Economic Overview:

The world economy continues to face challenged on the road to sustained recovery. Advanced Economies that seemed towards the fag-end of the year and this uncertainty is clouding the prospects for global growth during 2014. The growth momentum was impacted as the protracted debt crisis in the euro area and fiscal fragilities dampened and consumer confidence.

The economic crisis and its ramifications have accelerated the shift of economic power from the developed to the emerging nations and exposed a fragile world with limited capacity to respond to systemic risks. The consequence has been volatile and low growth which is likely to stay for some time to come.

Near term, the growth prospects for 2014-15 remain uncertain. The year 2013-14 was abetted by the continuing global volatility and challenges. These uncertainties led to widespread risk aversion and adversely affected capital flows to new prospects.
