Notes forming part of the Financial Statements for the year ended 31st March, 2013:

#### 1. Company Overview:

The Company is a Non Deposit taking Core Investment Company, as defined in the Core Investment Companies (Reserve Bank) Directions, 2011. Since the Company is not a Systemically Important Non Deposit taking Core Investment Company, it is not required to obtain Certificate of Registration under Section 45-IA of the Reserve Bank of India Act, 1934.

#### 2. Statement of Significant Accounting Policies:

#### 2.1 Method of Accounting:

- The Company follows mercantile system of accounting and recognises income and expenditure on accrual basis.
- b) Financial statements are prepared on historical cost convention. These costs are not adjusted to reflect the impact of the changes in the purchasing power of money.

#### 2.2 Use of Estimates

The preparation of the financial statements in conformity with the GAAP requires that the Management makes estimates and assumptions, which affect the reported amounts of assets and liabilities, disclosure of contingent liabilities, as at the date of the financial statements, and the reported amounts of revenue and expenses during the year under report. Contingencies are recorded, when it is probable that a liability will be incurred and the amount can be reasonably estimated. Actual results could differ from those estimates.

#### 2.3 Investments:

- a) Long Term Investments are carried at cost. Provision for diminution is made to recognise a decline other than temporary, in value of investments.
- b) Short Term Investments are carried at lower of cost and fair value.

#### 2.4 Revenue Recognition:

- a) The Company recognises income on accrual basis. However, revenue recognition is postponed in respect of specific items of income, where the ultimate collection, thereof is uncertain.
- b) Interest income is accrued over the period of the loan / investment.
- c) Dividend is accrued in the year in which it is declared whereby a right to receive is established.
- d) Profit / loss on sale of investments is recognised on the contract date.

#### 2.5 Employee Benefits:

#### a) Post-employment benefits plan:

Contributions to defined contribution retirement benefit schemes are recognised as an expense when employees have rendered services entitling them to contributions.

For defined benefit schemes, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuation being carried out at each balance sheet date. Actuarial gains and losses are recognised in full in the Statement of Profit and Loss for the period in which they occur. Past service cost is recognised immediately, to the extent the benefits are already vested.

The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service costs, and as reduced by the fair value of the scheme assets. Any asset resulting from this calculation is limited to the present value of the available refunds and reductions in future contributions to the scheme.

#### b) Short term employee benefits:

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by the employees is recognised during the period when the employee renders the service. These benefits include compensated absences such as paid annual leave.

#### c) Long term employee benefits:

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as liability at the present value of the defined benefit obligation at the balance sheet date, with actuarial valuation being carried out at each balance sheet date.

As at 31st

As at 31st

Notes forming part of the Financial Statements for the year ended 31st March, 2013 (continued):

#### 2.6 Taxation:

- a) Provision for income tax is made on the basis of taxable income for the current accounting year, in accordance with the provisions of the Income Tax Act, 1961.
- b) Deferred Tax resulting from timing differences between Book Profits and Tax Profits is accounted for at the applicable rate of Tax to the extent the timing differences are expected to crystallise, in case of Deferred Tax Liabilities with reasonable certainty and in case of Deferred Tax Assets with virtual certainty that there would be adequate future taxable income against which Deferred Tax Assets can be realised.

#### 2.7 Earnings per share:

In determining earnings per share, the Company considers the net profit after tax and includes the post tax effect of extraordinary / exceptional item, if any. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

#### 2.8 Provisions, Contingent Liabilities and Contingent Assets:

Provisions are made for present obligations arising out of past events, which are likely to result in an outflow of resources embodying economic benefits at an amount, which can be reliably estimated.

Items not classified as provisions as envisaged above are treated as contingent liabilities, which are disclosed by way of a note and are not provided for in the books of accounts.

Contingent assets are neither recognised nor disclosed.

#### 2.9 Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.
