#### 2. OPERATIONS

Currently in India, the national economy and marketplace is undergoing rapid changes and

transformation. The volatility in the macroeconomic environment during the FY 2014-15 continued to cast its shadow and most of the markets where Mayur Leather operates, were impacted. Today the companies are operating in such a marketplace where the survival of the fittest is the law. Even in this environment, the Company recorded an exemplary financial performance. The major contributing factors for such all-round performance across all the geographies and industry verticals was the Company's customer-centric approach and its ability to innovate customer specific products, focus on pricing, disciplined execution of complex projects and the rigor in following strong internal processes. This coupled with favorable foreign exchange rate provided better profit margin.

Changing economic scenario and business conditions, evolving consumer preferences, rapid technological innovations and adoption and globalization are driving Mayur Leather to transform the manner in which they operate.

Major challenge is high inflation rate in India and shortage of Leather. This is posing a big problem as the acceptability selling price does not increase in the same ratio as compare to increase in cost of Raw Material. Especially Leather which has been increasing 15% to 25% per annum along with shortage of availability is a huge challenge. Your Company is now focused on its core business objective i.e. growth, profitability and asset efficiency.

During the year 2013–14, revenue from operation increased by 6.21% as compared to year 2012-2013 and in current year we have achieved 21.55% increment as compared to previous year.

The table below shows the comparative growth in revenue of the Company since last three years:

Financial year	Revenue from operations	Other income	Total revenue
2012 - 13	Rs. 2175.13 Lacs	Rs. 65.49 Lacs	Rs.2240.62 Lacs
2013 - 14	Rs. 2310.22 Lacs	Rs. 106.13 Lacs	Rs.2416.35 Lacs
2014 - 15	Rs. 2808.02 Lacs	Rs. 108.60 Lacs	Rs. 2916.62 Lacs

In order to increase our market share to offset the decline in export, the Company has taken various steps, major of them are follows:

- a. In collaboration with M/s UVEX our German buyers:

   European union is under recession. We are trying to stabilize our turnover and increase our customer base and product profile
   We undertook project implementation to start Vulka Shoe production for the Company Heckel Securite, France.
   This has helped to nullify the reduction in exports to Europe over the last few years.

   c. Development is on for new customers in Oman and Qatar to nullify reduction due to recession in middle east. We are also making efforts to develop addition customers in the middle east to support these efforts.
- d. We are undertaking various activities to develop local Indian market:

Our presence in the local market was negligible in the year 2006 –07. We have started activities during the year 2007-08 & by 2008-09 our local market was approx. 29429 Pairs valued at approx.Rs. 1.49 Crores. In the year 2010-11 our local turnover was increased approx. 64% incomparison with the year 2009-10. During the year 2011-12 & 2012-13 due to recession effect on local market our local turnover was stable in both the years, it was around 1.50 Crore in each year.

During the F.Y. 2013-14 we achieved a target sale of 63860 Pairs in domestic Market valued at Rs 3.78 Crore Approx. which is a tremendous increment in domestic sales almost 152 % as compared

to Previous Year. In Current Year the scale has got higher by sale of 92191 Pairs inDomestic Market valued at 6.72 Crore Approx. Efforts are on to increase local market hence to supplement decrease in export market. However the thrust is to enter the Indian market in a bigway as even in India people are moving towards safety consciousness and demand is slowly increasing for quality safety footwear even though price expectation is a challenge. We expect to supplement the decrease in demand in Europe due to recession with increase in domestic supplies.

e. Company working very hard to enter into Domestic Institutional Sales to Government Paramilitary and Police Departments.

With reference to the above steps taken by the Company, the Company is confident of recovering the lost ground due to the recession in Europe.

However, there is one uncertainty in export business and that is the status of EURO. At the moment, it is very volatile and has decreased as compared with US Dollar from 1.33 to 1.11.
