15. Members who have not registered their e-mail addresses so far are requested to register their e-mail address for receiving all communication including Annual Report, Notices, Circulars, etc. from the Company electronically.
16. The instructions for shareholders voting electronically are as under:

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM/EGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the EGM/AGM will be provided by CDSL

- (i) The voting period begins on 27th September 2021 at 9:00 A.M and ends on 29th September 2021 at 5:00 P.M. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of 21st September, 2021 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

EMERGENCE OF COVID-19:

COVID-19 pandemic: - The outbreak of the deadly COVID-19 virus and the ensuing lockdown imposed across the country affected business operations. The health of the employees and workers became a priority; stoppage of operations for an uncertain period resulted in a large financial burden on the one hand and workforce idling on the other. COVID-19 is an unprecedented challenge. The lockdown gave India time to make a concerted effort to flatten the outbreak curve. However, towards later part of the year consequent to significant opening of the economic activity across the nation, the demand picked up compared to that during the initial period of Covid-19. India is currently experiencing a massive second wave of Covid-19 infections. However, we expect no major changes in the economic activity as the nation is preparing to face the Pandemic with vaccines and preparedness.

Material changes and commitments have occurred due to the epidemic COVID 19 across the globe at the end of the financial year to which the financial statements relates and the date of this Report and their impact on financial position of the company is not determinable.

MANAGEMENT DISCUSSION AND ANALYSIS:

A. INDUSTRY STRUCTURE AND DEVELOPMENTS:

The Edible Oil market is likely to witness a stable growth rate over the forecast period driven by growing demand from emerging markets. Increasing family disposable incomes, rising urbanisation rates, changing dietary habits along with strengthening buyer power will support the Edible Oil market growth between 2020 and 2026.

Considering the rapidly changing market landscape, companies are changing their perspectives on expanding beyond traditional markets. In addition to focusing on widening applications, introducing new product portfolios, most food and beverage companies are planning to capture more domestic markets.

Challenges related to distribution channels, intense competition, pricing issues and shifting consumer preferences will continue to put pressure on vendors' profit margins.

The retail segment is anticipated to boost the trades of edible oils owing to reputable chain of retail outlets and sturdy supply chain of edible oil products. Vegetable oil usage has elevated in developing nations owing to surging retail sector, rising requirement from growing population, and increment in the general household revenue. In addition to this, makers of edible oils are accepting enhances techniques of processing to provide affordable and healthier oil.

B. OPPORTUNITIES AND THREATS.

Demand for edible oils in the domestic market is great and one of the trends emerging in the market that will have a positive impact on the growth of the market up to pre-Covid -19 pandemic. But the Covid-19 Pandemic have influenced negatively on the consumption of Edible oils. Fluctuating price of raw material, restrictions on exports and imports imposed due to Covid-19 restrictions and guidelines imposed by WTO are the major challenges in the market. The fluctuation in the price is also due to various reasons such as environmental factors, crop diseases, and others. A fluctuation in the price of raw materials may have an adverse impact on the growth of the market during the forecast period.

C. SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE.

Presently the company has dealing in segment of refining cotton seed oil and trading and also purchased & packed Refined Cottonseed, Groundnut Oil, Refined Sunflower, Refined Maize Oil and Soybean Oil for resale.

Processing of Cottonseed for Edible Oil

we are purchasing Raw Material i.e Cotton Raw Oil. Crude oil we are purchasing by tanker from crushing oil mill and we offload after checking quality Parameter we are offloading in storage tank. (Crude oil Storage tank)

Our Finished Product Refined Edible oil Derived after processing different stage after Crude Edible oil. Processing derived in three stage Alkyl Refining, Bleaching & Filtration & Deodorization.

- Alkyl Refining: Crude oil feeding and heating by heat exchanger get desired temperature that stage we are addition Phosphoric acid & caustic for removing impurities like gums, coloring matter, foreign matter & fatty acid with become metal soap. Finally get we call product Neural oil.
- Bleaching & Filtration: Neutral oil heat through heat exchanger by applied steam, that stage on desired temp can addition Activated Clay & Activated Carbon for removing Coloring impurities and Excess metal soap. Finally get after Filtration clear oil called as a bleached oil.
- Deodorization: Bleached oil passing through deodorization process there removing odoriferous material by distillation column with different stage heating by steam. Finally after filtration get refined oil that's oil cool down by heat exchanger and transfer to storage tank where we are storing refined oil.

During the year, your company has refined 27457.91 MT of cotton seed oil in its refinery (Previous Year: 29312.23 MT) Company also purchased & packed 2364.21 MT Refined Groundnut Oil, Refined Sunflower, Refined Maize Oil, Mustard Oil and Soybean Oil for resale.

D. OUTLOOK

The long-term outlook of edible oil demand in India is favourable on expectation of increasing population, increase in per capita consumption which in turn would be driven by changing lifestyles, growing urbanization, increasing proportion of middle-class

population and steadily rising affluence levels. The near-term outlook for the edible oil companies is expected to be stable on steady edible oil domestic demand and improvement in operating margin due to increasing refining operation.

In the coming season cotton growing is expected to be very higher because of the prices for cotton are ruled very higher and better than the Government Minimum Support Price. In addition to this, all the farmers of millets and chillies are going to sow only cotton because they incurred heavy losses due to sudden fall of all commodity prices at the time of harvesting season.

E. RISKS AND CONCERNS

Price Volatility

The high volatility in edible oil prices and restriction on movements due to Covid-19 virus, the domestic participants are exposed to the risk of unexpected squeeze on margins because of mismatch between the prices of raw materials and final products (which are both linked to domestic factors as well as global ones. Due to implementation of Covid-19 Lock Down's it impacted negatively on Production.

Your Company continues to place a strong emphasis on the risk management and has successfully introduced and adopted various measures for hedging the price fluctuations in order to minimize its impact on profitability. Also, your Company has initiated setting-up of a framework to upgrade itself to a robust risk management system. The key determinants of business risk profile of the company are their ability to overcome the regulatory risk and agro-climatic conditions. Other operational factors include operating efficiency, product diversity, market position, and ability to secure raw material as well as the commodity price and forex-risk management systems.

Thus, your Directors are optimistic in utilizing the production capacities and to overcome the post COVID-19 pandemic, to ensure better working results in the ensuing years.

F. EDIBLE OIL INDUSTRY OVERVIEW IN GUJARAT

The state of Gujarat is one of the leading Processors of cotton in the country and as such the availability of raw-material i.e. cottonseeds availability will be very good.

G. OVERALL BUSINESS ACTIVITY AND FINANCIAL PERFORMANCE OF YOUR COMPANY:

During the year, your company has refined 27457.91 MT of cotton seed oil in its refinery (Previous Year: 29312.23 MT) Company also purchased & packed 2364.21 MT Refined Groundnut Oil, Refined Sunflower, Refined Maize Oil, Mustard Oil and Soybean Oil for resale.

Our total business operation income has increased to 31376.75 Lakhs from 28485.10 Lakhs in the previous year.

H. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has well-established processes and defined the roles and responsibilities for people at various levels. The control mechanism also involves well documented policies, authorization guidelines commensurate with the level of responsibility specific to the respective businesses. Adherence to these processes is ensured through frequent internal audits. The internal audits conducted are reviewed by the Audit Committee and requisite guidelines and procedures augment the internal controls. The internal control system is designed to ensure that financial and other records are reliable for preparing financial statements and other information which ensures that all transactions are properly reported and classified in the financial records.

I. CAUTIONARY STATEMENT

Statements in the Boards' Report and Management Discussion and Analysis describing the Companies objectives, projections, estimates, expectations may be "forward looking statements" within the meaning of applicable security laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make difference to the company's operations include, among others, economic conditions effecting demand / supply and price conditions in the domestic and overseas markets in which the Company operates, changes in the Government regulations, tax laws and other statutes and incidental factors.

INDEPENDENT AUDITOR'S REPORT to the Members of Ambar Protein Industries Limited

Report on the Financial Statements

Opinion

I have audited the accompanying Financial Statements of Ambar Protein Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss, (including the statement of Other Comprehensive Income), the Cash Flow Statement and the statement of changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (here in after referred to as "the financial statements").

In my opinion and to the best of my information and according to the explanations given to me, the Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ("Ind As") specified under section 133 of the Act, of the state of affairs of the Company as at March 31, 2021 its profits (including other comprehensive income), its Cash Flows and the changes in equity for the year ended on that date.

Basis for Opinion

I conducted my audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to my audit of the financial statements under the provisions of the Act and the rules thereunder, and I have fulfilled my other ethical responsibilities in accordance with these requirements and the Code of Ethics. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the Financial Statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and informing my opinion thereon, and I do not provide a separate opinion on these matters.

I have determined the matters described below to be the key audit matters to be communicated in my report.

KEY AUDIT MATTER	AUDITOR'S RESPONSE
The Auditor has identified net realizable value of inventory as a key audit matter. The carrying value of inventory at the year ended 31st March, 2021 is Rs.17.38 crores. The inventory is valued at the lower of cost and net realizable value. I considered the value of inventory as a key audit matter given the relative size of the balance in the financial statements and significant judgment involved in the consideration of factors in determination of selling prices as fluctuation of raw materials price in the domestic market and in determination of net realizable value.	Our Audit procedures included and were not limited to the following <ol style="list-style-type: none"> 1. Obtained an understanding of the determination of the net realizable values of the stock and assessed and tested the reasonableness of the significant judgments applied by the management. 2. Evaluated the design of internal controls relating to the valuation of finished goods also tested the operating effectiveness of the aforesaid controls. 3. Compared the actual realization after the year end / latest realization to assess the reasonableness of the net realizable value that was estimated and considered by the management. 4. Compared the actual costs incurred to sell after the year end / based on the latest sale transaction to assess the reasonableness of the cost to sell that was estimated and considered by the management. 5. Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at Net realizable value where the cost was higher than the net realizable value. 6. Assessed the appropriateness of the disclosure in the financial statements in accordance with the applicable financial reporting framework.

Information other than the financial statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and my auditor's report thereon

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information; I am required to report that fact. I have nothing to report in this regard

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The company's board of directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statement that give a true and fair view of the financial position, financial performance including other comprehensive Income, cash flows and changes in equity of the company in accordance with accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies making judgments and estimates that are reasonable and prudent and the design implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records relevant to preparation and presentation of the financial statements that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, I am also responsible for explaining my opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention

in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the central government of India in terms of sub-section(11) of section 143 of the Act & on the basis of such checks of books & records of the company as I consider appropriate and according to the information and explanation given to me, I give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the order, to the extent applicable.

2. The inventory has been physically verified by the management during the year. In my opinion, the frequency of verification is reasonable. No material discrepancies were noticed on such physical verification.
3. According to the information and explanations given to me, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnership or other parties covered in register maintained under section 189 of companies Act, 2013. Accordingly, the provision of clause 3(iii)(a), (b) and (c) of the order not applicable to the company and hence not commented upon.
4. In my opinion and according to the information and explanations gives to me, the Company has not advanced any loans or made investments, given guarantees, and provided any securities in respect of which provision of section 185 and 186 of The Companies Act, 2013 are applicable and hence not commented upon.
5. In my opinion and according to the information and explanations gives to me, the Company has not accepted any deposit within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of deposits) Rules, 2014 (as amended) framed there under. Accordingly, the provisions of clause 3(v) of the order are not applicable.
6. I have broadly reviewed the books of accounts maintained by the company pursuant to the rules made by the central government for the maintenance of cost records under section 148(1) of the companies Act, 2013, and I am of the opinion that prima facie, the prescribed cost records have been made and maintained. I have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
7. Statutory Dues
 - a) The Company is generally regular in depositing undisputed statutory dues including provident fund, employee's state insurance, income tax, sales tax, goods and service tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues applicable to it with the appropriate authorities.
 - b) According to the information and explanations given to me, no undisputed amounts payable in respect of provident fund, employee's state insurance, income tax, service tax, sales-tax, goods and service tax, duty of custom, duty of excises, value added tax, cess and other statutory dues were outstanding, as at 31st March, 2021 for a period of more than six months from date they became payable.
 - c) According to the information and explanations given to me there are no dues of provident fund, investor education and protection fund, employees state insurance, income tax, sales tax, wealth tax, service tax, goods and service tax, excise duty, custom duty, cess and any other statutory dues which have not been deposited with the appropriate authorities on account of any disputes.
8. Based on audit procedures and according to the information and explanations given by the management, the company has not defaulted in repayment of loans or borrowing to a bank. The Company has not issued any Debentures.

9. To the best of my knowledge and belief and according to the information and explanations given by the management, the Company has not raised any money by way of Initial public offer / further public offer/debt instruments or by way of term loans during the year hence reporting under this clause of the order is not applicable to the Company and hence not commented upon.
10. Based on audit procedure performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given to me by the management, I report that no fraud by the Company or no fraud /material fraud on the Company by the officer and employees of the Company has been noticed or reported during the year.
11. To the best of my knowledge and belief and according to the information and explanations given to me by the management, the managerial remuneration has been paid /provided in accordance with requisite approvals mandated by the provisions of section 197 read with schedule V to the Companies Act, 2013.
12. As the Company is not a Nidhi Company Consequently the Nidhi Rules, 2014 are not applicable to it, the provisions of Paragraph 3 Clause (xii) of the Order are not applicable to the Company.
13. To the best of my knowledge and belief and according to the information and explanations given to me, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act, where applicable. The details of such related party transactions have been disclosed in the Financial Statements as required under applicable Accounting Standards.
14. To the best of my knowledge and belief and according to the information and explanations given to me the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of Clause 3 (xiv) of the Order are not applicable to the Company.
15. To the best of my knowledge and belief and according to the information and explanations given to me by the management, the Company has not entered into any non-cash transactions with its Directors or persons connected with him as referred to in section 192 of the Companies Act, 2013. Accordingly, the provisions of Clause 3 (xv) of the Order are not applicable to the Company.
16. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

"ANNEXURE 2" to Independent Auditor's Report

Referred to in paragraph 2 (f) of the Independent Auditor's Report of even date to the members of Ambar Protein Industries Limited on the Financial Statements for the year ended March 31, 2021.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. I have audited the internal financial controls over financial reporting of Ambar Protein Industries Limited ("the Company") as of March 31, 2021 in conjunction with my audit of the Financial Statements of the Company for the year ended on that date.

Opinion

2. In my opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

Management's Responsibility for Internal Financial Controls

3. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

4. My responsibility is to express an opinion on the Company's internal financial controls over financial Reporting based on my audit. I conducted my audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards On Auditing deemed to be prescribed under section 143(10) of the Act, 2013 to the extent applicable to the audit of internal financial controls, and both issued by the ICAI. Those Standards and the Guidance note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
5. My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. My audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
6. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting with reference to these standalone Financial Statements

7. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that

receipts and expenditures of the company are being made only in accordance with authorizations of management and Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to these Standalone Financial Statements

8. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES to Financial Statements

For the year ended on 31st March 2021

1. COMPANY OVERVIEW

Ambar Protein Industries Limited is a company incorporated on 31st December 1992 with the basic object of manufacturing Edible/ Non Edible Oils, Oil Cakes and 'D' Oil Cake having registered office at Sarkhej –Bavla Highway, Opp. Bhagyoday Hotel, Changodar, Ahmedabad Gujarat.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENT

The financial statements of company have been prepared in accordance with Indian Accounting Standards (“IND AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015.

The Financial Statements have been prepared on the historical cost convention basis except for certain financial assets and liabilities which have been measured at fair value. Refer accounting policy regarding financial instruments (financial assets and financial liabilities).

The financial statements were authorised for issue in accordance with a resolution of the Board of Directors at its meeting held on June 29, 2021.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Current versus non-current classification:

The Company presents assets and liabilities in the Balance Sheet based on current / non-current classification:

An asset is treated as current when it is:

- i. Expected to be realised or intended to be sold or consumed in normal operating cycle.
- ii. Held primarily for the purpose of trading;
- iii. Expected to be realised within twelve months after the reporting period; or
- iv. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current

A liability is current when:

- i. It is expected to be settled in normal operating cycle;
- ii. It is held primarily for the purpose of trading;
- iii. It is due to be settled within twelve months after the reporting period; or
- iv. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are considered as non-current assets and liabilities.

Operating Cycle

The operating cycle is the time between acquisition of assets for processing and their realization cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3.2 Use of Estimates:

The estimates and judgements used in the preparation of the financial statements

Are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of Future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/ materialised.

The said estimates are based on the facts and events, that existed as at reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

3.3 Foreign Currencies:

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('The Functional Currency') The Financial statements are presented in Indian Rupee (INR), which is the company's functional and presentation currency.

3.4 Fair value measurement:

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ✓ In the principal market for the asset or liability, or
- ✓ In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ✓ Level 1-Quoted(unadjusted)market prices in active markets for identical assets or liabilities
- ✓ Level 2-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- ✓ Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.5 Property, plant and equipment:

On the date of transaction, the Company has elected to continue with the previous GAAP's carrying amount as deemed cost to measure all the items of property, plant and equipment.

Property, plant and equipment are stated at cost, net of recoverable taxes less accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price and borrowing costs if capitalisation criteria are met, the cost of replacing part of the fixed assets and directly attributable cost of bringing the asset to its working condition for the intended use. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significantly parts of property, plant and equipment are required to be replaced at intervals, the company recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major overhauling is performed, its cost is recognised in the carrying amount of the Property, plant and equipment as a replacement if the recognition criteria are satisfied. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of Property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing Property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of parts replaced, are charged to the statement of Profit and Loss for the period during which such expenses are incurred.

Borrowing cost relating to acquisition / construction of fixed assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Capital work in progress comprised of cost of Property, plant and equipment that are yet not installed and not ready for their intended use at the balance sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if applicable. The Company calculates depreciation on items of property, plant and equipment on a straight-line basis as per the Companies Act 2013.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

3.6 Intangible assets:

Intangible assets acquired separately are measured on initial recognition at cost.

Following initial recognition, intangible assets are carried at cost, less any accumulated amortisation and accumulated impairment losses, if any. Intangible assets in the form of software are amortised on a straight-line basis six years. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised

3.7 Impairment of non-financial assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

3.8 Investment and other Financial Assets:

Financial assets are recognized and measured in accordance with Ind AS - 109 Financial Instruments. Accordingly, the company recognizes financial asset only when it has contractual right to receive cash or other financial assets from another Company.

i. Initial recognition and measurement

All financial assets, except investment in subsidiary are measured initially at fair value plus, transaction costs that are attributable to the acquisition of the financial asset. The transaction cost incurred for the purchase of financial assets held at fair value through profit or loss are expensed in the statement of Profit and Loss immediately.

ii. Subsequent measurement:

For the purpose of Subsequent measurement financial assets are classified in three categories:

- ✓ Measured at amortised cost
- ✓ Measured at fair value through other comprehensive income (FVOCI)
- ✓ Measured at fair value through Profit and Loss (FVTPL)

Debt instruments at amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are accounted for at amortized cost using the effective interest method. This category comprises trade accounts receivable, loans, cash and cash equivalents, bank

balances and other financial assets. A gain or loss on a debt instrument that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in the Statement of Profit and Loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Debt instruments at fair value through other comprehensive income (FVOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cashflows represent solely payments of principal and interest, are measured at fair value through Other Comprehensive Income (FVOCI). The movement in carrying amount are taken through Other Comprehensive Income, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in the Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in Other Comprehensive Income is reclassified from equity to the Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in finance income using the effective interest rate method.

Debt instruments at fair value through Profit and Loss (FVTPL):

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation at amortized cost or s FVTOCI, is classified as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Equity investments:

All equity investments, except in subsidiary are measured at cost in scope of Ind AS 109 are measured at fair value. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as a FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of Investment. However, the company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

iii. Derecognition:

A financial asset (or, where applicable, a part of financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the company's Balance sheet) when:

- ✓ The rights to receive cash flows from the asset have expired, or
- ✓ The company has transferred substantially all the risks and rewards of the asset

iv. Impairment of financial assets:

In accordance with Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance.
- b) Financial guarantee contracts which are not measured at FVTPL.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Under the simplified approach, the company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive, discounted at the original EIR. ECL impairment loss allowance

(or reversal) recognised during the period is recognised as income/expense in the statement of profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and loss.

3.9 Financial liabilities:

Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through statement of Profit and Loss, loans and borrowing, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, loans and borrowings including cash credit facilities from banks and derivative financial instruments.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through Statement of Profit and loss.

Financial liabilities at fair value through profit and loss include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through Profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivatives financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and loss. Financial liabilities designated upon initial recognition at fair value through statement of profit and loss are designated as such at the initial date of recognition and only if the criteria in IndAS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognised in OCI. These gains/losses are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The company has not designated any financial liability at FVTPL.

Loans and borrowings:

Borrowing cost includes interest expense as per Effective Interest Rate (EIR) and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the company during the year. Capitalisation of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

All other borrowing costs are expensed in the period in which they occur.

Financial guarantee contracts:

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value through statement of profit and loss (FVTPL), adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation

Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of Profit and loss.

Derivative financial instrument:

The Company uses derivative financial instruments, such as forward currency contracts, to hedge its foreign currency risks. Such derivative financial instrument is initially recognized at fair value through consolidated statement of Profit and loss (FVTPL) on the date on which a derivative contract is entered into and is subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivative financial instrument are classified in the consolidated statement of Profit and loss and reported with foreign exchange gains/(loss) not within results from operating activities. Changes in fair value and gains/(losses) on settlement of foreign currency derivative financial instruments relating to borrowings, which have not been designed as hedge are recorded as finance cost

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to relate the assets and settle the liabilities simultaneously.

3.10 Inventories:

Finished goods and Work-in-process are stated at the lower of cost and estimated net realizable value. Cost of inventories constitutes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity.

Raw materials, components, stores and spares are valued at lower of cost and estimated net realizable value. Cost is determined on weighted average basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Provision is recognized for damaged, defective or obsolete stocks where necessary. Cost of all inventories is determined using weighted average method of valuation. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

3.11 Revenue recognition:

Revenue from contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Variable Consideration

If the consideration in a contract includes a variable amount, the company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of goods provide customers with a right of liquidated damages. The liquidated damages give rise to variable consideration.

3.12 Taxes:

Tax expense comprises of current income tax and deferred tax.

Current income tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside the statement of Profit and Loss is recognised outside the statement of Profit and Loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provision where appropriate.

Deferred income tax

Deferred income tax is provided using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- ✓ When the Deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss;
- ✓ In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent it is probable that future taxable amounts will be available against the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized except:

- ✓ When the deferred tax asset arises relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss.
- ✓ In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of Profit and Loss is recognised outside the statement of Profit and Loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Company recognizes tax credits in the nature of MAT credit as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which tax credit is allowed to be carried forward. In the year in which the Company recognizes tax credits as an asset, the said asset is created by way of tax credit to the Statement of profit and loss. The Company reviews such tax credit asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period. Deferred tax includes MAT tax credit.

3.13 Employee benefits:

I. Defined Contribution Plan

a. Provident Fund

Contributions in respect of Employees who are not covered by Company's Employees Provident fund trust are made to the Fund administered by the Regional Provident Fund Commissioner as per the provisions of Employees' Provident Fund and Miscellaneous Provisions Act, 1952 and are charged to Statement of profit and Loss as and when services are rendered by employees. The Company has no obligation other than the contribution payable to the Regional provident fund.

II. Defined Benefit plan

a) Gratuity

Every employee who has completed five years or more of service is entitled to Gratuity as per the provisions of The Payment of Gratuity Act, 1972. Retirement Gratuity for employees is funded Through a scheme of Life Insurance Corporation of India the costs of providing benefits under this plan are determined on the basis of actuarial valuation using the projected unit credit method at each year-end. Actuarial gains/ losses are immediately recognized in retained earnings through Other Comprehensive Income in the period in which they occur. Remeasurements are not re- classified to profit or loss in subsequent periods. The excess/shortfall in the fair value of the plan assets over the present value of the obligation calculated as per actuarial methods as at balance sheet dates is recognized as a gain/ loss in the Statement of Profit and loss. Any asset arising out of this calculation is limited to the past service cost plus the present value of available refunds and reduction in future contributions

b) Provident Fund

In respect of the employees covered by the Company's Employee provident Fund trust in Point I a above, contributions to the Company's Employee provident Fund trust (administered by the Company as per the provisions of Employees' Provident Fund and Miscellaneous Provisions Act, 1952) are made in accordance with the fund rules. The interest rate payable to the beneficiaries every year is being notified by the Government.

In the case of contribution to the Trust, the Company has an obligation to make good the shortfall, if any between the return from the investments of the Trust and the notified interest rate and recognizes such obligation, if any determined based on an actuarial valuation as at the balance sheet date, as an expense.

3.14 Provisions:

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation and a reliable Estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain, the expense relating to a provision is presented in the consolidated statement of Profit and loss net of any reimbursement.

3.15 Earnings per share:

Basic Earnings per Share is calculated by dividing the net profit/ loss for the year attributable to ordinary equity holders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit/ loss for the period attributable to ordinary equity holders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares, if any.

3.16 Cash and cash equivalent:

Cash and cash equivalent in the Balance Sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of charges in value.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management. Bank Overdrafts are shown within Borrowings in current liabilities in the balance sheet.

4. Significant accounting estimates and assumptions:

The preparation of the company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosures of contingent liabilities. Uncertainty about these assumption and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

4.1 Estimates and assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are describes below. The Company based its assumptions and estimates on parameters available when the Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

a) Defined Benefit Plans (Gratuity Benefits):

The cost of the defined benefits gratuity plan and the present value of the gratuity obligation are determined using actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rates, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rates for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. These mortality tables tend to change only at intervals in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for India. Further details about gratuity obligations are given in note - 30

b) Fair value measurement for financial instruments.

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer note- 31 for further disclosures.

4.2 Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

31. FINANCIAL INSTRUMENTS, RISK MANAGEMENT, OBJECTIVES AND POLICIES

31.1 Financial Risk Management:

The company's Board of Directors has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies are established to identify and analyse the risks faced by the company, to set appropriate risk limits and controls and to monitor risks. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the company's activities.

31.2 Credit Risk Management:

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends and ageing of accounts receivable. Individual risk limits are set accordingly

31.4 MARKET RISK

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loan borrowings.

The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, borrowing strategies, and ensuring compliance with market risk limits and policies.

a) Interest rate risk

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the company's position with regards to the interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

With all other variables held constant, the following table demonstrates the impact of the borrowing cost on floating rate portion of loans and borrowings

	-0.50	(584,389)	(5,48,341)

b) Foreign currency risk

The company does not operate internationally and hence not exposed to currency risk on account of its receivables or payables in foreign currency.

c) Commodity Price Risk

Principal Raw Material for company's products is edible and non edible oil. Company sources its raw material requirements from domestic markets. Domestic market price generally remains in line with international market prices. Volatility in oil prices, currency fluctuation of rupee vis a vis other prominent currencies coupled with demand-supply scenario in the world market affect the effective price of edible and non edible oil. Company effectively manages availability of material as well as price volatility through well planned procurement and inventory strategy and also through appropriate contracts and commitments.

d) Sensitivity Analysis

The table below summarises the impact of increase/decrease in prices of raw edible and non edible oil by Rs. 0.50 per kg on profit for the period.
