CHAIRMAN'S COMMUNIQUE

Our product offerings comprising high quality and best-in-class curricula, trained teachers, and affordable pricing are now accepted by parents as the gold standard in branded schooling.

Dear Stakeholders,

It is my privilege to present the ninth Annual Report of Tree House Education & Accessories Limited.

During 2014-15, our Company was able to maintain its impeccable track record of continued revenue and profit growth. The numbers are quite significant when one considers the contraction in spending by the average Indian retail consumer.

Our Company is present in two large segments of the education sector. We run India's and Asia's largest self-operated pre-school chain which is present in 88 cities across the country. We also provide school management services to 24 K-12 schools in three states in India. Our product offerings comprising high quality and best-in-class curricula, trained teachers, and affordable pricing are now accepted by parents as the gold standard in branded schooling. The future looks promising for us owing to the rapid increase in the demand for pre-school facilities. Our dedicated workforce, innovative student kits, and world-class training given to our staff are our growth drivers.

The combined effort of the entire Tree House team is reflected in our annual results. Revenue from Operation for 2014-15 was ₹ 207.45 crores up 31.60% on a y-o-y basis. Our Profit after Tax grew by 38.65% to ₹ 60.88 crores. We opened 122 pre-schools during the year, taking the total number of pre-schools to 612 as on March 31, 2015.

In addition to our outstanding financial performance, I would also like to highlight other notable achievements made during the year. These are enlisted below:

- The Company has launched day care services at several of its pre-school facilities. The initial response from parents was encouraging and the Company believes that this service will contribute meaningfully in the future. The Company has entered into tie-ups with large employers in the IT, ITES, banking and consulting space to provide these services to the employees of these organisations.
- Lessons in the pre-schools are now being delivered on Android tablets for Junior KG and Senior KG (4 - 6 year olds) children from the current session of 2015-16.

- The Company's initiative to provide low cost quality pre-primary education under the GLOBAL CHAMPS brand is now available across six centres in India.

- 'Tree House Education & Accessories Limited' has been listed in 'India's Most Trusted Educational Institutes - 2014 -2015' and was the leading brand in the pre-school category in the TRA's (formerly Trust Research Advisory) report.

As we are confident about maintaining the growth of the Company, we are proposing to increase our dividend to 20% for 2014-15.

I express my sincere appreciation for the invaluable contribution and co-operation of all stakeholders involved with the growth of the Company. I would also like to thank all my colleagues on the Board in charting the road-map of the Company for continuous growth and profitability, thereby steering it to newer landmarks.

Regards,

SANJAYA KULKARNI
Chairman and Independent Director

FROM THE MD'S DESK

We have been successful in starting pre-school centres in 25 more cities across the country as on March 31, 2015, thereby leading to a total of 88 pre-schools in 2014-15.

Dear Stakeholders,

I am pleased to announce a robust increase in our operational and financial performance for 2014-15. The fiscal year took us closer to our goal of providing quality education to a larger population of children by focusing on excellence and innovation. As of March 31, 2015, we achieved a network of pre-schools with our presence spanning across 88 cities. This rapid growth is attributed to our deep understanding of the education space, the robustness of our business model along with our innovative methods of teaching that make learning a dynamic activity focused on the needs of children. It is this very premise that has also led to an enhancement of our day care business.

We also took major steps towards strengthening our balance sheet with the monetisation of K-12 properties owned by 'Tree House Education & Accessories Limited' (hereinafter referred to as, 'Company'). The Company owns K-12 infrastructure on which it earns rentals. It has recently closed the first transaction for monetising these assets and will endeavour to conclude the entire process over the next 24

months. In 2014-15, we received ₹ 17.1 crores from divestments of K-12 land and we signed a MoU (Memorandum of Understanding) for consideration of ₹ 52.5 crores. We will deploy these funds towards debt reduction and expansion of business operations. This will further be aided by money raised through the recent QIP and continuing operating cash flows.

Your Company has successfully raised ₹ 200 crores through a QIP (Qualified Institutional Placement) issue. Your Company had concluded the issue of 4,545,454 equity shares to eligible qualified institutional buyers at the issue price of ₹ 440 per share. Proceeds of the issue will be utilised for accelerating the expansion of Tree House's pre-school network across the country and for general corporate purposes.

We opened 122 pre-schools during the year, taking the total number of pre-schools to 612 as on March 31, 2015, of which 505 centres are self-operated. We have been successful in starting pre-school centres in 25 more cities across the country as on March 31, 2015, thereby leading to a total of 88 pre-schools in 2014-15.

The combined effort of the entire team is reflected in our annual results. While expansion of pre-schools was key to our growth, we maintained sharp focus on enhancing financial performance simultaneously. As a result, we registered a 31.60% growth (₹ 207.45 crores in 2014-15) in revenue from operations and a 38.65% increase in Profit after Tax in 2014-15. Our EPS (Earning per Share) for the 2014-15 is ₹ 15.7 per equity share.

Your Company has launched daycare services at several of its pre-schools. Day care facility is a natural extension of the pre-school centres and enables the Company to ensure have optimal utility of its assets. Your Company also encourages and conducts Professional Teacher Training Programmes, enabling women to become qualified teachers.

At Tree House, various programmes are designed to cater to

the needs of each child in a customised way to help physical and intellectual growth. Innovative teaching methods are adopted to introduce the child to formal education in the most conducive manner. Parents of the kids studying in Tree House are also updated through newsletters that cover various developments, programmes, and activities, on a monthly basis.

In addition to highlighting the Company's financial performance, I would also like to mention other achievements during the year.

During the year, we have been acknowledged as India's Most Trusted Brand in the pre-school category in a 2014 study conducted by TRA (formerly Trust Research Advisory).

The Company's initiative to provide low-cost quality pre-primary education under the GLOBAL CHAMPS brand is now available across six centres in India.

As we are confident about maintaining our growth, we are proposing to increase our dividend to 20% for 2014-15.

Every day in the last fiscal year has been marked by an effort to make a significant contribution to the education landscape by making it more dynamic, modern and better aligned to the children's needs. We believe that our trusted brand is ushering in many new opportunities to better the lives of students and young children at the helm of starting their journey of educational endeavours. Our focus on this objective, puts us in a better position to deliver long-term goals of growth.

I express my sincere appreciation for the invaluable contribution and co-operation of all our stakeholders. I would also like to thank all my colleagues on the Board for having helped us dream big and making those dreams come true in addition to helping the Company realise its milestones of profitability and nationwide expansion.

Making learning
a way of life

Playschools do more than laying the foundation for education. They set the groundwork for the development of the child's social, emotional and cognitive skills and adaptability to the many cultural nuances that surround him/her. Our courses and programmes in our pre-schools are designed to help bring out the potential of the children and help them recognise their skills and talents to help them better deal with challenges of tomorrow.

Our pre-school programmes seek to teach children more than just the 3R's of learning. They aim to help them in their holistic development. Our teaching methodology effectively combines the best of play-way and Montessori practices, peppered with elements of fun and learning to create a one-of-a-kind curriculum that offers the best to children. The curriculum is devised in a way such that the child does not feel pressurised by learning but is eased into new modules, subjects and the development of new skills in a manner that is enjoyable. Our playschools make for a cheerful, vibrant, spacious, clean environment where children love spending time and

take on challenges of learning and a new life that waits them.

We pay crucial importance to the talent and resources that we hire. Our teachers are trained in the best of teaching methodologies. They understand the importance of the formative years of education and bring in the best of their combined skills, proficiencies, expertise, credentials and specialisations to make our curriculum and pedagogy the best in the business.

We also give due focus to a well-balanced teacher-student ratio, to ensure that each child gets the attention and care that is pertinent and necessary for effective learning. We also provide learning aids like interactive bill-boards and audio-visuals, to help children learn better.

Our goal is to help nurture the future of children who are at the threshold of life. To equip them with the best skills to create a firm foundation of learning and help create capable, dynamic individuals who will in course of time set the trajectory for the nation's growth.

Shaping children's
future with care

Strong content delivery systems and quality course curriculum, coupled with a faculty selectively chosen for its excellence, ensure that our students get the best in the classroom.

Tree House caters to pre-school as well as the K-12 segments and represents a student's journey from the preparatory stage into proper education. We strive to foster holistic personality among the students by developing and enhancing intellectual, psychological, social-emotional as well as physical skills. We try to imbibe in them abilities that help to prepare them for both their personal and private life.

Our K-12 schools provide forward integration opportunities in pre-school clusters. Our K-12 schools act as logical extensions of our pre-school business. The Company makes long-term contracts for providing management services in schools, while leveraging the Tree House brand. Strong content delivery systems and

quality course curriculum, coupled with a faculty selectively chosen for its excellence, ensure that our students get the best in the classroom, with training and development, an integral component of education.

We recognise that quality education comes through a conducive learning environment, standardised and innovative teaching methods, qualified and experienced teachers and a balanced curriculum. The Company is providing school-management services to 24 K-12 schools in three states in India. The schools also provide children with learning resource materials, opportunities to pursue extra-curricular activities and training for self-improvement.

Nurturing with
care and trust

Our day care centres were given vision by our understanding of the importance of the right care and attention that should be given to children in the time they spend away from their parents. To fulfil this need and demand, we built day-care centres in many of our pre-schools. These centres have gained immense popularity and we foresee the building of many more in the future. We have also initiated tie-ups with banks, and IT and ITES companies, among others, to provide day-care services for their employees.

Our goal is to make these services affordable, easily accessible, and widespread. We have also made it our principle to follow high standards of safety, cleanliness and hygiene, in addition to hiring the best trained staff. Our overall aim is to create an engaging, nurturing environment for the child when he is away from home. Our day care facilities are present in Bangalore, Pune, Mumbai, Hyderabad, Kolkata and Nagpur.

Tree House Centres -
growing to create the future

Our services cater to the demand to provide the best blend of care, learning, pedagogy and practices and techniques of teaching to children who enrol in our schools.

It has been our endeavour to grow our presence across the country to meet the increasing demand of our services. Our efforts have yielded outstanding results and today we are present in 88 cities and towns across India and operate 612 schools. During the year, we launched our services in Agra, Ajmer, Allahabad, Baripada, Beawar, Bhillai, Bikaner, Burdhan, Cuttack, Dewas, Ghaziabad, Gopalgunj, Gorakhpur, Gwalior, Hajipur, Hazaribagh, Jhansi, Kochi, Kota, Kozhikode, Pen, Ratlam, Trivandrum, Ujjain, Vishakhapatnam in this year. Our K12 schools are 24 in number and are present in Maharashtra, Gujarat and Rajasthan.

Our trajectory of growth story has been fuelled by rising incomes and aspirations. Today, there is a huge demand for quality education, and the awareness that it can lay the foundation stone for effective learning in the future.

Our services cater to this demand to provide the best blend of care, learning, pedagogy and practices and techniques of teaching to children who enrol in our schools.

Each Tree House centre is equipped with innovative development programmes that help children discover that learning is fun, while making new friends and building strong relationships. Each Tree House centre is airy, spacious and operates under stringent hygiene norms which provide the best environment in which learning can take place. We understand that these being the formative years of a child's life, these will act as stepping stones towards their success and help them forward in lives. The quality and efficacy of our offering highlights that pre-schooling does more than just lay groundwork for effective learning. It also helps in the all-round development of social, emotional and cognitive skills.

SOCIAL COMMITMENTS

Social responsibility is deeply embedded in our corporate strategy. Our business goals are centred on sustainability that helps deliver value for our stakeholders, clients, employees, suppliers and the wider community.

Our focus has been to empower children of lower income groups with better opportunities of education. We have achieved this by pioneering the Global Champ's pre-school centre for children living in Dharavi, Mumbai - Asia's largest slum.

The project aims at ensuring quality early education for children in order to imbue them with better life-skills. The school ensures that children have a happy, vibrant environment to learn. Currently, the Global Champs brand has six centres in Mumbai. These are located in Malad,

Kandivali, Chembur, Vikhroli, Khargar, and Dharavi. In course of time, we plan to expand the services of the project to other cities across India.

We have made it our principle to not to compromise on the quality and world-class system of teaching and pedagogy that we follow. At the very heart of the endeavour lies the belief that good pre-school education helps in children overcoming hurdles of learning and reduces rate of drop-out in primary and secondary schooling.

Global Champs is a self-sustaining model and its aim is to create a far-reaching change on the long-term impact of education on children and on their general well-being, facilitated by better adaptability to surroundings, owing to a sound foundation of learning.

PARENT TESTIMONIALS

1 JULIE MURZELLO

My daughter has been a student at Tree House for the last three years. When she first joined, she was a toddler who could barely talk and had very little experience of interacting with the outside world. Today, she has matured into a confident, happy young girl who is aware and cognizant of the world around her. She has learnt a lot during her long stint at Tree House and I extend my gratitude to the teachers at school who have made sure she inculcates effectively the right values as she does her classroom lessons. She is my little star, the apple of my eye, and the staff and family at Tree House have only helped hone her many talents and aided in her realising her potentialities and caliber.

4 RUPA BASU

It's been a pleasure to be associated with Tree House. Both my kids have become adept at academics. They are not only learning well, but more effectively. They are conceptually clear and are able to take from their lessons valuable morals and lessons. In addition, the school also gives them opportunities to participate in events like the Annual Day and activities like plays. These help them step outside the purview of everyday learning and help them gain confidence. I thank the staff at Tree House for giving these wonderful opportunities and making learning for my children an enjoyable experience, one that they look forward to each day.

2 NITHYA & SRIVALLABH

Our daughter joined Tree House over two years ago. Since then, she has quickly transcended levels of learning and today is a part of the LKG. She has been able to hone and improvise on her skills of communication, problem-solving, social skills, reading habits, manners and eating habits. Her talent in dancing has been recognised. She has also participated in many key events that have been conducted in the school: these comprise Grandparents Day, Sports Day, and Annual Day in addition to the celebration of other important Indian festivals. One of her favourite memories of her time spent in the school was the Summer Camp. She enjoyed it thoroughly and would like to participate in one again. The teachers in the school have contributed immensely to her confidence building and given due impetus to her abilities.

3 SRIVIDHYA DEVANATHAN

I have seen a lot of improvements in my daughter after her joining Tree House. She has started to socialise more and has got into the habit of preparing for her lessons independently. She enjoys taking part in the various activities and events being held at the school: the Annual Day and the Sports Day. These help her build her confidence and social skills. Her experience at the school has been fulfilling on accounts of many reasons, the most important being that it presents a blend of curricular and co-curricular aspects. This lays foundation to a personality that is well-rounded and ready for the challenges of tomorrow. I thank the teachers and staff at Tree House for their involvement in having helped turn my daughter into the capable individual that she has become.

5 S. ARCHANA

My daughter has been a part of Tree House for the last eight months. She has come a long way since then. From being shy and quiet, she has now transformed to a young girl who is sure of herself and her interactions with her surroundings. She has learnt to share and adjust with others in addition to being adept at her curricular and extra-curricular lessons. Tree House has helped realise many of her talents. She can now sing the national anthem and recite rhymes. She has also become proficient in making charts, drawing and colouring - these help make everyday classroom learning more effective. She also loves dressing up in costumes for days of celebration at her school. Therefore it is only pertinent to sum up that learning at Tree House, for our daughter, has well transcended boundaries of academics and syllabi. It has been an all-encompassing holistic experience, one that no child should be kept bereft of.

6 SONALI

My son and daughter were just two and half years old when they enrolled at Tree House. Looking back, I realise there could not have been a better way start to their academic career. Tree House makes for a very nurturing, secure environment to learn. The staff, too, is very cordial and helpful. My kids not only enjoy their lessons in the classroom but also outside it. They love being a part of the myriad events held at the school: Farm Animal Day, Sports Day and the Annual Day. They also like participating in plays. The school blends curricular and extra-curricular endeavours effectively - this makes my children want to look forward to it every day.

**7 SNEHA M. SAKHARKAR**

My child's experience at Tree House can only be summed up as excellent. The educational programme makes learning rewarding by effectively combining academics and play. The programme is chalked out well and as per the child's needs. It helps hone many talents in a young student: reading, painting, art and craft. My child has become more confident and self-assured after having joined Tree House. This is primarily due to her being part of the various activities being held at her school. The events and celebrations have helped her nurture many skills and talents. I thank the teachers for their dedication and perseverance in helping my child take tremendous leaps in academics and learning. I would recommend the school to all parents who want to secure a wonderful environment of etude for their children.

8 SARLA PATEL

Tree House makes for a clean, neat, colourful environment for children. One where they learn and nurture their myriad skills effectively. My child has improved her capabilities and talents because of the involvement and careful guidance of her teachers in the school. The combination of the extra-curricular and curricular activities that the Tree House offers, gives multifarious opportunities for the child to hone her capabilities.

Today, my daughter is more confident, capable, and sure of the challenges that the future presents. Tree House has taken away an immense burden from my shoulders. I am assured, without a shadow of doubt, that my child shall grow into a responsible, aware individual, with such strong foundation of learning to her advantage.

MANAGEMENT DISCUSSION AND ANALYSIS

WORLD AND INDIAN ECONOMIC SCENARIO

The global economy witnessed marginal enhancement, despite significant growth divergences among major economies. Progress in the US has been substantial, but many parts of Europe recovered slowly. Although the US and UK economies made progress toward normalisation, the Eurozone’s economic activity was far too weak to substantially reduce unemployment and ward off the threat of deflation. IMF forecasts global growth of 3.5% in 2015 and 3.8% in 2016.

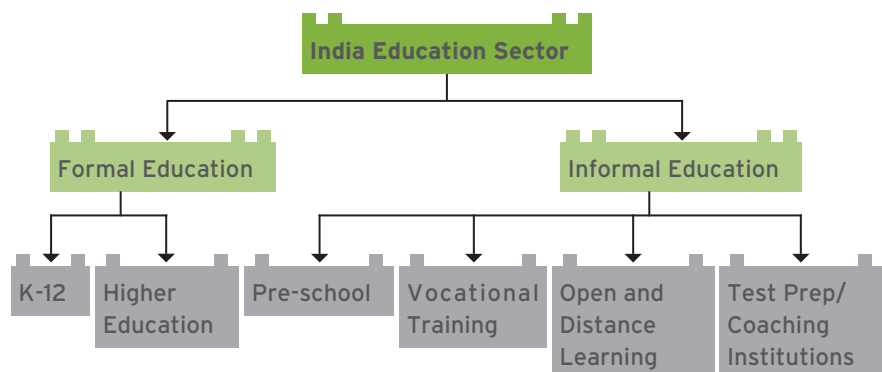

The Indian economy is reviving, helped by positive policy actions and lower global oil prices that have improved confidence. A lot of hopes were pinned on the new Government at the centre to bring about much-needed policy initiatives and systematic changes through easing of monetary policy and a pick-up in capital expenditure. In 2014-15, the Indian fiscal market grew at 7.4%. The Government made strong efforts to put its public finances on solid footing, with the centre’s monetary deficit falling to 4.1% of GDP in 2014-15, backed by lower oil prices.

INDIAN EDUCATION INDUSTRY

Education is the key to the task of nation-building. It is one of the largest, most thriving industries in India. It is also well-accepted that providing the right knowledge and skills to the youth can ensure fiscal and national progress. The country’s sustained financial growth is further boosting the demand for quality education.

With the nation’s GDP rising and rural market customers moving up the value chain, consumption is increasing rapidly - a trend that is giving impetus to the willingness to spend on superior facilities of pedagogy. Socio-economic factors, too, foresee a progressive higher education sector continuing to play a decisive role in economic growth and development of the nation.

While all levels of formal education are being highly regulated and fall under the purview of the Ministry of Human Resource Development, Government of India, informal education is still largely unregulated. The different aspects of the formal and informal segments are depicted below:

PRE-SCHOOL SEGMENT

The Indian pre-school segment is subdivided into several categories in accordance to the needs of its most-important client base - working parents. The most important factors determining the schools' segregation is the duration they function for and the age group they cater to. Accordingly they are grouped into Day Care Centers, Nurseries and Creches.

The pre-school segment of the Indian education industry continues to primarily be an unorganised sector. The organised segment of the market accounts for only 22% and is expected to increase to 26% by 2017-18 owing to the increased awareness of the importance of quality pre-school education, expansion plans of existing players and the entry of more organised competitors in the industry.

Rising urbanisation, growing aspirations for quality education, improved affordability and more women joining the workforce are other factors that are driving strong growth in the segment. CRISIL Research estimates that the pre-school market will grow at a CAGR of 20% to reach ₹ 165 billion in 2017-18 from ₹ 80 billion in 2013-14. With growing awareness in Tier II and Tier III cities, the penetration rate for the pre-school segment is expected to rise to 25% by 2015. The new entrants in the business have announced plans to expand across Tier I, Tier II, as well as Tier III cities. This market is being driven by major investments backed by a limited regulatory framework and the advantage of minimal infrastructure required to set up an establishment.

K-12 MARKET OR SCHOOL EDUCATION

K-12 education is the term used to describe the primary and secondary phases of a school life where 'K' stands for kindergarten and '12' for the 12th standard. Therefore, the expression is used to connote a system that covers education from kindergarten till the 12th grade. The concept is slowly gaining importance in India with the Government introducing new schemes to impart knowledge like free and compulsory primary schooling throughout the country. The prospect of the K-12 segment remains strong with higher growth owing to private spending because of a constant shift

MANAGEMENT DISCUSSION AND ANALYSIS

towards private schooling in the country. This change has been taking place due to growing awareness of the importance of the quality of education and improved affordability.

CRISIL Research estimates that 0.21 million K-12 institutions will be set up during 2012-13 to 2017-18 as against an estimated 0.2 million set up during 2007-08 to 2012-13. The average enrollments per institution stood at 157 in 2013-14. The presence of private players in the K-12 segment has been increasing due to the necessity for good facilities of education and better infrastructure, which are found lacking in several government-owned institutions. The share of private K-12 centres will gradually rise to 30% in 2017-18 from 28% in 2013-14. However, their share in total enrollments is predicted to rise at a much faster pace to 51% in 2017-18 from 47% in 2013-14.

The sector's attraction for participation from private entities remains intact due to the annuity style of income that it provides. There exists a natural preference in parents for private schools provided they fit into their means.

GROWTH DRIVERS

Growing Disposable Incomes

Average household incomes in India have multiplied manifold in the last few years. With strong and sustained economic growth, affordability levels have improved considerably. Increased transition of population from the lower to the higher income bracket has been observed to provide huge impetus to spending on education.

Urbanisation

It has become a norm among the aspiring urban segment of population to follow the practice of the child undergoing basic schooling before being part of a conventional one. This is believed to lay a strong foundation to education.

Changing Lifestyles with need for Quality Education

With changing patterns in the organisation of the modern household and of lifestyle, the cognizance of the importance and the demand for good facilities of schooling has increased drastically. Women, whose roles were previously constrained to the home, are progressively joining the workforce, leading to more prowesses to spend for the family.

More Investment in Private Sector

The number of private players in the K- 12 segment is also increasing, driven by the incremental need for quality education and better infrastructure. There is also a rising need to give further impetus to the power of private capital and invest in further improving the educational sector.

GOVERNMENT INITIATIVES

Government support for the sector has also seen a boost, with substantial reforms and increased financial outlays being announced and implemented. These reforms aim at not only strengthening the education market but facilitating planned expansion for it. A total of ₹ 68,968 crores has been allotted to this industry in the Union Budget 2015. Of the total outlay, ₹ 42,219 crores has been pegged for the sector. The Government has also announced the Sarva Shiksha Abhiyan (SSA), a policy that implies that every child has the right to elementary education of satisfactory and equitable quality. In 2015, the Government of India allocated USD 4.8 billion to SSA which accounts for 41.7% of the total education budget.

OUTLOOK

The education sphere offers attractive opportunities, considering growing disposable incomes and a rising demand for primary education. A well educated population is a key

driver for economic growth. Therefore, the Government's overall plan to revive fiscal growth includes the imperative of strengthening India's education system. The new Government has stated 'Better Education' as one of the six measures that it will focus on to meet the demands of the common man. Also, it has brought specific focus on the task to equip and nurture the youth with the right skills' sets.

COMPANY OVERVIEW

Tree House is the largest self-operated pre-school chain in India. It has gained popularity for its qualified and experienced teachers, standardised curriculum and quality education. Its other attributes are its wide range of courses pertaining to a disparate age-group of children belonging to the following levels: Nursery, Junior KG, Senior KG, Day Care, among others.

EXPANSION PLANS

Being a trusted brand in the pre-school segment, Tree House ventured into the K-12 domain, setting up ambitious growth targets. The Company has initiated expansion plans in Tier II and Tier III cities wherein the penetration and reach of key market players is currently low. The Company has presence in 88 cities, with new centres, this year, being opened at Agra, Ajmer, Allahabad, Baripada, Beawar, Bhillai, Bikaner, Burdhan, Cuttack, Dewas, Ghaziabad, Gopalgunj, Gorakhpur, Gwalior, Hajipur, Hazaribagh, Jhansi, Kochi, Kota, Kozhikode, Pen, Ratlam, Trivandrum, Ujjain and Vishakhapatnam.

NOTES

ON ACCOUNTS FOR THE PERIOD ENDED MARCH 31, 2015

GENERAL INFORMATION

Treehouse Education & Accessories Limited (the 'Company') was incorporated on July 10, 2006 under the Indian Companies Act, 1956 (the 'Act'). The Company is engaged in providing education and related services including leasing of education infrastructure.

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of preparation:

The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting in accordance with the accounting principles generally accepted in India ('Indian GAAP') and comply with the Accounting standards prescribed in the Companies (Accounting Standards) Rules, 2006 which continue to apply under Section 133 of the Companies Act, 2013, ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and other relevant provisions of the Companies Act, 1956, to the extent applicable and guidelines issued by the Securities and Exchange Board of India (SEBI). The accounting policies have been consistently applied by the Company.

All assets and liabilities have been classified as current & non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of activity carried out by the company and the period between the procurement and realisation in cash and cash equivalents, the Company has ascertained its operating cycle to be 12 months for the purpose of current - non current classification of assets and liabilities.

1.2 Use of estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of income and expenses of the year, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Examples of such estimates include useful lives of fixed assets including intangibles, future obligations under employee retirement benefit

plans, provision for doubtful debts and advances, etc. Actual results could differ from those estimates. Any revisions to accounting estimates are recognized prospectively in the current and future periods.

1.3 Provisions and contingencies

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on best estimate of the amount required to settle the obligation at the Balance Sheet date. Provisions are reviewed at each Balance Sheet date and adjusted to reflect current best estimates. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

1.4 Fixed assets, depreciation and amortization

Fixed assets are stated at cost of acquisition or construction, less accumulated depreciation, amortisation and impairment losses, if any. Cost includes all expenses incurred to bring the assets to their present location and condition for their intended use.

1.4.1 Capital Work in Progress and Capital Advances

Cost of Assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each balance sheet date are disclosed as Long Term Loans and Advances.

1.4.2 Depreciation and Amortization

- (a) Depreciation on tangible fixed assets is provided on prorata basis, using the straight line method based on the useful life of the assets as estimated by the management and is charged to the Statement of Profit and Loss as per the requirement of schedule II of the Companies Act, 2013.

NOTES

ON ACCOUNTS FOR THE PERIOD ENDED MARCH 31, 2015

- (b) The estimated useful life of tangible fixed assets is mentioned below:

1.5 Intangibles

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets arising on acquisition of business are measured at fair value as at date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment loss, if any. Profit or Loss on disposal of intangible assets is recognised in the Statement of Profit and Loss.

- Cost incurred for acquiring brands are capitalised and amortized on a straight-line basis over a period of not more than ten years, being the estimated useful life.
- Goodwill arising from acquisition of business is amortized over the expected useful life, not exceeding ten years.
- Business Commercial Rights i.e. "School facilitation service rights" acquired from various Trusts/ Societies are capitalized and amortized on a straight line basis over the agreement period.

1.6 Impairment of Assets

The carrying amount of assets, other than inventories is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the assets is estimated.

An impairment loss is recognised whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and

value in use determined based on the present value of estimated future cash flows. All impairment losses are recognised in the Statement of Profit and Loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

1.7 Revenue Recognition

1.7.1 Income from Services

- Revenue is recognized on rendering of services and is recognized when there are no significant uncertainties as to its measurability or collectability.
- In instances where fees are received during a term, revenue is recognized on a proportionate basis for the period which falls under the current reporting period and the balance is shown as advance fees received.
- Revenue from consultancy services is recognized on rendering of services, as evidenced from the customers' acknowledgment of services received. In respect of non-refundable fees for consultancy services rendered to franchisee for setting up of its operations, the rendering of service generally coincides with signing of the franchisee service agreement.
