Management Discussion and Analysis Report

Industry Structure and Developments: A Scenario

Global and Indian Economy:

The unprecedented onset of Covid-19 pandemic has heavily impacted the global economy. The pandemic is raging high across the world with rising human casualties. Protecting lives and allowing health care systems to cope have required isolation, lockdowns, and widespread closures to slow the spread of the virus. The health crisis is therefore having a severe impact on economic activity. As a result of the pandemic, the global economy is projected to contract sharply by 4.9% in 2020, much worse than during the 2008–09 financial crisis. In the pre-COVID scenario, the Indian Economy continued the mid-single digit growth path. GDP growth has been slowing down during this period primarily due to declining rural wages, high unemployment levels, liquidity crunch in the system and slowdown in demand.

Indian FMCG Sector:

The Fast moving Consumer Goods (FMCG) sector is an important contributor to India's GDP and the 4th largest sector in India. During FY2019–20, the sector witnessed growth of 7.2% as per AC Nielsen, which is almost half of the 14% growth reported in FY2018-19. The FMCG sector saw a sharp slowdown during the year on account of moderation in economic activity, low farm incomes and weak rural wage growth, liquidity crunch in the system, high unemployment levels and down trading across categories.

Food Sector:

The Food sector, which contributes to 57% of the overall FMCG market, witnessed growth of 8-9%. Migration of consumers from non-branded packaged food products to branded ones also became a major driver behind growth of the sector. India's Food and grocery market is the 06th Largest Market in the World. It is estimated that the Food Processing sectors have the potential to attract US\$ 33 billion investment in next 10 years. With the government keen on promoting value addition in the food Sector, indian companies too have taken the initiatives in a big way resulting in a growing demand for processed food.

Company Overview:

Established in 1972, it is a pioneer in Industrial production and sale of Dehydrated Vegetables and herbs in India. With one the most modern plants in the Industry, it caters to many MNC's in the food segment for their procurement in the domestic and international market. Incorporated in 1993, our Company, “Oceanic Foods Limited” is engaged in manufacturing and processing of Dehydrated Food Products. We

currently have two manufacturing units situated at Lalpur and Jamnagar. Our Company was incorporated on May 03, 1993 and has completed more than twenty five years since incorporation.

Lead by the Chairman Emeritus of the Company, Vinodrai Patel has more than four decades of experience in dehydration food industry. He has been President of Indian Dehydrated Foods Industry Association since its inception more than 25 years till recently. He has served as a President, Jamnagar Chamber of Commerce and Industry and President of All India Dehydrated Processing Association. Our Company is also promoted by Ajesh Patel, Chairman and Wholetime Director, elder son of Vinodrai Patel. He joined our Company in the year 1993 and since then is involved in all day to day activities of our Company having an experience of more than Two decades in food processing industry and has overall responsibility in production and procurement. He is currently the treasurer of Jamnagar Chamber of Commerce and Industry. Later on Tulan Patel, (Managing Director and CEO), younger son of Vinodrai Patel joined our Company and currently leads the marketing function of our Company. With exposure in overseas market, Tulan Patel has been instrumental in grabbing overseas opportunities for our products. He is also an Executive Committee Member of All India Food Processor Association (AIFPA)

At Oceanic, we desire to demonstrate its capability to provide various products conforming to needs of its customers. We aim satisfy the needs of customers including product requirements, the regulatory authorities and accreditation bodies and to achieve customer satisfaction by maintaining the best standards at all level from procurement to dispatch. Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points (HACCP), Good Manufacturing Practices (GMP) and Good Hygienic Practices (GHP) by the food processing industry offers several benefits. It would enable adherence to stringent quality and hygiene norms and thereby protect consumer health, prepare the industry to face global competition, enhance product acceptance by overseas buyers and keep the industry technologically abreast of international best practices.

Practising Company Secretaries Certificate on Corporate Governance Report

To,
The members of Oceanic Foods Limited,

We have examined the compliance of conditions of corporate governance by Oceanic Foods Limited ('the Company') for the year ended on 31 March 2020, as stipulated in Regulations 17 to 27, Clauses (b) to (i) of Regulation 46(2), and paragraphs C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

The compliance of conditions of Corporate Governance is the responsibility of the management. This responsibility includes the designing, implementing and maintaining operating effectiveness of internal control to ensure compliance with the conditions of corporate governance as stipulated in the Listing Regulations. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. The examination is neither an audit nor an expression of opinion on the financial statements of the Company or the corporate governance report of the Company.

We state that no investor's grievance is pending unresolved by the Company for a period exceeding one month against the Company as per the records maintained by the stakeholder relationship committee.

The Compliance of Corporate Governance was applicable with effect from 28th November, 2019 as the Company has migrated from SME to Main Board of BSE Limited

Based on the procedures performed by us and to the best of our information and according to the explanations provided to us, in our opinion, the Company has complied, in all material respects, with the conditions of corporate governance as stipulated in the Listing Regulations during the year ended 31 March 2020.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITORS' REPORT

(On Indian Accounting Standards IND AS financial Statements)

**To the Members of
Oceanic Foods Limited**

Opinion

We have audited the accompanying Ind AS financial statements of OCEANIC FOODS LIMITED ('the Company'), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss which also includes Other Comprehensive Income and Cash Flow Statement and the statement of Changes in Equity for the year ended, and notes to financial statements including summary of significant accounting policies and other explanatory information (hereinafter referred to as Financial Statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Companies Act, 2013 (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the Financial year ended 31st March 2020. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures

performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Sr. No.	Key Audit Matter	Auditor's response
1.	<p>Valuation of Inventory</p> <p>As per IND AS-2 – Inventories, closing inventories are valued at lower of cost and net realizable value (estimated selling price less estimated cost to sell).</p> <p>Considering that, since the company is in the business of Agro based Dehydrated products, the following factors impact the valuation of these inventories:</p> <ul style="list-style-type: none"> a) Volatility of Agro based market, b) Salability of the product & c) Qualitative characteristics of the products which are variable in nature. <p>Thus, there is always volatility factor involved in the valuation of these dehydrated products (mainly Onion & Garlic) lying in stock at the year-end in any form, whether Raw, Semi-finished or Finished form. Therefore, it has been considered as a key audit matter.</p>	<ol style="list-style-type: none"> 1. Obtained an understanding of business model & parameters affecting the valuation of products. 2. Obtained an understanding of the parameters affecting the net realizable value of products and assessed and tested the reasonableness of the significant judgments applied by the management. 3. Obtained laboratory testing report of inventory as at 31st March, 2020, analyzing various parameters affecting valuation of these products. 4. Compared the cost of products derived by the weighted average method & NRV of the products based on the quotations received by the company for supply of products, having similar parameters. 5. Compared the cost of finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value. 6. Assessed the appropriateness of the disclosure in the standalone financial statements in accordance with the applicable financial reporting framework.

2.	<p>Impact of COVID-19 on the Company's financial statements</p> <p>Coronavirus disease 2019 ('COVID-19'), was declared a global pandemic by World Health Organisation.</p> <p>Sales has been affected due to various factors like unavailability of labour, disrupted supplies, non-availability of transportation services for movement of raw materials and finished goods.</p> <p>We have performed the following procedures to assess and evaluate the impact on financial statements because of business decisions, government actions or economic environment developments:</p> <ol style="list-style-type: none"> 1. Performed cut-off procedures for a larger sample of invoices during the lockdown period for both domestic as well as export sales. 2. Enquired with the Company on the manner of financial support (if any) provided to the dealers, vendors and service providers; and their recognition in the financial statements. 3. We assessed the disclosures on COVID-19 made in the financial statements. 4. Our ability to perform regular audit procedures has been impacted which has required us in certain cases to perform alternative audit procedures and exercise significant judgment in respect of the following: <ul style="list-style-type: none"> ➤ Audit and quality control procedures which were earlier performed in person could not be performed; and hence alternative procedures have been performed based on inquiries (through phone calls, video calls and e-mail communications) and review of scanned documentation sent through e-mails, followed up with sighting with original documents. ➤ Year end observation of inventory counts could not be performed. However, management has physically verified inventory at the year end.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Boards of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure B to the Auditors' report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the act')

We have audited the internal financial control over financial reporting of OCEANIC FOODS LIMITED ('the company') as of 31st March, 2020 in conjunction with our audit of the IND AS financial statement of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, and accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Control over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of the management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatement due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2020 based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes on accounts and Significant accounting policies

Notes on Accounts & Significant Accounting Policies :	
1	Corporate Information :
	Oceanic Foods Limited was incorporated in 1993. The Company is situated at Jamnagar. The Company is engaged in processing and sales of dehydrated vegetables.
2	First time adoption and summary of significant accounting policies followed by the Company:
2.1	Basis of Preparation:
	These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.
	The financial statements up to year ended 31 March ,2019 were prepared in accordance with the Accounting Standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.
	These financial statements are the first financial statements of the Company under Ind AS. Refer note 2.2 for an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.
	The Company has considered its operating cycle as 12 months for the purpose of Current or Non - Current classification of Assets and Liabilities.
2.2	First Time Adoption of IND AS:
	Transition to IND AS
	These are the Company's first financial statements prepared in accordance with Ind AS.

	<p>The accounting policies set out in note 2.3 have been applied in preparing the financial statements for the year ended 31 March 2020, the comparative information presented in these financial statements for the year ended 31 March 2019 and in the preparation of an opening Ind AS Balance Sheet at 01 April 2018 (the Company's date of transition). In preparing its opening Ind AS Balance Sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the Accounting Standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP).</p>
2.2.1	Exemptions and exceptions availed
	<p>Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS, which are considered to be material or significant by the Company.</p>
	<i>Ind AS optional exemptions</i>
	(i) Deemed cost for Investment in Associate
	<p>Ind AS 101 provides a one time option to a first-time adopter either to measure its investment in Associate as per previous GAAP carrying value or at fair value on the date of transition. The Company has elected to measure investment of 4000 shares in Meridian Geoinformatics Pvt Ltd in as per previous GAAP carrying value of 01.04.2018.</p>
	<i>Ind AS mandatory exceptions</i>
	(i) Estimates
	<p>An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at 1 April 2018 are consistent with the estimates as at the same date made in conformity with previous GAAP.</p>
	(ii) Classification and measurement of financial assets
	<p>Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS and apply requirements in Ind AS 109 prospectively for transactions occurring on after the date of transition to Ind ASs.</p>
2.2.2	Reconciliations between previous GAAP and Ind AS
	Impact of Ind AS adoption on the Statement of Cash Flows for the year ended 31 March 2019
	<p>There are no material adjustments of transition to the Statement of Cash Flows to conform to Ind AS presentation for the year ended 31 March ,2019.</p>
	<p>Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS:</p>

2.3	First time Adoption
	Note 1: Investment Property
	Under the previous GAAP, investment properties were presented as part of Investment. Under Ind AS, investment properties are required to be separately presented on the face of the Balance Sheet. There is no impact on the total equity or profit as a result of this adjustment.
	Note 2: Proposed dividend and tax thereon
	Under the previous GAAP, dividends proposed by the Board of Directors after the Balance Sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend and tax thereon was recognised as a liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend and tax thereon, included under provisions has been reversed with corresponding adjustment to retained earnings.
	Note 3: Remeasurements of post-employment benefit obligations
	Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the Statement of Profit and Loss for the year.
	Note 4 : Unpaid Dividend & Expense Payable
	Under Indian GAAP these are presented as current liabilities but under Ind AS these are presented as other Financial liabilities so, there is no impact on the total equity and profit.
	Note 5 : Deferred Tax Liability
	Under IGAAP, deferred tax accounting was done using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under IGAAP. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in correlation to the underlying transaction in retained earnings on the date of transition.
	Note 6 : Other comprehensive income
	Under Ind AS, all items of income and expense recognised in a period should be included in the Statement of Profit and Loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the Statement of Profit and Loss as 'other comprehensive income' includes remeasurements of defined benefit plans, effective portion of gains and losses on cash flow hedging instruments etc. The concept of other comprehensive income did not exist under previous GAAP.

	Note 7: Other Non -Current Assets
	Under previous IGAAP, security deposits were reflected under the head 'Long Term Loans and Advances'. Under IND AS, it is shown under the head 'Other Non-Current Assets'. Hence, there is no impact on equity and profit.
	Note 8: Income Tax Assets, Other Financial Assets & Other Current Assets
	Under previous IGAAP, Advances to Suppliers, Balances with Govt. Authorities and Income Tax Receivables, were reflected under the head ' Short Term Loans and Advances'. Under IND AS, these items are classified under the following heads:
	a. Advances to Suppliers - Other Current Assets
	b. Balance with Govt. Authorities - Other Financial Assets
	c. Income Tax Receivable - Income Tax Assets
	Note 9: Cash & Cash Equivalents
	The balances in the 'Unpaid Dividend Account' previously reflected under the head 'Cash & Cash Equivalents', is now reflected under the head 'Other Financial Assets'. There is no impact on equity or profit.
	Note 10: Other Financial Liabilities
	Under previous GAAP, Statutory Liabilities and Current maturities of long term borrowings were reflected under the head ' Other Current Liabilities'. Under Ind AS, they are shown under the head ' Other financial liabilities'. There is no impact on equity or profit.
	-
	Note 11: Current Tax Liability
	-
	Under previous GAAP, Income Tax Provision was reflected under the head' Short Term Provisions' , whereas under Ind AS it is shown under the head of 'Current Tax Liability'. There is no impact on equity or profit.
	-
	Note 12: Revenue from Operations
	Freight Income which was previously clubbed under the head 'Other Operating Income' under IGAAP, is now forming part of total sales under Ind AS.
	Note 13: Depreciation

	<p>Under Ind AS, depreciation is charged on Right-to-use asset which is initially recognised on initial measurement of lease liability. Depreciation is charged on straight-line basis over the shorter of the lease term and useful life of the underlying asset.</p>
	Note 14: Loan processing charges
	<p>As per Ind AS 109, Loan processing charges incurred in relation to loan were distributed evenly throughout the loan period.</p>
	Note 15 : Lease
	-
	<p>Ind AS 116 requires the Company to recognize a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases), and lease contract for which the underlying asset is of low value (low-value assets). For these short-term, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.</p>
	<p>The right-of-use assets are initially recognised at cost, which comprises the initial measurement of the lease liability adjusted plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.</p> <p>The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate of cost of capital. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.</p>
2.4	Summary of significant accounting policies followed by the Company
2.4.1	Accounting Charges:
(i)	The Company follows the mercantile system of accounting and recognises income and expenditure on an accrual basis except in case of significant uncertainties.
(ii)	The financial statements have been prepared under historical cost convention on an accrual basis except in case of assets for which provision for impairment is made.
(iii)	Estimates and assumptions used in the preparation of these financial statements and disclosures made therein are based upon Management's evaluation of the relevant facts and circumstances as of the date of the financial statements, which may differ from the actual results at a subsequent date.

2.4.2	Revenue Recognition:
(a)	Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods. The Company collects GST on behalf of the government and therefore, there are no economic benefits flowing to the company. Hence, they are excluded from revenue.
((b)	Interest Income and Rental Income are recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.
(c)	Revenue in respect of other income is recognised when no significant uncertainty as to its determination or realisation exists.
	Transition to Ind AS
	Freight Income which was previously clubbed under the head 'Other Operating Income' under IGAAP, is now forming part of total sales under Ind AS.
2.4.3	Property, plant and equipment and depreciation
a	Property, plant and equipment are stated at cost less accumulated depreciation / amortisation and impairment loss, if any, except freehold land which is carried at cost. The cost comprises its purchases price, borrowing cost and any cost directly attributable to the bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustment arising from exchange rate variations attributable to the assets. Subsequent expenditures related to an item of Fixed Assets are added to its book value only if they increases the future benefits from the existing asset beyond its previously assessed standard of performance.
b	All other expenses on fixed assets, including repair and maintenance expenditure and replacement expenditure of parts, are charged to Statement of Profit and Loss for the period during the which such expenses are incurred
c	Gains or losses that arise on disposal or retirement of an asset are measured as the difference between net disposal proceeds and the carrying value of an asset and are recognised in the statement of profit and loss when the asset is derecognised.
d	Buildings acquired/constructed which are rented out by the company are categorized as 'Investment property' under the head 'Non- Current Assets'.
	Transition to Ind AS
	On Transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2018 measured as per previous GAAP which in case of the Company, corresponds with carrying costs measured in accordance with Ind AS 16 Property, plant and equipment.
E	Depreciation and amortisation methods, estimated useful lives and residual value
	Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets as prescribed under Part C of Schedule II of the Companies Act 2013.

The management of the company believes that the useful lives as given below best represent the useful lives of these assets based on internal assessment and supported by technical advice where necessary which may be different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Sr. No.	Assets Category	Useful Life (Years)
1	Building	30 Years
2	Computers	3 Years
3	Furniture & Fixtures	10 Years
4	Plant & Machinery	15 Years
5	Vehicle	8 Years

(f) Impairment of Assets:

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units).

2.4.4 Investment Property:

(a) Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

(b) Depreciation on investment property is provided on a pro rata basis on straight line method over the estimated useful lives. Useful life of assets, as assessed by the Management, corresponds to those prescribed in Part 'C' Schedule II of companies act.

© On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

Transition to Ind AS

On Transition to Ind AS, the Company has elected to continue with the carrying value of investment property recognised as at 1 April 2018 which in case of the Company, corresponds with carrying costs measured in accordance with Ind AS 40 Investment Properties.

2.4.5 Investments , financial assets and Financial Liability

a) Investment in Associate

	Interest in Associate is recognised at cost and not adjusted to fair value at the end of each reporting period. Cost represents amount paid for acquisition of the said investments. The Company assesses at the end of each reporting period, if there are any indications that the said investments may be impaired. If so, the Company estimates the recoverable value/amount of the investment and provides for impairment, if any i.e. the deficit in the recoverable value over cost.
	Transition to Ind AS
	On Transition to Ind AS, the Company has elected to continue with the carrying value of investment property recognised as at 1 April 2018 which in case of the Company, corresponds with carrying costs measured in accordance with Ind AS 27 'Separate Financial Statements'
(b)	Other investments and financial assets
(i)	Classification
	The Company classifies its financial assets in the following measurement categories:
	those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and those measured at amortised cost.
	The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will be recorded in profit or loss
2.4	Summary of significant accounting policies followed by the Company
2.4.1	Accounting Charges:
(i)	The Company follows the mercantile system of accounting and recognises income and expenditure on an accrual basis except in case of significant uncertainties.
(ii)	The financial statements have been prepared under historical cost convention on an accrual basis except in case of assets for which provision for impairment is made.
(iii)	Estimates and assumptions used in the preparation of these financial statements and disclosures made therein are based upon Management's evaluation of the relevant facts and circumstances as of the date of the financial statements, which may differ from the actual results at a subsequent date.
(ii)	Measurement
	At initial recognition, the Company measures a financial asset at its fair value.
	Fair value through profit or loss: Assets that do not meet the criteria for amortised cost, are measured at fair value through profit or loss.

(iii)	Impairment of financial Assets
	The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit and Loss.
(iv)	Derecognition of Financial Assets
	A financial asset is derecognised only when Company has transferred the rights to receive cash flows from the financial asset. Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.
(v)	Income recognition
	Interest Income
	Interest income from fixed deposits ,corporate gurantee and from dealers deposits are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.
(c)	Financial Liability
(i)	Classification as debt or Equity
	Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.
	An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.
(ii)	Initial recognition and measurement
	All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
	The Company's financial liabilities include borrowings, trade payables and other financial liabilities.
(iii)	Subsequent measurement
	The measurement of financial liabilities depends on their classification, as described below:
	a) Borrowings
	These amount represents the borrowings that have been obtained from banks and NBFCs.These payables are classified as 'current liabilities' if payments are due within one year or less otherwise they are presented as 'non-current liabilities'.

	b) Trade and other payable
	These amounts represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. These payable are classified as 'current liabilities' if payments are due within one year or less otherwise they are presented as 'non-current liabilities'. Trade and payables are subsequently measured at amortised cost using the effective interest method.
	c) Other Financial Liability
	These amount represents Lease liability and Other Statutory dues payable. These payables are classified as 'current liabilities' if payments are due within one year or less otherwise they are presented as 'non-current liabilities'.
	Derecognition
	Liability is removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/ (losses).
	When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.
	Liability is classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.
2.4.6	Foreign Currency Transactions:
	Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.
A	Initial Recognition:
	Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting current and the foreign currency at the date of the transactions.
B	Conversion:
	Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transactions. Non- monetary items, which are measured at fair value or others similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.
C	Exchange Difference:
	The company accounts for exchange differences arising on translation/ settlement of foreign currency monetary are recognized as income or as expenses in the period in which they arise.

2.4.7	Inventories
A	Raw Materials and stores and spares are valued at lower of cost and net realizable value. However , materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials and stores and spares is determined on a weighted average basis.
B	Semi finished goods and finished goods are valued as lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis.
C	Traded goods are valued at lower of cost and net realizable value. Cost include cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.
2.4.8	Government Grants:
A	Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the company will comply with the conditions attached to them and (ii) the grant/subsidy will be received.
B	Export benefits are accounted in the year of exports based on eligibility and when there is no uncertainty in receiving the same. Receivables of such export benefits includes MEIS Duty Credit Receivable under Other Current Assets.
2.4.9	Employee Benefits:
A	Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contributions payable to the provident fund scheme as an expenditure, when an employee renders the related services.
B	The Company has defined benefit plans for its employees, viz., gratuity. The cost of providing benefits under this plans are determined on the basis of actuarial valuation at each year end. Actuarial valuation is carried out for the plan using the projected unit credit method. Actuarial gains and losses for defined benefit plans are recognised in full in the period in which they occurs in the statement of profit and loss.
C	The Company provides for the encashment of leave or leave with pay subject to certain rules. The employee are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilised leave at each balance sheet date.
2.4.10	Borrowing Costs:
A	Borrowing cost includes interest and ancillary costs incurred in connection with the arrangement of borrowings and foreign exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest costs

B	Borrowing costs directly attributable to the construction of an asset that necessarily take a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective asset. All of these borrowing costs are expensed in the period they are incurred.
2.4.11	Lease:
A	Assets taken on lease by the Company in its capacity as lessee, where the company has substantially all the risks and rewards of ownership are classified as finance lease. Such a lease is capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability of each year.
B	Lease arrangement where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight line basis over the lease term.
C	Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease. The Company's lease asset primarily consists of Building. The company assesses whether a contract contains a lease, at inception of contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.
	As a Lessor
	Lease income on operating leases are recognised in the statement of profit & loss on a straight line basis over the lease term in a manner which is representative of the time pattern in which benefit derived from the use of the leased asset is diminished. Initial direct costs are recognised as an expense in the statement of profit & loss in the period in which they are incurred.
	As a Lessee
	At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases), and lease contract for which the underlying asset is of low value (low-value assets). For these short-term, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.
	The right-of-use assets are initially recognised at cost, which comprises the initial measurement of the lease liability adjusted plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate of cost of capital. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.
	In calculating the present value of lease payments, the company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

	Transition:
	Effective from April 1, 2019, the Company adopted Ind AS 116, Leases and applied the standard to all lease contracts existing on April 1, 2018 using the modified retrospective method, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental cost of capital and the ROU asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental cost of capital at the date of initial application. Comparatives as at and for the year ended March 31, 2019 and opening balance sheet as at April 1, 2018 have been retrospectively adjusted.
2.4.12	Cash and cash equivalents
	For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash on hand, balance with banks.
2.4.13	Earning Per Share:
	Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period. The weighted average number of equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.
2.4.14	Taxation:
A	Provision for tax comprises of current and deferred tax Provision is made on the basis of reliefs and deductions available under relevant tax laws. Deferred tax resulting from "temporary differences" between taxable and accounting income is accounted for using the tax rates and laws that are enacted or substantively enacted as on the balance sheet date. The deferred tax asset is recognised and carried forward for temporary differences of items other than unabsorbed depreciation and accumulated losses only to the extent that there is a reasonable certainty that the assets can be realised in future.
B	However, if there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognized only if there is virtual certainty that there will be sufficient future taxable income available to realise the assets. Deferred tax assets are reviewed as at each balance sheet date for their reliability.
2.4.15	Provision, Contingent Liabilities and Contingent Assets:
	Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates reviewed at each reporting date and adjusted to reflect the current best estimate.
	Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are not recognised in the financial statements.

Note:

- 1) On transition to Ind AS , the company has elected to continue with the carrying value of its property, plant and equipments recognised as at 1 April 2018 measured as per previous GAAP, which in case of the company, corresponds with carrying costs measured in accordance with Ind AS - 16 Property, Plant and Equipments. As on date of transition, gross block and accumulated depreciation was Rs.1,767 Lakhs and Rs. 492 Lakhs.
- 2) As per Ind AS - 40 'Investment Property' assets which is held to earn rentals or for capital appreciation or both is treated as investment property.
- 3) Refer to clause 4.3 of notes to significant accounting policies
- 4) Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease. The Company's lease asset primarily consists of Building. The right-of-use assets are initially recognised at cost, which comprises the initial measurement of the lease liability adjusted plus any initial direct costs less any lease incentives.

(iv)	<u>Fair Value</u>			
	<u>Particulars</u>			
	Investment Property			---
(v)	<u>Estimation of Fair Value</u>			
	The best evidence of fair value is current prices in an active market for similar properties. Since investment properties leased out by the Company are cancellable, the market rate for sale/purchase of such premises are representative of fair values. Company's investment properties are at a location where active market is available for similar kind of properties. Hence fair value is ascertained on the basis of market rates prevailing for similar properties in those location determined by an independent registered valuer and consequently classified as a level 2 valuation.

<u>Sensitivity Analysis</u>				

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

B. Provident Fund		

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

38 FINANCIAL RISK MANAGEMENT

The Company has a Risk Management Committee established by its Board of Directors for overseeing the Risk Management Framework and developing and monitoring the Company's risk management policies. The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Company's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Company.

The risk management policies aims to mitigate the following risks arising from the financial instruments:

- 1 Market Risk
- 2 Credit Risk
- 3 Liquidity Risk

1 MARKET RISK

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market prices. The Company is exposed in the ordinary course of its business to risks related to changes in foreign currency exchange rates, commodity prices and interest rates.

The Company seeks to minimize the effects of these risks by using financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the Board of Directors, which provide written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the Management and the internal auditors on a continuous basis. The Company does not enter into or trade financial instruments, including derivatives for speculative purposes.

2 CREDIT RISK

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. Company's credit risk arises principally from the trade receivables, loans, investments in debt securities, cash & cash equivalents, derivatives and financial guarantees.

a) Trade Receivables

Customer credit risk is managed centrally by the Company and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits defined in accordance with the assessment. Trade receivables consist of a large number of customers spread across diverse industries and geographical areas with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables. The history of trade receivables shows a negligible allowance for bad and doubtful debts.

b) Loans and investment in debt securities

The Company's centralized treasury function manages the financial risks relating to the business. The treasury function focuses on capital protection, liquidity and yield maximization. Investments of surplus funds are made only in approved counterparties within credit limits assigned for each of the counterparty. Counterparty credit limits are reviewed Illustrative Ind AS Financial Statements and approved by the Finance Committee of the Company. The limits are set to minimize the concentration of risks and therefore mitigate the financial loss through counter party's potential failure to make payments.

c) Cash and cash equivalents

Credit risks from balances with banks and financial institutions are managed in accordance with the Company policy.

Liquidity Risk

3

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Company requires funds both for short term operational needs as well as for long term capital expenditure growth projects. The Company generates sufficient cash flow for operations, The Company has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities

Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company monitors its capital using gearing ratio, which is net debt divided to total equity. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents, bank balances other than cash and cash equivalents and current investments.

Particulars	As at March 31, 2020	As at March 31, 2019
Long term borrowings	38	46
Current maturities of long term debt and finance lease obligations	8	7
Short term borrowings	1,294	1,969
Less: Cash and cash equivalent	2	2
Less: Bank balances other than cash and cash equivalents	2	76
Less: Current investments	-	-

Net debt	1,335	1,943
Total equity	2,339	2,066
Gearing ratio	1.75	0.48

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2020 and 31 March 2019.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4 Maturities of financial liabilities

Particulars	Less than & equal to 1 Year	More than to 1 Year	Total
As on 31 March 2020			
Borrowings	1,294	38	1,332
Trade Payable	387	-	387
Other Financial Liabilities	127	0	128
As on 31 March 2019			
Borrowings	1,969	46	2,014
Trade Payable	191	-	191
Other Financial Liabilities	128	0	129
As on 1 April 2018			
Borrowings	1,789	74	1,863

Trade Payable					406	-	406
Other Financial Liabilities					146	1	147

5 Open Exposure

The Company's exposure to foreign currency risk at the end of the reporting period:

Particulars	USD IN LAKHS		
	31-Mar-20	31-Mar-19	01-Apr-18
Receivables (Amount in USDs)	15.10	13.38	7.72
Sensitivity Analysis			

The following table demonstrates the sensitivity to a reasonably possible change in the exchange rates, with all other variables held constant:

Particulars	Currency	Change in Rate	Effect on PBT	Effect on Pre-Tax Equity
Year Ended 31st March 2020	USDs	(+/-)10%	114	114
Year Ended 31st March 2019	USDs	(+/-)10%	93	93

If the change in rates decline by a similar percentage, there will be opposite impact of similar amount on Profit Before Tax and Pre-Tax Equity.

The sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

39 IMPACT OF COVID-19

The Company has considered the possible effects of COVID -19 on the carrying amounts of Property, Plant and Equipment, Investments, Inventories, Trade Receivable and Other current assets. In developing the assumptions relating to possible future uncertainties in future economic conditions because of this pandemic, the company, as at the date of approval of the financial results, has used external and internal sources of information/indicators to estimate the future performance of the Company. Based on current estimates the Company expects the carrying amount of these assets to be recovered. Hence, company has estimated nil impact of COVID-19 in the financial results for the quarter and year ended 31st March, 2020. The impact of the COVID-19 on the Company's Audited financial results may differ from that estimated as at the date of approval of these results.
