Management Discussion and Analysis Report

Industrial outlook

The Indian vegetable oil economy is the world's fourth largest after the US, China and Brazil, harvesting about 25 million tons of oilseeds against the world. Since 1995, Indian share in world production of oilseeds has been around 10 percent. Vegetable oil consumption has increased following a rise in household incomes and consumer demand. India imports half of its edible oil requirement, making it the world's third-largest importer of edible oil. The country buys soya oil from Argentina & Brazil and palm oil from Malaysia & Indonesia. Currently, India accounts for 11.20 per cent of vegetable oil import and 9.30 per cent of edible oil consumption.

India does not even produce half of its edible oil requirements, mainly due to rainfed conditions, high seed cost, smallholding with limited resources, low seed replacement rate, and low productivity. The country needs 25 million tonnes of edible oils to meet its requirement at the current consumption level of 19 kg per person per year.

Out of the total requirement, 10.50 million tonnes are produced domestically from primary and secondary sources and remaining 60% is met through import, the oilseed production of the country has been growing impressively. Despite this, there exists a gap between the demand and supply of oilseeds, which has necessitated sizable quantities of imports.

To increase the domestic availability of edible oil and reduce import dependency, the government has proposed a National Mission on Edible Oils (NMEO) for the next five years. The proposal is based on achieving results in three key areas to increase production of oilseeds and edible oils from primary sources such as annual crops, plantation crops, and edible TBOs (tree borne oilseeds); secondary sources such as rice bran oil and Cottonseed oil; and consumer awareness for maintaining edible oil consumption constant at 19.00 kg per person per annum.

The government intends to increase production from 30.88 to 47.80 million tonnes of oilseeds that will produce 7.00 to 11.00 million tonnes of edible oils from primary sources by FY 2025. Also, it is expected that edible oils from secondary sources will be doubled from 3.50 to 7.00 million tonnes. Meanwhile, at present, crude palm oil is freely importable while refined palm oil and palm olein have been put under the 'Restricted' category for imports

since 8 January 2020.

The restriction is applicable to imports from all countries.

With an initiative such as "AATMANIRBHAR BHARAT" Government of India is planning to reduce dependence on the import as much as possible. With the combined efforts of government, industry companions we can achieve sovereignty and independence in the edible and non-edible oil industry. There is still a long way to go but with dedication towards corporate governance and business ethics day is not far away when we will achieve new heights by following the principle "Everyone will accompany, everyone will nurture."

Opportunity and Threat

India is one of the most attractive consumer markets with a one billion plus opportunity. Young demographics, rising income levels and increased health awareness among both urban and rural consumers are helping drive consumption.

The edible oil market is expected to be dominated by various national and multinational players due to the increasing import dependence of the country. Rice bran and blended oil market are expected to be the fastest growing categories in the entire edible oil segment with Oils such as Mustard, Sunflower, Groundnut and Cottonseed tend to remain region specific in the near future with a moderate fluctuation in their prices.

Changes in external environmental also may present threats to the firm. Such threats may include:

- Shifts in customer tastes away from the Company's products
- Emergence of substitute products
- New regulations
- Increased trade barriers

Outlook

We remain optimistic of commencement of recovery in the sector in the coming year. Over the years we have focused on building robust sales processes like Selling to Helping, Training and Certification of sales staff, which will help us reap rewards in future

The company is confident in spite of the possible recessionary conditions in the industry it will perform better in view of the strong fundamentals of the Indian

companies and hope to improve its Turnover.

Risk and Concerns

Key risks for the edible oils sector include risks from change in import-export regulations; change in the minimum support price (MSP) on oilseeds offered by the government; high dependence on monsoons and finally, the risk arising out of exchange rate fluctuations. Procurement of oilseeds at the right price and quantity, optimum utilization of processing units, their strategic location, a strong brand name and diversification of product offerings are likely to be the key success determinants for players.

The policies announced by the Government have been progressive and are expected to remain likewise in future, and have generally taken an equitable view towards various stake holders, including domestic farmers, industry, consumers etc.

Adverse changes in disposable income may impact consumption pattern. Your Company has multiprocessing capabilities to cater to the variances and changing consumer preferences. Also keeping in view the overall growth of the economy, emerging health consciousness and growing retail in India, it is expected that the packaged edible oil consumption will continue to outgrow the overall edible oil growth.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no Key Audit Matters to communicate in our audit report.

The Company's Board of Directors is responsible for the preparation of the other information. The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of REGENT ENTERPRISES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of REGENT ENTERPRISES LIMITED (“the Company”) as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Further our audit also involves the review of Internal audit report as prepared by the Internal Auditor of the Company and we believe that there is no any material mis-statement or representation found in the information as shown in the report of internal auditor.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Further, as per the Section 138 of the Companies Act, 2013 read with Rule 13 of Companies (Accounts) Rules, 2014, the Internal Auditor required to be appointed by the Company therefore it is advisable to the company to do the internal audit through the Internal Auditor or a firm of internal auditors.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES
(Annexed to and forming part of the financial statements for the year ended 31st March, 2020)

1. BASIS OF PREPARATION: -

These financial statements have been prepared on in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rule, 2015. The company prepared its financial statements in accordance with Accounting Standards notified under section 133 of the companies Act, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 and in accordance with companies (Accounting Standards), Rules 2006. Statements have been prepared on an accrual basis and under the historical cost convention.

2. CRITICAL ESTIMATES AND JUDGEMENTS

The preparation of Financial Statements requires estimates & assumptions to be made that affect the reported amount of assets & liability on the date of financial statements and the reported amount of revenues & expenses during the reporting period. The managements also need to exercise judgements in applying the accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement and of items which are more likely to be materially adjusted due to estimates and assumptions.

The area involving in critical estimation and judgement is:

- **Impairment of trade receivable:** Estimates and judgements are continually evaluated. They are based on historical experience and other factors including expectation of future events that may have a financial impact on the company and that are believe to be reasonable under the circumstances.

3. FAIR VALUE MEASUREMENT

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability. The fair value of an asset or a liability is measured using the assumptions that Market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest

3. CURRENT AND NON-CURRENT CLASSIFICATION: -

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current by the Company when:

- (a) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- (b) it holds the asset primarily for the purpose of trading;
- (c) it expects to realise the asset within twelve months after the reporting period;
- (d) the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is treated as current by the Company when:

- (a) it expects to settle the liability in its normal operating cycle;
- (b) it holds the liability primarily for the purpose of trading;
- (c) the liability is due to be settled within twelve months after the reporting period;
- (d) it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. All other liabilities are classified as non-current.
