#### 10. Taxes on Income:

Provision for current tax is made for the amount of tax payable in respect of taxable income for the year under the Income Tax Act, 1961.

The Net cumulative effect of the timing differences, as contemplated under the standard, results in a deferred tax asset. The company as a matter of conservative accounting policy, has not reflected this in the financial statements.

Previous year's figures have been regrouped and reclassified wherever necessary to conform to the current year's presentation.

This is the Notes referred to in our report of even date addressed to the members of the Company.
