MANAGEMENT DISCUSSION AND ANALYSIS

Economic & Industry Overview

As per the International Monetary Fund, global economic growth was expected to rise from 2.9 percent in 2019 to 3.3 percent in 2020, slightly weaker than earlier projections. Economic weakness in certain emerging market economies, especially India led to this revision of growth prospects. Stronger multilateral cooperation, more balanced policy mix at national levels and impact of monetary policy easing could help strengthen economic activity and prevent downside risks.

However, the coronavirus (COVID-19) outbreak has brought considerable human suffering and major economic disruption with the growth prospects of the global economy becoming highly uncertain. Adverse impact on global business confidence has been witnessed in the first quarter of 2020, with financial markets demonstrating high volatility and capital flight, especially in emerging market economies where investors have been major sellers in stock markets. IMF predicts that global growth is expected to fall below 2019 levels.

Economic growth, an expanding global population, rise in incomes and technological change are expected to contribute to growth in the pharmaceutical industry. However, social, economic and political challenges remain in meeting unmet medical needs. The global healthcare market continues to grow, despite signs of economic slowdown in some countries. Global medicine spending is expected to rise from US\$955 billion in 2019 to over US\$1.1 trillion by 2024, per IQVIA.

Pharmaceuticals sector overview

The global pharmaceuticals industry offers significant opportunities to service the healthcare needs of a growing and ageing global population. The Industry has witnessed major investments in developing innovative medicines like monoclonal anti bodies, immunotherapy drugs and gene therapies. Many of these medicines have seen significant success as they are serving the unmet medical needs of patients, resulting in improved medical outcomes and thus changing the lives of patients.

The industry will have to adapt to this changed scenario, although it also offers significant learning opportunities. These changing dynamics are also likely to have an impact on competition since return ratios on investments in the European and emerging generics business are growing up and down and not every generics company will be able to remain economically viable at the current rate of price.

Pharma outlook: positive factors

The new financial year comes with a new set of challenges in the midst of the ongoing COVID-19 pandemic. However, we are confident of emerging from the current situation stronger and more determined than ever to deliver on our commitments.

India

India is the largest provider of generic drugs globally. Indian pharmaceutical sector industry supplies over 50 per cent of global demand for various vaccines, 40 per cent of generic demand in the US and 25 per cent of all medicine in UK.

India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers who have the potential to steer the industry ahead to an even higher level. Presently over 80 per cent of the antiretroviral drugs used globally to combat AIDS (Acquired Immune Deficiency Syndrome) are supplied by Indian pharmaceutical firms.

Indian pharmaceutical sector is expected to grow to US\$ 100 billion and medical device market expected to grow US\$ 25 billion by 2025. Pharmaceuticals exports from India stood at US\$ 19.14 billion in FY19 and US\$ 13.69 billion in FY20 (up to January 2020). Pharmaceutical exports include bulk drugs, intermediates, drug formulations, biologicals, Ayush & herbal products and surgicals.

Indian companies received 304 Abbreviated New Drug Application (ANDA) approvals from the US Food and Drug Administration (USFDA) in 2017 and received a total of 415 product approvals in 2018 and 73 tentative approvals. The country accounts for around 30 per cent (by volume) and about 10 per cent (value) in the US\$ 70-80 billion US generics market.

India's biotechnology industry comprising biopharmaceuticals, bio-services, bio-agriculture, bio-industry and bioinformatics is expected to grow at an average growth rate of around 30 per cent a year and reach US\$ 100 billion by 2025.

India's domestic pharmaceutical market turnover reached Rs 1.4 lakh crore (US\$ 20.03 billion) in 2019, growing 9.8 per cent year-on-year (in Rs) from Rs 129,015 crore (US\$ 18.12 billion) in 2018.

Cost efficiency-

Low cost of production and R&D boosts efficiency of Indian Pharma Companies, leading to competitive exports

India's pharmaceutical exports stood at US \$ 13.69 billion in FY 2020. The exports are expected to reach US \$ 22 billion by 2020.

Economic drivers

High economic growth along with increasing penetration of health insurance to push expenditure on healthcare and medicine in India.

Policy Support

Government of India's 'Pharma Vision 2020' aims to make India a global leader in end-to-end drug manufacturing. In this sector 100% FDI is allowed under automatic route.

Increasing Investment

Increasing private sector investments in R&D and acquisitions are driving the sector's growth. In FY 18, Indian Pharma Companies invested 8.8% of their sales in R&D.

Indian drugs and pharmaceuticals sector has received cumulative FDI worth US \$ 16.39 billion between April 2000 and December 2019.

Risks and concerns

Risk is a potential event or non-event, the occurrence or non-occurrence of which, can adversely affect the objectives or strategy of the Company or result in opportunities being missed. A risk could be categorized into financial, operational, strategic, regulatory/ statutory, reputational, political, catastrophic/ pandemic etc.

The global pharma business is marked by a variety of risks. Pharmaceutical companies struggle to globally enforce IP protection, particularly in some emerging markets. Enhanced regulatory scrutiny is set against a backdrop of increasing patient advocacy, social media and affiliate marketing programs. The digitization and proliferation of electronic medical records, networked medical devices, mobile health applications, cloud-based technologies and data-sharing among industry stakeholders have increased the complexity of managing information assets, particularly protected/patient health information and intellectual property. The success of new products in the global pharmaceutical industry will more than offset global pricing pressures, supporting an outlook change from stable to positive for the industry

Your company constantly reviews its policies and procedures to adhere to ensure conformity to the various regulatory approvals for its manufacturing facilities.

Company Overview

Your directors are giving their best efforts for exploring more business opportunities so has to increase the growth and profitability of the company in the years to come.

Internal Control Systems

The company has reasonable internal control systems, with defined guidelines on compliance, which enables it to run its operations with a fair degree of comfort.

Internal controls are implemented to safeguard its assets, to keep constant check on cost structure, to provide adequate financial and accounting controls and implement accounting standards. The system incorporates continuous monitoring, routine reporting, checks and balances, purchase policies, authorization and delegation procedures and audit etc. Internal controls are adequately supported by Internal Audit and periodic review by the management.

The Audit Committee meets periodically to review with the management, statutory auditors and with the internal auditors, adequacy/scope of internal audit function, significant findings and follow up there on and findings of any abnormal nature. The system is improved and modified continuously to meet with changes in business condition, statutory and accounting requirements.

Material Development in Human Resources / Industrial Relations Front

The number of employees as on 31st March, 2020 was 5.

The growth attained by the Company is largely a function of the competence and quality of its human resources. The work environment is very challenging and performance-oriented, recognizing employee potentials by providing them with adequate opportunities. We have made efforts to discipline our hiring process. Acquisition and retention of talent which is in line with your company's goals continues to be a major thrust area.

Independent Auditor's Report

To the Members of
Pharmaids Pharmaceuticals Limited,
Hyderabad

Report on the Audit of the Financial Statements

Qualified Opinion

1. We have audited the accompanying Financial Statements of Pharmaids Pharmaceuticals Limited ('the Company'), which comprise the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us except for the information referred to in Basis for Qualified opinion of our report, the aforesaid Financial Statements give the information required by the Companies Act, 2013('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs (Financial position) of the Company as at 31st March,2020 , and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Qualified Opinion

3. The Balances of Current Financial Assets, Other Non-Current Assets, Non Current Liabilities and Current Liabilities other current liability are subject to Confirmation/reconciliations. The Impact of the same is, unascertained.
4. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matter described below to be the key audit matters to be communicated in our report.

Key Audit Matter

Carrying value of Investment in Associate entity. Significant change in Management of the entity

How our Audit addressed the key audit matter

As per NCLT Order dated 27/09/2019, Pharmaids Pharmaceuticals Limited Amalgamated with Emergent Bio Naturals Limited with effect from 01/04/2018. However, Pharmaids Pharmaceuticals limited will continue its operations in its own name under new management.

Going Concern of the Company

As informed to us, as during the year the management was busy in setting up the future plan and merger process, hence could not concentrate on business. During the ensuing year, the management is hopeful of continuing the operations. Post Covid-19 pandemic the company would resume its operations.

Information other than the Financial Statements and Auditor's Report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the Financial Statements and our auditor's report thereon. Our opinion on the Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon. In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is no material misstatement of this other information. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

8. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report Financials that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.
12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for explaining our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A statement on the matters specified in paragraphs 3 and 4 of the Order.
17. Further to our comments in Annexure A, as required by section 143(3) of the Act, we report that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Financial Statements dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid Financial Statements comply with Ind AS specified under section 133 of the Act;
 - e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of section 164(2) of the Act;
 - f) We have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31st March 2020 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date and our report as per Annexure B expressed unmodified opinion; and
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

- i. the Company has disclosed the impact of pending litigations on its financial position as at 31 March 2020;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2020;
- iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2020;
- iv. the disclosure requirements relating to holdings as well as dealings in specified banknotes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these Financial Statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Pharmaid Pharmaceuticals Limited, on the Financial Statements for the year ended 31st March 2020

Based on the audit procedures performed for the purpose of reporting a true and fair view on the Financial Statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The Company has a regular program of physical verification of its fixed assets under which fixed assets are verified in a phased manner over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
 - (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- (ii) In our opinion, the Company has nil amount of inventory during the year. Accordingly, the provisions of clause 3(ii) of the Order are not applicable.
- (iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company
- (iv) In our opinion, the Company has complied with the provisions of Section 186 in respect of investments and loans. Further, in our opinion, the Company has not entered into any transaction covered under Section 185 and Section 186 of the Act in respect of guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of The Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act. As informed to us the provision of sec 148(1) are not applicable.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, duty of customs, cess and other material statutory dues, as applicable, have generally been regularly deposited with the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (viii) The Company has not defaulted in repayment of loans or borrowings to any bank during the year. The Company has no loans or borrowings payable to financial institutions or government and does not have any outstanding debentures during the year.
- (ix) In our opinion, and according to the information and explanations given to us, the moneys raised by way of term loans have been applied, on an overall basis, for the purposes for which they were obtained. The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments)
- (x) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management

- (xi) Managerial remuneration has been paid / provided by the Company in accordance with the requisite approvals mandated by the provisions of Section 197 of the Act read with Schedule V to the Act.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the Financial Statements etc., as required by the applicable Ind AS.
- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures. Accordingly, provisions of the clause 3(xiv) of the order are not applicable.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act. Accordingly, the provisions of clause 3(xv) of the order are not applicable.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's Report of even date to the members of Pharmajeeva Pharmaceuticals Limited, on the Financial Statements for the year ended 31st March 2020

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the Financial Statements of Pharmajeeva Pharmaceuticals Limited ('the Company') as at and for the year ended 31st March 2020, we have Audited The Internal Financial Controls Over Financial Reporting ('IFCoFR') of the Company as at that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be

detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1. Pharmoids Pharmaceuticals Ltd (“the Company”) is a public limited company domiciled and incorporated in India in accordance with the provisions of the Companies Act, 2013. The registered office of the Company is located at 4-4-211/212/3, Inder Bagh, Sultan Bazar Hyderabad-500095, Telangana. The equity shares of the Company are listed on the Bombay Stock Exchange. The Company is engaged in the business of manufacturing of Bulk Drugs and Intermediaries. The Company has manufacturing facilities in India which caters to both domestic and international markets.

Emergent Bio Naturals Ltd is a Company incorporated in 2006 under the Companies Act, 2013 manufacturing a wide range of health care products including pharmaceutical formulation facilities and commenced its operations in the year 2006. The registered office of the Company is located at 503, Amrutha Estate, Himayathnagar, Hyderabad – 500029.

These financial statements for the year ended 31 March 2020 were authorized and approved for issue by the Board of Directors on 29th May 2020.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of the Financial Statements.

These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of Preparation

(i) Compliance with Ind AS

The Financial statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the “Act”) [Companies (Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The financial statements have been prepared on going concern basis under the historical cost basis except for the following:

Certain Financial assets and liabilities which are measured at fair value.

Defined benefit plans – plan assets measured at fair value; and Contingent Consideration

(iii) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current when it is:

Expected to be realized or intended to sold or consumed in normal operating cycle

Held primarily for the purpose of trading

Expected to be realized within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current. A liability classified as current when:

It is expected to be settled in normal operating cycle

It is held primarily for the purpose of trading

It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current.

2.1 Properties, plant and equipment (PPE) Recognition and initial measurements

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its Working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when It is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Depreciation method, estimated useful lives and residual values

The classification of Plant and equipment into continuous and non-continuous process is done as per technical certification and depreciation thereon is provided accordingly.

Depreciation on property, plant and equipment is provided on the Straight Line Method(SLM) method, computed on the basis of useful lives as estimated by management which coincides with rprates prescribed in Schedule II to the Companies Act,2013.

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

De-recognition

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the other income/other expenses when the asset is derecognized.

2.2 Impairment of non-financial assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group or assets (cash-generating units). The Company's corporate assets (eg. Central office building for providing support to various CGUs) do not generate independent cash flows. To determinate impairment of corporate assets, recoverable amount is determined for the CGUs to which the corporate assets belongs.

2.3 Inventories

- Stores & Spares are valued at cost or at net realizable value, whichever is lower. Cost is arrived at Weighted Average Basis.

- Raw Material, Semi Finished Goods, Finished Goods are valued at Cost or Market Value whichever is lower. Cost is arrived at FIFO method.
- Obsolescence and Damaged materials are valued at Realizable Value.

2.4 Operating Leases

As a lessee

- Leases of property, plant and equipment where the Company, as a lessee, has substantial risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased asset or, if lower, the present value of the minimum lease payments. The corresponding lease rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability of each period.
- Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are clarified as operating leases. Payments made under operating leases are charges to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a Lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary costs increases. The respective leased assets are included in the Balance Sheet based on their nature.

Investment and other financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- Ø Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognised or impaired.
- Ø Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in the profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in 'Other income'.
- Ø Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the Statement of Profit and Loss within 'Other income' in the period in which it arises.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Changes in the fair value of financial assets at fair value through profit or loss are recognized in 'Other income' in the Statement of Profit and Loss.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109, 'Financial Instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognized only when

- Ø the Company has transferred the rights to receive cash flows from the financial asset or
- Ø retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks

and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) **Income recognition Interest income**

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

Dividends

Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

Fair value of financial instruments

In determining the fair value of financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis and available quoted market prices. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

2.5 Derivative instruments

The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Derivative instruments are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period, with changes included in 'Other income'/'Other expenses'

2.6 Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.7 Trade Receivables

Trade receivables are amounts due from customers for goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

2.8 Cash and Cash equivalents

For the purpose of presentation in the Cash Flow Statement, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value

2.9 Trade payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 90 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.10 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2.11 Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the Balance Sheet.

2.12 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

GST, Excise duty is a liability of the Company as a manufacturer, which forms part of the cost of production, irrespective of whether the goods are sold or not. Therefore, the recovery of GST, Excise duty flows to the Company on its own account and hence revenue includes GST, excise duty.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Service Revenue

Service income is recognized as per the terms of contracts with the customers when the related services are performed or the agreed milestones are achieved and revenue includes Service Tax / GST, wherever applicable.

2.13 Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

2.14 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of aqualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred.

2.15 Foreign currency transactions and translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian Rupee (Rupees or H), which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. At the year-end, monetary assets and liabilities denominated in foreign currencies are restated at the year-end exchange rates. The exchange differences arising from settlement of foreign currency transactions and from the year-end restatement are recognised in profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs, if any, are presented in the Statement of Profit and Loss, within 'Finance costs'. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within 'Other income'/'Other expenses'.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

2.16 Employee benefits

(i) Short-term employee benefits

Liabilities for short-term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Post-employment benefits Defined benefit plans

The liability or asset recognised in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in 'Employee benefits expense' in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. These are included in retained earnings in the Statement of Changes in Equity.

The Company has gratuity as defined benefit plan where the amount that an employee will receive on retirement is defined by reference to the employee's length of service and final salary. The liability recognised in the balance sheet for Defined Benefit Plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date. Management estimates the DBO annually with the assistance of Independent actuaries. Actuarial gains and losses resulting from re-measurements of the liability are included in other comprehensive income.

The Company has subscribed to a group gratuity scheme of Life Insurance Corporation of India (LIC). Under the said policy, the eligible employees are entitled for gratuity upon their resignation, retirement or in the event of death in lumpsum after deduction of necessary taxes upto a maximum limit of 20 lacs. Liabilities in respect of the Gratuity Plan are determined by an actuarial valuation, based upon which the Company makes contributions to the Gratuity Fund.

Defined contribution plans

Contributions under defined contribution plans payable in keeping with the related schemes are recognised as expenses for the period in which the employee has rendered the service.

(iii) Other long-term employee benefits

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service.

They are therefore measured annually by actuaries as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms

approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented under 'Employee benefit obligations' (current) in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

2.17 Income Taxes

Tax expense recognized in statement of profit or loss comprises the sum of deferred tax and current tax except the ones recognized in other comprehensive income or directly in equity.

Calculation of current tax is based on tax rates and tax laws that have been enacted for the reporting period. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognized to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilized against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity).

2.18 Provision and Contingencies

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A disclosure for contingent liabilities is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of the amount cannot be made.

2.19 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.20 Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year

(ii) Diluted earnings per share Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.21 Segment Reporting

The Company is engaged in manufacture of Bulk Drugs & Intermediates which in the context of Accounting Standard – 17 issued by the Institute of Chartered Accountants of India is considered as a single segment.

2.22 Recent Accounting Procurements Standards issued but not yet effective

The Ministry of Corporate Affairs (“MCA”) has notified the Companies (Indian Accounting Standards)

Amendment Rules, 2019 containing the following new amendments to Ind AS for annual periods beginning on or after 1 April 2019.

Ind AS 116 ‘Leases’ eliminates the classification of leases as either finance leases or operating leases. All leases are required to be reported on an entity’s balance sheet as assets and liabilities. Leases are capitalised by recognising the present value of the lease payments and showing them either as lease assets or together with property, plant and equipment. If lease payments are made over time, a financial liability representing the future obligation will be recognised.

Ind AS 116 is effective from 1 April 2019. The Company is currently assessing the impact of the new standard and there are no material impact to the assets and liabilities recognised in the financial statements, as well as the statement of profit and loss.

2.23 Critical estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed at each Balance Sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to

estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgements are:

- **Employee benefits (estimation of defined benefit obligation)**

Post-employment benefits represent obligations that will be settled in the future and require assumptions to project benefit obligations. Post-employment benefit accounting is intended to reflect the recognition of future benefit costs over the employee's approximate service period, based on the terms of the plans and the investment and funding decisions made. The accounting requires the Company to make assumptions regarding variables such as discount rate and salary growth rate. Changes in these key assumptions can have a significant impact on the defined benefit obligations.

- **Impairment of trade receivables**

The risk of uncollectibility of trade receivables is primarily estimated based on prior experience with, and the past due status of, doubtful debtors, based on factors that include ability to pay, bankruptcy and payment history. The assumptions and estimates applied for determining the provision for impairment are reviewed periodically.

- **Estimation of expected useful lives of property, plant and equipment**

Management reviews its estimate of the useful lives of property, plant and equipment at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of property, plant and equipment.

- **Contingencies**

Legal proceedings covering a range of matters are pending against the Company. Due to the uncertainty inherent in such matters, it is often difficult to predict the final outcome. The cases and claims against the Company often raise difficult and complex factual and legal issues that are subject to many uncertainties and complexities, including but not limited to the facts and circumstances of each particular case/claim, the jurisdiction and the differences in applicable law. In the normal course of business, the Company consults with legal counsel and other experts on matters related to litigations. The Company accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated. In the event an adverse outcome is possible or an estimate is not determinable, the matter is disclosed.

- **Valuation of deferred tax assets**

Deferred income tax expense is calculated based on the differences between the carrying value of assets and liabilities for financial reporting purposes and their respective tax bases that are considered temporary in nature. Valuation of deferred tax assets is dependent on management's assessment of future recoverability of the deferred benefit. Expected recoverability may result from expected taxable income in the future, planned transactions or planned optimizing measures. Economic conditions may change and lead to a different conclusion regarding recoverability.

- **Fair value measurements**

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair values

are measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

- **Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19)**

In the last week of March 2020, the Company and its employees changed its working procedure to comply with the directives of social distancing issued by the Central Government and various State Governments due to COVID-19 situation. COVID-19 situation has not had any material effect on the Company's financial results for the quarter ended March 31, 2020. The management has also evaluated the possible impact of this pandemic on the business operations and the financial position of the Company and based on its initial assessment of the current indicators of the future economic conditions, believes that there is no significant impact on the financial results of the Company, as at and for the year ended 31st March 2020. The management has assessed that the financial results for the year ending 31st March 2021 may not have any material adverse impact on the net worth of the Company as at 31st March 2021. Further, the Company is debt free and would have adequate liquidity available to honor its liabilities and obligations, as and when due. The management will continue to monitor any material changes to its COVID19 impact assessment, resulting from the future economic conditions and future uncertainty, if any

Change in Authorised Share Capital : Pre-merger Authorised Capital of Pharmaids Pharmaceuticals Limited and Emergent Bio Naturals Limited was 40,00,000 Equity Shares of Rs. 10 each and 35,00,000 Equity Shares of Rs. 10 each respectively. Since the present combined Authorised Capitals stands Rs. 75,00,0000 which is less than the post merger issued capital of Rs. 10,31,12,340, As per the Directions of Hon'ble NCLT the company had increased the combined post merger Authorised Capital from Rs. 7,50,00,000 to Rs. 11,00,00,000 w.e.f 27-09-2019, hence Authorised capital for the purpose of financial statements has been taken as 11,00,00,000

Change in Issued, Subscribed and Paid-up Share Capital - As per NCLT order dated 27-09-2019, for every one equity share of face and paid up value of Rs. 10 held in Transferor Company ie. Emergent Bio Naturals Limited, 2 equity shares of face and paid up value of Rs. 10 in Transferee Company i.e Pharmaids Pharmaceuticals Limited to be issued to the equity shareholder of transferor company.

Pre Merger Issued & Paid up capital of Transferor Company = 34,055,000

Post Merger Issued & Paid up capital of Transferee Company (34528670*2) = 69,057,340

Therefore, Post Merger Issued & Paid up capital of Transferor Company = 103,112,340

**35. Capital management**

The Company's policy is to maintain strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of business.

The Company manages its Capital structure through a balanced mix of debt and equity. The Company's capital structure is influenced by the changes in the regulatory frameworks, government policies, available options of financing and impact of the same on liquidity position.

The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The table below shows the Gearing ratio for FY 2019-20 and FY 2018-19.

Particulars	March 31, 2020	March 31, 2019
Borrowings	0.00	
Trade Payables	1.07	15.96
Other Current Liabilities	1.44	4.50
Cash & Cash Equivalents	2.18	10.88
Net Debt	0.33	9.58
Equity Capital	769.72	766.37
Gearing Ratio	0%	1.25%

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March, 2020 and 31 March, 2019.

36. Fair Values

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	Carrying Values		Fair Values	
	March 31, 2020	March 31, 2019	March 31, 2020	March 31, 2019
Financial Assets				
Investments		0.00	0.00	0.00
Other financial assets		0.00	0.00	0.00
Tax Assets (Net)		0.00	0.00	0.00
Trade Receivables	0.00	88.97	0.00	88.97
Cash and Cash Equivalents	0.22	3.95	0.22	3.95
Bank balances other than cash and cash equivalents	1.96	6.93	1.96	6.93
Other financial assets	0.00	0.00	0.00	0.00
Total	2.18	99.85	2.18	99.85
Financial Liabilities				
Non-current Borrowings	0.00	0.00	0.00	0.00
Other non-current financial Liabilities	0.00	0.00	0.00	0.00
Current Borrowings	0.00	0.00	0.00	0.00
Trade Payables	1.07	15.96	1.07	15.96
Other current financial Liabilities	1.44	4.50	1.44	4.50
Total	2.50	20.46	2.50	20.46

The management assessed that fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

37. Fair values hierarchy

Financial assets and liabilities measured at fair value in the statement of financial position are grouped into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices(unadjusted) in active markets for the financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using the valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If One or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities: Quantitative disclosures fair value measurement hierarchy for assets as at 31 March, 2020:

38. Financial risk management objectives and policies

The Company is exposed to financial risk such as Market Risk (Interest Rate Risk, fluctuation in foreign exchange rates and price risk), credit risk and liquidity risk. The general risk management program of the Company focuses on the unpredictability of the financial markets and attempts to minimize their potential negative influence on the financial performance of the Company. The Company continuously reviews its risk exposures and takes measures to limit it to acceptable levels. The Board of Directors have the overall responsibility for the establishment and oversight of the Company's risk management framework.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk i.e. interest rate risk, foreign currency risk and other price risk. Financial instruments of the Company affected by market risk include borrowings and deposits.

The sensitivity analysis in the following sections relate to the position as at 31 March, 2020 and 31 March, 2019.

The analysis exclude the impact of movements in market variables on the carrying values of gratuity and other post- retirement obligations; provisions; and the non-financial assets and liabilities.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March, 2020 and 31 March, 2019.

Price risk

Price risk is the risk of fluctuations in the change in prices of equity Investments. The Company's investment in JV company is of strategic in nature rather than for trading purpose.

Credit risk

Credit risk is the risk arising from credit exposure to customers and the counterparty will default on its contractual obligations.

The Company has adopted a policy of only dealing with creditworthy customers/ corporates

to minimise collection losses. Credit Control team assesses the credit quality of the customers, their financial position, past experience in payments and other relevant factors. Advance payments are obtained from customers in banquet, as a means of mitigating the risk of financial loss from defaults.

The carrying amount of trade and other receivables, advances to suppliers, cash and short-term deposits and interest receivable on deposits represents company's maximum exposure to the credit risk. No other financial asset carry a significant exposure with respect to the credit risk. Deposits and cash balances are placed with Schedule Commercial banks.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company also holds advances as security from customers to mitigate credit risk.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments held by the Company are in the nature of investment in jointly controlled entity and also an investment in an alternate energy supply company as required under the respective State energy policy. Both the categories are unquoted non-trade equity.

Liquidity risk

Liquidity risk is the risk that the Company will have difficulty in raising the financial resources required to fulfil its commitments.

Liquidity risk is held at low levels through effective cash flow management. Cash flow forecasting is performed internally by rolling forecasts of the Company's liquidity requirements to ensure that it has sufficient cash to meet operational requirements, to fund scheduled capex and debt repayments and to comply with the terms of financing documents.

The Company primarily uses short-term bank facilities in the nature of bank overdraft facility to fund its ongoing working capital requirements.
