4. Analysis & Review

The Indian textile industry is one the most important industries for the Indian economy considering its contribution to employment generation, industrial output and foreign exchange earnings. The vast sweep of Indian textile extends from the hand-woven sector on one end to the capital intensive sector on the other. The segments included the decentralized power looms, hosiery and knitting sectors, the handlooms and handicraft segments are also the wide range of fibers which include man-made fiber, cotton, silk, and wool. The industry is the second largest employer after agriculture, it accounts for 21 per cent of the total employment generated in the economy. This sector is one of the largest contributors to India's exports with approximately 11 per cent of total exports. The Indian textiles industry, currently estimated at around US\$ 108 billion, is expected to reach US\$ 226 billion by 2023. The Indian Textile Industry contributes approximately 5 per cent to India's gross domestic product (GDP), and 14 per cent to overall Index of Industrial Production (IIP). Traditionally Indian textile and apparel manufacturing industries have been cotton focused. Even today, cotton has more than a 60 per cent share compared to 40 per cent share globally. But this scenario is changing fast. Manufacturers, as well as brands, are increasingly looking towards man-made fibre options, mainly polyester, viscose.

The Indian Textile Industry is set for good growth buoyed by strong domestic demand as well as export demand, availability of raw material, skilled workforce, excellent infrastructure facilities and supporting government policies. The Indian textile sector is highly diverse and has handspun and hand-woven segments at one end of the spectrum, and capital-intensive, sophisticated and modern mills on the other. The textile industry is vertically-integrated across the value chain and extends from fibre to fabric to garments. At the same time, it is a highly-fragmented sector, comprising small-scale, non-integrated spinning, weaving, processing and cloth manufacturing enterprises. Besides that the Indian Textile Sector enjoys a competitive advantage of abundant availability of raw materials such as cotton, wool, silk and jute.

India's textiles products, including handlooms and handicrafts, are exported to more than a hundred countries. However, the USA and the EU, account for about two thirds of India's textiles exports. The other major export destinations are China, U.A.E., Sri Lanka, Saudi Arabia, Republic of Korea, Bangladesh, Turkey, Pakistan, Brazil, Hong-Kong, Canada and Egypt etc.

The Government of India seems committed to developing and sustaining a strong and vibrant textile industry which would contribute significantly to production, employment and skill development thereby promoting economic growth. The Government has taken new initiatives to make development participative and inclusive, in line with the core governance philosophy of 'Sabka Saath Sabka Vikaas'. As part of the above, Government has approved the introduction of "Amended Technology Upgradation Fund Scheme-2016-2022 (ATUFS) in place of the existing Revised Restructured Technology Upgradation Fund Scheme (RR-TUFS), for technology upgradation of textile industry. The amended scheme would give boost to "make in India" in textile sector; it is expected to attract investment to the tune of 1.5 lac crore rupees, and create over 30 lakh jobs. The new scheme targets employment generation and increase export earnings by encouraging the apparel and garment industry. Under the new scheme, there will be two broad categories; one for apparel, garment and technical textiles, wherein a 15% subsidy will be provided over five years on capital investment (not exceeding Rs. 30 crore). The second category, comprising all the other sub-sectors, will get a 10% subsidy (subject to a ceiling of Rs. 20 crore). The Central Government extended the 2% export benefit under Merchandise Export from India Scheme (MEIS) for more countries with immediate effect. The RBI policies helped contain demand pressures, created a buffer against external shocks and kept a check on the volatility of the rupee and inflation.

Thus, the growth and all round development of this industry has a direct bearing on the improvement of India's economy.

Opportunities & Challenges

Indian textile Industry is set for strong growth, buoyed by both strong domestic consumption as well as export demand. The exports of textile and clothing products, account for 35% of the total textile sector in India. A strong raw material production base, a vast pool of skilled and unskilled personnel, cheap labor, good export potential and low import contents are some of the salient features of the Indian textile industry. With the increase in capacities, the company will be able to achieve balancing in operations, offering wide product range and broad base its customer

profile. We expect good growth in the demand for our products in the coming years and improvement in the margins of the Company.

The Government supports modernization of the industry with a particular focus on closing the gaps in the textile value chain and has taken several measures to create those positive impulses. But there are still some improvements possible. The industry waits for the proposed reforms in labour law, support to develop a skilled work force and programs to bind talents to be able to translate market needs into quality products.

The threats to the Company's product includes severe competition both in domestic and international markets leading to pricing pressures of finished goods, inflation, foreign exchange fluctuation, volatility in input cost, cotton crop, interest rates, power cost etc. Government Policies also play major role in the growth of the Industry.

Nevertheless, to fully tap the growth opportunities, the industry needs to focus on consolidation and modernization of weaving, processing and garmenting capacities to ensure optimum productivity and improved quality. On part of the government, labour laws reforms should be implemented at the earliest to encourage new investments.

Threats

The industry is vulnerable to its overdependence on western markets and had not sufficiently embraced new technology to remain competitive against China, Korea and Indonesia. Moreover, the textile industry is fiercely competitive and this remains as one of the major concerns as the threat of competition arises from organized as well as disorganized sector. Tight fiscal control and extremely low fiscal deficit, despite the situation where oil prices would fluctuate, is one of the expectations that seems to be playing on the minds of textile players. Nevertheless, to fully tap the growth opportunities, the industry needs to focus on consolidation and modernization of weaving, processing and garmenting capacities to ensure optimum productivity and improved quality. On part of the government, labour laws reforms should be implemented at the earliest to encourage new investments.

Business Risks

As stated above, Export sales constitute about 60% of the total revenue during the year. Apart from fierce competition from China, Korea and Indonesia, the volatility of rupee vis a vis US dollars is a major business risk as all export invoices are issued in US Dollars. This is sought to be overcome by appropriate forward contracts.

Raw material

The Company is exposed to the risk of raw material prices of Polyester, Viscose, P/V blended yarn, Silk and Wool. The Company hedges this risk by purchasing the required raw material at the time of booking of sales contracts. Also this risk is being managed by way of inventory management and forward booking.

HUMAN RESOURCES RISK

Retaining the existing talent pool and attracting new manpower are major risks. The Company hedges this risk by setting benchmark of the best HR practices and carrying out necessary improvements to attract and retain the best talent. The Company has initiated various measures such as rollout of strategic talent management system, training and integration of learning activities.

The Board of Directors is well aware of these risks and through the operational management, continues to monitor them and guides in taking prompt action to mitigate the risks.

Referred to in paragraph in the Independent Auditors' Report of even date to the members of M.K. Exim (India) Limited on the consolidated financial statements for the year ended 31st March, 2017.

Report on the Internal Financial Controls under Cause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of M.K. Exim (India) Limited ("the Holding Company") & its subsidiary company as of 31st March, 2017 in the conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor' Responsibility

3. Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their

operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by other auditors in terms of their report referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that
 - i. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - ii. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
 - iii. Provide reasonable assurance regarding prevention of timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. Our aforesaid reports under section 143(3)(i) of the Act adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to the subsidiary company, is based on the corresponding report on the auditors of subsidiary company. Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act , the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are

free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatements of financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. Further, requisite disclosures are not made in respect of retirement benefits.

Our opinion is not modified in respect of this matter.

1. We have audited the internal financial controls over financial reporting of M.K. Exim (India) Limited ("the Company") as of 31st March, 2017 in the conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that
 - i. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - ii. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
 - iii. Provide reasonable assurance regarding prevention of timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper

management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
