Expanding our presence

We are delighted to inform you all that our manufacturing facility at Addis Ababa, Ethiopia is operational. With the commitment of our team we were able to achieve this milestone. Our shareholders' support inspires us to perform better and we acknowledge the same.

Letter from the Managing Director

“ At KILITCH we remained persistent in action. This has enabled us to achieve once again a sound performance in a difficult year ”

Mr. Mukund P. Mehta
Managing Director

Dear Shareholders,

We sincerely hope that all of you and your families are safe and healthy. Financial Year 2020-21 was one of those years when global pandemic caught businesses off-guard but at Kilitch we remained persistent in action. This enabled us to once again achieve a sound performance in a difficult year. Unprecedented challenges in some countries of Africa have led to regrouping our strategy to de-risk the business through diversification of our portfolio across the market segment and the same has proved to be very useful.

Uncertainty and instability continue to loom across the globe including India due to emergence of new strains extending the tenure of the pandemic. Presence of risk of increase in cost of raw material and packing material made some orders unviable to accept. The most problematic was the delayed despatch due to lack of availability of containers at Nhava Sheva and Mundra ports.

The movement of our very talented staff to Ethiopia was very difficult due to closure of air routes but we were able to successfully fly them to Addis Ababa, Ethiopia via Middle-East.

All necessary steps were taken to keep manufacturing operations going, keeping in mind the safety of our employees.

Our Ethical business in Francophone African Countries achieved commendable growth during the year. Our marketing team had quickly adapted to digital meetings and new platforms.

I am delighted to announce a few developments at Kilitch despite various challenges:

1. Ethiopia Project:-

Our project at Addis Ababa, Ethiopia is finally operational. We are eagerly awaiting for final approval from Ethiopia FDA. Revenue from Ethiopia facility would gain momentum in the upcoming months.

2. Greenfield Project

To further strengthen our manufacturing infrastructure, we plan to invest in building additional greenfield facilities. In this regard we are identifying a land parcel in the vicinity of our Navi Mumbai Plant.

We are thankful to the Government of Ethiopia for timely assistance of all sorts for commencement of our manufacturing unit at Addis Ababa, Ethiopia.

Warm Regards,
Mukund P. Mehta
Managing Director

Highlights

Indo-Ethiopian Chamber of Commerce and Industry (IECC) was incorporated in December 2020 to explore new areas of mutual co-operation between India and Ethiopia relating to business, commerce and technology transfer. IECC aims to facilitate trade, commerce and industrial development between India and Ethiopia.

With an objective to cater to the African markets, the Company started the commercial production of Cephalosporin Injectables at its Ethiopian facility. There is a good business opportunity since the local demand in Ethiopia is greater than supply.

Our Team

We are committed to create a diverse and inclusive workforce that includes a range of ages, ethnicities, religions and worldviews. We are focused on building a collaborative environment where the employees are valued and appreciated. We believe that the growth of our employees is imperative to the growth of our organisation.

MANAGEMENT DISCUSSION AND ANALYSIS

a) Industry Structure and developments Global

Last year has been an unprecedented period with economies combating extreme volatility and uncertainty posed by COVID-19 pandemic. Ever since the emergence of Covid-19, the Pharmaceutical Industry has been leading the fight against the pandemic in terms of developing medicines and vaccines in record timelines. The global Pharmaceutical Industry has seen an increase in the use of medicines over the past decade where the growth of medicines has outpaced both population and economic growth. This expansion has been largely on account of pharmerging markets. In pharmerging markets, growth will be led by China, which is expected to accelerate post Covid driven by greater uptake and use of new original medicines.

The global pharmaceutical market size in 2020 was estimated at US\$ 1.27 Trillion and is expected to grow at Compound Annual Growth Rate (CAGR) of 3-6% to 1.6 Trillion in total market size by 2025.

India

The Indian Pharmaceutical Industry has achieved significant growth in both domestic and global markets during the last five decades. The pharmaceutical industry in India contributes more than 20% by volume of the global generics market and 62% of the global demand for vaccines. The Indian Pharmaceutical Industry ranks third in terms of volume and 14th in terms of value globally. The Indian Pharma manufacturers export nearly half of the production, both in terms of volume and value to US, UK, South Africa, Russia and other countries. However, there remains a significant opportunity, largely untapped across Japan, China, Australia, ASEAN Countries, Middle Eastern region, Latin America and other African Countries. Some of the factors impacting lower penetration of these regions are: relatively slower paced entry strategy, regulations emphasizing on local manufacturing, volatility in global market etc.

As per the trend so far, Covid -19 pandemic is expected to have far reaching effects. Increase in price of Raw material and packing material is affecting the profit margins of the industry. There have been concerns around overdependence on China for active pharmaceutical ingredients (API) for quite some time now in India. Since the emergence of the pandemic, the industry has experienced disruption in supply chain because of their dependency on China for APIs and excipients.

b) Opportunities and Treats

Covid-19 has clearly highlighted the importance of strong healthcare system, the lack of which can put an entire nation's economy and society at risk. The pandemic has accelerated several opportunities and challenges for the industry. While the growing trust deficit with China presents opportunity for India, there is increased competition from other countries. India is also dependent on China for two-third of its import for bulk drugs or drug intermediaries. Due to the emergence of this pandemic the supply chain and manufacturing facilities were disrupted. The Government of India has taken several measures to overcome this disruption including initiatives like Atmanirbhar Bharat, Ayushman Bharat, Make in India initiative and fast track approval of Covid-19 related drugs to name a few. The companies have also geared up on this front gradually to improve the supply chain.

c) Segment-wise or Product-wise Performance

Kilitch continues to be engaged in the development, manufacturing and marketing of quality finished dosages. The Company has taken steps to build a well diversified business model in terms of markets and products. However, the largest contribution of the business comes from countries in Africa and Asia. Kilitch continues to deliver quality injectables on contract manufacturing for reputed pharmaceutical companies.

We also continue with our efforts to launch differentiated market products. With 15 new product launches planned 2021-22, we will gain more market share.

We expect that the healthcare market in Africa (Nigeria, Kenya and Francophone), CIS, South Africa and South East Asia will also mature in the coming years.

d) Outlook

With an intent to expand our horizon, we plan to invest in building additional manufacturing infrastructure. Investment on the manufacturing front will help us to explore business opportunities in various other countries and products.

We will continue to focus on improved quality of operations, reducing manual intervention through digitization and automated equipment to meet the highest regulatory standards for our manufacturing facility.

e) Risks and Concern

The Risk management framework at Kilitch identifies, evaluates and addresses the potential risks involved in the Company's business. The key risks faced by the Company and their mitigation strategies include:

- Foreign Exchange Fluctuation Risk
- Political Uncertainty/Volatility Risk
- Competition Risk
- Regulatory Risk
- Price Risk

f) Changes in Key Financial Ratios

Pursuant to provisions of Regulation 34 (3) of SEBI (LODR) Regulation, 2015 read with Schedule V part B(1) details of changes in Key Financial Ratios is given hereunder:

Independent Auditors' Report

To,
The Members of
KILITCH DRUGS (INDIA) LIMITED

Report on the Audit of the Standalone Financial Statements Opinion

We have audited the accompanying Standalone Ind AS financial statements of **Kilitch Drugs (India) Limited ("the Company")**, which comprise the Balance Sheet as at March 31, 2021 the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs).

Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to Note 50 of the Financial Statement, which states the impact of Corona virus Disease 2019 (Covid-19) on the operations of the Company.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matters	Auditor's Response to Key Audit Matters
1.	Revenue Recognition [Export Sales]	<p>Obtaining an understanding of and assessing the design, implementation and operating effectiveness of the Company's key internal controls over revenue recognition process.</p> <ul style="list-style-type: none"> • Testing a sample of contracts and testing the revenues recognised with respect thereto by agreeing information back to contract terms. • Testing the controls over the sale data collated for the purpose of recognizing the revenue on sample basis. • Assessing the adequacy of company's disclosure with respect to revenue recognised.
2.	Trade Receivables	Our audit procedures to assess the appropriateness of Trade receivables disclosure and provision against trade receivables included the Note 12 & Note 3 paragraph "H" of significant accounting policies.

Other Information

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.

However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143 of the Act (11 of 2013), we give in the Annexure "A" a statement on the matters specified in paragraph 3 and 4 of the Order.

2. As required under provisions of section 143(3) of the Act, we report that:

a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books.

c. The Balance Sheet, Statement of Profit and Loss including other comprehensive income, Cash Flow Statement and statement of changes in Equity dealt with by this report are in agreement with the books of account.

d. In our opinion, the aforesaid financial statements comply with the accounting standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015.

e. On the basis of written representations received from the directors as on 31st March, 2021, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021, from being appointed as a director in terms of section 164(2) of the Act.

f. With respect to the adequacy of the internal financial control over financial reporting of the company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g. In our opinion, the Managerial remuneration for the year ended March 31, 2021, has been paid by the Company to its Directors in accordance with the provisions of Section 197 read with schedule V to the Act;

h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of the pending litigations on its financial position vide Note No. 36 to the standalone Ind AS financial statements.

ii. The Company did not have any long term contracts including derivative contracts that require provision under any law or accounting standards for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts required to the Investor Education and Protection Fund by the Company during the year.

**Annexure "A" referred to in paragraph 1 under the heading Report on other legal and regulatory requirements of our report of even date****i) In respect of its Fixed Assets :**

a. The Company has maintained proper records showing full particulars including quantitative details and situation of its Fixed Assets, which we are informed, are being updated.

b. As explained to us, all the fixed assets have been physically verified by the management in a phased periodical manner, which in our opinion is reasonable, having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such physical verification.

c. In our opinion and according to the explanations given to us, the Title Deeds of immovable properties are held in the name of company.

ii) In respect of its Inventories :

a. As explained to us, inventories have been physically verified by the management at the end of the year. In our opinion, the frequency of verification is reasonable.

b. According to the information and explanations given to us, in our opinion the procedures of physical verification of stocks followed by the management are reasonable and adequate in relation to the size of the company and the nature of its business.

c. The Company is maintaining proper records of its inventory. No material discrepancies were noticed on verification between the physical stocks and book records having regards to the size of the operations of the company.

iii) The Company has granted an interest bearing unsecured loan to its subsidiary, which is a party covered in the register maintained under section 189 of the Act. The principal amount as well as interest are repayable on demand and do not have a fixed repayment schedule. In view thereof, the overdue amounts pertaining to the said Loan cannot be ascertained. The other terms and conditions of the said Loan are not prima facie prejudicial to the interest of the company.

iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the companies Act, 2013 in respect to grants of the loans, making investments and providing guarantees and securities.

v) According to the information and explanations given to us, the company has not accepted any deposits within the meaning of provisions of section 73 to 76 or any other relevant provisions of the Act and rules framed hereunder. Therefore, provisions of Clause (v) of paragraph 3 of the Order are not applicable to the company.

vi) We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Accounting Records) Rules, 2014 prescribed by the Central Government

under Sub Section (1) of Section 148 of the Act and are of the opinion that, prima facie, the prescribed cost records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

vii) In respect of Statutory dues :

a. According to the records of the Company, undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, GST, Service Tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues which are applicable to the company, have been regularly deposited with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of the aforesaid dues were outstanding as at March 31, 2021 for a period of more than six months from the date of becoming payable.

b. The disputed statutory dues aggregating to Rs. 50,305,650/- that have not been deposited on account of the matters pending before the appropriate authorities are as under:

Name of the Statute	Nature of Dues	Amount in Rupees	Period to which the amount relates	Forum where the dispute is pending
Income Tax Act 1961	Income Tax	50,305,650	A.Y. 2008-09	CIT (Appeals)

viii) According to the records examined by us and the information and explanation given to us, we are of the opinion that the company has not defaulted in re-payment of dues to financial institutions and banks.

ix) During the financial year under report, the Company has availed a term loan from the bank. In our opinion and according to the information and explanations given to us, monies raised by way of the term loan during the year have been applied by the company for the purposes for which they were raised. The Company has not raised any monies by way of initial public offer or further public offer (including debt instruments) during the year under report.

x) Based on the audit procedures performed for the purpose of reporting the true and fair view of the standalone Ind AS financial statements as per the information and explanations given to us, no fraud by the company or on the company by its officers or employees has been noticed or reported during the year.

xi) Based upon the audit procedures performed and information and explanation given by the management, the managerial remuneration has been paid or provided in accordance with the requisite approvals mandated by the provision of section 197 read with "schedule v" to the companies Act, 2013.

xii) In our opinion, the Company is not a Nidhi Company. Therefore, the provisions of clause

(xii) of the Paragraph 3 of the Order are not applicable to the Company.

xiii) In our opinion and as per the information and explanations given to us, all the transactions with related parties are in compliance with section 177 and 188 of The Companies Act, 2013 and the details have been disclosed in the Financial Statements as required by the applicable Accounting Standards.

xiv) In our opinion and as per the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of clause (xiv) of paragraph 3 of the Order are not applicable to the Company.

xv) In our opinion and as per the information and explanations given to us, the Company has not entered into any Non-Cash transaction with Director or Persons connected with him. Hence, the requirement of Clause (xv) of paragraph 3 of the Order is not applicable to the Company.

xvi) To the best of our knowledge and as explained, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

“Annexure B” referred to in paragraph 1 under the heading Report on other legal and regulatory requirements of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Kilitch Drugs (India) Limited (“the Company”) as of March 31, 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Notes to the Financial Statements

For year ended 31st March 2021

Note 1 - Corporate Information:

The Company is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India and its shares are publicly traded on the National Stock Exchange ('NSE') and the Bombay Stock Exchange ('BSE'), in India. The registered office of the company is located at C-301-2, M.I.D.C. TTC Industrial Area, Pawane Village, Thane – 400705.

These financial statements were approved and adopted by the Board of Directors of the Company in their meeting dated 22nd June 2021.

Note 2 - Basis of Preparation of Financial Statements:

The Financial Statements have been prepared to comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The significant accounting policies used in preparing financial statements are set out in Note 3 of the Notes on Financial Statements and are applied consistently to all the periods presented.

Note 3 - Significant Accounting Policies:

A. Functional and presentation of currency:

The financial statements are presented in Indian Rupees, which is the Company's functional currency and all amounts are rounded to the nearest rupees in lakhs.

B. Basis of measurement:

The Financial Statements have been prepared on historical cost basis, except the following:

- Certain financial assets and liabilities are measured at fair value.
- Defined benefit plans – plan assets measured at fair value.
- Share Based Payments.

C. Use of Estimates:

The preparation of the financial statements requires management to make estimates, judgements and assumptions that affect the reported balances of assets and liabilities, disclosure of contingent liabilities as on the date of financial statements and reported amounts of income and expenses during the period.

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

D. Property, Plant and Equipment:

Freehold land is carried at historical cost. Capital work in progress, and all other items of property, plant and equipment are stated at historical cost net of accumulated depreciation and accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the Written down Value method to allocate their cost, net of their residual values, over their estimated useful lives as specified by Schedule to the Companies Act; 2013. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives and method of depreciation are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

E. Intangible assets:

Identifiable intangible assets are recognised when the Company controls the asset & it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

Notes to the Financial Statements

For year ended 31st March 2021

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Intangible assets are amortised over the period on straight line basis. The assets useful life reviewed at each financial year end.

Amortisation methods and periods

Estimated useful lives of Intangible assets are considered as 5 years. Intangible assets are amortised over its useful life using the straight-line method. The amortisation period and the amortisation method for an intangible asset are reviewed at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss.

F. Impairment of Non – Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

G. Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

Classifications of financial instruments are in accordance with the substance of the contractual arrangement and as per the definitions of financial assets, financial liability and an equity instruments.

Financial Assets and investments

I. Initial recognition and measurement:

At initial recognition, the company measures a financial asset (other than financial asset at fair value through profit or loss) at its fair value plus or minus, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of profit & loss.

II. Subsequent recognition and measurement:

Subsequent measurement of financial asset depends on the company's business model for managing the asset and the cash flow characteristics of the asset. For the purpose of subsequent recognition and measurement financial assets are classified in four categories:

- **Debt instrument at amortised cost:**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

- **Debt instrument at fair value through other comprehensive income (FVOCI):**

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses and interest revenue which are recognised in the statement of profit & loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- **Debt instrument at fair value through profit and loss (FVTPL):**

Assets that do not meet the criteria for amortised cost or FVOCI

Notes to the Financial Statements

For year ended 31st March 2021

are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the statement of profit & loss and presented net in the statement of profit & loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

- **Equity instruments:**

All equity instruments are initially measured at fair value. Any subsequent fair value gain / loss is recognised through profit or loss if such investments are held for trading purposes. The fair value gains or losses of all other equity investments are recognised in Other Comprehensive Income.

- **Investment in Subsidiary and Associates:**

The company has accounted for its Investment in subsidiaries and associates at cost.

III. De-recognition:

A financial asset is primarily derecognised i.e. removed from Company's financial statement when:

- The rights to receive cash flows from asset have expired, or
- The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under 'pass-through' arrangement and either;
 - a) The Company has transferred substantially all the risks and rewards of the assets,
 - b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original

carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

IV. Trade receivables:

A receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at fair value less provision for impairment.

Financial Liabilities:

I. Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

II. Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit and loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and has designated upon initial measurement recognition at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the statement of profit & loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

III. Loans and Borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in the statement of profit & loss when the liabilities are derecognised as well as through the EIR amortisation process.

Notes to the Financial Statements

For year ended 31st March 2021

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

IV. Trade and other payables:

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

V. De-recognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the De-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

H. Impairment of Financial assets:

The company assesses impairment based on expected credit losses (ECL) model to the following:

- Financial assets carried at amortised cost;
- Financial asset measured at FVOCI debt instruments.

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables or contract revenue receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has

been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

I. Cash and cash equivalents:

Cash and cash equivalents includes cash on hand and at bank, deposits with banks and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

J. Inventories

Inventories are valued at lower of cost or net realisable value. Cost is determined on FIFO basis.

Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

K. Foreign currency transactions:

The transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Monetary items denominated in foreign currency at the end of year are translated using the closing rate of exchange. Non-monetary items that are to be carried at historical cost are recorded using exchange rate prevailing on the date of transaction. Non-monetary items that are to be carried at fair value are recorded

Notes to the Financial Statements

For year ended 31st March 2021

using exchange rate prevailing on the date of fair value measured. Any income or expenses on account of exchange difference either on settlement or on translation is recognised in the statement of profit & loss.

L. Classification of assets and liabilities as current and non-current:

The Company presents assets and liabilities in Balance Sheet based on current/non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

M. Equity share capital:

Ordinary shares are classified as equity. Incremental costs net of taxes directly attributable to the issue of new equity shares are reduced from retained earnings, net of taxes.

N. Revenue Recognition:

Revenue is recognised to the extent that it is probable that the future economic benefits will flow to the entity and it can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

• Sale of goods

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of goods, it is probable that the economic benefit will flow to the Company, the associated costs and possible return of goods can be estimated reliably, there is neither continuing management involvement to the degree usually associated with ownership nor effective control over the goods sold and the amount of revenue can be measured reliably.

Provisions for chargeback, rebates, discounts and medical aid payments are estimated and provided for in the year of sales and recorded as reduction of revenue.

• Sales Returns

With respect to established products, the Company considers its historical experience of sales returns, levels of inventory in the distribution channel, estimated shelf life, product discontinuances, price changes of competitive products, and the introduction of competitive new products, to the extent each of these factors impact the Company's business and markets. With respect to new products introduced by the Company, such products have historically been either extensions of an existing line of product where the Company has historical experience or in therapeutic categories where established products exist and are sold either by the Company or the Company's competitors.

• Interest income:

Interest income from debt instrument is recognised using effective interest rate method. The effective interest rate is the rate that discounts estimated future cash receipts through the expected life of financial asset to the gross carrying amount of financial asset. When calculating effective interest rate, the company expects cash flows by considering all contractual terms of financial instrument but does not consider the expected credit losses.

• Dividends

Dividends are recognised when the right to receive the payment is established.

O. Employee's benefits:

i. Short-term Employee benefits:

Notes to the Financial Statements

For year ended 31st March 2021

All employees' benefits payable wholly within 12 months rendering services are classified as Short Term obligations. Benefits such as salaries, wages, short term compensated absences, performance incentives, expected cost of bonus and ex-gratia are recognised during the period in which the employees renders related services.

ii. Post-employment benefits

a. Defined Contribution Plan

The defined contribution plan is post-employment benefit plan under which the Company contributes fixed contribution to a government administered fund and will have no legal or constructive obligation to pay further contribution. The Company's defined contribution plan comprises of Provident Fund, Labour Welfare Fund and Employee State Insurance Scheme. The Company's contribution to defined contribution plans are recognised in the statement of profit & loss in the period in which the employee renders the related services.

b. Defined benefit plan

The Company has defined benefit plans comprising of gratuity. Company's obligation towards gratuity liability is partially funded as Management has initiated a decision to be funded and managed by Life Insurance Corporation of India over the period of 20 equated quarterly instalments over a period of 5 years.

The present value of the defined benefit obligations is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Actuarial gains or losses arising on account of experience adjustment and the effect of changes in actuarial assumptions are recognised immediately in the statement of profit & loss as income or expense.

Re-measurements comprising of

(a) Actuarial gains and losses,

(b) the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the statement of profit & loss in subsequent periods.

The expected return on plan assets is the Company's expectation of average long-term rate of return on the investment of the fund over the entire life of the related obligation. Plan assets are measured at fair value as at the Balance Sheet date.

The interest cost on defined benefit obligation and expected return on plan assets is recognised under finance cost.

Gains or losses on the curtailment or settlement of defined benefit plan are recognised when the curtailment or settlement occurs.

c. Other long-term benefits

The Company has other long-term benefits in the form of leave benefits. The present value of the other long term employee benefits is determined

Gains or losses on the curtailment or settlement of other long-term benefits are recognised when the curtailment or settlement occurs.

d. Share-based payments

Share-based compensation benefits are provided to employees via Employee Stock Option Plans with the ESOS 2007.

The fair value of options granted under the Employee Option Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted: Including any market performance conditions (e.g., the entity's share price) excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and

Including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

Notes to the Financial Statements

For year ended 31st March 2021

The total expense, other than in respect of options granted to employees of group companies, is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. The cost of options granted to employees of group companies is debited to the cost of the investment of the respective companies. At the end of each period, the company revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in the statement of profit & loss / Investment, with a corresponding adjustment to other equity.

P. Borrowing Cost:

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for such capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

Borrowing costs consist of interest and other costs that are incurred in connection with the borrowing of funds.

Q. Income Taxes:

Current Income Tax:

Current Income Tax liabilities are measured at the amount expected to be paid to the taxation authorities using the tax rates and tax laws that are enacted or subsequently enacted at the end of the reporting period. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and creates provisions where appropriate.

Deferred Tax:

Deferred Tax is provided, using the Balance sheet approach, on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred Tax is determined using the tax rates and tax laws that

are enacted or subsequently enacted at the end of the reporting period.

Deferred Tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and the deferred tax balances relate to the same taxation authority. Current tax asset and liabilities are offset where the company has a legally enforceable right and intends either to settle on net basis, or to realise the asset and settle the liability simultaneously.

R. Provisions and contingencies:

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using the government securities' interest rate for the equivalent period. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate. Provisions are not recognised for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the notes to the financial statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

S. Earnings per share:

Basic earnings per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders by

Notes to the Financial Statements

For year ended 31st March 2021

the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Note 4 - Use of Significant Accounting Estimates, Judgments and Assumptions

In the process of applying the Company's accounting policies, management has made the following estimates and judgements, which have significant effect on the amounts recognised in the financial statements:

A. Depreciation and useful lives of Property, Plant and Equipment

Property, plant and equipment are depreciated over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation for future periods is adjusted if there are significant changes from previous estimates.

B. Recoverability of trade receivables

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. The Company uses a provision matrix to determine impairment loss allowance on its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

C. Defined Benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in

the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

D. Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

E. Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Estimates and judgments are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. They are continuously evaluated.

F. Fair Value measurement:

The Company measures financial instrument such as certain investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

Notes to the Financial Statements

For year ended 31st March 2021

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Note 5- Amendment to Existing issued Ind AS

The MCA has also carried out amendments of the following accounting standards:

- i. Ind AS 12 – Income Taxes
- ii. Ind AS 19 – Employee Benefits
- iii. Ind As 116 – Leases

Application of above standards are not expected to have any significant impact on the financial statements.

Notes to the Financial Statements

For year ended 31st March 2021

viii. Sensitivity analysis:

Increase/ (decrease) on present value of defined benefits obligations at the end of the year:

(Rs. in Lakhs)

Particulars	Change in assumption	Effect on Gratuity obligation	
		2020-21	2019-20
Discount rate	+1%	63.57	62.01
	-1%	74.81	75.81
Salary Escalation rate	+1%	74.77	75.75
	-1%	63.52	61.94

These gratuity plan typically expose the Company to actuarial risks such as: investment risk, interest risk, longevity risk and salary risk.

Investment Risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. For other defined benefit plans, the discount rate is determined by reference to market yield at the end of reporting period on high quality corporate bonds when there is a deep market for such bonds; if the return on plan asset is below this rate, it will create a plan deficit.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Fair valuation techniques:

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available.

The following methods and assumptions were used to estimate the fair values

- Fair value of the Equity Shares are based on price quoted on stock exchange.
- Fair value of investment in unquoted equity shares are considered same as carrying value as the same are recently acquired.
- Fair value of Financial Assets & Financial Liability (except which are show at their fair value) are carried at amortised cost is not materially different from its carrying cost.

Notes to the Financial Statements

For year ended 31st March 2021

Fair Value hierarchy:

The following table provides the fair value measurement hierarchy of Company's asset and liabilities, grouped into Level 1 to Level 3 as described below:

Level 1: Quoted prices / published NAV (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). Fair value of the financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2

Level 3: Inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Note 45 - Financial Risk Management:

The Company's activities expose it to credit risk, liquidity risk and market risk. This note explains the sources of risks which the entity is exposed to and how it mitigates that risk.

Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings and investments in securities.

Foreign currency risk :

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company is exposed to foreign exchange risk through purchases of goods or services from overseas supplier in foreign currency. The Company generally transacts in US dollar. The foreign exchange rate exposure is balanced by purchasing of goods or services in the respective currency.

The Company is exposed to insignificant foreign exchange risk as at the respective reporting dates.

Interest rate risk :

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company is not exposed to interest rate risk as the Company has fixed rate of borrowings as at the respective reporting dates.

Commodity and Other price risk

The Company is not exposed to the commodity and other price risk.

Notes to the Financial Statements

For year ended 31st March 2021

Credit Risk

Credit risk is the risk of financial loss to the Company that a customer or counter party to a financial instrument fails to meet its obligations. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, mutual funds, financial institutions and other financial instruments

Trade and other receivables:

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extension of credit to customers. To manage credit risk, the Company periodically assesses the financial reliability of the customer, taking into account the financial condition, current economic trends, and analysis of historical bad debts and aging of accounts receivables. Outstanding customer receivables are regularly monitored to make an assessment of recoverability. Receivables are provided as doubtful / written off, when there is no reasonable expectation of recovery. Where receivables have been provided / written off, the Company continues regular follow-up, engage with the customers, legal options / any other remedies available with the objective of recovering these outstanding.

The Company is not exposed to concentration of credit risk to any one single customer since services are provided to vast spectrum and hence, the concentration of risk with respect to trade receivables is low. The Company also takes security deposits, advances, post-dated cheques etc. from its customers, which mitigate the credit risk to an extent.”

Cash and cash equivalents another investments :

The Company is exposed to counter party risk relating to medium term deposits with banks and investment in mutual funds.

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances and deposits are maintained. Generally, the balances are maintained with the institutions with which the Company has also availed borrowings. “

Exposure to credit risk :

The gross carrying amount of financial assets, net of impairment losses recognised represents the maximum credit exposure.

The maximum exposure to credit risk as at 31st March 2021 and 31st March 2020 is as follows:

Liquidity risk :

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current borrowings are sufficient to meet its short to medium term expansion needs. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

The Company is required to maintain ratios (such as debt service coverage ratio and secured coverage ratio) as mentioned in the loan agreements at specified levels and also cash deposits with banks to mitigate the risk of default in repayments. In the event of any failure to meet these covenants, these loans become callable to the extent of failure at the option of lenders, except where exemption is provided by lender.

Note 49 - Note on COVID 19 Pandemic

This is with regards to the multiple lockdowns across the country, imposed by the Government of India on 24th March 2020 limiting the movement of entire population of the country as a preventive measure against the COVID-19 Pandemic in India. COVID-19 has severely impacted the businesses across the world.

During these unprecedented times caused by the COVID -19, a Global Pandemic as declared by WHO, the company, being a pharmaceutical manufacturing company and falling under the essential goods, has had its sole focus to ensure the uninterrupted supply of our products to meet the needs of our customers.

To help and protect its workers/employees, the company has taken extensive measures at its plant located at Navi-Mumbai to limit the exposure towards the Virus by implementing social distancing norms and providing a healthy work environment at the said plant. Corporate office-based work is being conducted remotely and the Company has implemented strict travel restrictions for the employees.

The Navi-Mumbai plant initially worked at a lower capacity but is now operating at its sufficient capacity. Availability of raw materials and finished stocks from third party manufacturers as well as supply chain and distribution channels were marginally impacted initially due to the lockdowns across the world. However, sufficient levels of stocks have been maintained in the channel to cater to the demand. There has been no significant adverse impact on business operations. The Company has adequate liquidity to service its obligations to its vendors and employees, as well as for payment of statutory dues.

Note 50 - The previous year figures have been regrouped, reworked, rearranged and reclassified, wherever necessary and are to be read in relation to the amounts and other disclosures relating to the current year.

Independent Auditors' Report

TO
THE MEMBERS
KILITCH DRUGS (I) LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of **Kilitch Drugs (India) Limited** (herein referred to as the Holding Company) and its subsidiaries (the Holding company and its subsidiaries together referred together as "The Group"), comprising of the Consolidated Balance Sheet as at March 31, 2021 the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the consolidated profit and total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated financial statements.

Emphasis of Matter

We draw attention to Note 53 of the Statement, which states the impact of Corona virus Disease 2019 (Covid-19) on the operation of the Group. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

2.	Trade Receivables	Our audit procedures to assess the appropriateness of Trade receivables disclosure and provision against trade receivables included the Note 12 & Note 3 paragraph "H" of significant accounting policies.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of directors of the entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors are also responsible for overseeing the Company's financial reporting process of each entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

Communication with those charged with Governance

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We have relied on the unaudited financial statements of one foreign subsidiary, whose financial statements reflects total assets of Rs. 9,060.54 Lakhs as at 31st March, 2021, total revenue of Rs. 59.91 Lakhs, total net profit after tax of Rs. 28.95 Lakhs and total comprehensive income Rs. 28.95 Lakhs for year ended 31st March, 2021 and net cash inflow of Rs. 665 Lakhs for the year ended 31st March, 2021 as considered in the consolidated financial statements. These unaudited financial statements have been furnished to us by the management and our opinion on the statement, in so far as it relates to the amounts included in respect of the said subsidiary is solely based on such unaudited financial statements certified by the management.

Our conclusion on the consolidated financial statement is not modified in respect of the other matters above.

Report on Other Legal and Regulatory Requirements

**“Annexure A” to Independent Auditors’ report referred of even date on the Consolidated Financial Statements.****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Kilitch Drugs (India) Limited (hereinafter referred to as (“the Holding”) and its subsidiary companies (the Holding Company and its subsidiaries together referred to as “the Group”) which are companies incorporated in India as of 31st March, 2021 in conjunction with our audit of the consolidated financial statements of the Company for the year then ended.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company, its subsidiary companies which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

the procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

Note 1: Corporate Information

Kilitch Drugs India Limited ("KDIL" or "Parent") is domiciled and incorporated under the provisions of the Companies Act applicable in India and its shares are publicly traded on the National Stock Exchange ('NSE') and the Bombay Stock Exchange ('BSE'), in India. The registered office of the company is located at C-301-2, M.I.D.C. TTC Industrial Area, Pawane Village, Thane – 400705, Maharashtra, India.

Group is engaged in operation and management of Pharmaceutical Products.

These financial statements were approved and adopted by the Board of Directors of the Company in their meeting dated 22nd June, 2021.

Note 2 - Basis of Preparation of Financial Statements:

The Financial Statements have been prepared to comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The significant accounting policies used in preparing financial statements are set out in Note 3 of the Notes on Financial Statements and are applied consistently to all the periods presented.

Note 3 - Significant Accounting Policies:

A. Functional and presentation of currency:

The financial statements are presented in Indian Rupees, which is the Group's functional currency and all amounts are rounded to the nearest rupees in lakhs.

B. Basis of measurement:

The consolidated financial statements have been prepared on an accrual basis and under the historical cost convention except following which have been measured at fair value, except the following:

- Certain financial assets and liabilities are measured at fair value.
- Defined benefit plans – plan assets measured at fair value.
- Share Based Payments.

C. Basis of consolidation

The consolidated financial statements of the Group incorporate the financial statements of the Parent Company and its subsidiaries and associates. The Parent Company has control over the subsidiaries as it is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability

to affect its returns through its power over the subsidiaries. Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including the contractual arrangement with the other vote holders of the investee, rights arising from other contractual arrangements, the Group's voting rights and potential voting rights and the size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders. The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but has no control or joint control over those policies.

Consolidation Procedure:

a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

b) Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Parent Company gains control until the date when the Parent Company ceases to control the subsidiary.

c) Profit or loss and each component of other comprehensive income are attributed to the owners of the Parent Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Parent Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

d) Adjustments are made to the financial statements of subsidiaries, as and when necessary, to bring their accounting policies into line with the Group's accounting policies.

e) All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

members of the Group are eliminated in full on consolidation.

f) Carrying amount of the Parent's investment in each subsidiary and the Parent's portion of equity are eliminated. Business combinations policy explains how the related goodwill is accounted at the time of acquisition of subsidiary.

g) Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Parent Company.

h) Investment in Associates has been accounted under the equity method as per Ind AS 28 - Investments in Associates and Joint Ventures. The Company accounts for its share of post-acquisition changes in net assets of associates, after eliminating unrealised profits and losses resulting from transactions between the Company and its associates to the extent of its share, through its Consolidated Statement of Profit and Loss, to the extent such change is attributable to the associates' Statement of Profit and Loss and through its reserves for the balance based on available information.

D. Use of Estimates:

The preparation of the financial statements requires management to make estimates, judgements and assumptions that affect the reported balances of assets and liabilities, disclosure of contingent liabilities as on the date of financial statements and reported amounts of income and expenses during the period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

E. Business Combinations

The acquisitions of businesses are accounted for using the acquisition method. The cost of the acquisition is measured at the aggregate of the fair values at the date of exchange of assets given, liabilities incurred or assumed and equity instruments issued by the Group in exchange for control of the acquiree. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognized at their fair values at the acquisition date except certain assets and liabilities required to be measured as per the applicable standard. Goodwill arising on acquisition is recognized as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets acquired, liabilities recognized and contingent liabilities assumed. In the case of bargain purchase, resultant gain is recognized in other comprehensive income on the acquisition date and accumulated to capital reserve in equity. The interest of non-controlling shareholders in the acquiree is initially measured at the non-controlling shareholders proportionate share of the acquiree's identifiable net assets.

F. Property, Plant and Equipment

Freehold land is carried at historical cost. Capital work in progress, and all other items of property, plant and equipment are stated at historical cost net of accumulated depreciation and accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value Leasehold land is amortized over the period of lease. Depreciation on other fixed assets (excluding land and lease land in perpetuity) is provided on written down value method as per the useful life specified in schedule II to the Companies Act, 2013, in the manner state therein. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives and method of depreciation are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit or loss.

For year ended 31st March, 2021

G. Intangible Assets

Identifiable intangible assets are recognized a) when the Group controls the asset, b) it is probable that future economic benefits attributed to the asset will flow to the Group and c) the cost of the asset can be reliably measured.

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Intangible assets are amortised over the period on straight line basis. The assets useful life reviewed at each financial year end.

H. Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity. Classifications of financial instruments are in accordance with the substance of the contractual arrangement and as per the definitions of financial assets, financial liability and an equity instruments.

Financial Assets and investments

i. Initial recognition and measurement:

At initial recognition, the group measures a financial asset (other than financial asset at fair value through profit or loss) at its fair value plus or minus, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of profit & loss.

ii. Subsequent recognition and measurement:

Subsequent measurement of financial asset depends on the group's business model for managing the asset and the cash flow characteristics of the asset. For the purpose of subsequent recognition and measurement financial assets are classified in four categories:

- **Debt instrument at amortised cost:**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

- **Debt instrument at fair value through other comprehensive income (FVOCI):**

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows

represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses and interest revenue which are recognised in the statement of profit & loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- **Debt instrument at fair value through profit and loss (FVTPL):**

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the statement of profit & loss and presented net in the statement of profit & loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

- **Equity instruments:**

All equity instruments other than in associates are initially measured at fair value. Any subsequent fair value gain/loss is recognised through profit or loss if such investments are held for trading purposes. The fair value gains or losses of all other equity investments are recognised in Other Comprehensive Income.

- **Investment in Associates:**

The Group has accounted for its Investment in associates at cost

iii. Derecognition:

A financial asset is primarily derecognised i.e. removed from Group's financial statements when:

- The rights to receive cash flows from asset have expired, or
- The Group has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under 'pass-through' arrangement and either;

a) The Group has transferred substantially all the risks and rewards of the assets,

b) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the group could be required to repay.

iv. Trade receivables:

A receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at fair value less provision for impairment.

Financial Liabilities:

a. Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

b. Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit and loss financial liabilities at fair value through profit or loss include financial liabilities held for trading and has designated upon initial measurement recognition at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the statement of profit & loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

c. Loans and Borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective

interest rate (EIR) method. Gains and losses are recognised in the statement of profit & loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

d. Trade and other payables:

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

I. Impairment of Assets

An asset is considered as impaired when at the date of Balance Sheet there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs exceeds its recoverable amount (i.e. the higher of the net asset selling price and value in use).

• Impairment of Goodwill

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or when there is an indication that the unit may be impaired. The recoverable amount of cash generating unit is determined for each legal entity based on a value in use calculation which uses cash flow projections and appropriate discount rate is applied. The discount rate takes into account the expected rate of return to shareholders, the risk of achieving the business projections, risks specific to the investments and other factors. If the recoverable amount of the cash-generating unit is less than its carrying amount, the

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

- **Impairment of Non – Financial Asset:**

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

- **Impairment of Financial asset:**

The Group assesses impairment based on expected credit losses (ECL) model to the following:

- Financial assets carried at amortised cost;
- Financial asset measured at FVOCI debt instruments.

The Group follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables or contract revenue receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Group uses a provision matrix to determine impairment loss allowance on its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

For assessing increase in credit risk and impairment loss, the group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

- J. **Cash and cash equivalents**

Cash and cash equivalents includes cash on hand and at bank, deposits with banks and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

- K. **Inventories**

Inventories are valued at lower of cost or net realisable value. Cost is determined on FIFO basis.

Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

- L. **Foreign currency transactions:**

The transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Monetary items denominated in foreign currency at the end of year are translated using the closing rate of exchange. Non- monetary items that are to be carried at historical cost are recorded using exchange rate prevailing on the date of transaction. Non-monetary items that are to be carried at fair value are recorded using exchange rate prevailing on the date of fair value measured. Any income or expenses on account of exchange difference either on settlement or on translation is recognised in the statement of profit or loss.

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

M. Classification of assets and liabilities as current and non-current:

The Group presents assets and liabilities in Balance Sheet based on current/non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

N. Equity share capital

Ordinary shares are classified as equity. Incremental costs net of taxes directly attributable to the issue of new equity shares are reduced from retained earnings, net of taxes.

O. Revenue recognition

Revenue is recognised to the extent that it is probable that the future economic benefits will flow to the entity and it can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

• Sale of goods

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of goods, it is probable that the economic benefit will flow the Group, the associated costs and possible return of goods can be estimated reliably, there is neither continuing management involvement to the degree usually associated with ownership nor effective control over the goods sold and the amount of revenue can be measured reliably.

Provisions for chargeback, rebates, discounts and medical aid payments are estimated and provided for in the year of sales and recorded as reduction of revenue.

• Sales Returns

With respect to established products, the Group considers its historical experience of sales returns, levels of inventory in the distribution channel, estimated shelf life, product discontinuances, price changes of competitive products, and the introduction of competitive new products, to the extent each of these factors impact the Company's business and markets. With respect to new products introduced by the Group, such products have historically been either extensions of an existing line of product where the Group has historical experience or in therapeutic categories where established products exist and are sold either by the Group or the Group's competitors.

• Interest income

Interest income from debt instrument is recognised using effective interest rate method. The effective interest rate is the rate that discounts estimated future cash receipts through the expected life of financial asset to the gross carrying amount of financial asset. When calculating effective interest rate, the Group expects cash flows by considering all contractual terms of financial instrument but does not consider the expected credit losses.

• Dividends

Dividends are recognised when the right to receive the payment is established.

P. Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for such capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

Borrowing costs consist of interest and other costs that are incurred in connection with the borrowing of funds.

Q. Employee Benefits

i. Short-term Employee benefits:

All employees' benefits payable wholly within 12 months

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

rendering services are classified as Short Term obligations. Benefits such as salaries, wages, short term compensated absences, performance incentives, expected cost of bonus and ex-gratia are recognised during the period in which the employees renders related services.

ii. Post-employment benefits

a. Defined Contribution Plan

The defined contribution plan is post-employment benefit plan under which the Group contributes fixed contribution to a government administered fund and will have no legal or constructive obligation to pay further contribution. The Group's defined contribution plan comprises of Provident Fund, Labour Welfare Fund and Employee State Insurance Scheme. The Group's contribution to defined contribution plans are recognised in the statement of profit & loss in the period in which the employee renders the related services.

b. Defined benefit plan

The Group has defined benefit plans comprising of gratuity. Group's obligation towards gratuity liability is partially funded as Management has initiated a decision to be funded and managed by Life Insurance Corporation of India over the period of 20 equated quarterly instalments over a period of 5 years.

The present value of the defined benefit obligations is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Re-measurements comprising of (a) actuarial gains and losses, (b) the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the statement of profit & loss in subsequent periods.

The expected return on plan assets is the Group's expectation of average long-term rate of return on the investment of the fund over the entire life of the related obligation. Plan assets are measured at fair value as at the Balance Sheet date.

The interest cost on defined benefit obligation and expected return on plan assets is recognised under finance cost.

Gains or losses on the curtailment or settlement of defined benefit plan are recognised when the curtailment or settlement occurs.

c. Other long-term benefits

The Group's employees have other long-term benefits in the form of leave benefits. The present value of the other long term employee benefits is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Actuarial gains or losses arising on account of experience adjustment and the effect of changes in actuarial assumptions are recognised immediately in the statement of profit & loss as income or expense.

Gains or losses on the curtailment or settlement of other long-term benefits are recognised when the curtailment or settlement occurs.

d. Share-based payments

Share-based compensation benefits are provided to employees via Employee Stock Option Plans with the ESOS 2007.

The fair value of options granted under the Employee Option Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- Including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense, other than in respect of options granted to employees of group companies, is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. The cost of options granted to employees of group companies is debited to the cost of the investment of the respective companies. At the end of each period, the Group revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in the statement of profit & loss / Investment, with a corresponding adjustment to other equity.

R. Income Taxes:

• Current Income Tax:

Current Income Tax liabilities are measured at the amount

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

expected to be paid to the taxation authorities using the tax rates and tax laws that are enacted or subsequently enacted at the end of the reporting period. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and creates provisions where appropriate.

• **Deferred Tax:**

Deferred Tax is provided, using the Balance sheet approach, on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred Tax is determined using the tax rates and tax laws that are enacted or subsequently enacted at the end of the reporting period.

Deferred Tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and the deferred tax balances relate to the same taxation authority. Current tax asset and liabilities are offset where the Group has a legally enforceable right and intends either to settle on net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the statement of profit & loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

S. **Provisions and contingencies**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using the government securities' interest rate for the equivalent period. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate. Provisions are not recognised for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be

confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the notes to the financial statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

T. **Earning per share:**

Basic earning per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earning per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Note 4 - Use of Significant Accounting Estimates, Judgments and Assumptions

In the process of applying the Group's accounting policies, management has made the following estimates and judgements, which have significant effect on the amounts recognised in the financial statements:

A. **Depreciation and useful lives of Property, Plant and Equipment**

Property, plant and equipment are depreciated over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values are based on the Group's historical experience with similar assets and take into account anticipated technological changes. The depreciation for future periods is adjusted if there are significant changes from previous estimates.

B. **Recoverability of trade receivables**

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. The Group uses a provision matrix to determine impairment loss allowance on its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates.

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

C. Defined Benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

D. Provisions

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

E. Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgments are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. They are continuously evaluated.

F. Fair Value measurement

The Group measures financial instrument e.g. investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Note 5 New Standards Issued/ Amendment to Existing Standards and Schedules

On March 24, 2021, the Ministry of Corporate Affairs (MCA) through a notification amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of the schedule III and are applicable from April 1, 2021. The Group is evaluating the effects of the amendments on its financial statement.

viii. Sensitivity analysis:

Increase/ (decrease) on present value of defined benefits obligations at the end of the year:

(Rs. in Lakhs)

Particulars	Change in assumption	Effect on Gratuity obligation	
		2020-21	2019-20
Discount rate	+1%	63.57	62.01
	-1%	74.81	75.81
Salary Escalation rate	+1%	74.77	75.75
	-1%	63.52	61.94

These gratuity plan typically expose the Group to actuarial risks such as: investment risk, interest risk, longevity risk and salary risk.

Investment Risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. For other defined benefit plans, the discount rate is determined by reference to market yield at the end of reporting period on high quality corporate bonds when there is a deep market for such bonds; if the return on plan asset is below this rate, it will create a plan deficit.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Fair valuation techniques:

The Group maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The following methods and assumptions were used to estimate the fair values

Fair value of the Equity Shares are based on price quoted on stock exchange.

Fair value of investment in unquoted equity shares are considered same as carrying value as the same are recently acquired.

Fair value of Financial Assets & Financial Liability (except which are shown at their fair value) are carried at amortised cost is not materially different from its carrying cost.

Fair Value hierarchy:

The following table provides the fair value measurement hierarchy of Group's asset and liabilities, grouped into Level 1 to Level 3 as described below:

Level 1: Quoted prices / published NAV (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date.

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). Fair value of the financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Group specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Note 48 - Financial Risk management:

The Group's activities expose it to credit risk, liquidity risk and market risk. This note explains the sources of risks which the entity is exposed to and how it mitigates that risk.

Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings and investments in securities.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign exchange risk through purchases of goods or services from overseas supplier in foreign currency. The Group generally transacts in US dollar. The foreign exchange rate exposure is balanced by purchasing of goods or services in the respective currency.

The Group is exposed to insignificant foreign exchange risk as at the respective reporting dates.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group is not exposed to interest rate risk as the Group has fixed rate of borrowings as at the respective reporting dates.

Commodity and Other price risk

The Group is not exposed to the commodity and other price risk.

Credit Risk

Credit risk is the risk of financial loss to the Group that a customer or counter party to a financial instrument fails to meet its obligations. The Group is exposed to credit risk from its operating activities

(primarily trade receivables) and from its financing activities, including deposits with banks, mutual funds, financial institutions and other financial instruments.

Trade and other receivables

The Group extends credit to customers in normal course of business. The Group considers factors such as credit track record in the market and past dealings for extension of credit to customers. To manage credit risk, the Group periodically assesses the financial reliability of the customer, taking into account the financial condition, current economic trends, and analysis of historical bad debts and aging of accounts receivables. Outstanding customer receivables are regularly monitored to make an assessment of recoverability.

Consolidated Notes to the Financial Statements

For year ended 31st March, 2021

Receivables are provided as doubtful / written off, when there is no reasonable expectation of recovery. Where receivables have been provided / written off, the Group continues regular follow-up, engage with the customers, legal options / any other remedies available with the objective of recovering these outstanding. The Group is not exposed to concentration of credit risk to any one single customer since services are provided to vast spectrum and hence, the concentration of risk with respect to trade receivables is low. The Group also takes security deposits, advances, post-dated cheques etc. from its customers, which mitigate the credit risk to an extent.

Cash and cash equivalents another investments

The Group is exposed to counter party risk relating to medium term deposits with banks and investment in mutual funds. The Group considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances and deposits are maintained. Generally, the balances are maintained with the institutions with which the Group has also availed borrowings.

Exposure to credit risk

The gross carrying amount of financial assets, net of impairment losses recognised represents the maximum credit exposure. The maximum exposure to credit risk as at 31st March, 2021 and 31st March, 2020 is as follows:

For year ended 31st March, 2021

Cash and Cash equivalent, other Investment, Loans and other financial assets are neither past due nor impaired. Management is of view that these financial assets are considered good and 12 months ECL is not provided.

Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

The Group's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current borrowings are sufficient to meet its short to medium term expansion needs. Management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows. The Company is required to maintain ratios (such as debt service coverage ratio and secured coverage ratio) as mentioned in the loan agreements at specified levels and also cash deposits with banks to mitigate the risk of default in repayments. In the event of any failure to meet these covenants, these loans become callable to the extent of failure at the option of lenders, except where exemption is provided by lender.

Note 52 - Note on COVID 19 Pandemic

This is with regards to the multiple lockdowns across the country, imposed by the Government of India on 24th March 2020 limiting the movement of entire population of the country as a preventive measure against the COVID-19 Pandemic in India. COVID -19 has severely impacted the businesses across the world.

During these unprecedented times caused by the COVID-19, a Global Pandemic as declared by WHO, the company, being a pharmaceutical manufacturing company and falling under the essential goods, has had its sole focus to ensure the uninterrupted supply of our products to meet the needs of our customers.

To help and protect its workers/employees, the company has taken extensive measures at its plant located at Navi Mumbai to limit the exposure towards the Virus by implementing social distancing norms and providing a healthy work environment at the said plant. Corporate office-based work is being conducted remotely and the Company has implemented strict travel restrictions for the employees.

The Navi Mumbai plant initially worked at a lower capacity but is now operating at its sufficient capacity. Availability of raw materials and finished stocks from third party manufacturers as well as supply chain and distribution channels were marginally impacted initially due to the lockdowns across the world. However, sufficient levels of stocks have been maintained in the channel to cater to the demand. There has been no significant adverse impact on business operations. The Company has adequate liquidity to service its obligations to its vendors and employees, as well as for payment of statutory dues.

Note 53 - The previous year figures have been regrouped, reworked, rearranged and reclassified, wherever necessary and are to be read in relation to the amounts and other disclosures relating to the current year.
