HDFC Life and Parentage

HDFC Ltd

HDFC was promoted in October 1977 as a public limited company specialising in providing housing finance primarily to individual households and corporates for the purchase and construction of residential housing. HDFC is India's first retail housing finance company and is currently one of the largest originators of housing loans in the country. As at March 31, 2016, HDFC had mortgage loan assets of INR 2,915 billion (US\$ 43.85 billion). Since inception, HDFC has financed over 5.4 million housing units. 77% of shareholders in HDFC are foreign investors. HDFC's market capitalisation as at March 31, 2016 stood at approximately US\$ 45 billion. Over the years, the HDFC group has emerged as a strong financial conglomerate in the Indian capital markets with a presence in banking, life and general insurance, asset management and venture capital.

Standard Life

Standard Life is an investment company with over 190 years' experience of helping people invest and manage their money. The Standard Life group employs around 6,500 people internationally - through businesses in the UK, Europe, North America, Asia and Australia. Around 4.5 million customers and clients across 46 countries trust them with their financial future and they are responsible for the administration of over £300 billion of assets. Wherever Standard Life operates in the world, it is motivated by a sense of responsibility. It's what helps Standard Life to be a sustainable business and they are listed as a leader for corporate sustainability for their industry in the Dow Jones Sustainability Indices (DJSI World and DJSI Europe).

Subsidiaries

HDFC Life has two wholly owned subsidiaries:

HDFC Pension: It manages pension corpus of citizens enrolled under the National Pension System (NPS). The recent announcement in Union Budget 2016, allowing tax free withdrawal from NPS has assisted in gaining traction in the retail segment.

HDFC International Life and Re Company: The international subsidiary was recently incorporated to carry out life reinsurance business in the UAE. The Company may also foray into directly underwriting insurance contracts, subject to receipt of necessary approvals in future.

Chairman's Message

Despite a highly competitive and challenging business environment, your Company grew both revenues and profits at a healthy pace

Dear Shareholders,

The financial year ending March 2016 was an important milestone in the journey of HDFC Life.

Despite a highly competitive and challenging business environment, your Company grew both revenues and profits at a healthy pace. The seeds of this performance were sown during the earlier business cycle. As you may be well aware, life insurers had spent most part of this decade aligning the operating model to regulatory changes introduced in 2010 and managing difficult macro-economic headwinds. Your Company utilised this period to build new capabilities, many of which bore fruit during this financial year.

To succeed in the future, investments need to be made ahead of the curve. So far, your Company has also been able to successfully identify trends which define the life insurance sector over the next business cycle well in advance. Slowly but surely, the financial services distribution landscape is shifting away from traditional agents towards institutions such as banks. Insurance is no different and it is important for us to build long-term relationships with a diverse set of institutions involved in the distribution of financial products. Your Company has increased the number of tie-ups to distribute its products on both individual and group platform. It introduced new digital platforms and mobility solutions to

increase its outreach to customers and improve overall business efficiencies.

There is a clear emphasis in government policy to migrate household savings from physical assets to financial assets. Innovation in the operating architecture defined by Jan Dhan-Aadhaar-Mobile (JAM) trinity will significantly transform the reach and efficiency of the insurance sector over the coming years. Customer experience is rapidly getting influenced by customer journeys on social networks and e-commerce platforms. Insurers cannot remain insulated and need to consistently raise the bar in terms of offering a seamless experience to customers.

The progress made in distribution, digital platforms, product innovation and customer experience would yield benefits over the next few years. However, as per accounting rules, the expense related to all these investments need to be accounted for upfront even as earnings accrue over a significantly longer period of time. Hence, one would see an increase in the operating expense ratio in the current financial year, but it still remains amongst the lowest in the industry. Despite significant cost pressures and investments made, your Company was able to increase both, Indian GAAP profits and new business margins. The Market Consistent Embedded Value (MCEV) of the Company grew at a healthy rate as well over the previous financial year.

The Company continued to evaluate product white spaces and launched innovative products in both the life and health segment. It has a robust product development pipeline and more innovations will be brought to the Indian market as and when regulatory approvals are received. Protection plans are a small portion of the portfolio today, but are growing at a rapid pace as consumer become more aware of the role of protection plans as an important instrument of risk management and financial planning. The rate at which these products have been lapped up by consumers is encouraging.

The Company performed well on a diverse set of quality metrics as well during the financial year. The focus on quality and enhanced scrutiny at the new business stage resulted in a reduction in complaints and an improvement in the 13th month and the 61st month persistency. Engagement with employees improved and attrition rates fell when compared to the previous year.

During the financial year, the Company has set up a wholly-owned subsidiary in the Dubai International Finance Centre (DIFC) called the 'HDFC International Life and Re Company Limited' (HILRCL) with an initial capital outlay of \$12.33 million.

The Company's pension fund management subsidiary, HDFC Pension Management Company also continued to grow exponentially, albeit from a small base during the financial year. It is a fairly important avenue, especially given the Government of India's focus on creating a pensioned society, using the National Pension System (NPS) model.

During the year, Standard Life agreed to increase its stake in your Company from 26% to 35%, once enabling regulations were put in place.

The market share of private players continued to increase in the financial year. I believe this is a secular trend, backed by a continuous increase in distribution, technology adoption, brand awareness, product innovation

by the sector and will be positive for your Company.

The regulatory framework is now fairly stable and there is a concerted push by the Government of India towards ensuring greater social security for Indian citizens. However, India still remains significantly below its potential in terms of life insurance penetration and the opportunity to increase coverage of life and health remains immense.

I do expect the competitive intensity to remain high in the coming years. With a strong brand, innovative products, committed employees and your continued support, your Company's ability to deliver consistent, profitable growth remains high, in spite of competitive pressures.

I am confident we will work with all stakeholders using the philosophy of 'Partnering through Life' outlined in this report.

Once again, I would like to thank all our shareholders for your trust and your wholehearted support thus far. Together, I believe we will achieve much more in the coming years.

From the desk of the MD & CEO

Dear Shareholders,

As you are well aware, the basic premise of a life insurance business is customers and insurers entering into long duration contracts based on mutual trust and the principle of utmost good faith. Every time a life insurer acquires a new customer, it incurs substantial upfront costs which can typically be recovered only several years later at a policy level. Hence, to be successful it is important that a life insurer build the right customer value proposition to grow consistently and back it with a financial strength to fund growth especially in the market development phase.

The management team at HDFC Life recognises that building a life insurance organisation can never be a sprint but is a marathon that requires both skill and endurance. It is important that the business be built brick by brick with a long-term orientation that serves all stakeholders especially our customers and our shareholders. We are only in the early stages of this journey and remain focussed on creating value for our stakeholders consistently. This is reflected in both our financial and non-financial performance.

We are at a stage where technology can enable us to reach out to customers in every nook and corner of the country

I am pleased to inform you that in the financial year ending March 2016, your Company was able to make significant progress on the key financial parameters that are used to track a life insurance company's business performance.

Compared to the earlier financial year, the Company's overall premium collection grew by 10% to ₹ 16,313 Crs driven a growth of 12% in individual weighted received premium (WRP), 30% in group premium and 5% in renewal premium. Not only was the Company able to grow premiums, Indian GAAP profits grew by 4% to ₹ 818 Crs. The assets under management (AUM) grew by 11% to ₹ 74,247 Crs. The Company delivered a healthy RoE of 29% during the financial year.

The financial performance however is just an outcome of the investments we have made over the years. We believe that past success cannot be taken for granted in the future. Even the best performing firms in any industry run the risk of losing their competitive edge. Hence, we

have continued to make several investments in the face of significant cost pressures and immediate business challenges.

To start with, let me update you on the steps taken to build the right value systems in the Company. Value systems get embedded over a period of time and are very difficult to change. Our competitors may copy our products but they cannot replicate a value system that is a key source of competitive advantage for us at HDFC Life. Given our size and spread, building this as a competitive advantage is by no means an easy task. However, this must be done and for this very purpose two members of our Executive Committee also serve as Chief Value Officers (CVOs) and were supported by all personnel in the grade of Vice President and above who serve as 'Value Ambassadors' for specific geographic clusters. To ensure embedding of the value system, the Company also appointed 'Value Guardians' in every branch of the Company. Excellence, People Engagement, Integrity, Customer Centricity and Collaboration are not just terms but are becoming

a way of life for the employees of HDFC Life. These values gear our employees towards doing the right thing for our customers, sometimes even at the cost of sacrificing short-term market share gains.

To grow, it is very important for an insurer to improve its distribution reach. The traditional way of doing this has been to open new branches in every market you wish to enter. But this comes with a huge fixed cost structure without assurance of productivity as the sector is exposed to business risks beyond its immediate control. Fortunately, we are at a stage where technology can enable us to reach out to customers in every nook and corner of the country without a physical branch and do it without compromising either customer experience or customer service. Financial inclusion has meant that banks and other financial institutions are rapidly expanding their presence and the benefits of financial inclusion are starting to play out. For many of these players, insurance distribution provides an opportunity to recover a substantial portion of their initial fixed cost in a short time span. Bancassurance is thus

‘Mobility has transformed the way our field teams operate and has created a robust backbone for future sales innovation’

a win-win proposition for banks, insurers and customers. The share of bancassurance continues to grow at a steady pace for private insurers. The Company has signed many financial institutions either as Corporate Agents or as Master Policy Holders during the financial year. Emerging financial ecosystems such as small finance banks, payment banks, e-wallets also provide access to a customer base as also do non-financial ecosystems such as e-commerce whose potential in India is yet to be tapped. Your Company invested ahead of the curve to incubate several of these relationships and I believe these can become a key engine of growth in the future.

The headroom for growth in traditional channels remains huge but this must

be done in a calibrated manner to manage growth and deliver consistent profitability. I believe the solution to this lies in technology and therefore your Company has created the ‘Insta’ suite of mobility tools for its sales force. Mobility has transformed the way our field teams operate and has created a robust backbone for future sales innovation. The entire sales funnel from customer prospecting to policy servicing can be completed at point of sale by a distributor. This is fundamentally changing the way customers experience HDFC Life. We will continue to add more products and features to this platform in the coming year.

The Company continues to develop new ways to selling to customers. As our customer base grows rapidly, many of them remain untouched by us except during premium collection milestones. There is an opportunity for us to tap this dormant customer base which is not serviced regularly by distributors and leverage every customer interactions as an opportunity to sell based on the customer life stage. With this objective, we have sharpened our tele-sales, online and cross-sell capabilities in the financial year. A virtuous cycle of continuous experimentation, learning and improvement has been put in place. Having said so, we have a long distance to cover before putting in place a unique customer advisory platform that helps customers make sound decisions with respect to life insurance.

Product innovation is important as insurance products compete with

other financial products. Given the historic evolution of life insurance in India, the protection segment has remained a white space for far too long. This has changed rapidly in the last few years. With each passing year, more customers have shown us intent to buy pure term plans or health plans. Even with savings and investment plans, there is a huge opportunity to attach riders. We are aware of this gap and plan to close this gap in the coming years. The DIY (do-it-yourself) segment of customers who ‘research online, buy online’ is also a key target segment for us. Many of these customers are of a lower age than an average insurance customer and hence building a relationship with them early in their journey will provide us with multiple opportunities over their lifetimes. We have a bouquet of products under ‘Click2Series’ for which we need to enhance communication with respect to the benefits of buying savings and investment plans online, in order to build scale in this segment. I can assure you that our teams are working hard towards finding a solution.

The number of subscribers of our subsidiary, HDFC Pension Management Company grew more than four fold and the AUM grew more than six fold during the financial year. We are in this business for the long haul. It provides us another opportunity to engage with customers and we also expect it to provide a steady inflow into the annuities offerings of HDFC Life.

‘Leaving behind more than just money - with this premise in mind, we launched a new platform “Memories for Life”’

Leaving behind more than just money - with this premise in mind, we launched a new platform “Memories for Life” where you can leave messages for your loved ones to lead a life of pride. This platform is available even if you are not a customer of HDFC Life. If you have not used this so far, I would strongly urge you to experience this for yourself. This platform strengthens our brand proposition of ‘Sar Utha Ke Jiyo’.

Every year, we undertake a detailed potential review process (PRP) of our middle and senior management employees. This allows us to recognise their progress and potential and enables us to provide growth opportunities to internal talent in line with our talent management philosophy. At the same time, we

continue to hire talent externally for new competencies that the organisation may need from time to time.

The Company runs a unique Smart Achievers programme in conjunction with Manipal Global Education. This is a self-funded program that provides the Company with a regular inflow of trained human resources. Many candidates who joined the programme have earned their certification and continue to perform well in their job roles.

In an employee satisfaction survey conducted this year, 82% of employees gave a favourable rating on the people engagement index and 77% of employees gave a favourable rating on the people enablement index. Both scores are above the 75th global percentile benchmarks.

I can assure you that we have several such innovations that our teams are currently working on. Over time, many from this portfolio of initiatives will become vital customer value propositions or improve our throughput as well as that of our distributors.

We are working faster and harder to create a wider and deeper moat to increase the gap vis-à-vis competition. I believe we have a strong, trusted brand that puts us right up there in the customer consideration set. It allows customers to reduce their search cost while purchasing the right insurance product and increases

their willingness to pay. Our brand also improves the return on time for many of our distributors and makes it economically better for them to sell our products. I also believe we have a unique platform for our partners and that has been a key reason for our expanding network of distributors. However, to retain our competitive edge we need to continuously innovate and find ways to integrate better with their processes and systems. As we cross-pollinate the learning across our distribution partnerships, we will create an interactive network that strengthens over time and improves the overall experience of working with HDFC Life.

We believe that we are on the right track to build economies of scale which is an important element of competitive advantage for an insurer. It helps us diversify risk, allows us to invest more in customer-centric initiatives and in product development, become an insurer of choice of distributors and be more efficient in doing all of this. We hope to continue economic value addition and growth in embedded value will be the key metric that we will focus on.

On behalf of all of us at HDFC Life, I would like to thank you for your support as shareholders.

Warm Regards,

Partnering through life

Organisations are living communities rather than purely economic machines.

Ms. Madhuben Gordhanbhai Dudhat

I am thankful to the entire team of HDFC Life, especially the claim settlement team for a superior service experience in settling my claim. I will always be grateful to them for providing me with the required support throughout the claim process and ensuring a hassle-free experience for someone who has already suffered a far greater loss. I will recommend and insist HDFC Life Insurance to all my family, friends & relatives

The business philosophy of 'Partnering through Life' extends to our customers, distributors, employees and the society at large. The level of partnership that we aspire for with them will establish a future that is better than either of us could have created alone.

With our customers, we strive to establish a deep-rooted emotional partnership throughout their lives by offering best-in-class insurance solutions at key stages of their journey. Over the years, we have evolved as an organisation to provide more than just a product, service or a solution to the customer and to do more than just fill a need-gap in his life. Our goal is to develop a partnership with them based on the underlying principles of trust and give them the confidence that we

With the emergence of networks, platforms and the age of social media, this axiom has never been truer than today. Organisations need to create their own ecosystems around their product offerings and be part

of other ecosystems in a world of increasing interdependencies. Building mutually beneficial partnerships and ensuring their longevity is the key to future success.

Our product innovations offer them protection from a diverse set of risks, helping them sail across hurdles with dignity and self-respect in line with our brand promise 'Sar Utha Ke Jiyo'.

With our distributors, we work to create processes that makes

and motivated employees. Be it providing them with a rich, cross-functional experience or instilling a sense of pride in them through the Ascent of Pride initiative, we are willing to go the extra mile for them. Our endeavour is to make their life as simple as possible and to empower them with the right tools to engage with customers & distributors.

We partner with institutions that impact livelihoods and make a difference to society at large. Under

our Swabhimaan initiative, we try and work with the society at large to take those little steps that can impact diverse areas such as education, health, livelihood and the environment.

In these turbulent times of rapid change and of short-term thinking, we believe that HDFC Life offers enduring partnerships to all stakeholders.

Partnering through life reflects this philosophy.

Strategic Overview

While competitive and regulatory pressures would remain high, leveraging technology will be the key to tapping customer opportunities and solving last mile challenges that currently exist. Digital platforms and analytics provide unique opportunities for customer outreach. It is important for insurance companies to improve customer experience significantly, as the consumers' experience is driven by non-traditional players outside of insurance who have removed friction in the customer journey and have made it seamless. Creating a skilled workforce that is enabled by technology will also be an important distinction for insurers, as at its core, life insurance remains a people-to-people business hinging on trust. Creating the right blend of human and technology experience at the frontline will make a huge difference. It can also help resolve last mile challenges in risk assessment, claims investigation & settlement and fraud management. Identifying profitable product niches which can become large over the years will be key to ensure that the Company offsets any pressure on economic returns due to competitive factors.

Introduction

The Company believes that industry revenue and business models will continue to be driven by key trends over the long run. This includes shift to financial assets by households with active encouragement by the Government, innovation in operating architecture for financial services on the basis of JanDhan-Aadhaar-Mobility, eKYC, interoperability.

The Company is reasonably confident that the trend of private players continuing to gain market share from the public sector player will sustain with bancassurance being the key engine of growth for the visible future. New ecosystems will emerge gradually for selling insurance products even as companies would need to make growth and cost tradeoffs in traditional channels of distribution.

The Company has been cognizant of these trends and is making investments to be positioned for any emerging growth opportunity, while simultaneously protecting its distribution relationships and profitability. There are ongoing investments in creating a simple front-end experience for customers, while managing complex back-end requirements for distributors and regulators.

Value creation for our shareholders will be driven by 4 x 4 strategy comprising 4 pillars or drivers of economic performance supported by 4 important enablers.

Delivering Value

1

Agile, multi-distribution platform

2

Digital Leadership

3

Innovation in product selling & growing niches

4

Economies of Scale

Customer Experience

Technology Enablement

Risk Mitigation & Management

Skill Development & Workforce Retention

Agile, multi-distribution platform

The Company believes increasing distribution reach is key to improving market share. Hence, over the next few years, the Company will continue its drive to expand the number of partnerships and to diversify the sources of new business premiums. It aims to stay ahead of the curve in stitching alliances, with a wide variety of distributors. The Company will offer distributors what it believes to be a best-in-class platform through a mix of offerings, including technology leverage, investments in sales support systems, wider product suite, scale & brand advantage and opportunities to mine their customer base to aid revenue augmentation. In addition, investments will be made to ensure quality and risk parameters are not compromised. While many relationships may start with a single product partnership, with time these relationships will be expanded to sell a wider product suite.

Digital Leadership

Digital leadership will enable our field sales teams better, through adoption of mobility solutions at points of purchase. In addition, we will continue efforts to grow the self-sourced business through our website hdfclife.com and ensure market leadership in the web aggregator category. Digital also means seamlessly integrating and moving step by step with the digital initiatives of our traditional distributors, most of whom are also expanding their own digital footprint. The Company believes digital leadership will also help

expand partnerships to financial service marketplace and to non-traditional channels, as and when these players become ready to sell life & health insurance. A mobile first approach in creation and design of all web-properties will be followed, as increasing traffic to website flows through mobile devices. The Company will also work to grow influence with target customer groups, through effective use of digital media and social networking platforms. The goal is to offer customers with the best digital experience, remove friction from purchase journeys and ensure low cycle times. In the initial period, the Company expects that the investments and revenues are likely to grow linearly, before scale benefits start to kick in. However, the growth and efficiency potential remains high and it is important that the Company invests ahead of the curve.

Innovation in product selling & growing niches

The Company believes it is vital to institutionalise need-based selling and to create a successful advisory platform for use by its distributors. This is a key gap in the market today, but not easy to address. In addition, there exists multiple customer interaction opportunities across various touch points that the Company will leverage to cross-sell to existing customers. Newer capabilities in direct marketing & self closure-on-phone need to be created, as such innovations can significantly aid revenue growth without the need for a wide brick & mortar footprint. The Company will use non-intrusive communication

tools and innovative platforms to engage with customers and increase its revenues. The Company over time will build an analytics Centre of Excellence internally, to leverage the power of data-backed insights and to earn a lift across business metrics.

As far as products are concerned, the Company will build on its position of being a proactive provider of protection plans in both life & health segments. Protection is at the core of an insurer's value proposition and a growth in the protection portfolio will not only attract new consumers but also appeal the younger demographic profile. This over a lifetime of relationships will help the Company

cross-sell and up-sell savings & investments products to these consumers at key life stages. The higher upfront cost of acquisition for protection plans will be offset by the longer term economic opportunity that such customer relationships provide for.

There is a huge gap in the retirement segment and with the Government's stated objective of India becoming a pensioned society, the Company's annuity & deferred pension plans importance will grow. The Company has also created a pension fund management subsidiary to sell NPS products. The Do-It-Yourself (DIY) segment of customers, who research and buy online is expanding. It is important that insurance plans offered by the Company compete successfully with other financial instruments. Hence, the Company will continue to develop and promote low-charge products across protection, savings & investments and retirement category under the

Click2Series. The Company also understands that as it expands partnerships, different partners will have different customer profiles and hence there will be a need to appropriately widen the product portfolio to stay relevant to our distributors & customers.

Economies of Scale

As the Company grows bigger in terms of its revenue, distribution & product footprint, it will benefit from economies of scale. Our objective is to be consistent and outperform the industry growth in both revenues & profitability, over medium to longer term cycles. In the short term, the Company would need to make necessary investments to achieve the right inflection point for scale benefits to start kicking in.

Scale will also provide the Company with necessary economic heft to win new alliances, invest in customer-centric initiatives and build an investment portfolio.

The Company will endeavour to continue to build on the smooth upward curve in terms of economic value addition, as measured by Embedded Value and ensure that new business profitability is enhanced to sustainable levels.

The Company believes this long-term approach in building scale gives it a natural competitive advantage over players, who may be susceptible to lower duration business objectives.

Enablers

The 4 pillars of the Company's strategy would succeed only if necessary investments are made in the 4 underlying enablers:

Customer Experience is typically a concern area for insurers globally and even a minor improvement here could drastically enhance the customer's trust in the Company vis-à-vis its competitors. Customer Centricity is a key element of the Company's values and there is an ongoing drive to enhance the sensitivity of our employees & distributors towards customer needs.

Technology Enablement will help drive distribution efficiencies, back-office capabilities & customer experience. A Technology Enabled Business Transformation (TEBT) program has been underway over the last 3 years in the Company and has started to yield significant

benefits. As FinTech expands to InsurTech and many new technologies get adopted for commercial uses, the Company aims to be at the forefront of such changes.

Risk Mitigation & Management is vital, as the Company expands its distribution footprint and also increases its focus on protection portfolio. In addition to traditional methods, the Company will work towards usage of structured data provided by credit bureaus, fraud repositories, and intelligent risk platforms. In addition, the Company will use capabilities to leverage unstructured data available across the digital ecosystems.

Skill Development & Workforce Retention will remain critical in both sales and non-sales functions. The Company believes that to achieve its strategic objectives, necessary investments in training & grooming people would need to be made. The Company runs a mix of internal & external Learning & Development programmes across hierarchies. It has also tied with a university to ensure a steady pipeline of frontline sales resources. The Company continues its efforts to reduce attrition of its frontline sales resources and improve the vintage mix to enhance productivity levels across the board.

Brand Performance

Since inception HDFC Life has established itself as a credible and customer-centric brand. The brand tagline of 'Sar Utha Ke Jiyo' echoes the brand's promise of enabling its consumers to become financially independent and helping them live a life of pride. In all its brand communication last year, the company maintained this ethos.

Last year, we refreshed our brand thought of Sar Utha ke Jiyo to reflect the current social context. We believe the bread winner contributes much more than just the financial independence of their family today- they pass on strong values like self reliance to their family. Our brand campaign 'Apno ko apne dum pe jeena sikhao' captured this thought beautifully and reinforced the relevance of the brand in the consumers' lives.

This year we took it a step forward by creating an online platform for such providers to leave behind more than just a financial legacy for their family. 'Memories for Life' is a unique value added video service, which enables a person to leave behind a cache of life lessons that could act as a guiding light to their families. The messages (video/ scrapbook) recorded by users on this platform could be sent immediately or scheduled up to a period of 10 years! In a category like insurance

which tends to be transactional, we created a deeper and more engaging relationship with both prospects and customers through this initiative.

We continued to market our need based categories, our recent Cancer Care campaign with Lisa Ray was a successful attempt in tapping into the latent need for buying a disease specific health product. While this was an innovative and customer centric product on both need and process fronts, we saw an opportunity to market it differently too by using a celebrity cancer survivor, model/actress Lisa Ray to tell her true story of her fight against cancer. Again, where everyone focused on the mental trauma of cancer, we spoke about the need for financial preparedness, which could help one fight cancer better.

Further, the company used the Customer Lifecycle based engagement program to identify opportunities and bring heightened level of engagement at every stage. During the year, opportunities were identified in following stages of customer lifecycle: On-boarding, building relationship by engaging around emergency preparedness program, providing information etc. and growing with customers (Cross sell basis customer profile, Analytical models and Persistency).

We continued efforts this year to increase the digital quotient of every aspect of the organization ranging from business, customer service, social media marketing & customer engagement. To ensure our leadership on social platforms specific platform-based strategies were created for Facebook, Twitter, YouTube and LinkedIn.

To ensure that we remain a consumer focused brand with a social imprint, we tied up with an NGO called Milaap to create a social led crowd funding campaign and light up a village during Diwali. As a result of this initiative we collected INR 15.6 lakhs in less than a month's time. Further to this, during the launch of HDFC Life Click 2 Retire, we created a campaign called Second Innings. It was focused on raising awareness about early retirement planning. Along with social promotion a specific micro-site was created to promote the thought which saw more than one lakh visitors in a month's time.

As part of our consumer experience initiative, we created customer journeys which remained seamless irrespective of the platform or medium that the consumer is using to reach us. We achieved this by deploying Adobe Marketing Suite.

Management Discussion and Analysis

A. Macro Economic Trends

Despite global headwinds and a truant monsoon, the Indian economy registered a growth of 7.2 per cent in 2014-15 (Source: RBI) and 7.6 per cent in 2015-16 (based on data released by Central Statistics Office), thus becoming the fastest growing major economy in the world. As per estimates of the International Monetary Fund (IMF), global growth averaged at 3.1 per cent in 2015, declining

from 3.4 per cent registered in 2014. While growth in advanced economies has improved modestly since 2013, many emerging economies have witnessed a consistent declining trend in growth rate since 2010. It is against this background that the Indian economic growth story appears particularly bright.

Figure 1: India and World growth since 1991 (per cent)

The Indian economy continued to experience moderation in general price levels during the year. The substantial decline in price of crude oil partly contributed to the decline in general inflation, for a second successive year. Headline inflation, based on the Consumer Price Index (CPI), dipped to 4.9 per cent during April'15 - January'16, as against 5.9 per cent a year earlier. Lower inflation results into higher disposable income in the hands of consumer and has traditionally been positive for the growth of the financial sector in general and saving instruments particularly.

Key Levers Impacting the Life Insurance Industry in India

Life insurance sector in India is now poised for a sustainable long term growth trajectory. Between 2010 and 2015, the sector performed below its potential, despite tail winds such as demographic dividend and a push towards financial inclusion for Indian citizens. This was primarily due to continuous regulatory intervention

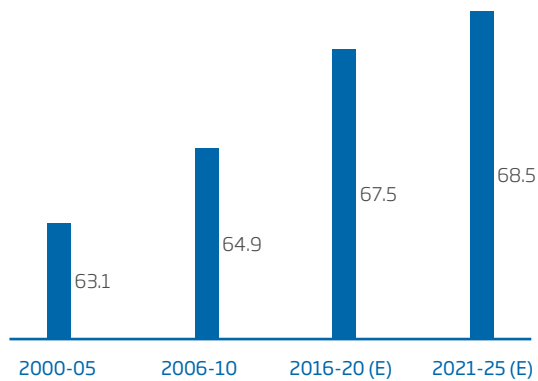

and a inflationary environment, which did not encourage the growth of financial savings by households. However, the experts remain sanguine about long term outlook for the sector, assisted by strong macroeconomic trends, recent business performance by the private sector players and the government's focus on increasing financial inclusion and raising financial awareness through social security schemes aided by the JAM (JanDhan-Aadhar-Mobility) trilogy. Mentioned below are a few factors which position the sector for a healthy growth in future:

I. Favorable demographics

India's insurable population is anticipated to touch 750 million in 2020 (Source: www.ibef.org). Demographic factors, such as growing middle class, young insurable population and growing awareness of the need for protection and retirement planning will support the growth of life insurance in India.

II. High proportion of underinsurance in India

Comparison vs other countries (FY 2015)

Source: Swiss Re (2014)

Trend in India

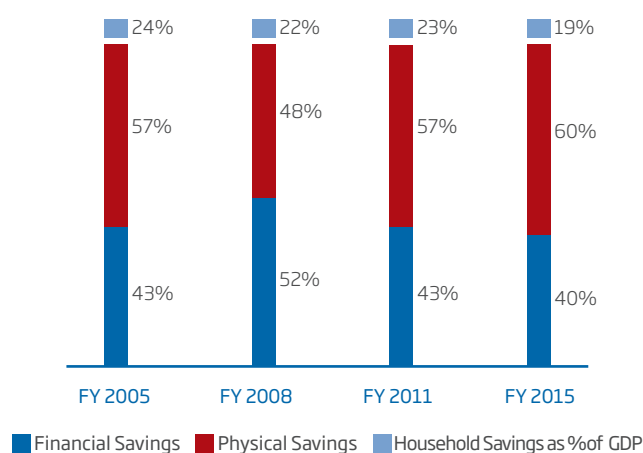

Source: Swiss Re (2014)

The insurance density for life insurance business, indicating sum assured per capita, reduced considerably from \$56 in FY 2011 to \$44 in FY 2015 on back of de-growth in the overall sector. Life insurance density is significantly below other countries, indicating a huge runway for growth ahead.

The current life insurance penetration in India at 2.6% is significantly lower even among the emerging economies basket. In absolute terms the penetration is comparable globally, as the premium disclosures include significant portion of savings element in India. However, when compared to other savings dominated markets, the levels are low and offer tremendous growth opportunity. Additionally, new social security schemes launched by the Government, reiterates its focus to increase insurance penetration at the grass roots level.

Management Discussion and Analysis

Household savings composition

Source: DBIE-RBI Statistics (2015), RBI Annual Report (2014), Economic Survey 2014-15 Vol. II, Press Note 2014-15 by CSO.

Household savings play an important role in driving the economic growth of the country. India has a balanced mix of both physical and financial savings. Within financial savings, life insurance is one of the preferred investment options and its share has increased over last few years. Household savings has however reduced from FY 2005 to FY 2015 with an underlying shift in favour of physical assets on the back of strong returns investors have earned in real estate and gold. With the expected revival of the Indian economy and an increasing focus of the Government to increase financial penetration, the overall household savings are expected to increase. Stabilising real estate demand and softening gold prices would potentially aid the shift from physical savings towards financial assets going forward. Any increase in financials savings rate in India would also have a positive impact on the growth of insurance sector.

IV. Increasing digital adoption

Digitization and the advent of internet / mobile technology have already transformed a number of industries. The digital universe and technological advances have the potential to radically change the way insurance companies operate, including the interaction with consumers, evaluating and conducting sale, underwriting and conversion process and settlement of claims.

Insurance companies continue to explore cost effective modes of distribution and online sales channels offer huge growth potential.

Change in financial assets

Though the online channel does not contribute significantly to the current total sales pie for the industry, this mode of distribution is expected to gain swift momentum in the coming years. According to Digital@Insurance-20X By 2020, a Google-BCG report, by 2020 six per cent of all insurance sales in India will occur online.

Leveraging technology for sales and fulfillment via online channels, automated underwriting, eKYC and moving towards paperless trail of transactions will change how life insurance companies operate. Digital and associated technologies will play an important role in the growth of the sector. With increasing insurance penetration and advent of technology, this will be a key catalyst for the growth of the sector.

V. Government and Regulatory initiatives

(a) **Financial Inclusion driven by low cost insurance schemes:** Government continues to increase financial inclusion through social security schemes launched last year, including Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY), Pradhan Mantri Suraksha Bima Yojana (PMSBY), and Atal Pension Yojana (pension scheme). These schemes also have the potential to improve insurance penetration and reinforce the relevance of insurance for the masses. Over the past year (till Mar 31, 2016), approximately 3 Crs policies have been issued under the PMJJBY scheme (life insurance). Comparatively, this is more than total number of new life policies (2.6 crs) issued in FY 2015.

Management Discussion and Analysis

(b) **Establishment of insurance service companies:**

The insurance companies have historically been spending extensively in setting up brick & mortar offices, to reach out to customers and service them in an effective manner. An alternate approach being evaluated includes setting up neutral service centres, to accept customer requests from the policyholder of any insurance company and pass on the same to the respective insurance company in a cost efficient manner. These service centres will not only increase the connect points available to customers, but will also deliver insurance at the doorstep of the customer. The insurance companies would also gain by saving on investments to be made in the traditional brick & mortar offices. In order to take forward the concept of service companies, the IRDAI would be setting-up an expert committee that will study the issue and recommend to the Authority on the form, nature and issues of the proposed model of a service company.

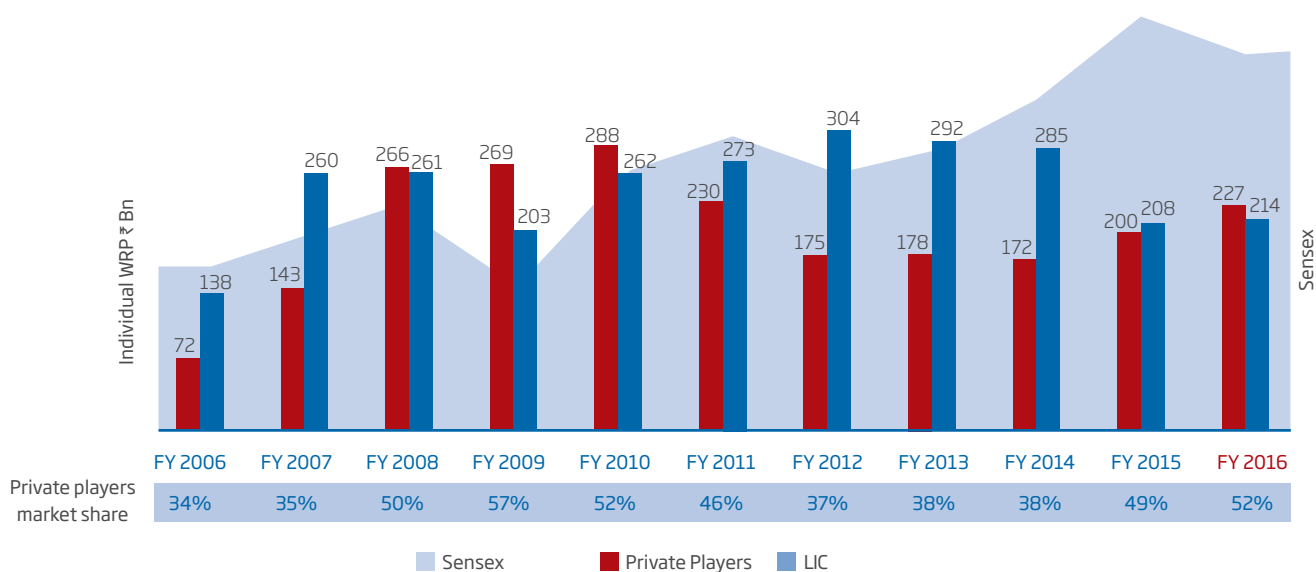

(c) **Promotion of e-commerce:** The IRDAI has formed two committees to explore and suggest ways to promote e-commerce in the sector, in order to increase insurance penetration and promote financial inclusion.

B. Life Insurance industry overview

I. Overview

India abandoned public sector exclusivity in insurance industry in favor of market-driven competition, post the passage of the Insurance Regulatory and Development Authority Act in 1999. New era of insurance witnessed the entry of international insurers, proliferation of innovative products and distribution avenues, and raised the supervisory standards over last 15 years. Today, life insurance industry is second only to banks in mobilizing savings and forms an integral part of the capital market. The private sector players have over last 15 years witnessed a phase of high growth in line with buoyant equity markets during FY 2003 to FY 2008 period, followed by de-growth due to global recession in 2008 and subsequent regulatory changes. However, since FY 2015, the sector has shown signs of healthy recovery, primarily led by the private players who have adjusted their business models over the past few years and reflects a new phase of growth expected to continue for years to come.

Overall, life insurance industry in India has come a long way from monopoly to intense competition, from a savings orientation to a protection orientation and a gradual shift from 'Push' products to 'Pull' products in select segments.

Note: Basis Individual Weighted Received Premium (WRP) as disclosed by IRDAI, Life Insurance Council, HDFC Life Analysis

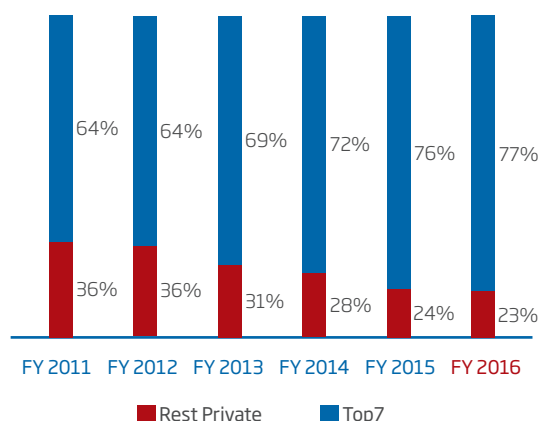

Management Discussion and Analysis

During FY 2016, life insurance industry collected total new business premium of ₹ 1,387 Bn, against ₹ 1,131 Bn in the previous financial year, a growth of 23%. While private sector insurers posted 18% growth in their premium income facilitated by higher individual and group business, LIC recorded 25% growth predominantly due to growth in group portfolio. In Individual WRP terms, private players grew by 14%, while LIC grew by 3%, leading to an overall industry growth of 8% in FY 2016.

The private players gained traction in FY 2016, post muted performance over last few years outpacing LIC in terms of Individual WRP. The private player market share increased back to 52% based on Individual WRP, after hitting a low of 37% in FY 2012.

With the industry moving towards better quality and sustainability, more agile and larger players have witnessed increasing market share, compared to others - Top 7 contribute 77% of the private market share in FY 2016 versus 64% in FY 2011 (based on individual WRP). The growth has been spurred by product innovation, vibrant distribution channels and identification of new market niches even as delivery mechanism through various distribution tie-ups continue to play a key role.

II. Product Mix across Private Players

Source: IRDAI and Life Insurance Council data, HDFC Life Analysis

Prior to FY 2011, the private sector players were focused on unit-linked products. However, post the regulatory amendments introduced in Sept-10, the industry witnessed a shift in product mix from linked products to non-linked also commonly known as conventional or traditional products.

Unit-linked products continue to offer attractive proposition to customers, with a buoyant equity market outlook, pick-up in economic growth, reducing interest rates and improved stability in the insurance sector. Various new variants under the linked portfolio have also been launched to cater to diverse customer needs.

Currently, private sector has moved towards relatively balanced mix, with higher focus on need-based selling and increased awareness for protection needs including life, health and annuity.

III. Distribution Mix across Private Players

Note: Based on Individual New business received premium

Source: IRDAI data, HDFC Life Analysis

Management Discussion and Analysis

Over the years there has been a distinct shift in distribution mix, with bancassurance contributing a higher proportion of business. Agency and bancassurance continues to be the two significant contributors of new business for private players. The development of bancassurance channel is primarily due to a captive customer base and leveraging the wide-spread network of bank branches.

Direct channel, led by online and other modes is also growing. These channels have shown huge growth potential and serve as mode of distribution that insurers have better control on. Almost all the leading insurers have introduced simple customer friendly products online, with limited underwriting across savings and protection segments to leverage the potential of the channel.

IV. Regulatory changes

IRDAI has played a vital role in the overall evolution of life insurance sector in India. Prior to 2010, the focus of the industry was on first year premium growth and market share traction. Post that, significant changes were introduced by the regulator across product categories to ensure best interests of the customers are at the center of policy making. The passage of the Insurance Laws (Amendments) Act last year further empowered the regulator. Subsequently IRDAI has released various regulations, guidelines and exposure drafts relating to the operations and expenses of an insurance company. Below is a summary of key updates during the year:

IRDAI (Issuance of Capital by Indian Insurance Companies transacting Life Insurance Business) Regulations, 2015

The IRDAI had issued capital issuance guidelines in 2011 allowing life insurance companies to go for a public listing. During the year, revised guidelines for capital issuance were released, allowing a life insurance company to go for an IPO anytime during its lifetime, versus earlier restriction of minimum ten years operating history. Additionally IRDAI has provided that the regulator can direct a life insurance company for an IPO. The regulator shall consider company's overall financial position, its regulatory record, capital structure post the transaction etc., before granting its approval for an IPO.

IRDAI (Registration of Corporate Agents) Regulations, 2015

The final corporate agency regulations were issued in FY 2016, after multiple drafts issued by the Authority for wider consultations. Regulations allow a corporate agent to have an arrangement with minimum one and maximum three life insurers to solicit, procure and service their life insurance products post April 1, 2016. Every corporate agent is required to submit a Board approved policy addressing the manner of adopting open architecture along with the implementation plan. It shall also include proposed business mix, type of products sold, grievance redressal mechanism and reporting requirements proposed across each partner.

As a part of these regulations, IRDAI has imposed responsibility on the respective corporate agent to service its policyholders during the entire period of contract, including assisting in payment of premium or making a claim and providing all other ancillary services.

IRDAI (Other Forms of Capital) Regulations, 2015

The Insurance Amendment Act allowed an insurance company to raise capital apart from equity instruments. In line with the mandate, IRDAI has issued regulations allowing companies to issue preference shares, debentures and other subordinated debt. However, these alternative forms of capital are subject to a cap of 25% of the total paid up equity capital. Additional restrictions have been imposed on such instruments on treatment of expenses / redemption and eligibility in solvency calculations.

Others

The regulator is actively engaged in deliberating on a number of other guidelines as required under the act. As a part of the process, various drafts have been issued. Final guidelines related to following are awaited:

- Expense of Management (EOM) guidelines to limit the expenditure being charged across product categories, including conventional and unit-linked.
- Payment of commission or remuneration to insurance agents and intermediaries - The draft lays down the overall payouts allowed to be made to an insurance agents and intermediary.

D. Standalone Performance Overview

The Company delivered another year of healthy performance across all the key metrics during FY 2016. The Standalone results presented below includes detailed analysis across the key financial parameters tracked by the Company.

Income statement analysis

The reported *Gross Premium Income* representing the total premium earned by the Company increased by 10%. Robust growth has been witnessed across First year, Renewal and Group premium. *Income from Investment* declined during the year, primarily due to mark to market

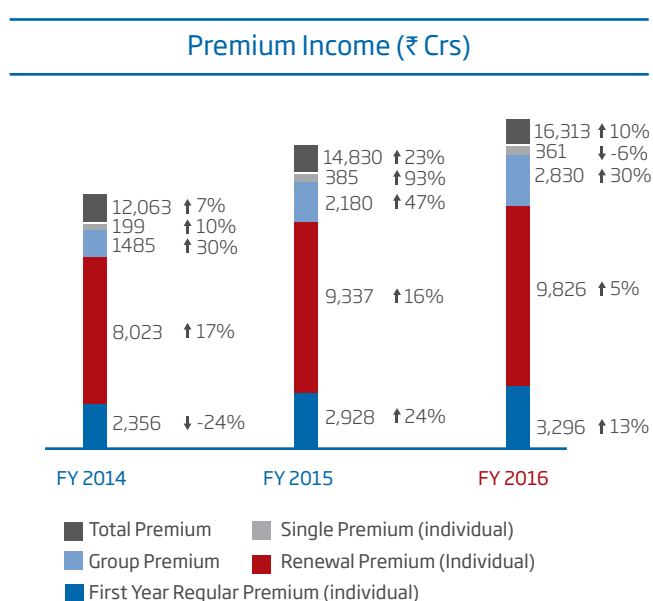

losses in equity portfolio, resulting from turbulent market conditions during the year (*Impact on UL segment is profit neutral for the Company as there is a corresponding reserve adjustment*). The Company continued to invest in development of new distribution channels, technology and products, which resulted in increase in the expense ratio to 11.6%. The Net premium (Gross premium less *Benefits paid*) saw a healthy increase of 23% with Benefits Paid during the year remaining steady. Impact of all the above factors resulted in 4% growth in the Profit after tax which stood at ₹818 Crs. The growth was despite healthy increase in new business written during the year and corresponding new business strain impacting the current year financial.

Management Discussion and Analysis

• Revenue

Revenue implies total premium collected by the Company during the year, which increased by 10% from ₹ 14,830 Crs in FY 2015 to ₹ 16,313 Crs in FY 2016. Strong growth witnessed in new business written under individual and group business segments and stable renewal premium led to the growth in revenue. The first year regular individual premium business grew by 13% from ₹ 2,928 Crs in FY 2015 to ₹ 3,296 Crs in FY 2016. The growth in first year premium is driven by our diversified-channel approach, coupled with new product introductions. We have seen growth across our key distribution channels.

Renewal premium remained steady at ₹ 9,825 Crs in FY 2016. A number of customer education initiatives helped in improving Renewal premium collection.

Group business premium delivered a healthy growth of 30% from ₹ 2,180 Crs in FY 2015 to ₹ 2,830 Crs in FY 2016 on back of focus on protection led Credit Protect business and steady performance in traditional group term insurance and fund based business.

Management Discussion and Analysis

• Reinsurance ceded

Company's focus on pure protection and health business (across individual and group segments) resulted in increase in Reinsurance ceded over the last few years. The company revised the reinsurance arrangement for change

in frequency of payment from annual to quarterly in FY 2015. As FY 2015 was a transitional year, the reinsurance premiums were lower as only reinsurance premium for the quarters had to be paid after the policy anniversary, compared to FY 2016 wherein premium for all four quarters are payable.

• Income from Investments

₹ Crs	FY 2016					FY 2015				
	Policyholders			Share-holders	Total	Policyholders			Share-holders	Total
	Unit	Non Par	Par			Unit	Non Par	Par		
Interest, Dividends & Rent (Net of amortisation)	1,828	596	1,067	164	3,655	1,499	437	958	149	3,043
Realised gains / (losses)	2,898	8	(135)	5	2,776	2,569	19	628	52	3,267
Unrealised gains / (losses)	(4,472)	1	-	-	(4,471)	6,137	3	-	-	6,140
Total Income from investments	254	605	932	169	1,959	10,205	459	1,586	201	12,450

Note: Non Par includes non unit portion of unit linked business

The income from investments comprise of income accrued on investments in the form of interest, dividend, etc. It also includes gains/losses realised from sale of underlying investments and gains/losses that are not realized pertaining to the unit segment i.e. mark to market gains/losses. The investment risk for unit segment is borne by policyholders and due to corresponding adjustment in the reserves; shareholders profits would not have any material impact. The income from investments during the year reduced from ₹ 12,450 Crs in FY 2015 to ₹ 1,959 Crs in FY 2016 primarily due to higher mark to market losses on policyholders fund under unit linked business.

Other segments witnessed a fall in investment income from ₹ 2,246 Crs in FY 2015 to ₹ 1,706 Crs in FY 2016 mainly due to lower realized gains of ₹ 820 Crs vs FY 2015 driven by weak capital markets. During the year BSE Sensex declined by 9% from ₹ 27,957 as on March 31, 2015 to ₹ 25,341 as on March 31, 2016 as against an increase of 25% in the previous year.

• Other income

Other income mainly comprise of policy restatement fees, interest on revival of policies, interest on policy loans, etc. Other income has increased from ₹ 32 Crs in FY 2015 to ₹ 70 Crs in FY 2016 primarily on account of one-off interest earned on IT refund of ₹ 34 Crs.

• Commission

₹ Crs	FY 2016				FY 2015			
	First Year	Single	Renewal	Total	First Year	Single	Renewal	Total
Premium	3,296	3,191	9,826	16,313	2,928	2,564	9,338	14,830
Commission	575	4	122	702	498	6	120	624
Commission %	17.4%	0.1%	1.2%	4.3%	17.0%	0.2%	1.3%	4.2%

The Company pays commission to its distributors on the premium income collected during the period under review. The commission expense increased from ₹ 624 Crs in FY 2015 to ₹ 702 Crs in FY 2016, an increase of 13%

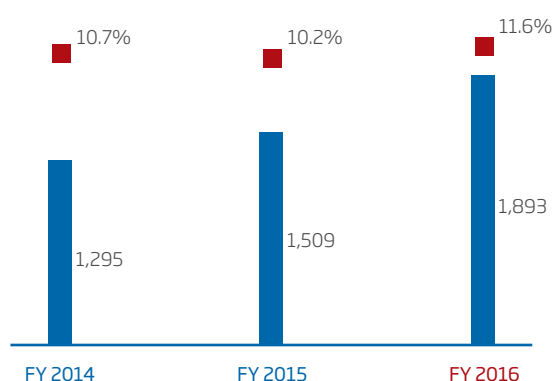

in line with the underlying business growth. The increase in first year commission ratio reflects the change in product mix with higher proportion of traditional business sold during the year.

Management Discussion and Analysis

• Operating expenses

The Company continues to invest in development of new distribution channels, technology and products which resulted in an increase in the operating expense ratio to 11.6% versus 10.2% in previous year.

Operating Expenses

In absolute terms, the operating expenses increased by 25%, driven by increase in costs related to employees,

infrastructure, marketing, operational and IT related expenses, in line with the inflation and growth in business.

Employee-related costs form significant proportion of the Company's expenses considering the nature of business. While the Company continues to focus on consolidation of its branches and increasing employee efficiency, the employee costs and infrastructure costs increased in line with inflation.

With higher business volumes and various customer-oriented initiatives, the Company also saw an increase in call centre, collection charges and other operations-related expenses. IT expenses increased due to Company's strategy of focusing on digitization and building digital ecosystem in order to improve customer experience and increase organizational efficiencies.

With increased focus on segments like Protection & Health, there was an increase in the costs pertaining to web-branding and marketing campaigns and other operational expenses that are directly linked to the number of new policies acquired and underlying sum assured (Stamp duty and Medical fees).

Benefits paid

₹ Crs	FY 2016			FY 2015		
	Unit Linked	Traditional	Total	Unit Linked	Traditional	Total
Surrenders & Withdrawals	4,992	794	5,786	6,121	879	7,000

Protection Claims (Death, Health & Rider)	152	217	369	137	156	293
Total Benefits paid	6,613	1,629	8,242	6,489	1,745	8,234

Benefits paid by an insurance company include the payouts made by the Company against claims, maturity, surrender, withdrawals etc. The benefits paid by the Company during the year were similar to previous year in absolute terms at ₹ 8,242 Crs in FY 2016 versus ₹ 8,234 Crs in FY 2015. Numerous initiatives towards customer education and retention resulted in reduction in surrenders and withdrawals from ₹ 7,000 Crs in FY 2015 to ₹ 5,786 Crs in FY 2016, a decrease of 17% during the year. The number of policies surrendered also reduced by 35% during the same period.

The maturity and money back claims have increased due to more policies completing their policy term and eligibility period for money back payouts respectively, while the annuity claims have increased due to higher business sold in the previous years in line with actuarial projections.

Protection claims have increased in line with expectation, on account of higher protection business written over last few years (Online term, Group protection and Health).

• Other provisions

In accordance with the requirement of IRDAI accounting regulations, the Company has laid down the impairment accounting policy for recognizing diminution in value of investments and its subsequent reversals in Revenue/ Profit and Loss Account. At each balance sheet date, the management assesses impairment loss or further incremental impairment loss/reversal of impairment loss that has been previously recognized. Impairment charge for diminution in the value of investments relates to the impairment loss to the extent of the difference between the re-measured fair value of the security/investment and its weighted average acquisition cost as reduced by

Management Discussion and Analysis

any previously recognised impairment loss in Revenue/ Profit and Loss Account. Negative charge for diminution in the value of investments in FY 2015 represents the net

reversal of impairment provision due to sale of securities during the year and owing to the reversal of impairment loss earlier recognised.

• Change in Valuation Reserves

₹ Crs	FY 2016				FY 2015			
	Unit	Non par	Par	Total	Unit	Non par	Par	Total
Change in Valuation Reserves (net)	807	2,063	3,059	5,928	10,713	1,626	3,314	15,652

Note: Non par includes non-unit portion of unit-linked business

The change in unit reserves represents the change in the fund value of policyholders fund under unit linked segment. The decrease in unit reserve from ₹ 10,713 Crs in FY 2015 to ₹ 807 Crs in FY 2016 is in line with the decline in investment income for unit segment (Refer note on Income on investment). The increase/decrease in change in reserves from other segments i.e. Par and Non Par is reflecting the business increase; less the reserve release on account of benefit payout. Par reserves are lower also due to market impact.

Particulars	FY 2016	FY 2015	Growth
FFA - Provision for lapsed policies unlikely to be revived	(49)	(39)	NM
FFA - Profits transferred to Balance sheet for Par business	290	190	53%
Total	241	151	60%

Note: NM represents not measurable

The reduction in FFA - Provision for lapsed policies unlikely to be revived is due to transfer of FFA to shareholders on completion of the eligible period for revival. The Company has recognized the charges on discontinued policy during the year resulting in profit of ₹ 49 Crs in FY 2016 vs ₹ 38 Crs in FY 2015.

Fund for future appropriation - Profits of par business transferred to Balance Sheet reflects the undistributed tax surplus arising from par business. In FY 2016, addition to FFA increased from ₹ 190 Crs in FY 2015 to ₹ 290 Crs in FY 2016, due to transfer of current years incremental undistributed surplus to Balance Sheet through appropriation.

• Provision for tax

Particulars	FY 2016	FY 2015	Growth
Provision for tax (Revenue account)	175	119	46%
Provision for tax (P & L account)	17	19	-13%
Total Provision for tax	191	138	38%

The increase in total tax from ₹ 138 Crs in FY 2015 to ₹ 191 Crs in FY 2016 was on account of increase in total taxable surplus of the Company.

• Profitability

Profit after tax

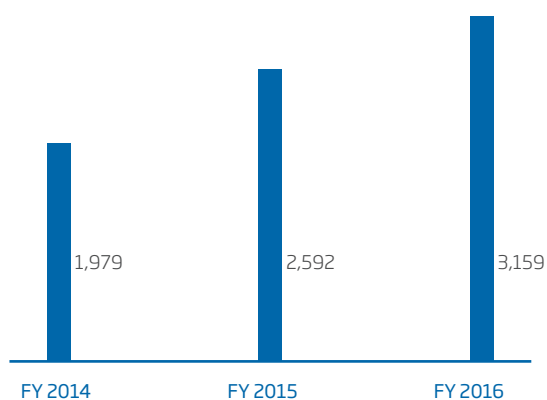

Above factors resulted in an increase in Profit after tax by 4% from ₹ 786 Crs in FY 2015 to ₹ 818 Crs in FY 2016. The underlying profit growth was achieved on the back of healthy existing business surplus delivered by the back book, partially set off by the increased new business strain due to growth in new business.

• Capital and Solvency Ratio

The Company is sufficiently capitalised and has not raised any capital for last 5 years (except through issuance of ESOPs under the relevant ESOP schemes). Healthy profit delivery across the years has enabled the Company to be self-sufficient and fund growth opportunities through internal accruals. The overall share capital including share premium is at ₹ 2,164 Crs. The net worth has increased considerably during the year by 22% to ₹ 3,159 Crs.

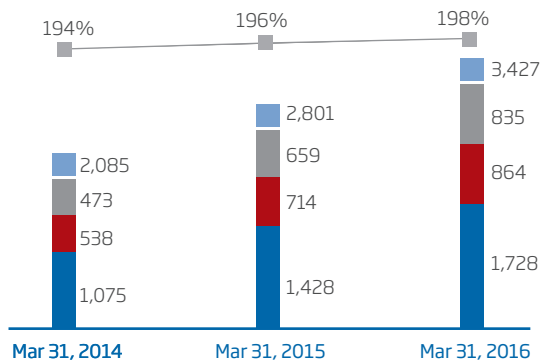

Management Discussion and Analysis

Net worth

The Company maintained a healthy solvency ratio of 198% as on March 31, 2016, as against a regulatory requirement of 150%.

Fund Performance

The Company has outperformed benchmarks across the major fund categories over both, medium and long-term horizon. The Company continues to strengthen its research capabilities to ensure consistent out performance and continued to follow its investment philosophy of investing with a longer term horizon in mind.

The Company believes that its portfolio is currently well positioned to take advantage of the cyclical upturn in the economy and its valuation-based approach should generate sustainable long-term returns in the equity markets.

Management Discussion and Analysis

E. Performance of Subsidiary Company

I. HDFC Pension

HDFC Pension Management Company Limited ("HDFC Pension") is a wholly owned subsidiary of the Company. It is a licensed Pension Fund Manager appointed by Pension Fund Regulatory and Development Authority (PFRDA) to manage pension corpus of citizens enrolled under the New Pension Scheme (NPS). Like most other developing countries, India does not have a universal social security system to protect the elderly against economic deprivation, providing a huge opportunity to channelize the savings into retirement planning. The role of HDFC Pension is to manage the funds with a clear objective of long term capital formation for the subscriber of NPS.

The AUM as on March 31, 2016 was ₹ 376 Crs, a growth of 609% led by strong growth in both corporate and retail model. HDFC Pension ended the year with a gross income of ₹ 2.4 Crs and a net profit of ₹ 1.2 lakhs.

The recent announcement in Union Budget 2016 allowing partial tax free withdrawal from NPS has assisted in gaining traction in retail segment. The trend is expected to continue over next few years. PFRDA is also pushing the government to give the government employees, the

choice of choosing their pension fund manager. This would also increase employee penetration across corporate, thus contributing to the AUM growth.

II. HDFC International Life and Re Company

HDFC Life has set up a wholly owned subsidiary in the Dubai International Financial Center (DIFC) called the 'HDFC International Life & Re Company Limited' (HILRCL) with initial capital outlay of \$12.33 million.

HILRCL will operate as a Category 1 licensed entity, offering reinsurance capacity to ceding insurers and may also foray into directly underwriting insurance contracts subject to receipt of necessary approvals.

It would initially offer reinsurance capacity in the UAE and subsequently expand to other jurisdictions, using either of the aforesaid business models. HILRCL draws significantly from HDFC Life's expertise and experience of underwriting NRI lives and will look to cater to the requirements of domiciled insurers, while addressing the needs of this growing segment in GCC (Gulf Cooperation Council). The subsidiary's principal lines of business will initially be both treaty and facultative reinsurance in respect of life insurance business underwritten by the insurers.

Audit and Risk Management

ENTERPRISE RISK MANAGEMENT

Risk Management is an integral part of the overall business strategy and planning for any entity. It is essential that an organization have robust risk management policies that are aligned to its strategy and values. As an organization, HDFC Life firmly recognizes Risk Management as an integral building block to proactively manage risks and maximize opportunities related to achievement of its strategic objectives. The Enterprise Risk Management (ERM) framework within the Company operates as a feed-in system to various internal and external stakeholders, Management, and the Board of Directors.

The ERM framework adopted is enabled by the risk oriented enterprise level culture with established risk governance framework, characterized by:

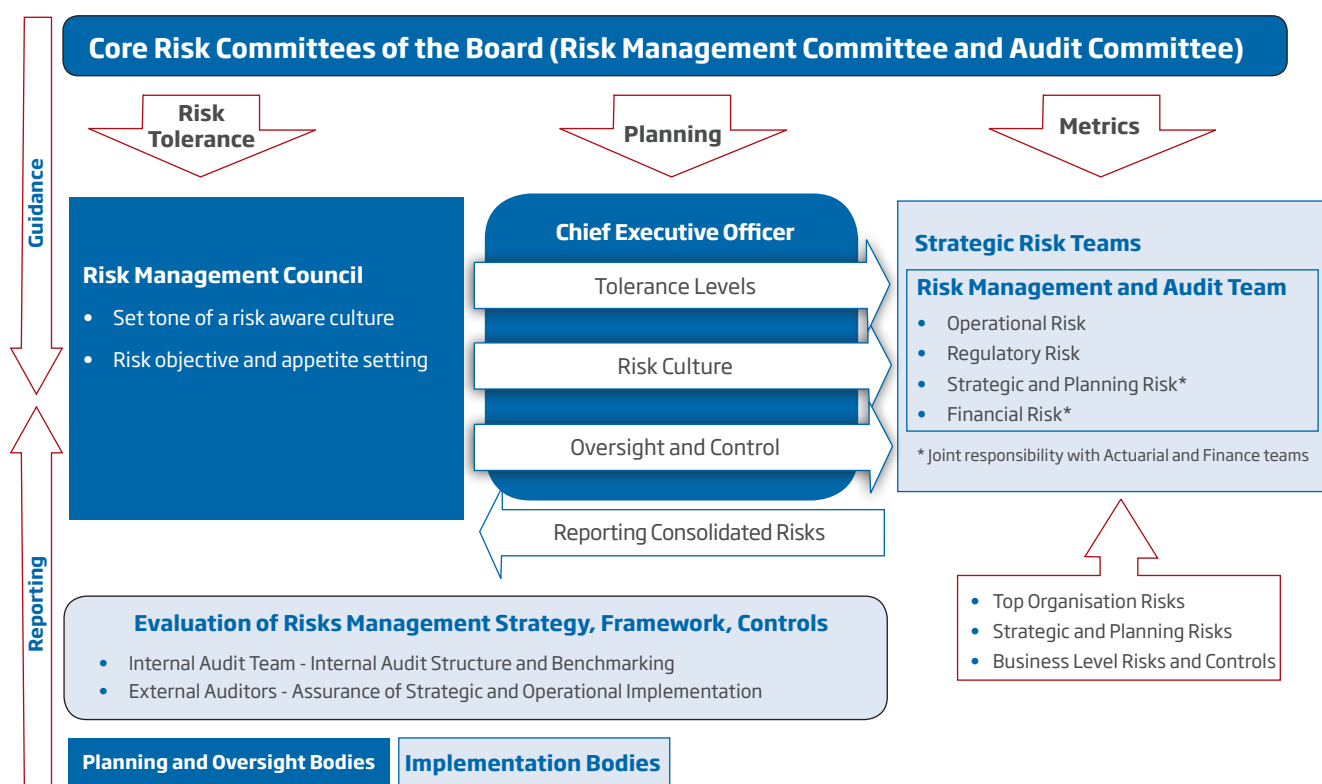

1. Risk management competency throughout the organization with a consensus that risk management is everyone's responsibility.
2. An iterative process of identifying and evaluating risks, setting risk treatment strategies, and monitoring results.
3. A dedicated Enterprise Risk Team with defined roles and responsibilities, which functions under the guidance and supervision of Chief Risk Officer ('CRO').

4. Risk oversight by Senior Management & Board of Directors, via Risk Management Council and Risk Management Committee respectively.

The key objectives of ERM at HDFC Life are:

1. **Ensure** protection of the interests of our policyholders, shareholders, joint-venture partners, employees, and relevant stakeholders and adherence to internally devised value framework.
2. **Ensure** complete adherence to applicable regulatory guidelines mandated by regulatory authorities are met unequivocally maintaining an ethical & strong corporate governance culture.
3. **Ensure** proactive identification, assessment, measuring, monitoring, management and reporting of risks with unambiguous objective of minimising risk and maximizing opportunities.
4. **Assure** providing a systematic, structured, clear, comprehensive and dynamic mechanism for taking smarter yet informed decision making whilst addressing risk & uncertainty pragmatically.
5. **Assure** risk management is tailor-made and not one-size fits all taking human and cultural factors into account in building lean yet effective processes and promoting strong risk culture.

Risk matrices addressed through the ERM Framework

- Operational Risk** - Risk of loss resulting from inadequate or failed internal processes, people, systems or external events including legal risk.
- Compliance/ Regulatory Risk** - Risks emanating from non-adherence to regulatory, judiciary and legislative mandates and guidelines, leading to fines and penalties.
- Strategy and Planning Risk** - Risks emanating from non-achievement of strategic objectives, deviation from strategic plans, external and internal factors.
- Financial Risk** - Comprises of the following nature of risks:
 - Market Risk** - Risk of loss resulting from adverse movement in market prices across asset classes and investment positions.
 - Liquidity Risk** - Market Liquidity Risk is inability to liquidate an asset and Funding Liquidity Risk is inability to meet obligations when due.
 - Credit Risk** - Risk of loss resulting from the potential that counterparty defaults will fail to meet obligations in accordance with the agreed terms.

- Asset Liability Mismatch Risk** - Risk due to uncorrelated / unmatched movement in the asset and liability cash flows on existing business and risk of future premiums being invested at low interest rates.

Risk Treatment in HDFC Life

HDFC Life is exposed to different types of risks emanating from both internal and external sources. The Company has in place a Risk Management team, which helps identify, take measures and mitigate each risk. The team is guided by the Company's Risk Management Committee, Risk Management Council and the Senior Management to develop and implement Risk Assurance practices on a pan-organisational basis. The Risk Management team at HDFC Life addresses various types of risks, ranging from those pertaining to strategy (concentration, persistency, direct tax exposure and investment risks) and operations (process, information systems) to those associated with financial processes (cost overruns) to regulatory processes (file and use requirements). Some of the key activities of the team include:

- Finalising and monitoring risk appetite metrics
- Developing and monitoring risk registers
- Implementing operational loss database
- Preventing enterprise level process risks
- Driving risk awareness

Audit and Risk Management

The ERM framework at HDFC Life encompasses a comprehensive set of practices, which has been integrated at a grass root level within all functions serving the core business as well as shared services. These practices have been developed with a centralised approach to ensure uniform implementation. The functions within the Audit and Risk Management team, responsible for implementation of Risk Management Practices have been highlighted in the following section.

A. ERM Team

The ERM team addresses the Operational and Financial risks faced by the Organization. The team performs activities to identify various risks, assess exposure of the risks, develop control strategies, and report the same on timely basis to the Board and Management. Some of the key risk management practices adopted are:

Risk Identification - At the corporate level, risk identification is done by Risk Management Team and identified Risk Owners. The risks are tracked and monitored through deployment of risk management tools like risk registers, risk assessments & mitigation projects. Risk tolerances are defined for each of the corporate risks. The risk is either quantified (where possible) or assigned a qualitative statement, which forms the basis of the risk appetite. At the functional level, risk identification is undertaken by the relevant functional risk owners. The risk management team aids in assessing the risks and arriving at aggregation of risk scores. Additionally, risks identified in the Functional Risk Registers are managed through developing mitigation strategies, and the same are monitored and reported to relevant governance bodies.

Analysis and Assessment - Risk assessment helps in prioritization of the risks. Based on the levels of risks defined, the Organization creates a Heat Map for its key risks. The risks are mapped on basis of Severity and Occurrence as per defined parameters.

Operational Loss Database - All losses due to Operational Inefficiencies, Human Errors, Deficiencies in Processes, Systems or control are recorded and monitored in an Operational Loss Database and reported to the Risk Management Council and Committee.

Risk Treatment - In HDFC Life adequate internal controls are established and maintained to control the exposure to each source of risk. This involves the following strategies in order to reduce the risk. Multiple strategies can be used per risk event and strategies may change with time.

- **Risk avoidance:** In this strategy HDFC Life decides not to engage in activities that would give rise to the risks that we perceive may breach the Risk Appetite.
- **Risk transfer:** In this strategy HDFC Life transfers risks where exposure can be passed to third parties at an acceptable cost.
- **Risk mitigation:** In this strategy, HDFC Life ensures that it has adequate controls in place to ensure the risk is within its defined appetite.
- **Risk acceptance:** In this strategy, HDFC Life accepts the risk as it typically would be at a residual level where limited controls can be placed.

B. Risk Monitoring and Control Unit (Fraud Management at HDFC Life)

Fraud Risk Management is an integral practice and is central to the ethics and value system of the Company. This is directly influenced by our promises to various stakeholders of safeguarding their interests, be it the policyholders, shareholders, or the regulatory authorities governing the industry and law enforcement agencies. The salient objectives with which the Risk Monitoring & Control Unit operates has been institutionalized below:

- Determine the misconduct and fraud risks that can undermine or negatively impact our strategic objectives.
- Design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events and negative surprises.
- Reduce the exposure to corporate liability, litigation, and sanctions that may arise from violations of stakeholder expectations and law.
- Derive a realistic value from control investments by creating a sustainable process of managing fraud risks and enhancing performance.

Audit and Risk Management

- Achieve the utmost levels of business integrity through sound corporate governance, full transparency, and robust internal controls.

Some of key fraud management practices adopted by the Organization are:

Values Program - The Value Program within HDFC Life has been defined with the objective of imbuing the Values of the organization at all levels starting from senior management to the grass root levels. The program is spearheaded by the Chief Value Officers and implementation driven by the Value Ambassadors and Value Guardians.

Malpractice Matrix - The Malpractice Matrix is an integral part of HDFC Life's Code of Conduct. As an ethics-driven organisation, we realize the importance to have a proactive deterrent in place to ensure that any kind of Malpractice is dealt with, at the right time and with the right action, to ensure minimum adverse impact. The Matrix includes a comprehensive list of malpractices, which we might come across during the course of the Company's operations. Thus, it has been designed to achieve the following objectives:

- To provide a comprehensive framework for monitoring of operational activities
- To take action against the erring parties
- To ensure transparency in dealing with internal and external risks

Disciplinary Panel for Malpractices - A separate panel has been set up comprising of EVP & Chief Human Resource Officer (Chairperson), Chief Distribution Officer, Chief Values Officers, and EVP - Audit & Risk Management and Company Secretary & Head - Compliance & Legal. Cases with high risk and impact are referred to the Panel for guidance and decision. Additionally, fraud risk assessments carried out by the team are also presented to the Panel to appraise them of fraud risks being faced by the Organization across geographies, channels etc and guidance taken for development of mitigation strategies.

C. Business Continuity Management Group

The Business Continuity Management Group operates in a three-tier structure. The first step is to create a Business Continuity Plan for the critical and important business activities of a function or practice. The

Business Continuity Management Group undertakes the Business Impact Analysis (BIA) while evaluating the processes and services based on the disruption of services to assess customer impact, financial impact, non-financial impact and regulatory impact. Basis this analysis, Recovery Time Objective (RTO) of business critical services are identified, which defines time within which services need to be made available and Recovery Point Objective (RPO) is defined which provides maximum targeted period in which data might be lost from a technology service due to an outage or major incident. The Business Continuity Management Group draws inferences from these analyses and devises recovery strategies for stress scenarios such as technology unavailability, people unavailability and site unavailability to minimize potential business loss.

D. Internal Audit

The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedures, laws, and regulations.

The Internal Audit Function at HDFC Life works closely with other verticals in the ARM (Audit & Risk Management) Group, considering relevant material inputs from risk registers, risk prevention and mitigation reports etc. Internal audits are conducted by in-house Internal Audit ('IA') Function and also by the co-sourced auditor. The function also undertakes follow-up on engagement findings and recommendations in line with the approved framework and concurrent audit of new business and policy servicing.

Internal Audit Management Framework operates with the following objectives:

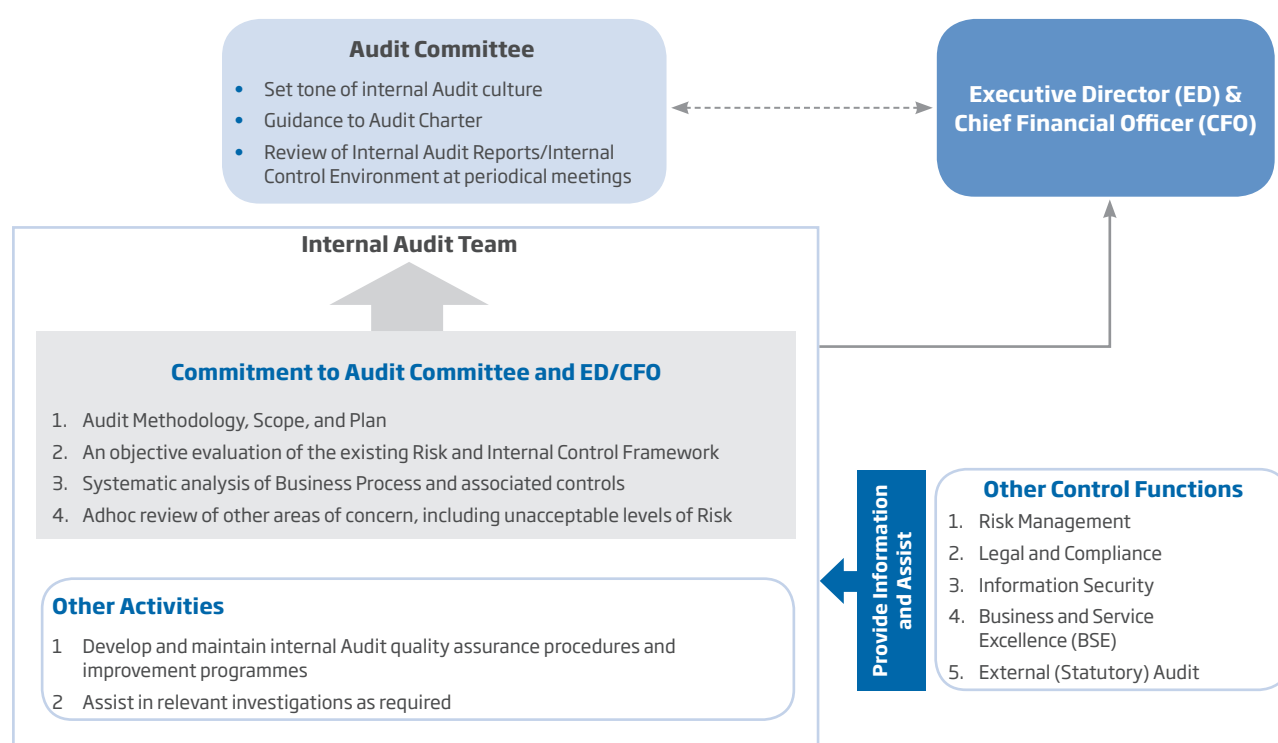

- **Scope:** Scope and authority of the Internal Audit activities are well defined in the Internal Audit Charter, approved by the Audit Committee of the Board.
- **Approach:** Risk based internal audits are carried out across all departments, functions and branches.
- **Objective:** To test, objectively and independently, the design and operating effectiveness of the internal control environment.

Audit and Risk Management

- **Assurance:** To provide independent and reasonable assurance about the adequacy and effectiveness of the Internal Controls to the Board and the Audit Committee.
- **Reporting & Monitoring:** The Audit Committee of the Board periodically reviews IA's findings and

provides guidance as well. The Management of the Company closely monitors the internal control environment to ensure that IA's recommendations are effectively implemented.

Internal Audit Governance Framework operates in tandem with these objectives:

Internal Financial Controls

Statutory Auditors are required to report on the adequacy and operating effectiveness of the internal financial controls ('IFC') over financial reporting. However, ensuring adequacy and operating effectiveness of the internal financial controls system still remains with the Management and the persons charged with governance in the Company.

The Company has institutionalized a robust and comprehensive internal control mechanism across all the major processes.

Internal audit function, in addition to ensuring compliance to policies, procedures, regulations, processes, etc., also tests and reports on adequacy of internal financial controls over financial reporting.

Business Review and Outlook

The private life insurers delivered healthy premium growth during the year under review and gained market share in the Individual segment. Even under the group segment, the players continue to gain traction and have delivered healthy growth.

Improving macro trends, higher focus and traction in equity markets was reflected in 14% growth in Individual New Business Weighted Received Premia (WRP) and 26% growth in Group premia for the private players. At an industry level, the sector witnessed growth of 8% in Individual New Business WRP and 39% in Group Premium.

Individual Business Performance

The Company ranked third among private players in terms of Individual WRP with a market share of 14.7% in

FY 2016, versus 14.8% in FY 2015. During the year under review, the Company issued 11.5 lakhs policies in the Individual segment. The Company offers a diversified Product suite across Linked, Participating and Non Participating segments. For FY 2016 the Product mix was 55:45 between Linked and Traditional segment.

Within the Traditional Products segment, there was strong drive to grow pure protection segment including mortality and morbidity coverage. Overall, Traditional Non Participating products contributed 15% of Individual APE, versus 17% in FY 2015, and Participating products contributed 30% versus 21% in FY 2015. The Linked business continued to dominate the product portfolio of the Company, due to strong underlying 'pull' for equity market backed investment proposition.

The strong performance of the Company was delivered on the back of efficient and diversified distribution across Corporate agents, Individual agents, Brokers and Direct channels, including Online. Digital remains a key thrust area and the Company has built a robust technology platform for its distributors and customers.

Through its website and leveraging 'mobile first' approach, Company has been working to strengthen its online presence. Digital procurement, fulfillment and customer servicing continue to be key focus areas. In FY 2016, 90% of the proposal forms were submitted through Point of Sale (POS) and 60% of renewal business was received through online modes.

Group Business Performance

In Group business, the Company maintained its No. 1 rank amongst private players, with market share of 18.3% in FY 2016, versus 17.8% in FY 2015 (rank no. 1) based on new business received premium. Company focused on selling protection oriented products, even within this segment through multiple partners. The New Business sum assured under the Group category increased from ₹ 95,197 Crs to ₹ 1,65,655 Crs, covering 1.4 Crs lives during FY 2016.

Directors' Report

Overall Business Performance and Financial Review

The Company continued to deliver strong operating and financial performance during the year under review, despite muted macro economic trends and sentiments. With healthy growth across all premium categories, the Company witnessed total premium growth of 10% in FY 2016.

For the year ended March 31, 2016, the Company earned IGAAP profits of ₹ 818 Crs versus ₹ 786 Crs in FY 2015, i.e. an increase of 4%, and continued to fund the New Business growth through internal accruals. The Company ended the year under review with an accumulated profit of ₹ 986 Crs, post payment of interim dividend of ₹ 216 Crs including dividend distribution tax (DDT).

Backed by healthy business performance and persistency, the Assets Under Management (AUM) for the Company crossed ₹ 70,000 Crs mark during the year under review. The AUM saw growth of 11% to ₹ 74,247 Crs as on March 31, 2016 versus ₹ 67,047 Crs, as on March 31, 2015. The underlying debt-equity mix was 61:39 as on March 31, 2016.

The Company expanded its Distribution Network and has a direct presence, with 398 branches and initiated over 40 new partnerships during the year under review. It also has 1.17 lakhs agents, as on March 31, 2016.

The Company targets delivering profitable growth over the coming years with quality underlying business. Digital ecosystems and Technology will be a key area of investment, along with new distribution avenues.

Moving forward, the Company aims to deliver steady improvement across all financial parameters, with New Business Profits being the key driver of long term value creation.

Policyholder and Customer Service

HDFC Life is committed to bring differentiated and superior customer service experience to its customers. The Company strives to create one-to-one relationships with its customers across various

channels including email, social media, phone, branch, and through desktops and mobiles etc.

Persistent efforts in customer education, customer interaction avenues and a heightened focus on "need-based" selling helped in continued improvement in 13 month Persistency at 79% versus 73% in FY 2015. The 61st month Persistency also moved up to 47% versus 37% in FY 2015. The Company also strengthened its previous year's initiative of last mile connectivity with the lapsed and paid-up customers by educating them on importance of revivals.

The Company undertook initiatives to improve 'First Time Right' processing of payouts, and to ensure due date settlement. The Company's customer portal - 'My Account' gained popularity during the year under review offering multiple options to customers for self service. Over 86% of customers are registered under 'My Account' as on March 31, 2016. Further, the Company launched a mobile application support for customer service in August 2015, which has seen a steady increase in the active user base with over 100,000 downloads.

The Technology Enabled Business Transformation (TEBT) programme for customer service is expected to go live in FY 2017, which will enable the Company to leverage automation to ensure delivering an elevated customer service experience across all processes.

The Company had launched 'Unlocking Innovation' in FY 2016 within the Branch Operations Unit to provoke path breaking thoughts and initiatives on various levers. Mini Policy servicing HUBs at Indore, Coimbatore and Kolkata, Underwriting at Branches through enhanced people skills and productivity, launch of Customer Handbook etc. are few initiatives undertaken by the Company under the 'Unlocking Innovation' theme.

The Company was awarded several awards for initiatives undertaken to improve Customer Experience including the "Best Customer Service Organization in the Insurance Sector - ABP News BFSI Awards" during FY 2016.

HDFC Life's Products portfolio comprises solutions, catering to a diversified customer needs including Protection, Pension, Savings, Investment and Health. The Company also offers niche Group products for the varying employer needs, ranging from Term Insurance Plans for pure protection to voluntary plans such as Superannuation and Leave Encashment.

Creating differentiators to cater to customer needs and expectations has been a key focus area for the Company. It has proactively identified and owned customer segments and product categories, to drive and attain leadership position in such identified segments.

In line with the focus on Online segment, the Company has strengthened its online product universe of 'Click 2' series. During the year under review, Company introduced 'HDFC Life Click 2 Retire' plan in its existing specialized online offerings, to tap growing online market and address the need of young net savvy population.

With the launch of HDFC Life Cancer Care plan, the Company created a niche segment in the Health category. The Company sold over 1 lakh Cancer Care policies, within only 250 working days of launch, reiterating the dearth of customer friendly products in such niche segments. The innovation quotient of Cancer Care plan was further established through the winning of prestigious Finnoviti 2016 award.

Over the years, HDFC Life has introduced a bouquet of affordable online term, savings and retirement plans catering varied customers across life cycle.

Human Resource and People Development

HDFC Life believes that talented workforce is the driving force for growth and efficiency. Talent Management strategies are designed to achieve the twin objectives of personal development and organizational growth.

The Company had 15,254 employees at the end of the year. During the year under review, the Company had undertaken various initiatives to support the business through organizational efficiency and various employee engagement programmes, which have enabled achievement of higher productivity levels. The Company relentlessly focuses on developing leadership as well as technical/functional capabilities in order to meet future talent requirement.

Investments

The investment funds of the Company are managed as per the stated objectives laid down in the Investment Policy, Asset-Liability Management Policy, and respective Funds' objectives.

Directors' Report

These policies lay down the asset allocation and risk appetite guidelines for different funds, some of which have in-built guarantees. These are tracked on a regular basis and are backed with suitable assets. The asset allocation in the conventional and share holder funds was in line with the ALM policy.

During the year gone by, the equity markets have seen a period of correction and consolidation as global concerns on growth and anxiety over the timing and extent of the US rate hike cycle affected risk assets across the world. The recovery in the corporate earnings proved elusive further impacting the markets. Our funds performed well during this volatile year with all the key equity funds out-performing the respective benchmarks and also doing well with respect to the peers. In the same period, bond yields have traded largely within a narrow range, even though RBI maintained an easing interest rate cycle. Our view was that the market rates would react more to the RBI cuts than they did. Consequently, our higher duration call on the ULIP portfolios did not play out as expected and the fixed income funds under-performed the benchmarks during the course of the year.

The total AUM as on March 31, 2016, was ₹ 74,247 Crs. This comprised assets of ₹ 45,727 Crs held under the unit-linked funds and ₹ 28,520 Crs held under the conventional funds and shareholders' funds. The corresponding numbers for the previous year were ₹ 44,920 Crs and ₹ 22,127 Crs respectively.

Information Technology

The Company continues to thrive at the intersection of technology and business. The idea of exploring new ways of doing things or creating new opportunities is reflected in many of the projects. The year in review has been the year of transformational change and digitization for the Company. New business process was enabled as part of the Technology Enabled Business Transformation (TEBT) program which ensures a strong foundation towards digitizing our processes.

The entire new business now flows through this platform, resulting in over 50% improvement in quote to conversion TAT's. This new platform has completely discontinued the paper based processes, enabled 100% automation of operation rules with zero handoffs and provided visibility and empowerment to the sales force. This has significantly improved the efficiency and productivity across the value chain.

The Company further started to exploit the various capabilities that have been provided by the digital foundation. The mobility program was built on this digital foundation and has mobile apps covering the entire sales value chain. More than 50% of our sales force is enabled with tablets resulting in a corresponding 53% of business flowing through the tablet application. Our award winning Cancer Care mobile app (InstaLife) allows an application to be filled in less than 4 minutes and conversion in as less as 15 minutes. The mobile upload app for customer required documents has been used extensively with 98% of all uploads being done by the sales force themselves thereby completely eliminating the need for the older manual scanning processes. Innovations such as the mobile app for call verification allows for the verification to be done by the sales person instantaneously without any dependency on the traditional call center model.

There are various strategic programs supported on the digital foundation which are in pilot such as Telesales, CP- OTC (enabling self service to partners for the credit protect business), integration with Bancassurance partner systems for lead management and straight through processing (STP). Many of the company's partners have embedded the technology in their digitization plans since it aligns with their vision to provide customer delight and improve productivity and efficiency.

The Digital communication hub platform has been rolled out and enables a single view of all communications being sent out. This has also enabled consolidation and choice of mode of communication.

As part of building the foundations for a Digital platform, SAP HANA - the next generation platform with in-memory compute, has been successfully implemented. The Company is the first in the Indian BFSI sector to implement SAP HANA across its entire portfolio. This has provided significant performance improvements across the various modules.

The Company has decided to deploy cloud based Infrastructure as a service (IaaS) for non critical applications. For the year end review three applications were deployed on cloud. Platform as a Service (PaaS) is currently being evaluated which will enable movement of critical workloads to the cloud.

The Company has been recertified on ISO 27001:2013 for its data centre and operations. From an information security perspective various solutions have been implemented

Directors' Report

such as virtual patching to protect against zero day vulnerabilities, web protection to protect against DDOS/online attacks and two factor authentication solution for remote access.

In the coming year the digital foundation will be strengthened by deploying all other business process on the same. Mobility will be a differentiator and hence there is work in progress to increase the number of products for sale on mobile phones. Projects have also been initiated in some of the emerging technologies like Digital Relationship Managers, Cognitive Technology and Robotics. From the perspective of cyber security, the Company has created a road map basis NIST framework, and an implementation plan has been created basis the same.

The Technology Team received 12 recognitions in the industry this year including 2 international awards for achieving excellence in strategic enterprise IT deployments.

Awards

The Company received over 40 awards and felicitations in FY 2016. These awards were conferred by various coveted industry forums and other bodies, for variety of achievements across several domains including Business Excellence and Quality, Customer Service, Marketing, Information Technology, Finance, Human Resource, Business Intelligence, Corporate Social Responsibility etc.

Each of the awards demonstrates Company's commitment to achieve excellence, across all spheres of its activities and operations.

Regulatory Landscape

During the year under review, the Insurance Regulatory and Development Authority of India ("IRDAI" / "Authority") issued the Guidelines on Indian insurance companies to be 'Indian Owned and Controlled' ('Guidelines'), providing clarity on the manner and calculation of ownership and control for insurance companies. This was in furtherance to the Insurance Laws (Amendment) Act, 2015, which allowed insurance companies to raise their foreign ownership from 26% to 49%.

The Authority notified a new Registration of Corporate Agents Regulations, 2015. The entire regulations went through a fundamental shift to enable multi tie up distributor model (as against current model of tied agency) for Corporate Agents, permitting tie up with upto 3 life, 3 nonlife and 3 health insurers. The same is effective April 1, 2016. Further, going forward IRDAI would have

direct regulatory relationship with the Corporate Agents, versus the current framework involving an insurance company for seeking inputs on any regulatory matter related to IRDAI.

The Company is assessing the implications of these revised Corporate Agents regulations and is working on a strategy to adopt it most efficiently. As a part of the process, the Company has undertaken proactive steps to explore tie up with new partners and retain maximum business with existing business relationships.

The Authority also permitted a new Intermediary channel, namely Insurance Marketing Firms (IMF), this year. The IMF architecture provides for a new distribution model, to solicit insurance products, undertake permitted insurance service activities, and are permitted to also distribute other financial products (including mutual fund, pension products, banking products etc.). The Company has already started leveraging this new channel, and tied up with select IMFs.

The Authority initiated Business Analytics Project (BAP), requiring all Insurers to file the regulatory reports through an online platform. The BAP project is being executed in a phased wise manner for technology transformation across sector.

IRDAI also released several discussion papers/draft guidelines on key aspects of business and operations, which included following:

- a) Discussion paper on Indian Accounting Standards for migrating to IndAS accounting framework
- b) Revised framework for Expenses of Management of Insurers transacting life insurance business.
- c) Revised framework for payment of commission or remuneration or reward to Insurance Agents and Insurance Intermediaries.

Rural and Social Sector Obligations

The Company maintains dedicated focus on undertaking rural and social business, and endeavors to tailor its products and processes to support these businesses, considering customer needs.

As part of its overall business, the Company has achieved prescribed regulatory targets of social and rural business, as follows:

- Rural business - Achieved - 24.33% versus prescribed requirement of 20% of overall business
- Social business - Insured - 1,534,302 Social lives versus prescribed 55,000 Social lives

Directors' Report

Solvency

The IRDAI requires life insurers to maintain a minimum Solvency Ratio of 150%. The Solvency Ratio is calculated as prescribed under Section 64VA of the Insurance Act, 1938 and the IRDA (Assets, Liabilities, and Solvency Margin of Insurers) Regulations, 2000. As compared to the minimum requirement of 150%, the Company's Solvency Ratio, as on March 31, 2016, was at 198%.

Dividend & Reserves

During the year under review, an interim dividend @ ₹ 0.90 per equity share (face value of ₹ 10/- each) was declared by the Board of Directors and paid to the Shareholders. The Board has recommended the same to be confirmed as the Final Dividend for FY 2016. Necessary resolution is being proposed for the purpose at the ensuing 16th Annual General Meeting ("AGM").

The Company has carried forward a total of ₹ 602 Crs to its Reserves. The Company had accumulated profits of ₹ 986 Crs on March 31, 2016.

Capital & Shares

The Company's paid up equity share capital increased marginally from ₹ 19,948,800,960 as on March 31, 2015 to ₹ 19,952,881,380 as on March 31, 2016 pursuant to allotment of 408,042 equity shares upon exercise of Options under Employees Stock Option Scheme 2014. The said allotments were made post requisite approval from the Authority.

The Shareholding Pattern is given elsewhere in this Annual Report.

Promoters' Stake restructuring, and IPO

The Members may note that pursuant to the change in Regulations permitting foreign holding up to 49% in Indian insurance companies, Housing Development Finance Corporation Limited ('HDFC Limited') agreed to sell, and Standard Life (Mauritius Holdings) 2006 Limited ('SL') agreed to purchase from HDFC Limited, 179,539,209 Shares in the Company representing 9.0% of the issued and paid up share capital of the Company. Consequent to receipt of necessary approvals, closure of this stake sale transaction was initiated, and as on March 31, 2016, HDFC Limited transferred 179,539,209 equity shares to an escrow account for facilitating transfer to SL pursuant to receipt of regulatory approvals for the completion of the transaction and pending receipt of funds into the completion cash escrow account from SL.

The Board of Directors have also approved taking steps to initiate the process for an Initial Public offering ('IPO') of the equity shares of the Company by way of an Offer for Sale by the Company's Indian Promoter Company, Housing Development Finance Corporation Limited ('HDFC') of

upto 10% of the Company's paid up and issued equity Share Capital (subject to any approvals or confirmations from HDFC in this regard, as necessary or required.)

Policy on Directors' appointment and remuneration

The remuneration and compensation for Directors, Key Managerial Personnel and other Employees is guided by the requisite Policy.

The Remuneration Policy ("Policy") has been framed in line with the requirement under Section 179 of the Companies Act, 2013 ("Act") and has been recommended by the Nomination and Remuneration Committee, and approved by the Board of Directors. The Policy serves as a framework for determining the remuneration of Directors, Key Managerial Personnel and Senior Management, seeks to balance the fixed and incentive pay, and reflects the short and long term performance objectives of the Company. Further, the Policy has been designed to motivate employees for delivery of our key business strategies, create a strong performance-orientated environment and reward achievement of meaningful targets over the short and long-term.

Evaluation of performance of the Board

Pursuant to and in line with the requirements prescribed under the Act, the Board of Directors carried out an annual evaluation of its performance, and that of its Committees and Individual Directors. Further, the Independent Directors met separately, without the attendance of non-Independent Directors and Members of the Management, to discuss and review the performance of non-Independent Directors, Board, and of the Chairperson. They further assessed the quality, quantity and timelines of flow of information between the Company Management and the Board.

Overall, the Independent Directors expressed their satisfaction on the performance and effectiveness of the Board, Individual non-Independent Board Members, and the Chairman, and on the quality, quantity and timeliness of flow of information between the Company Management and the Board. The Independent Directors shared additional suggestions on certain aspects to further improve the process.

The Nomination & Remuneration Committee also undertook an evaluation of Individual Director's performance and expressed its satisfaction on performance of each Director.

There has been no material adverse observation or conclusion, consequent to such evaluation and review.

Directors

As on the date of this Report, the Company's Board comprises of 13 Directors, including two Alternate Directors. The above also includes 2 women Directors on

Directors' Report

the Board, including its Executive Director & Chief Financial Officer.

In view of additional tax benefit extended to NPS under the Union Budget 2016, NPS is expected to get a significant fillip.

Legal matter

In January 2014, a fresh Request for Proposal ('RFP')

Directors' Report

was floated by the PFRDA seeking bids from Sponsors for selection of pension fund managers afresh to manage the pension funds. In response to the RFP, HDFC Life ('the Sponsor') had submitted its technical and commercial bid to be selected as a Sponsor for the pension business of HDFC Pension. The technical bid made under RFP was opened in April 2014 and the bid submitted by the Sponsor was not accepted by the PFRDA on technical grounds of not having profitability for a period of 3 years. The Sponsor, along with the Company, therefore, filed a Writ Petition before the Hon'ble High Court of Delhi, challenging the said rejection. The Hon'ble High Court of Delhi by its Order dated May 15, 2014 quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to evaluate the bid in accordance with the steps set out in the RFP. Pursuant thereto, while the PFRDA cleared the Sponsor's technical and commercial bid and the Sponsor even agreed to match the lowest commercial bid, the PFRDA declined to grant the Sponsor a Letter of Appointment. The Sponsor along with the Company, therefore filed another Writ Petition before the Hon'ble High Court of Delhi against the rejection. Vide its Order dated December 18, 2014 the Hon'ble High Court of Delhi quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to grant HDFC Life a Letter of Appointment to act as a Sponsor. Subsequently, the PFRDA has filed a Special Leave Petition before the Hon'ble Supreme Court of India challenging the above said Order dated December 18, 2014. The Hon'ble Supreme Court has, by its Order dated March 9, 2015, refused to grant the PFRDA any ad-interim relief and has also directed the Sponsor to file its counter affidavit to the Petition. The matter is presently pending hearing. On March 27, 2015, complying with the High Court order, the PFRDA had issued a Letter of Appointment in favour of the Sponsor, stating inter alia that such appointment is subject to the outcome of the above proceedings filed before the Hon'ble Supreme Court.

It may be noted that the PFRDA (Pension Fund) Regulations, 2015 were notified in May 2015, pursuant to which re-registration of all pension funds was sought by the PFRDA. HDFC Pension has submitted its application for the same, and a revert from the PFRDA is awaited.

2. HDFC International Life and Re Company Limited ("HDFC International")

During the year under review, the Company established HDFC International Life and Re Company Limited ('HDFC International'), another Wholly Owned Subsidiary, in the Dubai International Financial Centre (DIFC), to capitalize on business opportunities emerging in the region, particularly in view of significant NRI population. HDFC International was established with the primary objective of offering life reinsurance capacity in the UAE and other GCC nations. The license granted to HDFC International allows "Effecting Contracts of Insurance and Carrying out Contracts of Insurance", in respect of life insurance classes.

Over a period of time, HDFC International would look forward to becoming the life reinsurer of choice in UAE and then in the GCC nations and spread across other overseas markets. Since conceptualization stage, HDFC International has been steadfast in identifying the key contours of operating the business in most effective manner. HDFC International was set up on January 10, 2016 with a base capital of \$ 12.33 million, and has received its regulatory license from Dubai Financial Services Authority ("DFS") effective January 31, 2016.

The following Directors were appointed as first Directors of HDFC International upon incorporation:

1. Mr. Amitabh Chaudhry, Director
2. Mr. Richard Charnock, Director
3. Mr. Yuvraj Narayan, Independent Director
4. Mr. Davinder Rajpal, Independent Director

Other than HDFC Pension and HDFC International, there are no other subsidiary, associate and joint venture companies of the Company.

Swabhimaan / Corporate Social Responsibility

As part of its initiatives under Corporate Social Responsibility ("CSR"), the Company has undertaken projects in various areas including Education, Livelihood, Health, and Rural Development. These Projects are undertaken in line with the CSR Policy and are in accordance with Schedule VII of the Act, read with the Rules framed under the said Act.

Directors' Report

A more detailed write-up including details of the CSR projects undertaken, their monitoring, details on the implementing agencies, amounts spent and the requisite Responsibility Statement are given in Annexure 2 of this Report, and forms part of this Directors' Report.

Annual Return

As per the provisions of the Act, an extract of the Annual Return of the Company (in the prescribed Form MGT.9) has been attached as Annexure 3 to the Directors' Report, and forms part of this report.

Related Party Transactions

As per Section 177, read with Section 188 of the Act, the Audit Committee of the Board of Directors approves the related party transactions of the Company on a quarterly basis. Related party transactions entered during the year under review were in the ordinary course of business and on an arm's length basis, thus not requiring Board/ Shareholders' approval.

M/s Haribhakti & Co. LLP, Chartered Accountants, reviewed the related party transactions for each quarter, and their report is placed at the meeting of the Audit Committee, along with details of such transactions.

As per Accounting Standard (AS) 18 on 'Related Party Disclosures', the details of related party transactions entered into by the Company are also included in the Notes to Accounts.

Ind AS Roadmap

The Ministry of Corporate Affairs (MCA) issued a press release on January 18 2016, announcing the India Accounting Standards (Ind AS) roadmap for banking, insurance and Non-Banking Financial Companies (NBFCs), requiring companies to prepare Ind AS based standalone and consolidated financial statements for FY 2018-19 with comparatives of FY 2017-18. Consequently, IRDAI issued a circular dated March 1, 2016, to guide and facilitate insurance companies towards Ind AS implementation.

In compliance with the above circular, the Company has formed a Steering Committee headed by Executive Director and Chief Financial Officer, along with members from cross-functional areas to initiate the Ind AS implementation process in the company. The Company has also nominated the nodal officer to IRDAI, to facilitate smooth implementation of Ind AS. The Company has prepared a broad roadmap for Ind AS implementation. The Audit Committee of the Board will oversee the progress of the Ind AS implementation process and report to the Board at quarterly intervals.

Secretarial Audit Report

The Secretarial Audit as required under the Act, was undertaken by M/s NL Bhatia & Associates, Practising Company Secretary. The Auditor has not made any qualification, reservation or adverse remark or disclaimer in his Report for FY 2016.

The Secretarial Audit Report for the FY 2016 is enclosed hereto as Annexure 4 and forms part of this Report.

Auditors

M/s Haribhakti & Co. LLP, Chartered Accountants, and M/s Price Waterhouse Chartered Accountants LLP, are the Joint Statutory Auditors of the Company.

The Joint Statutory Auditors have not made any qualification, reservation, adverse remark or disclaimer in their report for FY 2016. Further, during the year under review, the Joint Statutory Auditors have not come across any reportable incident of fraud to the Audit Committee or Board of Directors.

As per the IRDAI Regulations, a Statutory Auditor can conduct audit of an insurance Company for a maximum period of 5 years at a time. M/s Haribhakti & Co LLP, Chartered Accountants, are completing their 5 continuous years of tenure at the ensuing 16th AGM of the Company, and hence would not be eligible for re-appointment. Accordingly, it is proposed to appoint M/s GM Kapadia & Co, Chartered Accountants, as new Joint Statutory Auditors, along with M/s Price Waterhouse Chartered Accountants LLP.

In line with the provisions of the Act, and IRDAI Regulations, M/s GM Kapadia & Co, Chartered Accountants, are proposed to be appointed for a period of 5 years with annual ratification by the Shareholders of the Company. Appointment of M/s Price Waterhouse Chartered Accountants LLP, is also recommended for ratification at the ensuing AGM.

The Joint Statutory Auditors, being M/s Price Waterhouse Chartered Accountants LLP and M/s GM Kapadia & Co, Chartered Accountants, have confirmed their eligibility for proposed re-appointment/ appointment respectively. The Resolution seeking approval to their re-appointment/ appointment is included in the Notice of the ensuing Annual General Meeting.

Deposits

The Company has not accepted any deposits during the year under review.

Directors' Report

Loans, guarantees or investments

In terms of the provisions of sub-Section 11 of Section 186 of the Act, read with the clarification given by the Ministry of Corporate Affairs under the Removal of Difficulty Order dated February 13, 2015, the provisions of Section 186 of the Act relating to loans, guarantees and investments do not apply to the Company.

Employees Stock Option Scheme

In line with the practice of incentivising the employees through issue of stock options, the Company has in the past granted stock option to the employees under the various employee stock option schemes formulated from time to

C. Other Key Governance Elements

(a) Values Framework

The Values Framework of HDFC Life is the foundation of its strategic growth charter and is ingrained in the philosophy of its business. The Company believes that a strong Values foundation is an indispensable element. The Values reflect its philosophy and aspirations. As part of institutionalising the framework, the Company had designated select senior management employees as Chief Values Officers ('CVO'), who act as the custodian of the Company's Values and promote adherence to the Values within the Organization. All Vice Presidents and above ranked employees have been assigned branches and have been nominated as 'Value Ambassadors' for their designated branches. The Value Ambassadors, along with the CVOs, undertake an outreach programme on Value awareness, mentor the local leadership and own these Branches from 'Values' perspective. The intention is to drive right conduct and behavior.

During the year, the Company stepped up its efforts in further spreading awareness on Values, and driving greater participation of employees in this journey. Towards this, the Company has created cluster level 'Value Guardians', who will be the 1st line of oversight and spreading awareness on Values and adherence to the same. The Company also launched Values Score at branch levels.

(b) Performance Evaluation, and Meeting of Independent Directors

The Board evaluates annually the performance of performance of Directors, Chairman/Chairperson of the Company, the Board and its Committees. As a part of this evaluation exercise, views/feedback were sought from Directors through a structured questionnaire eliciting responses on various aspects of Board's functioning, performance of Committee Members and Directors and quality/timeliness of information flow to the Board. The responses received were reviewed at a meeting of Independent Directors, Nomination & Remuneration Committee and also the Board, keeping in view the requirements of the Companies Act. No material adverse observations had been made, and the process/flow of information was found satisfactory.

Report on Corporate Governance for the financial year ended March 31, 2016

(c) Compliance

In accordance with the compliance procedures of the Company, quarterly confirmation on compliances is obtained from the relevant Heads of Departments. The Compliance Officer also places before the Audit Committee of Directors, a Compliance certificate confirming the details of compliances, as well as instances of non-compliance, if any, along with the steps taken to rectify the non-compliance and prevention of the occurrence in future, as applicable in a given case.

(d) Policies and Framework

The Company has put in place various policies in line with the regulatory requirement/as a control/policy framework including among others Risk Management Policy, Anti Money Laundering Policy, Whistleblower Policy, Investment Policy, Outsourcing Policy, Customer Grievance Policy, Fraud Management Policy, and Underwriting Policy. Each of these policies are approved/noted by the Board/Board Committees, as maybe applicable.

i) Remuneration Policy

In line with the requirements of the Companies Act, 2013, the Company has in place a Policy on remuneration of Directors, Key Managerial Personnel and other employees.

The Policy ensures that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors; the relationship of remuneration to performance is clear, and meets appropriate performance benchmarks; the remuneration to Directors, Key Managerial Personnel and Senior Management involves a balance between fixed and incentive pay, reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

ii) Employee Dealing Policy

The Company has put in place an Employee Dealing Policy (EDP) which provides a framework for dealings in securities by key and certain other employees of the Company. The provisions of the Policy applies to specified people, whose

relevant personal investment transactions are subject to approval/disclosure requirements, with a view to avoid any conflict of interest vis-à-vis Company's investment activities. The Policy is reviewed/updated periodically, or as required, including provisions, as applicable, under IRDAI regulations.

iii) Risk Management

A separate report on Enterprise Risk Management framework has been included in this Annual Report, describing the enterprise risk architecture.

iv) Code of Conduct & Whistle Blower Policy

HDFC Life is committed to the highest standards of personal, ethical and legal conduct for conducting its business. The Company has adopted a Code of Conduct, which is approved by the Board of Directors. A copy of the same is also available on the Company's website. HDFC Life encourages and promotes responsible and ethical business behavior by its employees in all transactions/engagements with all internal and external Stakeholders, including customers. HDFC Life encourages and supports employees/whistleblowers to report any suspected instances of unethical/improper behavior and provides a mechanism through its 'Whistle Blower Policy'. The said Policy provides the employees with a channel for communicating any suspected instances/complaints and a platform for their resolution through proper governance mechanism.

v) Disclosure of material events, pursuant to new SEBI Listed Companies Disclosure Obligations

During the year, the Securities and Exchange Board of India ('SEBI') notified the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Regulations'), effective December 1, 2015, and replaced the extant Listing Agreement for listed companies. Pursuant to Regulation 30(9) of the said Regulations, a listed company is required to disclose all events or information with respect to its subsidiaries which are material for the listed entity. In view of the Company being a material subsidiary of

Report on Corporate Governance for the financial year ended March 31, 2016

listed company (i.e. HDFC Limited), the Company is required to comply with the said requirement.

Thus, the Company has put in place a Policy for Determination of Materiality of events and information which are required to be disclosed by the Company to HDFC Limited, for in turn disclosure to Stock Exchanges, in view of the provisions of the SEBI Regulations.

vi) Prevention of Sexual Harassment Policy, and Committee

HDFC Life has implemented a robust framework on Prevention of Sexual Harassment which is also in line with the Sexual Harassment of Women at work place(Prevention, Prohibition and Redressal) Act 2013. The Company has put in place institutional governance mechanism for the purpose. This includes a five member Apex Committee, headed by a senior woman executive as the Chairperson. The Apex Committee comprises an external/independent senior woman member who is an expert on the subject matter. Further, 4 zonal Internal Complaints Committees (ICCs) have also been constituted, to represent large network of branches across the country. ICCs have minimum 50% women representatives, and reports to the Apex committee. The Risk Committee of the Board is periodically updated on matters arising out of the Policy/Framework, as well as on certain incidents, if any.

The details of the total reported and closed cases pertaining to incidents under the above framework/ law are as follows:

Number of cases reported during the year	27
Number of cases closed during the year	23 (2 spill over cases closed from FY 2014-15)
Numbers of cases open (Being under investigation as on March 31, 2016)	6

(e) Internal Councils

In addition to the various Board Committees, and Board Policies put in place, as a part of internal governance and oversight mechanism, the Company has also set up various internal Councils, which serves

as a framework, for review, oversight and decision making on critical activities. These Councils consist of members of the respective functions along with relevant Officials from different departments. The said councils meet at such periodic intervals, as deemed necessary.

i) Compliance Council

A Compliance Council has been constituted with the objective of overseeing the compliance with regulatory guidelines, and any significant issues arising from the same. The Council consists of the Managing Director & Chief Executive Officer, Executive Director & Chief Financial Officer, Chief & Appointed Actuary, Head - Strategy, Operations, BS&T & Health, Head-Audit & Risk management, Company Secretary & Head - Compliance & Legal, Chief Distribution Officer, and SVP - Customer Relations, and meets on a periodical basis.

The Compliance Council has been formed with the following objectives:

1. Approving the Compliance Monitoring plan and the Compliance Review Plan for the Financial Year;
2. Overseeing the compliance of Guidelines and Regulations issued by IRDAI and any material issues in implementation of the same;
3. Discuss potential regulatory/ other issues; and
4. Effective Compliance Risk Management and ensuring effective process and controls to mitigate / manage the regulatory exposure.

ii) Risk Management Council

Risk Management Council is an internal risk governance committee entrusted with the oversight of risk management objectives within the organization and also has the primary responsibility to embed the risk culture within the organization.

The Members of the Council include Managing Director & Chief Executive Officer, Executive Director & Chief Financial Officer, Chief Distribution Officer, Chief & Appointed Actuary, Chief Human Resources Officer, Chief Investment Officer, Head - Strategy, Operations, BS&T & Health, Head-Learning & Development & CVO, Head- Bancassurance & CVO, Company Secretary & Head - Compliance & Legal, Head- BS&T, Head-Audit & Risk management along with other functional heads as special invitees.

Annual Report on Corporate Social Responsibility (CSR) Activities for the Financial Year 2016

1. In case the Company has failed to spend the two per cent of the average net profit of the last three financial years or any part thereof, the Company shall provide the reasons for not spending the amount in its Board report

For the long term sustainability and larger impact, HDFC Life has chosen projects whose implementation range from 3 to 5 years. We believe in undertaking projects that can be scaled up during their lifespan.

Milestones for each and every project have been set up, and all the payments to the implementing agencies are made in tranches after effective completion of the set milestone. This also helps in effective monitoring on the progress of the projects and leads to a better coordination with the implementing agencies.

FY 2015-16 was effectively the first full year for the new CSR legislation and mandatory reporting. In view of the nascent stage of implementation framework of CSR activities, the Company could not spend the entire 2% of the average net profit of the last 3 financial years in FY 2015-16. Certain proposals and projects are still under consideration.

The selected projects have been carefully identified for intrinsic scalability and ease of replication over the

long term. This task has taken rigor and due diligence and has positioned the Company to meet its CSR spend targets in a sustainable manner.

The inbuilt rigor of the due diligence process has also led to recalibration of the budget in a few instances. While this has also contributed to the reduction in spend, we are confident that we are able to optimize impact on the target beneficiaries through these processes.

2. A responsibility statement of the CSR Committee that the implementation and monitoring of CSR Policy is in compliance with the CSR objectives and Policy of the Company

The CSR Committee hereby declares that the implementation and monitoring of CSR Policy of the Company is in compliance with CSR objectives and Policy of the Company.

Independent Auditors' Report

**TO,
THE MEMBERS OF
HDFC STANDARD LIFE INSURANCE COMPANY
LIMITED**

Report on the Standalone Financial Statements

1. We have audited the accompanying standalone financial statements of HDFC STANDARD LIFE INSURANCE COMPANY LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the related Revenue Account (also called the "Policyholders" Account or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non- Technical Account") and the Receipts and Payments Account for the year ended March 31, 2016 and summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements to give a true and fair view of the financial position, financial performance and receipts and payments of the Company in accordance with the requirements of the Insurance Act, 1938, as amended by Insurance Laws (Amendment) Act, 2015 (the "Insurance Act"), read with Insurance Regulatory and Development Act, 1999 (the "IRDA Act"), Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report Insurance Companies) Regulations, 2002 (the regulations"), orders/directions, circulars, guidelines issued by the Insurance Regulatory and Development Authority of India (IRDAI) in this regard and in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent applicable and in the manner so required. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal

financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.
4. We have taken into account the provisions of the Insurance Act, the IRDA Act, the Regulations, the Companies Act and the Rules made there under including the accounting standards to the extent applicable and auditing standards and matters which are required to be included in the audit report.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Independent Auditors' Report

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements are prepared in accordance with the requirements of the Insurance Act, 1938, the Insurance Regulatory and Development Authority Act, 1999, the Regulations and the Companies Act 2013, to the extent applicable and in the manner so required, and give a true and fair view in conformity with the accounting principles generally accepted in India, as applicable to Insurance Companies:
- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2016;
 - (b) in the case of the Revenue Account, of the net surplus for the year ended on that date;
 - (c) in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
 - (d) in the case of the Receipts and Payments Account, of the receipts and payments for the year ended on that date.

Other Matters

9. The actuarial valuation of liabilities for life policies in-force and policies where premium is discontinued is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"), which has been certified by the Appointed Actuary in accordance with the regulations, as mentioned in paragraph 10 below. Accordingly, we have relied upon the Appointed Actuary's certificate for forming our opinion on the standalone financial statements of the Company.

Report on Other Legal and Regulatory Requirements

10. The actuarial valuation of liabilities for life policies in-force and for policies where premium has been discontinued but liability exists as at March 31, 2016 has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that in his opinion, the assumptions for such valuation are in accordance with the generally accepted actuarial principles and practices, requirements of the Insurance Act, regulations notified by the IRDAI and

Actuarial Practice Standards issued by the Institute of Actuaries of India in concurrence with the IRDAI;

11. As required by the Regulations, we have issued a separate certificate dated April 18, 2016 certifying the matters specified in paragraphs 3 and 4 of Schedule C to the Regulations.
12. Further, to our comments in the Certificate referred to in Paragraph 11 above, as required under the Regulations, read with Section 143 (3) of the Act, we report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and have found them to be satisfactory;
 - (b) In our opinion and to the best of our information and according to the explanations given to us, proper books of account as required by law have been maintained by the Company so far as it appears from our examination of those books;
 - (c) As the Company's financial accounting system is centralized at Head Office, no returns for the purposes of our audit are prepared at the branches and other offices of the Company;

Annexure A to Independent Auditors' Report

(Referred to in Paragraph 12(i) of your report on Other legal and Regulatory requirements forming Part of the Independent Auditors' report dated April 18, 2016)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of HDFC Standard Life Insurance Company Limited ("the Company") as of March, 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements

and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditors' judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal standalone financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Annexure A to Independent Auditors' Report

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively

as at March, 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the regulations, and has been relied upon by us, as mentioned in para 9 and 10 of our audit report on the standalone financial statements for the year ended March 31, 2016. Accordingly, our opinion on the internal financial controls over financial reporting does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

Corporate Information

HDFC Standard Life Insurance Company Limited ('HDFC Life' or 'The Company'), is a joint venture between Housing Development Finance Corporation Limited ('HDFC Limited'), India's leading housing finance institution and Standard Life plc, the leading provider of financial services in the United Kingdom. The Company obtained a Certificate of Registration from the Insurance Regulatory and Development Authority ('IRDAI') on October 23, 2000 for carrying on the business of life insurance. The Company's Certificate of Renewal of Registration dated January 31, 2014 was valid till March 31, 2015. Pursuant to Section 3 read with Section 3A as amended by Insurance Laws (Amendment) Act, 2015, the process of annual renewal of the Certificate of Registration issued to insurers under Section 3 of the Insurance Act, 1938, was removed. Consequently, the said certificate continues to be in force. The Company offers a range of individual and group insurance solutions. The portfolio comprises of various insurance and investment products such as Protection, Pension, Savings, Investment and Health.

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of preparation

The financial statements are prepared under the historical cost convention, on an accrual basis of accounting in accordance with the accounting principles and in the manner prescribed by the Insurance Regulatory and Development Authority of India (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 ('the Financial Statements Regulations'), the Master Circular on Preparation of Financial Statements and Filing of Returns of Life Insurance Business Ref No. IRDA/F&A/Cir/232/12/2013 dated December 11, 2013 ('the Master Circular') and other circulars issued by the IRDAI from time to time, provisions of the the Insurance Act, 1938, as amended from time to time, including amendment brought by Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority Act, 1999 as amended from time to time, the Companies Act, 1956, as amended from time to time, to the extent applicable and the Companies Act, 2013. Pursuant to Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, till the accounting

standards or any addendum thereto are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing accounting standards notified under Companies Act, 1956, shall continue to apply. Consequently, these financial statements have been prepared also to comply in all material aspects with the accounting standards notified under Section 211 (3C), of the Companies Act, 1956 i.e. Companies (Accounting Standards) Rules, 2006 to the extent applicable. Accounting policies have been consistently applied to the extent applicable and in the manner so required.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities and disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as of the date of the financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is accounted for prospectively.

2. Revenue recognition

i) Premium income

Premium income including rider premium is accounted for when due from the policyholders and as reduced for lapsation expected based on the experience of the Company. In case of linked business, premium income is accounted for when the associated units are created. Premium on lapsed policies is accounted for as income when such policies are reinstated. Top up premium is considered as single premium.

ii) Income from linked policies

Income from linked policies, which include fund management charges, policy administration charges, mortality charges and other charges, wherever applicable, is recovered from the linked funds in accordance with the terms and conditions of the insurance contracts and is accounted for as income when due.

Schedules

iii) Income from investments

Interest income on investments is accounted for on an accrual basis

Amortisation of premium or accretion of discount computed at the time of purchase of debt securities is recognised over the remaining period of maturity/holding on a straight line basis.

Dividend income is accounted for on "ex-dividend" date in case of listed equity and preference shares and in case of unlisted equity and preference shares, when the right to receive dividend is established.

In case of linked business, profit or loss on sale/redemption of equity shares/Equity Exchange Traded funds (ETFs), preference shares and units of mutual fund is calculated as the difference between net sale proceeds/redemption proceeds and the weighted average book value

In case of other than linked business, profit or loss on sale/redemption of equity shares/equity ETFs, preference shares and units of mutual fund includes the accumulated changes in the fair value previously recognised under "Fair Value Change Account" in the Balance Sheet.

In case of linked business, profit or loss on sale/redemption of debt securities is calculated as the difference between net sale proceeds/redemption proceeds and the weighted average book cost. In case of other than linked business, profit or loss on sale/redemption of debt securities is calculated as the difference between net sales proceeds/redemption proceeds and the weighted average amortised cost.

iv) Income from loans

Interest income on loans is accounted for on an accrual basis.

3. Reinsurance premium ceded

Reinsurance premium ceded is accounted for on due basis in accordance with the terms and conditions of the reinsurance treaties. Profit commission on reinsurance ceded is netted off against premium ceded on reinsurance

4. Acquisition costs

Acquisition costs are the costs that vary with and are primarily related to the acquisition of new and renewal insurance contracts and consist of costs like

commission to insurance intermediaries, sales staff costs, office rent, medical examination costs, policy printing expenses, stamp duty and other related expenses. These costs are expensed in the period in which they are incurred.

5. Benefits paid

Benefits paid consist of policy benefit amounts and claim settlement costs, where applicable.

Non-linked business

Death and rider claims are accounted for on receipt of intimation. Annuity benefits, money back payments and maturity claims are accounted for when due. Surrenders are accounted for on the receipt of consent from the insured to the quote provided by the Company.

Linked business

Death and rider claims are accounted for on receipt of intimation. Maturity claims are accounted for on due basis when the associated units are de-allocated. Surrenders and withdrawals are accounted for on receipt of intimation when associated units are de-allocated. Amounts payable on lapsed and discontinued policies are accounted for on expiry of lock in period. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable.

Reinsurance claims receivable are accounted for in the period in which the concerned claims are intimated. Repudiated claims and other claims disputed before judicial authorities are provided for on prudent basis as considered appropriate by management.

6. Investments

Investments are made in accordance with the provisions of the Insurance Act, 1938, as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority (Investment) Regulations, 2000, the Insurance Regulatory and Development Authority (Investment) (Amendment) Regulations, 2001, the Insurance Regulatory and Development Authority (Investment) (Fourth Amendment) Regulations, 2008, the Insurance Regulatory and Development Authority (Investment) (Fifth Amendment) Regulations, 2013, wherever applicable and various other circulars/notifications/clarifications issued by the IRDAI in this context from time to time.

Schedules

Investments are recognised at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued (i.e. since the previous coupon date) as on the date of purchase.

A) Classification of investments

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them within twelve months from the Balance Sheet date are classified as “short term” investments. Investments other than short term investments are classified as “long term” investments.

B) Valuation of investments

I. Real estate - investment property

Land or building or part of a building or both held to earn rental income or capital appreciation or for both, if any, rather than for use in services or for administrative purposes is classified as real estate investment property and is valued at historical cost, subject to revaluation, if any. Revaluation of the real estate investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in Revaluation Reserve in the Balance Sheet. Impairment loss, if any, exceeding the amount in Revaluation Reserve is recognised as an expense in the Revenue Account or the Profit and Loss Account.

II. Debt securities

a) Non-linked business, non-unit reserve investments and shareholders’ investments

Debt securities, including Government Securities are considered as “held to maturity” and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount, if any, over the period of maturity/holding, on a straight line basis.

Money market instruments like Commercial Papers, Certificate of Deposit, Treasury Bills (T-Bills) and Collateralised Borrowing and Lending Obligation (CBLO) are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds and Security Receipts are valued at cost, subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment. Fixed Deposits and Reverse Repo are valued at cost.

b) Linked business

Debt securities, including Government Securities are valued at market value, using Credit Rating Information Services of India Limited (‘CRISIL’) Bond Valuer/CRISIL Gilt Prices, as applicable.

Money market instruments like Commercial Papers, Certificate of Deposits, Treasury Bills (T-Bills) and CBLO are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds and Security Receipts are valued at the latest available net asset values of the respective underlying funds. Fixed Deposits and investment in Reverse Repo are valued at cost.

Unrealised gains or losses arising on valuation of debt securities including Government Securities are accounted for in the Revenue Account.

Securities with call options are valued at the lower of the values as obtained by valuing the security to the final maturity date or to the call option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security to the various call dates or to the final maturity date. Securities with put options are valued at the higher of the value as obtained by valuing the security to the final maturity date or to the put option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security to the various put option dates or to the final maturity date.

Securities with both put and call options on the same day are deemed to mature on the put and call option day and would be valued on a yield to maturity basis, by using the benchmark rate based on the matrix released by CRISIL on daily basis.

V. **Mutual funds**

a) **Non-linked business, non-unit reserve investments and shareholders' investments**

Mutual fund units held at the Balance Sheet date are valued at previous business day's Net Asset Value

(NAV) per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

b) **Linked business**

Mutual fund units held at the Balance Sheet date are valued at previous business day's NAV per unit. Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

VI. **Interest Rate Derivatives**

Interest Rate Derivatives (IRDs) contracted to hedge highly probable forecasted transactions on insurance contracts in life, pension and annuity business are recognised at fair value, on the date on which the interest rate derivative contracts are entered into and are re-measured at the fair value on the Balance Sheet date.

Interest rate derivative contracts for hedging of highly probable forecasted transactions on insurance contracts, are accounted for in the manner specified in accordance with Accounting Standard (AS) 30, "Financial Instruments: Recognition and Measurement".

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. 'Hedge Reserve' under the head 'Credit/(Debit) Fair Value Change Account'. Such accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Revenue Account, in the same period during which the asset acquired or liability assumed affects the Revenue Account. In the event that all or any portion of loss, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account. Gains or losses arising from hedge ineffectiveness,

Schedules

if any, are recognised in the Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

C) Impairment of investments

The Company periodically assesses at each Balance Sheet date, whether there is any indication of impairment of investments or reversal of impairment loss earlier recognised. An impairment loss is accounted for as an expense and disclosed under the head 'Provision for diminution in the value of investment (net)' in the Revenue Account or the Profit and Loss Account to the extent of the difference between the remeasured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Revenue Account or the Profit and Loss Account.

Any reversal of impairment loss, earlier recognised for in the Revenue Account or the Profit and Loss Account, is accounted in the Revenue Account or the Profit and Loss Account respectively.

D) Provision for Non Performing Assets (NPA)

All assets where the interest and/or instalment of principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in the manner required by the IRDAI regulations on this behalf.

E) Transfer of investments from Shareholders' fund to Policyholders' fund

Transfers of investments other than debt securities, as and when made from the Shareholders' fund to the Policyholders' fund to meet the deficit in the Policyholders' account are made at the cost price or market price, whichever is lower.

Transfers of debt securities, from the Shareholders' fund to the Policyholders' fund are made at the net amortised cost or the market value, whichever is lower.

F) Transfer of investments between non-linked Policyholders' funds

No transfers of investments are made between non-linked Policyholders' funds.

G) Purchase and sale transactions between unit linked funds

The purchase and sale of investments between unit linked funds is accounted for at the prevailing market price on the date of purchase or sale of investments.

In case of debt securities, if prevailing market price of any security is not available on the date of transfer of investment, then the last available price is considered.

7. Policy liabilities

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938 as amended from time to time including amendment brought by the Insurance Laws (Amendment) Act, 2015, regulations notified by the IRDAI and Actuarial Practice Standard (APS) issued by the Institute of Actuaries of India with the concurrence of the IRDAI.

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDA (Assets, Liabilities and Solvency Margin) Regulations, 2000 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual and group) comprise unit reserves and non-unit reserves. The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium method.
3. The liabilities for individual non-linked non-participating business are calculated using gross premium method.
4. The liabilities for individual non-linked participating business are calculated at the valuation date using gross premium method and also with reference to asset share of the policies such that the reserves are higher than the surrender values that would be payable if the policies were to be surrendered on the valuation date.
5. The liabilities for one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, the liabilities are calculated using gross premium valuation method.
6. The liabilities for the group non-linked savings

Schedules

products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.

7. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
8. Additional reserves are determined to:
 - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported)
 - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business)
 - c. meet the expected liabilities that would arise on the revival of lapsed policies, on the basis of the proportion of the policies expected to be revived based on the revival experience of the Company (Revival Reserve)
 - d. allow for the additional amount required to be paid on account of cancellation of policies due to look in, on the basis of the proportion of the policies expected to exercise the look-in option based on the experience of the Company (Look-in Reserve)
 - e. allow for the cost of guarantees, wherever applicable

8. Fixed assets and depreciation/amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any, except with respect to one property earlier classified as investment property and accounted at a revalued amount, on being used in service and for administrative purposes of business, has been, in accordance with the requirement of IRDAI and accounting standards, reclassified to fixed assets at the revalued amount less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, being low value assets are fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure

increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress. Advances given towards acquisition of fixed assets are disclosed in 'Advance and other assets' in Balance Sheet.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of asset sold, up to the previous month of sale. In respect of expenditure incurred on acquisition of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is recognised in the Revenue Account.

Tangible assets

The Company has adopted straight line method of depreciation so as to depreciate the cost of following type of assets over the useful life of these respective assets which are as follows:

Asset class	Useful life of assets (years)
Building	60
Information technology equipment-End user devices [^]	3
Information technology equipment-Servers and network* [^]	4
Furniture & Fixtures* [^]	5
Motor Vehicles* [^]	4
Office Equipment [^]	5

* For these class of assets, based on internal and/or external assessment/ technical evaluation carried out by the management, the management believes that the useful lives as mentioned above best represent the useful life of these respective assets, however these are lower than as prescribed under Part C of Schedule II of the Companies Act, 2013.

[^] For these class of assets, based on internal assessment carried out by the management, the residual value is considered to be nil.

Leasehold improvements are amortised over the lock in period of the leased premises subject to a maximum of five years.

Schedules

Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment. These are amortised over the useful life of the software subject to a maximum of four years. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Any expenditure for support and maintenance of the computer software is charged to the Revenue Account.

9. Impairment of assets

The Company periodically assesses, using internal and external sources, whether there is any indication of impairment of asset. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer necessary or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets.

10. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for accumulated impairment losses and provision for NPA, if any.

11. Foreign currency transactions

In accordance with the requirements of Accounting Standard (AS) 11, "The Effects of Changes in Foreign Exchange Rates", transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction, at the time of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated

in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions are recognised in the period in which they arise either in the Revenue Account or the Profit and Loss Account, as the case may be.

12. Segmental reporting

Identification of segments

As per Accounting Standard (AS) 17 on "Segment Reporting", read with the Financial Statements Regulations, the Company has prepared the Revenue Account and the Balance Sheet for the thirteen primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating - Annuity, Non Participating - Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life, Unit Linked - Group Pension. Since the business operations of the Company are given effect to in India and all the policies are written in India only, this is considered as one geographical segment.

Allocation methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

- a) Revenue, expenses, assets and liabilities, which are directly attributable and identifiable to the respective business segments, are directly allocated for in that respective segment; and
- b) Revenue, expenses, assets and liabilities which are not directly identifiable to a business segment though attributable and other indirect expenses which are not attributable to a business segment, are allocated based on one or combination of some of the following parameters, as considered appropriate by the management:
 - i) effective premium income
 - ii) number of policies

Schedules

- iii) number of employees
- iv) man hours utilised
- v) premium income
- vi) sum assured
- vii) mean fund size

The accounting policies used in segmental reporting are the same as those used in the preparation of the financial statements.

13. Employee benefits

A) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance Scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme are accounted for in the period in which the employee renders the related service.

B) Post-employment benefits

The Company has both defined contribution and defined benefit plans. These plans are financed by the Company.

(i) Defined contribution plans:

The Superannuation Scheme and Employee Provident Fund Scheme (Company contribution) are the defined contribution plans. The contributions paid/payable under the plan are made when due and charged to the Revenue Account during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

(ii) Defined benefit plans:

The Gratuity plan of the Company is the defined benefit plan, which is a funded plan. The present value of the obligations under such defined benefit plan is determined on the basis of actuarial valuation using the projected unit credit method, which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The discount rate

used for actuarial valuation is based on the yield of Government Securities.

The Company fully contributes the net ascertained liabilities under the plan to the HDFC Life Insurance Company Limited Employees Group Gratuity Plan. The Company recognises the net defined benefit obligation of the gratuity plan, taking into consideration the defined benefit obligation using actuarial valuation and the fair value of plan assets at the Balance Sheet date, in accordance with Accounting Standard (AS) 15, "Employee Benefits". Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Revenue Account or the Profit and Loss Account, as the case may be, in the period in which they arise.

C) Other long term employee benefits

Other long term employee benefits include accumulated long term compensated absences and long term incentive plans. Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment, at the option of the employee subject to Company's policies. Long term incentive plans are subject to fulfilment of criteria prescribed by the Company.

Accumulated long term compensated absences are accounted for based on actuarial valuation determined using the projected unit credit method.

Long term incentive plans are recognised at the present value of expected future benefits payable using an appropriate discount rate.

Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Revenue Account or the Profit and Loss Account, as the case may be, in the period in which they arise.

14. Employee Stock Option Scheme (ESOS)

The Company has formulated Employee Stock Option Scheme 2005 (ESOS 2005), Employee Stock Option Scheme 2010 (ESOS 2010), Employee Stock Option Scheme 2011 (ESOS 2011) and Employee Stock Option Scheme 2012 (ESOS 2012), which are administered through the HDFC Standard Life Employees Stock Option Trust ("the Trust") and Employee Stock Option Scheme 2014 (ESOS 2014) which are directly

Schedules

administered by the Company During the year, the Company has formulated Employee Stock Option Scheme 2015 (ESOS 2015) which is also directly administered by the Company. The schemes provide that eligible employees are granted options that vest in a graded manner to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis in accordance with the Guidance Note on Accounting for Employee Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is the amount by which the value of the underlying share determined by an independent valuer exceeds the exercise price of an option. The intrinsic value of options, if any, at the grant date is amortised over the vesting period.

15. Provisions, contingent liabilities and contingent assets

Provisions are accounted for in respect of present obligations arising out of past events where it is probable that an outflow of resources will be required to settle the obligation and the amounts of which can be reliably estimated. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability. Contingent liabilities are disclosed in respect of;

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) present obligations that arise from past events, which are not recognised because of remote probability that an outflow of resources embodying economic benefits will be required to settle the obligations or a reliable estimate of the amounts of the obligations cannot be made.

Contingent assets are neither accounted for nor disclosed.

16. Leases

A) Finance leases

Leases under which the Company assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased

asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

B) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the lease term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

17. Taxation

A) Direct tax

- I) Provision for income tax

Provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

- II) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", with respect to the carry forward of losses under the Income Tax regulations, the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

- III) Wealth tax

Provision for wealth tax is made at the appropriate rate, as per the applicable provisions of the Wealth Tax Act, 1957 (Wealth tax Act, 1957 has been abolished with effect from April 1, 2015)

B) Indirect tax

The Company claims credit of service tax on input services, which is set off against service tax on output services. As a matter of prudence, unutilised credits towards service tax on input services are carried forward under 'Advances and Other Assets' in the Balance Sheet, wherever there is reasonable certainty of utilisation.

18. Funds for Future Appropriations

The Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from the fund reflect the excess or deficit of income over expenses respectively and appropriations in each accounting period arising in the Company's Policyholders' Fund. Any allocation to the par policyholders would also give rise to a transfer to Shareholders' Profit and Loss Account in the required proportion.

The FFA in the linked segment represents surplus on the lapsed policies issued prior to September 2010 unlikely to be revived. This surplus is required to be held within the Policyholders' fund till the time policyholders are eligible for revival of their policies.

19. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", basic earnings per share is calculated by dividing the net profit or

loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are treated as dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

20. Cash and cash equivalents

Cash and cash equivalents for the purposes of Receipts and Payments Account comprise of cash and cheques in hand, bank balances, fixed deposits with original maturity of three months or less, CBLO, Reverse Repo, highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value.

3. Actuarial assumptions

The policyholders' actuarial liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to interest, expenses, mortality, morbidity, persistency, and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used in actuarial valuation is as below:

a) Interest rate assumptions:

The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product and are in the range of 5.20% to 7.00% (Previous year 5.20% to 7.00%).

b) Mortality assumptions:

Mortality assumptions are set in accordance with the Schedule 5(5) of the IRDAI, Asset Liability Solvency Margin guidelines, 2000, in reference to the published Indian Assured Lives Mortality table (2006-08) and are based on the latest experience analysis of the business.

In the case of annuity benefits, mortality assumption is based on the LIC Annuitants (1996-1998) table.

c) Expense assumptions:

The expense assumptions are set on the basis of

the expense analysis. These are fixed renewal expenses and investment expenses charged as a % of fund. The renewal and claim expenses are increased at an inflation rate of 7.5% p.a.

d) Persistency assumptions:

The persistency assumptions are also based on the most recent experience of the Company and vary according to the premium frequency and type of the product.

e) Provision for free-look period:

If a policy which is in force as at the valuation date is subsequently cancelled in the free-look period, then there could be a strain in the policyholder fund on account of the amount payable on free-look cancellation, to the extent the amount is higher than reserves held for that policy. In order to avoid the future valuation strain as a result of the free-look cancellations, reserves on account of the above are held. The free-look reserve is calculated as total strain for all policies that are eligible for free-look cancellations at the valuation date, multiplied by a factor, representing the expected assumptions for free-look cancellations.

f) Bonus rates:

The bonus rates for the participating business as required to be declared in the future is based on the interest expected to be earned as per the valuation assumptions.

g) Tax:

The tax rate as applicable to insurance companies carrying on insurance business is 14.42 % p.a for the year.

B) Defined benefit plans:

I. Gratuity:

a) General description of defined benefit plan

This is a funded defined benefit plan for

qualifying employees under which the Company makes a contribution to the HDFC Standard Life Insurance Company Limited Employees Gratuity Trust. The plan provides for a lump sum payment

Schedules

as determined under The Payment of Gratuity Act, 1972, to the vested employees either at retirement or on death while in employment or on termination of employment. The benefit vests after five years of continuous service. Defined benefit obligations are actuarially

determined at each quarterly Balance Sheet date using the projected unit credit method as required under Accounting Standard (AS) 15, "Employee benefits". Actuarial gains or losses are recognised in the Revenue Account.

5. Employee Stock Option Scheme (ESOS)

The Company has granted options to employees under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 schemes. These schemes are administered by the HDFC Standard Life Employees Stock Option Trust. The Trust had subscribed to the capital of the Company and also acquired shares of the Company from Housing Development Finance Corporation Limited, the holding company. The options are granted to the employees from these tranches of shares. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company has also granted options to its employees under the ESOS 2014 scheme and under the ESOS 2015 scheme. The said schemes are directly administered by the Company. The exercise price of ESOS 2014 and of ESOS 2015 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company follows the intrinsic value method of accounting for stock options granted to employees. The intrinsic value of the options issued under the above referred schemes is 'Nil' as the exercise price of the option is the same as fair value of the underlying share on the grant date and accordingly, no expenses are recognised in the books. Had the Company followed the fair value method for valuing its options, the charge to the Revenue Account/Profit & Loss Account for the year would have been aggregated to ₹ 280,305 thousands (Previous year ₹ 142,810 thousands) and the profit after tax would have been lower by ₹ 191,554 thousands (Previous year ₹ 95,108 thousands). Consequently Company's basic and diluted earnings per share would have been ₹ 4.01 and ₹ 4.00 respectively (Previous year: ₹ 3.89 and ₹ 3.88 respectively)

Salient features of all the existing grants under the six schemes are as stated below:

A) ESOS 2005

There are seven grants upto March 31, 2016 which are those issued on September 1, 2005 (two grants), November 8, 2006, August 3, 2007, July 15, 2008, August 16, 2009 and December 3, 2009. For all the grants, the mode of settlement is through equity shares. The vested options are required to be exercised by the employees within three years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee. Total number of options granted upto March 31, 2016 are 9,964,650 (Previous year 9,964,650).

The exercise price of ESOS 2005 is determined based on the holding cost of the shares in the books of the Trust. This exercise price is then applicable to all options vested and available for exercise by employees for a particular quarter. Since the exercise price is not a static number, it is not possible to provide weighted average exercise price of stock options for options that might be exercised in the future. Weighted average exercise price is available only for options already exercised and this price for the current year for all grants combined is ₹ 26.50 per share (Previous year ₹ 27.28 per share).

The exercise price of stock options outstanding at the end of the period would depend upon the quarterly exercise price. The exercise price for the year ended March 31, 2016 is ₹ Nil (Previous year ₹ 26.87 per share). The weighted average remaining contractual life (comprising the vesting period and the exercise period) of options outstanding as at March 31, 2016 is Nil (Previous year: 0.67 years).

A summary of status of ESOS 2005 in terms of options granted, forfeited, exercised, outstanding and exercisable is as given below:

Particulars	For the year ended March 31,2016	For the year ended March 31,2015

B) ESOS 2010

There are two grants issued upto March 31, 2016 which are those issued on June 30, 2010 and October 1, 2010. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of Initial Public

Offering (IPO) whichever is later, subject to the norms prescribed by the Nomination & Remuneration Committee. Hence, it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2016 are 5,158,000 (Previous year 5,158,000).

A summary of status of ESOS 2010 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

C) ESOS 2011

There is one grant upto March 31, 2016 which was issued on October 1, 2011. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of IPO, whichever is later, subject to the norms prescribed by the Nomination & Remuneration Committee. Hence,

it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2016 are 4,753,000 (Previous year 4,753,000).

A summary of status of ESOS 2011 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

D) ESOS 2012

There are two grants issued upto March 31, 2016 which were on October 1, 2012 and October 1, 2013. For all the grants, the mode of settlement is through

equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of IPO, whichever is later, subject to the

Schedules

norms prescribed by the Nomination & Remuneration Committee. Hence, it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2016 are 14,275,310 (Previous year 14,275,310).

A summary of status of ESOS 2012 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

E) ESOS 2014

There are two grants issued upto March 31, 2016 which were on December 1, 2014 and February 1, 2015. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options have to be exercised by the employees within five years from the date of vesting or the date of IPO, whichever is later, subject to the norms prescribed by the Nomination &

Remuneration Committee. Hence, it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2016 are 15,034,250 (Previous Year 15,034,250).

Method of computation of fair value of options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions used

in Black-Scholes model for calculating fair value of options as on the date of grant are as follows:

ESOS Scheme	Risk Free Interest Rate	Expected Life	Expected Volatility*	Expected Dividend Yield
ESOS 2005	6.15% - 9.37%	1.55 - 5.50 years	42.63% - 65.48%	0.00%
ESOS 2010	7.19% - 7.72%	3.50 - 6.50 years	48.80% - 51.88%	0.00%
ESOS 2011	8.28% - 8.30%	3.50 - 5.50 years	46.75% - 48.12%	0.00%
ESOS 2012	8.19% - 8.74%	1.37 - 3.45 years	30.44% - 36.53%	0.00%
ESOS 2014	7.73% - 8.28%	1.75 - 3.75 years	33.23% - 37.15%	1.06%
ESOS 2015	7.41% - 7.58%	1.75 - 3.75 years	34.21% - 38.38%	1.04%

* Volatility of a matured enterprise in the industry which is listed on BSE has been used as a basis for estimation of expected volatility of options.

13. Derivative contracts:

In accordance with the IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the

IRDAI circular on Interest Rate Derivatives') allowing insurers to deal in rupee interest rate derivatives, the Company has in place a derivative policy approved by

Schedules

Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

- a) The Company has during the year, as part of its Hedging strategy, entered into exchange traded Interest Rate Future (IRF) transactions to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Exchange Traded Interest rate futures are standardised interest rate derivative contracts traded on a recognised stock exchange to buy or sell a notional debt security or Government Bond (GOI) or Treasury Bill (T-Bill) of at a specified future date, at a price determined at the time of the contract with an objective to lock in the price of an interest bearing security at a future date.

The fair value for IRF instrument is considered as the daily settlement price on NSE. If the settlement price is not available on NSE, then the daily settlement price on BSE is considered for valuation of IRFs.

Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company uses derivative instrument (IRF) to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, goals and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment.

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The overall

policy, risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

The Risk Management Policy and Derivative Policy as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives.

As the IRFs are traded and settled by the recognised stock exchanges i.e. National Stock Exchange or Bombay Stock Exchange, the risk of counterparty failure would not exist, however the following risks pertaining to hedging using IRFs still exist:

- i) Roll over risk
Futures contracts traded in the markets usually expire in 1-3 months. Since the period for which the hedge is established is longer, it necessitates frequent roll-overs from contracts approaching expiry into new contracts. Roll over risk is the cost involved in rolling over futures contracts. The financial impact of this risk can be reduced by actively managing the roll-over from existing contracts into new contracts.
- ii) Basis Risk
Basis risk is the risk arising out of a mismatch in the tenure of the risk to be hedged and the tenure of available interest rate future contracts. The financial impact of this risk can be reduced to some extent by purchasing futures contracts so as to match the tenure of the risk to be hedged.

Quantitative disclosure on risk exposure in Exchange Traded Interest Rate Futures

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (IRF). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account.

The tenure of the hedging instrument may be less than or equal to the tenure of underlying hedged asset/liability.

3. The Company evaluates the industry exposure limit for exchange traded IRFs against the Central Counter Party i.e. Clearing Corporation in line with the IRDAI circular on Interest Rate Derivatives.

The industry exposure limit has been calculated on the basis of Credit Equivalent Amount using the Current Exposure Method (CEM) as detailed below:

The Credit Equivalent Amount of a market related off-balance sheet transaction calculated using the CEM is the sum of:

- a) the current credit exposure (gross positive mark to market value of the contract); and
- b) potential future credit exposure which is a product of the notional principal amount across the outstanding contract and a factor that is based on the mandated credit conversion factors as prescribed under the IRDAI circular on Interest Rate Derivatives, which is applied on the residual maturity of the contract.

Management Report

for the year ended March 31, 2016

In accordance with the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002, and circulars/guidelines issued by IRDAI thereafter, the following report is submitted by the Management for and on behalf of the Board of Directors (BOD) of the Company:

1. Certificate of Registration

The Company obtained a Certificate of Registration from the Insurance Regulatory and Development Authority ('IRDAI') on October 23, 2000 for carrying on the business of life insurance. The Company's Certificate of Renewal of Registration dated January 31, 2014 was valid till March 31, 2015. Pursuant to Section 3 read with Section 3A as amended by Insurance Laws (Amendment) Act, 2015, the process of annual renewal of the Certificate of Registration issued to insurers under Section 3 of the Insurance Act, 1938, was removed. Consequently, the said certificate continues to be in force.

2. Statutory Dues

The Company confirms that all the dues payable to the statutory authorities have been duly paid, except those which are being contested or disclosed under contingent liabilities in the notes to accounts forming part of the financial statements.

3. Shareholding Pattern

The Company confirms that the shareholding pattern of the company and the transfer of shares during the year are in accordance with the requirements of the Insurance Act, 1938 and the Insurance Regulatory and Development Authority (Registration of Indian Insurance Companies) Regulations, 2000. During the year, the Company has issued shares under the Employee Stock Option Scheme 2014. On August 14, 2015, Housing Development Finance Corporation Limited had entered into a Share Sale and Purchase Agreement with Standard Life (Mauritius Holdings) 2006 Limited to sell a 9.00% stake in HDFC Standard Life Insurance Company Limited to the latter. Relevant Regulatory approvals has been received for the transaction. The detailed shareholding pattern is available in Schedule 5A, forming part of financial statements.

4. Investments Outside India

The Company has not, directly or indirectly, invested in any securities outside India from the funds of the holders of policies, issued in India.

5. Solvency Margin

The Company has adequate assets to maintain its solvency margins as required by the Insurance Act, 1938 during the period, as stipulated under Section 64VA of the Insurance Act, 1938 and the IRDA (Assets, Liabilities and Solvency Margin of Insurers) Regulations, 2000.

The actual solvency ratio as compared to required minimum solvency ratio of 150% is as below:

Particulars	As at March 31, 2016	As at March 31, 2015
Actual solvency ratio	198%	196%

6. Valuation of Assets

The Company certifies that the values of all assets of the Company have been reviewed on the date of the Balance Sheet and, to the best of our knowledge and belief, the assets set forth in the Balance Sheet are shown in the aggregate at amounts not exceeding their realisable or market value under the several headings - "Loans", "Investments", "Agents balances", "Outstanding premiums", "Interest, Dividend and rents outstanding", "Interest, Dividends and rents accruing but not due", "Amounts due from other persons or bodies carrying on insurance business", "Sundry debtors", "Bills Receivable", "Cash" and items specified under "Other accounts" except debt securities which are valued at amortised cost as per IRDAI regulations in case of non linked policyholders funds and shareholders' investments.

7. Application and Investments of Life Insurance Funds

The Company certifies that no part of the life insurance fund have been directly or indirectly applied in contravention of the provisions of the Insurance Act, 1938 (4 of 1938) (amended by the Insurance Laws (Amendment) Act, 2015), and in accordance with IRDA (Investment) -Regulations, 2000 and Orders/directions issued by IRDAI thereafter, except for transitional breaches in relation to Investment (Fifth Amendment) 2013 which has been communicated to the Authority.

8. Overall Risk Exposure and Mitigation Strategies

Enterprise Risk Management framework forms the core of all operations at HDFC Life. It enables risks to be identified, assessed, controlled and monitored consistently, objectively and holistically. The company has a Risk

Management Report for the year ended March 31, 2016

Management Team in place guided by the Company's Core Risk Management Committee, Risk management Council and Senior Management to develop and implement risk assurance practices on a pan-organisational basis. The mitigation strategy with respect to various risks as covered under the current Risk Management framework is:

a) Insurance Risk

Due to its inherent nature of business, the Company exposes itself to a large number of risks. The risks may relate to expenses it incurs in carrying on its business, mortality and morbidity rates and persistency of its policyholders.

Expense Risk - The Company seeks to minimise its expense risk by the use of stringent expense control mechanism.

Mortality and Morbidity Risk - The Company seeks to minimise mortality and morbidity risks by diversifying its business portfolio, adhering to appropriate underwriting norms, intensive monitoring of the retention limits and diversification of the risk through reinsurance arrangements with financially sound reinsurers.

Persistency Risk - The Company analyses all the assumptions used in product pricing and calculation of embedded value and ensure that the same is in line with the actual experience. Also, strategic measures and initiatives are undertaken to ensure that the persistency ratios remain healthy.

The Company seeks to minimise potential impact of all insurance risks by an on-going monitoring of insurance risk experience, implementation of appropriate controls, and adjusting its products, processes and plans accordingly.

b) Investment Risks - Market Risk, Credit Risk and Liquidity Risk

Investment Performance can be affected due to systematic risks which involves factors that affect the overall economy and unsystematic risk which is specific to Investee Company or industry.

The Company seeks to manage its investment risk by ensuring investments are made in high quality assets, which matches its liabilities both by nature and term to the extent that is necessary and possible. The Company has constituted an Investment Committee, which acts as the policy making body for the investment operations.

The Investment Committee periodically discusses the investment strategy, portfolio structures, performance of the portfolio and related issues and ensure that the company has well defined investment policies & processes to manage all the investment risks.. All Regulatory and Internal norms are built in the Investment system, which monitors the Investment limits and exposure norms on real-time basis. The Company also uses MSCI Barra One application for performance attribution and risk analysis.

c) Asset-Liability Mismatch Risk

The risk arises due to mismatch caused by market factors, between the asset and liability cash flows.

The Company's ALM Policy lays down the Investment / Asset Allocation strategy to manage risks for various liabilities depending on their nature and tenure. The Company has constituted an internal Asset Liability Management Committee (ALCO) that monitors asset liability mismatch risk along with other market and insurance risks and it also formulates, implements and reviews strategies to achieve the stated financial objectives given the risk tolerance.

d) Operational Risk

By nature of its business, the Company is exposed to various types of operational risk, which arise from various sources including inadequate record keeping, failures of systems, employee error, and internal/external frauds. The Company seeks to minimise the impact of these risks by regular monitoring of processes, systems and procedures, implementation of controls, adherence to malpractice matrix for controlling frauds and ensuring back-ups for both systems and data are maintained. Necessary Insurance taken for all identified operational risk of the company are also reviewed at regular intervals.

The Company takes a holistic approach to identify, measure, control and monitor fraud risk through the Fraud Prevention Policy and also formulated a separate vertical (Risk Monitoring & Control Unit, RMCU) to design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events and negative surprises.

Business interruption risk also forms an integral part of operations risk. Since the Company can face a host of disasters that range from minor to catastrophic like fire/ data center failure/earthquake etc. which can impact day-to-day operations, the Company seeks to minimise the

Management Report for the year ended March 31, 2016

risk by having a robust Business Continuity Plan (BCP) in place to manage such business interruption risks. Disaster recovery site has been set up to carry critical processes in adverse scenario. Business continuity drills are carried on yearly basis for critical processes and outsource partners to manage business interruption risks.

The Company has well defined information security policy that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organization.

The Internal audit department performs regular risk based audits and reports the findings to the audit committee on regular basis. The Company's internal auditors review the processes, systems and procedures regularly. Reports of the auditors and the updates by risk management team as well as the actions taken are reported to the Audit Committee and Risk Management Committee of the Board respectively.

e) Compliance Risk

Sound compliance management process and information systems with a strong control culture have proven effective in managing compliance risk. Accountability & authority for compliance are clearly defined and enforced. Compliance tracker is maintained by the compliance department to manage timelines that are of regulatory nature. All regulatory reporting are published on periodic basis to the relevant stakeholders and timely submission of the reports due is ensured. Appropriate controls and systems are implemented to identify compliance problems and assess performance. The Company also has in place a self assessment compliance Mechanism which is to be adhered by all departments.

f) Strategic Risk

Strategic risk is associated with an organisation's mission and future business plans. Detailed analysis is conducted every year to gauge changes in macro economic factors, government policies and regulatory environment. In addition, movement on these parameters are discussed with the Board every quarter along with the management's point of view and recommended action plan. In addition to this, the Life Council and IRDAI share the organisation's view point on steps to increase life insurance penetration, reduce impact of regulatory changes.

9. Operations in other Countries

The Company has a liaison office in Dubai; however, all policies are underwritten and issued in India. The Company has made an investment in a 100% wholly owned foreign subsidiary 'HDFC International Life and Re Company Limited' incorporated in Dubai under the DIFC (Dubai International Finance Centre) Companies Law on January 10, 2016 to carry out re-insurance and life business. The amount of capital for this subsidiary is invested outside India and hence the company is exposed to country risk.

10. Ageing of Claims

The trend of average claims settlement time for the current year and last 5 preceding years, from the day all necessary documents are submitted to the Company till cheque has been dispatched/NEFT payment is processed, are as follows:

Years	Average time taken for claim settlement (No. in days)
FY 2016	8
FY 2015	10
FY 2014	10
FY 2013	10
FY 2012	10

For linked and traditional business details of claims registered and settled are attached as Annexure "A" and the details of claims registered and not settled are attached as Annexure "B".

11. Valuation of Investments

Given below is the basis as to how the values, as shown in the Balance Sheet, of the investments and stocks and shares have been arrived at, and how the market value thereof has been ascertained;

I. Real estate - investment property

Land or building or part of a building or both held to earn rental income or capital appreciation or for both, if any, rather than for use in services or for administrative purposes is classified as real estate investment property and is valued at historical cost, subject to revaluation, if any. Revaluation of the real estate investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in Revaluation Reserve in the Balance Sheet. Impairment loss, if any, exceeding the amount in Revaluation Reserve is recognised as an expense in the Revenue Account or the Profit and Loss Account.

Management Report for the year ended March 31, 2016

II. Debt securities

a) Non-linked business, non-unit reserve investments and shareholders' investments

Debt securities, including Government Securities are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount, if any, over the period of maturity/holding, on a straight line basis.

Annuity Fund	8,895,606	6,301,658	8.55	9.29

¹ Returns are based on amortised cost i.e without considering the unrealized gains and losses

² The returns in the Participating funds during the year gone by have been lower as compared to the previous year. The fall in returns is primarily due to the fall in the equity markets during the year as compared to a rise in the previous year. The CNX Nifty index had risen by 27% during FY 2015 and fell by 9% during FY 2016. The equity allocation in the funds had added to the returns during FY 2015 and dragged the returns lower during the year gone by. The second reason is the fall in the bond yields. As RBI embarked on a rate cut cycle, incremental investments in bonds were made at lower yields, which lowered the average interest accruals for the funds' fixed income allocation. The 10-year benchmark Government security yields were around 8.80% at the beginning of the FY 2015 and were about 7.70% at the beginning of the FY 2016.

13. Directors' Responsibility Statement

The Management for and on behalf of the BOD of the Company also states that:

Independent Auditors' Report

TO
THE MEMBERS OF HDFC STANDARD LIFE
INSURANCE COMPANY LIMITED

Report on the Consolidated Financial Statements

1. We have audited the accompanying consolidated financial statements of HDFC STANDARD LIFE INSURANCE COMPANY LIMITED ("hereinafter referred to as the Holding Company"), and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") (refer Schedule 16 to the attached consolidated financial statements), comprising of the Consolidated Balance Sheet as at March 31, 2016, the related Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Statement of Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Consolidated Receipts and Payment Account for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Financial Statements").

Management's Responsibility for the Consolidated Financial Statements

2. The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated receipts and payments of the Group in accordance with accounting principles generally accepted in India including the provisions of The Insurance Act, 1938 (the "Insurance Act") (amended by the Insurance Laws (Amendment) Act, 2015). The Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/ directions/circulars issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") in this regard and the Accounting Standards specified under Section 133 of the Act read with Rule 7

of the Companies (Accounts) Rules, 2014. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of Consolidated Financial Statements. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report.
4. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial

Independent Auditors' Report

statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

6. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Paragraph 8 under the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at March 31, 2016, the related Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Profit and loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Consolidated Receipts and Payments Account for the year ended on that date.

Other Matters

8. We did not audit the financial statements of two subsidiaries, whose financial statements reflect total assets of ₹ 10,94,019 (in '000') and net assets of ₹ 10,76,816 (in '000') as at March 31, 2016, total revenue of ₹ 23,955 (in '000'), net loss of ₹ 16,137 (in '000') and net cash flows amounting to ₹ 8,04,340 (in '000') for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion

on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

9. The actuarial valuation of liabilities for life policies in-force and policies where premium is discontinued is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"), which has been certified by the Appointed Actuary in accordance with the regulations, as mentioned in paragraph 12 (g) below. Accordingly, we have relied upon the Appointed Actuary's certificate for forming our opinion on the financial statements of the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditor.

Report on Other Legal and Regulatory Requirements

10. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law, maintained by the Holding Company and its subsidiaries included in the Group incorporated in India including relevant records, relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and records of the Holding Company and the reports of the other auditors.
 - (c) The Consolidated Balance Sheet, the Consolidated Revenue Account, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained by the Holding Company, its subsidiaries included in the Group incorporated

Independent Auditors' Report

in India, including relevant records relating to the preparation of the consolidated financial statements.

- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent they are not inconsistent with the accounting principles prescribed in the Regulations and orders / directions issued by the IRDAI in this behalf.
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2016 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the companies of the Group incorporated in India, is disqualified as on March 31, 2016 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate Report in Annexure A.
- (g) The actuarial valuation of liabilities for life policies in-force and for policies where premium has been discontinued but liability exists as at March 31, 2016 of Holding company has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that in his opinion, the assumptions for such valuation

are in accordance with the generally accepted actuarial principles and practices, requirements of the Insurance Act, regulations notified by the IRDAI and Actuarial Practice Standards issued by the Institute of Actuaries of India in concurrence with the IRDAI;

- (h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The consolidated financial statements disclose the impact, if any, of pending litigations as at March 31, 2016 on the consolidated financial position of the Group - Refer Schedule 16 (B) Note 18 to the consolidated financial statements.
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts as at March 31, 2016 - Refer Schedule 16 (B) Note 19 to the consolidated financial statements in respect of such items as it relates to the Group.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies incorporated in India during the year ended March 31, 2016.

Annexure A to Independent Auditors' Report

(Referred to in Paragraph 11 (f) of our Report on Other Legal and Regulatory Requirements forming part of the Independent Auditors' Report dated April 18, 2016)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of HDFC Standard Life Insurance Company Limited ("hereinafter referred to as the Holding Company") and its subsidiary company incorporated in India (the Holding Company and its subsidiary together referred to as "the Group")(refer Schedule 16 to the attached consolidated financial statements) as of March, 31, 2016 in conjunction with our audit of the Consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls of Group

2. The Group's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to group's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued

by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditors' judgement, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A group's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A group's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the group; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the group are being made only in accordance with authorisations of management and directors of the group; and (3) provide reasonable assurance regarding prevention or timely detection

Annexure A to Independent Auditors' Report

of unauthorised acquisition, use, or disposition of the Group's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Group has, in all material respects, an adequate internal financial controls system over

financial reporting and such internal financial controls over financial reporting were operating effectively as at March, 31, 2016, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the regulations, and has been relied upon by us, as mentioned in Para 9 and 12(g) of our audit report on the consolidated financial statements for the year ended March 31, 2016. Accordingly, our opinion on the internal financial controls over financial reporting does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

Corporate Information

HDFC Standard Life Insurance Company Limited ('HDFC Life' or 'The Company'), is a joint venture between Housing Development Finance Corporation Limited ('HDFC Limited'), India's leading housing finance institution and Standard Life plc, the leading provider of financial services in the United Kingdom. The Company obtained a Certificate of Registration from the Insurance Regulatory and Development Authority ('IRDAI') on October 23, 2000 for carrying on the business of life insurance. The Company's Certificate of Renewal of Registration dated January 31, 2014 was valid till March 31, 2015. Pursuant to Section 3 read with Section 3A as amended by Insurance Laws (Amendment) Act, 2015, the process of annual renewal of the Certificate of Registration issued to insurers under Section 3 of the Insurance Act, 1938, was removed. Consequently, the said certificate continues to be in force. The Company offers a range of individual and group insurance solutions. The portfolio comprises of various insurance and investment products such as Protection, Pension, Savings, Investment and Health.

HDFC Pension Management Company Limited ('HDFC Pension' or 'the Indian Subsidiary'), is a wholly owned subsidiary of HDFC Standard Life Insurance Company Limited. HDFC Pension is a public limited company domiciled in India and was incorporated under the provisions of the erstwhile Companies Act, 1956 on June 20, 2011 with the purpose of managing pension fund business.

The Company has made an investment in a wholly owned foreign subsidiary 'HDFC International Life and Re Company Limited' ('the Foreign Subsidiary') incorporated in Dubai on January 10, 2016 under the DIFC (Dubai International Finance Centre) Companies Law No. 2 of 2009 under registration number 2067. HDFC International Life & Re is regulated by the Dubai Financial Services Authority ("DFSA") and is licensed to undertake life reinsurance business in the UAE. In future, the Company intends to undertake life insurance business in other jurisdictions, with necessary regulatory permissions and approvals. The consolidated financial statements include the results of the Foreign Subsidiary for the period from the Foreign Subsidiary's date of incorporation on January 10, 2016 to March 31, 2016 and accordingly, no comparative information has been included in the consolidated financial statements for the Foreign Subsidiary. The Foreign Subsidiary has not commenced its operations as at March 31, 2016.

These financial statements comprise the consolidated financial statements of HDFC Standard Life Insurance

Company Limited, the parent Company and its wholly owned subsidiaries 'HDFC Pension Management Company Limited' and HDFC International Life and Re Company Limited (together referred to as "the Group")

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Consolidation

- a) These consolidated financial statements for the Group are prepared in accordance with the principles and procedures for preparation and presentation of consolidated financial statements as laid down under the Accounting Standard (AS) 21, "Consolidated Financial Statements" and are presented in the same format as that of the Company. The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together similar items of assets, liabilities, income and expenses after eliminating intra-group balances, transactions and resulting unrealised profits/losses.
- b) The Company, its Indian Subsidiary and its Foreign Subsidiary are governed by different regulations and lack homogeneity of business, hence adjustments have been made to the financial statements of the two subsidiaries for the accounting policies at the time of consolidation to the extent it is practicable to do so. Where it is not practicable to make adjustments and as a result the accounting policies differ, respective accounting policies of the Company and its subsidiaries as applied to such items have been disclosed.
- c) The notes to the consolidated financial statements for the Group are intended to serve as a means of informative disclosure and a guide towards better understanding of the consolidated position of the Group. The Group has disclosed such notes from the standalone financial statements of the Company and its subsidiaries which are necessary for presenting a true and fair view of the consolidated financial statements.

2. Basis of preparation

These consolidated financial statements are prepared under the historical cost convention on an accrual basis of accounting in accordance with the Indian Generally Accepted Accounting Principles (GAAP), the accounting principles prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 ('the Financial Statements Regulations'), the Master Circular on 'Preparation of Financial Statements and

Schedules

Filing Returns of Life Insurance Business' Ref No. IRDA/F&A/Cir/232/12/2013 dated December 11, 2013 ('the Master Circular') and other circulars issued by the IRDAI from time to time, provisions of the the Insurance Act, 1938 as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority Act, 1999, as amended from time to time, the Companies Act, 1956, as amended from time to time, to the extent applicable and the Companies Act, 2013. Pursuant to Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, till the accounting standards or any addendum thereto are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing accounting standards notified under Companies Act, 1956, shall continue to apply. Consequently, these financial statements have been prepared also to comply in all material aspects with the accounting standards notified under Section 211 (3C) of the Companies Act, 1956 i.e, Companies (Accounting Standards) Rules, 2006 to the extent applicable. Accounting policies have been consistently applied to the extent applicable and in the manner so required.

3. Use of estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities and disclosures relating to contingent liabilities as on the date of the consolidated financial statements. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as on the date of the consolidated financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is accounted for prospectively.

4. Revenue recognition

i) Premium income

Premium income including rider premium is accounted

for when due from the policyholders and as reduced for lapsation expected based on the experience of the Company. In case of linked business, premium income is accounted for when the associated units are created. Premium on lapsed policies is accounted for as income when such policies are reinstated. Top up premium is considered as single premium.

ii) Income from linked policies

Income from linked policies, which include fund management charges, policy administration charges, mortality charges and other charges, wherever applicable, is recovered from the linked funds in accordance with the terms and conditions of the insurance contracts and is accounted for as income when due.

iii) Income from investments

Interest income on investments is accounted for on accrual basis.

Amortisation of premium or accretion of discount computed at the time of purchase of debt securities is recognised over the remaining period of maturity/holding on a straight line basis.

In respect of investments held by the Indian Subsidiary, premium or discount computed at the time of purchase on money market instruments, zero coupon bonds and debt investments is amortised over the holding/maturity period on a straight line basis, adjusted for change in value of investments due to market movements.

Dividend income is accounted for on "ex-dividend" date in case of listed equity and preference shares and in case of unlisted equity and preference shares, when the right to receive dividend is established.

In case of linked business, profit or loss on sale/redemption of equity shares/equity Exchange Traded Funds (ETFs), preference shares and units of mutual fund is calculated as the difference between net sale proceeds/redemption proceeds and the weighted average book value.

In case of other than linked business, profit or loss on sale/redemption of equity shares/equity ETFs, preference shares and units of mutual fund includes the accumulated changes in the fair value previously recognised under "Fair Value Change Account" in the Consolidated Balance Sheet.

In case of linked business, profit or loss on sale/redemption of debt securities is calculated as the

Schedules

difference between net sale proceeds/redemption proceeds and the weighted average book cost. In case of other than linked business, profit or loss on sale/redemption of debt securities is calculated as the difference between net sale proceeds/redemption proceeds and the weighted average amortised cost.

iv) Income from loans

Interest income on loans is accounted for on an accrual basis.

v) Income from Fees

In respect of business of the Indian Subsidiary, investment management fees are recognised on accrual basis in accordance with the terms of the "Investment Management Agreement" (IMA) entered into with the National Pension System (NPS) Trust.

5. Reinsurance premium ceded

Reinsurance premium ceded is accounted for on due basis, in accordance with the terms and conditions of the reinsurance treaties. Profit commission on reinsurance ceded is netted off against premium ceded on reinsurance.

6. Acquisition costs

Acquisition costs are the costs that vary with and are primarily related to the acquisition of new and renewal insurance contracts and consist of costs like commission to insurance intermediaries, sales staff costs, office rent, medical examination costs, policy printing expenses, stamp duty and other related expenses. These costs are expensed in the period in which they are incurred.

7. Benefits paid

Benefits paid consist of policy benefit amounts and claim settlement costs, where applicable.

Non-linked business

Death and rider claims are accounted for on receipt of intimation. Annuity benefits, money back payment and maturity claims are accounted for when due. Surrenders are accounted for on the receipt of consent from the insured to the quote provided by the Company.

Linked business

Death and rider claims are accounted for on receipt of intimation. Maturity claims are accounted for

on due basis when the associated units are de-allocated. Surrenders and withdrawals are accounted for on receipt of intimation when associated units are de-allocated. Amounts payable on lapsed and discontinued policies are accounted for on expiry of lock in period. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable.

Reinsurance claims receivable are accounted for in the period in which the concerned claims are intimated. Repudiated claims and other claims disputed before judicial authorities are provided for on prudent basis as considered appropriate by management.

8. Investments

In case of the Company, investments are made in accordance to the provisions of the Insurance Act, 1938, as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority (Investment) Regulations, 2000, the Insurance Regulatory and Development Authority (Investment) (Amendment) Regulations, 2001, the Insurance Regulatory and Development Authority (Investment) (Fourth Amendment) Regulations, 2008, the Insurance Regulatory and Development Authority (Investment) (Fifth Amendment) Regulations, 2013, wherever applicable and various other circulars/notifications/clarifications issued by the IRDAI in this context from time to time.

In case of the Indian Subsidiary, investments are accounted for in accordance with the requirements of the Accounting Standard (AS) 13, "Accounting for Investments".

Investments are recognised at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued (i.e. since the previous coupon date) as on the date of purchase.

A) Classification of investments

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as "short term" investments. Investments other than short term investments are classified as "long term" investments.

Schedules

B) Valuation of investments of HDFC Life

I. Real estate - investment property

Land or building or part of a building or both held to earn rental income or capital appreciation or for both, if any, rather than for use in services or for administrative purposes is classified as real estate investment property and is valued at historical cost, subject to revaluation, if any. Revaluation of the real estate investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in Revaluation Reserve in the Consolidated Balance Sheet. Impairment loss, if any, exceeding the amount in Revaluation Reserve is recognised as an expense in the Consolidated Revenue Account or the Consolidated Profit and Loss Account.

II. Debt securities

a) Non-linked business, non-unit reserve investments and shareholders' investments

Unrealised gains or losses arising on valuation of debt securities including Government Securities are accounted for in the Consolidated Revenue Account.

Securities with call options are valued at the lower of the values as obtained by valuing the security to the final maturity date or to the call option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security to the various call dates or to the final maturity date. Securities with put options are valued at the higher of the value as obtained by valuing the security to the final maturity date or to the put option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security to the various put option dates or to the final maturity date.

Securities with both put and call options on the same day are deemed to mature on the put and call option day and would be valued on a yield to maturity basis, by using the benchmark rate based on the matrix released by CRISIL on daily basis.

III. Equity shares and Equity Exchange Traded Funds (ETFs)

a) Non-linked business, non-unit reserve investments and shareholders' investments

Listed equity shares and equity ETFs are valued at fair value, being the last quoted closing price on the Primary Exchange i.e. National Stock Exchange (NSE) at the Balance Sheet date. In case, the equity shares and equity ETFs are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. Bombay Stock Exchange (BSE) are considered.

If the equity shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the equity shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation provided such previous day

Schedules

price is not more than 30 days prior to the Balance Sheet date.

In case the equity ETFs are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the equity ETFs are valued at the latest available Net Asset Value (NAV).

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Consolidated Balance Sheet.

Unlisted equity shares and listed equity shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by Securities Exchange Board of India (SEBI) are valued at historical cost, subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment.

Listed equity ETFs that are not regularly traded in the active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI are valued at the latest available NAV.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Right entitlements are accrued and recognised on the date the original shares (on which the right entitlement accrues) are traded on the stock exchange on an 'ex-rights' date.

b) **Linked business**

Listed equity shares and equity ETFs are valued and stated at fair value, being the last quoted closing price on the Primary Exchange i.e. the NSE at the Balance Sheet date. In case, the equity shares (including equity ETFs) are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If equity shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the equity shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

In case the equity ETFs are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the equity ETFs are valued at the latest available NAV.

Unrealised gains or losses arising on such valuation are accounted for in the Consolidated Revenue Account.

Listed equity shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution, if any, in the value of such investment determined separately for each individual investment.

IV. Preference Shares

a) **Non-linked business, non-unit reserve investments and shareholders' investments**

Redeemable preference shares are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount.

Listed preference shares other than redeemable preference shares are valued at fair value, being the last quoted closing price on the Primary Exchange i.e. National Stock Exchange (NSE) at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. Bombay Stock Exchange (BSE) are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

Unlisted preference shares other than redeemable preference shares and listed preference (other than

Schedules

redeemable preference) shares that are not regularly traded in active markets and which are classified as “thinly traded” as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by Securities Exchange Board of India (SEBI) are valued at historical cost, subject to provision for diminution in the value, if any, of such investments determined separately for each individual investment.

b) **Linked business**

Listed preference shares are valued and stated at fair value, being the last quoted closing price on the Primary Exchange i.e. the NSE at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising on such valuations are accounted for in the Consolidated Revenue Account.

Listed preference shares that are not regularly traded in active markets and which are classified as “thinly traded” as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution in the value, if any, of such investment determined separately for each individual investment.

V. **Mutual funds**

a) **Non-linked business, non-unit reserve investments and shareholders’ investments**

Mutual fund units held at the Balance Sheet date are valued at previous business day’s Net Asset Value (NAV) per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised under the head ‘Fair Value Change Account’ in the Consolidated Balance Sheet.

b) **Linked business**

Mutual fund units held at the Balance Sheet date are valued at previous business day’s NAV per unit. Unrealised gains or losses arising due to changes in

the fair value of mutual fund units are recognised in the Consolidated Revenue Account.

VI. **Interest Rate Derivatives**

Interest Rate derivatives (IRDs) contracted to hedge highly probable forecasted transactions on insurance contracts in life, pension and annuity business are recognised at fair value, on the date on which the interest rate derivative contracts are entered into and are re-measured at the fair value on the Balance Sheet date.

Interest rate derivative contracts for hedging of highly probable forecasted transactions on insurance contracts, are accounted for in the manner specified in accordance with Accounting Standard (AS) 30, “Financial Instruments: Recognition and Measurement”.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. ‘Hedge Reserve’ under the head ‘Credit/(Debit) Fair Value Change Account’. Such accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Consolidated Revenue Account, in the same period during which the asset acquired or liability assumed affects the Consolidated Revenue Account. In the event that all or any portion of loss, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Consolidated Revenue Account. Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Consolidated Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

C) **Valuation of investments of Indian Subsidiary**

In respect of the Indian Subsidiary, short term investments (current investments) are valued at

Schedules

lower of cost or fair value for which valuation is determined for each individual investment. Long term investments are valued at cost, subject to amortisation of premium or accretion of discount computed at the time of purchase of investments, over the period of maturity/holding, on a straight line basis. Provision for diminution in value is made to recognise a decline, other than temporary, in the value of the investments.

D) Impairment of investments

The Company periodically assesses at each Balance Sheet date whether there is any indication of impairment of investments or reversal of impairment loss earlier recognised. An impairment loss is accounted for as an expense and disclosed under the head 'Provision for diminution in the value of investment (net)' in the Consolidated Revenue Account or the Consolidated Profit and Loss Account to the extent of the difference between the re-measured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Consolidated Revenue Account or Consolidated Profit and Loss Account.

Any reversal of impairment loss earlier recognised in Consolidated Revenue Account or Consolidated Profit and Loss Account, is accounted in the Consolidated Revenue Account or Consolidated Profit and Loss Account respectively.

E) Provision for Non Performing Assets (NPA)

All assets where the interest and/or instalment of principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in the manner required by the IRDAI regulations on this behalf.

F) Transfer of investments from Shareholders' fund to Policyholders' fund

Transfers of investments other than debt securities, as and when made from Shareholders' fund to the Policyholders' fund, to meet the deficit in the Policyholders' account, are made at the cost price or market price, whichever is lower.

Transfers of debt securities, from Shareholders' fund to Policyholders' fund, as and when made, are made at the net amortised cost or the market value, whichever is lower.

G) Transfer of investments between non-linked Policyholders' funds

No transfers of investments are made between non-linked Policyholders' funds.

H) Purchase and sale transactions between unit linked funds

The purchase and sale of investments between unit linked funds is accounted for at the prevailing market price on the date of purchase or sale of investments.

In case of debt securities, if prevailing market price of any security is not available on the date of transfer of investment, the last available valuation price is considered.

9. Policy liabilities

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938, as amended from time to time including amendment brought by the Insurance Laws (Amendment) Act, 2015, regulations notified by the IRDAI and Actuarial Practice Standard (APS) issued by the Institute of Actuaries of India with the concurrence of the IRDAI.

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDAI (Assets, Liabilities and Solvency Margin) Regulations, 2000 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual and group) comprises of unit reserves and non-unit reserves. The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium method.
3. The liabilities for individual non-linked non-participating business are calculated using gross premium method.
4. The liabilities for individual non-linked participating business are calculated at the valuation date using gross premium method and also with reference to asset share of the policies such that the reserves are higher than the surrender values that would be payable if the policies were to be surrendered on the valuation date.

Schedules

5. The liabilities for one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, the liabilities are calculated using gross premium valuation method.
6. The liabilities for the group non-linked savings products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.
7. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
8. Additional reserves are determined to:
 - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported).
 - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business).
 - c. meet the expected liabilities that would arise on the revival of lapsed policies on the basis of the proportion of the policies expected to be revived based on the revival experience of the Company (Revival Reserve).
 - d. allow for the additional amount required to be paid on account of cancellation of policies due to look in, on the basis of the proportion of the policies expected to exercise the look-in option based on the experience of the Company (Look in Reserve).
 - e. allow for the cost of guarantees, wherever applicable.

10. Fixed assets and Depreciation/Amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any, except with respect to one property earlier classified as investment property and accounted at a revalued amount on being used in service and for administrative purposes of business, has been in accordance with the requirement of IRDAI and accounting standards, reclassified to fixed assets at the revalued amount less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, being low value assets are fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is

expensed out except where such expenditure increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress. Advances given towards acquisition of fixed assets are disclosed in 'Advance and other assets' in Consolidated Balance Sheet.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of asset sold, up to the previous month of sale. In respect of expenditure incurred on acquisition of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is recognised in the Consolidated Revenue Account / Consolidated Profit and Loss Account.

Tangible assets

The Company has adopted straight line method of depreciation so as to depreciate the cost of following type of assets over the useful life of these respective assets which are as follows:

Asset class	Useful life of assets (years)
Building	60
Information technology equipment-End user devices [^]	3
Information technology equipment-Servers and network ^{*^}	4
Furniture & Fixtures ^{*^}	5
Motor Vehicles ^{*^}	4
Office Equipment [^]	5

* For these class of assets, based on internal and/or external assessment/technical evaluation carried out by the management, the management believes that the lives as mentioned above best represent the useful life of these respective assets, however these are lower than as prescribed under Part C of Schedule II of the Companies Act, 2013.

[^] For these class of assets, based on internal assessment carried out by the management, the residual value is considered to be nil.

Schedules

Leasehold improvements are amortised over the lock in period of the leased premises subject to a maximum of five years.

Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment. These are amortised over the useful life of the software subject to maximum of four years. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Any expenditure for support & maintenance of the computer software is charged to the Consolidated Revenue Account.

11. Impairment of assets

The Company periodically assesses, using internal and external sources, whether there is any indication of impairment of asset. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer necessary or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets

12. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for accumulated impairment losses and provision for NPA, if any.

13. Foreign currency transactions

In accordance with the requirements of Accounting Standard (AS) 11, "The Effects of Changes in Foreign Exchange Rates", transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction, at the time

of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions are recognised in the period in which they arise either in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be.

In case of Foreign Subsidiary, being non-integral foreign operations, income and expenses are translated at the average rate prevailing during the year. All the assets and liabilities, both monetary and non-monetary, are translated at the rate prevailing at Balance Sheet date. The resultant translation gains and losses are disclosed as 'Foreign currency translation reserve' in 'Reserve and Surplus' under Shareholders' Funds in the Consolidated Balance Sheet

14. Segmental reporting

Identification of segments

As per Accounting Standard (AS) 17, "Segment Reporting" notified in the Companies Act, 1956, read with the Financial Statements Regulations, the Company has prepared the Consolidated Revenue Account and the Consolidated Segmental Information for the thirteen primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating - Annuity, Non Participating - Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life, Unit Linked - Group Pension. Since the business operations of the Company are given effect to in India and all the policies are written in India only, this is considered as one geographical segment.

Schedules

Allocation methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

- a) Revenue, expenses, assets and liabilities, which are directly attributable and identifiable to the respective business segments, are directly allocated for in that respective segment; and
- b) Revenue, expenses, assets and liabilities which are not directly identifiable to a business segment though attributable and other indirect expenses which are not attributable to a business segment, are allocated based on one or combination of some of the following parameters, as considered appropriate by the management:
 - i) effective premium income
 - ii) number of policies
 - iii) number of employees
 - iv) man hours utilised
 - v) premium income
 - vi) sum assured
 - vii) mean fund size

The accounting policies used in segmental reporting are the same as those used in the preparation of the consolidated financial statements.

15. Employee benefits

A) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance Scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme are accounted for in the period in which the employee renders the related service.

B) Post-employment benefits

The Company has both defined contribution and defined benefit plans. These plans are financed by the Company.

- (i) Defined contribution plans:
The Superannuation Scheme and Employee Provident Fund Scheme (Company contribution)

are the defined contribution plans. The contributions paid/payable under the plan are made when due and charged to the Consolidated Revenue Account during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

(ii) Defined benefit plans:

In case of the Company, the Gratuity plan is the defined benefit plan, which is a funded plan. The present value of the obligations under such defined benefit plan is determined on the basis of actuarial valuation using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The discount rate used for actuarial valuation is based on the yield of Government Securities.

The Company fully contributes the net ascertained liabilities under the plan to the HDFC Life Insurance Company Limited Employees Group Gratuity Plan. The Company recognises the net defined benefit obligation of the gratuity plan, taking into consideration the defined benefit obligation using actuarial valuation and the fair value of plan assets at the Balance Sheet date in accordance with Accounting Standard (AS) 15, "Employee Benefits".

Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be, in the period in which they arise.

In case of both the subsidiaries, Gratuity plan is an unfunded defined benefit plan. The present value of the obligation under such defined benefit plan in case of Indian Subsidiary is determined based on the actuarial valuation at the Balance Sheet date using the projected unit credit method. Provision for gratuity is accounted for taking into consideration the actuarial valuation of plan obligation as at the Balance Sheet date.

C) Other long term employee benefits

Other long term employee benefits include accumulated long term compensated absences and

Schedules

long term incentive plans. Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment at the option of the employee subject to Company's policies. Long term incentive plans are subject to fulfilment of criteria prescribed by the Company.

Accumulated long term compensated absences are accounted for based on actuarial valuation determined using the projected unit credit method.

Long term incentive plans are recognised at the present value of expected future benefits payable using an appropriate discount rate.

Actuarial gains or losses, if any, due to experience adjustments and the effects of change in actuarial assumptions are accounted for in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be in the period in which they arise.

16. Employee Stock Option Scheme(ESOS)

The Company has formulated Employee Stock Option Scheme 2005 (ESOS 2005), Employee Stock Option Scheme 2010 (ESOS 2010), Employee Stock Option Scheme 2011 (ESOS 2011) and Employee Stock Option Scheme 2012 (ESOS 2012), which are administered through the HDFC Standard Life Employees Stock Option Trust ("the Trust") and Employee Stock Option Scheme 2014 (ESOS 2014) which is directly administered by the Company. During the year, the Company has formulated Employee Stock Option Scheme 2015 (ESOS 2015) which is also directly administered by the Company. The schemes provide that eligible employees are granted options that vest in a graded manner to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis in accordance with the Guidance Note on Accounting for Employee Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is the amount by which the value of the underlying share determined by an independent valuer exceeds the exercise price of an option. The intrinsic value of options, if any, at the grant date is amortised over the vesting period.

17. Provisions, contingent liabilities and contingent assets

Provisions are accounted for in respect of present obligations arising out of past events where it

is probable that an outflow of resources will be required to settle the obligation and the amounts of which can be reliably estimated. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability.

Contingent liabilities are disclosed in respect of;

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) present obligations that arise from past events, which are not recognised because of remote probability that an outflow of resources embodying economic benefits will be required to settle the obligations or a reliable estimate of the amounts of the obligations cannot be made.

Contingent assets are neither accounted for nor disclosed.

18. Leases

A) Finance leases

Leases under which the Company assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

B) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the lease term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

19. Taxation

A) Direct tax

- 1) Provision for income tax

In case of the Company, provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and

Schedules

other relevant provisions of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

In case of the Indian Subsidiary, tax liability is provided for based on Minimum Alternate Tax (MAT) provisions under section 115JB of the Income Tax Act, 1961. MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Indian Subsidiary will pay normal income tax during the specified period.

There is no tax liability as per the local tax laws in case of the Foreign Subsidiary.

II) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", with respect to the carry forward of losses under the Income Tax regulations, the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

III) Wealth tax

Provision for wealth tax is made at the appropriate rate, as per the applicable provisions of the Wealth Tax Act, 1957 (Wealth tax Act, 1957 has been abolished with effect from April 1, 2015).

B) Indirect tax

The Company claims credit of service tax on input services, which is set off against service tax on output services. As a matter of prudence, unutilised credits towards service tax on input services are carried forward under 'Advances and Other Assets' in the Consolidated Balance Sheet, wherever there is reasonable certainty of utilisation.

20. Funds for Future Appropriations

Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from

the fund reflect the excess/deficit of income over expenses respectively and appropriations in each accounting period arising in the Company's Policyholders' Fund. Any allocation to the par policyholders would also give rise to a transfer to Consolidated Profit and Loss Account in the required proportion.

The FFA in the linked segment represents surplus on the lapsed policies issued prior to September 2010 and unlikely to be revived. This surplus is required to be held within the Policyholders' Fund till the time policyholders are eligible for revival of their policies.

21. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are treated as dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

22. Cash and cash equivalents

Cash and cash equivalents for the purposes of Consolidated Receipts and Payments account comprise of cash and cheques in hand, bank balances, fixed deposits with original maturity of three months or less, CBLO, Reverse Repo, highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value.

The Company has filed appeals against the show cause cum demand notices/assessment orders with the appellate authorities and has been advised by the experts that our grounds of appeal are well supported in law in view of which the Company does not expect any liability to arise in this regard.

2. Indian Subsidiary - Letter of Appointment

In January 2014, a Request for Proposal ('RFP') was floated by the Pension Fund Regulatory and Development Authority (PFRDA) seeking fresh bids for selection of pension fund managers afresh to manage the pension funds. In response to the RFP, HDFC Life ('the Sponsor') submitted its technical and commercial bid. The technical bid made under RFP was opened in April 2014 and the bid submitted by the Sponsor was not accepted by the PFRDA on technical grounds of not having profitability for a period of 3 years. The Sponsor, therefore, filed a Writ Petition before the Hon'ble High Court of Delhi, challenging the said rejection. The Hon'ble High Court of Delhi by its Order dated May 15, 2014 quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to evaluate the bid in accordance with the steps set out in the RFP. While the PFRDA cleared the Sponsor's technical and commercial bid and the Sponsor even agreed to match the lowest commercial bid, the PFRDA declined to grant the Sponsor a 'Letter

of Appointment'. The Sponsor, therefore, filed another Writ Petition before the Hon'ble High Court of Delhi against the rejection. Vide its Order dated December 18, 2014 the Hon'ble High Court of Delhi quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to grant HDFC Life a 'Letter of Appointment' to act as a Sponsor. Subsequently, the PFRDA has filed a Special Leave Petition before the Hon'ble Supreme Court of India challenging the above said Order dated December 18, 2014. The Hon'ble Supreme Court has, by its Order dated March 9, 2015, refused to grant the PFRDA any ad-interim relief and the matter is presently pending hearing. On March 27, 2015, complying with the High Court order, the PFRDA has issued a Letter of Appointment in favour of the Sponsor, stating inter alia that such appointment is subject to the outcome of the above proceedings filed before the Hon'ble Supreme Court. The Indian Subsidiary has obtained an opinion from its lawyers, as per which the Indian Subsidiary stands a fairly good chance of succeeding in the matter. It may be noted that the PFRDA (Pension Fund) Regulations, 2015 were notified in May 2015, pursuant to which re-registration of all pension funds was sought by the PFRDA. HDFC Pension has submitted its application for the same, and a revert from the PFRDA is awaited.

3. Actuarial assumptions

The policyholders' actuarial liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to

Schedules

interest, expenses, mortality, morbidity, persistency, and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used in actuarial valuation is as below:

a) Interest rate assumptions:

The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product and are in the range of 5.20 % to 7.00% (Previous year 5.20% to 7.00%).

b) Mortality assumptions:

Mortality assumptions are set in accordance with the Schedule 5(5) of the IRDAI, Asset Liability Solvency Margin guidelines, 2000, in reference to the published Indian Assured Lives Mortality table (2006-08) and are based on the latest experience analysis of the business.

In the case of annuity benefits, mortality assumption is based on the LIC Annuitants (1996-1998) table.

c) Expense assumptions:

The expense assumptions are set on the basis of the expense analysis. These are fixed renewal expenses and investment expenses charged as a

% of fund. The renewal and claim expenses are increased at an inflation rate of 7.5% p.a.

d) Persistency assumptions:

The persistency assumptions are also based on the most recent experience of the Company and vary according to the premium frequency and type of the product.

e) Provision for free-look period:

If a policy which is in force as at the valuation date is subsequently cancelled in the free-look period, then there could be a strain in the policyholders' fund on account of the amount payable on free-look cancellation, to the extent the amount is higher than reserves held for that policy. In order to avoid the future valuation strain as a result of the free look cancellations, reserves on account of the above are held. The free look reserve is calculated as total strain for all policies that are eligible for free look cancellations at the valuation date, multiplied by a factor, representing the expected assumptions for free look cancellations.

f) Bonus rates:

The bonus rates for the participating business to be declared in the future is based on the interest expected to be earned as per the valuation assumptions.

g) Tax:

The tax rate as applicable to insurance companies carrying on insurance business is 14.42 % p.a for the year.

4. Employee benefits

B) Defined benefit plans:

I. Gratuity:

a) General description of defined benefit plan

In case of HDFC Life, this is a funded defined benefit plan for qualifying employees under which the Company makes a contribution to the HDFC Standard Life Insurance Company Limited Employees Gratuity Trust. In case of both the subsidiaries, this is an unfunded defined benefit plan. In case of HDFC Life and its Indian Subsidiary, the plan provides for a lump sum payment as determined under The Payment of Gratuity Act, 1972, and in case of Foreign Subsidiary, the plan provides for end of service benefits in

accordance with the UAE Labour Law to the vested employees either at retirement or on death while in employment or on termination of employment. The benefit vests after five years of continuous service. Defined benefit obligations are actuarially determined at each Balance Sheet date using the projected unit credit method as required under Accounting Standard (AS) 15, "Employee benefits", in case of the Company and its Indian Subsidiary. Actuarial gains or losses are recognised in the Consolidated Revenue Account/ Consolidated Profit and Loss Account.

5. Employee Stock Option Scheme (ESOS)

The Company has granted options to employees under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 schemes. These schemes are administered by the HDFC Standard Life Employees Stock Option Trust. The Trust had subscribed to the capital of the Company and also acquired shares of the Company from Housing Development Finance Corporation Limited, the holding company. The options are granted to the employees from these tranches of shares. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company has also granted options to its employees under the ESOS 2014 scheme and ESOS 2015 scheme. The said schemes are directly administered by the Company. The exercise price of ESOS 2014 and of ESOS 2015 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company follows the intrinsic value method of accounting for stock options granted to employees. The intrinsic value of the options issued under the above referred scheme is 'Nil' as the exercise price of the option is the same as fair value of the underlying share on the grant date and accordingly, no expenses are recognised in the books. Had the Company followed the fair value method for valuing its options, the charge to the Consolidated Revenue Account/ Consolidated Profit & Loss Account for the year would have aggregated to ₹ 280,305 thousands (Previous year ₹ 142,810 thousands) and the profit after tax would have been lower by ₹ 191,554 thousands (Previous year ₹ 95,108 thousands). Consequently, the Company's basic and diluted earnings per share would have been ₹ 4.00 and ₹ 4.00 respectively (Previous year ₹ 3.89 and ₹ 3.88 respectively).

Salient features of all the existing grants under the six schemes are as stated below:

A) ESOS 2005

There are seven grants upto March 31, 2016 which are those issued on September 1, 2005 (two grants), November 8, 2006, August 3, 2007, July 15, 2008, August 16, 2009 and December 3, 2009. For all the grants the mode of settlement is through equity shares. The vested options are required to be exercised by the employees within three years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee. Total number of options granted upto March 31, 2016 are 9,964,650 (Previous year 9,964,650).

The exercise price of ESOS 2005 is determined based on the holding cost of the shares in the books of the Trust. This exercise price is then applicable to all options vested and available for exercise by employees for a particular quarter. Since the exercise price is not a static number, it is not possible to provide weighted average exercise price of stock options for options that might be exercised in the future. Weighted average exercise price is available only for options already exercised and this price for the current year for all grants combined is ₹ 26.50 per share (Previous year ₹ 27.28 per share).

The exercise price of stock options outstanding at the end of the year would depend upon the quarterly exercise price. The exercise price for the year ended March 31, 2016 is ₹ Nil per share (Previous year ₹ 26.87 per share). The weighted average remaining contractual life (comprising the vesting period and the exercise period) of options outstanding as at March 31, 2016 is Nil years (Previous year 0.67 years).

A summary of status of ESOS 2005 in terms of options granted, forfeited, exercised, outstanding and exercisable is as given below:

C) ESOS 2011

There is one grant upto March 31, 2016 which was issued on October 1, 2011. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of IPO, whichever is later, subject to the norms prescribed by the Nomination & Remuneration Committee. Hence,

it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. Total number of options granted upto March 31, 2016 are 4,753,000 (Previous year 4,753,000).

A summary of status of ESOS 2011 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

Method of computation of fair value of options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions used

in Black-Scholes model for calculating fair value of options as on the date of grant are as follows:

ESOS Scheme	Risk Free Interest Rate	Expected Life	Expected Volatility*	Expected Dividend Yield
ESOS 2005	6.15% - 9.37%	1.55 - 5.50 years	42.63% - 65.48%	0.00%
ESOS 2010	7.19% - 7.72%	3.50 - 6.50 years	48.80% - 51.88%	0.00%
ESOS 2011	8.28% - 8.30%	3.50 - 5.50 years	46.75% - 48.12%	0.00%
ESOS 2012	8.19% - 8.74%	1.37 - 3.45 years	30.44% - 36.53%	0.00%
ESOS 2014	7.73% - 8.28%	1.75 - 3.75 years	33.23% - 37.15%	1.06%
ESOS 2015	7.41% - 7.58%	1.75 - 3.75 years	34.21% - 38.38%	1.04%

* Volatility of a matured enterprise in the industry which is listed on BSE has been used as a basis for estimation of expected volatility of options.

6. Leases

In accordance with the Accounting Standard (AS) 19, "Leases", the following disclosures are made in respect of operating leases:

- a) The Company has hired motor vehicles on operating lease for a term of up to five years. In respect of these operating leases, the lease rentals debited to the Consolidated Revenue Account are ₹ 6,685 thousands (Previous year ₹ 10,773 thousands).

The terms of the lease agreements do not contain any exceptional/restrictive covenants which will have significant detrimental impact on the Company's financials nor are there any options given

to the Company to purchase the motor vehicles. The agreements provide for pre-decided increase in lease rentals over the lease period and for change in the rentals if the taxes leviable on such rentals are revised.

- b) The Company has taken properties under operating lease. In respect of these operating leases, the lease rentals debited to rent in the Consolidated Revenue Account are ₹ 606,532 thousands (Previous year ₹ 584,336 thousands). The minimum future lease rentals payable under non-cancellable operating leases for specified duration in respect of such leases amount to the following:

10. Derivative contracts:

In accordance with the IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') allowing insurers to deal in rupee interest rate derivatives, the Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

- a) The Company has, during the year, as part of its Hedging strategy, entered into exchange traded Interest Rate Future (IRF) transactions to hedge the

interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Exchange Traded Interest rate futures are standardised interest rate derivative contracts traded on a recognised stock exchange to buy or sell a notional debt security or Government Bond (GOI) or Treasury Bill (T-Bill) of at a specified future date, at a price determined at the time of the contract with an objective to lock in the price of an interest bearing security at a future date.

The fair value for IRF instrument is considered as the daily settlement price on NSE. If the settlement price is not available on NSE, then the daily settlement price on BSE is considered for valuation of IRFs.

Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company uses derivative instrument (IRF) to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, goals and applicable regulations. The

Schedules

Company does not engage in derivative transactions for speculative purposes.

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment.

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The overall policy, risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

The Risk Management Policy and Derivative Policy as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives.

As the IRFs are traded and settled by the recognised stock exchanges i.e. National Stock Exchange or Bombay Stock Exchange, the risk of counterparty failure would not exist, however the following risks pertaining to hedging

using IRFs still exist:

- i) Roll over risk

Futures contracts traded in the markets usually expire in 1-3 months. Since the period for which the hedge is established is longer, it necessitates frequent roll-overs from contracts approaching expiry into new contracts. Roll over risk is the cost involved in rolling over futures contracts. The financial impact of this risk can be reduced by actively managing the roll-over from existing contracts into new contracts.
- ii) Basis Risk

Basis risk is the risk arising out of a mismatch in the tenure of the risk to be hedged and the tenure of available interest rate future contracts. The financial impact of this risk can be reduced to some extent by purchasing futures contracts so as to match the tenure of the risk to be hedged..

Quantitative disclosure on risk exposure in Exchange Traded Interest Rate Futures

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (IRF). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Consolidated Revenue Account.

The tenure of the hedging instrument may be less than or equal to the tenure of underlying hedged asset/liability.

- 3) The Company evaluates the industry exposure limit for exchange traded IRFs against the Central Counter Party i.e. Clearing Corporation in line with the IRDAI circular on Interest Rate Derivatives.

The industry exposure limit has been calculated on the basis of Credit Equivalent Amount using the Current Exposure Method (CEM) as detailed below:

The Credit Equivalent Amount of a market related off-balance sheet transaction calculated using the CEM is the sum of:

 - a) the current credit exposure (gross positive mark to market value of the contract); and

Schedules

- b) potential future credit exposure which is a product of the notional principal amount across the outstanding contract and a factor that is based on the mandated credit conversion factors as prescribed under the IRDAI circular on Interest Rate Derivatives, which is applied on the residual maturity of the contract.

18. Pending litigations

The Company's pending litigations comprise of claims against the Company primarily on account of proceedings pending with Tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for, where provisions are required and disclosed the contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a material adverse effect on its financial results as at March 31, 2016. Refer Note 1 of Schedule 16(B) for details on contingent liability.

19. Long term contracts

The Company has a process whereby periodically all long term contracts are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that adequate provisions as required under any law/ accounting standard for material foreseeable losses on such long term contracts, including derivative contracts have been made in the financial statements.

For insurance contracts, actuarial valuation of liabilities for policies in force is done by the Appointed Actuary of the Company. The assumptions used in valuation of liabilities for policies in force are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the IRDAI.

20. Previous year comparatives

Previous year's figures have been regrouped and reclassified wherever necessary to conform to current period's presentation.
