## MANAGEMENT DISCUSSIONS AND ANALYSIS

### 1. Industry Structure and Developments:

The earlier trend of smaller companies being marginalized has continued in the year under review. Another distinct trend during the year has been the preference of foreign companies to outsource their entire IT needs to the larger companies and get them to setup large offshore operations to support these contracts.

### 2. Opportunities and Threats

Though the overall scenario for the smaller companies is extremely competitive, there are some niche areas where there are some opportunities for growth. The management is exploring these areas to consider entering these areas and develop expertise in such areas.

### 3. Segment wise or Product wise Performance

Not applicable

### 4. Outlook

The management is doing its best to forge relations with other companies and take the company forward in the new business lines. However, the outlook of the management is cautious in view of the competitive nature of the market.

### 5. Risks and Concerns

While venturing into new business lines, the company would need access to funds. The risk of not being able to raise funds at the timer needed is the biggest risk that the management foresees.

### 6. Internal Control Systems

The Company has adequate internal control systems commensurate with the size and the nature of business of the Company. The internal control system is constantly assessed and strengthened with tighter control procedures. The internal control systems ensure effectively of operations, compliance with internal policies and applicable laws and regulations, protection of resources and assets, and accurate reporting of financial transactions. The audit committee periodically reviews the adequacy and efficacy of the said internal control systems. All the issues relating to internal control systems are resolved by the audit committee.

**7. Discussion on financial performance with respect to operational performance**

In view of the fall in extent of operations and the delay in materialization of the new business lines, the revenue of the company has seen a further dip. Also, the management has decided to adopt even more prudential accounting norms as a matter of conservative accounting. This measure, which will definitely help the company in the future, has led to certain write offs.

**8. Human resource development and industrial relations**

The Company recognizes the importance and contribution of the employees. Human Resource is viewed to be as one of the most important factor in the growth process with a view to cross further frontiers in business performance, the Company strives to organize training modules for understanding and improving the core skills of the employees. It is the continuous effort by the Company that helps to provide the right environment in order to maximize team efforts while exploiting individual growth potential in the right manner. The Directors record their appreciation of the support and continued contribution of all employees towards the growth of the Company.

### **Annexure - B to the Independent Auditors' Report:**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of M/s Fourth Generation Information Systems Limited ("the Company") as of 31st March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### Notes to accounts

#### 1. Significant Accounting Policies & Notes annexed to and forming part of the financial Statements

##### 1.1. Basis for preparation of financial statements:

- a) Compliance with Indian Accounting Standards (Ind As)  
The financial statements have been prepared in accordance with Indian Accounting Standards (Ind As) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act, 2013. Up to the year ended March 31, 2017, the Company prepared financial statements in accordance with the requirements of previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006.

These are the Company's first Ind As financial statements. The date of transition to Ind As is April 1, 2017.

##### b) First time adoption

In accordance with Ind As 101 on First- time adoption of Indian Accounting Standards, the Company has prepared its first Ind As financial statements which include:

- (i) Three Balance sheets namely, the opening Balance Sheet as at 1<sup>st</sup> April, 2016

(The transition date) by recognizing all assets and liabilities whose recognition is required by Ind As, not recognizing assets or liabilities which are not permitted by Ind As, by reclassifying assets and liabilities from previous GAAP as required by Ind As and applying Ind As in measurement of recognized assets and liabilities; and Balance Sheets as at March 31, 2018 and 2017; and

- (ii) Two Statements each of profit and loss; cash flows and changes in equity for the years ended March 31, 2018 and 2017 together with related notes.

The same accounting policies have been applied for all the periods presented except when the company has made use of certain exceptions.

## Fourth Generation Information Systems Limited

---

The financial statements have been prepared on the historical cost basis except for certain instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the schedule III of the Act. The Company has determined its operating cycle as twelve months for the purpose of current-noncurrent classification of assets and liabilities.

The financial statements are presented in Indian Rupees which is also its functional currency. All amounts have been rounded – off to the nearest rupees, unless otherwise indicated.

### c) Use of estimates and judgment

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

### 1.2. Property, Plant and Equipment & Depreciation

Items of Property, Plant and Equipment are stated at cost less accumulated depreciation.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

---

## Fourth Generation Information Systems Limited

---

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labor, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

Depreciation on the fixed assets has been provided based on useful lives as prescribed under part C of the schedule II of the companies act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

### **1.3 Impairment of non-financial assets**

The Company's non-financial assets, other than deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

### **1.4 Intangible assets**

Intangible assets are amortized over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as change in accounting estimates. The amortization expense on intangible assets with finite useful lives is recognized in profit or loss.

### **1.5 Inventory**

Cost of inventories have been computed to include all costs of purchases (including materials), cost of conversion and other costs incurred, as the case may be, in bringing the inventories to their present location and condition.

Stores and consumables are valued at cost arrived at on FIFO basis or net realisable value, whichever is lower

### **1.6 Foreign currencies transactions and translations**

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

The gain or loss on decrease/increase in reporting currency due to fluctuations in foreign exchange rates, in case of monetary current assets and liabilities in foreign currency, are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction.

### **1.7 Provisions**

A provision is recognised when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (other than employee benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

### **1.8 Revenue Recognition**

Revenue is measured at the fair value of the consideration received or receivable.

#### **Interest Income**

Interest income from a financial asset is recognised using effective interest rate method. However, in respect of certain financial assets where it is not probable that the economic benefits associated with the transaction will flow to the entity and amount of revenue cannot be measured reliably, in such cases interest income is not recognised.

### **1.9 Dividend Income**

Dividends will be recognised when the company's right to receive has been established

### **1.10 Employee benefits**

#### **1.10.1 Short term employee benefits**

The undiscounted amount of short term employee benefits are expected to be paid in exchange for the services rendered by

---

## Fourth Generation Information Systems Limited

---

employees are recognised as an expense during the period when the employees render the services.

### 1.10.2 Defined benefit plans

#### a) Provident fund

Eligible employees receive benefits from a provident fund, which is a defined contribution plan. Aggregate contributions along with interest thereon is paid at retirement, death, incapacitation or termination of employment. Both the employee and the Company make monthly contributions to the Regional Provident Fund Commissioner equal to a specified percentage of the covered employee's salary.

#### b) Employee State Insurance Fund

Eligible employees (whose gross salary is less than Rs.15,000 per month) are entitled to receive benefit under employee state insurance fund scheme. The employer makes contribution to the scheme at a predetermined rate (presently 4.75%) of employee's gross salary. The Company has no further obligations under the plan beyond its monthly contributions. These contributions are made to the fund administered and managed by the Government of India. Monthly contributions are charges to income in the year it is incurred.

### 1.11 Tax Expenses

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

#### Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are off set only if there is a legally enforceable right to set off the recognised amounts, and it is

intended to realise the asset and settle the liability on a net basis or simultaneously.

### Deferred tax

Deferred tax is recognised on temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

### 1.12 Leases

Leases are classified as finance lease whenever the terms of the lease, transfers substantially all the risks and rewards of ownership to the lessee. Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight line basis over the period of the lease.

### 1.13 Borrowing costs

Borrowing costs incurred for obtaining assets which takes substantial period to get ready for their intended use are capitalized to the respective assets wherever the costs are directly attributable to such assets and in other cases by applying weighted average cost of borrowings to the expenditure on such assets. Other borrowing costs are treated as expense for the year.

Transaction costs in respect of long-term borrowings are amortized over the tenor of respective loans using effective interest method.

### 1.14 Earnings per equity share

- (i) Basic earnings per share

---

## Fourth Generation Information Systems Limited

---

Basic earnings per share are calculated by dividing:

- The profit attributable to owner of the company.
  - By the weighted number of equity shares outstanding during the financial year
- (ii) Diluted earnings per share

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

### 1.15 Financial Instruments

#### i. Financial assets

##### A. Initial recognition and measurement

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition.

##### a) **Financial assets carried at amortized cost (AC)**

A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### b) **Financial assets at fair value through profit or loss (FVTPL)**

A Financial asset which is not classified as AC or FVOCI are measured at FVTPL e.g. investments in mutual funds. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the Statement of Profit and Loss within other gains/(losses) in the period in which it arises.

##### c) **Financial assets at fair value through other comprehensive income (FVTOCI)**

A financial asset is measured at FVTOCI if it is held within a business model whose Objective is achieved by both collecting contractual cash

---

## Fourth Generation Information Systems Limited

---

flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**B. Investments in subsidiaries**

The Company has accounted for its investments in subsidiaries at cost and not adjusted to fair value at the end of each reporting period. Cost represents amount paid for acquisition of the said investments.

**ii. Financial Liabilities**

**A. Initial recognition**

All financial liabilities are recognized at fair value.

**B. Subsequent measurement**

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 1.16 First time adoption of Ind As

#### Transition to Ind As

The Company has adopted Ind As with effect from 1st April 2017 with comparatives being restated. Accordingly the impact of transition has been provided in the Opening reserves as at 1st April, 2016.
