Our Company is in the Business of School & Office stationery as well as E-learning segment. The enormous size of School and paper stationery industry of India makes it one of the most important sectors of Indian Economy. Increasing economic growth, high literacy rate, more government spending on education, growing population. Urbanization, higher proportion of young adults, better living standards, shift in focus from inexpensive to quality products etc. are some major factors that are driving the paper stationery business to flourish. The thrust on education by the Government is the prime growth of the notebook industry. Big corporate have entered in this segment and are playing important role as well. In spite of many corporate are moving towards paperless offices, the paper market is growing. The demand of the e-learning segment is also because of improving industrial infrastructure, technologies and innovative ideas.

Indian Paper Stationery Industry, which is a part of the huge and scattered Indian stationery Industry, has been going through tremendous alteration in recent years. Despite growing competition from neighboring markets, Indian stationary industry has been able to firm its feet into the market with constant innovation and making it more and more customer centric. Indian companies have learnt that innovation, performance and versatility are the key area to be focused upon. Taking the points under consideration, the businessmen are now researching and developing new products, as the market is now more of consumer oriented which is always looking for cost effective prices.

The key drivers for E-learning market are: Increasing Government initiatives to promote the vision of Digital India, Universal digital literacy, universally accessible digital resources. The strong Government initiatives pushing student enrolments in higher education and distance learning will keep propelling market expansion at an ever-increasing rate.

INDUSTRY SCENARIO (OPPORTUNITIES & THREATS):

Education is the fourth basic need of a man to survive and thus forms a major expenditure. India has a fast growing population and a very fast growing demand for stationery products. Also, the Government's spend on education laying emphasis on building more schools have increased the demand for the stationery products in India. Increasing inclination towards reading & writing, rising penetration of Internet, huge base of educated middle class population with increasing discretionary incomes and improving educational systems is driving growth in sales of stationery products. Better living standard have shifted the focus of consumers from inexpensive products to branded quality products.

With extreme precautions, and the good quality products offered and new marketing strategies are followed, the government has also come out with various incentives for SME's. Particularly for stationary industry if we quote would be the education enhancement schemes which are giving growth to this sector. The Indian stationery market is also influenced by macro-economic development, national income, urbanization.

The Indian stationery industry is highly scattered and is largely dominated by the unorganized sector and the situation is quite alarming for the organized players industry. Factors like lack of modern production facilities, unorganized nature of functioning, marginal demands, government policies and international competition are largely contributing to the slow growth of the organized stationery industry in India. Further, India is constantly challenged by the growing competition, especially from neighboring countries such as China, Indonesia and many other countries that supply higher quality products, as compared to India.

Your Company is one of the prime players in the organized sector with the established brand 'Sundaram'. Your Company has modernized plants and automatic upgraded machines to produce quality products and which also allows your Company to take advantage of the economies of scale. Your company is also providing the platform for E-Learning through its Wholly-owned Subsidiary viz. E-class Education System Limited.

“Annexure B”

to Independent Auditors' Report of even date referred to in paragraph 2(f) under the heading of “Report on Other Legal and Regulatory Requirements”

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Sundaram Multi Pap Limited (“the Company”) as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (1) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (2) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

“Annexure – A”

to Independent Auditor's Report of even date on the consolidated financial statements for the year ended 31 March 2016 referred to in paragraph 2(f) under the heading of “Report on Other Legal and Regulatory Requirements”

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Sundaram Multi Pap Limited (“the Holding Company”) and its subsidiary company as of and for the year ended 31 March 2016 in conjunction with our audit of the consolidated financial statements of the Company.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary company, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
