A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements. Contingent assets are not recognised in the financial statements. However contingent assets are assessed continually and if it is virtually certain that an economic benefit will arise, assets and related income are recognised in the period in which the change occurs.

- 32 Balances in the accounts of debtors, creditors and contractors, certain Bank Accounts are taken subject to confirmation and reconciliation and only upon such confirmation and reconciliation, the entries to discounts, claims and writing off sundry balances etc. will be recorded in the books.
- 33 In the absence of detailed information from Small Scale and Ancillary Undertaking, included under the head Sundry Creditors there from are not ascertained as on the date of Balance Sheet.
- 34 Previous year's figures have been regrouped / rearranged wherever deemed necessary.
