MANAGEMENT DISCUSSION AND ANALYSIS

Financial Review

Your Company earned a net profit of ₹ 629.52 Lacs for the financial year ended 31st March, 2012 as compared to previous year's net profit of ₹ 521.49 lacs. Depreciation during the year was ₹ 9.06 Lacs as compared to ₹ 10.52 Lacs in the previous year. Provision for taxation during the year is ₹ 251.24 Lacs including Deferred Tax Provision as compared to ₹ 212.35 Lacs in previous year.

Opportunities

During the year 2011-12 the Indian market has witnessed a turbulent socio-political environment with uncertainty. The Sensex has recorded a negative return of 10.5% and closed the year at 17,404 as on 30th March, 2012, while touching a low of 15,175 on 20th December, 2011. Though, the Government had estimated GDP growth to be above 8% for F.Y. 2011-12, the supply constraints in the economy has lead to higher inflation and a fall in the GDP growth to 6.5%. The revenue and earnings growth has now become extremely sector and company specific. Investors, like your company, would have to carefully sieve through the maze of equity options while investing since large number of companies have substantial de-growth and experiencing considerable financial stress. A depreciating Indian rupee is also a cause of concern for asset managers and may make India an unattractive destination for global investors over a medium term. However, your company's management, with long years of experience in the finance and investment market has done well during the financial year 2011-12 despite adverse market conditions and it continues to believe in investing in companies, which have good potentials and in specific sectors that will do well in the times to come.

Challenges

With the integration of Indian market with the Global market after liberalization era, the tremors felt in the Eurozone is being felt also in the Indian markets. A depreciating Indian rupee, high inflation, fall in GDP growth and high interest rates are some of the challenges facing the Indian Economy and a large number of companies are under financial stress. However, your company feels that these are short term bottlenecks faced by Indian economy and with the intrinsic strength prevalent in the Indian Economy, our government should be able to successfully address the short term down turn. The RBI Governor at a CII convention stated that "Short term sacrifice to growth is an inevitable cost to pay for price stability in the supply constrained economy." Your company is confident of facing all these challenges with its expertise and long experience and is confident of achieving good growth.

Risk Management

Business and revenue growth have to be weighed in the context of the risks. Being an investment Company your Company is exposed to credit, market and operational risks.
