

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

THE INDIAN ECONOMY

Fiscal year 2010-11 was a mixed year for the Indian Economy. The economy began the year on a confidential note with high growth which however tapered off towards the closing of the year. Thus the GDP grew by 9.3% in the first Quarter (April-June 2010) which dropped to 7.8% in the last Quarter (Jan-March 2011) accompanied by a steep drop in investment levels. The biggest threat to the growth performance of the Indian economy was the rising inflation. As compared with the last fiscal year 2009-10 in which the performance of the Indian Economy greatly exceeded expectations, it was hard to visualize strong economic growth in the year 2010-11. The implications of this, for India's strategy to return to the 9.0 per cent growth trajectory, are that public policy must promote business confidence and facilitate increased investment.
