2. COVID-19- A GLOBAL "PANDEMIC"

Financial year 2021-22 ("year under review") was once again dominated by the COVID-19 pandemic as new waves of infection swept across countries. In India, the second wave (called 'Delta') proved far more deadly than the first that struck in 2020. The advent of the highly transmissible variant 'Omicron' in early January 2022 (the third wave) spread much dread across the world. Fortunately, while highly transmissible, Omicron was not as clinically deadly as Delta. So, while many got infected, almost all got well again within a week or so, without hospitalisation and mortality.

The impact of the second and third wave of the pandemic on the performance of the Company. The extent to which the COVID-19 pandemic will impact the Company's impairment loss / allowance on assets and future results will depend on future developments, which are highly uncertain and the Company will continue to closely monitor the same. The appropriate measures were taken by the Company to mitigate the risk of COVID-19 to its business operations.

3. APPLICABILITY OF INDIAN ACCOUNTING STANDARDS ('IND AS') AND PREPARATION OF FINANCIAL STATEMENTS

The financial statements are prepared and presented in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with guidelines issued by the Securities and Exchange Board of India (SEBI) and the guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non-Banking Finance Company ('NBFC'). The financial statements have been prepared on a going concern basis. The Company uses accrual basis of accounting except in case of significant uncertainties. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year. The financial statements are presented in Indian rupees.

THE ANNUAL REPORT ON CSR ACTIVITIES FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2022

1. Brief outline on CSR Policy of the Company:

a) Introduction

The Corporate Social Responsibility (CSR) activities of Sainik Finance & Industries Limited (“SFIL” or “the Company”) are guided by the vision and philosophy of its Promoters. They believe SFIL does not grow by making financial profits only, it grows if it contributes consistently for the growth of the society and environment to which they belong. The Company strongly believes in the theory of participative growth, enhancing societal /environment commitments. Corporate Social Responsibility (CSR) is a tool which can be used for sustainable development. SFIL recognizes this and intends to contribute to the social cause by making donations towards various charitable activities and supporting rural development and education initiatives by financing various activities like building of educational institutions, repair and maintenance of roads, installation of hand pumps and other accessories in villages etc. The Company being a corporate entity falling within the purview of Section 135 of the Act read with CSR Rules made thereunder. The CSR Committee constituted by the Board of Directors of the Company (“Board”), has in exercise of its authority and discharge of its responsibility, formulated a CSR Policy, which has been approved by the Board as the Corporate Social Responsibility Policy of the Company.

The Company addresses the needs of communities in the areas of health, education, environment conservation, infrastructure and community development and response to natural calamities. The Company intended to fine tune its activities around the activities specified in schedule VII of the Companies Act, 2013.

b) Guiding Principles

Sainik Finance & Industries Limited believes that social investments should:

- i) **Benefit Generations:** The Company believes in ‘investment in resource creation’ for use over generations. The Company tries to identify sustainable projects which will benefit the society for long periods.
- ii) **Promote Health:** The Company believes that good health is pre-requisite for both education and productivity.
- iii) **Encourage for Self-help:** To guide and do hand-holding for self-help, individually and collectively, to create excellence for self and for the team.
- iv) **Target those who need it most:** Care for the sections of the society that are socially and economically at the lowest rung irrespective of their religion or caste or language or colour.
- v) **Sustain Natural Resources:** The Company encourages balanced development and ensure least adverse impact on environment- ‘Growth with Mother Nature blessings’

c) CSR Policy

A detailed CSR policy was framed by the Company with approvals of the Corporate Social Responsibility Committee (CSR Committee). CSR policy has been approved by the Board. CSR policy gives an overview of the projects or programs or activities which are proposed to be undertaken by the Company in the coming years. The CSR policy is placed on the Company’s website www.sainikfinance.com

SAINIK FINANCE & INDUSTRIES LIMITED

CIN: L26912DL1991PLC045449

The policy holds itself out as a forward-looking aspirational charter which recommends liberal interpretation, promotes activity under the spirit of partnership and recommends that initiatives be targeted to the needs of the disadvantaged, vulnerable and marginalized sections of society. While the underlying guidance is to bring alignment of varied activities under the focus umbrella, it recognizes the need to record presence and contribution in such weak links in society where its mere presence and support could drive significant social benefit. In keeping with such themes, program/s such as supporting charitable healthcare infrastructure, disaster relief, preventive healthcare awareness through different channels of communication, remain well within the range of the policy objectives.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Sainik Finance & Industries Limited (SFIL), a listed Company is engaged in the business of investment, finance and lending. It is Non- Systematically Important Non-Deposit Taking Non-Banking Financial Company registered with the Reserve Bank of India (RBI).

1. THE COVID-19 PANDEMIC

The beginning of financial year 2021-22 (FY2022) was once again dominated by the COVID-19 pandemic as new waves of infection swept across the world. In India, the second wave (called 'Delta') proved far more lethal than the first that struck in 2020. After a shaky start in some places, the vaccine immunization programme by the Indian Government and Governments across the world has been exemplary. It saved lives and livelihood.

The highly transmissible variant 'Omicron' in early January 2022 (the third wave) spread rapidly across the world. During this wave, India's daily number of reported cases peaked to nearly 350,000 on 20 January 2022. Faced with the prospect of yet more lockdowns, there was fear that the world would face yet another year of slow economic growth. Fortunately, while highly transmissible, Omicron was not as lethal as Delta. So, while many got infected, fatality rate was fortunately low.

The world did not see a re-run of massive drop in GDP as witnessed in financial year 2020-21 (FY2021). Thanks to a huge vaccination drive and the preparedness to deal with COVID-19 as a way of life people, firms and both the Central and State Governments sensibly dealt with the virus. Consequently, the strong link between COVID-19 waves and fall in GDP growth seem to have considerably reduced. As long as the new variants are like Omicron, we should have less to worry about mass hospitalizations, high mortality, multiple lockdowns and lower growth.

This pandemic has inflicted enormous pain and suffering to individuals and corporates alike across the world. However, it gave the world an opportunity to reinvent itself to adapt to new ways of life and business.

2. MACROECONOMIC OVERVIEW

The Indian economy had begun to recover since the second half of FY2021. Thus, FY2022 began with an expectation that we would soon see GDP surpass the pre-pandemic level of the financial year 2019-20 (FY2020). That has just about been the case, as Chart A shows. Despite the recovery, we as a nation have still lost two years of GDP growth.

Table 1 gives the data on real GDP and Gross value added (GVA) and growth for the last four financial years.

Table 1: Real GDP and GVA and growth, India

	FY2019 (2nd RE)	FY2020 (2nd RE)	FY2021 (1st RE)	FY2022 (2nd AE)
Real GDP(₹ in trillion)	140.0	145.2	135.6	147.7
Real GVA(₹ in trillion)	127.4	132.2	125.9	136.2
Real GDP growth	6.5%	3.7%	(6.6%)	8.9%
Real GVA growth	5.9%	3.7%	(4.8%)	8.3%

The second advance estimates of national income for FY2022 released by the Central Statistics Office on 28 February 2022 expect GDP growth in FY2022 to be 8.9%. Sectoral growth estimates show that all three sectors—agriculture, manufacturing, and services grew well. In absolute terms, the economic output of all the three sectors crossed the pre-pandemic levels of FY2020. RBI in its monetary policy report dated 8 April 2022 projected a real GDP growth of 7.2% for the financial year 2022-23 (FY2023).

The service sector which accounts for more than half the Indian economy was most impacted on account of the COVID-19 restrictions especially for activities that needed human contact. Although the overall service sector now contributes to 54% of the GDP as against the pre-pandemic levels of 55%, there is a wide dispersion of performance among the different sub-sectors. The financial, real estate and the public administration segments are now well above the pre-pandemic levels. However, contact sensitive segments like travel, trade and hotels are yet to reach the pre-pandemic levels of value added.

The Government of India announced a growth oriented and expansionary budget for the FY2023 with a strong push on investments to lift economic growth. The compounded annual growth rate for capital expenditure of FY2023 over FY2020 is projected at 28% while revenue expenditure is contained at 12%. The budget's expectation is that such capex-led growth would take India on a growth path even at the cost of a fiscal deficit of 6.4% in FY2023, coming on top of 6.8% in FY2022.

Unfortunately, the conflict in Ukraine has led to chaos in global commodity markets. Crude prices are between USD100 to USD120 posing a threat to India's economic recovery. How increased commodity prices will unfold is yet to be seen. What is sure, however, is that there will be a considerable impact on inflation which was already a cause of concern.

Inflation has emerged as a global challenge owing to the surge in energy prices, non-food commodities, input prices disruptions of global supply chains and rising freight costs. In India, retail inflation measured by the Consumer Price Index (CPI) edged up to 6.95% in March 2022 from 5.66% in December 2021. The food group registered a significant decline in prices primarily on account of vegetables, meat and fish, edible oils, and fruits. Fuel inflation eased in December 2021 but remained in double digit and remains a serious cause of worry. Chart B depicts India's Inflation rate and wholesale price index (WPI).

The RBI introduced its Resolution Framework-2.0 in May 2021 during the outbreak of the deadly second wave which gave impacted and vulnerable borrowers breathing space to meet their repayment obligations.

Simultaneously, the RBI maintained adequate liquidity to support its accommodative stance throughout the year. It resorted to rebalancing liquidity on a dynamic basis without compromising systemic liquidity. Moreover, the RBI kept its key policy rates including repo rate, reverse repo rate and bank rate unchanged at 4%, 3.35% and 4.25% respectively throughout FY2022. On balance, we believe that the Indian economy is well positioned to counter the challenges posed by any new waves of the pandemic. The inflation challenge needs to be tackled carefully without resorting to sharp interest rate hikes, as it may dampen the pace of economic recovery. The other serious risk relates to major disruptions in the global supply chains mostly emanating from China; and, more recently, with the Ukraine conflict, from Russia. It is difficult to predict how these will play out. So, we need to be prepared for continuous volatility and external disruptions.

3. INDUSTRY OVERVIEW

NBFCs have become important constituents of the financial sector and have been recording higher credit growth than scheduled commercial banks (SCBs) over the past few years. NBFCs are leveraging their superior understanding of regional dynamics and customised products and services to expedite financial inclusion in India. Lower transaction costs, quick decision making, customer orientation and prompt service standards have typically differentiated NBFCs from banks. Considering the reach and expanse of NBFCs, they are well-suited to bridge the financing gap in a large country like India. Systemically Important NBFCs have demonstrated agility, innovation, and frugality to provide formal financial services to millions of Indians.

This is an enviable track record despite the business models of the NBFCs being severely tested by four large external events in the last few years, namely, (i) demonetisation, (ii) GST implementation, (iii) failure of few large NBFCs, and (iv) the pandemic. The fact that many NBFCs have managed to overcome these stresses without significant impact on financial position is a testimony to their resilience and agility.

4. INDIAN ECONOMIC REFORMS AND BUDGET 2022-23 PROVISIONS

The Budget 2022-23 seeks to lay the foundation of the Indian economy over the 'Amrit Kaal' period of the next 25 years leading to 100 years of independence in 2047. The government is emphasising the role of PM Gati Shakti, inclusive development, productivity enhancement and investment, sunrise opportunities, energy transition and climate action, as well as financing of investments.

5. OUTLOOK

The Indian economy is projected to grow by 8% in FY 23, consistent agricultural performance, flattening of the COVID-19 infection curve, increase in government spending, favourable reforms and an efficient rollout of the vaccine leading to a revival in economic activity.

7. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The internal financial control of SFIL over financial reporting is a process that is designed to provide reasonable assurance regarding the reliability of financial reporting and preparation of financial statements for external purposes in accordance with the generally accepted accounting principles. The Company's internal financial control over financial reporting consists of the policies and procedures:

- (1) Pertaining to maintenance of the records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company
- (2) Providing reasonable assurance that transactions are being recorded as mandatory to permit the preparation of financial statements according to the generally accepted accounting principles and that the receipts and expenditures of the Company are prepared only in accordance with authorisations of management and Directors of the Company, and
- (3) Providing reasonable assurance to prevent or timely detect unauthorised acquisition, use or disposition of the Company's assets which may have a material effect on the financial statements. The Company has a robust internal audit programme, where the internal auditors, an independent firm of Chartered Accountants, conduct a risk based audit to not only test the adherence to policies and procedures but to also suggest improvements in the processes and systems. The audit program is agreed upon by the Audit Committee. Internal audit observations and recommendations are reported to the Audit Committee, which monitors the implementation of such recommendations.

8. POSSIBLE THREATS

As we get into an environment which is likely to be largely positive over medium to long term, there may be significant roadblocks in the shorter term due to funding difficulties which are facing by NBFC. Despite recent push by the RBI, the resolution of stressed assets in the system is likely to take more time. Also the effect of various loan waivers on credit culture in the rural areas is still to be seen. Your Company acknowledges these possible negative factors and has a plan to mitigate them through its deep domain knowledge, strong risk framework and an efficient collection mechanism

9. FIXED DEPOSITS

The Company is a non-deposit accepting -NBFC. The Company has not accepted any fixed deposit during the period under review.

10. RISK MANAGEMENT

As an NBFC, SFIL is exposed to credit, liquidity and interest rate risk. It has continued to invest in talent, processes and emerging technologies for building advanced risk and underwriting capabilities. The Company recognizes the importance of risk management and has accordingly invested in appropriate processes, people and a management structure. The Board of Directors of the Company reviews the asset quality at frequent intervals. The nature of business the Company is engaged in exposes it to a slew of complex and variable risks. The rapid and continuous changes in the business environment have ensured that the organization becomes increasingly risk focused to achieve its strategic objectives. SFIL's policies ensure timely identification, management and mitigation of relevant risks, such as credit risk, liquidity risk, interest rate risk, operational risk, reputational and regulatory risks, which help the Company move forward with vigour.

11. CAUTIONARY STATEMENT

This statement describes the objectives, projections, expectation and estimations of the Company, which may be 'forward looking statements' within the meaning of applicable securities laws and regulations. Forward- looking statements are based on certain assumptions and expectations of future events. The Company cannot guarantee that these assumptions and expectations are accurate or will be realised by the Company. The actual result may differ materially from those expressed in the statement or implied due to the influence of the external factors, which are beyond the Company's control. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements on the basis of any subsequent developments.

INDEPENDENT AUDITORS' REPORT

**To the Members of
Sainik Finance & Industries Limited**

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of Sainik Finance & Industries Limited comprising of the Balance Sheet as at 31 March 2022, the Statement of Profit and Loss, including other comprehensive income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, their losses including other comprehensive income, their cash flows and the statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's responsibilities for the audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Emphasis of Matter

- a) We draw attention to note no. 39 to the Ind AS financial statements in terms of which it has been reported that in certain cases, the Company has advanced loans on which no amount has been received against the principal and interest accrued thereon but the same is in accordance with the loan agreements entered by the Company which provides for payment of interest along with principal amount or at the expiry of the said loan agreements. Although, the Company is confident of the recovery of the said amounts as per respective terms of the loan agreements and has obtained declarations and confirmations from the respective parties. Our report is not modified in respect of this matter.
- b) We draw attention to note no. 40 to the Ind AS financial statements in terms of which it has been reported that in respect of loan given to Tejswi Impex Private Limited, as per the ICD agreement dated 30 November 2011 expired on 30 November 2021. Tejswi Impex Private Limited has offered a settlement amount of Rs.6.50 crore as against total outstanding loan of Rs.8.34 crore, and the Company has agreed to settle the loan vide agreement dated 01 May 2022. Accordingly, during the month of May'22 & June'22, amount of Rs.6.5 crore has been recovered. Hence, no interest has been provided during the FY 2021-22 as per the above settlement.

SAINIK FINANCE & INDUSTRIES LIMITED

CIN: L26912DL1991PLC045449

Also, in respect of loan given to TRN Energy Private Limited (Borrower) as per ICD agreement dated 31 May 2021 it is specified therein that the payment of interest on ICD or repayment of ICD shall be made by the Borrower upon clearing the dues of its term lenders as per financing agreement entered between the Borrower and its term lenders, who have sanctioned term facilities to TRN Energy Private Limited, which will be repaid up to 30 June 2038. Hence, the Company entered into a Novation Agreement dated 31 March 2022 with ACB (India) Power Limited, the holding company of the Borrower, wherein it was agreed that ACB (India) Power Limited shall take over the loan of TRN Energy Private Limited from the Company by way of novation on cash basis with total consideration of Rs.76.75 crore as against total outstanding loan of Rs.84.09 crore in full and final settlement. Accordingly, during the month of June 2022 an amount of Rs.76.75 crore has been paid by ACB (India) Power Limited in full and settlement of the ICD given to TRN Energy Private Limited.

- c) We draw attention to note no. 13 to the Ind AS financial statements in terms of which it has been reported that ICD agreement w.r.t. to ICD received from MKJ Enterprises Limited has been expired, and is therefore due for repayment.

Key Audit Matters

Key Audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of audit procedures performed by us, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

Sl.	Key Audit matter	Auditors' Response
1.	<p>Impairment on financial assets (expected credit losses).</p> <p>Ind AS 109 requires the Company to recognise impairment loss allowance towards its financial assets (designated at amortised cost and fair value through other comprehensive income) using the expected credit loss (ECL) approach. Such ECL allowance is required to be measured considering the guiding principles of Ind AS 109 including: unbiased, probability weighted outcome under various scenarios; time value of money; impact arising from forward looking macro-economic factors and; availability of reasonable and supportable information without undue costs.</p> <p>Applying these principles involves significant estimation in various aspects, such as: grouping of borrowers based on homogeneity by using appropriate statistical techniques; staging of loans and estimation of behavioral life; determining macro-economic factors impacting credit quality of receivables; estimation of losses for loan products with no/minimal historical defaults.</p> <p>Considering the significance of such allowance to the overall financial statements and the degree of estimation involved in computation of expected credit losses, this area is considered as a key audit matter.</p>	<p>We read and assessed the Company's accounting policies for impairment of financial assets and their compliance with Ind AS 109.</p> <p>We tested the criteria for staging of loans based on their past-due status to check compliance with requirement of Ind AS 109. Tested a sample of performing (stage 1) loans to assess whether any loss indicators were present requiring them to be classified under stage 2 or 3 and vice versa.</p> <p>We evaluated the reasonableness of the Management estimates by understanding the process of ECL estimation and tested the controls around data extraction and validation.</p> <p>Tested the ECL model, including assumptions and underlying computation.</p> <p>Assessed the floor/minimum rates of provisioning applied for loan products with inadequate historical defaults.</p> <p>Audited disclosures included in the Ind AS financial statements in respect of expected credit losses.</p>

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the preparation of other information which comprises the Director's Report including annexures to Director's Report, Management Discussion and Analysis Report and Report on Corporate Governance, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and accordingly, we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with financial statements or our knowledge obtained during the course of audit or otherwise appears to be materially misstated. Based on the work we have performed, if we conclude that there is a material misstatement of this other information; we are required to report the fact. We have nothing to report in this regard.

Responsibility of Management for Financial Statements

The Company's Board of Directors is responsible for the preparation and presentation of these Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and statement of changes in equity in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Board of Directors of the Companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Ind AS financial statements by the Directors of the Company, as aforesaid.

In preparing the Ind AS financial statements, the respective Board of Directors of the companies are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That respective Board of Directors of the Companies are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

SAINIK FINANCE & INDUSTRIES LIMITED

CIN: L26912DL1991PLC045449

- Identify and assess the risks of material misstatement on the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charge with governance, we determine those matters that were of most significance in the audit of Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public benefits of such communication.

Other Matters

The financial statements of the Company for the year ended 31 March 2021 were audited by the predecessor auditor who resigned due to casual vacancy, have expressed an unmodified opinion on those financial statement. Our report is not modified in respect of this matter.

ANNEXURE- (B) TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF SAINIK FINANCE & INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Sainik Finance & Industries Limited** ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit with reference to these Ind AS financial statements. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting with reference to these Ind AS financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

1. Background

The Company was incorporated on 22 August 1991 with Registrar of Companies, NCT Delhi and Haryana (ROC) in the name of Garuda Clays Limited. Later on Ramanuj Leasing Limited which was incorporated on 02 January 1985 with the object to carry on leasing & finance activities, was merged with Garuda Clays Limited by order of the Hon'ble High Court of Delhi dated 01 November 1999 and the said order was filed with ROC on 04 December 2000. The name of Garuda Clays Limited was changed to the present name i.e. Sainik Finance & Industries Limited.

The Company was earlier engaged in manufacturing of Portland cement (ITC Code: 25.23.29.10) and Pre-Stressed Concrete Pole (ITC Code-68.69.60.00). The business operation with respect to manufacturing of Portland cement and Pre-Stressed Poles were discontinued in July, 2012. The Company disposed-off the Plant & machinery and factory structure during the previous years.

The Company is presently engaged in non-banking finance activities and is registered with Reserve Bank of India as Non-Banking Finance Company (NBFC). The Reserve Bank of India has issued its Certificate of Registration No. N.14.02967 dated 03 September 2003.

2. Significant accounting policies

2.1 Basis of accounting and preparation of financial statements

The accompanying financial statements are prepared and presented in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with guidelines issued by the Securities and Exchange Board of India (SEBI) and the guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non Banking Finance Company ('NBFC'). The financial statements have been prepared on a going concern basis. The Company uses accrual basis of accounting except in case of significant uncertainties. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year. The financial statements are presented in Indian rupees.

2.2 Presentation of financial statements

The Company presents its Balance Sheet in order of liquidity. The Company generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

Critical accounting estimates and judgments

The preparation of the Company's financial statements requires Management to make use of estimates and judgments. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from those on which the Management's estimates are based. Accounting estimates and judgments are used in various line items in the financial statements for e.g.:

- Fair value of financial instruments [Refer note no.2.16, 31]
- Effective Interest Rate (EIR) [Refer note no. 2.4]
- Impairment on financial assets [Refer note no.2.15(i), 30]
- Provisions and other contingent liabilities [Refer note no. 2.8, 34]
- Provision for tax expenses [Refer note no. 2.10, 28]
- Residual value and useful life of property, plant and equipment [Refer note no.2.6]

2.3 Current/ Non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

- (c) it is expected to be realized within 12 months after the reporting date; or
- (d) it is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in, the company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within 12 months after the reporting date; or
- (d) the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

All other liabilities are classified as non-current.

Operating cycle

Based on the nature of activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.4 Revenue recognition

Interest income

The Company recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

The Company recognises interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets regarded as 'stage 3', the Company recognises interest income on the amortised cost net of impairment loss of the financial asset at EIR. If the financial asset is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

Delayed payment interest (penal interest) levied on customers for delay in repayments/non-payment of contractual cash flows is recognised on realisation.

Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognised at the contractual rate of interest.

2.5 Inventory

Raw material, packing materials, stores and spares, finished goods, semi-finished goods & stocks in process are valued at cost or market price whichever is lower in accordance with valuation principles laid out in Ind AS-2.

2.6 Property, Plant and Equipment

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 'Property, Plant and Equipment'

Depreciation on property, plant and equipment

Depreciation / amortisation are provided over the useful life of the assets, pro rata for the period of use, on a straight-line method. The useful life estimates prescribed in Part C of Schedule II to the 2013 Act have been considered as useful life for tangible assets. Acquired intangible assets are amortised over a period as per management estimates of their useful life. Depreciation is provided on a pro-rata basis i.e. from the month in which asset is ready for use.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

Gains / losses on disposal of assets

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under other income in the Statement of Profit and Loss when the asset is derecognised.

2.7 Impairment of non- financial assets

An assessment is done at each Balance Sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

2.8 Provisions and contingent liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.9 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.10 Taxes

i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

ii) Deferred tax

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized deferred tax assets, if any, are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised either in OCI or in other equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

2.11 Employee benefits

- i) Short Term Employee Benefits: (i.e. benefits payable within one year) are recognized in the period in which employee services are rendered.
- ii) Contributions towards provident fund are recognized as expense. Provident Fund contributions in respect of all employees are made to Provident Fund Authorities.
- iii) Provision for gratuity payable has been made in accordance with the period of qualifying service put in by each employee of the Company from the date of joining and up to the end of the financial year.
- iv) Contribution to Central Government Employees State Insurance Scheme for eligible employees is recognized as charge for the year.

2.12 Finance costs

Borrowing costs on financial liabilities are recognised using the EIR.

2.13 Provisions and contingencies

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.14 Cash and cash equivalents

Cash and cash equivalents include cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.15 Financial Instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments.

All the financial instruments are recognised on the date when the Company becomes party to the contractual provisions of the financial instruments. For tradable securities, the Company recognises the financial instruments on settlement date.

(i) Financial assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

Initial measurement

All financial assets are recognised initially at fair value including transaction costs that are attributable to the acquisition of financial assets except in the case of financial assets recorded at FVTPL where the transaction costs are charged to profit or loss.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified into four categories:

- (a) Debt instruments at amortised cost
- (b) Debt instruments at FVOCI
- (c) Debt instruments at FVTPL
- (d) Equity instruments designated at FVOCI

(a) Debt instruments at amortised cost

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

The Company measures its financial assets at amortised cost if both the following conditions are met:

- The asset is held within a business model of collecting contractual cash flows; and
- Contractual terms of the asset give rise on specified dates to cash flows that are Sole Payments of Principal and Interest (SPPI) on the principal amount outstanding.

To make the SPPI assessment, the Company applies judgment and considers relevant factors such as the nature of portfolio and the period for which the interest rate is set.

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model is not assessed on an instrument by instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated financial assets going forward.

The business model of the Company for assets subsequently measured at amortised cost category is to hold and collect contractual cash flows. However, considering the economic viability of carrying the delinquent portfolios in the books of the Company, it may sell these portfolios to banks and/or asset reconstruction companies.

After initial measurement, such financial assets are subsequently measured at amortised cost on effective interest rate (EIR). The expected credit loss (ECL) calculation for debt instruments at amortised cost is explained in subsequent notes in this section.

(b) Debt instruments at FVOCI

The Company subsequently classifies its financial assets as FVOCI, only if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. The ECL calculation for debt instruments at FVOCI is explained in subsequent notes in this section.

Debt instruments such as long term investments in Government securities to meet regulatory liquid asset requirement of the Company's deposit program and mortgage loans portfolio where the Company periodically resorts to partially selling the loans by way of assignment to willing buyers are classified as FVOCI.

On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified to profit or loss.

(c) Debt instruments at FVTPL

The Company classifies financial assets which are held for trading under FVTPL category. Held for trading assets are recorded and measured in the Balance Sheet at fair value. Interest and dividend incomes are recorded in interest income and dividend income, respectively according to the terms of the contract, or when the right to receive the same has been established. Gain and losses on changes in fair value of debt instruments are recognised on net basis through profit or loss.

The Company's investments into mutual funds, Government securities (trading portfolio) and certificate of deposits for trading and short term cash flow management have been classified under this category.

(d) Equity investments designated under FVOCI

All equity investments in scope of Ind AS 109 'Financial Instruments' are measured at fair value. The Company has strategic investments in equity for which it has elected to present subsequent changes in the fair value in other comprehensive income. The classification is made on initial recognition and is irrevocable.

All fair value changes of the equity instruments, excluding dividends, are recognised in OCI and not available for reclassification to profit or loss, even on sale of investments. Equity instruments at FVOCI are not subject to an impairment assessment.

De-recognition of Financial Assets

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

The Company derecognises a financial asset (or, where applicable, a part of a financial asset) when:

- The right to receive cash flows from the asset have expired; or
- The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under an assignment arrangement and the Company has transferred substantially all the risks and rewards of the asset. Once the asset is derecognised, the Company does not have any continuing involvement in the same.

The Company transfers its financial assets through the partial assignment route and accordingly derecognises the transferred portion as it neither has any continuing involvement in the same nor does it retain any control. If the Company retains the right to service the financial asset for a fee, it recognises either a servicing asset or a servicing liability for that servicing contract. A service liability in respect of a service is recognised at fair value if the fee to be received is not expected to compensate the Company adequately for performing the service. If the fees to be received are expected to be more than adequate compensation for the servicing, a service asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

On derecognition of a financial asset in its entirety, the difference between:

- the carrying amount (measured at the date of derecognition) and
- the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

Impairment of financial assets

ECL is recognised for financial assets held under amortised cost, debt instruments measured at FVOCI, and certain loan commitments.

Financial assets where no significant increase in credit risk has been observed are considered to be in 'stage 1' and for which a 12 month ECL is recognised.

Financial assets that are considered to have significant increase in credit risk are considered to be in 'stage 2' and those which are in default or for which there is an objective evidence of impairment are considered to be in 'stage 3'. Lifetime ECL is recognised for stage 2 and stage 3 financial assets.

At initial recognition, allowance (or provision in the case of loan commitments) is required for ECL towards default events that are possible in the next 12 months, or less, where the remaining life is less than 12 months.

In the event of a significant increase in credit risk, allowance (or provision) is required for ECL towards all possible default events over the expected life of the financial instrument ('lifetime ECL').

Financial assets (and the related impairment loss allowances) are written off in full, when there is no realistic prospect of recovery.

Treatment of the different stages of financial assets and the methodology of determination of ECL

(a) Credit impaired (stage 3)

The Company recognises a financial asset to be credit impaired and in stage 3 by considering relevant objective evidence, primarily whether:

- Contractual payments of either principal or interest are past due for more than 90 days;
- The loan is otherwise considered to be in default.

Restructured loans, where repayment terms are renegotiated as compared to the original contracted terms due to significant credit distress of the borrower, are classified as credit impaired. Such loans continue to be in stage 3 until they exhibit regular payment of renegotiated principal and interest over a minimum observation period, typically 12 months– post renegotiation, and there are no other indicators of impairment. Having satisfied the conditions of timely payment over the observation period these loans could be transferred to stage 1 or 2 and a fresh assessment of the risk of default is done for such loans.

Interest income is recognised by applying the EIR to the net amortised cost amount i.e. gross carrying amount less ECL allowance.

(b) Significant increase in credit risk (stage 2)

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure. However, unless identified at an earlier stage, 30 days past due is considered as an indication of financial assets to have suffered a significant increase in credit risk. Based on other indications such as borrower's frequently delaying payments beyond due dates though not 30 days past due are included in stage 2 for mortgage loans.

The measurement of risk of defaults under stage 2 is computed on homogenous portfolios, generally by nature of loans, tenors, underlying collateral, geographies and borrower profiles. The default risk is assessed using PD (probability of default) derived from past behavioural trends of default across the identified homogenous portfolios. These past trends factor in the past customer behavioural trends, credit transition probabilities and macroeconomic conditions. The assessed PDs are then aligned considering future economic conditions that are determined to have a bearing on ECL.

(c) Without significant increase in credit risk since initial recognition (stage 1)

ECL resulting from default events that are possible in the next 12 months is recognised for financial instruments in stage 1. The Company has ascertained default possibilities on past behavioural trends witnessed for each homogenous portfolio using application/behavioural score cards and other performance indicators, determined statistically.

(d) Measurement of ECL

The assessment of credit risk and estimation of ECL are unbiased and probability weighted. It incorporates all information that is relevant including information about past events, current conditions and reasonable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro economic factors.

Measurement of expected credit losses are based on 3 main parameters:

- **Probability of default (PD):**

It is defined as the probability of whether borrowers will default on their obligations in future. Since the company don't have any history of past losses therefore it was not adequate enough to create our own internal model through which actual defaults for each grade could be estimated. Hence, the default study published by one of the recognised rating agency is used for estimating the PDs for each range grade.

- **Loss given default (LGD):**

It is the magnitude of the likely loss, if there is a default. The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value. The default study published by one of the recognised rating agency is used for estimating the LGD for secured and unsecured loans.

- **Exposure at default (EAD):**

EAD represents the expected balance at default, taking into account the repayment of principal and interest from the Balance Sheet date to the date of default together with any expected drawdowns of committed facilities.

Write offs – The gross carrying amount of a financial asset is written-off (either partially or in full) to the extent that there is no reasonable expectation of recovering the asset in its entirety or a portion thereof. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off and when there is no reasonable expectation of recovery from the collaterals held. However, financial assets that are written-off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR.

SAINIK FINANCE & INDUSTRIES LIMITED

Notes on the financial statement for the year ended 31 March 2022

(All amount are in rupees lakhs, unless otherwise stated)

- Determination of PD is covered above for each stages of ECL.
- EAD represents the expected balance at default, taking into account the repayment of principal and interest from the Balance Sheet date to the date of default together with any expected drawdowns of committed facilities.
- LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money.

(ii) **Financial liabilities**

Financial liabilities include liabilities that represent a contractual obligation to deliver cash or another financial asset to another entity, or a contract that may or will be settled in the entities own equity instruments. Few examples of financial liabilities are trade payables, debt securities and other borrowings and subordinated debts.

Initial measurement

All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade payables, other payables, debt securities and other borrowings.

Subsequent measurement

After initial recognition, all financial liabilities are subsequently measured at amortised cost using the EIR. Any gains or losses arising on derecognition of liabilities are recognised in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

(iii) **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.16 Fair value measurements

The Company measures its qualifying financial instruments at fair value on each Balance Sheet date.

Fair value is the price that would be received against sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the accessible principal market or the most advantageous accessible market as applicable.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into Level I, Level II and Level III based on the lowest level input that is significant to the fair value measurement as a whole.

For assets and liabilities that are fair valued in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy

Defined Benefit Plan - Gratuity

The Company operates an unfunded gratuity plan, under which every employee who has completed atleast five years of service gets a gratuity on departure @15 days of last drawn basic salary for each completed year of service.

The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. The actuarial risks associated are:

Interest Rate Risk:

The risk of government security yields falling due to which the corresponding discount rate used for valuing liabilities falls. Such a fall in discount rate will result in a larger value placed on the future benefit cash flows whilst computing the liability and thereby requiring higher accounting provisioning.

Longevity Risks:

Longevity risks arises when the quantum of benefits payable under the plan is based on how long the employee lives post cessation of service with the company. The gratuity plan provides the benefit in a lump sum form and since the benefit is not payable as an annuity for the rest of the lives of the employees, there is no longevity risks.

Salary Risks:

The gratuity benefits under the plan are related to the employee's last drawn salary. Consequently, any unusual rise in future salary of the employee raises the quantum of benefit payable by the company, which results in a higher liability for the company and is therefore a plan risk for the company.

The estimates of the future salary increases, considered in actuarial valuation, include inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market. The discount rate is based on the prevailing market yield on government securities as at the balance sheet date for the estimated average remaining service.

30 Financial Risk Management

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has constituted the risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions.

The Company has exposure to the following risks arising from its business operations:

i) Credit risk

Credit risk is the risk of financial loss if a customer or counterparty fails to meet an obligation under a contract. Lending activities account for most of the Company's credit risk. Other sources of credit risk also exist in loans and transaction settlements. Credit risk is measured as the amount that could be lost if a customer or counterparty fails to make repayments. The maximum exposure to credit risk in case of all the financial instruments is restricted to their respective carrying amount.

Credit Risk is monitored through stringent credit appraisal, counter party limits and internal risk ranges of the borrowers. Exposure to credit risk is managed through regular analysis of the ability of all the customers and counterparties to meet interest and capital repayment obligations and by changing lending limits where appropriate.

a) Maximum exposure to the Credit risk

This table below shows the Company's maximum exposure to the credit risk.

Particulars	As at 31 March 2022	As at 31 March 2021
Financial Assets at amortised cost - Loans & Advances (Gross)	25,646.55	22,487.74
Less : Impairment loss allowances	1,467.43	1,036.40
Financial Assets at amortised cost - Loans & Advances (Net)	24,179.12	21,451.34
Total	24,179.12	21,451.34

b) Credit quality analysis

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. The credit quality of Loans and advances measured at amortised cost is primarily assessed by the Days Past Due (DPD) status and other qualitative factors leading to increase in credit risk.

Inputs, assumptions and techniques used for estimating impairment

In assessing the impairment of financial assets under the expected credit loss model, the Company defines default when a loan obligation is overdue for more than 90 days and credit impaired.

Assessment of significant increase in credit risk

When determining whether the risk of default has increased significantly since initial recognition, the Company considers the DPD status of the loans. Credit risk is deemed to have increased significantly when an asset is more than 30 days past due (DPD) and other qualitative internal or external factors demonstrating credit or liquidity risk.

Calculation of expected credit losses

The key elements in calculation of ECL are as follows:

PD - The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

EAD - The Exposure at Default is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, accrued interest from missed payments and loan commitments.

LGD - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD. The LGD is determined based on valuation of collaterals and other relevant factors.

For PD the Company has relied upon the PD data from industry benchmarks and external rating agencies. For Loss Given Default (LGD) the Company has relied on internal and external information.

The following table sets out information about the credit quality of financial assets measured at amortised cost.

c) Movement in Gross Exposures and credit impairment for loans and advances

The Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of Financial Assets measured at amortised cost or FVTOCI. Company follows a 'three-stage' model for impairment based on changes in credit quality since initial recognition. Please refer to the accounting policy for details.

ii) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Company has in place an Asset-Liability Management Committee (ALCO) which functions as the operational unit for managing the Balance Sheet within the performance and risk parameters laid down by the Board and Risk Committee of the Board. ALCO reviews Asset Liability strategy and Balance Sheet management in relation to asset and liability profile. ALCO ensures that the objectives of liquidity management are met by monitoring the gaps in the various time buckets, deciding on the source and mix of liabilities, setting the maturity profile of the incremental assets and liabilities etc.

Key principles adopted in the Company's approach to managing liquidity risk include:

- Monitoring the Company's liquidity position on a regular basis, using a combination of contractual and behavioural modelling of balance sheet and cash flow information.
- Maintaining a high quality liquid asset portfolio or maintaining undrawn bank lines.
- Operating a prudent funding strategy which ensures appropriate diversification and limits maturity concentrations.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operation.

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include interest accrued till the reporting date.

As at 31 March 2022	Contractual cash flows

Other Financial Liabilities	2,646.56	2,646.56	-	-	-
	18,890.64	18,890.64	-	-	-

iii) Market Risk

Market Risk is the risk of financial loss arising on account of changes/fluctuations in market variables such as interest rates, equity prices etc. Market risk stems from the Company's Loan book and balance sheet management activities, the impact of changes and correlation between interest rates, credit spreads and volatility in bond or equity prices.

Market risk represents the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices.

iv) Interest rate risk

Company has exposure to interest rate risk, primarily from its lending business and related borrowings. The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's Statement of Profit and Loss.

	% Increase in rate		Increase/(decrease) in profit	
	31 March 2022	31 March 2021	31 March 2022	31 March 2021
Borrowings that are re-priced	0.25%	0.25%	39.05	30.38
Loans that are re-priced	0.25%	0.25%	(39.05)	(30.38)

Interest rate risk is managed primarily by monitoring the sensitivity of expected net interest income ('NII') under varying interest rate scenarios. This monitoring is undertaken by ALCO on regular basis. The NII sensitivities shown are indicative and based on simplified scenarios.

39. In certain cases, the Company has advanced loans on which no amount has been received against the principal and interest accrued thereon. The same is in accordance with the loan agreements entered by the Company which provides for payment of interest along with principal amount or at the expiry of the said loan agreements. The Company has correctly followed the relevant provisions of IND-AS as well as RBI regulations, so far as they are applicable to the said loan agreements in respect of provisioning. The Company is confident of the recovery of the said amounts as per respective terms of the loan agreements and has obtained declarations and confirmations from the respective parties.

40. a) In respect of loan given to Tejswi Impex Private Limited, as per the ICD agreement dated 30 November 2011 expired on 30 November 2021. Tejswi Impex Private Limited has offered a settlement amount of Rs.6.50 crore as against total outstanding loan of Rs.8.34 crore, and the Company has agreed to settle the loan vide agreement dated 01 May 2022. Accordingly during the month of May'22 & June'22, amount of Rs.6.5 crore has been recovered. Hence, no interest has been provided during the FY 2021-22 as per the above settlement.

b) Also, in respect of loan given to TRN Energy Private Limited (Borrower) as per ICD agreement dated 31 May 2021 it is specified therein that the payment of interest on ICD or repayment of ICD shall be made by the Borrower upon clearing the dues of its term lenders as per financing agreement entered between the Borrower and its term lenders, who have sanctioned term facilities to TRN Energy Private Limited, which will be repaid up to 30 June 2038. Hence, the Company entered into a Novation Agreement dated 31st March 2022 with ACB (India) Power Limited, the holding company of the Borrower, wherein it was agreed that ACB (India) Power Limited shall take over the loan of TRN Energy Private Limited from the Company by way of novation on cash basis with total consideration of Rs.76.75 crore as against total outstanding loan of Rs.84.09 crore in full and final settlement. Accordingly, during the month of June 2022 an amount of Rs.76.75 crore has been paid by ACB (India) Power Limited in full and settlement of the ICD given to TRN Energy Private Limited.

41. The outbreak of COVID 19 pandemic and consequent lockdown has severely impacted business and operations of the Company since the last year, In relation to COVID-19, judgments and assumptions include the extent and duration of the pandemic, the impacts of actions of governments and other authorities, and the responses of businesses and consumers in different industries. While the methodologies and assumptions applied in the impairment loss allowance calculations remained unchanged from those applied prior to the COVID-19 pandemic, the Company has separately incorporated estimates, assumptions and judgments specific to the impact of the COVID-19 pandemic based on early indicators of moratorium and delayed payments metrics observed along with an estimation of potential stress on probability of defaults and exposure at defaults. The extent to which the COVID-19 pandemic will impact the Company's impairment loss allowance on assets and future results will depend on future developments, which are highly uncertain and management has considered various internal and external information available up to the date of approval of financial results in assessing the impact of COVID-19 pandemic in the financial results for the quarter and year ended March 31, 2022. Management will also continue to monitor changes in future economic conditions. The eventual outcome of the impact of COVID-19 may be different from that estimated as on the date of approval of these financial results..

42. The figures for the corresponding previous year have been regrouped/ reclassified wherever necessary to make them comparable.
