MANAGEMENT DISCUSSION AND ANALYSIS

Overall Review

Floriculture or flower farming is the study of growing and marketing flowers and foliage plants. Floriculture includes cultivation of flowering and ornamental plants for direct sale or for use as raw materials in cosmetic and perfume industry and in the pharmaceutical sector. It also includes production of planting materials through seeds, cuttings, budding and grafting. Worldwide more than 140 countries are involved in commercial Floriculture. The leading flower producing country in the world is Netherlands and Germany is the biggest importer of flowers. Countries involved in the import of flowers are Netherlands, Germany, France, Italy and Japan while those involved in export are Colombia, Israel, Spain and Kenya. USA and Japan continue to be the highest consumers.

The floriculture industry in India is still at its nascent stage and a large portion of its potential remains untapped. The Indian floriculture industry has shifted from traditional flowers to cut flowers, mainly for export purposes. Modernization and the growing western cultural influences has resulted in the growth in demand for flowers amongst the consumers in India – especially the young. Apart from this, there is also a huge spurt in the demand for flowers during festivals. This growth in demand for flowers has impacted its retailing in India. The report states that in terms of rupee value, the industry has grown at a CAGR of nearly 20% in the last five years.

Currently, most of the flower cultivators entering the business seek to create a niche in the global market. Fresh flowers from India are being exported to several countries such as the USA, UK, Netherlands, Japan, Germany, and United Arab Emirates etc. The credit for the growth in exports goes to the various initiatives introduced by the government. The floriculture industry has been identified as a priority sector by the government and has accorded it 100% 'export oriented unit' (EOU) status. It has also facilitated 100% foreign direct investment, encouraging joint ventures, a steady flow of capital and the establishment of state-of-the-art technologies for its cultivation, storage and transportation.

Industry Structure and Development

In the recent years it has emerged as a profitable agri-business in India and worldwide has led to an increase in the demand of floriculture products in the developed as well as in the developing countries worldwide. The production and trade of floriculture has increased consistently over the last 10 years.

In India, Floriculture industry comprises flower trade, production of nursery plants and potted plants, seed and bulb production, micro propagation and extraction of essential oils. Though the annual domestic demand for the flowers is growing at a tremendous rate and international demand are increasing at a very high note. India's share in international market of flowers is negligible.

The country has exported 16949.37 MT of floriculture products to the world for the worth of Rs. 54,161.01/- lakhs in FY 2019-20 which is 5.22% less than the value in F.Y. 2018-19.

Opportunities and Threats/Risk and concern

A growing market for flowers at domestic, national and international level in which demand exceeds the supply, and the world demand is estimated to grow anywhere between 15% and 25% per annum. The high production costs in developed countries provide opportunity as they rely largely on imports.

Threats to the industry include unavailability of proper logistic partner and flowers are highly perishable, high rate of import duty on Indian cut flowers, unavailability of cold storage units at airports etc.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.
