiary of DGML has made steady progress during the last year. The objective of this consultancy wing is to provide technical services in geological exploration and mining to the prospective clients both within India and abroad. These services also include helping clients in acquiring mineral assets both in India and abroad.

DES has offered services in remote sensing, geological and geophysical interpretations to Reliance Energy Ltd for oil projects in Yemen and Peru in association with its technical partner RMSI. DES also carried out remote sensing studies for a chromite project of Tata Steel in Iran in association with RMSI.

Recently DES completed litho-structural mapping and ground magnetic surveys for M/s Orissa Manganese and Minerals Ltd (OMM) in Orissa and Jharkhand.

DES is currently working on a limestone project in Tamilnadu for Aditya Birla group's Ultra Tech Cements. The contract involves complete geological exploration including drilling and resource estimation.

Other consultancy services carried out include assessment of beach sand deposits in Tamilnadu for Siddique Infrastructure Pvt. Ltd, assessment of coal deposits in Madagascar for Thriveni Earth Movers Pvt. Ltd., due diligence and assessment of a large limestone deposit in Madagascar for V.M.Salgaocar Pvt.Ltd. and for a Gold project in Malaysia for Star Exports & Imports Pvt. Ltd.

DGML believes that the consultancy wing with its strong technical expertise will blossom into a world class unit with steady cash flows.

DIRECTORS' REPORT

Dear Shareholders,

We have pleasure in presenting the Annual Report on the business operations of the Company along with the Statement of Audited Accounts for the year ended 31st March 2010.

1. Financial Results

(Rs in '000)

Particulars	2009-10	2008-09
Total Income	4,188	13,282
Profit/(Loss) before Taxation	(6,118)	(2,364)
Profit/(Loss) after Tax	(6,118)	(2,424)
Balance brought forward	(24,873)	(22,236)
Balance transferred to Balance Sheet	(31,133)	(24,873)

During the year, the Company incurred Rs. 141.49 lac on exploration activities and Rs. 88.19 lac on administrative and other expenses. The cumulative amount spent on exploration activities of Rs. 576.23 lac as on 31 March, 2010 has been transferred to pre-operative expenses.

2. BUSINESS OPERATIONS AND OUTLOOK

For full details on the operations of the Company during the period under review, please refer the segment titled "Report on Exploration Activities" and the segment titled "Status of Exploration Permits and Applications" published elsewhere in this Annual Report.

Soon after taking office in June, 2009 the Union Government approved a 100 day Agenda for the Ministry of Mines to enable focus on key items affecting the Mining Sector for fast track implementation. The new MMDR Act incorporating the key features of the National Mineral Policy, 2008 was placed on the Ministry's Website and was discussed with State Governments, Central Ministries, Confederation of Indian Industry and other Stakeholders. It is expected that the Legislation would be introduced in the Parliament soon after clearance from the Union Cabinet.

Some of the steps that have already been taken by the Union Government include operationalisation of a mineral concession approval software to make it simple and investor friendly; creation of a Techno Economic Think Tank which has started functioning from January, 2010 to provide policy inputs for decision making on mineral policy etc.,

It is expected that the Government would come out with the much awaited legislative and regulatory initiatives which would enable India to play a leading role in the mining and mineral exploration sector.

The highlights of the operations undertaken by the Company during the year under review are summarized hereunder:

- Appointment of SRK Mining Services (India) Private Limited (SRK), for carrying out Independent Mineral Resource Evaluation and preparation of a Technical Report for the most promising Ganajur Main Gold Prospect of Deccan Exploration Services Private Limited (DESPL), a wholly owned subsidiary of the company. SRK submitted its Report during May, 2010 as per the internationally accepted JORC standards.
- SRK in their conclusions note that "DESPL was successful in delineating an Indicated Mineral Resource estimated at total 1.8 million tonnes grading an average of 4.07 grams per tonne gold and an additional 0.32 million tonnes grading 2.61 grams per tonne gold in the Inferred Category".
- The summary of the resource estimated by SRK is given in the section 'Report on Exploration Activities'.
- Results of some of the drill holes of the Ganajur Prospect received to date indicate extension of the ore body further North West by another 150 metres making the overall length of the Ganajur Main ore body to 600 metres. One of the drill holes, GMC-16 passed through high grade gold mineralization of 8.91 grams/tonne over significant width of 42.84 m. Further, the analytical results of GMC-11, 12, 16 and 20 received to date are also very positive. Phase I and II drilling results have brought to light the existence of a high grade zone in the central portion of the Ganajur Main ore body for nearly 200 metres which is expected to increase the overall economics of the deposit.

- DESPL, a subsidiary of the company signed an MoU with the Government of Karnataka during the Global Investors Meet at Bangalore on 4 June, 2010 for commencement of a gold mine and setting up of a processing plant at Ganajur village. The signing of the MoU captures our commitment for the establishment of a gold mine at Ganajur and the State Government of Karnataka's commitment to assist us in doing so.
- Mining Lease (ML) application for Ganajur is being pursued actively and is in the process of being forwarded to the Ministry of Mines, New Delhi by the Government of Karnataka.
- Mangalur-Janiapur Reconnaissance Permit was granted by the Government of Karnataka over an area of 243.34 sq. kms., and the RP Deed was executed on 30 June, 2010. This RP block covers the western portion of the Mangalur greenstone belt and has several promising exploration targets.
- The company's consultancy wing, comprising a strong technical team and being operated through DESPL, a subsidiary of the company made steady progress during the last year and the future looks promising.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INTRODUCTION

Established in 2003 by promoters with deep roots in the exploration and mining sector, Deccan Gold Mines Limited (DGML) is the first and the only gold exploration company listed on the Bombay Stock Exchange Limited (BSE). DGML brings to India, a wealth of international technical know how and experience in the gold exploration and mining sector. Since its establishment, DGML has actively pursued gold exploration activities in all of its exploration prospects that resulted in identification of probable gold resources at several locations. DGML now has a large portfolio of exploration prospects in the States of Karnataka, Andhra Pradesh and Rajasthan.

Details on the results of DGML's exploration work has been provided under the heading "Report on Exploration Activities". At the time of preparing this report, we are awaiting the results of our recently concluded drilling program in our Ganajur prospect. A Mining License application has been lodged over this prospect and is awaiting clearance from the Karnataka Chief Minister's Office. In the meanwhile, we have signed an MOU with the Karanataka Government to establish a 1000 ton per annum gold processing facility close to our Ganajur prospect subject ofcourse to environmental and other clearances being obtained for Mining. The MOU was signed during the Global Investor's Meet held in Bangalore in June 2010.

A comprehensive list of the prospects acquired by DGML and its 100% owned subsidiary Deccan Exploration Services Private Limited (DESPL) has been provided under the heading "Exploration Permits and Applications".

DGML now awaits the grant of its applications following which it will undertake detailed feasibility studies to ascertain the commerciality of gold mining operations at these locations.

Exploration companies, by their very nature, have long gestation periods between exploration and discoveries. DGML in this respect is no exception. This gestation period has been further impacted by the delays in grant of permits by the Government authorities. The Management of DGML is intensively pursuing applications lodged by the company at all government levels and whilst very concerned about the long delays and the impact such delays have on the growth and development of the company, remains committed to the cause.

INDUSTRY REVIEW

India has a long history of gold exploration and mining. But in recent years, it is relatively under-explored in terms of mineral prospecting and has a large quantity of high-quality reserves which coupled with low labour and conversion costs make it an attractive destination for mineral exploration, mining and value addition.

Continuing with the initiatives taken last year, the Union Government has since drafted a New Legislation to give effect to the National Mineral Policy, 2008. This legislation is expected to address aspects relating to transparency and simplicity in the concession regime; regulatory environment; and sustainable development framework. It may be noted that the draft New Legislation was discussed with the State Governments, Central Ministries, CII and other Stakeholders. It is expected that the legislation will be placed before the Parliament at the earliest. To ensure that the mineral concession system is not only simple and investor friendly, but also transparent and quick, a mineral concession approval software module has been developed and operationalised with effect from 1 February, 2010.

The mineral exploration sector in India keenly awaits the legislative and regulatory initiatives from the Government to promote private and foreign investment and introduction of internationally compatible mining policies.

PERFORMANCE

Full details of exploration work undertaken by the Company are contained in "Report on Exploration Activities" forming part of this Annual Report. The status of our applications is contained in this Annual Report under the heading "Exploration Permits and Applications".

DGML incurred a total expenditure of Rs. 576.23 lacs (cumulative) on exploration on its prospects as on 31 March 2010. The amount of exploration expenditure (cumulative) incurred as on 31 March, 2009 was Rs. 437.74 lacs.

Administrative and other costs for the year ended 31 March 2010 were Rs. 88.19 lacs compared to Rs. 108.91 lacs for the year ended 31 March 2009.

The net loss of the company for the year ended 31 March 2010 was Rs. 61.18 lacs compared to Rs. 23.64 lacs for the year ended 31 March 2009.

DGML's working capital funds as at 31 March 2010 were Rs. 235.63 lacs compared to Rs. 54.65 lacs for the year ended 31 March 2009.

It is pertinent to note that exploration companies by their very nature will not generate mining revenues until commencement of mining operations.

RISKS AND CONCERNS

Mineral exploration involves significant risk and the mining industry is highly speculative. Areas of uncertainty include the size and nature of the mineral resource, environmental issues associated with exploitation and the activity of competitors.

Gold exploration is a high risk business with no guarantee of success and to that extent investment in gold exploration would be speculative. The projects involve long gestation periods and there is no assurance that exploration of gold tenements would result in discovery of an economic deposit.

Resource estimates are expression of judgment based on knowledge, experience of promoters and industry practice. Estimates, which are valid when made, may change significantly, when new information becomes available. Also, the reserve estimates are not precise and depend on some interpretations, which may prove to be inaccurate. Should the company encounter mineralization or formations different from those predicted by past drilling and mining, resources might have to be altered.

The Company's future revenues will depend on the economic viability of the Company's mineral properties based on international commodity gold price trends. International gold prices fluctuate and are affected by many factors including the supply and demand for gold, production levels of various nations, forward selling by producers, international currency exchange rates etc., Further, regulatory changes relating to import – export / customs duty and change in relevant taxes, legal and administrative regime, accounting practices and government policies may have an impact on the Company's financial performance.

In the absence of cash flow from operations, the Company may have to rely on the capital markets to fund its operations. Although the Company has been successful in the past in obtaining financing through the sale of equity securities, there can be no assurance that additional funding will be available, or available under terms favourable to the Company in future. Failure to obtain such additional finance could result in delay or indefinite postponement of further exploration and the development of the Company's Projects.

All the above factors notwithstanding, your Company and its Directors believe that they have adequate experience and access to expertise and capital sources that will enable the Company to successfully develop, launch and execute its projects successfully.

OUTLOOK AND OPPORTUNITIES

India is one of the largest consumers of gold in the world importing about 400 to 600t of the yellow metal every year. It is estimated that the country contains about 9% of the global gold reserves in its vast tracts of under explored terrain. India was a leading gold producing country around a century ago when there were about 100 big and small gold mines in operation. Today, it produces only around 4 tonnes which is a mere 0.4% of its gold consumption. The decline of the Indian gold mining industry can be directly attributed to the nationalistic policies of Independent India, which for several decades prevented private and foreign investment in exploration and mining for gold.

Even after the introduction of the new regulatory regime in 1993 and the opening up of the sector to private and foreign investment, no major gold mines have been opened up in India. This is due to the lack of investor friendly regulations and the excessive delays and attendant bureaucracy in the grant of mineral concession permits / licenses. This is further aggravated by the lack of security of tenure of mineral concession licences with the Government coming in at the last moment and reserving the areas for state-owned institutions after the private sector has spent time and effort on exploration. As a result, several of the major and junior explorers that entered India with zeal and enthusiasm have walked away from the country in the last few years.

By contrast, over this same period, gold mining industries in Australia, Canada, South Africa and now China have attracted huge private investments in the gold exploration and mining sector. On average, Australia spends about US\$300 million per annum on gold exploration, where as India spends less than US\$5 million. Most of Australia's money is raised through public issue of shares in exploration/mining companies and through institutional investment.

A large quantum of funds has been spent on exploration in the other countries noted above. There is much greater comfort derived from the regulatory regimes in these countries both by the investors and the promoters enabling the industry to

flourish to its fullest potential. There are several hundred companies operating in the gold exploration/mining sector in these countries. These same companies are wary of entering India.

Despite all these shortcomings, Indian terrain offers ample opportunities for major gold discoveries. A large part of India is covered by ancient rocks (>2 billion year old), which have been hosts to about 60% of the gold production in the world. There are records of about 800 ancient diggings from where gold has been recovered in the past. In addition, exploration by governmental agencies in the last few decades has also been successful in identifying a few gold discoveries, which can become producing mines.

It is hoped that the new mining legislation that seeks to give effect to the National Mineral Policy, 2008 would be approved by the Union Cabinet and introduced in the Indian Parliament at the earliest. The industry expects that this new legislation will help overcome the earlier pitfalls and facilitate the growth of gold exploration and development of new gold mines.

It is also hoped that the Indian government and the country's Regulators, follow the international examples of countries like Australia, Canada, South Africa, UK and others and facilitate private and public participation in the gold exploration and mining sector, by allowing more exploration companies to list on its Stock Exchanges and raise capital for development. Further, the Government should also look at providing tax incentives to the gold exploration and mining industry, as has been done in other countries in the past to boost investment in the sector.

India has all the ingredients necessary to enable it to become the world's most productive mining country. It has a unique combination of advantages to generate minerals-based economic development of enormous scale and value which include, a vast array of virgin mineral resources; a large pool of well trained geologists, geophysicists and mining engineers; state of the art technology etc.,

ADEQUACY OF INTERNAL CONTROL

The Company has in place adequate internal control systems, which assure proper recording of transactions of its operations and also ensure protection against misuse or loss of the Company's assets. The Company has constituted an Audit Committee and has assigned to it tasks that will further strengthen the internal audit system.

SUSTAINABLE DEVELOPMENT

DGML is committed to sustainable development; we believe in creating sustainable values that our employees, business partners and shareholders can uphold and believe in. We strive to meet the needs of all our stakeholders. DGML believes in making a positive contribution to the community in which we are involved. Our mission is to increase the known gold resources base of the country in a way that enhances the well being of its people, the environment, and the investors and stakeholders of the Company.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of the applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include the availability of economically viable deposits, changes in Government regulations, tax regimes, economic developments in India and other incidental factors.

PRACTISING COMPANY SECRETARIES' CERTIFICATE ON CORPORATE GOVERNANCE

To

The Members

AUDITORS' REPORT

To
The Members,

We have audited the attached Balance Sheet of **DECCAN GOLD MINES LIMITED**, as at 31st March 2010 and also the Profit and Loss Account and the Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

1. As required by the Companies (Auditor's Report) Order, 2003(as amended) issued by the Central Government of India in terms of sub-section (4A) of Section 227 of The Companies Act, 1956 we enclose the annexure statement on the matters specified in paragraphs 4 and 5 of the Order.
2. Further to our comments in the Annexure referred to in Paragraph 1 above, we report that:
 - a. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, Profit & Loss Account and the Cash Flow Statement referred to in this report are in agreement with the books of account.
 - d. In our opinion the Balance Sheet, Profit & Loss Account and the Cash Flow Statement dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956.
 - e. On the basis of written representations received from directors as on 31st March, 2010 and taken on record by the Board of Directors, we report that none of the Directors are disqualified as on 31st March, 2010 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.
 - f. In our opinion and to the best of our information and according to the explanations given to us, the said accounts read together with the notes thereon give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
 - I. In the case of **Balance Sheet**, of the state of affairs of the Company as at **31 March, 2010**, and
 - II. In the case of **Profit & Loss Account**, of the **LOSS** of the company for the year ended on that date, and
 - III. In the case of **Cash Flow Statement**, of the Cash flows for the year ended on that date.

ANNEXURE TO THE AUDITOR'S REPORT OF EVEN DATE

(Referred to in paragraph 1 thereof)

1. In respect of Fixed Assets –
 - a) The company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - b) The fixed assets have been physically verified by the management at reasonable intervals during the year. We are informed that no material discrepancies were noticed by the management on such verification.
 - c) Based on our scrutiny of the records of the company and the information & explanation received by us, we report that the company has not disposed of any fixed assets during the year.
2. As the company has not purchased or sold any goods during the year, nor does the company have any opening stock, therefore the requirement to report the physical verification of stocks or maintenance of inventory records in our opinion, does not arise.
3. The company has not granted or taken any loans to/from companies, firms or other party covered in the register maintained u/s.301 of the Companies Act, 1956.
4. In our opinion and according to the information and explanations given to us, there is adequate internal control system commensurate with the size of the Company and the nature of its business, for the purchase of inventory and fixed assets and for the sale of goods and fixed assets. Further, on the basis of our examination of the books and records of the company, carried out in accordance with the auditing standards generally accepted in India and according to the information and explanations given to us, we have neither come across nor have we been informed of any continuing failure to correct weaknesses in the aforesaid internal control system.
5.
 - a) Based on the audit procedures applied by us and the information and explanations provided by the management, we are of the opinion that the transactions that need to be entered into the register maintained under section 301 have been so entered.
 - b) In our opinion and according to the information and explanations given to us, the transactions made in pursuance of contracts or arrangements entered in the register maintained under section 301 and exceeding the value of Rs. 5 lacs in respect of any party during the year have been made at prices which are reasonable having regard to prevailing market prices at the relevant time.
6. In our opinion and according to the information and explanations given to us since the company has not accepted any deposits from public within the meaning of section 58-A, 58AA or any other provision of the Act, the question of compliance with the provisions of section 58A, 58AA or any other provisions of the Act does not arise.
7. In our opinion the Company has an internal audit system commensurate with its size and nature of its business.
8. As informed to us, the Central Government has not prescribed the maintenance of Cost records under section 209(1)(d) of the Companies Act, 1956.
9.
 - a) According to the records of the company, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues, including Income Tax, Sales Tax, Wealth Tax, Custom Duty, Excise Duty, Service Tax, Cess and other statutory dues applicable to it.

According to information & explanation given there were no undisputed amounts payable in respect of income tax, wealth tax, service tax, sales tax, custom duty, excise duty, service tax cess & other statutory dues which remained outstanding as at 31st March, 2010 for a period more than six months from the date they became payable.
 - b) According to the records of the Company, there are no undisputed dues of sales tax, customs duty, wealth tax, service tax and excise duty / cess except as under :

Name of Statute	Amount (Rs. In Thousands)	Period for which it relates	Forum where dispute is pending
Income Tax Act, 1961	1813.17	2006-07	Commissioner of Income Tax (Appeals)

10. The accumulated losses of the company are not more than 50% of its net worth as at 31st March 2010. The company has incurred a cash loss of Rs.52.13 lacs in the current financial year and Rs.15.99 lacs in the immediately preceding financial year.
11. According to the records of the company, the company has not borrowed from financial institutions or banks or issued any debentures during the year, Hence in our opinion, the question of reporting on defaults in repayment of dues to financial institutions or banks or debenture holders does not arise.
12. According to the information and explanation given to us the company has not granted any loans and advances on the basis of security by way of pledge of shares, debentures or other securities.
13. In our opinion, and to the best of our information and according to the explanations provided by the management, we are of the opinion that the company is neither a Chit Fund nor a nidhi /mutual benefit society. Hence, in our opinion, the requirements of para 4 (xiii) of the Order do not apply to the company.
14. As per records of the company and information and explanations given to us by the management, company is not dealing or trading in shares, securities, and debentures and other investments.
15. The company has not given any guarantee in connection with loans taken by others from banks or financial institutions.
16. According to the records of the company, the Company has not taken any term loan.
17. According to the information and explanations given to us and, on an overall examination of the balance sheet of the company, we report that no funds raised on short-term basis have been used for long-term investment by the company.
18. According to the records of the company and the information and explanations provided by the management, the company has not made any preferential allotment of shares to parties and companies covered in the register maintained u/s.301 of the Act.
19. No debentures have been issued by the Company during the year and hence, the question of creating securities in respect thereof does not arise.
20. The company has not raised any money by public issues during the period covered by our audit report.
21. Based upon the audit procedures performed and information and explanations given by the management, we report that no fraud on or by the Company has been noticed or reported during the course of our audit.

**SCHEDULE 'J'****SIGNIFICANT ACCOUNTING POLICIES AND NOTES ANNEXED TO BALANCE SHEET****AS AT 31st MARCH, 2010****STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES:****A. Basis of accounting:**

The financial statements are prepared under the historical cost convention and comply with the applicable accounting standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956.

B. Fixed Assets:

Fixed Assets are stated at cost of acquisition less depreciation. All costs relating to the acquisition and installation of fixed assets are capitalised.

C. Depreciation:

- i) Depreciation is provided as per Written Down Value prescribed under Schedule XIV of the Companies Act, 1956.
- ii) Depreciation on Leased Premises is provided over a period of 5 years i.e. the term of the lease.

D. Foreign Currency transactions:

Transactions of foreign currencies are recorded at the exchange rates prevailing on the date of the transaction or at the exchange rate under related forward exchange contracts. The realized exchange gains/losses are recognized in the Profit & Loss Account. All foreign currency, assets / liabilities are translated in rupees at the rates prevailing on the date of Balance Sheet.

E. Investments:

- a. Long term investments are carried at cost after providing for any diminution in value, if such diminution is of other than temporary nature.
- b. Current investments are carried at the lower of cost and market value. The determination of carrying cost of such investments is done on the basis of specific identification.

F. Taxes on income:

- i. Current year tax is determined in accordance with Income Tax Act, 1961 at the Current Tax rates based on assessable income.
- ii. The Company has carried forward losses under Tax Laws. In absence of virtual certainty of sufficient future taxable income, deferred tax asset has not been recognized by way of prudence in accordance with Accounting Standard 22 "Accounting for taxes on income" issued by The Institute of Chartered Accountants of India.

G. Impairment of Assets:

At each balance sheet date, the carrying amounts of fixed assets are reviewed by the management to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the assets, is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an assets net selling price and value in use.

H. Revenue Recognition:

Revenue is recognised to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.

- i. Exploration Income is recognised when services are provided
- ii. Interest Income is recognised on accrual basis
- iii. Dividend Income is accounted on accrual basis when the right to receive the dividend is established

I. Employee Benefits

Leave encashment : - The company does not have a policy of carry forward of pending leaves and hence no provision for the same is made as mentioned under AS - 15 issued by ICAI.

Gratuity : - Gratuity provision is made for qualifying employees. Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit cost method.

J Provisions , contingent liabilities and contingent assets

Estimation of the probability of any loss that might be incurred on outcome of contingencies on basis of information available upto the date on which the financial statements are prepared. A provision is recognised when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. In cases where the available information indicates that the loss on the contingency is reasonably possible but the amount of loss cannot be reasonably estimated, a disclosure to this effect is made in the financial statements. In case of remote possibility neither provision nor disclosure is made in the financial statement. The company does not account for or disclose contingent asset, if any.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES

ANNEXED TO CONSOLIDATED BALANCE SHEET AS AT 31ST MARCH, 2010

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of accounting

The financial statements are prepared under the historical cost convention and comply with the applicable accounting standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956.

B. Fixed Assets:

Fixed Assets are stated at cost of acquisition less depreciation. All costs relating to the acquisition and installation of fixed assets are capitalized.

C. Depreciation:

- 1) Depreciation is provided as per Written down Value prescribed under Schedule XIV of the Companies Act, 1956.
- 2) Depreciation on Leased Premises is provided over a period of five years i.e the tenure of the lease

D. Foreign Currency transactions :

Transactions of foreign currencies are recorded at the exchange rates prevailing on the date of the transaction or at the exchange rate under related forward exchange contracts. The realized exchange gains/losses are recognized in the Profit & Loss Account. All foreign currency assets / liabilities are translated in Rupees at the rates prevailing on the date of Balance Sheet.

E. Investments:

- (a) Long term investments are carried at cost after providing for any diminution in value, if such diminution is of other than temporary nature.
- (b) Current investments are carried at the lower of cost and market value. The determination of carrying costs of such investments is done on the basis of specific identification.

F. Taxes on income:

- i. Current year tax is determined in accordance with Income Tax Act, 1961 at the Current Tax rates based on assessable income.
- ii. Deferred tax is recognised subject to the consideration of prudence, on timing differences being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. Deferred tax assets are recognised and carried forward to extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

G. Impairment of Assets:

At each balance sheet date, the carrying amounts of fixed assets are reviewed by the management to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an assets net selling price and value in use.

H. Revenue Recognition:

Revenue is recognised to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.

- i. Exploration Income is recognised when services are provided
- ii. Interest Income is recognised on accrual basis
- iii. Dividend Income is accounted on accrual basis when the right to receive the dividend is established

I. Employee Benefits:

Leave encashment : - The company does not have a policy of carry forward of pending leaves and hence no provision for the same is made as mentioned under AS - 15 issued by ICAI.

Gratuity : - Gratuity provision is made for qualifying employees. Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit of cost method.

J. Provisions, contingent liabilities and contingent assets:

Estimation of the probability of any loss that might be incurred on outcome of contingencies on the basis of information available upto the date on which the financial statements are prepared. A provision is recognised when an enterprise has a present obligation

as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions.

These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. In cases where the available information indicates that the loss on the contingency is reasonable possible but the amount of loss cannot be reasonably estimated, a disclosure to this effect is made in the financial statements. In case of remote possibility neither provision nor disclosure is made in the financial statement. The company does not account for or disclose contingent asset, if any.
