**ANNUAL REPORT 2010-11**

Progress, of the best kind, is comparatively slow....  
Great results cannot be achieved at once;  
and we must be satisfied to advance  
in life as we walk, step by step...

## Q and A with Chairman & Managing Director

### A few minutes with our Chairman & Managing Director

**Q.1. What is the impact that you foresee from the economic woes that are playing out across the world?**

I have always found life's best opportunities in such adversities and I am sure that the current downturn would prove likewise a year down the line. We are in a sector which has a high growth potential with severe constraints on new supply. Even in the current downturn, prices have remained firm year on year, despite the demand remaining flat. The prices would move up once the world economy stabilizes. In India the steel industry is certainly growing which would only add to increase in demand of coking coal and met coke in the domestic market as well.

**Q.2. How do you view the performance of your company?**

I like to see the long term picture instead of measuring performance on a quarterly basis and it is evident that we are growing, which is satisfying. Gujarat NRE Coke Ltd has recorded a five fold jump in the consolidated net profit for the year ended 31st March, 2011 over the previous year. This reflects the strong growth momentum in the performance of the company. We have started the financial year 2011-12 on a positive note and expect to further improve the same as the Indian industrial demand picks up post monsoon. Our expansion plans in India and in Australia are progressing on schedule. We would be introducing longwall mining at NRE No. 1 Colliery, for which the company had placed an order for \$90

million for new machinery and the first batch of longwall equipment is on site and ready to go underground as per schedule. The hectic activity vivid in our met coke operations in India to achieve the increased production target only demonstrates our urge to grow. We have all the ingredients to maintain this growth momentum.

**Q.3. How has been the coking coal market shaping up and where do you see the future pricing heading?**

The price of coking coal has been reigning around \$300 per tonne, for the entire year as on date. High demand and the floods in Queensland were the cause of such spike in prices from \$225 per tonne last year. The prices though have softened a bit and has come below the psychological barrier of \$300 per tonne to settle for \$285 per tonne as per some recent contracts signed for the quarter starting October 2011. However, in the long run, a sustained price level of above \$200 per tonne for hard coking coal is near certain due to a combination of facts, which include increased blast furnace steel production led by China, India and Brazil and, new coking coal reserves which are increasingly hard to find, thus resulting in the potential scenario of scarcity. On a five year view, China would remain a marginal coking coal producer but would certainly compete with India for the spot of top coking coal importing nation. Japan would also continue to favour certain hard coking coal variants / brands keeping the global coking coal price above \$200 per tonne at any point in time.

## Annexure To The Directors' Report

Information as required under section 217(1)(e) of the Companies Act, 1956 read with the Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988

### A. CONSERVATION OF ENERGY

#### (a) Energy Conservation measures taken:

The Company in line with its Eco-friendly philosophy continues to lay emphasis on generation of green energy through alternate sources such as wind mills, waste heat plants using flue gas emanated by coke ovens etc. instead of fossil fuels. It continued to generate power through its wind mills having a capacity of 87.5 MW during the year under review. Further, the Company is at an advanced stage for setting up co-generation power plants at its coke plants at Bhachau and Khambhalia in the State of Gujarat and at Dharwad in the State of Karnataka for generating power using the gas emanating from its coke ovens.

#### (b) Additional investments and proposals, if any, being implemented for reduction of consumption of energy:

The Company is setting up co-generation power plants having aggregate capacity of 60 MW at its plants in the States of Gujarat and Karnataka at an investment of around Rs. 275 crores which are expected to be commissioned by 2011-12. Such captive generation of power through co-generation power plants reduces use of power acquired from external agencies. Apart from this, the Company has also installed energy efficient equipment wherever required.

#### (c) Impact of above measures at (a) and (b) above for reduction of energy consumption and consequent impact on the cost of production of goods:

The increase in generation of power through alternate means such as wind mills provides power at a rate lower than the generally prevailing prices for purchasing power and thereby reducing the cost of production.

#### (d) Total energy consumption and energy consumption per unit of Production:

As per Form-A annexed

### B. TECHNOLOGY ABSORPTION

#### (a) Efforts made in technology absorption:

As per Form-B annexed.

### C. FOREIGN EXCHANGE EARNINGS AND OUTGO

#### (a) Activities relating to export, initiative taken to increase exports; development of new export markets for products and services; and export plans:

The exports of the Company during the year under review was Rs.321.58 crores as compared to Nil amount in the previous year. Exports were made to countries such as Brazil, Japan and Malaysia during the year under review and efforts are being made to explore the possibilities of increasing the volumes through penetrating new markets.

## Report on Corporate Governance

### 1. Philosophy on Corporate Governance :

**Corporate Governance** is the system, set of processes, customs, policies, and laws by which business corporations are directed and controlled. The corporate governance structure specifies the distribution of rights and responsibilities among different participants in the company, such as, the board of directors, management, executives, shareholders and other stakeholders (include employees, suppliers, customers, banks and other lenders, regulators, the environment and the community at large) and spells out the rules and procedures for making decisions on corporate affairs. By doing this, it also provides the structure through which the company objectives are set, performance is monitored and objectives are attained.

Gujarat NRE Coke is committed to good Corporate Governance by creating an environment based on entrepreneurship, professionalism and pursuit for excellence. The company's corporate governance is based on two core principles:

- Management must have executive freedom to drive the enterprise forward without undue restraints; and

- This freedom of management must be exercised within a framework of effective accountability.

The above belief and core principles of Corporate Governance adopted by Gujarat NRE Coke leads the company's governance philosophy, trusteeship, transparency, independence, fairness, accountability and social responsibility, which in turn is the basis of public confidence in corporate system.

A Report in line with the requirement of clause 49 of listing agreement with Stock Exchange for the year ended 31st March, 2011 is given below.

## Management Discussion & Analysis

### INDUSTRY STRUCTURE & DEVELOPMENTS

#### ECONOMY

As per latest reports, emerging markets are forging ahead in the current world order, in contrast to advanced economies. China's output is projected to average just short of 10% in 2011-12, thanks to its strong domestic demand. The International Monetary Fund (IMF) has projected that the Indian economy would expand by 8.2 percent in 2011, unchanged from its growth forecast made in April while Brazil, Indonesia and South Africa will also continue strong. Other emerging economies, such as Mexico, Turkey and Poland, are also contributing with higher rates of growth.

The Central Statistical Organisation (CSO) has pointed out that India's GDP at factor cost at constant prices registered an increase of 8.5 percent in the year 2010-11. This revised estimate of 8.5 percent growth for GDP in 2010-11 is only a shade below the advance estimates that had pegged GDP growth for 2010-11 at 8.6 percent. This slight dip in overall GDP growth can be attributed to weaker performance in sectors such as 'mining and quarrying', 'manufacturing', 'trade, hotels, transport and communication' and 'financing, insurance, real estate and business services' than anticipated earlier.

While the Indian economy has geared up to race ahead during 2011-12, it is going to be challenged by the hurdles of large scale corruption, inflationary pressures, volatility in global markets due to increase in crude oil prices etc. These have been cause of concern during the last one year, underscoring the need for further fiscal and monetary interventions by the RBI. In 2010, the Indian economy rebounded robustly from the global financial crisis - largely because of strong domestic demand and such feats need to be re-performed to keep the growth on track.

#### WORLD COKING COAL AND METALLURGICAL COKE INDUSTRY

Coking Coal market has remained relatively stable for a large part of last year with the only exception to the period post January 2011. The quarterly contracted price of hard coking coal remained at around \$225 per tonne mark for almost the entire of 2010. This price was substantially higher from the price prevalent in 2009 and was primarily due to the increased demand of coking coal due to restarting of many steel mills in Europe and increased steel production in China and the rest of Asia. Severe short supply of coking coal has been the major concern of steel industry world wide. The supply scarcity became critical early this year due to the floods in Queensland in Australia. Queensland constitutes about 80% of coking coal exports from Australia, the major supplier of coking coal to the world. The floods have resulted in a steep rise in prices of coking coal to as high as \$330 per tonne earlier this year, and despite the floods having receded and most mines back in normal production, the prices for the July September quarter have also settled much higher at around \$310 - \$315 per tonne. This only shows that global demand is on the rise, while supply has not been able to match the same. This supply demand imbalance is expected to continue for a while thereby implying that the world is expected to face severe shortage of prime hard coking coal in the near future.

Metallurgical Coke being a derivative of Coking Coal naturally follows the same trend as that of coking coal. The world is presently in the eye of a shortfall of met coke. With global steel production set to rise further, primarily being led by increased production in China and India, the demand for met coke is bound to be much higher. This

severe demand supply disequilibrium has already been reflected in the spiralling prices, with price rising to around \$540 per tonne in early 2011.

#### DOMESTIC COKING COAL & MET COKE INDUSTRY

India has acute shortage of premium quality hard coking coal and even the available metallurgical coal is of inferior quality which can be used mostly as a blender with imported superior quality coking coal. Consequently the bulk of India's requirement of hard coking coal is met through imports, with Australia accounting for over 80% of India's import requirement. India imported around 35 MT of coking coal in 2010, which is expected to rise to around 45 MT this year and further increase to reach around 150 MT by the end of this decade in 2020.

India has been one of the major importers of met coke in the world. The scarcity of coking coal has many a time resulted in steel makers buying met coke directly from the market to keep their blast furnaces burning. Hence the shortage of coking coal translates into supply constraints in met coke in India as well. It is a fact without any doubt that coking coal and metcoke are going to be critical and most sought after commodities particularly for India, in the years to come.

#### INDIAN STEEL INDUSTRY

The Indian steel sector has experienced a roller coaster ride of late wherein it has witnessed a significant spurt in demand due to expanding oil and gas sector, large infrastructure spending coupled with growth in housing, consumer durables and auto sectors. India became the fourth largest producer of crude steel in the world in 2010 as against the eighth position in 2003 and is expected to become the second largest producer of crude steel in the world by 2015. As per World Steel Association (WSA), India was the fourth largest producer of crude steel during January - September 2010 producing 50.1 million tonnes (MT) crude steel during the period. Currently, with the government's increased emphasis on infrastructure, it is believed that the sector is poised for significant growth over medium to long term. As a matter of fact, India's per capita steel consumption continues to be low at 46 kg as against the global average of 198 kg. Thus, this further strengthens the belief that the potential ahead for India to raise its steel consumption is very high.

During the year 2010, steel consumption in India grew by 9.6% and in 2011, it is expected to grow by around 13%. Growing steel consumption indicates healthy economic growth. The major steel consuming segments such as auto, consumer durables, capital goods, power and construction have reported incremental growth during 2010-11 and the projected investment in infrastructure during the 11th plan period is expected to be substantial. Based on these parameters and the large potential for consumption in the rural sector, it is expected that the demand for steel in India will continue to grow during the next decade.

The steel industry is responding by installation of additional capacities. India is expected to add around 30 MT in next two years and is expected to become a net exporter of steel by 2013.

We, at Gujarat NRE are poised to meet this incremental demand and production by Indian steel industry and accordingly, we are in the process of setting up additional capacities for producing met coke while simultaneously increasing production at our coking coal mines in Australia to ensure uninterrupted supply to our metcoke plants in India as well as coking coal supply to the world in general

## Management Discussion & Analysis (contd.)

### OPPORTUNITIES & THREATS

The increasing demand of steel worldwide with BRIC (Brazil, Russia, India, China) countries steadily increasing steel production has caused a severe shortfall of coking coal and met coke world wide. The supply situation has further worsened with no new good coking coal mines having started production which can considerably cater to this increased demand. Though this has been a cause of major concern for the steel producers, however, all these factors attribute to a brighter future for met coke as well as coking coal producers.

Scarcity in availability of met coke globally, which may be attributed to a variety of factors, viz., drastic reduction in Chinese exports, increased demand from new steel plants, etc have provided a good opportunity for growth to the global met coke industry. Many new steel plants that have come up in South East Asia and also in India that do not have a captive met coke plant, which further provides an excellent opportunity for merchant coke producers in India and elsewhere to expand and grow.

However, China being the largest consumer of both coking coal and metcoke plays a critical role in determining its global demand and supply and consequently, the prices of both. Therefore, any major shift in policy by China may pose a threat to the industry. Most of the global steel plants use blast furnace route for manufacturing steel and in the process create huge demand for coking coal. Fluctuations in demand in global steel industry or increase in use of other mode of steel making i.e. Electric Arc Furnace by Steel Industry might act as a threat to the met coke and coking coal industry.

### COMPANY'S PERFORMANCE

The income from operations of the Company was higher at Rs. 325.96 crores in the year under review as compared to Rs.246.98 crores during the previous year and consequently, the net profit during the year under review was also reported higher at Rs. 102.65 crores as compared to Rs. 51.87 crores during the previous year. Accordingly, the Basic & Diluted earnings per share of the Company were reported higher at Rs.1.85 and Rs.1.82 respectively, for the year under review as compared to Rs.0.98 and Rs.0.93 during the previous year.

### SEGMENT WISE PERFORMANCE & OUTLOOK

#### Coal & Coke

Coking coal and Coke Segment has been at the core of the operations of the Company contributing around 80% of the total turnover during the year under review. Net Sales/Income from this segment for the year under review amounted to Rs. 1296.81 crores as compared to Rs.1111.55 crores in the previous year.

#### Steel

Steel Segment contributes around 20% to the total turnover. It achieved a turnover of Rs. 300.06 crores during the year under review as compared to Rs.292.08 crores during previous year.

The Company is generating power through its Wind Turbines and is in the process of setting up co-generation power plant to produce electricity from waste heat. This helps the Company to reduce its power costs and ensures regular supply of clean power to its production facilities.

### Outlook

Metallurgical coke is an important part of the iron and steel-making process because it provides the carbon and heat required to chemically reduce iron ore in blast furnaces to molten pig iron. The world coke consumption was 357 million tonnes in 2001, which has grown to around 600 million tonnes in 2010. In North America and Europe coke production has declined and the shortage is projected to exceed more than 12 million tonnes annually over the next 20 years. In UK and France each, a shortage of two million TPA has been estimated. Other European countries are also shutting capacity and the subsequent coke-manufacturing capacities are being relocated in Asian countries.

China used to export up to 15 million tonnes annually till 2008 that got reduced drastically to a meagre over ½ million tonne in 2009 and just over 3 million tonnes in 2010. Hence the world faces an acute shortage of met coke. With shortage of coking coal in the market, steel makers have also opted to buy met coke directly from merchant coke producers to keep their blast furnaces burning. The world is today staring at an acute shortage of met coke when the world coke trade would reach to the level of 30 MTPA (approximately by 2012). The void created by the absence of supply of Chinese coke is hard to fill and it is everybody's guess how the shortage of 12 MTPA of Chinese coke would be met by then. Prices are sure to rise further in future as an eminent outcome of shortage.

### RISKS & CONCERNS

Typically, the Company's business, operating results, cash flows and financial well-being are subject to various risks and uncertainties including, without limitation, those set forth below. Any of these risks has the potential of causing the actual operating results in future to vary materially from the current results or from anticipated future results.

- a) **Commodity Price Risk** : The Company is exposed to the risk of price fluctuations on raw materials and finished goods. However, considering the normal correlation in the prices of raw material i.e coking coal and finished good i.e. met coke, this risk gets reduced/adjusted over a period of time.
- b) **Production Risk** : Coking coal, the critical raw material required for manufacture of met coke is in short supply internationally resulting in uncertainty in its availability and consequently, its prices. Timely availability of raw material at reasonable prices is therefore, critical for survival in this industry. The Company's strategy of backward integration by acquiring coking coal mines in Australia helps in minimising the effect of volatility in prices and secures availability of premium quality hard coking coal.
- c) **Forex Risk** : The Company has a policy to hedge its foreign exchange risk within the defined parameters. As imports (raw materials etc) exceed exports, the Company suitably hedges the differential from time to time to appropriately manage the currency risk.
- d) **Risk from Natural Calamities**: Any act of nature detrimental to the smooth functioning of the mining of Coking coal in Australia as well as production of metallurgical coke in India, can adversely affect the performance of the Company.

## Auditors' Report

To the members of

**Gujarat NRE Coke Ltd.**

1. We have audited the attached Balance Sheet of Gujarat NRE Coke Limited as at March 31, 2011, the Profit and Loss Account and the Cash Flow Statement of the Company for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 as amended by the Companies (Auditor's Report) (Amendment) Order, 2004, issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Companies Act, 1956 and on the basis of such checks of books and records of the company as we considered appropriate and according to the information and explanations given to us, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order to the extent applicable.
4. Further to our comments in the Annexure referred to in paragraph 3 above, we report that:
  - (a) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

- (c) The Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report are in agreement with the books of account;
- (d) In our opinion, the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 to the extent applicable;
- (e) On the basis of written representations received from the directors as on 31st March, 2011, and taken on record by the Board of Directors, we report that none of the directors is disqualified as at March 31, 2011 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956;
- (f) In our opinion and to the best of our information and according to the explanations given to us, the said accounts read together with the significant accounting policies in schedule 18 and notes appearing thereon, give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
  - (i) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2011;
  - (ii) in the case of the Profit and Loss Account, of the profit for the year ended on that date; and

### Annexure referred to in paragraph 3 of our report of even date to the members of Gujarat NRE Coke Ltd. for the year ended 31st March 2011.

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) We were informed that the Company has a phased program of physical verification of its fixed assets which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, fixed assets required to be verified were physically verified by management during the period under review and no material discrepancies were noticed on such verification.
- (c) Fixed assets disposed off during the year under review were not substantial and therefore do not affect the going concern status of the company.
- (ii) (a) During the year inventories have been physically verified by the management at reasonable intervals. In our opinion, the frequency of verification is reasonable.
- (b) In our opinion and according to the information and explanations given to us, the procedures of physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company is maintaining proper records of inventory. The discrepancies noticed during the physical verification of inventories as compared to book records were not material and have been properly dealt with in the books of account.
- (iii) In our opinion and according to the information and explanations given to us, the company has not granted or taken loans, Secured or Unsecured, to/from the companies, firm or other parties covered in the Register maintained under section 301 of the Companies Act, 1956 consequently clause 4 (iii) of the order is not applicable to the company.
- (iv) In our opinion and according to the information and explanations given to us, there exists an adequate internal control system commensurate with the size of the company and the nature of its business with regard to purchases of inventory and fixed assets and with regard to the sale of goods and services. No major weakness in internal control system was observed.
- (v) (a) According to the information and explanations given to us, we are of the opinion that particulars of all the transaction made in pursuance of the contracts or arrangements referred to in section 301 of the Companies Act, 1956 have been entered in the register required to be maintained under that section.

## Auditors' Report (contd.)

- (b) In our opinion and according to the information and explanations given to us, the transactions made in pursuance of contracts or arrangements entered in the register maintained under section 301 of the Companies Act, 1956 and exceeding value of rupees five lacs in respect of any party during the year have been made at prices which are reasonable having regard to prevailing market prices at the relevant time.
- (vi) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public and consequently, the directives issued by the Reserve Bank of India and the provisions of Section 58A, 58AA or any other relevant provisions of the Companies Act, 1956 and the rules framed there under are not applicable to the Company.
- (vii) In our opinion, the Company has an internal audit system commensurate with the size and the nature of its business.
- (viii) The Central Government has not prescribed rules for maintenance of cost records under Section 209(1) (d) of the Companies Act, 1956 for Metallurgical coke business. The cost records are maintained for steel plants as per rules. We have broadly reviewed the accounts and records of the steel plant in

this connection and are of the opinion that prima facie the prescribed accounts and records have been made and maintained. We have not, however, carried out a detailed examination of such records.

- (ix) (a) According to the information and explanations given to us and on the basis of our examination of the books of account, in our opinion, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income Tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Cess and any other material statutory dues with appropriate authorities during the year under review.
- The Central Government has not prescribed the amount of cess for Rehabilitation Revival fund payable under section 441 A of the Companies act, 1956.
- (b) According to the information and explanations given to us, no undisputed amount payable in respect of Income Tax, Sales Tax, wealth Tax, Service Tax, Custom duty and Excise duty were in arrear as at 31st March, 2011, for a period of more than six months from the date they became payable.

- (c) According to the information and explanations given to us and the records of the company examined by us, there were no dues in respect of Income Tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty and Cess that have not been deposited with the appropriate authorities on account of any dispute other than those as mentioned here-in-below:

Name of the statute	Nature of Dues	Amount (Rs./Crores)	Period to which the amount Relates	Forum where disputes are pending
Income Tax Act, 1961	Regular Assessment	3.52	2005-06	Income Tax Appellate Tribunal, Kolkata
-Do-	-Do-	0.57	2006-07	Commissioner of Income Tax (Appeals), Kolkata
-Do-	-Do-	0.33	2007-08	Commissioner of Income Tax (Appeals), Kolkata
Finance Act, 1994 (Act 32 of 1994)	Service Tax	0.06	Oct'07-Mar'08	Custom, Excise and Service Tax Appellate Tribunal, Ahmedabad

- (x) The Company does not have accumulated losses at the year ended 31st March, 2011 and has not incurred cash losses during the year under review and in the immediately preceding financial year.
- (xi) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to its banks or to any financial institutions or debenture holders.
- (xii) According to the explanations given to us and based on the information available, the Company has not granted loans and advances on the basis of security by way of pledge of shares, debentures and other securities.
- (xiii) In our opinion and according to the information and explanations given to us, the Company is not a chit fund / nidhi / mutual benefit fund / society.
- (xiv) According to the information and explanations given to us, the Company is not dealing or trading in shares, securities, debentures and other investments. The investments have been held by the company in its own name except to the extent of exemption granted under section 49 of the Companies Act, 1956
- (xv) In our opinion and according to the information and explanations given to us, the terms and conditions, on the basis of which the Company has given guarantees for loans taken by the subsidiary companies from banks or financial institutions, are not as such prima facie prejudicial to the interests of the Company.
- (xvi) In our opinion and according to the information and explanations given to us and on the basis of our examination of the books of account, the term loans were applied for the purpose for which such loans were obtained.

- (xvii) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long term investment.
- (xviii) The Company had allotted shares consequent upon conversion of warrants allotted on preferential basis to a company covered in Register maintained under Section 301 of the Companies Act, 1956 during the year. The Price at which these shares have been issued has been determined as per Securities and Exchange Board of India (Disclosure and Investor Protection) Guidelines 2000, which in our opinion is not prejudicial to the interest of the Company.
- (xix) According to the information and explanations given to us, the company issued secured non-convertible debentures during the year (Refer note no. B-4 (a) of schedule 18)

### SCHEDULE - 18: SIGNIFICANT ACCOUNTING POLICIES & NOTES ON ACCOUNTS

#### A. SIGNIFICANT ACCOUNTING POLICIES

##### i. Accounting Conventions

The financial statements are prepared under historical cost conventions and as a going concern basis following the accrual basis of accounting and in accordance with the Generally Accepted Accounting Principles (GAAP) in India and in compliance with the provision of the Companies Act, 1956.

##### ii. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues & expenses for the Year under review and assets & liabilities, disclosure of contingent liabilities, on the date of the financial statements. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

##### iii. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and revenue can be reliably measured

- a. In respect of Sales : When the significant risks and rewards of ownership of goods have been passed on to the buyer, which generally coincides with delivery / shipment of goods to customers.
- b. In respect of Interest Income : On time proportion basis taking into account the amount outstanding and the rate applicable.
- c. In respect of Service Income : When the services are performed as per contract.
- d. In respect of Dividend Income : When right to receive payment is established.
- e. In respect of Insurance Claims : On Settlement of Claims

Revenue from product sales is recognized inclusive of Excise duty but exclusive of Sales Tax/Value added Tax (VAT) and net of returns, Sales Discount etc. Sales Returns are accounted for when goods are returned.

##### iv. Fixed Assets

Fixed assets are stated at historical cost, which comprises cost of purchase/construction cost, cost of borrowing and other cost directly attributable to bring the assets at its working condition and location for its intended use. Expenditures during construction period are allocated to the relevant assets in the ratio of costs of respective assets.

##### v. Depreciation on Fixed Assets

Depreciation on Fixed assets is provided on Straight - Line Method (SLM) at the rates and in the manner prescribed in Schedule XIV of the Companies Act, 1956.

##### vi. Inventories

1. Inventories are valued as under:

- a. Raw Materials : At Cost or Net Realisable Value whichever is lower
- b. Finished Products : At Cost or Net Realisable Value whichever is lower
- c. Stores, Spares and Components : At Cost or Net Realisable Value whichever is lower
- d. Stock in process : At Raw material Cost plus estimated cost of conversion upto the stage of completion or Net Realisable Value whichever is lower.

2. Inventories are valued on FIFO basis.

## Schedules to the Accounts (Contd.)

### SCHEDULE - 18: SIGNIFICANT ACCOUNTING POLICIES & NOTES ON ACCOUNTS

3. Variation, if any, between books and physical stocks detected on physical verification, obsolete & slow moving stocks are adjusted in accounts as found appropriate.
- vii. Investments**  
Long term investments are stated at cost. Provision is made when diminution in the value of investments is considered permanent in nature.  
Current investments are stated at lower of cost and market value.
- viii. Foreign Exchange Transactions**
- a. Initial Recognition:**  
Foreign Exchange transactions are recorded normally at the exchange rates prevailing on the date of the transactions.
- b. Conversion**  
Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction and non-monetary items which are carried at the fair value or other similar denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.  
Foreign Currency Convertible Bonds (FCCBs) are treated as fully convertible into equity shares
- c. Exchange differences**  
Exchange differences arising on settlement of transactions or on reporting monetary items of the Company at the rate different from those at which they were initially recorded during the year, or reported in previous financial statement, are recognised as income or expenses in the year in which they arise except in case where they relate to acquisition of fixed assets.
- d. Forward Exchange Contract not intended for trading or speculative purposes**  
The premium or discount arising at the inception of forward exchange contract is amortized as expenses or income over the life of the respective contract. Exchange differences on such contracts are considered in the statement of Profit or Loss in the Year in which exchange rate changes. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expenses for the Year.
- ix. Provisions, Contingent Liabilities and Contingent Assets**  
The Company makes a provision when there is present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Contingent Assets are disclosed when an inflow of economic benefit is probable and/or certain.
- x. Borrowing Costs**  
Borrowing Costs that are attributable to the acquisition and constructions of qualifying assets are capitalised as a part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs of the Year are charged to revenue in the period in which they are incurred.
- xi. Taxation**  
Current Tax is determined as the amount of tax payable in respect of taxable income for the Period.  
Deferred Tax Liability is recognized for all timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.  
Deferred Tax Assets are recognized only if there is reasonable certainty that the same will be realized and are reviewed for the appropriateness of its respective carrying values at each Balance Sheet date.  
Tax on Distributed Profit Payable is in accordance with the provision of Section 155O of the Income Tax Act, 1961 and in accordance with guidance note on Accounting for Corporate Dividend Tax.  
Wealth Tax is determined on taxable value of assets on the balance sheet date.
- xii. Employee benefits**
- a) Short Term & Post Employment Benefits**  
Employee benefits of short-term nature are recognized as expense as and when those accrue. Post employments benefits are recognized as expenses based on actuarial valuation at Year end which takes into account actuarial gains and losses.
- b) Employee Stock Option Scheme (ESOS)**  
Aggregate quantum of options granted under the schemes in monetary term net of consideration of issue, to be paid in cash, are shown in the Balance Sheet as Employees Stock Option outstanding under Reserves & Surplus and as Deferred Employees Compensation under Miscellaneous Expenditure as per guide-lines of SEBI in this respect.  
With the exercise of options and consequent issue of equity shares corresponding ESOS outstanding is transferred to Securities Premium Account.
- xiii. Indirect Taxes**  
Excise Duty on Finished Goods Stock is accounted for at the point of manufacture of goods and is accordingly considered for valuation of finished goods stock as on Balance sheet date. Customs duty on imported raw materials is accounted for on the clearance of goods from the Customs Authorities.

## Schedules to the Accounts (Contd.)

### SCHEDULE - 18: SIGNIFICANT ACCOUNTING POLICIES & NOTES ON ACCOUNTS

#### xiv. Miscellaneous Expenditure

- (i) Deferred Revenue Expenses-5 years
- (ii) Deferred Employees Compensation under ESOS- Amortised on straight line basis over vesting period.

#### xv. Impairment of Assets

The Company assesses at each Balance Sheet date whether there is any indication of an asset being impaired. An asset is treated as impaired when the carrying amount of assets exceeds its recoverable value, in which case the impairment loss is charged to the Profit and Loss Account of the Year in which an asset is identified as impaired. The impairment loss, if any, recognised in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

#### xvi. Research and development

Revenue expenditure on research and development is expensed as incurred. Capital expenditures incurred on research and development are capitalised as fixed assets and depreciated in accordance with the depreciation policy of the Company.

#### xvii. Earning per share (EPS)

The basic earning per share ("EPS") is computed by dividing the net profit after tax for the Year by the weighted average number of equity shares outstanding during the Year. For the purpose of calculating diluted earnings per share, net profit after tax for the Year and the weighted average number of shares outstanding during the Year are adjusted with the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed converted as of the beginning of the Year, unless they have been issued at a later date.

#### xviii. Prior Period Adjustments, Extra-ordinary Items and Changes in Accounting Policies

Prior period adjustments, extraordinary items and changes in accounting policies, if any, having material impact on the financial affairs of the Company are disclosed.

#### xix. Segment Reporting

**Auditors' Report on Consolidated Financial Statements**

**Auditors' Report to the Board of Directors of the Gujarat NRE Coke Ltd. on the consolidated financial statement of Gujarat NRE Coke Ltd. and its subsidiaries**

- We have audited the attached Consolidated Balance Sheet of Gujarat NRE Coke Limited ("the Company") and its eleven subsidiaries (collectively referred to as the "Gujarat NRE Group") as at March 31, 2011, the consolidated Profit and Loss Account and the consolidated Cash Flow Statement for the year ended on that date annexed thereto. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
  - We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, in all respects, in accordance with an identified financial reporting framework. An audit includes, examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements. We believe that our audit provides a reasonable basis for our opinion.
  - We did not audit the financial statement of certain subsidiaries whose financial statements reflect total assets of Rs. 5,146.01 crores as at March 31, 2011 and total revenue of Rs. 1,084.87 crores and net Cash Inflows of Rs. 360.35 crores for the year ended on that date. These financial statements have been audited by other auditors whose reports have been furnished to us, and our opinion, in so far as it relates to the amount included in respect of the subsidiaries is based on the reports of other auditors.
  - We report that the consolidated financial statements have been prepared by the Company's management in accordance with the requirements of Accounting Standard 21- "Consolidated Financial Statements" and Accounting Standard 23- "Accounting for Investment in Associates in Consolidated Financial Statements" as prescribed by the Companies (Accounting Standards) Rules, 2006.
5. We further report that on the basis of the information and on consideration of the audit reports on individual audited financial statements of Gujarat NRE Coke Ltd. and its subsidiaries, we are of the opinion that the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:
- in the case of the Consolidated Balance Sheet, of the consolidated state of affairs of the Gujarat NRE Group as at March 31, 2011;
  - in the case of the Consolidated Profit and Loss Account, of the consolidated results of operation of the Gujarat NRE Group for the year ended on that date; and
  - in the case of consolidated Cash Flow Statement, of the consolidated Cash Flows of the Gujarat NRE Group for the year ended on that date.

### SCHEDULE-19: SIGNIFICANT ACCOUNTING POLICIES & NOTES ON CONSOLIDATED ACCOUNTS

#### A. SIGNIFICANT ACCOUNTING POLICIES

##### i) Accounting Conventions

The consolidated financial statements are prepared under historical cost conventions and as a going concern basis following the accrual basis of accounting and in accordance with the generally accepted accounting principles (GAAP) in India.

##### ii) Principles of Consolidation

The accounts of subsidiaries including foreign subsidiaries have been consolidated with the parent companies accounts in accordance with Accounting Standard-21 on "Consolidated Financial Statements" and investments in Associates have been accounted for using the equity method as per Accounting Standard-23 on "Accounting for Associates in Consolidated Financial Statements" as specified in the Companies (Accounting Standard) Rules, 2006.

Consolidated Financial Statements have been made by adding together like items of assets, liabilities, income and expenses. The inter-company transactions and unrealized profits/(losses) thereon have been eliminated in full.

Goodwill/Capital Reserves represent the difference between the cost of control in the subsidiaries/associates, over the book value of net assets at the time of acquisition of control in the subsidiaries/associates.

Foreign subsidiaries are considered as non-integral foreign operation as per Accounting Standard-11, on "The effect of Changes in Foreign Exchange Rates". The financial statements of the same have been converted using the following methods:

Components of Profit & Loss Account except opening & closing stock have been converted using monthly average rate of the reported year.

Components of Balance Sheet have been converted using the rates at the balance sheet date, except balance of Profit & Loss Account. Resultant foreign exchange translation difference has been recognized as "Foreign Currency Translation Reserve".

##### iii) Use of estimates

The preparation of the consolidated financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities for the year under review and disclosure of contingent liabilities on the date of the consolidated financial statements. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

##### iv) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and revenue can be reliably measured

- a. In respect of Sales : When the significant risks and rewards of ownership of goods have been passed on to the buyer, which generally coincides with delivery / shipment of goods to customers.
- b. In respect of Interest Income : On time proportion basis taking into account the amount outstanding and the rate applicable.
- c. In respect of Service Income : When the services are performed as per contract.
- d. In respect of Dividend Income : When right to receive payment is established.
- e. In respect of Insurance Claims : On Settlement of Claims

Revenue from product sales is recognised inclusive of Excise duty but exclusive of Sales Tax / Value added Tax (VAT) and net of returns, Sales Discount etc. Sales Returns are accounted for when goods are returned.

##### v) Fixed Assets

Fixed assets are stated at historical cost, which comprises cost of purchase/construction cost, cost of borrowing and other cost directly attributable to bring the assets at its working condition and location for its intended use. Expenditures during construction period are allocated to the relevant assets in the ratio of costs of respective assets.

##### vi) Depreciation on Fixed Assets

Depreciation on Fixed Assets is provided on Straight Line Method (SLM) at the rates and in the manner prescribed in Schedule XIV of the Companies Act, 1956.

## Schedules to the Consolidated Accounts (Contd.)

### SCHEDULE-19: SIGNIFICANT ACCOUNTING POLICIES & NOTES ON CONSOLIDATED ACCOUNTS

In case of foreign subsidiaries, depreciation is provided on Straight Line Method (SLM) over the useful life of the assets.

Mining lease is amortised over the life of the asset. Amortisation is calculated in proportion of actual production when measured against the resources available in the mine.

Mine Development is activities undertaken to gain access to mineral reserves. Typically this includes sinking shafts, permanent excavations, building transport infrastructure and roadways. All costs relating to mine development are capitalised and are amortised over the estimated reserve in that developed area of the mine. Amortisation is calculated in proportion to actual production when measured against mineable resources in the mine area developed on which the expenses were incurred. The carrying value of mine development is reviewed to ensure it is not in excess of its recoverable amount.

Pre-production costs All costs relating to the pre-production of coal were capitalised as Pre Production Expenses and are amortised over the estimated life of reserves in the mine. Amortisation is calculated in proportion to actual production when measured against mineable resources in the mine seam for which the expenses were incurred. The carrying value of pre-production is reviewed by directors to ensure it is not in excess of its recoverable amount.

#### vii) Inventories

1. Inventories are valued as under:

- |                                  |   |  |
|----------------------------------|---|--|
| a. Raw Materials                 | : | At Cost or Net Realisable Value whichever is lower   |
| b. Finished Products             | : | At Cost or Net Realisable Value whichever is lower   |
| c. Stores, Spares and Components | : | At Cost or Net Realisable Value whichever is lower   |
| d. Stock in process              | : | At Raw material Cost plus estimated cost of conversion up to the stage of completion or Net Realisable Value whichever is lower. |

Cost includes all direct cost and applicable manufacturing and administrative overheads.

2. Inventories are valued on FIFO basis.

3. Variation, if any, between books and physical stocks detected on physical verification, obsolete & slow moving stocks are adjusted in accounts as found appropriate.

#### viii) Investments

Long term investments are stated at cost. Provision is made when diminution in the value of investments is considered permanent in nature.

Current investments are stated at lower of cost and market value.

#### ix) Foreign Exchange Transactions

##### a. Initial Recognition:

Foreign Exchange transactions are recorded normally at the exchange rates prevailing on the date of the transactions.

##### b. Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction and non-monetary items which are carried at the fair value or other similar denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Foreign Currency Convertible Bonds (FCCBs) are treated as fully convertible into equity shares

##### c. Exchange differences

Exchange differences arising on settlement of transactions or on reporting monetary items of the Company at the rate different from those at which they were initially recorded during the year, or reported in previous financial statement, are recognised as income or expenses in the year in which they arise except in case where they relate to acquisition of fixed assets.

##### d. Forward Exchange Contract not intended for trading or speculative purposes

The premium or discount arising at the inception of forward exchange contract is amortized as expenses or income over the life of the respective contract. Exchange differences on such contracts are recognised in the statement of Profit or Loss in the year in which exchange rate changes. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expenses for the year.

#### x) Provisions, Contingent Liabilities and Contingent Assets

The Company makes a provision when there is present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liabilities is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Contingent Assets are disclosed when an inflow of economic benefit is probable and/or certain.

#### xi) Borrowing Costs

Borrowing Costs that are attributable to the acquisition and construction of qualifying assets are capitalised as a part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs of the year are charged to revenue in the period in which they are incurred.

## Schedules to the Consolidated Accounts (Contd.)

### SCHEDULE-19: SIGNIFICANT ACCOUNTING POLICIES & NOTES ON CONSOLIDATED ACCOUNTS

#### xii) Taxation

Current Tax is determined as the amount of tax payable in respect of taxable income for the period.

Deferred Tax Liability is recognized for all timing difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred Tax Assets are recognized only if there is reasonable certainty that the same will be realized and are reviewed for the appropriateness of its respective carrying values at each Balance Sheet date.

Tax on Distributed Profit Payable is in accordance with the provision of Section 155O of the Income Tax Act, 1961 and in accordance with guidance note on Accounting for Corporate Dividend Tax.

Wealth Tax is determined on taxable value of assets on the balance sheet date.

Foreign Companies recognize tax liabilities and assets as per there rules & regulations.

#### xiii) Employee Benefits

##### a) Short Term & Post Employment Benefits

Employee benefits of short-term nature are recognized as expense as and when those accrue. Post employments benefits are recognized as expenses based on actuarial valuation at year end which takes into account actuarial gains and losses.

##### b) Employee Stock Option Scheme (ESOS)

Aggregate quantum of options granted under the schemes in monetary term net of consideration of issue, to be paid in cash, are shown in the Balance Sheet as Employees Stock Option outstanding under Reserves & Surplus and as Deferred Employees Compensation under Miscellaneous Expenditure as per guidelines of SEBI in this respect. With the exercise of options and consequent issue of equity shares corresponding ESOS outstanding is transferred to Securities Premium Account.

In case of foreign subsidiaries the fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognized over the period during which the employee become unconditionally entitled to the options. Fair value at grant date is independently determined using Binomial method for option pricing.

#### xiv) Indirect Taxes

Excise Duty on Finished Goods Stock is accounted for at the point of manufacture of goods and is accordingly considered for valuation of finished goods stock as on Balance sheet date. Customs duty on imported raw materials is accounted for on the clearance of goods from the Customs Authorities.

##### In Foreign Subsidiaries

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

#### xv) Miscellaneous Expenditures

Miscellaneous expenditure, stated at cost, is amortized over period of time as under:

- (i) Deferred Revenue Expenses- 5 years
- (ii) Deferred Employees Compensation under ESOS- Amortised on straight line basis over vesting period.

The restoration liability calculated as discounted present value in relation to restoration guarantee at the end of the lease is correspondingly represented by a Miscellaneous Expenditures as "Deferred Restoration Guarantee".

The "Deferred Restoration Guarantee", after deducting the change in liability, is amortised on a straight line basis over the life of the mine lease.

#### xvi) Impairment of Assets

The Company assesses at each Balance Sheet date whether there is any indication of an asset being impaired. An asset is treated as impaired when the carrying amount of assets exceeds its recoverable value, in which case the impairment loss is charged to the Profit and Loss Account for the year in which an assets is identified as impaired. The impairment loss, recognised in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

#### xvii) Research and development

Revenue expenditure on research and development is expensed as incurred. Capital expenditures incurred on research and development having alternate uses are capitalised as fixed assets and depreciated in accordance with the depreciation policy of the Company.

#### xviii) Earning per share (EPS)

The basic earning per share ("EPS") is computed by dividing the net profit after tax for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, net profit after tax for the year and the weighted average number of shares outstanding during the year are adjusted with the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date.

## Schedules to the Consolidated Accounts (Contd.)

### SCHEDULE-19: SIGNIFICANT ACCOUNTING POLICIES & NOTES ON CONSOLIDATED ACCOUNTS

12. The Company joint venture (30% ownership), farm-in arrangement with Pluton Resources Limited (60%) and Southern Ocean Science Pty Ltd and John McDougall (SOSM) 10% is managed by Pluton through joint venture exploration program. Cethana is prospective for gold and base metals. The Exploration License is located 50km South of Devonport on the north coast of Tasmania. During the Current Fiscal Year the Group has invested Rs.38.22 Lakhs.
13. **Impairments of Assets**
  - a) Investment in Pike River Coal Ltd were reviewed after the November 2010 of underground blast in the mine, followed by shut down and closure of mine. Directors after review and assessment of the situation have determined that carrying value of the investment in Pike River Coal Limited is impaired and has been accordingly recognised in accounts at reduced impaired value for the year ended 31 March 2011. The impairment loss has been charged in Consolidated Profit & Loss A/c as extraordinary item. Should the ongoing issues with Pike River Coal Limited indicate further impairment for example should the prospective sale of the mine not proceed or the bid for sale comes at a very low price, then impairment loss to that extent would be recognised further to the maximum of carrying value at 31 March 2011 amounting to Rs.67.09 Crores for the Group.

The directors valuation of the Pike River Coal Limited investment is based on published information in the November 2010 shareholder briefing, assuming long term hard coking coal price of USD140 and resource of 58.5 Million Tonnes.
  - b) In case of Other Assets, the indicators of impairment listed in paragraph 8 to 10 of Accounting Standard (AS)- 28 "Impairment of assets" issued by ICAI have been examined by the management and on such examination, it has been found that none of the indicators are present in the case of the Group's assets. A formal estimate of the recoverable amount has not been made, as there is no indication of a potential impairment loss.
  - c) In the opinion of Board of Directors and to the best of their knowledge and belief, the value on realization of Current Assets, Loans and advances in the ordinary course of business will not be less than the amount at which they are stated in the Balance Sheet.
14. Figures pertaining to the Subsidiary Companies have been reclassified wherever necessary to bring them in line with the Parent Company's Financial Statements.
15. Previous Year figures have been regrouped / rearranged wherever considered necessary.
