Letter from Managing Director

Dear Owners,

Warm greetings from me & Sharon Family.

It's a feeling of great pleasure to present you your company's **25th Annual Report** monitoring the continuing Growth of SHARON for more than 15 years in row.

Financial year 2014 will be one more year to be noted as a momentous year in the history of SHARON. We have been exploring all the opportunities for effective deployment of capital and other resources to defining and executing growth strategies and driving innovation across various facets of our business area

Emerging as a strong, assertive & sustainable global enterprise, your company has always focused on five factors:-

1. **EXPANSION;** Achieving high levels of Capital Efficiency

As Managing Director of your company I feel proud to announce that your company has invested Rs.85 Crores for doubling the capacity of the formulation plant located at Selaqui, in Uttarakhand. Anticipating good margins from formulation business based on the past year's results and to cater to the increasing export and domestic demand. The management of your company has also deployed Rs. 30 Crores in Bulk Drugs & Intermediates.

2. **RESEARCH & DEVELOPMENT;** Innovations leading sustained Growth

A pharma firm's value proposition is strongly tied to its R&D capabilities, which serve as the engine for innovation and growth. At Sharon, R&D is a strong value creator, managed with vision and built into your company's DNA. Starting from route selection, in-depth analysis is undertaken swiftly throughout the process-chain, to ensure "Quality", "Cost-competitiveness", "High process-efficiencies", "Safety", "Environmental-impact" and Durability & robustness of the process. Another necessary & synergistic area of focus of your company has been in Toxicology studies, this is the bulwark of safety for pharma products.

3. **QUALITY MANAGEMENT;** Quality-centric systems

At Sharon, great stress is put on all 4 attributes of Quality - management, viz. quality planning, quality control, quality assurance and quality improvement. The focus of Quality management is not only on product and service quality, but also the means to achieve it.

4. **OPERATIONAL EXCELLENCE;** through Asset Productivity, Capital Effectiveness & Operations Risk Management.

Sharon invests in adequate employee strength & compensation coupled with intensive training. Empowered & effective, trained employees are Sharon's main assets.

- **Asset Productivity :** We strive to optimize facilities, infrastructure, manufacturing capacities by ensuring reliability of equipment, process control, manpower training and energy-optimization.

-Eg. : we have shifted from Furnace Oil to cleaner & cheaper LPG with large cost savings.

- **Capital Effectiveness** : Efficient and swift planning of business, facilities, projects, value-improving practices has led to overall quantum increase in effectiveness of the Capital employed.
- **Operations & Risk Management** : Management of technical & facility safety systems, occupational health, environmental foot-prints, effective customer-relationship management and product-stewardship in the market have mitigated the risks in most areas, permitting the company to operate effectively in a competitive market.

5. MARKET AWARENESS :

The success of any expansion in any business organization, in the terms of production or growth in market geographically, is purely dependent on the agile decision making and market awareness of upper management. Our market & cost prediction models that form foundation of all our expansion plans have proven correct till now and your company's projects have repeatedly achieved early break-even.

Further, this was only possible due to early benefits that a company can enjoy only if they have a high level of awareness of the market dynamics in the related Industry.

Combined, these factors make a big impact on the survival and growth of any business organization.

The slow recovery of the global economy after a long period of recession, and the looming fear of slipping into recession again shows that there seems still some time before self sustaining and significant growth patterns emerges in the industry. However, the Indian Pharma Industry is managing to grow well, not only in the Indian context but also in keeping global requirements apart from a few regulatory set-backs some companies have faced from the west. In this regard, your company's management has endeavoured to create a sustainable framework in which to thrive in the future with wider large markets and new products. There seems no doubt that in the coming years, your company will be immensely benefitted as a result of the Expansion projects soon to reach their optimal capacities.

I would like to express my sincere gratitude to my fellow colleagues on the board, my employees for their sincerity and hard work and thank to entire Sharon team, the Stakeholders, Banks, Creditors and all Associates for all the help and guidance to bringing your Company in successful growth and assure our Stakeholders to deliver the maximum value to their stake in future through continued relentless efforts of the Sharon team.

On Behalf of the Board

As per the provisions of Section 180(1)(c) of the Companies Act, 2013, a company can borrow monies exceeding the aggregate of its paid up capital and free reserves (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) only with the approval of Members of the Company by way of a Special Resolution.

The Board accordingly recommends the Special Resolution as mentioned at item no. 9 of this Notice for your approval.

None of the Directors or Key Managerial Persons of the Company and their relatives are concerned or interested, financially or otherwise, in the resolution.

Item No. 10:

The Members of the Company, at the Annual General Meeting held on 07/04/2008, had accorded by way of an ordinary resolution, their approval to the Board of Directors of the Company and/or a Committee thereof to sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company. Since the mortgages and/or charges to be created by the Company to secure moneys borrowed/ to be borrowed may be considered as disposal of the undertaking of the Company, it is considered necessary that the proposed creation of mortgages and/or charges, in view of enhance borrowing limit.

However, after the applicability of the provisions of Section 180(1)(a) of the Companies Act, 2013, a company can sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company with the approval of Members of the Company by way of a Special Resolution.

The Board accordingly recommends the Special Resolution as mentioned at item no. 10 of this Notice for your approval.

None of the Directors or Key Managerial Persons of the Company and their relatives are concerned or interested, financially or otherwise, in the resolution.

Item No. 11:

The existing Articles of Association (AoA) are based on the Companies Act, 1956 and several regulations in the existing AoA contain references to specific sections of the Companies Act, 1956 and some regulations in the existing AoA are no longer in conformity with the new Act.

The Act is now largely in force, on 12th September, 2013, and substantive sections of the Act which deal with the general working of companies stand notified.

With the notification of the Act several regulations of the existing AoA of the Company require alterations or deletions in several articles. Therefore the Directors propose to replace whole set of existing AoA by a new set of Articles.

The AoA to be substituted in place of the existing AoA. Draft of new set of Articles is kept open for inspection at Registered Office and Corporate Office of the Company

None of the Director(s) / Key Managerial Personnel(s) of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the Resolution set out at Item No.11 of the Notice.

Director's Report

Dear Owners,

Your directors are pleased to present their 25th Annual Report on the business and operations of your Company together with the Audited Statement of Accounts and the Auditors Report for the financial period ended 30th June, 2014. The Financial highlights for the period under review are given below.

COMPANY'S PERFORMANCE:

Days have been lapsed for the dictum stating, "the strong only getting stronger".

Exemplary performance has been achieved by your company against the backdrop of a downbeat economy, cash crunch market, volatile global pharmaceutical landscape, rabid competition with limited resources. Our performance this year is not only a natural progression of the momentum that we have generated over the two decades but also the vindication of our long range strategy to focus on improvement on existing flow of work accompanied with harmonious & flawless execution of performance and above all complete focus on Research & Development.

This year been marked where we have enhanced our technology & production capabilities and capacity, ventured into new markets with new and improved products and given a new and better shape to our management and leadership bandwidth.

We at Sharon along with our no sleep work force very much believe in our clean and transparent endeavor of hard work and achieving the results keeping in mind not only the limited resources we experience from time to time but also the time span within which the work should be performed by the company as a whole along with keeping a vigil at what society wants and our ability to pre-empt and further, anticipating challenges and turning them into opportunities. All the problems and constraints are first to be acknowledged and further broken into as many as possible fragments which help us to locate where exactly the problem persist. Fragmenting the constraints makes it easy and gives our work force the oomph to crack and takedown any challenge let it be existing, upcoming or a prevailing one having a chronicle effect because of being undetected due to any circumstances.

All the limbs of Sharon have to perform equally and harmoniously to get the best results not only in the term of profitability but also in upbringing the culture, market capitalization, growth, stability, expansion and market penetration with our new products & improvement in our current manufacturing processes by curtailing the unwanted manufacturing processes bearing in mind the responsibility toward the environment and society. We consider it not as a responsibility but as an obligation because we our self are a part of it and it makes us feel home like.

Cost cutting been considered a very effective tool that your company always follow. However, free hand was and is always granted to Research & Development activities. We at Sharon consider Research & Development as a back bone of any pharmaceutical company. Growth cannot be achieved, sustained and stabilized unless and until the new and improved products penetrate the market with improved results, low cost, high margins and penetrating into new and upcoming market places.

SBML under the vision of its directors and quest for sustainable growth along with your faith in us have achieved the turnover of Rs. 131,376.82 lacs for the year ended 30th June, 2014 as compared to the turnover of Rs. 105,949.66 Lacs which was achieved during the previous year ending as on 30th June, 2013.

* Please note that EPS has been reduced because the equity shares has been split in the ratio of 10:2, that is to say the face value of equity share originally which was Rs. 10/ has been reduced to Rs. 2 each. Thereby, the holder of 1 equity share of face value of Rs. 10/- received 5 equity share with new face value of Rs. 2/- each.

Further, the Bonus equity shares were also issued to the share holders to the tune of 1:1. Thereby the share holders received the double number of shares as they were holding.

Operational Performance:

To the members :

It gives the directors of your company an immense pleasure to present you the 25th Annual Report of your Company along with the review & comparison reports of its total income, earning per share, dividend and other expenses, both on Standalone and consolidated basis. The Report reviews the company's operations covering products of APIs, API-intermediates, bulk drugs, formulations, oral dosages, ointments, tabsules, capsules, tablets, research & development and Toxicology.

Performance Review:

While the total standalone income stood at Rs 131,544.54 Lacs the consolidated Income is Rs. 132,672.62 Lacs. The Standalone Profit in current year 2013-2014 stood to Rs. 6,961.72 lacs against Rs. 5,285.90 Lacs in the previous year 2012–2013.

Your company have booked total sales by enhancing 21.91% as compared to last year. During the last fiscal year your company have achieved net profit of 69,61.72 lacs showing an appreciation of 31.70% on an annualized basis thereby enhancing your company's profitability by 17.32% as compared to last fiscal year.

Dividend :

To see a broad smile on the faces of the owners your company wish to recommend, subject to approval of its shareholders at its ensuing Annual General Meeting, the dividend payout of Rs.380,04,840 as compared to Rs.158,35,350 which was paid during the last fiscal year to its shareholders, thereby giving an increase of 240% as compared to last year's dividend payout. Subject to shareholder's approval your company have recommended dividend % to be 18%, making it a handsome hike of 20% as compared to last fiscal year.

The total dividend payout in terms of money accounts to Rs. 4,44,63,763 including the dividend distribution tax.

Share Capital :

During the year under review the company's paid-up equity share capital has been enhanced by Rs. 10,55,69,000 (Rupees Ten Crore Fifty Five Lacs Sixty Nine Thousand only) consequent to the allotment of 5,27,84,500 bonus equity shares of Rs. 2/- each.

The original equity share capital of Rs. 10,55,69,000 (Rupees Ten Crore Fifty Five Lacs Sixty Nine Thousand only) aggregating from 1,05,56,900 number of equity share, face value of Rs. 10/- each has been split into 5,27,84,500 number of equity shares, face value of Rs. 2/- each. That is to say that every holder of equity share, the face value of which was Rs. 10/- each was allotted 5 new equity shares, face value of which is Rs. 2/- each. The bonus shares to the equity share holder has been issued in the ratio of 1:1, Every holder of equity share has been issued the same number of equity share as held by them.

Further, stock split and bonus shares has been issued after getting the consent of shareholder by postal ballot and approval from all statutory authorities under which company is governed.

Expansion :

Expansion and gloom in a humans body and mental level are the judging factor of their growth, health, vision, stability and sustainability in this concrete jungle, that we stay in.

On the same footing even a company is judged very stringently not only by humans but also by other peers, rivals and other companies of different business segments, corporate investors, FII's, Mutual Funds, retail investors and HNI's. Expansion or no expansion or a negative expanding makes a direct nexus between the organization and its going concern.

Having a sharper view and associated with experience professionals, the management of your company expanded in formulation unit and research & development activities. Rs. 85 Crores (Rupees Eighty Five Crores) had already been deployed in expansion of formulation plant located at Uttarakhand. It is our pride to let the owners know that your company has successfully invested more than Rs. 85 Crores (Rupees Eighty Five Crores) in the expansion of formulation plant located at Uttarakhand. The outcome of which can even be evaluated by a layman. In term of production quantity enhancement, the expanded plant can now produce more than double as compared to one year back, with hardly any room left for any sort of wastage or damage. It was again the timely completion of our project work which gave us the upper hand and helped us battle the sales and other opportunities which got demolished after one of our old API's plant was disturbed by the fire, which took place in the month of June, 2014.

The management of your company have never neglected the technical expert, in-fact a dedicated team of engineering department has not only contributed in enhancing the production quantity to double but has also significantly reduced the cost of expansion with their years of experience. The credit of expansion goes not only to the Sharon's departmental teams but also to the Bankers which had put their trust and supported Sharon for their expansion plans.

The capital Investment of Rs.30 Crores (Rupees Thirty Crores Only) has also been done in API & API Intermediates units located at MIDC, Talaja. Feeding to the export orders first and to minimize the breakdown of any kind, process or technical, management of your company felt it necessary to expand its API units, which gives a great chunk of contribution towards the revenue generated from operations.

SA-Ford :

Management of your company is very much bullish on the service industry of India which is and will be having an upper hand from rest of the countries for more 50 years till some African countries take it over. Toxicology studies, has given your company an edge over others. This division of your company started generating margins from the 4th year of its operation itself. It has given management a different dimension to enter into service sector that will be making a big impact in the business industry of India and abroad in near future. SA-ford, unambiguously is functional as per the

International standards and was established & lead by Mr. Kramer a German national scientist who dedicated more than half the decade with Sharon as SA-ford Head with his years of experience and expertise in the field of toxicology studies. Your company have also obtained success in achieving approval from Argentina authorities for establishing a unit for GLP toxicology studies.

Management Review 2013 - 2014 :

The year 2013-2014 was very struggling and challenging year not only for Sharon but even for almost all manufacturing and service industries. However, having a bullish view on pharmaceutical industry of India and anticipating a stable and business friendly government in near future your company had invested a major chunk in expanding its formulation unit located at Selaqui, Uttarakhand. Due to above action considered good by the management of your company the production capacity has been doubled as compared to previous years.

Further, moving a step ahead during the year 2013-2014 your company got the Expanded Area inspected by United Kingdom – Medicine & Health Care Product Regulatory Agency (UKMHRA) for Good Manufacturing Practices for both tablets and capsules. The positive outcome of which may be conveyed to the owners at the annual general meeting. This move will carter the excess market demand and fill up the back log of export orders pending for a while.

The political stability can be seen at the end or say at the beginning of this fiscal year, which clearly shows one sided voting for a political party and having a bold & transparent Prime Minister, having a logo, “Make in India” who is not only business friendly but also having a soft corner for every hard working Indian, we predict a shinning and glowing future for not only manufacturing industry but also for the service industry and entire nation.

Please refer Management Discussion & Analysis of this report for a detailed elaboration.

Industrial Relations :

The Employees and Workmen of the entire Company form basis for the infinite success of your company and hence the Directors deeply express their gratitude toward the Dedication, Support, Enthusiasm and Hard work of the Employees.

Human Resources :

Human resource is a job which calls not only the dedication but also the harmonious relations to be maintained between lower & middle, middle & top and Human Resource & all managerial and other working levels. Your company strongly believes that people are its most valued resource and their efficiency plays a vital role in success or failure of any organization, let it be profit oriented or non-profit oriented organization. A thorough scrutiny, with minimal working papers, is done before appointing any personal at whatsoever level he may is to be appointed. We firmly believe the same at the time of sacking an employee of any level, considering his work experience and time devoted by him toward our company. Completion of a job assigned and achieving the set of pre determined goals on TIMELY basis are considered to be on top priority. Process of any work mechanical, technical or managerial demands a set of flow of work to be performed. Timely completion of the work can only be achieved if the person is very much aware of those flows which, comes after the experience and time spent by the respective employee. Even the process of the work can be curtailed only if the grip on the respective work is firm, which again calls for time and experience an employee has achieved from his dedication in work. So double thoughts are given before any employee is sacked, because we believe in team work.

Therefore, the HR department has been casted with an additional responsibility to regularly conduct several programs across all working levels which includes development programs and formulate employee friendly policies. One of the major dynamics of these initiatives is the identification of the high potential employees and charting out their path to sustain the organizations momentum which further enhances their capabilities to take and perform at new and higher challenges.

Particulars of Employees :

None of the employees of the Company were paid remuneration of Rs.60,00,000/- p.a. or more for the year or Rs.5,00,000/- p.m. or more and hence the information required under section 217 (2-A) of the Companies (Particulars of Employees) Rules, 1975 is not required to be given.

Employee Stock Option Scheme :

During the year under review, your Company has not granted any further options to employees/Directors, under Sharon ESOS 2010. The total number of options Granted as at the end of year are 217065 out of these 140724 have vested as on 30th June 2014. These figures are based on a face value of Rs.10/- each and prior to issue of bonus shares. The actual number of options will be revised due to corporate action undertaken during the year for issue of shares on sub-division of face value to Rs.2 from Rs.10 and issue of bonus shares in the ratio of 1 for every 1 held.

Conservation of energy technology absorption and foreign exchange earnings and outgo:

i. Conservation of Energy :

B. Value of Goods Exported (FOB and service charges).	108,64.92	86,43.11
C. Marketing, Reimbursement, Travelling & Other Expenses	163.60	2,48.60

iii. Technology Absorption, Adoption and Innovation :

- Upgraded the old utilities of API plants located at MIDC, Talaja.
- Upgraded the cooling/chilling plant for its API plants located at MIDC, Talaja.
- Shifting from furnace oil to LPG, which is more eco friendly and economical, for API plants located at MIDC, Talaja.

Insurance:

All the properties of the Company, including the Plants & Machineries and Raw Material, Semi-Finished, Finished Goods in possession of company along with the quantity with Job workers, have been adequately insured.

FIRE LOSS ; Abnormal & Unavoidable in Nature :

During the month of June, 2014 fire occurred at one of our old API's Plant at W-34 & W-34/1, MIDC, Talaja, Dist.-Raigad, Maharashtra. However, during the fire no human loss has been resulted. However, the loss of Rs.22,15,65,820/- (Rupees Twenty Two Crores Fifteen Lacs Sixty Five Thousand Eight Hundred Twenty) has been reported on account of stock lying at the plant area along with the capital loss of Rs. 14,58,69,468/- (Rupees Fourteen Crores Fifty Eight Lacs Sixty Nine Thousand Four Hundred Sixty Eight) of Plant & Machinery on Written Down Value basis.

Your directors had opted for the replacement insurance policy instead of normal insurance policy on capital goods. Thereby, you will be pleased to know that your company will be receiving the current replacement value of plant & machinery that has been lost due to fire and not the Written Down Value of Plant & Machinery lost in fire. Keeping

uncertainty on mind your company have taken the loss of profit policy, in case the profit of company is hampered in any form. Your company has put up the total claim of approx Rs.40,00,00,000 (Rupees Forty Crores) including the loss of factory building and some furniture & fixtures.

Further, it would be worth noting that because the fire had occurred in the last month of the financial year 2014, therefore, there was negligible operational loss of production and sales pertaining to the reporting period ending as on 30th June, 2014. To refrain the impact of production & sales loss that would have had surely been casted on the future months on production & sales, the management of your company took the immediate corrective steps by making the tie-ups with some of the job work at some other factory sites so as to carter the production & marketing demand.

Management Discussion & Analysis

PHARMACEUTICAL SECTOR :

India is today one of the top emerging markets in the global pharmaceutical scene. The sector is highly knowledge-based and its steady growth is positively affecting the Indian economy. The organised nature of the Indian pharmaceutical industry is attracting several companies that are finding it viable to increase their operations in the country. India's pharmaceutical sector will touch USD \$ 55 billion by 2020, with the potential to reach USD \$ 70 billion in an aggressive growth scenario. In a pessimistic scenario characterised by regulatory controls and economic slowdown, the market will be depressed but is still expected to reach US\$ 45 billion. India currently exports drug intermediates, Active Pharmaceutical Ingredients (APIs), Finished Dosage Formulations (FDFs), Bio-Pharmaceuticals, and Clinical Services across the globe. In the period 2002-2012, the country's healthcare sector grew three times in size, touching USD \$ 78.6 billion from USD \$ 23 billion. India's pharmaceutical market experienced a similar boom, reaching USD \$ 18 billion in 2012 from USD \$ 6 billion in 2005. The rise of pharmaceutical outsourcing and investments by multinational companies (MNCs), allied with the country's growing economy, committed health insurance segment and improved healthcare facilities, is expected to drive the market's growth.

Further, The measures announced in the Union Budget for 2014-15 by Mr Arun Jaitley, Union Minister for Finance, Government of India is expected to propel the growth of the Indian pharmaceutical sector. Announcements like the hike in the FDI cap for the insurance sector and setting up of 15 Model Rural Health Research are expected to play an important role in the growth of the Indian pharmaceutical sector. The Government of India also made its intent clear to move towards Health for all and announced key initiatives like free drug service and free diagnostics service. The Government of India is planning to take up these issues on a priority basis. The rural health research centres are expected to put an overall positive impact on the Indian pharma sector highlighting the healthcare issues suffered by rural population and helping the Indian pharmaceutical companies to offer feasible solutions to the challenges.

Moreover, recently Argentina has fully opened its USD \$ 6 Billion drug market to the Indian pharmaceutical industry, increasing the potential to finished pharmaceutical products. It may be noted here that the scope was earlier limited to raw materials. The Latin American country has recently included India on the list of countries that can supply medicines to it. India companies have the capability to supply generic drugs to Argentina at half the price.

According to estimates, Argentina's pharmaceutical market is expected to cross USD \$ 15 billion by 2020. Around eight key markets in the Latin American region are valued at USD \$ 30 billion, reporting a compound annual growth rate (CAGR) of over 10 per cent, a big chunk of which will surely be part of Indian Pharmaceutical Industry. More clarity will emerge with the Latin American nation coming out with its regulations which could throw light on the amount of time required for product registrations.

Further, following positive factors on the below mentioned Industry will also make direct impact on Indian pharmaceutical companies and their revenues:

a.) BIOTECHNOLOGY IMPACT

The biotechnology sector of India is one of the most significant sectors in enhancing India's global profile as well as contributing to the growth of the economy. This sector is directly related not only to pharmaceutical and healthcare but also to the agricultural sector of India.

India is among the top 12 biotech destinations in the world and is the largest producer of recombinant Hepatitis B vaccine. Out of the top 10 biotech companies in India, six focus their expertise in bio-pharmaceuticals and four specialise in agri-biotech.

The Government of India has taken a lot of initiatives to improve the biotechnology sector in the country as well as offer enough scope for research in this field. The Department of Biotechnology (DBT) along with other government funded institutions such as National Biotechnology Board (NBTB) and many other autonomous bodies representing the biotechnology sector, are actively working together so as to project India as a global hub for biotech research and business excellence.

The growth in gross domestic product (GDP) over the next decade will expand the domestic market and Indians will be able to afford healthcare products, and demand for food commodities and energy will grow too. Presently, many countries are looking forward to invest not only in the Indian biotechnology sector but take the share of overall manufacturing industry eg. Pharmaceutical, Healthcare, R&D, Electronics, FMCG including the service sector.

b.) OVERALL HEALTHCARE SECTOR :

India has been awarded a 'Polio Free' status by way of an official certification presented by the World Health Organisation (WHO). India is among other countries in the South East Asian region which have been certified as being free of the polio virus. India has been polio free since January 2011.

The healthcare industry is potentially the world's largest industry with total revenues of approximately USD \$ 2.8 trillion (which counts to USD \$ 28,00 Billion).

In India as well, healthcare has emerged as one of the largest service sectors constituting 5 per cent of the gross domestic product (GDP) and offering employment to around 4 million people. India's primary competitive advantage over its peers lies in its large pool of well-trained medical professionals. Also, India's cost advantage compared to peers in Asia and Western countries is significant - cost of surgery in India is one-tenth of that in the US or Western Europe.

The healthcare sector is growing at a 15 per cent compound annual growth rate (CAGR) and grew from USD \$ 45 billion in 2008 to USD \$ 78.6 billion in 2012 and is expected to touch USD \$ 158.2 billion by 2017, which accounts to approx 6% of total healthcare industry globally. This makes the India a major hub for Investments. The private sector has emerged as a vibrant force in India's healthcare industry, lending it both national and international repute. The private sector's share in healthcare delivery is expected to increase from 66 per cent in 2005 to 81 per cent by 2015

c.) RESEARCH & DEVELOPMENT :

Research and development (R&D) is of utmost necessity to develop a country's production potential and also its science and technology sector. It helps a nation to progress and bring about innovation in all sectors. The Government of India has always supported this sector and has invested significantly in setting up universities and technological institutions as well as various research centres.

The government has set up various bodies to promote R&D in the country, such as the National Research Development Corporation (NRDC) and the Defence Research and Development Organisation (DRDO). The NRDC promotes, develops and commercialises the technologies and works under the administrative control of the Department of Scientific and Industrial Research, Ministry of Science and Technology; while the DRDO is dedicated towards enhancing self-reliance in the country's defence systems. Promoting R&D and bringing about the scientific temper will be the priority of the Science and Technology Ministry to make India the world leader in this area

The number of multinational corporation (MNC) R&D centres in India increased at a compound annual growth rate (CAGR) of 14.4 per cent to 1,031 during the first half of 2013. Out of the Indian cities, Bengaluru has the highest share of the MNC R&D companies followed by Pune and Mumbai. In India, the pharmaceutical sector accounts for the largest share of R&D followed by the automobile sector. According to forecasts, the gross spending in India on R&D should increase to USD \$ 44 billion and account for 0.9 per cent of the GDP by the end of 2014, as compared to USD \$ 42 billion and 0.85 per cent, respectively, in the year 2013.

India is presently ranked 76th among a total of 143 economies, as per the Global Innovation Index (GII).

d.) GOVERNMENT INITIATIVES :

From a market size of USD \$ 12.6 billion in 2009, the Indian pharmaceutical market will grow to USD \$ 55 billion by 2020, The exports of pharmaceuticals from India grew to USD \$ 14.6 billion in 2012-13 from USD \$ 6.23 billion in 2006-07, registering a compound annual growth rate (CAGR) of around 15.2 per cent.

The allowance of foreign direct investment (FDI) in India's pharma sector has been well received by foreign investors. According to data released by the Department of Industrial Policy and Promotion (DIPP), the drugs and pharmaceutical sector attracted FDI worth Rs 60,100.91 crore (USD \$ 9.94 billion) between April 2000 and June 2014.

As per extant policy, FDI up to 100 per cent, under the automatic route, is permitted in the pharmaceutical sector for Greenfield investment. Hundred per cent FDI is also permitted for investments in existing companies under the government approval route. Further, the Government of India has also put in place mechanisms such as the Drug

Price Control Order and the National Pharmaceutical Pricing Authority to address the issue of affordability and availability of medicines. India plans to set up industrial parks in the pharmaceutical and information technology (IT) sectors in China to strengthen India-China trade and investment ties.

Further, the growth in Indian domestic market will be boosted by increasing consumer spending, rapid urbanisation, increasing healthcare insurance and so on. The lifestyle segments such as cardiovascular, anti-diabetes, anti-depressants and anti-cancers will continue to be lucrative and fast growing owing to increased urbanisation and change in lifestyle patterns. Going forward, better growth in domestic sales will depend on the ability of companies to align their product portfolio towards these chronic therapies as these diseases are on the rise. In various global markets, governments have been taking several cost-effective measures in order to bring down healthcare expenses. Thus, governments are focusing on speedy introduction of generic drugs into the market. This too will benefit Indian pharma companies.

For the US market, Indian companies are developing niche portfolios in various segments. High margin injectables, dermatology, respiratory, biogenerics, complex generics, etc., have become areas of interest. Most of the Indian pharma companies have been working on these niche drugs in order to optimise growth and margins. Moreover, generic penetration in the US is expected to peak out at 86-87 per cent over the next couple of years from 83 per cent currently.

SUMMARY

Having a stable and business friendly government in hands and major positive factors India been surrounded with we can place a reliance to set foot on an accelerated growth path. In conclusion, the days ahead seems very progressive and booming for Indian companies not only within India but also to achieve some new heights globally. Investment in a systematic manner can be predicted on the way to switch India from developing to developed country levels. It may take some years to be developed but the initiated of the same has been taken and economist can feel the same.

Significant Accounting Policies

1. **Basis for Preparation of Financial Statements :**

The financial statements of the company have been prepared in accordance with generally accepted accounting Principles in India (Indian GAAP) to comply with accounting standards notified under section 211 (3C) of the companies act, 1956 (which continues to be applicable in respect of section 133 of new companies act, 2013 in term of general circular 15/2013 dated September, 13, 2013 of the ministry of corporate affairs) and the relevant provisions of companies Act 1956 and 2013 Act, as applicable. The financial statements have been prepared under the historical cost convention, on an accrual basis of accounting.

2. **Revenue Recognition :**

Sales of products are recognized when risk and rewards of ownership of the products are passed on to the customers, which is generally on dispatch of goods. Exports sales are recognized on the basis of Shipping/Airway Bills. Sales stated are excluding sales tax and net of returns.

3. **Use of Estimates :**

The presentation of financial statement in conformity with the generally accepted principles requires estimates and assumptions to be made that affect the reported amount of assets and liabilities as on the date of financial statements and the reported amount of revenues and expenses during the period. Difference between the actual result and estimates are recognized in the period in which the results are known/materialized.

4. **Fixed Assets :**

- a) Tangible Fixed Assets are stated at their historical cost, adjusted by revaluation of certain land & building less provision for impairment losses, if any, depreciation, amortization and adjustments on account of foreign exchange fluctuations in respect of changes in rupee liability of foreign currency loans used for acquisition of fixed assets.
- b) Intangible assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of intangible asset comprises its purchase price including import duties and other taxes, other attributable direct expenses making the asset ready for its intended use.
- c) Borrowing cost eligible for Capitalization, incurred in respect of acquisition/construction of a qualifying assets, till the asset is substantially ready for use, are capitalized as part of the cost of that assets.
- d) Pre operative, Trial run and incidental expenses relating to the projects are carried forward to be capitalized and apportioned to various assets on commissioning of the Project

5. **Depreciation :**

Depreciation on fixed assets is provided using the straight line method and as per rates provided in the schedule XIV of the Companies Act, 1956, based on the useful life as estimated by the management. Depreciation is charged on a pro-rata basis for assets purchased/sold during the year.

6. **Inventories :**

Items of inventories are valued on the basis given below:

Raw Materials and Packing Materials: at Cost net of CENVAT/VAT computed on first-in - first out method. Bulk Drugs produced for captive consumption are valued at cost.

Work in process and Finished Goods: at Cost including material cost net of CENVAT, labour cost and all overheads other than selling and distribution overheads for work-in- process and the same or realizable value, whichever is lower in case of finish goods except physician samples which are valued at cost as computed above.

Stores and Spares: Stores and spares parts are valued at purchase cost.

7. **Foreign currency transaction :**

Foreign currency assets and liabilities are translated at exchange rate prevailing on the last working day of accounting year. Gain or loss on the restatement of foreign currency transaction or on cancellation of forward contract, if any, is reflected in the Profit and Loss account except gain or loss relating to acquisition of fixed assets which is adjusted to the carrying cost of fixed assets.

Transaction in Foreign Currency is recorded in the Books of Account in Indian Rupee at the rate of exchange prevailing on the date of transaction.

8. **Investments :**

Long Term Investments are Valued at cost. Provision for diminution in the value of long term investments is made only if such a decline is other than temporary in the opinion of the Management,.

9. **Miscellaneous Expenditure :**

Preliminary Expenses & Public Issue Expenses are amortized in five equal yearly Installments

10. **Borrowing Cost :**

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying assets is one that necessarily takes substantial period of times to get ready for it's intend use. All other borrowing costs are charged to revenue.

11. **Earning per Share :**

The Company reports basic and diluted earning per share in accordance with Accounting Standard 20 on Earnings per Share. Basic earning per share is computed by dividing the net profit or Loss for the period by the weighted average number of Equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of Equity shares during the period as adjusted for the effects of all dilutive potential equity shares, except where the results are anti-dilutive.

12. **Taxation :**

Current Tax: Current Tax is calculated as per the provisions of the Income Tax Act, 1961

Deferred Tax: Deferred tax is recognized on timing differences being the differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent period. Deferred tax assets are subject to the consideration of prudence are recognized and carried forward only to the extent that there is reasonably certainly that sufficient taxable income will be available against which such deferred tax assets can be realized. The tax effect is calculated on the accumulated timing difference at the year end, based on the tax rates and law enacted or substantially enacted on balance sheet date.

13. **Provisions and Contingent Liabilities :**

Provisions are recognized for present obligations, of uncertain timing or amount, arising as a result of past event where reliable estimate can be made and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations. Where it is not probable that an outflow of resources embodying economic benefit will be required or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability unless the probability of outflow of resources embodying economic benefit is remote.

Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events, are so also disclosed as contingent liabilities unless the probability of outflow of resources embodying economic benefit is remote.

14. **Employee Benefits :**

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia are recognized in the period in which the employee renders the related service.

i. **Long Term Employee Benefits**

- Retirement Benefits in the form of provident fund is a defined contribution scheme and contributions are charged to the Profit and Loss account for the year/period when the contributions are due.
- Gratuity being a defined benefit obligation is invested with Gratuity Fund.
- Leave Encashment is recognized on the basis of payment basis at the end of the year.

ii. **Employees Stock Option Scheme**

The company has granted options to selected Employees including Directors under Sharon ESOS 2010. This options have been granted at Market Prevailing Rate at the time of Grant.

15. **CENVAT and Service Tax Credit :**

CENVAT and Service Tax credit utilized during the year is accounted in excise duty and unutilized CENVAT/Service Tax balance at the year end is considered as advance excise duty.

16. **FIRE LOSS ; Abnormal & Unavoidable in Nature :**

During the month of June, 2014 fire occurred at one of our old API's Plant at W-34 & W-34/1, MIDC, Taloja, Dist.-Raigad, Maharashtra. However, during the fire no human loss has been resulted. However, the loss of Rs. 22,15,65,820/- (Rupees Twenty Two Crores Fifteen Lacs Sixty Five Thousand Eight Hundred Twenty) has been reported on account of stock lying at the plant area along with the capital loss of Rs. 14,58,69,468/- (Rupees Fourteen Crores Fifty Eight Lacs Sixty Nine Thousand Four Hundred Sixty Eight) of Plant & Machinery on Written Down Value basis.

Your directors had opted for the replacement insurance policy instead of normal insurance policy on capital goods. Thereby, you will be pleased to know that your company will be receiving the current replacement value of plant & machinery that has been lost due to fire and not the Written Down Value of Plant & Machinery lost in fire. Keeping uncertainty on mind your company have taken the loss of profit policy, in case the profit of company is hampered in any form. Your company has put up the total claim of approx Rs. 40,00,00,000 (Rupees Forty Crores) including the loss of factory building and some furniture & fixtures.

Further, it would be worth noting that because the fire had occurred in the last month of the financial year 2014, therefore, there was negligible operational loss of production and sales pertaining to the reporting period ending as on 30th June, 2014. To refrain the impact of production & sales loss that would have had surely been casted on the future months on production & sales, the management of your company took the immediate corrective steps by making the tie-ups with some of the job work at some other factory sites so as to carter the production & marketing demand.

Auditors Report on Consolidated Financial Statement

To,
The Board of Directors, **Sharon Bio-Medicine Limited**

Report on the Consolidated Financial Statements :

We have audited the attached Consolidated financial statements of Sharon Bio-Medicine Limited (the company) and its subsidiary (the company and its subsidiary, constitute a Group) which comprise the consolidated balance sheet as at 30th June, 2014, and also the consolidated statement of profit and loss account and consolidated cash flow statement for the year then ended and the summary of the significant accounting policies and other explanatory statements and information.

Management's responsibility for the consolidated financial statements :

The Management of the company is responsible for the preparation of these financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance of the company and consolidated cash flow statement of the group in accordance with the Accounting Standards and accounting principles generally accepted in India. This responsibility includes the design, the implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We have conducted our audit in accordance with Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal controls.

An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of the accounting estimates made by management as well as evaluating the overall consolidated financial presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Auditor's Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India :

- i. in the case of consolidated Balance Sheet, of the state of affairs of the company as at 30th June, 2014;
- ii. in the case of the consolidated Statement of Profit and Loss, of the profit for the year ended on that date;
- iii. in the case of the consolidated Cash Flow Statement, of the cash flow for the year ended on that date;

We did not audit the financial statement/ financial information of Yusr International FZE included in the consolidated financial statements, which constitute total assets of Rs. 9,09.25 Lacs as at June 30, 2014, Total revenue of Rs. 11,28.08 Lacs, Net profit of Rs. 70.52 Lacs, net cash flow amounting to Rs. 1.52 Lacs as for the year ended June 30, 2014. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us, and our opinion on the consolidated financial statements to the extent they have been derived from such financial statements is based solely on the report of such other auditors.

We Report that the consolidated financial statement have been prepared by the Group's Management in accordance with the requirements of Accounting Standard issued by the Institute of Chartered Accountants of India viz. Accounting Standard 21 ' Consolidated Financial Statements' and on the basis of the separate financial statements of Sharon Bio-Medicine Limited and its subsidiary included in the consolidated financial statement..

Significant Accounting Policies

1. **Basis for Preparation of Financial Statements :**

The financial statements of the company have been prepared in accordance with generally accepted accounting Principles in India (Indian GAAP) to comply with accounting standards notified under section 211 (3C) of the companies act, 1956 (which continues to be applicable in respect of section 133 of new companies act, 2013 in term of general circular 15/2013 dated September, 13, 2013 of the ministry of corporate affairs) and the relevant provisions of companies Act 1956 and 2013 Act, as applicable. The financial statements have been prepared under the historical cost convention, on an accrual basis of accounting.

2. **Revenue Recognition :**

Sales of products are recognized when risk and rewards of ownership of the products are passed on to the customers, which is generally on dispatch of goods. Exports sales are recognized on the basis of Shipping/Airway Bills. Sales stated are excluding sales tax and net of returns.

3. **Use of Estimates :**

The presentation of financial statement in conformity with the generally accepted principles requires estimates and assumptions to be made that affect the reported amount of assets and liabilities as on the date of financial statements and the reported amount of revenues and expenses during the period. Difference between the actual result and estimates are recognized in the period in which the results are known/materialized.

4. **Fixed Assets :**

- a) Tangible Fixed Assets are stated at their historical cost, adjusted by revaluation of certain land & building less provision for impairment losses, if any, depreciation, amortization and adjustments on account of foreign exchange fluctuations in respect of changes in rupee liability of foreign currency loans used for acquisition of fixed assets.
- b) Intangible assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of intangible asset comprises its purchase price including import duties and other taxes, other attributable direct expenses making the asset ready for its intended use.
- c) Borrowing cost eligible for Capitalization, incurred in respect of acquisition/construction of a qualifying assets, till the asset is substantially ready for use, are capitalized as part of the cost of that assets.
- d) Pre operative, Trial run and incidental expenses relating to the projects are carried forward to be capitalized and apportioned to various assets on commissioning of the Project

5. **Depreciation :**

Depreciation on fixed assets is provided using the straight line method and as per rates provided in the schedule XIV of the Companies Act, 1956, based on the useful life as estimated by the management. Depreciation is charged on a pro-rata basis for assets purchased/sold during the year.

6. **Inventories :**

Items of inventories are valued on the basis given below:

Raw Materials and Packing Materials: at Cost net of CENVAT/VAT computed on first-in - first out method. Bulk Drugs produced for captive consumption are valued at cost.

Work in process and Finished Goods: at Cost including material cost net of CENVAT, labour cost and all overheads other than selling and distribution overheads for work-in- process and the same or realizable value, whichever is lower in case of finish goods except physician samples which are valued at cost as computed above.

Stores and Spares: Stores and spares parts are valued at purchase cost.

7. **Foreign currency transaction :**

Foreign currency assets and liabilities are translated at exchange rate prevailing on the last working day of accounting year. Gain or loss on the restatement of foreign currency transaction or on cancellation of forward contract, if any, is reflected in the Profit and Loss account except gain or loss relating to acquisition of fixed assets which is adjusted to the carrying cost of fixed assets.

Transaction in Foreign Currency is recorded in the Books of Account in Indian Rupee at the rate of exchange prevailing on the date of transaction.

8. **Investments :**

Long Term Investments are Valued at cost. Provision for diminution in the value of long term investments is made only if such a decline is other than temporary in the opinion of the Management,.

9. **Miscellaneous Expenditure :**

Preliminary Expenses & Public Issue Expenses are amortized in five equal yearly Installments

10. **Borrowing Cost :**

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying assets is one that necessarily takes substantial period of times to get ready for its intended use. All other borrowing costs are charged to revenue.

11. **Earning per Share :**

The Company reports basic and diluted earning per share in accordance with Accounting Standard 20 on Earnings per Share. Basic earning per share is computed by dividing the net profit or Loss for the period by the weighted average number of Equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of Equity shares during the period as adjusted for the effects of all dilutive potential equity shares, except where the results are anti-dilutive.

12. **Taxation :**

Current Tax: Current Tax is calculated as per the provisions of the Income Tax Act, 1961

Deferred Tax: Deferred tax is recognized on timing differences being the differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent period. Deferred tax assets are subject to the consideration of prudence are recognized and carried forward only to the extent that there is reasonably certainly that sufficient taxable income will be available against which such deferred tax assets can be realized. The tax effect is calculated on the accumulated timing difference at the year end, based on the tax rates and law enacted or substantially enacted on balance sheet date.

13. **Provisions and Contingent Liabilities :**

Provisions are recognized for present obligations, of uncertain timing or amount, arising as a result of past event where reliable estimate can be made and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations. Where it is not probable that an outflow of resources embodying economic benefit will be required or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability unless the probability of outflow of resources embodying economic benefit is remote.

Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events, are so also disclosed as contingent liabilities unless the probability of outflow of resources embodying economic benefit is remote.

14. **Employee Benefits :**

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia are recognized in the period in which the employee renders the related service.

i. **Long Term Employee Benefits**

- Retirement Benefits in the form of provident fund is a defined contribution scheme and contributions are charged to the Profit and Loss account for the year/period when the contributions are due.
- Gratuity being a defined benefit obligation is invested with Gratuity Fund.
- Leave Encashment is recognized on the basis of payment basis at the end of the year.

ii. **Employees Stock Option Scheme**

The company has granted options to selected Employees including Directors under Sharon ESOS 2010. This options have been granted at Market Prevailing Rate at the time of Grant.

15. **CENVAT and Service Tax Credit :**

CENVAT and Service Tax credit utilized during the year is accounted in excise duty and unutilized CENVAT/Service Tax balance at the year end is considered as advance excise duty.

16. **FIRE LOSS ; Abnormal & Unavoidable in Nature :**

During the month of June, 2014 fire occurred at one of our old API's Plant at W-34 & W-34/1, MIDC, Taloja, Dist.-Raigad, Maharashtra. However, during the fire no human loss has been resulted. However, the loss of Rs. 22,15,65,820/- (Rupees Twenty Two Crores Fifteen Lacs Sixty Five Thousand Eight Hundred Twenty) has been reported on account of stock lying at the plant area along with the capital loss of Rs. 14,58,69,468/- (Rupees Fourteen Crores Fifty Eight Lacs Sixty Nine Thousand Four Hundred Sixty Eight) of Plant & Machinery on Written Down Value basis.

Your directors had opted for the replacement insurance policy instead of normal insurance policy on capital goods. Thereby, you will be pleased to know that your company will be receiving the current replacement value of plant & machinery that has been lost due to fire and not the Written Down Value of Plant & Machinery lost in fire. Keeping uncertainty on mind your company have taken the loss of profit policy, in case the profit of company is hampered in any form. Your company has put up the total claim of approx Rs. 40,00,00,000 (Rupees Forty Crores) including the loss of factory building and some furniture & fixtures.

Further, it would be worth noting that because the fire had occurred in the last month of the financial year 2014, therefore, there was negligible operational loss of production and sales pertaining to the reporting period ending as on 30th June, 2014. To refrain the impact of production & sales loss that would have had surely been casted on the future months on production & sales, the management of your company took the immediate corrective steps by making the tie-ups with some of the job work at some other factory sites so as to carter the production & marketing demand.
