Primary Education:

Primary Education Initiatives aim at enhancing the Quality of Education. We have two pronged approach. We established and run **Adani Vidya Mandir and Adani Vidyalaya**. Adani Vidya Mandir – Ahmedabad (AVM-A) is a flagship school with a difference; for kids coming from underprivileged background. **AVM-A is providing complete cost free quality education, preparing students for global competition.** Currently, we are replicating this model at two other places Bhadreshwar in Kutch and Surguja in Chhattisgarh transforming lives of more than 1,000 needy students and thereby their families too. At AVM-Ahmedabad first batch of 12th will pass out this year. Seven years of journey has been very rewarding with each child representing one flower blooming experience. AVM- Bhadreshwar is completing second year and development in each child is drastically improved. AVM- Surguja is at threshold of completing one year. Adani Vidyalaya model provides subsidized Education at extremely remote rural locations. Adani DAV Public School at Mundra is an example which has completed 13 years and can boast of many academic and extra-curricular achievements.

Another prong is to extend support to the Government Schools to improve the Quality of Education with special emphasis on Girl Child Education. These Education initiatives aim at enhancing teachers' effectiveness with -

- i) Teacher support in terms of human resource, technology (e-learning soft & hard ware support) and material (teaching learning material);
- ii) Teachers' training, motivation and exposure;
- iii) Increase community participation through parents meet, mothers' meet and empowering School Management Committees;
- iv) Make school environment child centric and conducive to learning through Infrastructure and material support and
- v) Offer wide range of activities such as Bal Melas, science & maths fair, various competitions, talent hunt, education & vocation guidance fair etc. These supports range in three categories. The programme support e.g. Gyan Mitra supports to upgrade quality of education as well as grading of the schools, take remedial classes and work with parents. Second form is material support which includes e-learning software support, uniforms, child friendly furniture reading corners and libraries etc. Third form is infrastructure support. This year major focus was on converting schools to more children friendly and conducive to learning with use of Building as Learning Aid (BaLA) concept. This initiative helps us to ignite minds of large number of students coming from very humble back ground supporting more than 250 schools. All together we have touched lives of 1,29,000 students from 1,400 schools/educational institutes.

Udaan project have inspired more than 41,000 young minds this year to start dreaming and envisioning about their careers. This is a unique project where students get an opportunity to visit and explore Adani Businesses in all three areas Logistics, Resources and Energy at Mundra via meticulously planned exposure tour. The department of Education of the State initiates the request, the schools get scheduled for the exposure visits, all necessary approvals are sought; air-conditioned comfortable bus picks up students from the school, taken to Mundra where State of the art lodging boarding is provided to top the guided tours to Adani Port, Adani Wilmar edible oil Refinery and Adani Power Plant. From the inception of the project in December 2010, more than 1,00,000 students from 1,200 plus education institutions from Ahmedabad, Kutch, Anand, Kheda districts have been benefitted. This project has attracted equal appreciation from students, teachers as well as parents. We will be extending this project to other districts too. There is always a waiting list of two to three months for these visits.

Community Health:

Community Health Initiatives aim at taking basic health care and preventive services to unreached population. This is achieved through Mobile Health Care Units, Rural Clinics and general and specialty camps. Currently, Adani Foundation runs five Mobile Health Care Units reaching to 1.28 Lac patients a year. We are running eight Rural Clinics to bridge the gap in Public Health Care services. Our need based innovative projects include Health card to Senior Citizens and Kidney stone Awareness and Care projects in Mundra, Anemia Reduction Programme at Tiroda and Curbing Malnutrition amongst children and mothers at all sites. Supporting patients coming from marginalized family for health is one way we show care and respect very silently. Adani Foundation very humbly contributed to more than two Lac lives to live healthy.

Health Card to Senior Citizens Project at Mundra needs a special mention as we are completing the pilot phase of three years. The objective of this project was not only to provide much needed health care services but to make them aware about the preventive aspects of health and be proactive. It is a great pride that we bestowed in our team that their committed efforts could cover more than 85% of senior citizens in this project. Learning from this pilot project, project has been modified strategically to make it a universally replicable model.

Our Anemia Reduction Programme at Tiroda is noteworthy too. When we started the programme more than 85% women were anemic while 30% were severely anemic. This is a multi-layered programme with series of interventions. Ongoing awareness creation, counselling for getting Hemoglobin (Hb) checked, supplementary nutrition, kitchen garden support at individual and group level, counselling and demonstrations for healthy food/cooking, empowering of women to use nutritive food themselves and special counselling to women

diagnosed with Sickle Cell Anemia. All together more than 1,100 women have benefitted from these interventions. On an average 50% women/adolescent girls have moved to higher bracket of Hb and 25% women also have maintained their higher Hb level. These interventions were also aimed at and have achieved financial freedom amongst women by selling extra vegetables and improved position in decision making of the family.

Sustainable Livelihood Development:

Sustainable Livelihood development Initiatives range from fodder distribution and fodder cultivation, support encompassing entire life cycle approach to Fisher Folk community for improving Livelihood, Skill & Entrepreneurial Development initiatives such as Crane Operators, checkers, computer plus trainings, Natural Resource Management through Bio-Gas, LPG support and vermi-compost, Cow Based livelihood activities etc. Here beneficiary/community participation and contribution at every step of the process is a key to make it sustainable. We have our own Adani Skill Development center as well as are on Institutional Management Committee (IMC) of numbers of Industrial Training Institutes. During the year, we have been successful in transforming more than 17,725 lives by providing better opportunities to create self-reliant future.

A pilot Project was taken up under Natural Resource Management at Tiroda site i.e. introduction of Bio-Gas in lieu of Fire wood. The major occupation of this area is agriculture and animal husbandry. 50 households are benefitted. Ownership of Bio-Gas plants are given to a lady of the house. Each household has contributed in terms of financial and in kind. We have tie up with Khadi Village Industry Commission for this project for financial subsidy and technical & after service support. On an average two hours' time and energy saved/drudgery is reduced. Five tons fire wood would be saved every year per household and so is smoke produced influencing health of women adversely, 2-3 hours drudgery; that is toil to collect, cut, segregate & clean vessels after cooking is reduced for each woman who participated in this programme leading to their empowerment. Besides all these benefits Bio-Gas slurry is used as manure in agriculture.

Skill Development Initiative of Crane Operator Training and Checkers' Training are appreciated a lot and has almost 80% placement ratio.

1,000 mann fodder support was extended every day for more than 22,800 cattle covering 24 villages in and around Mundra block. 53 farmers' livelihood was strengthened as fodder was directly purchased from them.

Initiatives for Fisher Folk Communities - A special Project:

Interventions to support Fisher Folk Communities have 360 degree approach. Interventions range from facilitating immunizations of pregnant women and infants, Early Childhood Education/School preparedness Programme, Primary and High school Education support, Skill Development of youth, Income Generation activities, Equipment support for making fishing more productive, improvement in living condition, potable drinking water, sanitation, electrification/solar lights, Mobile Health Care units, Health card to senior Citizens etc. Innovative Project of getting Mangrove Nursery Developed and plantation through Fishermen & women has yield very positive results.

In order to upgrade the living condition of Fisherman families to provide them assistance for all season dwelling was initiated in the year 2012 and 121 dwellings were completed with community sanitation facility at Old Mundra Port. The habitation was provided with facilities like all-weather road connectivity, water supply, building for Balwadi, fish landing platforms. This benefitted more than 600 fisher folks.

Rural Infrastructure Development:

Rural Infrastructure Development projects aim at bridging the Gap in existing infrastructure needs without duplicating the Government efforts and thus creating better living conditions. This includes projects in areas of Water conservation/recharge, Drinking Water availability, Education, Health & Hygiene and Community Development related infrastructures in Rural India.

In Water Conservation Efforts total eleven more ponds were deepened increasing water storage capacity by more than 2.60 Lac cubic meter and constructed seven farm ponds benefitting 43 farmers at Tiroda site

For improving accessibility of drinking water 19 bore wells and a water tank were added this year benefitting 65,000 plus beneficiaries.

Three Primary Health Care Centers were constructed at three different sites catering to 32,500 plus people. As a part of Education initiative construction of school building measuring 2,180 sq. mt. area in 8,000 sq. mt. land area was completed for Adani Vidya Mandir at Bhadreshwar to facilitate quality education to under privileged children of fisher folks and rural area of Mundra Taluka. Similarly school building for Village School at Tunda [Taluka Mundra] measuring 436 sq. mt. and school building at Tiroda were completed during the year. Under other Education related infrastructure, we constructed two more Anganwadis, 10 class rooms at various schools and added/improved need based infrastructure at 21 education institutions.

Other community Infrastructure includes five community halls/prayer halls, three Gram Panchayat offices, internal village roads, minor bridges, ghats, shradhdhanjali sheds etc.

Adani Institute of Infrastructure Management (AIIM) caters to the real time need for preparing well equipped professionals for country's Infrastructure Development needs. During July 2013, fifth batch of PGPIM with 19 participants is underway. Adani Foundation is expanding its base with a vision to include AIIM with its future plans.

Gujarat Adani Institute of Medical Sciences (GAIMS) is a unique and first of its kind PPP model in a Health Care Education. The main purpose is to avail State of the art Health Care facility to underprivileged population of Kutch district. Some of the salient features are:

- Only Medical College in Kutch District

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Management's views on the Company's performance and outlook are discussed below:

Economic Outlook

Global economic growth began to recover in FY 2013-14 with much of the impetus coming from advanced economies and is expected to improve further in FY 2014-15. The strengthening in activity was mirrored in global trade and industrial production. After witnessing a decline in GDP growth in two consecutive years, a modest recovery in Indian economy was seen in FY 2013-14. As per the latest estimate of Asian Development Bank, Indian GDP is expected to grow at 5.5% in FY 2014-15. Indian economic growth is likely to accelerate as the reform process continues and begins to bear fruit. The pick-up will be aided by implementation of stalled projects, debottlenecking of the mining sector and a recovery in industry on higher external demand.

Investment demand in India is likely to pick in FY 2014-15. Inflation is likely to be lower and remain in control which will drive the growth of manufacturing activity. The mining sector, industrial sectors are expected to return to growth. Due to El Nino effect, monsoon is going to be moderate in FY 2014-15, which will impact the growth of agricultural sector. Some revival in services growth led by higher exports as well as a positive ruboff from higher industrial growth is expected.

India offers a huge opportunity for investment. There is tremendous scope for the growth of infrastructure segment. The Central and the State Governments are focusing on development and inclusive growth. With several policy measures announced by the Government coupled with seamless execution, focus on process improvement, providing end to end solutions to customer and quality of operation, the Company continues delivery in its focus areas of **Resources, Logistics and Energy**.

Operational Performance

The Company continues to strengthen its competitiveness in the global market and posted an encouraging performance for the year under review.

❖ Resources

India's state enterprises still depends upon coal to fulfill its energy requirement and have struggled to meet the rising energy demand and faced challenges in obtaining the natural resources necessary for growth. This means that more investment in coal mining and infrastructure capacities will be needed in the countries that can fill the emerging coal gap on the Asian continent. It offers security of supply for coal while mitigating price and political risks.

The Company is focused on this sector of national importance and strategically placed to help overcome those challenges through developing and operating mines in India, Indonesia and Australia as well as importing coal and providing end to end solution to the customer.

➤ Coal Mining

Our coal mining business involves mining, processing, acquisition, exploration and development of mining assets.

❑ Coal Mining in Indonesia

PT Adani Global, Indonesia a wholly-owned subsidiary of the Company, has been awarded coal mining concessions in PT Lamindo Inter Multikon and PT Mitra Niaga Mulia (step down subsidiaries) in Bunyu island, Indonesia from which coal is used for the captive consumption in power projects. The Bunyu Mines has Joint Ore Reserves Committee (JORC) compliant resource of 269 Million Metric Tonnes (MMT) for both the mines (i.e. combined). Production during the year 2013-14 has been at 3.12 Million Metric Tonnes (MMT).

❑ Coal Mining in Australia

Our wholly owned step down subsidiaries in Australia have 100% interest in the Carmichael Coal Mine in the Galilee Basin in Queensland, Australia. During the year under review, the Company has undertaken various mine optimisation studies and is currently undertaking bankable feasibility study for the project. The Carmichael Coal Mine has JORC compliant resource of 11.04 billion tonnes of coal. The mine is being developed for producing 100 MMTPA of coal at peak capacity.

❑ Domestic Coal Mining Operations

In India, Government has allotted coal blocks to Central and State Government Companies as part of public private partnership model. They appoint a Mine Developer and Operator ("MDO") to undertake all activities relating to the development and operations of the coal block. The Company has pioneered MDO business in India and has five such Coal Blocks under this business model.

❑ Parsa East and Kente Basan Coal Block

Rajasthan Rajya Vidyut Utpadan Nigam Limited ("RRVUNL") has been allocated the Parsa East and Kente Basan coal blocks in Chhattisgarh. To undertake the MDO operations, the Company entered into a joint venture agreement with RRVUNL to form Parsa Kente Collieries Limited ("PKCL"). This entails development, mining, beneficiation of coal, arranging transportation and delivery of washed coal to end power projects of RRVUNL at Rajasthan.

The project had started Mining Operations and dispatches of coal to Thermal Power stations of RRVUNL in FY 2013-14. For FY 2013-14, Raw Coal Production was 1.19 MMT, Washed Coal Production was 0.97 MMT and Washed Coal Dispatch to Thermal Power Plants of RRVUNL was 0.95 MMT.

❑ Machhakata Coal Block

The Company has been selected as Mine Developer and Operator (MDO), by Mahaguj Collieries Limited, a Joint Venture of Maharashtra State Power Generation Company Limited (MAHAGENCO) and the Gujarat State Electricity Corporation Limited (GSECL) for development and operation of the Machhakata coal block in Odisha. This entails the development of the coal block, mining of coal from the coal block and supplying coal to the designated thermal power plants of MAHAGENCO and GSECL. Preliminary project activities including work on Land Acquisition are at advanced stage.

❑ Parsa Coal Block

Chhattisgarh State Power Generation Company Ltd. (CSPGCL) has been allocated the Parsa Captive Coal Block in Chhattisgarh. The Company has entered into a joint venture agreement with CSPGCL and formed joint venture Company, CSPGCL AEL Parsa Collieries Ltd., ("JVC") in the State of Chhattisgarh. This entails development and operation of the Parsa Captive Coal Block and transportation of coal up to End-use Thermal Power Station located at Marwa, Chhattisgarh. Public Hearing for Environment Clearance has been conducted successfully in the Project area. Application for Land Acquisition submitted and other preliminary project activities are under process.

❑ Chendipada Coal Block

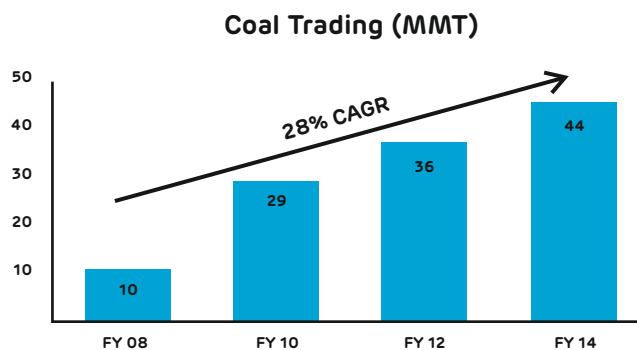

The Company has been selected as Mine Developer and Operator (MDO), by UCM Coal Company Limited, a Joint Venture of Uttar Pradesh Rajya Vidyut Utpadan Nigam Limited (UPRVUNL), Chhattisgarh Mineral Development Corporation Limited (CMDC) and Maharashtra State Power Generation Company Limited (MAHAGENCO) for development and operation of the Chendipada and Chendipada II coal block in the District Angul, State of Orissa. The Company will undertake development and operation of the Chendipada coal block, which includes mining, beneficiation of coal, arranging transportation and delivery of washed coal to end power projects of UPRVUNL, CMDC and MAHAGENCO. ❑ Kente Extension Coal Block

Rajasthan Rajya Vidyut Utpadan Nigam Limited ("RRVUNL") has been allocated the Kente Extension coal block at Chhattisgarh. To undertake the MDO operations, the Company entered into a joint venture agreement with RRVUNL to form Rajasthan Collieries Limited. This entails development, mining, beneficiation of coal, arranging transportation and delivery of washed coal up to end use Power Plants of RRVUNL at Rajasthan.

➤ Coal Trading

The Company remains the largest procurer of thermal coal in India with consistently high volume. As India's power demand soars and the primary source of fuel for power generation still remains coal combined with domestic coal supply scenario, India will be dependent on imported coal for coal fired power generation capacity in future. The Company provides multiple services of procurement and logistics for its customers. The major coal sourcing is from suppliers in Indonesia, South Africa and other locations and supply it to various customers in India.

The Company, through its subsidiaries, has entered into long-term arrangement for uninterrupted supply of imported coal with some of the biggest suppliers in Indonesia. The Company has strong customer base of central and state utilities and private power producers. Coal demand in the country is increasing significantly year on year, which will strengthen the Company's presence in this segment. The Company also continues to improve coal trading business by expanding sourcing network, cost effective shipping and timely delivery at power stations.

➤ Edible Oil and Agro-commodities trading

The Company entered the edible oil refining business through a 50:50 joint venture Company, Adani Wilmar Ltd. ("Adani Wilmar") with Singapore's Wilmar Group. Adani Wilmar has performed remarkably well and has retained its market leadership position in the Indian cooking oil consumer pack segment with market share of more than 19%. (Source: Nielsen RSA Report March 2014).

Each year Adani Wilmar is scaling new heights with tremendous growth in terms of sales volume. With the help of a clutter-breaking brand building campaign and an acute focus on retail level market penetration, in the last year, Adani Wilmar has witnessed a good volume growth in sales of Fortune oil.

With its new offering, Fortune Rice Bran Health oil, Adani Wilmar has successfully created a special niche in the cooking oil market in India. The urban health-conscious Indians are now making an informed shift from other categories of oil that they have been currently using to rice bran oil (Source: Adani Wilmar Research in Delhi, Dec 2013). Fortune Rice Bran Health oil continues to be the unanimous leader in the rice bran oil market barely 17 months after its launch with a volume share of 30%, while the closest competition caters to only 15% of the rice bran oil market (Source: Nielsen ROCP Report - March 2014).

During the year, Adani Wilmar has launched Fortune Besan in selected markets and this year plan is to expand perimeter of those markets while at the same time drilling deeper in terms of further retail penetration. As of now Fortune Besan is doing quite good in the market. There have been good consumer reviews about this product.

❖ **Energy**

India is the 5th largest producer of electricity in the world. At an electricity-GDP elasticity ratio of 0.8, electricity will continue to remain a key input for India's economic growth. Electricity demand is likely to reach 1,354 BU by FY 2016-17 and 1,904 BU by FY 2021-22 whereas peak demand will reach 202 GW & 295 GW over the same period respectively.

For the 12th plan period (FY 13-17), the Government of India has targeted capacity addition of 88,537 MW against which capacity addition of 38,448 MW has been achieved upto FY 2013-14. During FY 2013-14, a capacity addition of 17,428 MW has been achieved which is 97% of the target of 18,432 MW. Private sector contribution accounts for 67% in the total capacity addition during FY 2013-14.

➤ **Power Generation Operations**

The Company's listed subsidiary Adani Power Ltd. (Adani Power) is developing various power projects with a combined installed capacity of 9,240 MW, out of which 8,580 MW generation capacity is operational, comprising of 4,620 MW at Mundra, Gujarat, 2,640 MW at Tiroda, Maharashtra and 1,320 MW at Kawai, Rajasthan.

It is matter of great pride that with the commissioning of the fourth unit of the Tiroda plant in March, 2014, Adani Power has become the largest private power producer in the country. The Company has accounted for 15% of the 17,000 MW of capacity added by developers in India in FY 2013-14.

Adani Power was the first to implement and commission the 660 MW supercritical technology units in India and is currently operating the largest supercritical technology capacity in the country.

The fifth unit of 660 MW at Tiroda is in advanced stages and is expected to be commissioned within the first quarter of FY 2014-15, taking our aggregate generation capacity to 9,240 MW – 12 supercritical technology units of 660 MW each and 4 subcritical technology units of 330 MW each. During the year the Company sold on a consolidated basis 40 Billion units.

Adani Power has strategically sold almost 90% of its net capacity under Long Term PPAs. Envisaging the short term market trends, it has contracted around half of its available merchant capacity under Medium Term PPAs of 3-5 years. This has gone a long way in mitigating the risk of unsold capacity and falling realizations in short term markets.

□ New Development

In June 2013, the Cabinet Committee on Economic Affairs acknowledged the hardships faced by power plants which are forced to meet their requirements through costlier imported coal supplies due to the shortage of domestic coal supplies. Accordingly, they approved coal supplies to a capacity of 76,501 MW projects having linkages and a capacity of 4,660 MW projects not having linkages. Vide their decision, higher cost of imported coal is to be considered for pass through as decided by appropriate regulatory commissions. This also prompted amendments to the National Coal Distribution Policy (NCDP).

Despite facing huge financial losses, the Mundra power plant has been supplying power to the States of Gujarat and Haryana fulfilling its PPA commitments in good faith in interest of the consumers. The Central Electricity Regulatory Commission (CERC) order is a welcome step forward in helping us sustain the operations at Mundra and in maintaining our unflinching commitment to honour PPAs. The order shall mitigate hardships to some extent on account of energy charges.

□ Transmission

Adani Power and its subsidiary i.e. Adani Power Maharashtra Limited have established following transmission lines:

- 1) +/- 500 kv HVDC transmission line of about 990 kms from Mundra, Gujarat to Mohindergarh, Haryana with associated 400 kv lines.

- 3) 400 kv D/C transmission line of about 218 kms from Tiroda, Maharashtra to Warora, Maharashtra.

For better regulatory compliance and efficient and focused management of transmission line business, the Board of Directors of Adani Power approved demerger of transmission line business into a wholly owned subsidiary company. Accordingly, the Board of Directors of Adani Power in its meeting held on 28th December, 2013 approved scheme of arrangement for demerger of its transmission line business and of Adani Power Maharashtra Ltd. into its wholly owned subsidiary namely, Adani Transmission (India) Limited (earlier Adani Transmission (Gujarat) Limited). Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

2. We also draw attention to Note no. 48 of the financial statements relating to excess managerial remuneration of ₹ 6.33 Crores charged to the Statement of Profit and Loss of the current year, against which the Company is in the process of obtaining approval of the Central Government.

The Company has prepared these financial statements to comply in all material respects with the Accounting Standards notified under the Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956 (to the extent applicable) read with General Circular 15/2013 dated 13th September 2013, issued by the Ministry of Corporate Affairs, in respect of section 133 of the Companies Act 2013.
- (b) The accounting policies adopted in the preparation of the financial statements are consistent with those of previous year.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Adani Enterprises Limited

We have audited the accompanying consolidated financial statements of Adani Enterprises Limited ("the Company") and its subsidiaries (the company and its subsidiaries constitute "the group"), which comprise the consolidated Balance Sheet as at March 31, 2014, and the consolidated Statement of Profit and Loss and the consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards notified under the Companies Act, 1956 read with General Circular 15/2013 dated 13 September, 2013, issued by the Ministry of Corporate Affairs, in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and read with our comments in the Emphasis of Matters paragraph below, and based on the consideration of the reports of the other auditors on the financial statements of the subsidiaries referred to below in Other Matter paragraph, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the consolidated Balance Sheet, of the state of affairs of the Company at March 31, 2014;
- b) in the case of the consolidated Statement of Profit and Loss, of the profit for the year ended on that date; and
- c) in the case of the consolidated Cash Flow Statement, of the cash flows for the year ended on that date.

Emphasis of Matter

Without qualifying our opinion:

1. We draw attention to Note no. 40(c) of the Consolidated Financial Statements regarding recognition of revenues in one of the subsidiary aggregating to ₹ 1843.12 Crores on account of compensatory tariff consequent to the favourable order of the Central Electricity Regulatory Commission ("the CERC") dated 21st February, 2014, based on legal advice obtained by the management that the CERC order is enforceable as on date and is in operation and that the company has a good arguable case in support of the CERC order with respect to the appeals filed by the customers against the said order with the Appellate Tribunal for Electricity for the reasons stated in the said note and the assessment by the management that it would not be unreasonable to expect ultimate collection of the amount.
2. We draw attention to Note no. 40(a) of the Consolidated Financial Statements regarding recognition of revenues in one of the subsidiary aggregating to ₹ 177 Crores on account of compensatory tariff as per the interim order of the Maharashtra Electricity Regulatory Commission ("the MERC") dated 21st August, 2013 based on the assessment by the management that it would not be unreasonable to expect ultimate collection of this amount and the reasons for not recognizing revenues, in excess of the aforementioned amount already recognized, during the year based on the final order of the MERC dated 5th May, 2014.
3. We draw attention to Note no. 41 of the Consolidated Financial Statements relating to excess managerial remuneration of ₹ 6.33 Crores charged to the Statement of Profit and Loss of the current year, against which the company is in the process of obtaining approval of the Central Government.
4. We draw attention to Note no. 42 of the Consolidated Financial Statements with regards to the claim receivable from the Insurance Company and outstanding of ₹ 22.54 Crores as on the balance sheet date. The Management of the Company is confident of recovery of the full amount and therefore no provision has been made.
5. We draw attention to Note No. 50 (A)(p) of the Consolidated Financial Statements wherein one of the subsidiary company has not provided for claim against it of ₹ 206.11 Crores considering the fact that the matter being sub-judice, it is not possible to determine the impact of the outcome at this stage. We have relied upon the Company's Representation that since the company is contesting the matter no provision is considered necessary.

Other Matters

- a) We did not audit the financial statements of certain Subsidiaries, Associates and Joint Ventures, whose financial statements reflect total assets (net) of ₹ 120998.96 Crores as at March 31, 2014, total revenues of ₹ 50872.07 Crores and net cash out flow amounting to ₹ 1410.10 Crores for the year then ended. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion is based solely on the reports of the other auditors.
- b) We did not audit the financial statements of certain Foreign Subsidiaries, Joint Ventures and a Foreign Trust, whose financial statements reflect total assets (net) of ₹ 2771.02 Crores as at March 31, 2014, total revenues of ₹ 3138.40 Crores and net cash inflows amounting to ₹ 162.61 Crores for the year then ended. Our opinion is not qualified in respect of these matters.

Notes forming part of the Consolidated Financial Statements for the year ended 31st March, 2014

- 40 a) Adani Power Maharashtra Limited - a subsidiary of the Company, under a long term Power Purchase Agreement ("the PPA") with Maharashtra State Electricity Distribution Company Limited (MSEDCL), committed 1,320 MW capacity from Phase I & II of the Power Plants of the Company at Tiroda, Maharashtra for 25 years, with one of the sources of coal from Lohara Coal Block. Terms of Reference ("TOR") for Lohara Coal Block was withdrawn on 25th November, 2009 by the Ministry of Environment and Forest ("MOEF"). Subsequently, the MOEF in January 2010 confirmed that Lohara Block will not be considered for environment clearance. Thereafter, the group Company sent a notice for termination of the PPA to MSEDCL on 16th February, 2011 and also requested MSEDCL on 11th April, 2012 to return the performance guarantee submitted at the time of bidding.

Based on the aforementioned disputes, the group company approached the Maharashtra Electricity Regulatory Commission ("Commission") on 16th July, 2012 under Section 86 (1) (f) of the Electricity Act, 2003, with a prayer to direct Commission to (a) return the performance guarantee to the Company; (b) without prejudice to prayer (a), in alternate, consider revision in the tariff based on the revised fuel cost. The Commission, vide an interim order dated 21st August, 2013, granted an interim compensatory tariff of ₹ 0.57 per KWH. In response to the review petition filed by MSEDCL against the said interim order, the Commission kept payments of interim compensatory tariff in abeyance till Final Order of the Commission for compensatory tariff is issued although in view of the Management of the company the invoices for the same could be raised. Accordingly, the Company raised invoices on MSEDCL for compensatory tariff amounting to ₹ 177 crores from date of the interim order till 31st March, 2014 and recognised the same as revenue from operation having regard to assessment by the management that it would not be unreasonable to expect ultimate collection of at least the said amount.

The Commission has, after considering the recommendations of a committee appointed for the purpose, vide its final order dated 5th May, 2014, decided that the Company is entitled to the compensatory tariff from the Scheduled Commercial Operations Dates ("SCODs") of the power plants, over and above the tariff agreed under the PPAs entered into for a limited period till the events which occasioned such compensation exists. The compensatory tariff from the SCODs till 31st March, 2014 in excess of the aforementioned amount recognised during the year, is being measured and will be recognised during the year 2014-15 as reasonable certainty to expect its ultimate collection is achieved on the date of the final order.

- b) Adani Power Maharashtra Limited - a subsidiary of the company, had been granted a Licence to develop 400 KV Transmission line from Tiroda to Warora in July 2009 by Maharashtra Electricity Regulatory Commission (MERC). The commission had issued the order for approval of Multi Year Tariff (MYT) Business Plan for the second control period 2012-13 to 2015-16. The company had submitted a petition for approval of Aggregate Revenue Requirement (ARR) as per Multi Year Tariff (MYT) principles. The honorable commission has, subject to fulfillment of certain conditions, approved the ARR and approved a net aggregate revenue requirement for ₹ 146.72 Crores for the year 2013-14. The company has recognized the revenue based on the said order.
- c) Adani Power Ltd.- A subsidiary of the company, under long term Power Purchase Agreements ("the PPAs"), has committed 712 MW capacity each with Uttar Haryana Bijli Vidyut Nigam Limited and Dakshin Haryana Bijli Vidyut Nigam Limited ("Haryana Discoms"), and 1000 MW with Gujarat Urja Vikas Nigam Limited ("GUVNL") in Mundra Plant with a substantially fixed tariff for twenty five years.

The Company had made an application on 5th July, 2012 under Section 79 of the Electricity Act, 2003 to the Central Electricity Regulatory Commission ("CERC") for evolving a mechanism for regulating and revising the power tariff on account of frustration and / or occurrence of "Force Majeure" and / or "Change in Law" events under the PPAs with Haryana Discoms and with GUVNL ("the customers"), due to the change in circumstances for the allotment of domestic coal by the Government of India and the enactment of new coal pricing regulations by Indonesian Government.

Notes forming part of the Consolidated Financial Statements for the year ended 31st March, 2014

The CERC has, after considering the recommendations of a committee appointed for the purpose, vide its order dated 21st February, 2014, decided that the Company is entitled to the Compensatory Tariff from Scheduled Commercial Operation Date (SCOD), over and above the tariff agreed under the PPAs entered into with the customers for a limited period till the events which occasioned such compensation exists. The said order states that the Compensatory Tariff till 31st March 2013 aggregating ₹ 829.75 Crores shall be paid by the customers in equal monthly installments over a period of not more than 36 months from the date of the order and the Compensatory Tariff for the period from 1st April, 2013 onwards shall be determined as per the formula prescribed in the said order. The amount of Compensatory Tariff from 1st April, 2013 to 31st March, 2014 shall be paid to the Company in equal monthly instalments over a period of not less than 12 months from the date of the order and the Compensatory Tariff for subsequent periods commencing from 1st April, 2014 shall be paid on a monthly basis based on claims submitted by the Company.

Subsequent to the above CERC order, the customers have filed appeals with the Appellate Tribunal for Electricity ("APTEL") challenging the CERC order and have also requested APTEL to grant a stay on the enforcement of the order. APTEL has sought replies from the group company and has set the next date of hearing on May 22, 2014. As of date, APTEL has neither granted the stay nor has passed an order setting aside the said CERC order.

The Management of the Company has been legally advised that the CERC order is enforceable as on date and is in operation and that the Company has a good arguable case in support of the CERC order with respect to the appeals filed by the customers against the said order with APTEL considering, inter alia, that:

- (a) Ld. Attorney General of India in his opinion dated 07.08.2012 on the request of Forum of Regulators has opined that "regulate" under Section 79(1)(b) can even take within its ambit regulation/revision in price of rate adopted in Section 63 of the Electricity Act, 2003.
- (b) The CERC has observed that under Section 79(1)(b) of the Electricity Act, 2003, CERC has the power to regulate the tariff of generating companies. Although the tariff of the PPAs are determined under Section 63 of the Electricity Act, 2003 (i.e. competitive bidding), it does not eclipse or take away the regulatory powers of CERC under Section 79(1)(b) and 79(1)(f), to be exercised on the basis of the principles envisaged in Section 61 of the Electricity Act, 2003.

In view of the above, and the assessment by the Management of the group Company that it would not be unreasonable to expect ultimate collection of the amount involved as detailed below, the Management of the Company has recognized aggregate revenue of ₹ 1,843.12 Crores comprising lump sum compensation of ₹ 829.75 Crores towards the Compensatory Tariff till 31st March 2013 and an amount of ₹ 1013.37 Crores being the Compensatory Tariff for the period from 1st April, 2013 to 31st March, 2014 as revenue from operations.

The Company has also filed a similar petition seeking additional tariff with the CERC under another long term Power Purchase Agreement with GUVNL for committed capacity aggregating to 1000 MW. The Management of the Company expects a favourable order on similar lines as the aforesaid order dated 21st February, 2014 considering that the salient facts and circumstances are the same.

- 41** Consequent to the losses during the current year in the Company (AEL), remuneration paid to the Managerial personnel and Directors is in excess of the limit prescribed in section 198 read with Schedule XIII of the Companies Act, 1956, by ₹ 6.33 Crores. The said amount is subject to approval from Central Government and therefore the amount paid is held in trust by the concerned managerial personnel.
- 42** The Company had lodged a claim with the Insurance Company of ₹ 22.54 Crores against inventory loss in past years. The said Insurance Claim Receivable is reflected under Other Current Assets as fully recoverable based on the recoverability status as advised by company's insurance advisors and as per review of the management

Notes forming part of the Consolidated Financial Statements for the year ended 31st March, 2014

- 43** The Group has determined the recoverable amounts of its Cash Generating Units (CGU) under Accounting Standard (AS) 28, Impairment of Assets on the basis of their value in use by estimating the future cash inflows over the estimated useful life of the respective CGU. Further, the cash flow projections are based on estimates and assumptions relating to Contracted/market rates , operational performance of the CGU, market prices of inputs, exchange variations, inflation, terminal value etc. which are considered reasonable by the Management.

On a careful evaluation of the aforesaid factors, the Management of the Group has concluded that the recoverable amounts of the CGU are higher than their carrying amounts as at 31st March, 2014 in most of the cases. However, if this estimates and assumption change in future, there could be corresponding impact on the recoverable amounts of the CGU. The Group has provided for impairment loss in case where recoverable amounts are less than the carrying values.

- 44** Adani Power Rajasthan Ltd (APRL)- A subsidiary company, has been compelled to use costly imported coal due to non availability of domestic coal linkage for generation of electricity. APRL has filed petition with Rajasthan Electricity Regulatory Commission (RERC) for tariff revision to compensate for higher coal cost. The matter is being heard at RERC. However, no financial impact is given in the the books of accounts as matter is not yet finalized.

- 45** The Government of India (GOI) has, vide its letter dated 19th December 2006, granted approval to the Group's proposal for development, operation and maintenance of the sector specific Special Economic Zone (SEZ) for power over an area of 293-88-10 hectares of the Group's land at Village: Tundra & Siracha, Taluka Mundra, Gujarat. In view thereof, all the benefits available to SEZ developer under Special Economic Zones Act, 2005 and Special Economic Zones Rules, 2006 and amendment made there under are available to the Group.

- 46** In an earlier financial year, based on the Memorandum of Understanding ("MOU") signed between Adani Power Ltd (APL)- A subsidiary company and Brakel Kinnaur Power Private Limited ("Brakel"), the Company had given interest free advance aggregating ₹ 288 Crores which in turn was deposited by Brakel with Government of Himachal Pradesh (GoHP) in relation to 960 MW hydro power plant awarded to it by GoHP. As per the MOU, the Company was to become a co-venturer for the project at a later date. In 2009, Brakel had filed an application with GoHP to seek approval to add the Company as a consortium partner, which was not responded by GoHP.

In March 2014, GoHP issued a show cause notice to Brakel for forfeiture of the said deposit / advance amount of ₹ 281 Crores for the losses caused to GoHP due to non-compliance of the terms of the agreement. However, based on legal opinion obtained, the Management of the Company is confident of recovery of the aforesaid amount and, accordingly, no provision has been considered necessary at this stage.

- 47** (i) An appeal has been filed before National Green Tribunal (NGT), New Delhi against Grant of Forest Clearance to RVUNL in respect of Parsa East and Kente Basan (PEKB) Coal Block. NGT has passed its order vide which it has passed direction for setting aside of Forest Clearance, remanding back the case to MoEF and directed stoppage of work at PEKB mine site, where Adani Mining Pvt Ltd - a subsidiary of the company is working as Mine Development Operator. Against the order of NGT, RVUNL has filed appeal before Supreme Court of India which has passed the direction as "We stay the direction in the impugned order that all works commenced by the appellant pursuant to the order dated 28th March, 2012 passed by the state of Chhattisgarh under section 2 of the Forest Conservation Act, 1980 shall stand suspended till further orders are passed by the Ministry of Environment and Forests". Appeal filed by RVUNL before Supreme Court of India is pending for adjudication.
- (ii) Another appeal is pending before NGT, New Delhi against Grant of Environment Clearance to RVUNL. RVUNL has maintained that the said appeal is time barred. NGT, New Delhi has stated that issue of limitation is to be decided at first instance.

- 48** Maharashtra Eastern Grid Power Transmission Company Ltd (MEGPTCL) - a subsidiary of the company, has accounted for Revenue from operation of ₹ 50.24 Crores on the basis of multi year tariff order with Maharashtra electricity regulatory commission for the year ended 2013-14 and includes unbilled revenues accrued upto end of the accounting year.
