MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT

The management discussion and analysis presents the industry Overview, opportunities and Threats, Initiatives by the Company and overall strategy of Riba Textiles Limited becoming a market driven producer/exporter of various innovative models and ranges of Textiles products. The company is very optimistic of capturing a substantial share of Export market in the midst of the threats faced due to the liberalization and increased competition from well established companies from abroad.

1. Industry Structure and Development:

India is the one of the world's largest producers of textiles and garments. Abundant availability of raw materials such as cotton, wool, silk and jute as well as skilled workforce have made the country a sourcing hub. It is the world's second largest producer of textiles and garments. The Indian textiles industry accounts for about 24% of the world's spindle capacity and eight per cent of global rotor capacity. The potential size of the Indian textiles and apparel industry is expected to reach US\$ 223 billion by 2021.

The textiles industry has made a major contribution to the national economy in terms of direct and indirect employment earnings. The sector contributes about 14% to industrial production, 4% to the gross domestic product (GDP), and 27% to the country's foreign exchange inflows. It provides direct employment to over 45 million people. The textiles sector is the second largest provide of employment after agriculture. Thus the growth and all round development of this industry has direct bearings of the improvement of India's economy.

India has overtaken Italy, Germany and Bangladesh to emerge as the world's second largest textile exporter. India's share in Global Textiles increased by 17.5% in 2013 compared to 2012. Textiles exports from India will touch US\$ 300 billion by the year 2024-25.

In 2012, apparel had a share of 69 percent of the overall market; textiles contributed the remaining 31 percent.

Terry towel industry is the only industry with limited effect in recessionary time. The Indian terry towel industry is one of largest in the world, contributing significantly to the growth of the national economy in terms of production, revenue, exports and employment. India has become the larger player in this segment i.e. specially in Terry Towel Markets.

Moreover, the global elimination of quotas at the end of 2004 has greatly enhanced the opportunities for sourcing from India. Therefore, the orders position of the company has improved. Normally, Growth Rate is 1 to 2 percent in this segment across the world. But, India has the maximum Growth in this segment. The Textiles Industry in India provides direct employment to about 38 million people and indirect employment to about 55 millions. It is also the highest net foreign earner and accounts for nearly 30% of the country's exports of Textiles.

Your company is the exporter of terry towels. To reduce any specific country risk your company operates across the globe. Since your company has a lot of seasonal products such as Beach Towel, Bath Robes & Bathmat etc. your company operates half of the year in U.S, Europe etc. Then shift to the opposite season market such as Australia, South Africa, Latin America etc. for balance six months. These steps also help your company to reduce any particular country risk. Your company mostly works with large chain store and 100% of our payment is on L/C based or Documents on site basis. Your company is more flexible company in design capabilities.

2. Opportunities and threats Opportunities

- i) With the closure of many textiles mills in USA and Europe due to strict pollution control regulations, the demand is likely to increase substantially.
- ii) With the lifting of quota regime as per WTO agreement the exports of the company have increased. The expansion project of 49 crore is under implementation to be completed by October 2016.
- iii) The company is having maximum overseas customers at present.

Threats

With the lifting of quota, the competition has increased from China and other towel exporting countries.

3. Initiatives taken by the Company

The company has under taken expansion program to double the existing 3500 MT capacity to 7000 HT annually with a cost of app. 42 crore which will be completed by October 2016.

In view of improving financial results and positive outlook of the near future, your directors are hopeful that in current year better financial results would follow.

5. Risks and concerns

With the dismantling of quota regime, China is also entering in the terry towels segment, which would increase the competition in the International market. However your company is exporting high value dyed yarn jacquard terry towels which are not likely to be affected in the near future.

6. Internal Control Systems and their adequacy

The company has a proper and adequate system of internal controls commensurate with its size to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and the transactions are authorized, recorded and reported correctly.
