PROFILE OF DIRECTORS

CHARLES E.E. DEVENISH

Chairman

Charles Devenish has extensive experience spanning 35 years in mining, with a large range of interests in India, Australia and Burma. He has strong involvement in mineral exploration in Australia and overseas for decades and was the founder and first chairman of two publicly listed companies in the 1980's and 1990's that pioneered diamond exploration in Australia. For 38 years, he was the Principal of Charles Edward Jewellers, one of Australia's leading specialist retail and wholesale outlets with international links in Europe, Middle East and USA. He also acted as an advisor to the Government of Vietnam on the development of that country's gemstone mining and cutting industry. Charles moved to India in August, 2002 and ever since has been actively liaisoning with various Government Departments and providing support and guidance to progress the development of gold exploration and mining industry in India. Charles' active role in exploration and mining projects, his profound knowledge of the mining industry, his extensive corporate background and his concerns for Indian rural development based on mining provide significant and valued input to the Company.

SANDEEP LAKHWARA

Managing Director

Sandeep Lakhwara has several years experience advising junior Australian exploration and mining companies on development strategies. Educated at Curtin University in Western Australia and a member of the Australian Society of Certified Practising Accountants (CPAs), Sandeep has been a principal and partner of several Australian based accounting practices specializing in capital raisings for the mineral industry, financial planning and corporate regulatory requirements for publicly listed companies. He lived in Australia for 25 years, headed various organizations in the past, at times taking small start-ups to fully developed successful businesses, and moved to Bangalore, India during 2002 to oversee the development of the mineral exploration projects in India. He is primarily responsible for the acquisition and growth of Deccan Gold Mines Limited and is the Managing Director of the Company. Sandeep has made various presentations on factors influencing gold pricing, the operation and business model of international mineral exploration companies, and is regularly called upon to contribute articles on the gold mining industry to various newspapers and magazines.

DR. M. RAMAKRISHNAN

Director

Dr. Ramakrishnan is a well known Precambrian Geologist. He was earlier Senior Deputy Director General of the Geological Survey of India. He is a Fellow of the Indian Academy of Sciences and Vice President of the Geological Society of India.

PROF. V.K. GAUR

Director

Professor V.K. Gaur is an eminent geoscientist of this country. He is a former Director of the National Geophysical Research Institute. He is a Distinguished Scientist of the Council of Scientific and Industrial Research and Distinguished Professor at the Indian Institute of Astrophysics.

K.R. KRISHNAMURTHY

Director

K.R. Krishnamurthy is a well known Mining Engineer. He was General Manager of Chitradurga Copper Company and Manager at Ashanti Gold Fields, Ghana for 10 years. He was also Mining Consultant to Bharat Gold Mines Limited and advises many mineral based industries in India and abroad.

KEY PERSONNEL

CHIEF CONSULTING GEOLOGIST

DR. V. N. VASUDEV

Dr. V.N. Vasudev is Chief Consulting Geologist. An INSA Young Scientist Awardee with several years of experience in mineral exploration, Dr. Vasudev has published several papers on the geology structure, gold and sulphide mineralization in Archean greenstone belts of Dharwar Craton. He has also undertaken overseas research in Southeast Greenland and was associated with Russian geologists in a research project on Kolar Gold Fields, India. He was with Government of Karnataka, Department of Mines and Geology as a Senior Geologist and Mining Geologist of Chitradurga Copper Company Limited. He has carried out extensive literature research and field reconnaissance throughout India for the Company. Dr. Vasudev has several new mineral discoveries to his credit including the Ganajur Gold deposit in Karnataka during the Reconnaissance stage.

GEOLOGICAL CONSULTANT

S. C. R. PESHWA, FGS (LOND)

Mr. Peshwa has nearly 30 years of experience as a mining and exploration geologist and specializes in gold exploration and resource modeling studies. He worked as a Mining & Exploration Geologist for 13 years with Bharat Gold Mines Limited. He has the distinction of working in the world famous Champion Reef Mine and carried out detailed exploration of Champion lode system both in deep and shallow levels. This has resulted in delineating new parallel lodes of the Champion Lode system. From 1996 to 2002 he worked as a Project Manager with ACC Limited and was involved in exploration of gold and other minerals. He successfully carried out gold prospecting in the Red Sea hills region of Sudan. Mr. Peshwa is responsible the DGML's Gold Projects and has implemented different exploration methods as per international standards. Mr. Peshwa is an RQP awarded by Indian Bureau of Mines. Being a Fellow of Geological Society of London, he also qualifies as a competent person as defined by the JORC Code.

GEOLOGICAL CONSULTANT

DR. M. K. DEVARAJAN

Dr. Devarajan guides the exploration activities in respect of some gold exploration projects of the company. He was with the Geological Survey of India for 17 years and while in GSI, had carried out geological mapping and exploration for copper in the extension areas of the world class Malanjkhand of Central India. He had also carried out exploration for manganese in the Sausar belt and for gold in the Mahakoshal belt. He also led the investigations for the site selection studies of a Nuclear Power Plant in the Ratnagiri District of Maharashtra.

GEOLOGICAL CONSULTANT

DR. M. HANUMA PRASAD

Dr. Hanuma Prasad has 15 years of experience as Exploration Geologist. Earlier he worked for Geological Survey of India for 8 years as a Geologist. He has carried out geological mapping and mineral resources assessment particularly gold, copper and nickel in the supra crustel belts in parts of Mahakoshal belt, Betul and Sakoli belt in Central India. He has several important publications to his credit.

CONSULTING MINING ENGINEER

MR. DEEPAK VIDYARTHI

A qualified Mining Engineer, Mr. Deepak possesses over 36 years of experience in the mining industry which include 3 years with NMDC Limited as Executive Director, 11 years in the Kudremukh Iron Core Co Ltd and 21 years with the Kolar Gold Mines. He also holds a First Class Mine Managers' Certificate of Competency to manage a Metalliferrous Mine. Mr. Deepak has got rich experience in the field of mine production and planning,

project management, mine construction, mechanized mine development etc. Mr. Deepak is widely travelled and has got several presentations / publications to his credit.

HEAD-LEGAL & COMPANY SECRETARY

MR. S. SUBRAMANIAM

Mr. Subramaniam is an Associate Member of the Institute of Company Secretaries of India and a Law Graduate. He has 17 years of experience in the field of Company Law and other corporate laws. During his career, he has handled mergers, amalgamations, joint ventures, foreign collaborations etc., He is in charge of the legal and company secretarial matters and also functions as the Compliance Officer of the Company.

REPORT ON EXPLORATION ACTIVITIES

DHARWAR-SHIMOGA GOLD EXPLORATION PROJECT, KARNATAKA STATE

This Project area forms part of Archaean Western Dharwar Craton in the State of Karnataka. Deccan Exploration Services Private Limited (DESPL), a wholly-owned subsidiary of Deccan Gold Mines Limited (DGML), explored an area of 5.660 sq km of the Dharwar-Shimoga Greenstone belt covered under 3 RP blocks and identified 22 gold prospects (Fig-1, 2). Gold mineralization in all the prospects is hosted within sulphidic banded ferruginous chert. Prospects around Dharwar towards north (Dharwar Cluster) and Haveri in the south (Ganajur-Karajgi Cluster) are considered as significant discoveries. Seven (8) Prospecting License (PL) and two (2) Mining Lease (ML) applications, covering all the important prospects of Dharwar-Shimoga basin, were filed. The Ganajur-Karajgi PL, within the southern Ganajur-Karajgi cluster, was granted in the year 2009. The Mangalagatti PL, which is located in the northern Dharwar Cluster, has been granted in the year 2013 and the execution process is underway. The remaining applications are under various stages of processing. The updates on the Dharwar-Shimoga Belt Projects are presented below:

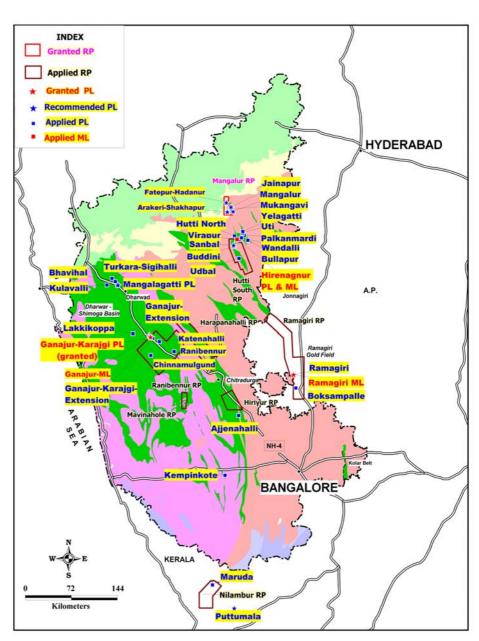

Fig.1: Geological Map of Karnataka, Kerala & A.P. Showing DGML - related applications, one granted PL and one recommended ML. The status of applications is provided in a Table on page 20.

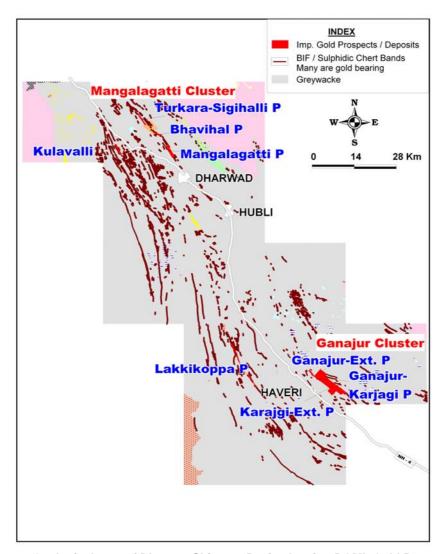

Fig-2: Geological map of Dharwar-Shimoga Basin showing DGML Gold Prospects.

GANAJUR MAIN GOLD DEPOSIT & ITS SATELLITE PROSPECTS IN THE SOUTHERN GANAJUR – KARAJGI CLUSTER

DESPL holds a Prospecting Licence (PL) over an area of 2.2 sq.kms in the Ganajur – Karajgi block since 2009. The Ganajur – Karajgi PL block covers the Ganajur Main gold deposit and several satellite gold prospects, viz., Ganajur East, Ganajur South, Ganajur South East, Ganajur Central, Karajgi Main, Karajgi East and Hut prospects (Fig. 3). The initial 3 year PL period is completed and DESPL has submitted application for renewal of the same for an additional two years. As it is considered to be "deemed renewal", DESPL continues to carry out further exploration in the PL block.

During the initial 3 year period, the PL Block has been explored by using multi disciplinary techniques as per international standards. The exploration work carried out included systematic geological mapping, geophysical surveys and several phases of Diamond Core & RC drilling. These exploration efforts have resulted in upgrading

the project in terms of resource and overall value, particularly the Ganajur Main Gold Deposit. Summary of the work carried out during the initial 3 years of PL tenure is given in table-1:

GANAJUR MAIN GOLD DEPOSIT:

Ganajur Main Gold Deposit is situated in the northwestern part of the Ganajur – Karajgi PL (Fig-3). Ganajur Main Deposit has been the key project of DESPL ever since its discovery and hence the project attracted continuous attention in terms of exploration and upgradation.

As reported previously, DESPL Commissioned SRK Mining services (India) Private Limited (SRK) to prepare a mineral resource estimate as well as the Preliminary Economic Assessment of the Ganajur Main Gold Deposit based on the available exploration data. SRK estimated a JORC compliant total resource of 308,000 Ounces of gold, out of which 301,000 Oz is categorized under Indicated and the rest under Inferred category (Table–2). The resource has been estimated up to a depth of 120m.

Table 2- Mineral Resource statement of Ganajur Main Gold Deposit

The Scoping study carried out by SRK addressed the mine optimization, process design, waste disposal and management plans, site lay out and infrastructure, capital /operating expenditure estimates, project economics (including key risks and opportunities) and future work programme. The Study has revealed that project economics is technically and economically viable that could be improved upon considering the fact that there are a number of highly prospective gold bearing targets in the PL block with distinct possibilities of adding to the existing mineral resource. SRK's scoping studies have demonstrated that at a sustainable gold price greater than USD850/oz, the Ganajur Main Project has the potential to be developed into a viable open-pit mining operation. The key aspect of the scoping study was cash flow projection and project valuation.

A valuation of the Project has been derived based on the application of Discounted Cash Flow (DCF) techniques. In summary, at an Au price of USD1250/oz and a 10% discount rate the project has an NPV of USD37.39M. Sensitivity analysis of the project at different gold prices is given below:

Mining Lease under approval of the Ministry of Mines, New Delhi:

DESPL has lodged a Mining Lease application over 0.29 sq.kms covering the Ganajur Main Gold deposit and its extensions. This application is currently awaiting approval of the Ministry of Mines, Government of India (MoM) after it was recommended by the State Government of Karnataka (SG).

The Indian Bureau of Mines (IBM) has validated the gold resources for the Ganajur Main Gold Deposit under UNFC

guidelines. IBM has reported to the MoM that the economic viability of the Ganajur Project has been established and that the deposit could be classified under the UNFC 121 category, as an "Economic Probable Mineral Reserve" category.

Further work in the Mining Lease Area:

DGML has made all out efforts to speed up the implementation of the project while the approval of the ML is awaited. Additional works carried out in this respect include a) Preparation of Mining Plan b) Environmental Impact Assessment (EIA) and Management Plan (EMP) studies as per Terms of Reference issued by the MOEF c) Hydrogeological survey to locate water resources for the gold processing plant and mine operations, d) consultations with leading metallurgical and process engineering groups e) Submission of application to the KIADB for land acquisition and d) Geophysical studies and additional drilling in the Ganajur Main as well as the satellite prospects to enhance the overall resource.

Preparation of Mining Plan:

DGML is in the process of giving final touches to the Mining Plan for the Ganajur Gold Project. As per Rule 22(4) of MCR-1960, once the ML application is approved by the Ministry of Mines and a Letter of Intent (LOI) obtained from the State Government, a Mining Plan has to be submitted to Indian Bureau of Mines. Such an IBM approved Mining Plan is necessary for the final grant of Mining Lease by the State Government. It is to be noted that the Ganajur Main Gold deposit would be an open pit mine operation, as shown in Fig. 4.

GANAJUR GOLD ORE BODY & PROPOSED OPEN PIT MINE DESIGN

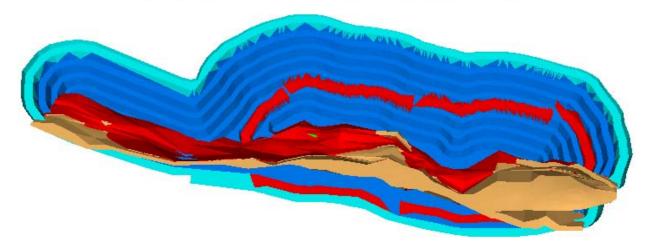

Fig-4 : Ganajur Main Ore Body open pit mine design

Approval of TOR and EIA studies:

The Expert Appraisal Committee (Industry) constituted by the Ministry of Environment and Forests has accepted our application for TOR for the proposed 2000 tpd Ganajur gold ore Processing Plant. The committee while granting the TOR has prescribed additional terms of reference for preparing a detailed EIA/EMP report. The proposal was considered during the EAC meeting held 0n 5th March 2013 at New Delhi.

Share holders may be reminded that earlier the State Level Expert Appraisal Committee, Karnataka had already accepted our application for TOR for the proposed 2000 tpd Ganajur gold ore mine. DGML therefore has the TORs granted for both the Ore Processing Plant and the Gold ore Mine. The company has appointed B.S.Envitech a highly reputed Environmental Consultant for undertaking the Environmental studies and preparation of EIA and EMP

Fig-5: Dust, Soil, Water & Noise Sample Collection

report for both Ganajur Gold mine and the proposed plant. We are happy to further inform that detailed Baseline Environmental data collection have been completed for the season March-May 2013 (Fig.5).

The draft EIA/EMP report is being prepared and will be submitted to the State Pollution Control Board at the appropriate time

Hydrogeological Survey:

DESPL completed a detailed hydro geological studies in and around the project area as per the TOR and guidelines prescribed by the MOEF. The studies include ground water potential, aquifer characteristics, rainwater harvesting measures, Sources of water (river, ground water, mine water, other surface water), their requirement and utilization for the project at different stages. DESPL has appointed a senior consultant to undertake these studies.

DESPL has identified the Varada river located at a distance of 4.0 kms from the proposed mine as a potential source for the project. The State High Level Clearance Committee (SHLCC) has approved our request for drawing the water from Varada River. However a judicious tapping of ground water is also considered as an alternative to the Varada river if need arises. Thus the detailed ground water study undertaken would be helpful to identify potential water resources in and around the Mining Lease area.

As part of this study, a detailed Resistivity Geophysical survey was carried out for locating suitable points with ground water potential. A total of 84 points were surveyed using Vertical Electrical Sounding (VES) method (Fig-06). The data from these studies indicate ground water potential areas that would be useful for the project.

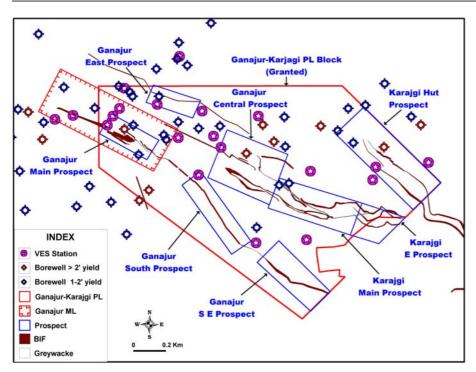

Fig-6: Map showing ground water survey locations in Ganajur – Karjagi PL area.

Metallurgical Plant and Process Design:

DGML has initiated discussions with leading Gold ore processing and engineering groups to understand and finalise a suitable process route for recovering the gold efficiently keeping in mind environmental and economic aspects. The possible process routes suggested include, Pressure Oxidation (POX), Biological Oxidation (BIOX), Calcination and CIL leaching. Conventional CIL leaching and ultrafine grinding and leaching.

DGML will be appointing a leading group to undertake a prefeasibility study to cover all these aspects while addressing CAPEX and OPEX parameters.

Government of Karnataka's approval for land acquisition:

DESPL has received a Government Order (G.O.) after the State High Level Clearance Committee (SHLCC) cleared our request for allotment of 200 acres of land for the Ganajur Main Gold Mining and Ore Processing Plant. The G.O. has approved DESPL's request for additional 55 acres of land from 145 acres to 200 acres at Ganajur Village in Haveri District, Karnataka for the proposed gold mine and processing plant.

The G.O. has also facilitated land acquisition process through Karnataka Industrial Areas Development Board (KIADB), for which DESPL has submitted application to the KIADB in March, 2013. KIADB had asked DESPL to obtain consent letters from 70% of the land owners, which is a pre-requisite as per the guidelines of The Government of Karnataka. Accordingly, DESPL has obtained this consent from land owners and submitted the consent to KIADB in august, 2013. It may be mentioned that, DESPL's long term lease agreement with land owners of the proposed gold mine will be an added advantage in the land acquisition process.

UPDATES ON EXPLORATION

A detailed drilling programme of 8000 metres covering Ganajur Main, its extensions and the surrounding satellite prospects have been planned during the coming months. We are in the process of finalizing the drilling contract. The drilling programme will include metallurgical and geotechnical drilling apart from finding additional resources in Ganajur Main and adjoining prospects.

Highlights of the key prospects that were explored by DESPL are presented below:

Ganajur Main Deposit:

Ganajur Main Deposit is the most important discovery of DESPL which was explored in detail by multi disciplinary exploration techniques as per international standards during the initial 3 years of exploration under PL. More than 4000 metres of drilling was accomplished using a combination of Diamond Core and RC drilling methods. Most of the drill holes passed through wide zones of sulphide mineralization containing significant amount of gold. The average grade and width of mineralized zones intersected in the drill holes are furnished in the following Table-4.

As reported SRK has estimated an overall resource of 308,000 ozs of gold as per JORC standards of which > 90% is classified under indicated category.

Ground Geophysical Survey and deep drilling:

As per the latest available data, Ganajur Main Deposit can be mined through open pit upto a depth of 120m and such an operation would last for about 5 years. However, the geophysical survey and drilling that was carried out during RP and PL period, indicated considerable potential to find additional resources in the deeper part of the Ganajur Main Deposit and also in the satellite prospects around it. With a view to further confirm the potential in and around Ganajur Main Prospect, DESPL undertook detailed Ground geophysical Survey.

The geophysical survey with a combination of Transient Electromagnetic Survey (TEM) and Induced Polarization (IP) survey was used to delineate conductive zones and also to locate geological structures favorable for hosting gold mineralization in the entire Ganajur –Karajgi PL Block. As informed earlier, a total of 17.4 line kms of IP survey was completed which defined a major resistive feature in the southern half of the survey area. The IP survey has also clearly brought out a 2.8 km long, strong linear Chargeability anomaly with high resistivity background, which encloses the 600 metre long Ganajur Main Gold Deposit. This clearly indicates that the gold mineralization of the Ganajur Main deposit could now probably extend for nearly 2.8 kms (Fig-7). The 2D Inversion model also indicates that the Ganajur Main ore body and its extension may continue beyond 150metre depth. The Geophysical IP

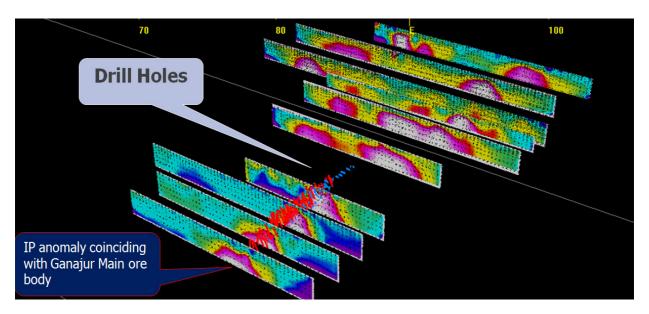

Fig-7: Stacked 2D IP inversion models showing Ganajur Main ore body

survey has been very successful in tracing new zones of possible gold mineralization, which correlates well with world class gold deposits with multimillion ozs of gold resources.

To test the results of Geophysical survey, DESPL carried out a limited diamond core drilling in the Ganajur-Karajgi PL Block which included 3 deep holes in the Ganajur Main deposit; 2 holes at Karajgi Main Prospect and one in the Ganajur South East Prospect.

Exploratory drilling for testing the deep seated IP anomaly in Ganajur Main Prospect was quite positive. All the drill holes passed through the gold-bearing rock indicating the depth-ward extension of Ganajur Main Ore body. Best drill intersection Include 1.5m @ 0.60 to 4.39 g/t and 2m @ 0.22 to 2.52 g/t of Au. With this significant information DESPL plans to undertake further drilling for exploring the possible deep seated gold resource.

KARAJGI MAIN PROSPECT:

Karajgi Main comprises of a southern auriferous BIF which has a drilled resource of 90000 tonnes averaging 2.23 g/t Au and two sulphidic chert bands towards the northern slope area designated as bands A and B. Number of old workings are noticed all along these chert bands. DESPL carried out RC drilling to explore the Chert bands A and B located on the northern slope.

Encouraged by the earlier RC drill results, DESPL completed 2 diamond core drill holes at Karajgi Main prospect in order to test the geophysical IP anomaly and also to understand structural controls of gold mineralisation. Out of two holes drilled at Karajgi Main Prospect, KMC-01 intersected two significant zones of gold mineralisation. The first one is 5.0 m thick which passed through between 45.50 to 50.50m averaging 7.43 g/t. gold including a high value of 33.60 g/t. The second zone is 9.0 m thick and was encountered between 71.1 and 80.1m averaging 3.19 g/t gold. The results from

Fig-8: Old Working from Karajgi Main Prospect, Ganajur-Karajgi PL, Haveri District, Karanataka.

Karajgi Main Prospect has confirmed the existence of high grade gold bearing zones and distinct possibility of finding additional resources (Fig. 8).

GANAJUR SOUTH EAST PROSPECT:

Ganajur southeast prospect (GSEP) is located around 1.2 km SE of Ganajur Main prospect. Exploration under

Fig-9: Mineralized BIF exposed Ganajur SE, Ganajur-Karajgi PL, Haveri District, Karanataka.

various stages resulted in delineation of a mineralized zone over a length of 455 metres. The exploration data suggests that the NW portion was found to be more promising that prompted DESPL to undertake 576 meters of R.C. drilling involving 12 drill holes and 171 samples. Significant intersections were obtained that included gold value of 6.23 g/t over 15.0m width in one of the drill holes.

Recent IP survey had indicated significant chargeability anomaly extending for nearly 2.8 kms that included Ganajur SE prospect. DESPL drilled one test diamond drill hole to understand the structural control of gold mineralization. This test drill hole passed through 2 zones of gold mineralisation; the first one of 3.60m @ 1.85 g/t gold between 39.40 to 43.0m depth and the second of 1m thickness yielding 2.5 g/t gold between 52.50 to 53.50m depth. The latest drill results and the previous data in Ganajur-SE prospect suggest the possibility of finding additional resource in the PL block (Fig-9).

DHARWAR CLUSTER

Mangalagatti and Bhavihal Prospects:

Mangalagatti and Bhavihal prospects are located 12 to 20 kms north of Dharwar city. They form part of the 'Dharwar Cluster' of gold bearing sulphidic Chert bands. The Dharwar cluster comprises of Mangalagatti SE, Mangalagatti

Main, East and Bhavihal prospects (Fig-10). All these are considered as highly potential like the Ganajur-Karajgi cluster near Haveri. DESPL's application of Prospecting License over an area of 4 sq.kms and covering the Mangalagatti Prospects was approved by Ministry of Mines and Government of Karnataka issued grant order in the month of October, 2012. Subsequently, the Secretary, Department of Commerce and Industries, Government of Karnataka, asked Department of Geology and Mines (DGM) to submit a report on the exact boundaries of the granted PL area. Accordingly, DGM has completed the land survey and is about to submit the report to the Secretary, subsequent to which the PL will be executed.

Initial exploration during the RP tenure in the Mangalagatti SE prospect by RC drilling and channel sampling had revealed significant gold mineralization. Gold mineralization is hosted by southeasterly plunging folded banded iron formation. Two auriferous zones extending for nearly 500 metres over a width of 30 metres were defined. An ancient working and adjacent pounding marks indicates ancient mining activity in the area. An inferred resource of 1.5 million tonnes@ 1.63 g/t Au was estimated based upon results of shallow RC drilling programme.

DGML conducted Induced Polarization (IP) survey in the PL block to identify the existence of possible mineralised zones in addition to those already explored. The IP survey was carried out on 12 lines by dipole-dipole configuration at 50 to 100 m dipole spacing involving 19.7 line kms.

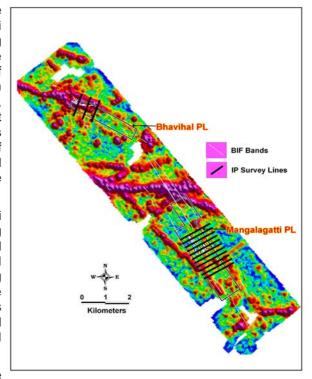

Fig-10: Magnetic image with IP profiles of Mangalagatti-Bhavihal prospects.

The IP survey revealed a 300 to 400 metres wide, broad based chargeability anomaly suggesting that the mineralization is controlled by a folded structure (Fig-11). More interestingly the IP anomaly has been traced all along for a distance of 2.0 kms and the anomaly is still open. Further, the survey indicates that the IP anomaly continues to greater depths below 200 metres with sharp increase in the intensity of the anomaly. The new findings suggest a large system of possible gold mineralization that warrants more exploration by drilling. DGML will undertake a drilling programme once the PL is executed.

BHAVIHAL PROSPECT:

Is located at a distance of 8 kms NW of Mangalagatti prospect. Preliminary channel sampling followed by RC drilling during the RP tenure had clearly brought out surface expression of a wide ore body hosted in cherty BIF. The limited RC drilling was also intended to examine open pittable resource similar to Mangalagatti SE prospect. As a result of this preliminary investigation an area of 400 metres was delineated and an inferred resource of 74,000 oz of Au was estimated averaging 1.76 g/t. A preliminary IP survey was initiated on 3 lines to understand the IP signature. It is very encouraging to note that all the three lines have brought out two moderate chargeability anomalies with co-incident resistivity highs. With this positive information, it is planned to go ahead with additional IP survey

to explore the depth and strike continuity of the mineralization.

Hutti - Maski Belt Projects

Hutti Maski Greenstone belt is one of the most important Archaean gold bearing belts in India. The Hutti-Maski belt hosts world class Hutti Gold deposit that is being mined by The Hutti Gold Mines Limited. DGML has carried out exploration over an area 851 sq km in the Hutti Belt, which has resulted in identifying 21 gold bearing blocks. A total of 12 prospecting licenses (PLs) applications covering the 21 gold targets and 1 Mining lease (ML) application in Hirenagnur have been filed with the Karnataka State Government (Fig. 12) .

Our shareholders are aware that DGML is contesting the Order passed by the Hon'ble High Court of Karnataka in the month of April, 2012 favouring Hutti Gold Mines Limited (HGML) regarding the Hutti Belt projects. A Special Leave Petition (SLP) was lodged in the Hon'ble Supreme Court of India, which was admitted in the month of July, 2012. While admitting the SLP, the Hon'ble Supreme Court has also observed that the final decision on the grant of the PL's over Hutti Belt, to be made by the Central Government, shall be subject to the outcome of the present SLP. It is to be noted that the Ministry of Mines also filed an SLP on 7th of September, 2013 against the Karnataka High Court Order. We remain confident of the outcome restoring our rights over the Hutti Prospects.

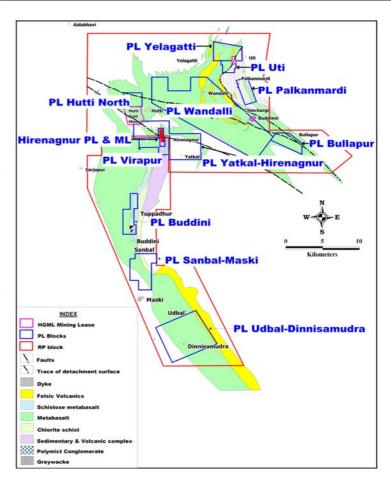

Fig.12: Geological map of Hutti-Maski Greenstone Belt showing the key gold prospects and applied tenements

Due to delays in grant of PLs, DGML was unable to undertake further detailed exploration in the Hutti-Maski belt. The details of prospects explored under the RP have been presented in the previous annual reports.

RAMGIRI BELT PROJECT:

The Ramagiri belt forms the southern half of the Ramagiri-Penkacherla greenstone belt falling in Andhra Pradesh. Ramagiri is located 40km south -southeast of Anantapur and 180km due north of Bangalore. It is one of the important gold-bearing greenstone belts of the Eastern Dharwar Craton (Fig. 13).

DGML, through its associates, held the Ramagiri RP block which contains the 13 km long Ramagiri Gold Field (RGF). This area experienced intensive underground mining activity by the Britishers in the early part of the last century. Three main mining ventures in this tract produced about 176,338 ounces of gold at a recovered grade of around 15 g/t from high-grade veins in the years 1910 to 1927. Until April 2001, the Government of India owned Bharat Gold Mines Ltd. (BGML) was operating the underground Yeppamana Mine in the RGF.

DGML during its RP tenure, defined two prospective blocks for further exploration that are covered under PL applications. The details of the PL blocks are given below:

- 1) Ramagiri Gold Field block (RGF) -20 sg km area
- 2) Boksampalle block -17 sq km area

PL applications are under processing with the Government of Andhra Pradesh, hence no exploration work has been carried out in this year. Details on the work carried out in these prospects have been provided in the 2012 Annual Report.

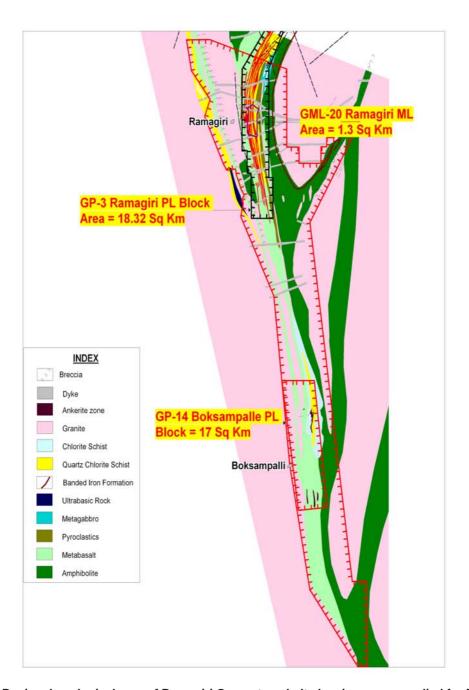

Fig-13: Regional geological map of Ramagiri Greenstone belt showing areas applied for PL & ML.

MANGALUR- JAINAPUR RP BLOCK

The Government of Karnataka granted Mangalur-Jainapur Reconnaissance permit over an area of 243.34 sq.kms and the same was executed on 30-6-2010. This RP block covers the western portion of the Mangalur greenstone belt and comprises of granitic rocks and sediments of Bhima Basis, DGML as part of the Reconnaissance reviewed all the historical data followed by Remote Sensing studies, Stream Geochemical sampling, Ground Magnetic Survey and follow up geological traverses.

The results of the exploration did not indicate any signs of gold mineralization and it looks like that gold mineralization is only confined to the Mangalur Greenstone Belt located towards eastern side of the RP Block that was previously explored by DGML with positive results.

However during the course of exploration DGML identified extensive deposits good quality limestone with in the RP area. The flat bedded good quality limestone of Arakeri-Yadahalli-Kachakanur ridge in particular looks good for manufacture of cement with 48-53% CaO content. Based on these findings two Prospecting Licence applications were submitted for limestone, Au and other minerals covering areas of 60 and 30 sq,kms respectively (Fig-14).

DIRECTORS' REPORT

Dear Shareholders.

We have pleasure in presenting the Annual Report on the business operations of the Company along with the Statement of Audited Accounts for the year ended 31 March, 2013.

1. FINANCIAL RESULTS

| Particulars | (Rs in '000s) | | |
|--------------------------------------|---------------|----------|--|
| | 2012-13 | 2011-12 | |
| Total Income | 1,571 | 3,028 | |
| Profit/(Loss) before Taxation | (10,205) | (10,618) | |
| Profit/(Loss) after Tax | (10,205) | (10,618) | |
| Balance brought forward | (53,262) | (42,644) | |
| Balance transferred to Balance Sheet | (63,466) | (53,262) | |

During the year, the Company incurred Rs. 94.85 lac on exploration activities and Rs. 115.10 lac on administrative and other expenses. The cumulative amount spent on exploration activities of Rs. 1062.51 lac as on 31 March, 2013 has been transferred to pre-operative expenses.

2. BUSINESS OPERATIONS AND OUTLOOK

For full details on the operations of the Company during the period under review, please refer the segment titled "Report on Exploration Activities" and the segment titled "Status of important applications for Reconnaissance Permit (RP) / Prospecting Licence (PL) / Mining Lease (ML)" published elsewhere in this Annual Report.

In line with the jurisdictions across the world, the Indian Government initiated several measures including introduction of Mines and Minerals (Development & Regulation) Act, 2011 (MMDRA) with the objective of reforming the mining sector. The MMDRA continues to await the approval of the Indian Parliament. The Parliamentary Standing Committee before whom the MMDRA was referred for review has submitted its Report to the Parliament.

However, the areas of concern continue to be introduction of a complex system of grant of exploration licences; huge increase in fee and security deposits for exploration and prospecting operations; auctioning for grant of prospecting licences and mining leases in respect of under-explored areas; and introduction of a financial contribution equivalent to Royalty payable by the Mining Lease holders into the District Mineral Foundation etc., Further, the mining sector also needs to address the issues arising out of the Land Acquisition Act, 2011 which prescribes the compensation to be paid on land acquisition for industrial purposes.

It may be observed that the National Mineral Policy of 1993 was updated with a new Policy in 2008 which clearly incentivizes private sector investment in exploration and its seeks to ensure increased transparency in allocation of mineral concessions; gives thrust on building infrastructure for mining and seeks to promote R&D in minerals and establish education facilities for human resource development.

The global mining trends and the reactions of the various Governments point to a case for India to fast-track adoption of progressive policy measures for the mineral exploration and mining sector. The Company keenly awaits and expects that the final version of the MMDRA would positively address the concerns expressed by the Company and the industry associations like FIMI.

A detailed write-up on "Outlook and Opportunities" for the mineral exploration sector in general forms part of the section "Management Discussion and Analysis Report" published elsewhere in this Annual Report.

3. OFFER FROM GEOMYSORE SERVICES (INDIA) PRIVATE LIMITED

During August, 2013 the Company was approached by Geomysore Services (India) Private Limited (GMSI), a Bangalore-based gold exploration company for being taken over as a wholly-owned subsidiary. The Board of

Directors considered the offer of GMSI and advised undertaking of a due diligence on GMSI. The due diligence exercise has been completed and the Company is evaluating various options in this regard in consultation with its legal and taxation advisors to structure the transaction in a manner that best serves the interest of all stakeholders.

It may be noted that GMSI is an unlisted private limited company that has been actively engaged in exploration activities in India since 1994. GMSI's large portfolio of mineral concession applications and licences, covers most of the important gold bearing Archaean and Proterozoic belts of India. GMSI's assets include a granted and executed Mining Lease in respect of its Jonnagiri Gold Project in Andhra Pradesh.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INTRODUCTION

Established in 2003 by promoters with deep roots in the exploration and mining sector, Deccan Gold Mines Limited (DGML) is the first and the only gold exploration company listed on the Bombay Stock Exchange Limited (BSE). DGML brings to India, a wealth of international technical know-how and experience in the gold exploration and mining sector. Since its establishment, DGML has actively pursued gold exploration activities in all of its exploration prospects that resulted in identification of probable gold resources at several locations. DGML now has a large portfolio of exploration prospects in the States of Karnataka, Andhra Pradesh and Rajasthan.

Details on the results of DGML's exploration work has been provided under the heading "Report on Exploration Activities".

A comprehensive list of the prospects acquired by DGML and its 100% owned subsidiary Deccan Exploration Services Private Limited (DESPL) has been provided under the heading "Status of important applications for RP / PI / MI".

It must, however, be appreciated that exploration companies, have long gestation periods between exploration and discoveries, to which DGML is no exception. This gestation period has been further impacted by the delays in grant of permits by the Government authorities.

INDUSTRY REVIEW

Contribution of mining sector to India's GDP has been stagnant at around 1.2% over the last decade. The Indian mining sector grew at a CAGR of 7.3% in the last decade compared to 22% in China for the same period. The percentage of population employed in mining sector in India is only 0.3% as compared to 3.8% in South Africa, 1.4% in Chile and 0.7% for China. Employment in the Indian mining sector has grown at a rate of about 3% per annum over the last 10 years. (Source: Ministry of Mines, Government of India).

Recent global trends indicate that there is a rising demand relative to supply and increasing cost of mining leading to an increase in commodity prices. Replenishing mineral reserves has become more difficult due to declining ore grades and additional challenges such as inadequate infrastructure and human capital, critical to support the growth of the sector. Consequently, we see heightened exploration activity with companies increasingly getting into new geographies like Africa. The Governments worldwide are adopting progressive policy measures to boost mining and mineral exploration in their countries. The Indian Government, too, has initiated several measures like the new mining legislation (still awaiting the approval of the Indian Parliament) and Sustainable Development Framework. The mining and mineral exploration industry keenly awaits the legislative and regulatory initiatives from the Government to promote private and foreign investment and introduction of internationally compatible mining policies.

PERFORMANCE

Full details of exploration work undertaken by the Company are contained in "Report on Exploration Activities" forming part of this Annual Report. The status of our applications is contained in this Annual Report under the heading "Status of important applications for RP / PL / ML".

DGML incurred a total expenditure of ₹ 1062.51 lacs (cumulative) on exploration on its prospects as on 31 March 2013. The amount of exploration expenditure (cumulative) incurred as on 31 March, 2012 was ₹ 967.65 lacs.

Administrative and other costs for the year ended 31 March 2013 were ₹ 115.10 lacs compared to ₹ 127.61 lacs for the year ended 31 March 2012.

The net loss of the company for the year ended 31 March 2013 was ₹ 102.05 lacs compared to ₹ 106.18 lacs for the year ended 31 March 2012.

DGML's working capital funds as at 31 March 2013 were ₹ 174.69 lacs compared to ₹ 294.43 lacs for the year ended 31 March 2012.

It is pertinent to note that exploration companies by their very nature will not generate mining revenues until commencement of mining operations.

RISKS AND CONCERNS

The Company is into gold exploration which is highly speculative in nature and subject to several operational risks. These risks include exploration and mining risks, delays in approvals to undertake exploration activities, delays in grant of appropriate mineral concession licences, actual resources differing from estimates, operational delays and the availability of equipment, personnel and infrastructure.

The Company is also dependent on key personnel and subject to actions of third parties, including the staff, other contractors and suppliers.

The Company's operations are also subject to government laws and regulations, particularly environmental and land acquisition regulations.

The Company's future revenues from product sales will be affected by changes in the market price of gold which is affected by numerous factors which are beyond its control. These include international supply and demand, the level of consumer product demand, international economic trends, currency exchange rate fluctuations, the level of interest rates, rate of inflation, global or regional political events and international events as well as a range of other market forces.

In the absence of cash flow from operations, the Company may have to rely on capital markets / private equity investment to fund its operations. The Company's ability to raise further funds will depend on the success of existing operations. Although the Company has been successful in the past in obtaining financing through the sale of equity securities, there can be no assurance that additional funding will be available, or available under terms favourable to the Company in future. Failure to obtain such additional finance may require the Company to reduce the scope of its operations.

All the above factors notwithstanding, your Company and its Directors believe that they have adequate experience and access to expertise and capital sources that will enable the Company to successfully develop, launch and execute its projects successfully.

OUTLOOK AND OPPORTUNITIES

With global demand for minerals consistently outpacing supply, Governments worldwide are exploring all possible options to boost supply in order to control the unprecedented rise in commodity prices. However, India's spend on exploration projects stands at a dismal 0.3% of the global spend (compared to 19% for Canada and 12% for Australia). Exploration in India is mostly restricted to a depth of 50 to 100 metre vs. as deep as 300 metre in countries like Australia. (Source: Ministry of Mines, Government of India).

With regard to gold, India imported 850 tonnes of gold valued at \$58 billion in 2012-13 and it was one of the major causes of the burgeoning current account deficit which is mainly affected by large-scale import of the yellow metal.

To bring down gold imports, the Government had raised duty on the yellow metal from 6% to 10%, followed by Reserve Bank of India imposing curbs linking it to compulsory export of processed gold up to 20% of imports. In addition to hiking the import duty on gold, duties on silver and platinum were also raised to 10%. In August, 2013 the Government also put a ban on import of gold coins and medallions.

India has the right geological potential for discovery and development of new gold mines. The 12th Five Year Plan Core Group on Precious Metals has estimated that it is possible to produce about 45 tonnes of gold in the last year (2017) of the Plan.

In addition to substantially bridging the current account deficit, opening up and development of new mines could help in mainstreaming the local communities (including tribal communities) by sharing the economic benefits of mining related activities with them in a fair and equitable manner. Most of the mineral potential areas are in the interior tribal areas of India, where the development is the lowest. The mineral sector can potentially change the situation by providing much needed employment and infrastructure creation needs.

With the untapped mineral potential in India, the contribution of the mining sector in the GDP should aspire to around 7-8% over 20 years. The mining sector needs to play a major role if India has to realize the potential growth of 9% per annum in the coming years.

To unlock the potential of the mineral sector, the Indian Government would need to rework the legislative framework for transparent, safe, scientific & sustainable mining and effective regulation. Concerted action is required to promote scientific exploration for expanding the mineral reserves in India to its full potential. India needs to ensure globally best, fair, transparent and efficient process for the mineral concession system that reduces permit delays to create a more favourable policy environment.

Despite all these shortcomings, the gold exploration and mining sector holds substantial potential to contribute to the growth of the economy and create value for all stakeholders, including the Central Government, State Government (s) and the community at large.

To sum up, Deccan Gold Mines Limited, the only private sector listed gold exploration company is well poised to take advantage of the potential that the sector offers. DGML with state of the art technology; a large pool of well trained geologists, geophysicists and mining engineers has a unique combination of advantages to generate a mineral-based economic development of enormous scale and value.

ADEQUACY OF INTERNAL CONTROL

The Company has in place adequate internal control systems, which assure proper recording of transactions of its operations and also ensure protection against misuse or loss of the Company's assets. The Company has constituted an Audit Committee and has assigned to it tasks that will further strengthen the internal audit system.

SUSTAINABLE DEVELOPMENT

DGML is committed to sustainable development; we believe in creating sustainable values that our employees, business partners and shareholders can uphold and believe in. We strive to meet the needs of all our stakeholders. DGML believes in making a positive contribution to the community in which we are involved. Our mission is to increase the known gold resources base of the country in a way that enhances the well being of its people, the environment, and the investors and stakeholders of the Company.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of the applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include the availability of economically viable deposits, changes in Government regulations, tax regimes, economic developments in India and other incidental factors.

PRACTISING COMPANY SECRETARIES' CERTIFICATE ON CORPORATE GOVERNANCE

To

The Members

AUDITORS' REPORT

To the Members of DECCAN GOLD MINES LIMITED

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Deccan Gold Mines Limited, which comprise the Balance Sheet as at March 31, 2013, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.

As required by section 227(3) of the Act, we report that:

- we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b. in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books [and proper returns adequate for the purposes of our audit have been received from branches not visited by us];
- c. the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account
- d. in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;
- e. on the basis of written representations received from the directors as on March 31, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

f. Since the Central Government has not issued any notification as to the rate at which the cess is to be paid under section 441A of the Companies Act, 1956 nor has it issued any Rules under the said section, prescribing the manner in which such cess is to be paid, no cess is due and payable by the company.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2013
- (b) in the case of Statement of Profit and Loss, of the Loss for the year ended on that date and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

ANNEXURE TO THE AUDITOR'S REPORT OF EVEN DATE

(Referred to in paragraph 1 thereof)

1. In respect of Fixed Assets -

- The company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- b) The fixed assets have been physically verified by the management at reasonable intervals during the year. We are informed that no material discrepancies were noticed by the management on such verification.
- c) Based on our scrutiny of the records of the company and the information & explanation received by us, we report that there were no sale of fixed assets during the year. Hence, the question of reporting whether the sale of any substantial part of fixed assets has affected the going concern of the company does not arise.
- 2. As the company has not purchased or sold any goods during the year, nor does the company have any opening stock, therefore the requirement to report the physical verification of stocks or maintenance of inventory records in our opinion, does not arise
- 3. The company has not granted or taken any loans to/from companies, firms or other party covered in the register maintained u/s.301 of the Companies Act, 1956.
- In our opinion and according to the information and explanations given to us, there is adequate internal control system commensurate with the size of the Company and the nature of its business. Further, on the basis of our examination of the books and records of the company, carried out in accordance with the auditing standards generally accepted in India and according to the information and explanations given to us, we have neither come across nor have we been informed of any continuing failure to correct weaknesses in the aforesaid internal control system.
- 5. a) Based on the audit procedures applied by us and the information and explanations provided by the management, we are of the opinion that the transactions that need to be entered into the register maintained under section 301 have been so entered.
 - b) In our opinion and according to the information and explanations given to us, the transactions made in pursuance of contracts or arrangements entered in the register maintained under section 301 and exceeding the value of ₹ 5 lacs in respect of any party during the year have been made at prices which are reasonable having regard to prevailing market prices at the relevant time.
- 6. In our opinion and according to the information and explanations given to us since the company has not accepted any deposits from public within the meaning of section 58-A, 58AA or any other provision of the Act, the question of compliance with the provisions of section 58A, 58AA or any other provisions of the Act does not arise.
- 7. In our opinion the Company has an internal audit system commensurate with its size and nature of its business.
- 8. As informed to us, the Central Government has not prescribed the maintenance of Cost records under Section 209(1)(d) of the Companies Act, 1956.
- 9. a) According to the records of the company, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues, including Income Tax, Sales Tax, Wealth Tax, Custom Duty, Excise Duty, Service Tax, Cess and other statutory dues applicable to it.
 - According to information & explanation given there were no undisputed amounts payable in respect of income tax, wealth tax, service tax, sales tax, custom duty, excise duty, service tax cess & other statutory dues which remained outstanding as at 31st March, 2013 for a period more than six months from the date they became payable.
- 10. The accumulated losses of the Company are more than 50% of its net worth as at 31st March 2013. The Company has incurred a cash loss of ₹ 67.67 lacs in the current financial year and ₹ 52.75 lacs in the immediately preceding financial year.
- 11. According to the records of the company, the company has not borrowed from financial institutions or banks or issued any debentures during the year, Hence in our opinion, the question of reporting on defaults in repayment of dues to financial institutions or banks or debenture holders does not arise.
- 12. According to the information and explanation given to us the company has not granted any loans and advances on the basis of security by way of pledge of shares, debentures or other securities.

- 13. In our opinion, and to the best of our information and according to the explanations provided by the management, we are of the opinion that the company is neither a Chit Fund nor a Nidhi /Mutual Benefit Society. Hence, in our opinion, the requirements of para 4 (xiii) of the Order do not apply to the company.
- 14. As per records of the company and information and explanations given to us by the management, company is not dealing or trading in shares, securities, and debentures and other investments.
- 15. The company has not given any guarantee in connection with loans taken by others from banks or financial institutions.
- 16. According to the records of the company, the Company has not taken any term loan.
- 17. According to the information and explanations given to us and, on an overall examination of the balance sheet of the company, we report that no funds raised on short-term basis have been used for long-term investment by the company.
- 18. The company has made preferential allotment of shares to parties and companies covered in the register maintained under section 301 of the Act. In our opinion, prices at which shares have been issued is not prejudicial to the interest of the company.
- 19. No debentures have been issued by the Company during the year and hence, the question of creating securities in respect thereof does not arise.
- 20. The company has not raised any money by public issues during the period covered by our audit report.
- 21. Based upon the audit procedures performed and information and explanations given by the management, we report that no fraud on or by the Company has been noticed or reported during the course of our audit.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES ANNEXED TO **BALANCE SHEET AS AT 31 MARCH, 2013**

(i) STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES:

A. Basis of accounting:

The financial statements are prepared under the historical cost convention and comply with the applicable accounting standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956.

B. Fixed Assets:

Fixed Assets are stated at cost of acquisition less depreciation. All costs relating to the acquisition and installation of fixed assets are capitalised.

C. Depreciation:

- 1. Depreciation is provided as per Written down Value prescribed under Schedule XIV of the Companies Act, 1956.
- 2. Depreciation on Leased Premises is provided over a period of five years i.e the tenure of the lease

D. Foreign Currency transactions

Transactions of foreign currencies are recorded at the exchange rates prevailing on the date of the transaction or at the exchange rate under related forward exchange contracts. The realized exchange gains/losses are recognized in the Profit & Loss Account. All foreign currency assets/ liabilities are translated in rupees at the rates prevailing on the date of Balance Sheet.

E. Investments:

- Long term investments are carried at cost after providing for any diminution in value, if such diminution is of other than temporary nature.
- Current investments are carried at the lower of cost and market value. The determination of carrying cost of such investments is done on the basis of specific identification.

F. Taxes on income:

- 1 Current year tax is determined in accordance with Income Tax Act, 1961 at the Current Tax rates based on assessable income.
- 2 The Company has carried forward losses under Tax Laws. In absence of virtual certainty of sufficient future taxable income, deferred tax asset has not been recognized by way of prudence in accordance with Accounting Standard 22 "Accounting for taxes on income" issued by The Institute of Chartered Accountants of India.

G. Impairment of Assets:

At each balance sheet date, the carrying amounts of fixed assets are reviewed by the management to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use.

H. Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- 1. Exploration Income is recognised when services are provided
- 2. Interest Income is recognised on accrual basis
- 3. Dividend Income is accounted on accrual basis when the right to receive the dividend is established

I. Employee Benefits

Leave encashment : The company does not have a policy of carry forward of pending leaves and hence no provision

for the same is made as mentioned under AS - 15 issued by ICAI.

Gratuity : Gratuity provision is made for qualifying employees. Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit cost method.

J Provisions, contingent liabilities and contingent assets

Estimation of the probability of any loss that might be incurred on outcome of contingencies on basis of information

available up to the date on which the financial statements are prepared. A provision is recognised when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. In cases where the available information indicates that the loss on the contingency is reasonable possible but the amount of loss cannot be reasonably estimated, a disclosure to this effect is made in the financial statements. In case of remote possibility neither provision nor disclosure is made in the financial statement. The company does not account for or disclose contingent asset, if any.

K. Stock Option Granted

The stock options granted are accounted for as per the accounting treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Guidelines, 1999, issued by Securities and Exchange Board of India, whereby the intrinsic value of the option is recognised as deferred employee compensation. The deferred employee compensation is charged to Profit & Loss Account on straight-line basis over the vesting period of the option. The employee stock option outstanding account is shown net of any unamortized deferred employee compensation.

AUDITORS' REPORT

To the Members of DECCAN GOLD MINES LIMITED

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated financial statements of Deccan Gold Mines Limited, which comprise the Consolidated Balance Sheet as at March 31, 2013, and the Statement of Consolidated Profit and Loss and Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Consolidated Balance Sheet, of the Consolidated state of affairs of the Company as at March 31, 2013
- (b) in the case of Consolidated Statement of Profit and Loss, of the Loss for the year ended on that date and
- (c) in the case of the Consolidated Cash Flow Statement, of the cash flows for the year ended on that date.

Schedule – 17 of Significant Accounting Policies and Notes annexed to Consolidated Balance Sheet as at 31st March, 2013.

Statement of Significant Accounting Policies: A. Basis of accounting:

A. Principles of Consolidation

The Consolidated financial statements relate to Deccan Gold mines Limited and its subsidiary Company.

The Consolidated financial statements have been prepared on following basis:

- (a) The financial statement of the company and its subsidiary Company are combined on line-by- line basis by adding together the book values of like items of assets, liabilities, income and expenses after fully eliminating intra group transactions resulting in unrealized profits/losses in accordance with accounting standard (AS) 21 "Consolidated Financial Statement" issued by the Institute of Chartered Accountants of India.
- (b) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

B. Basis of accounting

The financial statements are prepared under the historical cost convention and comply with the applicable accounting standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956.

C. Fixed Assets

Fixed Assets are stated at cost of acquisition less depreciation. All costs relating to the acquisition and installation of fixed assets are capitalized.

D. Depreciation

- (a) Depreciation is provided as per Written down Value prescribed under Schedule XIV of the Companies Act, 1956.
- (b) Depreciation on Leased Premises is provided over a period of five years i.e. the tenure of the lease.

E. Foreign Currency transactions

Transactions of foreign currencies are recorded at the exchange rates prevailing on the date of the transaction or at the exchange rate under related forward exchange contracts. The realized exchange gains/losses are recognized in the Profit & Loss Account. All foreign currency assets/ liabilities are translated in rupees at the rates prevailing on the date of Balance Sheet.

F. Investments

- (a) Long term investments are carried at cost after providing for any diminution in value, if such diminution is of other than temporary nature.
- (b) Current investments are carried at the lower of cost and market value. The determination of carrying cost of such investments is done on the basis of specific identification.

G. Taxes on income

- (a) Current year tax is determined in accordance with Income Tax Act, 1961 at the Current Tax rates based on assessable income.
- (b) The Company has carried forward losses under Tax Laws. In absence of virtual certainty of sufficient future taxable income, deferred tax asset has not been recognized by way of prudence in accordance with Accounting Standard 22 "Accounting for taxes on income" issued by The Institute of Chartered Accountants of India.

H. Impairment of Assets

At each balance sheet date, the carrying amounts of fixed assets are reviewed by the management to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use.

I. Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- (a) Exploration Income is recognized when services are provided.
- (b) Interest Income is recognized on accrual basis.

(c) Dividend Income is accounted on accrual basis when the right to receive the dividend is established.

J. Employee Benefits

Leave Encashment: The company does not have a policy of carry forward of pending leaves and hence no provision for the same is made as mentioned under AS - 15 issued by ICAI.

Gratuity: Gratuity provision is made for qualifying employees. Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit cost method.

K. Provisions, Contingent Liabilities and Contingent Assets

Estimation of the probability of any loss that might be incurred on outcome of contingencies on basis of information available upto the date on which the financial statements are prepared. A provision is recognized when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. In cases where the available information indicates that the loss on the contingency is reasonable possible but the amount of loss cannot be reasonably estimated, a disclosure to this effect is made in the financial statements. In case of remote possibility neither provision nor disclosure is made in the financial statement. The company does not account for or disclose contingent asset, if any.

L. The stock options granted are accounted for as per the accounting treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Guidelines, 1999, issued by Securities and Exchange Board of India, whereby the intrinsic value of the option is recognized as deferred employee compensation. The deferred employee compensation is charged to Profit & Loss Account on straight-line basis over the vesting period of the option. The employee stock option outstanding account is shown net of any unamortized deferred employee compensation.

November 2013

Dear Shareholders,

Deccan Gold Mines Ltd (DGML) continues to be the only gold exploration company listed on the Bombay Stock Exchange (BSE) and during a time when the reliance on gold imports is contributing to the current account deficit and erosion of the Rupee, DGML remains in a unique position with a platform to unlock the value of India's gold resources.

As you are aware our Ganajur ML application has received all the recommendations including certification of the gold Resource as mineable from the Indian Bureau of Mines. The IBM sent its report to the Ministry in June 2013. The application is currently under the scrutiny of the Ministry.

While we are awaiting the grant of Mining Lease we have taken steps to speed up other important issues such as getting Environmental clearance for the project. In this direction we are pleased to inform the MOEF has issued Terms of Reference for both the plant and the Proposed open pit mine. We have undertaken the preparation of the draft EIA and EMP report for the project.

The Ganajur-Karajgi PL block is currently under the extension period. DESPL has proposed to carryout 8000m of drilling covering the Ganajur Main and its adjoining prospects shortly. We are in the process of finalizing the drilling contractor to undertake this exciting drilling programme.

The Mangalgatti PL was granted one year ago in October 2012. Since then the DMG has been going through with various procedures required to execute the PL. DESPL has supplied the original village maps desired by the DMG, attended the inspection by the concerned District Senior Geologist and has also submitted the demand drafts towards the PL fee security deposit. We are hopeful that the DMG will arrange for execution of the PL shortly.

The Bhavihal PL had been recommended by the DMG to the State Secretariat. However, one of the previous Secretaries has returned the file back to the DMG directing him to seek fresh NoC from the Revenue Authorities. The file is currently pending with the DMG waiting for the NoC from the Revenue authorities. We have repeatedly reminded the DMG to speed up the process.

As you are aware, in July 2012, DGML filed a Special Leave Petition (SLP) against Hutti Gold Mines although at Hutti Gold Mines request the hearings were repeatedly postponed to allow them time to respond to our SLP. Recently in September 2013 the Ministry of Mines, Govt. of India has also filed an SLP against Hutti Gold Mines in connection with our dispute. This is an encouraging step as it highlights the Governments will to protect the rights of DESPL and uphold their previous decisions made in connection with this dispute. The SLP by the Union of India has been tagged along with our petition and Hutti has now filed their response and we are hopeful that the scheduled hearing on 10th December 2013 will proceed. DGML, with the support of our legal team in Delhi is of the opinion that we have a strong case and we look forward to a favorable outcome.

Although licensing continues to be a tedious process we remain focused on this area of the business with the assistance of FIMI, Invest India and various other industry organizations; and we are continually making representations to the Government on the need for investor friendly policies and procedures. We have also been working very closely with the Australian High Commissioner, Consulate and their respective teams who are making representations on our behalf at various levels of the Indian Government in terms of expediting our long pending licenses.

We have also been working on establishing and formalizing key partnerships. As you are aware, in August 2013 Geomysore Services (India) Pvt Ltd, a Bangalore based exploration company

approached DGML to be taken over as a wholly owned subsidiary of DGML. We have since completed the due diligence process and the company is evaluating various options in this regard in consultation with its legal and taxation advisors and its Merchant Banker to structure the transaction that best serves the interest of all its shareholders. It is very encouraging to note that GMSI has executed a Mining License for their Jonnagiri Gold Prospect in Andhra Pradesh in October 2013.

On a personal note I would like to formally acknowledge the long term support of our shareholders and appreciate that it has been a long gestation period although know that I am also right along side each and every one of you. I have ultimate faith in the future of this company and rest assured that I am, along with the DGML team continually working towards our joint goals.

Yours truly,

Charles E.E. Devenish Chairman
