2 SIGNIFICANT ACCOUNTING POLICIES:

i. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These financial statements have been prepared to comply with the Generally Accepted Accounting Principles in India (Indian GAAP), including the Accounting Standards notified under the relevant provisions of the Companies Act, 2013. The financial statements are prepared on accrual basis under the historical cost convention, except for certain Fixed Assets which are carried at revalued amounts. **Current / Non-current classification** The Revised Schedule VI to the Act requires assets and liabilities to be classified as either Current or Non-current. An asset is classified as current when it satisfies any of the following criteria: (a) it is expected to be realized in, or is intended for sale or consumption in, the entity's normal operating cycle; (b) it is held primarily for the purpose of being traded; (c) it is expected to be realized within twelve months after the balance sheet date; or (d) it is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the balance sheet date. All other assets are classified as non-current. A liability is classified as current when it satisfies any of the following criteria: (a) it is expected to be settled in the entity's normal operating cycle; (b) it is held primarily for the purpose of being traded; (c) it is due to be settled within twelve months after the balance sheet date; or (d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date. All other liabilities are classified as non-current. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with the revised Schedule VI to the Act.

ii. USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/materialised. The management believes that the estimates used in the preparation of the financial statements are prudent and reasonable.

iii. TANGIBLE ASSETS

Fixed Assets are stated at cost of acquisition / construction or book value and includes amounts added on revaluation less accumulated depreciation and impairment loss, if any. The cost of Tangible Assets comprises its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use. Subsequent expenditures related to an item of Tangible Asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance. Projects under which assets are not ready for their intended use are disclosed under Capital Work-in-Progress.

iv. INTANGIBLE ASSETS

Intangible Assets are generally stated at cost of acquisition net of recoverable taxes less accumulated amortisation/ depletion.

v. INVESTMENTS

Current Investments are carried at lower of cost and fair value. Long term investments are carried at

cost. However, when there is a decline, other than temporary, the carrying amount is reduced to recognise the decline.

vi. DEPRECIATION

Effective 1st April 2014, the Company depreciates its Fixed Assets over the useful life in the manner prescribed in Schedule II to the Companies Act, 2013, as against the earlier practice of depreciating at the rates prescribed in Schedule XIV to the Companies Act, 1956.

- (i) In case of pre-owned assets, the useful life is estimated on a case to case basis.
- (ii) Depreciation on additions to the assets or on sale/discardment of assets, is calculated pro rata from the month of such addition or upto the month of such sale/discardment, as the case may be.
- (iii) Based upon the future projections, the Company has estimated the economic useful life of the assets and accordingly the assets have been depreciated.

vii. INVENTORIES

The inventory is valued as follows:

- (i) Raw Materials At Cost First in First out
- (ii) Stores and Spare parts At Cost First in First out
- (iii) Finished Goods Valued at lower of cost or Net Relisable Value
- (iv) Work in Process At cost by using absorption cost method

As per normal practices the cost of finished goods includes all direct cost and normal fixed overheads. However, it does not include selling and distribution cost. Value of stock of finished goods at the date of Balance Sheet includes duties and taxes if any applicable.

viii. RETIREMENT BENEFITS

Post employment benefits

1) Defined Benefit Plan

GRATUITY

The contributions towards the said funds which are as determined by LIC are charged to revenue each year. Company ascertains the Liability towards Gratuity at the year-end and provision for the differential amount between the liability determined on Actuarial Valuation and Fund balance is provided in the books of account.

2) Defined Contribution Plans

PROVIDENT FUND

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions to a separate entity. The Company makes specified monthly contributions towards Provident Fund. The Company's contribution is recognised as an expense in the Profit and Loss Statement during the period in which the employee renders the related service.

ix. CENVAT CREDIT

CENVAT Credit is accounted on accrual basis on purchase of materials.

x. FOREIGN CURRENCY TRANSACTIONS

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction. Monetary items are translated at the year-end rates. The exchange difference between the rate prevailing on the date of transaction and on the date of settlement as also on translation of monetary items at the end of the year is recognised as income or expense, as the case may be. Any premium or discount arising at the inception of the forward exchange contract is recognized as income or expense over the life of the contract.

xi. REVENUE RECOGNITION

Revenue is recognised only when risks and rewards incidental to ownership are transferred to the customer, it can be reliably measured and it is reasonable to expect ultimate collection. Revenue from operations includes sale of goods, excise duty and adjusted for discounts (net). Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

xii. PROVISION, CONTINGENT LIABILITIES AND CONTINGENT ASSETS :

Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements.

xiii. BORROWING COSTS

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue.

xiv. TAXES ON INCOME

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred income tax reflects the current period timing differences between taxable income and accounting income and reversal of timing differences of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognised if there is virtual certainty that sufficient future taxable income will be available to realise the same. Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

xv. DOUBTFUL DEBTS/ADVANCES

Provision is made in the accounts in respect of debts/advances which in the opinion of the management are considered doubtful of recovery.

xvi. IMPAIRMENT LOSS

Impairment loss is provided to the extent the carrying amount of assets exceeds their recoverable amounts. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.
