ITEM 5

The Nomination and Remuneration Committee, in its meeting held on February 12, 2015 recommended and the Board of Directors, in its meeting held on February 12, 2015, approved the reappointment of Mr. Kishore Biyani as Managing Director of the Company and the payment of remuneration of ₹ 2,67,50,017/- per annum and commission upto 5% of Net profit of the Company, subject to maximum of ₹ 1,25,00,000/- per annum, payable for financial year in which adequate profit is earned, to Mr. Kishore Biyani (holding DIN 00005740), as Managing Director of the Company with effect from April 01, 2015, for a period of three years i.e. upto March 31, 2018, subject to the approval of the shareholders in the General Meeting and the Central Government.

Disclosure as required under Schedule V to the Companies Act, 2013 is given hereunder as Annexure to this Notice.

Mr. Kishore Biyani is the Promoter of the Company and founder and Group CEO of Future Group. He is widely credited as the pioneer of modern retail industry in India, and is a mentor and role model for many Indian entrepreneurs. He has led the creation of some of the country's most popular retail chains including the Big Bazaar, fbb, Central, eZone, Home Town and a number of product brands in the food and fashion space. Under his leadership the group has also forayed in brand development, insurance, food processing and manufacturing, logistics and data analytics and formed partnerships with global companies such as Generali Group, Staples Inc, Li & Fung Group, Clarks, among others. He has been ranked among India's most admired CEOs and have won numerous awards from government bodies and the private sector associations in India and abroad.

The appointment as well as payment of remuneration was approved by the Board based on industry standards, responsibilities handled by the Managing Director of the Company. However, due to inadequacy of profits, the managerial remuneration paid/ payable needs to be approved for the financial period 2014-15 onwards.

The details of Mr. Kishore Biyani in pursuance of the provisions of the Listing Agreement are mentioned in Annexure.

Approval of the shareholders is being sought for re-appointment Mr. Kishore Biyani as Managing Director of the Company, for a period of three years, commencing from April 1, 2015. Further, the remuneration payable to the Managing Director for proposed re-appointment has been recommended by the Nomination & Remuneration Committee and duly approved by the Board of Directors of the Company at their respective meetings held on February 12, 2015. The approval of the shareholders is sought for re-appointment of and remuneration payable to Mr. Kishore Biyani as Managing Director of the Company with effect from April 01, 2015 for a period of 3 years on the terms and conditions as per agreement executed between the Company and Mr. Kishore Biyani.

The said re-appointment and payment of remuneration, would be also subject to the approval of the Central Government and/ or such other competent authority as may be required to comply with the applicable provisions of the Companies Act, 2013.

The Board of Directors recommends the relevant resolution for your consideration and approval as a Special Resolution.

Mr. Kishore Biyani himself and Mr. Vijay Biyani, as brother of Mr. Kishore Biyani and their respective relatives, are concerned or interested in the resolution to the extent of remuneration payable to Mr. Kishore Biyani under the resolution. No other Directors, Key Managerial Personnel or their relatives are concerned or interested in the resolution.

III. Other information:

1. Reasons of loss or inadequate profits:

The retail Industry is highly competitive and operates on relatively low margins. The intent is to aggressively pursue growth in the medium term. The scale achieved through significant growth will be a key factor that would improve the profitability of operations in due course.

Further, due to various restructuring and realignment activities, the Company achieved much desired objective of high rate of growth in its operations, but at cost of the profitability, due to multiple cost centres, which need to be reduced for optimum utilization of various resources and reduce overall operating costs. Further, certain undertakings, which were demerged as part of the restructuring and realignment activities, were considerably contributing to the revenues and net profit of the Company. The Company is recreating new verticals, which would generate better margins and contribute to bottom line of the Company and improve overall profitability in the coming years.

2. Steps taken or proposed to be taken for improvement:

The Company is aggressively pursuing its business plans to scale up its retail business by expanding the number of stores across the Country, under multiple banners.

The Company is focusing on strengthening its core competency in core retail operations, by optimizing store networks, improving store productivity by increasing store efficiency through upgraded high margin product offering and rationalizing the operating area. Further, introduction of reinvented product mix, ensured availability of the fashion products and other customer categories at highly competitive pricing would fetch good margins. In food segment as well the new categories offered customers multiple choices resulting in better turnover. Similarly other categories such as furniture, home furnishing and electronics also offered revised product mix, giving choice of hot and current products to customers. The Company also introduced the certain customer centric initiative resulting in addition of the new customer categories.

Further various realignment and divestment initiatives as well as recent increase of the equity capital, ensured reduced debt burden on the Company resulting in overall reduction in finance cost. In addition to the above, certain strategic management changes made during the previous financial would result in further cost reduction and thereby contributing to the profitability in the years to come.

3. Expected increase in productivity and profits in measurable terms:

As the Company continues to invest into new stores across the Country, it is difficult to predict the increase in revenue and profit of the Company for future years as in the medium term the business plans envisage targeting of scale and not just profitability.

With political clarity emerging, the business and consumer confidence are expected to improve in the coming financial year, geared with a streamlined organizational design, the company intends to grow its retail businesses. The Company expects that with the improvement in consumer sentiment and increased consumer spending will enable the growth momentum to pick up. The management continuous to be cautiously optimistic towards the external economic environment and expects consumer demand to become more consistent and robust in the current financial year. Further, various policy decisions taken would act as growth channel for the Company which would contribute in increased revenues and higher margins. Further, within the retail business, a number of initiatives productivity and profitability of stores, an upgraded merchandize mix, streamlined supply chain and distribution, increased investments in technology, customer engagements, loyalty programs and improving the customer experience, has already started to show results.

With improved debt equity ratio and improved debt service coverage ratio, the Company would also be able to raise debts at better terms and reduced costs, which would also help in improving profitability of the Company.

Further, overall improvement in operational efficiency from various steps taken by management will start giving result from the current financial year. The Company is also aiming at reducing overall finance costs, due to various divestment proposals from various non-core investments.

IV. Disclosures:

1. The remuneration package of the managing Director is given in the resolution.
2. Additional information is given in Corporate Governance report.

The above explanatory statement (together with Annexure thereto) shall be construed to be memorandum setting out the terms of the appointment/re-appointment as specified under Section 190 of the Companies Act, 2013.

LETTER FROM THE MANAGING DIRECTOR

Dear Stakeholders

It is said, “To live fully is to let go each passing moment, And to be reborn in each new one.”

Being in the business of retail and being closest to consumers, we see new trends being created, new segments of consumers walking in through the doors and new products and brands filling up the baskets of customers. It’s a business wherein what delivers success and what leads to failure changes rapidly. It is a business that calls for constant rebirth.

What remains constant however are the values and a simple maxim that all our colleagues swear by, ‘Retail is our religion, Customers are our Gods and Stores are our temples.’ And while all devotees can seek God from the confines of their homes, cars or workplaces, yet millions flock to temples every day; customers today can buy from any place, and yet come and visit stores. Temples are more than a place for praying. They are platforms for social interaction and amidst the hustle and bustle of other fellow worshippers that devotees find themselves closest to God.

So it is with stores. In this age of consumerism, shops are the temples. It is within these retail environments, consumers find what they need or aspire for. And like

in temples wherein the sole attraction isn’t just the worship of the Gods, it is in the physical shopping environments people find the public space where they can meet, eat and celebrate along with their friends, family and fellow shoppers. There is more to retail outlets stores than just choosing a product and paying for it. The experience of discovering a new product, or finding an affordable one, the joy of taking home a shopping bag full of goods, the smile of satisfaction after a day of shopping is what we as retailers strive for. The experience of creating these million moments of joy is what drives our passion and we find it to be a relevant for millions of customers across the country.

For years, we have been investing in creating this experience, again and again across cities and locations in the country. How we continuously reinvent this experience with the right merchandize, right ambience, right price points and right customer service is what defines our success. I am pleased to share with you the Annual Report that captures how we have recreated these experiences across various products, stores and customer touchpoints through this year.

CUSTOMERS ARE

OUR GODS & STORES

ARE OUR TEMPLES

GROWTH

During the year we added 102 new stores covering 1.5 million square feet of space and expanded our presence in more than 100 cities across the country. The total number of customer visits during the year touched 204 million and same store sales growth in value retailing was 10.2% while in home retailing was 9.1%.

While business was growing, so has been the profitability. Over the past nine quarters, both gross margins and operating margins has shown a significant and consistent improvement. Operating margins have grown from 7.7% to 11% during this period, while gross margins have gained 390 basis points to 28.5%. This has resulted in our EBITDA growing by 29% during this financial year to ₹ 1143 crore from 12 months of previous financial year.

I am also happy to share that not only our standalone retail business, but also our key subsidiary and joint ventures showed steady transformation and have

become positive. Your company had incubated these companies with management bandwidth and investments. Almost all of them have now started yielding financial returns. Leading the pack among the non-listed entities is our general insurance joint venture that posted a net profit of ₹ 60 crore and our supply chain subsidiary that posted a net profit of ₹ 25 crore.

As we look ahead, we are sure that we will still pursue growth, we will still aim for audacious growth, but profitable growth. For us, growth from now on will be disciplined growth. Growth from now on will come from playing on our strengths. Growth not just from adding space but from a judicious mix of organic and inorganic growth. Growth will come from partnerships, from allocating resources in the optimum manner that generates higher return on capital. We have created the plinth and the foundation. Every stage of growth from now on will create incremental returns.

We have recently finalised a scheme of arrangement Bharti Retail wherein we will combine their businesses with that your company. Bharti Retail operates 186 super markets and 14 hyper markets in 114 cities under the brand EasyDay and was built through its erstwhile joint venture partnership with Wal-Mart Inc. The combined businesses will substantially benefit from the increased scale of operations, efficiencies and reach with consumers across key markets. The agreement for this arrangement is subject to shareholders' approval and other necessary regulatory approvals.

DESIGN FOR THE FUTURE

The last few years have seen the steady 'consumerization' of digital technology. From being confined to certain industries and research labs, digital technology has become a pervasive part of every consumer's life. Technology has shrunk time and space and increased social interactions. A new generation of consumers is emerging amidst this environment. Often referred as the Gen C or Generation Connected, it is estimated there will be 450 million Indians born in this century by 2021. How we design our engagement with these consumers will define the long term sustainability of our business.

Our investments in creating a robust supply chain network, systems and processes and a strong technology backbone is now helping us scale better and more efficiently. Our supply chain network has a deployed capacity to handle around 3 lakh tons of goods every month and manage over 214 routes on a daily basis criss-crossing the country. It is GST-ready and operates some of the most technologically advanced distribution centers in the country. Our technology infrastructure generated 87 million bills generated this year, tracked sourcing, shipping and fulfilment of millions of merchandise and transactions of thousands of supply partners, captures real time data, analyzing several performance parameters and aiding managerial decisions to improve business outcomes.

We are working on how we can leverage our extensive store network, as well as our supply chain

and technology backbone to create future customer experiences that are efficient and value accretive for all stakeholders. Big Bazaar Online franchisee network that was launched in early 2014 is now has 512 franchisees covering 3079 pin codes in 101 cities - many of them wherein we do not have any physical presence. While we will continue to expand this network, we are also working on multiple platforms to take our engagement on to digital interfaces.

With hybris, an SAP company, we are working on ways to make every store a distribution center to deliver to our customers. Once live, customers can click online and collect it from our stores and or even get it delivered from the stores. Such a platform will be substantially more cost efficient than any conventional e-commerce model.

However, more than just commerce, we want technology to drive better engagement with customers and increase social interactions. One of the key steps in this direction is leveraging data science and empowering our stores and businesses to engage with customers in a more holistic manner. We have over 26 million customers in loyalty programs and along with dunnhumby, a leading data science company and a few other partners we are exploring ways to create new engagement, experiences, relationships with our customers.

It is said that "People don't always remember what you say or even what you do, but they always remember how you made them feel." Businesses and brands grow on the experiences they create for consumers and stakeholders and the moments of joy that they deliver upon. And while we grow, add stores, introduce new products, deploy technology, we will continuously strive to create those experiences that deliver those moments of joy – for customers, for employees, for supply partners, for communities we work in and for every stakeholder.

EXPERIENCE FASHION

At Big Bazaar we realize the road to success is long and ever evolving and so is our journey in retail. To evolve with this changing consumer, and immerse in the transforming experience that modern retail provides to its customers, every year we strive to be better in what we do and bring innovation and newness to our customers.

Born out of the positioning of 'making India thoda aur stylish', Big Bazaar's fashion section, branded, fbb has been leading the transformation in experience and merchandise selection for the hypermarket chain. The mission has been to provide quality fashion that incorporates global trends and yet responds to Indian sensibilities. In terms of product quality, assortment and fashion quotient, the brand is now well positioned to take on leading global and domestic brands in its segment and is already among the leading fashion destinations in the country.

The strength for this segment is that while around ₹ 3000 crore of sales registered through fashion, accessories and footwear segment, more than 90% is through own brands of the Future Group. It gives the format the ability to respond faster to consumers and

yet maintain a high consistency and market leadership in pricing, positioning, availability and experience. Apart from its existing stable of winning brands like DJ&C, Knighthood, Shristi, Lee Cooper Originals and Chalk, a number foreign brands like Converse and Champion were introduced within the store.

In 2014-15, fbb celebrated seasons and festivals with new collections offering stand out prints, glam designs and stylish trends. fbb launched the festive collection consisting of stylish salwar-kameez-dupatta sets and desi kurtas to celebrate the festivities with grace. fbb also launched winter fashion with the overall theme highlighting warm fabrics and forest inspired colours. The format also celebrated niche product like churidars in the ethnic wear category and expanded its presence in kids and infant wear segment. The focus was on bringing in aspirational value to low involvement purchase decision and celebrate a niche category having potential double volume growth through power pricing and advertising and showcase.

Through its association with Femina Miss India pageant, the brand is reaching out to millions of Indian

women who feel empowered to celebrate who they are. Associations with fashion pageants across the country are used as a platform to build an aspirational value to the brand.

fbf, the fashion hub, brings global trends to Indian homes at inexpensive prices. While the brand had roped in cricket icon Shikhar Dhawan in 2014, in 2015, it has roped in Katrina Kaif and Varun Dhawan as its brand ambassadors. Over the past few years, Bollywood has become a popular 'ramp' for the country's youth to look out for newer trends and fbf's association with the superstars augurs very well for the country's affordable fashion destination.

Among other initiatives to reach the brand to new consumers was the launch of a co-branded credit card with the country's largest bank, SBI. The fbf SBI StyleUp card specifically targets the youth and talks their language when it comes to fashion, products, promotions and event marketing.

EXPERIENCE FOOD

Food is the biggest consumption category in India with spending amounting to 21% of India's GDP. It is also the category that is evolving at the fastest pace – creating new opportunities for retailers, entrepreneurs and manufacturers.

The company's presence through Big Bazaar hypermarkets and more recently through Foodhall gourmet stores, allows it to target the entire cross-section of customers. Apart from catering to a very evolved and globally aware consumer, Foodhall has become as a valuable platform to give an early insight into new trends, brands and categories that are becoming mainstream. The impact of Foodhall goes much beyond the size of its business and is today shaping the experience, assortment and customer service of the food section of Big Bazaar.

From live kitchens and tasting sessions to international cuisine and home appliances to go with it, from exotic vegetables to a wider range of dairy products, learnings, skill sets and insights from Foodhall is finding its way into Big Bazaar. During the year, categories like heat and eat, frozen foods, packaged breakfast products and instant mixes witnessed significant increase in Big Bazaar stores. In categories like tea, cornflakes, and noodles the packs are getting bigger and larger. Bulk packs of even niche segments like salad dressing,

chocolates, health biscuits and spreads are order of the day. At the same time, newer products like spreads, dressings, herbs and exotic vegetables are becoming part of everyday food. To complement the wide array of spreads, jams, dips and sauces that Big Bazaar offers, it has also launched a wide assortment of fresh and flavourful breads including multi grain, whole wheat, cheese straws, focaccia, baguettes, and burger buns.

There has been a growing demand for healthier products across categories, on account of these health needs. Categories like health biscuits, organic foods, sweeteners, health drinks, green herbal tea, honey, chywanprash are growing at more than 50% within our stores.

Foodhall, itself has been leading with a number of new initiatives and innovations. From tying up with foreign trade missions to introduce foreign food festivals, to building a collaborative platform with celebrity chefs and food bloggers, to building an entire line of business for gifting gourmet food products, Foodhall has led created a strong franchise for itself amongst connoisseurs of food in India.

Beyond food, beauty and personal care products have been a key focus for Big Bazaar. A number of stores

are undergoing a detailed makeover with a Beauty Section that offers national and international brand mix like Maybelline, Lakme and Color Bar as well as a whole new experience to go along with it. More number of stores now have dedicated sections for beauty products – a segment that offers high margins coupled with high consumer spends.

Big Bazaar customers visit fortnightly or monthly for their grocery shopping. However, fresh fruits and vegetables, dairy and bakery are products which bring the customer to its door steps more frequently. These are the products which are driven by their freshness quotient and therefore demand higher care, sanitation and hygiene. The company's quest to ensure abundant availability with best in class freshness quotient continues across the Big Bazaar chain.

Price leadership will continue to remain a key consumer proposition in the food business. The company's size and scale helps offer a wide range and low prices to its consumers. During the year, the company has publicised a stated policy of offering minimum 5% off on the MRP of most packaged food products. In order to further strengthen its core proposition the Big Bazaar is about to pioneer in India a first-of-its-kind Price Match App for smartphone users that promises customers an instant refund on mobile wallet, should the price of any packaged FMCG product be higher than what it has offered at any other retailer.

FOOD IS THE BIGGEST

EXPERIENCE HOME & ELECTRONICS

The company's homeware and electronics retailing business is spread across Big Bazaar and speciality retail chains, Home Town and eZone. Each of these formats took a leap ahead with a new and interesting product line waiting to provide more ease and higher aesthetic sense to our consumers. From the magic mops and quick-dry towels in Big Bazaar, to Hogwort six seater dining table with solid rubber wood chair at Home Town or Koryo health-fryers at eZone, new and innovative products drove growth and customer salience within each of the formats.

Today, the home-maker is evolving. The look and feel of the Big Bazaar homeware section has been aligned to the modern home maker, while keeping the space warm and familiar. Consumers' home choices go beyond function, and she is becoming increasingly sensitive to form. Big Bazaar is attempting to mirror her home in the store, making it easy for her to select and upgrade. The traditional categories of plastics, utensils and crockery in Big Bazaar has been re-imagined to cater to ever-changing requirements of the evolving, modern Indian consumer, and has

resulted in new sections - Serving Delight, Cooking Delight and Home Utility.

Home Town caters to aspirational, trendy and knowledgeable new home buyers as well as replacement customers. It currently operates 35 stores in 17 cities and has also developed partnerships with a few online retailers. It follows a hub-and-spoke model with HT Express extending Home Town's reach and presence in new catchments and smaller towns and suburbs. In the forthcoming year, it will be launching stores within Central stores with "HOMETOWN @ Central" Concept. This new concept will expand the network into cities including Vadodara, Surat, Kochi, Patna, Vijaywada, Delhi.

Furniture contributes around two-thirds of sales, while its exclusive range of Duracucine Modular Kitchens contribute almost a tenth of the business and the rest comes from homeware and home improvement products. Home Town also offers Design and Build service providing end-to-end services from interior decoration to execution and implementation.

Home Town as a format is almost unique in the Indian market offering the widest width and depth in every category and acts as a one-stop destination for all home needs. Over the years, it has also developed one of the lowest supply chain costs for sourcing and delivery of its merchandize to its consumers' homes. Around 60% of our products are imported; mainly from China and Malaysia while smaller volumes come from Thailand. Its supply chain capabilities and sourcing knowledge also provide unique advantage to its operations. For the year ahead, the format's focus will be on in-store productivity, developing and judiciously promoting its private labels and driving efficiency in inventory management leading to higher return on capital employed.

Over the years, eZone has evolved into one of the few electronics retailer that is growing and profitable. With 97 stores, the format crossed the ₹ 1000 crore sales mark and became one of the first to have a full-fledged multichannel network. Simultaneously,

the brand has built its customer facing, 'Together Forever' strategy that offers a large number of services along with the product. This helps engage the customer throughout the product life cycle and builds a differentiated proposition.

The Together Forever strategy begins with the discovery phase - wherein it hosts Masterclass or trainings for passions like cooking, photography, music or even computing and using smart phones. It offers a range of payment and EMI options for the consumer to make an easy purchase decision. It's SmartTech and TechProtec initiatives provide insurance and on-site repairing services for mobiles and tech devices while eZone Smart Choice provides extended warranty for all large appliances. A 24/7 helpline service eZone Care provides support and crucial connect between customers and brand owners. Finally, its Easy Exchange policy allows customers to upgrade while winning good value for their existing product.

EXPERIENCE TECHNOLOGY

Amongst the biggest shifts of the last decade has been the ‘consumerization’ of digital technology. From being confined to certain industries and research labs, digital technology has become a pervasive part of every consumer’s life. Technology has shrunk time and space and increased social interactions. Consumers now demand more - more convenience, customization and consistency.

Future Retail depends on a robust technology backend that supports its business – from generating around 87 million bills generated last year, to merchandize planning and delivery to 401 stores in 122 cities, data science and analytics from 26 million customer loyalty data, transactions with thousands of supply partners and capturing real time data, analyzing several performance parameters and aiding managerial decisions to improve business outcomes.

Simultaneously, it is aggressively working towards making technology and digital interfaces pervasive in all its customer interactions. Its technology-enabled, assisted commerce initiative, Big Bazaar Online, is built around a franchise network wherein a franchisee-owned tablet helps untapped customers place orders and deliver to their homes located in areas not covered by its retail formats. Big Bazaar

Online now has 512 franchisee/representatives covering 101 cities and 3079 pin codes and makes available 20,562 products on these web-enabled tablets. Most of these are in cities wherein there is no retail outlet of the group. During the forthcoming year this network will move prototype phase to a full-fledged business offering 50,000 products and becoming a force-multiplier for our physical network.

During the year, the company has also brought onboard hybris, a company specializing in building multichannel networks for global retailers. hybris implementation is nearing completion with various businesses going live in phased manner. eZone is already live for customer interactions. Rich feature sets like buy anywhere, pick up anywhere, return anywhere will be delivered through the forthcoming years, and more formats will be brought on board. The company has also started bringing business on mobile, starting with T24 and eZone. Big Bazaar customers will be able to do a price comparison on an app, which makes us true to our commitment on price leadership. Multiple other customer facing apps are under development. Customers will soon find the company’s brands more approachable and versatile with presence of multiple platforms.

The company works with leading technology partners across different areas. The company has also initiated a partnership with IBM that gives it access to their world class Master Data Management (MDM) tool. Product MDM would help in better management of item lifecycle, inventory management and higher fill rates, along with the ability to measure product and vendor metrics more accurately and drive desired business performance. Customer MDM will provide 360 degree view of customer, allowing the company to generate insights into their lifestyle, preferences and purchase behavior.

FACT - Billing and checkout is the most important customer touch point in a retail store. Aside from being the point of sale, the process of billing and checkout gains its importance due to the loyalty and repeat buying that it can generate for a store. The company has more than 3,800 customer checkouts that churn out approximately 86 million bills every year, with an average of 6.59 minutes spent per bill.

GATI is an initiative that has been taken up by Big Bazaar to ameliorate the two most crucial aspects of a checkout - speed and customer engagement. Upgrading of cashiers, a more convenient design (for both - customers and cashiers) of the billing area, a

smoother process for exception handling and engaging customers to participate in improving convenience for fellow customers plays vital roles in giving the last phase of shopping experience a neat finish.

GATI will have fulfilled its vision in FY 2015-16 when majority of customers shopping on the floors of Big Bazaar stores feel the step of billing is as effortless and enjoyable as the shopping experience.

The company has also invested in technology from Manthan systems to further our analytics-driven customer-centric approach. Key areas of focus here include merchandise, customer and vendor analytics. The company is currently in the process of rolling out on demand – real time analytics capability to all decision makers.

In order to leverage its growing loyalty network, the group has also formed a joint venture with dunnhumby, a Tesco subsidiary and global leader in consumer science. It help us leverage their customer science capabilities and tools to uncover valuable insights on what customers want. The company is investing in capability to communicate singularly with our customers, send personalized communication and drive loyalty and higher share of wallet.

EXPERIENCE SUPPLY CHAIN

The company's logistics is run through its specialized subsidiary, Future Supply Chain Solutions Limited, among the country's most technologically advanced, integrated supply chain companies. Born as a specialized subsidiary in 2007, the company's expertise is evident from the fact that today almost two-thirds of the company's revenues come from clients outside the Future Group. During the financial year, the company reported income from operations of ₹ 408 crore with EBIDTA of ₹ 66 crore and PAT of ₹ 25 crore for FY 2014-15, an increase of 23.6% in Income, 127.6% in EBIDTA and 485.1% in PAT.

While it has built strong capabilities in categories like apparels, furniture, electronics, automotive components, with increasing consumption of perishable food items and greater use of temperature-controlled logistics in categories such as pharmaceuticals and foods, Future Supply Chains during the year focussed on this area. Among the game changers during the year was the acquisition of Brattle Foods, one of the leading speciality logistics company in India. Brattle Foods serves quick service restaurants, foods processors, and modern retailers.

It was started in 2009 in Delhi and today it is the second largest player in the food logistics segment. It is the service provider of choice for handling, storing, and transporting perishable food products in India for quality sensitive food brands.

This acquisition and merger will complement the existing modern technology and automation-based supply chain capability of Future Supply Chains in the food and FMCG domain. This acquisition will enable FSC to address the frozen, chilled and cold warehousing requirements, coupled with the refrigerated container transportation requirements across the country. The implementation of GST will be a further game changer in this space, and this cold chain network can integrate into Future Supply Chains' existing GST ready network of 3.6 million square feet modern warehousing and transport network.

India's temperature controlled logistics sector, valued at ₹ 12,000 to ₹ 15,000 Crore, is highly fragmented with nearly 90% being operated by regional service providers. To capture this opportunity, FSC launched its cold storage warehouse facility at Mehsana,

Gujarat. The newly launched integrated cold storage warehouse is a state-of-the-art facility, marking FSC's expansion into the fast growing cold chain logistics industry. The cold chain facilities are currently operational in Delhi, Kashipur, Mehsana, Mumbai, Chennai, Bengaluru and Tumkur. FSC has planned to build further capacities in Delhi, Mumbai and Hyderabad. These are WMS enabled with storage

area ranging from minus 30 to plus 25 degrees celsius and best-in-class mechanisms for temperature monitoring and control. Some of the state-of-the-art features include mobile racking, GPS based temperature recording, auto dock levellers and PLC controlled operation and performance monitoring system for refrigeration plant.

FRL IN FIGURES
2014 - 2015

MANAGEMENT DISCUSSION AND ANALYSIS

Future Retail Ltd. (FRL) completed the first full year of operation of value retail and home fashion business operations after completion of internal realignment of business. The Company also undertook various initiative, such as raising of equity through preferential issue and rights issue, improving debt profile by repayment of high cost and near term maturity debts and thus improving overall debt maturity profile and reducing cost of debt. On the operations side also there has been continuous improvement by integration of certain business activities to achieve better economies as well as control cost of operations.

With the Company's presence now in supermarket, electronics and home fashion businesses, it emerged as pure retail company in value and home retail segment. Further, its continuous efforts to monetise its non-core retail investments, would also help in mobilising resources for its core business activities. In this process, the Company has further reduced number of subsidiaries from 14 including 2 step down subsidiaries at the beginning of the year to 5 including 1 step down subsidiary at the end of the year. These initiatives have helped the management to perform better and increase the profitability, which in turn will help to increase economic value of business and all stakeholders' confidence in the management.

As per the strategy, the Company had been having cautious approach for organic expansion and at the same time looking for growth through opportunities of acquisitions / merger of similar business operations and achieving higher growth numbers. On one hand, the Company is striving to increase turnover and returns per square feet of the retail space and on the other hand it is also proposing to increase overall retail space through available opportunities. The operating team has come up with various initiatives to increase customer footfall, customer ticket sizes and sale of higher margin products. The operating team had been continuously monitoring various promotional schemes and events as well as products mix offered to the retail customers, in order to attract new customers and give an improved shopping experience to all its customers.

Operational Overview

With its efforts to optimise productivity per store basis, the management was reviewing the available retail space and product mix and striving to provide better productivity in terms of increased customer foot fall, higher ticket size and improved profitability, by reducing overall costs as well as increasing margins earned from upgraded products offering to customers.

In a bid to provide improved and upgraded product mix, the fashion products offered through fbb proved very helpful. The newer food categories and offering of food products of Sunkist and Nilgiris among other newer categories, gave wider choice to customers resulting in higher ticket size. Hub and spoke approach for the electronics stores also resulted in increased productivity per store and better customer satisfaction in terms of product offerings and after sales service. In home fashion segment as well the revamped furniture and home furnishings saw better through put and increased turnover in home fashion stores.

The Company has also undertaken various analytical studies of customer behaviour and spending pattern as well as improved technology platform at store level and back end, enabled to improve customer experience in terms of better and accessible store layouts, more payment options, faster check-outs etc. Uniform store layouts and resource planning enabled reduced time frame for opening of new stores.

Customer and Marketing Overview

During the year, the company continued to carry out various activities and promotional events to engage with the customer across formats. Various promotional event includes, Weekly Promotional Event, Wednesday Bazaar, Public Holiday Sale, Independence Sale, Sabse Saste 4 Din and other format specific promotional events. Further at group level, the Company was also part of Free Future Group Shopping Festival. Various promotional events, activities and initiatives resulted in higher footfalls during promotions as well as acquisition of new customers. Events like Future Group Shopping Festival ensured that customer visiting any of the Future Group shopping formats at least once in a month. Cross promotional events ensured that the customers of one format visit other format.

In its fbb format, the Company has created new fashion wave, at affordable price. Celebrity endorsements and association of fbb with Femina Miss India 2015, continued to highlight its latest fashion wear collection, and customer frequently patronise fbb for its fashion needs.

The campaign "Making India Beautiful" has been a good success, connecting new customers to Big Bazaar stores. As the campaign was for newer categories, for aspirational and premium products, it brought new categories of customers to Big Bazaar, who contributed in overall revenue generation.

The Company also continued with its loyalty programs and also introduction of Big Bazaar Profit Club further

ensured customer loyalty of a new set of customers who are looking at every opportunity of saving. Big Bazaar Profit Club has proved to be a valuable loyalty program that brings back customers to stores at least twelve times in a year, resulting in higher frequency and cumulatively higher annual sales. These programs are further leveraged for driving promotions and direct communication with customers offering customized merchandise.

The Company has been recognised for its operations in retail sector in following manner.

- Future Retail won the Dun & Bradstreet (D&B) Corporate Award 2015 for its leading performance in Retail sector.
- Food Bazaar won the 'Images Excellence Awards for Largest National Expansion' for the year 2014.
- Big Bazaar won the 'Images Most Admired Food & Grocery Retailer' for the Year in Food & Grocery category.

Competition

The Company being pioneer in retail segment, has its various formats in all prominent consumption centres. Its presence in over 122 cities, including the metro cities, prominent two tier cities, fast growing cities and new consumption centres, ensures that the Company is present in all consumption areas and has a appropriate shares of customer valet.

The Company has witnessed reduced competitive activity, especially in the supermarket space. However, supermarkets do not operate in isolation and competes with other formats and channels of trade. While it strengthens its brand proposition, reach and presence, the company is also investing judiciously in technology-driven channels of commerce and looking at various organic and inorganic options to further strengthen its presence in the market. Further, with proposed reorganisation of the retail business after scheme of arrangement, which is subject to certain statutory approvals, with Bharti Retail Limited, would ensure further increase in Company's presence in number of cities and ensure better return in terms of the increased turnover and revenue for the retail business of the Company. With increased presence and its other capabilities such as experience, sourcing abilities, portfolio of private brands, the Company would be in stronger position to face competition.

Human Resource Initiatives

Human Resource is one of the key input and customer interface, which the Company has with its customers and

hence it is very essential to ensure continuous learning and development of its people, on shop floor management, interaction with customers, ensuring customer comfort while shopping, knowledge of products and their use etc. The Company imparts continuous training to its employees in various fields as discussed above and at the same time also ensures individual development by imparting training for improvement of skills, knowledge and leadership abilities. The Company has attracted best talents from the industry as well as been successful in retaining its core team, which has rich experience of last 20 years leading the Company's core retail business. Further, the Company is in process of implementing ESOP program to give better retention benefits to its valued human assets.

Business Outlook

In FY 2015-16, FRL will emerge as a core retail company with an enhanced distribution network. The Company is also increasing its presence in online as well as in omni channel. Revenue growth will be driven by store additions, increased productivity and efficiency and thereby increased per store and per square feet revenue. The management is striving to reduce overall cost as well as increase high margin product mix to improve profitability. Further exponential growth in overall revenue due to proposed acquisitions of retail business, it will also be able to establish once again among the leader in retail industry. With revised emphasis on reducing financing cost and curb overall debt equity ratio, the Company would be able to increase the value for its shareholders and with its approach for overall development will be able to satisfy its other stakeholders as well.

With overall stability and country's economy poised for growth, the consumption sector will also experience new and much required thrust for increased consumer demand. Further, the Company would be in better position to get maximum benefit by the increased consumer spending, due to its presence in areas of high consumption cities and strategic locations of its various formats as well as its presence in other sectors through its omni channel.

With improved debt equity ratio, due to increase in net worth of the Company and subsequent reduction of the debts, the Credit Analysis & Research Limited (CARE), has revised its rating for Short Term borrowings to CARE A1+ [A One Plus] and Long Term borrowings as well as Long Term Non-Convertible Debentures to CARE AA-[Double A Minus] as of March 31, 2015.

Risks and Threats

The state of external environment, including factors like

interest rates, inflation, and growth in economic activity and job creation and consumer sentiment continues to be the biggest source of threat as well as opportunity for the Company. Any further slowdown in the economic activity in the country, significant job losses or high rates of inflation can severely impact the consumption and therefore growth of the Company. Other external factors, including a steep rise in interest rates or drastic changes in the policy or regulatory environment can pose financial challenge for the Company. However, the continued steps taken by the Company to deleverage its balance sheet, reducing its reliance on the debt funds, improving its debt maturity profile and thereby reducing stress on its cash flow, improved business efficiency reducing overall operating cost and continuous efforts to increase customer ticket size and capturing new class of customers to increase overall higher spend in various formats of the Company, are aimed at mitigating each of the above discussed external threats.

The set controls and defined responsibilities at each level of management require evaluation of the various existing risks and new expected risks at an early stage and immediate action plan to mitigate such risks. Further the authorities given at each management level ensures implementation and execution of such action plan with minimised risk. Further, use of information technology for implementation as well as regular review and evaluation of such risks and risk mitigation action plan by management ensures minimisation of such risks.

Internal controls and their adequacy

The Company had identified the key risks and control process to mitigate the same. Further the Company continues this process of Enterprise Risk Management as a continuing process, in order to identify the new risks and to define and establish the control process to mitigate the identified risks. Further the Internal Control Framework for financial reporting, organization structure, documented authorities & procedures and internal controls are being reviewed by internal audit team on continuous basis and any issues arising out of the said audit are addressed appropriately. The Company is continuously upgrading its internal control systems by measuring state of controls at various locations. Controls in SAP, an ERP system have been strengthened with help of review conducted by Ernst & Young.

The Audit Committee, comprising independent directors is involved in regular review of financial and risk management policies, significant audit findings, the adequacy of internal controls and compliance with the accounting standards.

MATERIAL CHANGES AND COMMITMENTS

Your Directors further state that there were no material changes have taken place that could have an impact on the financial position of the Company from the date of closure of financial year under review till the date of signing of Accounts, except as discussed about the demerger of the "Retail Undertaking" and transfer to Bharti Retail Limited and vesting of the demerged "Retail Infrastructure Undertaking" of Bharti Retail Limited with the Company. More detail related to the scheme has been given hereunder.

FUTURE OUTLOOK

The Board of Directors of the Company has approved the composite scheme of arrangement for the consolidation of the retail and retail infrastructure businesses of Bharti Retail Limited (BRL) and the Company. This will be achieved by way of two simultaneous demergers i.e. the FRL Demerger and the BRL Demerger as part of the composite scheme of arrangement. Accordingly, the Retail Business Undertaking of the Company shall stand transferred to and vested in BRL as a going concern and the Retail Infrastructure Undertaking of BRL shall stand transferred to and vested in the Company as a going concern.

In consideration for the transfer and vesting of the Retail Business Undertaking of the Company in BRL, BRL shall issue and allot fully paid up equity shares to all the shareholders of FRL (which include holders of equity shares of FRL and holders of equity shares of FRL classified as Class B (Series-I) shares. The shares of BRL are proposed to be listed. Further, in consideration for the transfer and vesting of the Retail Infrastructure Undertaking of BRL in FRL, FRL shall issue and allot fully paid up equity shares to all the existing shareholders of BRL. Both the Companies will be under control of the Future Group.

With the above consolidation of the retail and retail infrastructure business in two separate entities, will ensure unlocking of value, attribution of appropriate risk and valuation to the Core Retail Business based on its risk-return profile and cash flows, more focused leadership and dedicated management, greater visibility on the performance of Core Retail Business, segregation of other businesses and activities and other non-core assets from Core Retail Undertaking of FRL and

emergence of BRL (to be renamed) as a Core Retail company focusing on in-store retail business.

The Company continues to explore possibilities to monetise its non-core retail investments which will help in improving liquidity and net worth position of the Company

With improved debt equity ratio, due to increase in net worth of the Company and subsequent reduction of the debts, the Credit Analysis & Research Limited (CARE), has revised its rating as under for Short Term borrowings to CARE A1+ [A One Plus] and Long Term borrowings as well as Long Term Non-Convertible Debentures to CARE AA - [Double A Minus] as of March 31, 2015.

With positive outlook for the economy, the Company is confident to achieve better growth in the years to come and the benefits of the consolidation will ensure better profitability for the Company.

Form No. MR-3

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2015

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Future Retail Limited

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Future Retail Limited (Hereinafter called the Company). Secretarial Audit was conducted in a manner that provides me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Future Retail Limited books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2015 generally complied with the statutory provisions listed hereunder:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by Future Retail Limited ("the Company") for the financial year ended on March 31, 2015 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 & the rules & regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment & External Commercial Borrowings - Not applicable during the audit period;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 notified on 28th October, 2014
 - (e) The Securities & Exchange Board of India (Issue & listing of Debt securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client – M/s Link Intime Pvt Ltd is the RTA of the Company and the Company has its record maintained as per the regulation
 - (g) The Securities & Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 - Not Applicable during the audit period; and

- (h) The Securities & Exchange Board of India (Buyback of Securities) Regulations, 1998 - Not Applicable during the audit period;
- (vi) I have also examined compliance with the applicable clauses of the following:
 - (i) The Listing agreements entered into by the Company with the stock exchanges.
 - (ii) Secretarial Standards Issued by The Institute of Company Secretaries of India – At present not applicable.

During the period under review the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

The Company has obtained necessary consents, licenses, permissions and approvals from the governmental and regulatory authorities that are required for carrying on their present business. In the event, some of the approvals and licenses that are required for their business operations expire in the ordinary course of business, the Company has applied for their renewal.

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non- Executive Directors and Independent Directors. The changes in the composition of the Board of Directors / committees thereof that took place during the period under review were carried out in compliance with the provisions of the Act.

I further report that as per the information provided adequate notice is given to all directors to schedule the Board Meetings, agenda & detailed notes on agenda were sent at least seven days in advance, & a system exists for seeking & obtaining further information & clarifications on agenda items before the meeting & for meaningful participation at the meeting.

I further report that as per the information provided majority decision is carried through while the dissenting members' views are captured & recorded as part of the minutes.

I further report that the management is responsible for compliances of all business laws and has generally adequate systems & processes in the Company commensurate with the size & operations of the Company to monitor & ensure compliance with applicable laws, rules, regulations & guidelines.

I further report that during the audit period the Company has specific events like Right issue and Preferential issue of shares.

INDEPENDENT AUDITOR'S REPORT

To
The Members of
Future Retail Limited

Report on the Standalone Financial Statements

We have audited the accompanying Standalone financial statements of FUTURE RETAIL LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act 2013 ("the Act") with respect to the preparation of these Standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015, its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

I Significant Accounting Policies

A. Basis of Preparation

Financial statements have been prepared in accordance with Generally Accepted Accounting Principles in India (Indian GAAP) under the historical cost convention on an accrual basis in compliance with all material aspects of the Accounting Standards (AS) notified under Section 133 of the Companies Act, 2013 read together with the paragraph 7 of the Companies (Accounts) Rules 2014. The Financial Statements have been prepared under the historical cost convention on an accrual basis.

B. Use of Estimates

Preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in differences between the actual results and estimates which are recognised in future period.

C. Tangible Fixed Assets and Depreciation

Tangible fixed assets are stated at cost, less accumulated depreciation and impairment loss, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Depreciation is provided pro rata for the period of use on straight line basis as per the useful life of the assets prescribed under Schedule II of the Companies Act, 2013 except for leasehold improvements which are depreciated over the remaining expected lease term and employee perquisite related assets which are depreciated over three years.

D. Intangible Assets and Amortisation

Intangible Assets are stated at acquisition cost less accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on straight line basis over their estimated useful life of ten years.

E. Investments

Current investments are carried at lower of cost and fair value computed on individual investment basis. Long-term investments are stated at cost after deducting provisions made, if any, for other than temporary diminution in value.

F. Inventories

Inventories are valued at lower of cost and net realizable value. Finished Goods and Work-in-Progress include cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of inventories are computed on weighted average basis.

G. Foreign Currency Transaction

Transactions in foreign currencies are recorded at the prevailing rates of exchange on the date of transaction. Monetary items denominated in foreign currencies, are restated at the prevailing rates of exchange at the balance sheet date. All gains and losses arising out of fluctuations in exchange rates are accounted for in the statement of Profit and Loss. Exchange differences on forward contracts entered into for hedging foreign exchange fluctuation risk in respect of an underlying asset/liability, are recognised in the statement of profit and loss in the reporting period in which the exchange rate changes. Premium/Discount on foreign exchange contracts are recognised as an expense/income over the life of the contract.

H. Borrowing Costs

Borrowing costs, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use, are capitalized as part of the cost of the respective asset. All other borrowing costs are charged in the period they occur in the Statement of Profit and Loss.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

I. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Sales are recognised when significant risk and rewards of ownership of the goods have passed to the buyer which coincides with delivery and are recorded net of trade discounts VAT and Sales Tax. Revenue from services are recognised as they are rendered based on agreements/arrangements with the concerned parties and recognised net of service tax (If applicable). Interest income is recognised on time proportion basis taking into account the amount outstanding and the applicable rate. Dividend income is recognised when right to receive is established.

J. Retirement and Other Employee Benefits

Short term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss for the period in which the related service is rendered.

Post employment and other long term employee benefits are recognised as an expense in the Statement of Profit and Loss for the period in which the employee has rendered services. The expense is recognised at the present of the amounts payable determined using actuarial valuation techniques. Actuarial gain and loss in respect of post employment and other long term benefits are charged to Statement of Profit and Loss.

K. Income Taxes

Tax expense includes provision for current tax and deferred tax. Provision for current tax is made on the basis of estimated taxable income for the current accounting year in accordance with the provisions of the Income Tax Act, 1961. Deferred tax resulting from “timing difference” between taxable and accounting income is accounted for using the tax rates and laws that are enacted as at the Balance Sheet date. Deferred tax asset is recognised and carried forward only to the extent that there is virtual certainty that the asset will be realised in future.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in the guidance note issued by Institute of Chartered Accountants of India (‘ICAI’), the said asset is created by way of a credit to the Statement of Profit and Loss. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

L. Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised, but are disclosed in the notes. Contingent Assets are neither recognised nor disclosed in the financial statements.

M. Impairment

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying cost of the assets exceeds its recoverable value. An impairment loss, if any, is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the assets no longer exist or have decreased.

N. Leases

Leases where significant portion of risk and reward of ownership are retained by the Lessor are classified as operating leases and lease rental thereof are charged to the Statement of Profit and Loss as per the terms of agreement which is representative of the time pattern of the user’s benefit.

INDEPENDENT AUDITOR'S REPORT

To
The Members of
Future Retail Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Future Retail Limited (hereinafter referred to as “the Holding Company”), its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”), joint venture companies and associate companies, comprising of the Consolidated Balance Sheet as at March 31, 2015, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the consolidated financial statements”).

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as “the Act”) that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its joint venture companies and associate companies in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group and of its joint venture companies and associate companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its joint venture companies and associate companies and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its joint venture companies and associate companies as at March 31, 2015, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

We did not audit the financial statements of 2 subsidiary companies and 6 joint venture companies, whose financial statements reflect total assets of ₹ 841.77 Crore as at March 31, 2015, total revenues of ₹ 602.68 Crore and net cash inflows amounting to ₹ 2.91 Crore for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net loss of ₹ 0.83 Crore for the year ended March 31, 2015, as considered in the consolidated financial statements, in respect of an associate company, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary companies, jointly venture companies and an associate company, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary companies, joint venture companies and associate company, is based solely on the reports of the other auditors.

We have relied on the unaudited financial statements of an associate company wherein the Group's share of profit aggregate ₹ 0.93 Crore. This unaudited financial statement as approved by the Board of Director of this company have been furnished to us by the Management and our report in so far as it relates to the amounts included in respect of this associate company is based solely on such approved unaudited financial statements.

Our report is not modified in respect of other matters.

Report on Other Legal and Regulatory Requirements

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

I Significant Accounting Policies

A. Principles of Consolidation

The consolidated financial statements (CFS) relate to Future Retail Limited the holding company, its Subsidiaries, Joint Ventures and Associate (collectively referred to as Group). The CFS have been prepared in accordance with Accounting Standard 21 on “Consolidated Financial Statements” (AS 21), Accounting Standard 23 on “Accounting for Investments in Associates in Consolidated Financial Statements” (AS 23) and Accounting Standard 27 on “Financial reporting of interests in Joint Ventures” (AS 27) and are prepared on the following basis:

- (a) The financial statements of the parent and its subsidiaries are combined on a line-by-line basis and intra group balances, intra group transactions and unrealised profits or losses are fully eliminated.
- (b) Investment in Associate Company is accounted for using Equity Method in accordance with AS 23. The Company’s share of the post acquisition profits or losses is included in the carrying cost of investments.
- (c) Investments in Joint Ventures are dealt with in accordance with AS 27. The Company’s interest in jointly controlled entities are reported using proportionate consolidation, whereby the Company’s share of jointly controlled assets and liabilities and the share of income and expenses of the jointly controlled entities are reported as separate line items.

B. Basis of Preparation

Financial statements have been prepared in accordance with Generally Accepted Accounting Principles in India (Indian GAAP) under the historical cost convention on an accrual basis in compliance with all material aspects of the Accounting Standards (AS) notified under Section 133 of the Companies Act, 2013 read together with the paragraph 7 of the Companies (Accounts) Rules 2014. The Financial Statements have been prepared under the historical cost convention on an accrual basis.

C. Use of Estimates

Preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management’s best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in differences between the actual results and estimates which are recognised in future period.

D. Tangible Fixed Assets and Depreciation

Tangible fixed assets are stated at cost, less accumulated depreciation and impairment loss, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is provided pro rata for the period of use on straight line basis as per the useful life of the assets prescribed under Schedule II of the Companies Act, 2013 except for leasehold improvements which are depreciated over the remaining expected lease term and employee perquisite related assets which are depreciated over three years.

E. Intangible Assets and Amortisation

Intangible Assets are stated at acquisition cost less accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on straight line basis over their estimated useful life of ten years.

F. Investments

Current investments are carried at lower of cost and fair value computed on individual investment basis. Long-term investments are stated at cost after deducting provisions made, if any, for other than temporary diminution in value.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

G. Inventories

Inventories are valued at lower of cost and net realizable value. Finished Goods and Work-in-Progress include cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of inventories are computed on weighted average basis.

H. Foreign currency Transactions

Transactions in foreign currencies are recorded at the prevailing rates of exchange on the date of transaction. Monetary items denominated in foreign currencies, are restated at the prevailing rates of exchange at the balance sheet date. All gains and losses arising out of fluctuations in exchange rates are accounted for in the statement of Profit and Loss. Exchange differences on forward contracts entered into for hedging foreign exchange fluctuation risk in respect of an underlying asset/liability, are recognised in the statement of profit and loss in the reporting period in which the exchange rate changes. Premium/Discount on foreign exchange contracts are recognised as an expense/income over the life of the contract.

I. Borrowing Costs

Borrowing costs, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use, are capitalized as part of the cost of the respective asset. All other borrowing costs are charged in the period they occur in the Statement of Profit and Loss.

J. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Sales are recognised when significant risk and rewards of ownership of the goods have passed to the buyer which coincides with delivery and are recorded net of trade discounts VAT and Sales Tax. Revenue from services are recognised as they are rendered based on agreements/arrangements with the concerned parties and recognised net of service tax (If applicable). Interest income is recognised on time proportion basis taking into account the amount outstanding and the applicable rate. Dividend income is recognised when right to receive is established.

K. Retirement and Other Employee Benefits

Short term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss for the period in which the related service is rendered.

Post employment and other long term employee benefits are recognised as an expense in the Statement of Profit and Loss for the period in which the employee has rendered services. The expense is recognised at the present of the amounts payable determined using actuarial valuation techniques. Actuarial gain and loss in respect of post employment and other long term benefits are charged to Statement of Profit and Loss.

L. Income Taxes

Tax expense includes provision for current tax and deferred tax. Provision for current tax is made on the basis of estimated taxable income for the current accounting year in accordance with the provisions of the Income Tax Act, 1961. Deferred tax resulting from "timing difference" between taxable and accounting income is accounted for using the tax rates and laws that are enacted as at the Balance Sheet date. Deferred tax asset is recognised and carried forward only to the extent that there is virtual certainty that the asset will be realised in future.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in the guidance note issued by Institute of Chartered Accountants of India ('ICAI'), the said asset is created by way of a credit to the Statement of Profit and Loss. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

M. Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised, but are disclosed in the notes. Contingent Assets are neither recognised nor disclosed in the financial statements.

N. Impairment

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying cost of the assets exceeds its recoverable value. An impairment loss, if any, is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the assets no longer exist or have decreased.

O. Leases

Leases where significant portion of risk and reward of ownership are retained by the Lessor are classified as operating leases and lease rental thereof are charged to the Statement of Profit and Loss as per the terms of agreement which is representative of the time pattern of the user's benefit.

P. Goodwill on Consolidation

Goodwill arising on consolidation/acquisition is tested for impairment on periodic basis and written-off, if found impaired.

36 Segment Report

The Group's operations predominantly relate to Retail Trade, which in terms of Accounting Standard 17 "Segment Reporting" constitute a single reporting segment.

- 37 Pursuant to the levy of service tax on renting of immovable properties given for commercial use, retrospectively with effect from June 01, 2007 by the Finance Act, 2010, the company based on legal advice, challenged the levy through Retailers Association of India and its retrospective application. The Hon'ble Supreme Court had passed an interim order dated October 14, 2011. In compliance of this order company has made an aggregate deposit of ₹ 39.71 Crore in respect of the liability for such service tax for the period from June 01, 2007 up to September 30, 2011. From October 01, 2011, the company is accounting and paying for such service tax regularly as per directives of the Supreme Court. Accordingly the company has not made provision of ₹ 79.42 Crore for the period June 1, 2007 to September 30, 2011 which would be appropriately recognised on final determination.
