19. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are therefore requested to submit their PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form shall submit their PAN and Bank Account details to the Company/Registrar pursuant to the SEBI Circular No. SEBI/HO/MIRSD/DOP1/CIR/P/2018/73 dated 20th April, 2018.

20. Voting Through Electronic (e-voting):

CDSL e-Voting System – For Remote e-voting and e-voting during AGM

1. As you are aware, in view of the situation arising due to COVID-19 global pandemic, the general meetings of the companies shall be conducted as per the guidelines issued by the Ministry of Corporate Affairs (MCA) vide circular no. 14/2020 dated April 8, 2020, circular no.17/2020 dated April 13, 2020, circular no. 20/2020 dated May 05, 2020 and circular no. 02/2021 dated 13th January, 2021. The ensuing AGM will thus be held through video conferencing (VC) or other audio visual means (OAVM). Hence, Members can attend and participate in the ensuing AGM through VC/OAVM.
2. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.
3. The Members can join the AGM in VC/OAVM mode between 15 minutes before and after the scheduled time of commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at least 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
4. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
5. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through e-voting.
6. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on website of the Company at www.midwestgoldltd.com. The Notice can also be accessed from website of the Stock Exchange i.e. BSE Limited at www.bseindia.com. The AGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM) i.e. www.evotingindia.com.
7. The AGM shall be convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular No. 14/2020 dated April 8, 2020 and MCA Circular No. 17/2020 dated April 13, 2020 and MCA Circular No. 20/2020 dated May 05, 2020.
8. In continuation of this Ministry's **General Circular No. 20/2020**, dated 05th May, 2020 and after due examination, it has been decided to allow companies whose AGMs were due to be held in the year 2020, or become due in the year 2021, to

conduct their AGMs on or before 31.12.2021, in accordance with the requirements provided in paragraphs 3 and 4 of the General Circular No. 20/2020 as per MCA circular no. 02/2021 dated January, 13, 2021

THE INSTRUCTIONS TO SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETING ARE AS UNDER:

- (i) The voting period begins on 14th September, 2021 at 9.00 A.M and ends on 16th September, 2021 at 05.00 P.M. During this period, shareholders of the Company holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 9th September, 2021 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level. Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders. In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to above said SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode CDSL/NSDL** is given below:

Form No. MR-3 SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2021

[Pursuant to section 204(1) of the companies Act, 2013 and rule no. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Midwest Gold Limited,
Bangalore.

I have conducted the secretarial audit on the compliance of applicable statutory provisions and the adherence to good corporate practices by Midwest Gold Limited (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing my opinion thereon. Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the company, its officers, agents and authorized representatives during the conduct of secretarial audit and as per the explanations given to me and the representations made by the Management, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2021 generally complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records made available to me and maintained by Midwest Gold Limited for the financial year ended on 31st March, 2021 according to the applicable provisions of:

- i. The Companies Act, 2013 ('the Act') and the rules made there under, as applicable;
- ii. The Securities Contract (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- iv. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') and amendments thereto:
 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992 & 2015;
 - c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009; and
- v. Other laws applicable to the Company as per the representations made by the Management.

I have also examined compliance with the applicable Clauses/Regulations of the following:

- i. Secretarial Standards issued by The Institute of Company Secretaries of India, with respect to Board and General Meetings,
- ii. The Listing Agreement entered into by the Company with BSE Limited read with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as the shares were listed in Bombay Stock Exchange.

During the period under review and as per the explanations and clarifications given to me and the representations made by the Management, the Company has generally complied with provisions of the Act, Rules, Regulations, Guidelines, etc. mentioned above.

I further report that:

Pursuant to the Regulation 15(2) of SEBI (LODR) Regulations, 2015, the Regulations pertaining to the Corporate Governance i.e., 17 to 27 & Clauses (b) to (i) and (t) of sub regulation 46(2) and para C, D & E of schedule V are not applicable to the Company since the paid up equity share capital is less than Rs. 10 Crores and net worth is less than Rs. 25 Crores as on the latest Audited Balance Sheet.

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors to the extent applicable provisions of the Companies Act, 2013 read with relevant Rules made there under. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notices including shorter notices were given to all Directors and consents were obtained as and when required in accordance with schedule of Board Meetings. Agenda and detailed notes on agenda were sent in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting. Decisions at the Board Meetings as represented by the management were taken unanimously. I further report that as per the explanations given to me and the representations made by the Management and relied upon by me there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

ANNEXURE-V
MANAGEMENT DISCUSSION & ANALYSIS

OVERVIEW:

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013, guidelines issued by the Securities and Exchange Board of India (SEBI) and other statutory requirements. Our Management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions and reasonably present our state of affairs, profits and cash flows for the year.

INDUSTRY REVIEW

Recent global trends indicate that there is a rising demand relative to supply and increasing cost of mining leading to an increase in commodity prices. Replenishment of mineral reserves has become stiff due to declining ore grades and additional challenges such as inadequate infrastructure and human capital, which are critical to support the growth of sector. The Governments worldwide are adopting progressive policy measures to boost mining and mineral exploration in their countries. The Indian Government has also initiated several measures under Ministry of Mines through Mines and Minerals (Development and Regulation) Act, 1957 and amendments thereon.

RISKS AND CONCERNS:

The Company is planning to acquire prospecting licenses of natural stones, gold and other minerals which are highly speculative in nature and subject to several approvals and operational risks. These risks include exploration and mining risks, delays in approvals to undertake exploration activities, delays in grant of appropriate mineral concession licenses, actual resources differing from estimates, operational delays and the availability of equipment, personnel and infrastructure.

The Company is also dependent on key personnel and subject to actions of third parties, including the staff, other contractors and suppliers.

The Company's operations are also subject to government laws and regulations, particularly environmental and land acquisition regulations.

The Company's future revenues from product sales will be affected by changes in the market price of gold and other natural stones which shall be subject to numerous factors which are beyond its control. These include international supply and demand, the level of consumer product demand, international economic trends, currency exchange rate fluctuations, the level of interest rates, rate of inflation, global or regional political events and international events as well as a range of other market forces.

In the absence of cash flow from operations, the Company may have to rely on capital markets / private equity investment to fund its operations. The Company's ability to raise further funds will depend on the success of existing operations.

All the above factors notwithstanding, your Company and its Directors believe that they have adequate experience and access to expertise and capital sources

that will enable the Company to successfully develop, launch and execute its projects successfully.

OUT LOOK AND OPPORTUNITIES:

The Company's business prospects are closely linked to the economic environment prevailing locally and globally. Given the challenging market environment and stiff competition, it is difficult to make an optimistic prediction for business prospect in the coming year.

Despite all these shortcomings, the mineral exploration and mining sector holds substantial potential to contribute to the growth of economy and create value for all stakeholders, including the Central Government, State Government (s) and the community at large.

In view of market opportunities, Midwest Gold Limited will apply for mining leases and implement the licenses of the mines if the government of India allot the licenses in its favor with state of art technology; a large pool of well trained geologists, geophysicists and mining engineers to generate a mineral- based economic development of enormous scale and value.

Apart from above, the company is doing trading of imported marble, processing of granite blocks purchase from the local quarries to generate revenues to meet its day to day fund requirements. The company is trying to capture the domestic as well as international granite and marble markets to enhance its opportunities thereby achieve its objects.

IMPACT OF COVID-19:

The Indian mining industry has been put under tremendous pressure due to Covid-19. India exports granite and other natural stone in raw blocks as well as in form of processed slabs.

Raw material availability has even worsened due to spread of Covid-19. The concerned state government imposed state-wide lockdown which stopped production at the granite quarries. Furthermore, due to uncertainty over duration of lockdown, migrant labour moved back to their native places which have resulted in scarcity of manpower especially in south India states like Karnataka, Tamil Nadu, Telangana and Andhra Pradesh. Overall the situation in natural stone industry is quite challenging and both the demand & supply will remain muted. Considering the completing of second wave in pandemic and mass production & distribution of vaccines to the population in country, the situation is expected to get normal right away.

RISK MANAGEMENT:

The Company has mechanism to combat risk of exposure to Business, Assets and Financial Risks in the form of competition, accidents, natural calamities, obsolescence, and fluctuations in foreign currency etc. The management of your company is on constant vigil to combat any eventuality that may pose threat to the company's business.

INTERNAL CONROL SYSTEMS AND THEIR ADEQUACY:

The philosophy we have with regard to internal control systems and their adequacy has been formulation of effective systems and their strict implementation to ensure that assets and interests of the Company are safeguarded; checks and balances are in place to determine the accuracy and reliability of accounting

data. The Company has a well defined organization structure with clear functional authority, limits for approval of all transactions. The Company has a strong reporting system, which evaluates and forewarns the management on issues related to compliance. Company updates its internal control system from time to time, enabling it to monitor employee adherence to internal procedures and external regulatory guidelines.

FINANCIAL PERFORMANCE & OUTLOOK:

Your Company has achieved a Turnover of Rs. 37,07,032/- excluding other income of Rs. 2,11,315/- when compared to Rs. 57,87,577/- excluding other income of Rs. 4,17,002/- during previous year. The operations of the Company resulted in loss of Rs. 1,38,21,487/- when compared to loss of Rs. 1,25,08,883/- during previous year.

Details of significant changes (i.e. changes amounting to 25% or more compared to the previous financial year) in key financial ratios are as follows:

Financial Ratios	2020-21	2019-2020	Change (%)	Reasons for Change
Interest Coverage Ratio	0.36	1.48	(75.68)	Interest on Loan during the year 2020-21
Debtors Turnover Ratio	2.98	1.77	(98.32)	Transactions decreased during the year 2020-21
Operating Profit Margin (%)	(84.79)	(147.16)	(42.38)	Marginal Increase in Loss, though turnover increased by one time.
Net Profit Margin (%)	(372.85)	(216.13)	(98.27)	Turnover decreased by 2 times, but loss also increased by one time.
Return on Net worth	(0.21)	(0.38)	(44.74)	Loss increased in the year 2020-21.

The management has done well to ensure sustained operations. However, due to low revenue and higher expenditure, the operations resulted into losses. Efforts are being made to reduce the costs involved. The Management is accelerating its efforts towards profits in the ensuing financial year.

PERSONNEL:

Human wealth is the ultimate wealth for any industry. The Company recognizes this fact and understands that employees are one of the most important sources for sustained growth of any business. Quality personnel delivering their optimum potential for the organization is the key differentiator. The Company maintained good relations with its employees and there was no unrest in the Company at any point of time during the year.

CAUTIONARY STATEMENT:

Certain statements made in the management discussion and analysis report relating to the Company's objectives, projections, outlook, expectations, estimates and others may constitute 'forward looking statements' within the meaning of applicable laws and regulations. Actual results may differ from such expectations whether expressed or implied. Several factors could make significant difference to the Company's operations.

These shall include climatic, geographical, political and economic conditions affecting demand and supply, government regulations and taxation, natural calamities over which the Company does not have any direct control.

INDEPENDENT AUDITOR'S REPORT

To the Members of
MIDWEST GOLD LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of MIDWEST GOLD LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS,

- (a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2021;
- (b) In the case of the Statement of Profit and Loss, of the profit of the Company including other comprehensive income, for the year ended on that date; and
- (c) In the case of the Cash Flow Statement, of the cash flows of the Company and changes in equity for the year ended on that date.

Report on other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, based on the audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, Statement of Changes in equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - d) in our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, Companies (Indian Accounting Standards) Rules, 2015, as amended
 - e) on the basis of the written representations received from the directors of the company as on 31 March 2021, taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of section 164(2) of the Act; and
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "**Annexure A**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements;
 - ii. The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in the **Annexure "B"** a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexure – “A” to the Independent Auditors’ Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Midwest Gold Limited of even date)

Report on the Internal Financial Controls over Financial Reporting under (i) Of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Midwest-Gold Limited (“the Company”) as of 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the company
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company, and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting.

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting Issued by the Institute of Chartered Accountants of India.

Notes annexed to and forming part of the Financial Statements

1. Corporate Information

- 1.1 Midwest Gold Limited (the Company or MGL) is a public limited company incorporated under the provisions of erstwhile Companies Act, 1956 having its registered office at Bangalore in the state of Karnataka, India. The Equity Shares of the Company are listed with Stock Exchanges in India viz., BSE Limited, Mumbai.
- 1.2 The Company is presently engaged in the trading business of Granite, Marbles.
- 1.3 These financial statements are approved and authorised for issue by the Board of Directors on 30th June 2021.

2. Basis of Preparation of financial statements

The financial statements have been prepared as a going concern on accrual basis of accounting. The company has adopted historical cost basis for assets and liabilities except for certain items which have been measured on a different basis and such basis is disclosed in the relevant accounting policy. The financial statements are presented in Indian Rupees (INR).

Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (IndAS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements up to year ended March 31, 2017 were prepared in accordance with the Accounting Standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

Current and non-current classification

All assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the purpose of Current or non-current classification of assets and liabilities.

An asset is classified as current if:

- (i) It is expected to be realised or sold or consumed in the Company's normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) It is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current if:

- (i) It is expected to be settled in normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be settled within twelve months after the reporting period;
- (iv) It has no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets and liabilities are classified as non-current. Deferred tax assets and liabilities are classified as noncurrent only.

2.1 Significant Accounting Policies

The significant accounting policies adopted in the preparation of these financial statements are detailed hereafter. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.2 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. The Whole Time Director has been identified as the Chief Operating Decision Maker. Refer Note 31 for the segment information presented.

2.3 Foreign currency transactions

a) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). Indian Rupees is the functional currency of the company. The financial statements and all financial information is presented in Indian rupee (INR).

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in statement of profit and loss. Non-monetary items that are measured in terms of historical cost in a foreign currency, using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

2.4 Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with Ind AS requires management of the Company to make estimates and assumptions and judgements that affect the reported amounts of assets and liabilities and disclosure of contingent assets; liabilities at the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in the current and future periods.

Following are the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

2.5 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, value added taxes, goods and service tax (GST) and amounts collected on behalf of third parties.

Revenue is recognised when the amount of revenue can be reliably measured: probable that future economic benefits will flow to the entity and specific criteria for each of the activities as described below has been met.

Sale of Goods - Recognition & Measurement

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Sale of Goods - Recognition & Measurement

Revenue from Sale of services is recognised as per the terms of the contracts with customers when the related services are performed or the agreed milestones are achieved.

Dividend Income

Dividend income on investments is accounted for when the right to receive the same is established. Dividend income will be included in Other Income in the Statement of Profit and Loss.

Interest Income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

2.6 Leases

As a lessee

Leases of property, plant and equipment where the company, as lessee, has substantially owns all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding lease obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the company is a lessor will be recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

2.7 Property, Plant and Equipment

i) Recognition and measurement

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. It also includes the initial estimate of the costs if any of dismantling and removing the item and restoring the site on which it is located. Items such as spares are capitalized when they meet the definition of property, plant and equipment. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Likewise, expenditure towards major inspections and overhauls are identified as a separate component and depreciated over the expected period till the next overhaul expenditure.

ii) Subsequent expenditure

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future economic benefits from the existing asset beyond its previously assessed standard of performance/life. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

iii) Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefit is expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is recognised in profit and loss in the period the item is derecognised.

iv) Depreciation expense

Depreciation is charged on straight line basis so as to write off the depreciable amount of the asset over the useful lives specified in Schedule II to the Act. The useful life of the assets is periodically reviewed and re-determined based on a technical evaluation and expected use.

The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

2.8 Financial Instruments

Classification, initial recognition and measurement

A financial instrument is any contract that gives rise to a financial asset for one entity and a financial liability or equity instrument for another entity. Financial instruments are recognized on the balance sheet when the Company becomes a party to the contractual provisions of the instrument.

(i) Financial Assets

Classification:

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

At initial recognition

The Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement - Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

i. **At amortised cost:** Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortized cost using the effective interest method less any impairment losses.

ii. **At fair value through other comprehensive income (FVOCI):** Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payment of principle and interest on the principle amount outstanding and selling financial assets.

iii. **At fair value through profit or loss (FVTPL):** Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are immediately recognised in profit or loss.

Other Equity Investments

All other equity investments are measured at fair value, with value changes recognised

in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(ii) Financial liabilities

Classification, initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Trade and other payables

Trade and other payables represent liabilities for goods and services prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Loans and borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the

cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. On de-recognition of a financial asset the difference between the carrying amount and the consideration received is recognised in the statement of profit and loss.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. On de-recognition of a financial liability the difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

Financial guarantee contracts

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee or the estimated amount that would be payable to a third party for assuming the obligations.

As Guarantor

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 109 and the amount initially recognised less cumulative amortisation, where appropriate.

Where guarantees in relation to loans or other payables of associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

As Beneficiary

Financial guarantee contracts are recognised as a financial asset at the time the guarantee is taken. The asset is initially measured at fair value and subsequently amortised over the guarantee period.

Where guarantees in relation to loans or other payables are provided by company for no compensation, the fair values are accounted for as contributions and recognised as part of equity.

2.9 Impairment of Assets

Financial assets

The Company assesses at each date of balance sheet impairment if any of a financial asset or a group of financial assets. The company uses, in accordance with Ind AS 109, 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets

other than those measured at fair value through profit and loss (FVTPL). Expected credit losses are measured through a loss allowance at an amount equal to: The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Non-financial assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability when there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount and impairment loss is recognised in the profit or loss.

2.10 Equity instruments

An equity instrument is a contract that evidences residual interests in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

2.11 Borrowing costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to make it ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

2.12 Inventories

Raw materials, stores, spares and consumables are valued at lower of cost, calculated on Weighted Average basis. Items held for use in the production of inventories are not written down below cost if the finished product in which these will be incorporated are expected to be sold at or above cost.

Finished goods and work-in-progress are valued at lower of cost and net realisable value. Cost includes materials, labour and a proportion of appropriate overheads based on normal operating capacity. Cost of finished goods includes excise duty. Cost is determined on a Weighted Average basis.

Trading goods are valued at lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

2.13 Tax expenses

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the prevailing tax laws for the year.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Current tax assets and current tax liabilities are presented in the statement of financial position after off-setting the taxes paid or deemed to be paid and current income tax expenses are the year.

Deferred income taxes

Deferred tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax asset are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow total or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is probable evidence that the Company will pay normal income tax after the tax holiday period.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis

The Company recognises interest related to income tax in interest expenses.

2.14 Provisions, contingent liabilities and contingent asset

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as other finance expense.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent assets is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements. Contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.15 Employee benefits

(i) Short term employee benefit obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for accumulating compensated absences not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are measured at the present value of expected future payments to be made in respect of services provided using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(a) Defined benefit plans-Gratuity obligations

Under the gratuity plan, every employee who has completed atleast five years of

service gets a gratuity on departure @15 days of last drawn salary for each completed year of service.

(b) Defined contribution plans

The Company pays provident fund contributions to publicly administered funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

State Plans: Employer's contribution to Employee State Insurance plan is charged to Statement of Profit and Loss as and due.

2.16 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, and not distributed on or before the end of the reporting period. Proposed dividend is recognised as a liability in the period in which it approved by shareholders in a general meeting or paid.

2.17 Earnings per share

Basic earnings per share are calculated by dividing the profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For calculating diluted earnings per share, the profit or loss after tax for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.18 Contingent Liability & Commitments

Contingent liability is disclosed in the case of:

- present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- present obligation arising from past events, when no reliable estimate possible;
- Possible obligation arising from past events, unless the probability of outflow of resources is remote.

Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets and on account bonds executed with external authorities.

38 Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements: In the process of applying the company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Estimates and assumptions: The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

Impairment of non-financial assets: Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the company.

- 39 Fair value measurement of financial instruments:** When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs

such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

- 40 As informed to us there are no Micro and Small Enterprises to whom the company owes dues, which are outstanding for more than 45 days as at March 31 2021. This information required to be disclosed under the Micro, Small and Medium Enterprises Development Act, 2006 has been determined to the extent such parties have been identified on the basis of information available with the company.
- 41 The amounts and disclosures included in the financial statements of the previous year have been reclassified and regrouped where ever necessary.

42 Fair values

The carrying value and fair value of financial instruments by category:

Assets and liabilities carried at amortised cost

Particulars	Carrying Value		Fair Value	
	As at 31st March, 2021	As at 31st March, 2020	As at 31st March, 2021	As at 31st March, 2020

Total	230,730,934	217,433,523	230,730,934	217,433,523

There are no assets and liabilities which have been carried at fair value through the profit and loss account.

There are no assets and liabilities which have been carried at fair value through the other comprehensive income.

The management assessed that cash and cash equivalents, trade receivables, trade payables, and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of the unquoted equity shares have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

The fair values of the Group's interest-bearing borrowings and loans are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own nonperformance risk as at 31 March 2020 was assessed to be insignificant.

43 Fair value hierarchy

Level 1: Quoted prices in active markets for identical assets or liabilities

Level 2: Significant observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Significant unobservable inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

44 Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Group's operations and to provide guarantees to support its operations. The Group's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the company. The financial risk committee provides assurance to the company's senior management that the company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the company's policies and risk objectives.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market

prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTOCI investments and derivative financial instruments.

The following assumptions have been made in calculating the sensitivity analyses:

- i. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2021 and 31 March 2020 including the effect of hedge accounting.
- ii. The sensitivity of equity is calculated by considering the effect of any associated cash flow hedges and hedges of a net investment in a subsidiary at 31 March 2021 for the effects of the assumed changes of the underlying risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company's exposure to the risk of changes in market interest rates relates primarily to the company's long-term debt obligations with floating interest rates. The company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

The company's policy is to keep between 40% and 60% of its borrowings at fixed rates of interest, excluding borrowings that relate to discontinued operations. To manage this, the company enters into interest rate swaps, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount.

Credit risk

Credit risk is the risk that counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions and other financial instruments.

Trade receivables

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. At 31 March 2021, the company had 2 customer (31 March 2021: 1 customer, 1 April 2020: 1 customer) who owed 100% of receivables outstanding.

An impairment analysis is performed at each reporting date on an individual customer basis. The company evaluates the concentration of risk with respect to trade receivables as low, as the customer is Government body and operate in largely independent markets.

Liquidity risk

The Company monitors its risk of a shortage of funds using a liquidity planning tool.

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans, preference shares, and group company loans. The Company's policy is that not more than 25% of borrowings should mature in the next 12-month period. The company assessed the concentration of risk with respect to refinancing its debt and concluded it to be medium.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual un-discounted payments:

As at 31st March 2021	On Demand	Less than 3 months	Less than 3 months to 12 months	More than 1 year	Total
Borrowings	178,412,039				178,412,039

Trade and other payables	-	1,089,812	4,651,953	34,603,287	40,345,052

Borrowings	136,595,450				136,595,450
Trade and other payables	-	2,865,277	154,800	37,255,844	40,275,921
Other current liabilities	38,724,305				38,724,305
Provisions	201,492				201,492

Excessive risk concentration

Concentrations arise when a number of counter parties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Selective hedging is used within the Group to manage risk concentrations at both the relationship and industry levels.

45 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value. The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 10% and 50%. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

Particulars	As at 31st March,2021	As a 31st March,2020
Borrowings other than convertible preference shares	178,412,039	136,595,450
Trade payables	32,966,468	41,517,201
Other current liabilities	19,352,427	40,493,021
Provisions	214,858	201,492
Less: cash and cash equivalents	(1,312,778)	(1,031,192)
Net Debt	229,633,014	217,775,972
Equity	32,700,000	32,700,000
Capital and net debt	32,700,000	32,700,000
Gearing ratio	7	6

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2021 and 31 March 2020.
