ANNEXURE “A” TO DIRECTORS’ REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENT

The financial sector in India had to bear the brunt because of sluggishness of the Indian economy. In fact, the GDP growth for the year ended 31st March, 2014, has been less than 5%. The financial sector was also adversely affected because of policy paralysis of the central government. It lacked the effective reform policy. Inflation has been a major concern for the RBI.

Because of the grim economic scenario, the stock market lagged behind, with poor depth and most scripts not performing.

However, the change of government at the centre has given new hopes to the Industry as a whole and it is expected that the new government will strive hard to bring the economy on rail.

OPPORTUNITIES AND THREATS

The easing of Inflation will take away major pressure and RBI may cut the repo rate, which will consequently reduce the overall lending rate. This will boost the financial sector and there will be activities affecting the Banks, financial institution and NBFCs. If the economy gains momentum, the topline and the bottomline of Companies will significantly increase.

The main threat, however, will always be monsoon. If the rainfall is not normal, the agricultural activities will be adversely impacted and consequently the markets will have to take major heat because of slowdown in lending activities in regard to Companies operating in agricultural sector.

RISKS & CONCERNS

Of late, FIIs have been pouring in money in stock markets. In fact this is hot money and can be pulled back by them if they feel that the return from stock markets will not be significant. In such a scenario, the Indian rupee will start depreciating which will not be healthy sign for the economy

OUTLOOK

The new government at the centre is expected to take bold financial sector reforms including the ones relating to GST and DTC. Further, the Banking sector reforms will be in limelight and in particular the Central Government will endeavour to keep NPAs of Banks in check. As such, the financial sector companies are expected to perform well in coming years and your Company will not be exception.

The deferred tax asset is recognised and carried forward only to the extent that there is a reasonable certainty that the assets will be adjusted in future.

Current income tax is measured at the amount expected to be paid to the tax authorities, computed in accordance with the applicable tax rates and tax laws.
