Annexure - II to the Directors' Report

CORPORATE GOVERNANCE REPORT

The Directors present the Company's Report on Corporate Governance for the year ended 31st March, 2018, in terms of Regulation 34(3) read with Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 "SEBI (LODR)".

"Corporate Governance" refers to the way a corporation is governed. It is the technique by which companies are directed and managed. The Corporate Governance structure specifies the distribution of the role and responsibilities of different participants, such as, the Board, Committees, Key Managerial Personnel (KMPs), senior management staff, shareholders and other stakeholders in the organization. It also spells out the rules and procedures for decision making pertaining to corporate affairs. The Company adheres to Good Corporate Governance practices and constantly endeavours to improve by adopting emerging best practices.

I. COMPANY'S PHILOSOPHY

Banswara Syntex Limited is committed to achieve and sustain high standards of Corporate Governance practices and adherence thereto, in letter and spirit, and at all times, which goes beyond mere regulatory compliances. The Company is also committed to maintain the highest level of transparency, accountability and equity in all facets of its operations. It firmly believes that Corporate Governance is about the management and conduct of an organization based on ethical business principles and commitment to values and that the same are in force at all levels within the Company. The Corporate Governance model adopted by the Company consists of a set of rules and standards with the aim of establishing efficient and transparent operations, within the organization, to protect the rights and interests of the Company's shareholders and to enhance shareholders value while complying with the provisions of law in all dealings with Government, customers, suppliers, employees and other stakeholders. It is also intended to ensure attractive returns to all stakeholders of the business based on the premise that sound Corporate Governance is the pre-requisite to success, sustainable growth and long-term value creation.

The Company has complied with the provisions of the Code of Corporate Governance as per Regulation 27 of The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. A report on the implementation of the provisions of the Corporate Governance is furnished hereunder:

II. BOARD OF DIRECTORS

The Board of Directors of Banswara Syntex Limited is a balanced one with an optimum mix of Executive and Non-Executive Directors. The 12 members Board comprises four Executive Directors viz. the Chairman, Vice Chairman, Managing Director and Joint Managing Director, all from the promoter group, and eight Non-Executive Independent Directors (NEIDs), including one Woman Director. Thus, Independent Directors constitute 2/3rd of the Board's strength. The NEIDs are eminent professionals from diverse back grounds with vast experience in business, industry, finance and public enterprises. The Independent Directors are not related to the Promoter-Directors and/or to each other. The Board provides leadership, strategic guidance, objective analysis and independent views to the Company's management while discharging its fiduciary responsibilities, thereby ensuring that the management adheres to high standards of ethics, transparency and accountability.

The Directors do not have any pecuniary relationship with the Company except to the extent of the following:

(a) Whole-Time Executive Directors (WTEDs)

Remuneration as per their terms of appointment and reimbursement of expenses actually incurred for the business of the Company, within the approved terms and conditions.

(b) Non-Executive Independent Directors (NEIDs)

Reimbursement of travelling and out-of-pocket expenses along-with payment of sitting fees for the Board / Committee meetings attended by them.

Number of Board Meetings

The Indian Textile Industry has a prominent role in the Indian economy. It brings in the net foreign exchange earnings and contributes to the GDP. The textiles sector is the second largest provider of employment after agriculture. Thus, the growth and development of this industry has a direct bearing on the improvement of India's economy, Textiles exports from India are expected to touch US\$ 185 billion by the year 2024-25.

India is the one of the World's largest producers of textiles specially the yarns. The Indian Textile Industry accounts for about 24% of the World's spindle capacity and 8% of Global rotor capacity. The potential size of the Indian textile and apparel Industry is expected to reach US\$ 223 billion by 2021.

RISKS AND CONCERNS

Management Discussion and Analysis mainly comprise the statements which may, inter alia, involve predictions based on perceptions and may, therefore, be prone to risks and uncertainties. It is the sum total of the Company's expectations, beliefs, estimates and projections which may be forward looking within the meaning of applicable laws and regulations. The actual results could differ materially from those expressed herein specifically or impliedly.

The important factors that could make a difference to the Company's operations include availability and cost of raw material, cyclical demand, pricing of the products, changes in Government regulations, tax regimes, economic developments within India and the countries in which the Company conducts its business, India's Free Trade Agreements with other countries, prevailing exchange rate of Indian Rupee against other currencies, availability of skilled and unskilled workforce and other incidental factors. The shareholders are cautioned to keep this in view in conjunction with the Company's financial statements.

CORE BUSINESS AND PRODUCTS

The core business of the Company is manufacturing and marketing of spun synthetic blended yarn, wool and wool mix yarn, spun synthetic and worsted fabrics, cotton & linen fabrics besides readymade garments. The Company also produces shirting and technical fabrics. Tesca Textiles and Seats Component (India) Private Limited (Formerly Known as Treves Banswara Private Limited), the Joint venture Company, is producing automotive fabrics. The Company perceives good scope for increase in demand, production and sale of its products.

OUTLOOK

Your Company's future growth is built on two parallel growth drivers viz., domestic consumption of fabrics & garments and large global opportunities in textiles & clothing.

For the financial year 2018-19, the total revenue of the Company is expected to be around ₹ 1444 crores, which is about 11% higher than the actual revenue for the year 2017-18. The Company is focused towards increase in sale of value-added products in yarn, fabrics and readymade garments. As the Company increases its share of value added products, its EBIDTA margin is expected to improve. On the whole, the outlook for the Company continues to remain positive.

INDUSTRY STRUCTURE, ITS DEVELOPMENT

Under the Foreign Trade Policy 2015- 2020, the export obligation for domestic procurement of capital goods under EPCG has been reduced from 90% to 75%. The said Policy has also introduced a single Merchandise Exports from India Scheme (MEIS) as against 5 different schemes for rewarding merchandise exports with different kinds of scripts with varying conditions. This has simplified the procedure/documentation to get the export benefits quickly, which will promote textile exports from India.

During the year under review, the consumer demand continued to be sluggish across the textile and apparel sector, resulting in continuous pressure on sales and margins. The textile industry is labour intensive and as the Central Government's National Rural Employment Guarantee Scheme, provides more opportunities for workers, the Textile Industry is facing labour shortages, particularly since November, 2016. The availability of the requisite labour for running the plants has become very difficult.

A comparative position of the Company's manufacturing capacities in the last 2 financial years is as under.

During the year 2017-18 under review, the Company invested ₹ 33.44 crore (previous year- ₹ 67 crore) for modernization of its production capacities. The capital-work-in-progress at ₹ 5.36 crore (previous year ₹ 4.00 crore) with advances to capital goods' suppliers aggregated ₹ 2.11 crore (previous year ₹ 3.44 crore) at the end of the respective periods.

OPPORTUNITIES & THREATS:

The Company is consuming about 35% of its yarn production for its fabric manufacturing and about 20% of its fabric production for garment conversion. The Company is looking for more avenues for forward integration and, as such, the availability of the material from the preceding stage is a big advantage. Your Company produces all types of yarns and fabrics i.e. polyester viscose lycra, dyed RFD, cotton piece dyed, linen, all wool and wool blends, etc. Thus, your Company is a single source of supply for all these types of fabrics. It has flexibility to increase fabric production as per market demand. The Company has its own design studio and has developed a world class range which is being displayed to the customers within and outside India. As there is variety of fabrics available in its product line, your Company anticipates deeper penetration in the domestic and international markets. We expect to increase the business with the new customers while retaining and strengthening the volumes with the existing clientele.

The Government of India has since announced the biggest tax reform in the country by implementing the Goods and Services Tax (GST). As ours is a Composite Mill, we procure the fiber as raw material, the tax payment at the initial point of input will be lower in comparison to the other competitors in the non composite set up. This may create a competitive edge for the Company.

The World's largest retailers like Zara and H&M have increased their market presence in India. They have now opened their large size retail stores in big cities. As we are an existing supplier to these brands for their international supply, our business with them for their India operations is likely to grow in a big way.

U.S.A. has recently announced that they are not going to be the part of Trans Pacific Partnership (TPP) Agreement whereunder duty-free import was permitted from certain countries. India was not a part of this TPP Agreement and, therefore, the other competing countries were expecting a competitive edge over India. Now, with this latest announcement by of U.S.A., Indian Textile industry is likely to get an advantage while exporting to U.S.A. as it has substantial exports to U.S.A.

In view of implementation of the Goods and Services Tax (GST) in India, the overall last price of products is expected to increase; further, the textile industry, mainly yarns and fabrics which were enjoying the benefit of No Duty, will fall into the tax bracket. It will reduce the overall export incentives available to the textiles.

SEGMENT-WISE PERFORMANCE

The Company is engaged in manufacture of Textile products having integrated working and captive power generation. For management purposes, the Company is organized into major operating activity of textile products. The Company has no activity outside India except export of textile products manufactured in India. Thereby, there is no geographical segment and no segment-wise information is reported.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has well laid out policies and procedures for Internal Financial Controls and for ensuring orderly and efficient conduct of its business, including safeguarding of its assets, prevention and detection of frauds, errors and irregularities, accuracy and completeness of the accounting records and timely preparation of reliable financial information.

All transactions are duly authorized, properly recorded and accurately reported. Internal Control System consists of in-house audit team headed by Chief Internal Auditor to carry out internal audits and create an in-built internal checking mechanism covering all units and business operations within a specified time frame. In addition, the Company has also appointed independent Chartered Accountant firms to carry out internal audits regularly. The Company has Audit Committee of the Board, the composition and functions of which are furnished in the Corporate Governance Report as part of the Annual Report.

The Audit Committee reviews the adequacy and effectiveness of Internal Financial Control System and provides guidance for further strengthening them.

The Company has implemented SAP which is a world proven system of accounting and controls.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The operating performance of the Company has been detailed in the first two paragraphs of the Directors' Report under the heads 'Financial Review' and 'Operations.' The profit before tax for the year 2017-18, at ₹10.86 crore, works out to 0.61% of sales as against ₹ 25.42 crore, i.e. 2.03% of sales in the previous Financial Year- 2016-17.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES AND INDUSTRIAL RELATIONS FRONTS

FY 2017-18 has been a year of challenges with demonetization, GST, SAP implementation etc. which had an impact on the overall Strategic Human Resource development initiatives of the Company.

A major technological advancement was achieved in introducing advance cloud infrastructure "Google Suit" enabling Human Resource department to connect centrally with all participants internally 24*7 from anywhere with any device capable of accessing internet.

Goal setting activities for FY 2017-18 were done using Google platform for tracking performance during the entire year which could be accessed by any employees themselves and their HoDs. Various training sessions were conducted to educate employees across all locations to use Google Platform to collaborate effortlessly across teams, companies and locations.

Performance Appraisal cycle for the previous year was successfully completed across all locations and the annual increments were awarded based on performance differentiation.

Training calendar for FY 2017-18 was prepared. Various training and development initiatives were undertaken at Mumbai and Surat locations on various technical, behavioural and peripheral skills for staff level employees such as English Excellence for business, Excel skills on google sheet besides communication and interpersonal relationship. A total of 48 people attended training programs. Various training programs were conducted at worker levels to establish continuous learning culture as also to upgrade their skills of working on machines.

Budgeting exercise for the sales targets for FY 2018-19 was initiated in December 2017. HR acted as a consolidator for information under the guidance from the CFO's & MD's office for the budgeting exercise. The exercise was focused on developing a further robust sales & marketing strategy keeping in view the overall changes in the business environment globally.

As per last year, we have co-covered all employees with employee – employer contributory insurance policies. Group Personal Accidental Insurance (GPA) for all locations and Mediclaim Insurance (GMC) for the employees at Daman (No ESIC) and Mumbai (COLI). FY 2018, we covered Surat Location under the Mediclaim policy and subsequently remaining employees will also be covered under policy.

Various other HR initiatives were undertaken, from time to time, to maintain healthy working environment for all employees at Banswara, Daman, Surat and Mumbai. Banswara Syntex remains an equal opportunity employer. To safeguard its female employees, it has all its Anti Sexual Harassment committees actively working as per the statute. No untoward such incidences have been recorded till date and all steps are being taken to ensure the status quo in future.

2. Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the State of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan

and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence obtained by us & other auditors in terms of their reports referred to in others matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Annexure B” to the Independent Auditors’ Report of even date on the Standalone Ind AS Financial Statements of Banswara Syntex Limited for the year ended 31st March, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Banswara Syntex Limited (“the Company”) as of 31st March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on, “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, “based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

However, internal control needs further strengthening in respect of implementation of risk management and systems to ensure continued implementation of Company’s risk management policy and strategy and documentation thereof, critical review and refresh process on an ongoing basis.

Emphasis of Matters

- (a) Attention is invited to Note 56 of Standalone Ind AS Financial Statement. During the year, the company has implemented SAP for certain business processes. Inventory valuations and raw material consumption have been worked out manually based on the other records available/physical Inventories taken by the management. Necessary up-dation in SAP modules shall be done in subsequent period.

- (b) Attention is invited to Note 57 of Standalone Ind AS Financial Statement .The Company has noticed a fraud of ₹ 196.89 Lakh approximately at Surat Unit and lodged FIR on 27.04.2018. This matter is under Investigation. In view of the management, there will not be any material financial impact on the financial results of the company.
- (c) The Company is processing data related to wages manually which needs to be improved since it increases the chances of error. More controls are needed i.e. surprise physical verification of workers on duties, cross checking of wages sheet by finance team before disbursement of wages by HR department
- (d) Inventory management needs to be strengthen since there is manual intervention in respect of certain areas and these can be monitored in a better way with the help of ERP system.

Our report is not qualified in respect of the above matters.

1. Company Information and Significant Accounting Policies

A. Corporate Information

Banswara Syntex Limited ("the Company") is a Company domiciled in India and limited by shares (CIN: L24302RJ1976PLC001684). The shares of the Company are publicly traded on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The address of the Company's registered office is Industrial Area, Dahod Road, Post Box No. 21, Banswara - 327001(Rajasthan). The Company is a vertically integrated textile mill manufacturing man-made synthetic blended Yarn, wool and wool mixed yarn, all type of Fabrics, Jacquard Furnishing Fabrics, besides production of Readymade Garments and Made-up's.

B. Statement of Compliance and Basis of Preparation

1. Compliance with Ind AS

These Separate Financial Statements are prepared on going concern basis following accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent applicable) and applicable provisions of the Companies Act, 1956. These are Company's first Ind AS compliant financial statements and Ind AS 101 'First Time Adoption of Indian Accounting Standards' has been applied.

For all periods up to and including 31st March 2017, the Company has prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable) and applicable provisions of the Companies Act, 1956. The Company followed the provisions of Ind AS 101 in preparing its Opening Ind AS Balance Sheet as on the date of Transition, viz. 1st April 2016. Some of the Company's Ind AS accounting policies used in the Opening Balance Sheet are different from its previous GAAP policies applied as at 31st March 2016, accordingly the adjustment were made to restate the opening balance as per Ind AS. The resulting adjustment arose from events and transaction before the date of transition to Ind AS. Therefore, as required by Ind AS 101, those adjustments were recognized directly through retained earnings as at 1st April 2016. This is the effect of the general rule of the Ind AS 101 which is to apply Ind AS retrospectively.

An Explanation of how the transition to Ind AS 101 has affected the reported financial position, financial performance and cash flows of the Company is provided in note no. 58.

These financial statements were authorized for issue by Board of Directors on 30th May 2018.

2. Basis of measurement/Use of Estimates

- (i) The Financial Statements are prepared on accrual basis under the historical cost convention except certain financial assets and liabilities (including derivatives instruments) that are measured at fair value. The methods used to measure fair values are discussed in notes no. 53 to financial statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

- (ii) The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized. Major Estimates are discussed in Part D.

3. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (up to two decimals), except as stated otherwise.

4. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

C. Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Company has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 and Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and intangible assets at 1st April 2016, the Company's date of transition to Ind AS, according to the previous GAAP were maintained in transition to Ind AS.

1. Property, plant & equipment

1.1. Initial recognition and measurement

An item of property, plant and equipments recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Items of property, plant and equipments are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipments have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized.

1.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized.

The costs of the day-to-day servicing of Property, Plant and Equipment are recognized in the statement of profit and loss as incurred.

1.3. Derecognition

Property, Plant and Equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

1.4. Depreciation

Depreciation is recognized in statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leasehold lands are amortized over the lease term unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

Assets costing up to ₹ 5,000/- are fully depreciated in the year of acquisition.

Depreciation on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a property, plant and equipment along-with its unamortized depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

2. Capital work-in-progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

3. Intangible assets and intangible assets under development

3.1. Initial recognition and measurement

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the company and the cost of the asset can be measured reliably.

Intangible assets acquired by the Company are measured on initial recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure on development activities is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to and has sufficient resources to complete development and to use or sell the asset.

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

3.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

3.3. Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

3.4. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. Useful life of computer software is estimated at five years.

4. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of (a) interest expense calculated using the effective interest method as described in Ind AS 109 – 'Financial Instruments' (b) finance charges in respect of finance leases recognized in accordance with Ind AS 17 – 'Leases' and (c) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to revenue as and when incurred.

5. Investment in Joint Venture

These are Company's Separate Financial Statements. Company has opted to show investments in Joint Venture at cost. Dividend from these is recognized as and when right to receive is established.

6. Inventories

Inventories are valued at the lower of cost and net realizable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable and surplus stores & spares is ascertained on review and provided for.

Inventories of services is recognized based on stage of completion when the outcome of the transaction involving rendering of services can be estimated reliably.

7. Cash and Cash Equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and cash on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

8. Government Grants

Government grants are recognized only when its reasonable certainty that economics benefit flow to the entities and attached conditions will be complied with it

Government grants are recognized and shown in the balance sheet as liability and income is accrued based on the terms of schemes in the statement of profit and loss over a phased manner in consideration with scheme terms and related use of assets.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Profit and Loss on straight –line basis over the expected lives of related assets and presented within other income.

9. Provisions , Contingent liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

10. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of profit or loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11. Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company, the Company retains neither continuing managerial involvement to the degree usually associated with ownership or effective control over the goods sold, and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable and taking into account contractually defined terms of payment.

Sale of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, which generally coincides with dispatch. Revenue from export sales are recognized on shipment basis (i.e. Late Export Date). Revenue from the sale of goods is measured at the fair value of the consideration received or receivable including duties/taxes, net of returns and allowances, trade discounts and volume rebates.

Rendering of services

Revenue from job work charges is recognized as per term of the contract with contracts with customers based on stage of completion when the outcome of the transaction involving rendering of services can be estimated reliably.

Other Export Benefit

Export Benefits are accounted for in the year of export at net market realizable value.

Interest Income

For all financial instruments classified and measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the Statement of Profit or loss.

Dividend

Dividend Income is recognized when the Company's right to receive is established which generally occurs when the shareholders approve the dividend.

Other Income

Other income is recognized in the statement of profit and loss when increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably

12. Employee Benefits**12.1. Short Term Employee Benefit**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

12.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two type:

12.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Company pays a fixed contribution and will have no further obligation.

12.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

12.3 Other long-term employee benefits

Benefits under the Company's leave encashment, long-service award and economic rehabilitation scheme constitute other long term employee benefits. The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Actuarial gains or losses are recognized in statement of profit or loss in the period in which they arise. In case of funded plans, the fair value of plant asset is reduced from the gross obligation, to recognize the obligation on the net basis.

13. Taxes

Tax expense comprises current tax and deferred tax. Current tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Additional income taxes that arise from the distribution of dividends are recognized at the same time that the liability to pay the related dividend is recognized.

14. Leases

14.1. As Lessee

Accounting for finance leases

Leases of Property, Plant and Equipment where the Company, as lessee has substantially all risks and rewards of ownership are classified as finance lease. On initial recognition, assets held under finance leases are recorded as Property, Plant and Equipment and the related liability is recognized under borrowings. At inception of the lease, finance leases are recorded at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

Accounting for operating leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating lease. Payments made under operating leases are recognized as an expense over the lease term.

14.2 As Lessor

At inception of an arrangement, the Company determines whether such an arrangement is or contains a lease. A specific asset is subject of a lease if fulfillment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the customer the right to control the use of the underlying asset. Arrangements that do not take the legal form of a lease but convey rights to customers/suppliers to use an asset in return for a payment or a series of payments are identified as either finance leases or operating leases.

Accounting for finance leases

The amounts due from lessees under finance leases are recorded in the balance sheet as financial assets, classified as finance lease receivables, at the amount of the net investment in the lease.

Accounting for operating leases

Rental income from operating leases is recognized on a straight line basis over the term of the arrangement

15. Impairment of Non-financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in statement of profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of goodwill of that CGU, if any and then the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

16. Dividends

Dividends and interim dividends payable to a Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

17. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

18. Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

19. Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of cash flows'.

20. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

20.1. Financial assets**Initial recognition and measurement**

All financial assets are recognized initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate method ("EIR"). Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI (Fair Value through OCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On Derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities are measured (except equity investment joint venture) at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However the company may transfer cumulative gain or loss within the equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments in joint ventures are measured at cost.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or

- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

Trade receivables or contract assets resulting from transactions within the scope of Ind AS 11 and Ind AS 18, if they do not contain a significant financing component

- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 11 and Ind AS 18 that contain a significant financing component, if the Company applies practical expedient to ignore separation of time value of money, and

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any material transaction that are any integral part of the EIR. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Derivative financial instruments

The Company uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

21. Business Combinations

In accordance with Ind AS 101 'First Time Adoption of Ind AS', the Company has elected to apply Ind AS accounting for business combinations prospectively from 1st April 2016.

Business combinations in nature of acquisitions or mergers are accounted for using the purchase method under which the transferee on acquisition date, shall recognize separately from goodwill, the identifiable assets acquired, the liabilities assumed and any non-controlling interest of the transferor at fair value.

Business combinations arising from transfers of interests in entities under common control (Appendix C of Ind AS 103) are accounted for at carrying value using pooling of interest method as if acquisition had occurred at the beginning of the earliest period presented or, if later, at the date that common control was established.

- The assets and liabilities acquired are recognized at the carrying amounts. No adjustments are made to reflect fair values nor new assets and liabilities recognized.
- The identity of the reserves is preserved and they appear in the transferee's financial statements in the same form in which they are appeared in the financial statements of the transferor company.
- The difference, if any, between the consideration and the amount of share capital of the transferor entity is transferred to capital reserve.

D. Major Estimates made in preparing Financial Statements
1. Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets is being amortized on straight line basis over the period of five years.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

4. Asset Held for Sale

Significant judgment is required to apply the accounting of non-current assets held for sale under Ind AS 105 'Non-current Assets Held for Sale and Discontinued Operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use

Risk Exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

a) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments are in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimize risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities. The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. The Company has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. The Company intends to maintain the above investment mix in the continuing years.

b) Changes in discount rate

A decrease in discount rate will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

c) Inflation risks

In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.

d) Life expectancy

The pension plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within this framework, the Company's ALM objective is to match assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the processes used to manage its risks from previous periods. The Company uses derivatives to manage some of its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

C) Other Long Term Employee Benefit**Leave Encashment**

Amount of ₹ 193.38 Lakhs (March 31, 2017 ; ₹ 217.15 Lakhs) is recognised as expenses and included in Note No 34 " Employee benefit expenses.

B) Financial risk management

The Company's principal financial liabilities comprise Borrowings, trade payables and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade & other receivables, loan given, cash & cash Equivalent, Investment, deposits.

Company is exposed to following risk from the use of its financial instrument:

- (a) Credit Risk
- (b) Liquidity Risk
- (c) Market Risk
- (d) Foreign Currency Risk
- (e) Interest Rate Risk

The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.

Trade Receivable

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 7 days to 90 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 11. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed as each reporting date.

Other Financial Instruments and Cash & Cash Equivalent

The Company maintain its cash & cash equivalent in current account to meet the day to day requirements, in fixed deposits for bank margin & to meet regulatory requirements for repayment of deposits. Other financial instruments are loan given to employee, Investment and Deposit. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31st March, 2018, 31st March, 2017 & 1st April, 2016 is the carrying amount as disclosed in Note 10,12, 13, 14 & 15.

Provision for Expected Credit or Loss

- (a) Financial assets for which loss allowance is measured using 12 month expected credit losses.
The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.
- (b) Financial assets for which loss allowance is measured using life time expected credit losses.
The Company provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach

Ageing of trade receivables

(b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

(c) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the Managing Board.

(d) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The company uses forward contracts to mitigate its risk from foreign currency fluctuations.

The Company's investment consists of investments in publicly traded companies held for purposes other than trading. Such investments held in connection with non-consolidated investments represent a low exposure risk for the Company and are not hedged.

As at 31st, March 2018 Company does not have material exposure to listed or unlisted equity price risk.

Interest Rate Risk

Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest.

The Company is exposed to interest rate risk arising mainly from long term borrowings with floating interest rates. The Company is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Company manages the interest rate risks by entering into different kinds of loan arrangements with varied terms.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

Note No. 53. Disclosure as per Ind AS 113 Fair Value Measurement

Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are:-

- recognised and measured at fair value and;
- measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard.

Fair value are categorised into different level in a fair value hierarchy which are as follows:

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

- Level 2** : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates.
- Level 3** : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable market transactions and dealer quotes of similar instruments.

Valuation Techniques used to determine fair values:

A) Specific valuation technique is used to determine the fair value of the financial instruments which include:

- For financial instruments other than (ii) and (iii)- the use of quoted market prices
- For financial liabilities (domestic currency loans) :- appropriate market borrowing rate of the entity as of each balance sheet date used.
- For financial assets (employee loans) : appropriate market rate of the entity as of each balance sheet date used.

Note No. 54. Some of the balances shown under Trade Receivables, Advances and Trade Payables are subject to confirmation. The Company has been sending letter for confirmation to parties and does not expect any material dispute w.r.t. the recoverability/payment of the same.

Note No. 55. Event occurring after Balance Sheet Date The Board of Directors has recommended equity dividend of ₹ one per share (Previous Year ₹ one per share) for the year ended 31st March, 2018, subject to the approval of the shareholders.

Note No. 56. During the year, the Company has implemented SAP for certain business processes. Inventory valuations and raw material consumption have been worked out manually based on the other records available/physical Inventories taken by the management. Necessary updation in SAP modules shall be done in subsequent period.

Note No. 57. The Company has noticed a fraud of ₹ 196.89 lakhs approximately at Surat Unit and lodged FIR on 27.04.2018. The same was intimated to Bombay Stock Exchange Limited and National Stock Exchange of India Limited under the SEBI (Listing Obligation and Disclosure Reports) Regulations, 2015 and SEBI Circular CIR/CFD/CMD/4/2015 dated 09.09.2015. Two employees of Surat Unit have withdrawn the fake salary and wages in the name of 50 workers who have left the Company in earlier periods by preparing fake papers and documents. This matter is under investigation. In view of the management, there will not be any material financial impact on the financial results of the Company.

Note No. 58. Disclosure as per Ind AS 101 'First Time Adoption of Ind AS'

These financial statements, for the year ended 31st March, 2018, are the first annual Ind AS financial statements, the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with accounting standards notified under the Companies (Accounting Standard) Rules, 2006 (as amended) read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on 31st March, 2018, together with the comparative period data as at and for the year ended March 31, 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet is prepared as at April 1, 2016, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at April 1, 2016 and the previously published Indian GAAP financial statements as at and for the year ended March 31, 2017.

Any resulting differences between carrying amounts of assets and liabilities according to Ind AS 101 as of 1st April 2016 compared with those presented in the previous GAAP Balance Sheet as of 31 March 2015, were recognized in equity under retained earnings within the Ind AS Balance Sheet.

Exemptions applied:

According to Ind AS 101, the first Ind As financial statements must use recognition and measurement principle that are based on standard and interpretations that are effective at 31 March, 2018

Ind AS Optional Exemptions

1. Property, Plant and Equipments and Intangible Assets

As per Ind AS 101, para D7AA, a first-time adopter to Ind ASs may elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind ASs, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

2. Investment in Joint Ventures

As per Ind AS 101, para D15, the Company has elected the option provided under Ind AS 101 to measure all its investments in Joint venture at previous GAAP carrying value on the date of transition in its separate financial statement and used that carrying value as the deemed cost of such investments.

3 Business Combination

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date.

Accordingly, the Company has elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Business combinations occurring prior to the transition date have not been restated.

4. Borrowings

Ind AS 101 permits that if it is impracticable for an entity to apply retrospectively the effective interest method in Ind AS 109 'Financial Instruments', the fair value of the financial liability at the date of transition to Ind AS shall be the new amortised cost of that financial liability at the date of transition to Ind AS. Accordingly, Company has elected to apply this exemption.

5. Classification and measurement of financial assets

As per Ind AS 101, para B8, an entity is required to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

6. Derecognition of financial assets and financial liabilities

As per Ind AS 101, para B2, a first-time adopter shall apply the derecognition requirements in Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS.

7. Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP, unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 1, 2015 and March 31, 2016 are consistent with the estimates as at the same date made in the conformity with previous GAAP. The Company made estimates for the following in accordance with Ind AS at the date of transition as these were not required under previous GAAP.

1. Investment in equity instruments carried at FVTPL
2. Impairment of financial assets based on Expected Credit Loss model The estimates used by the Company to present these amounts in accordance with Ind AS reflect conditions at April 1, 2016, the date of transition to Ind AS and as of March 31, 2017.

Notes to the reconciliation of equity as at April 1, 2016 and March 31, 2017 and total comprehensive income for the year ended March 31, 2017.
1. Government Grant

Under Previous GAAP Government Grant received was recognised in Capital Reserve by considering it as promoter's contribution. Under Ind AS Government grant are required to be recognised in Profit or Loss on systematic basis in case, the grant is related to assets and recognised as deferred income. Accordingly, ₹ 788.11 Lakhs has been transferred to Deferred income and is amortised in life of Property, Plant and Equipments for which it is received and accordingly an amount ₹ 171.37 Lakhs has been transferred to Retained Earnings being the amount amortised till 1st April, 2016. Grant received during the year 2016-17 has been transferred to Deferred Income and ₹ 71.78 Lakhs has been transferred to Other Income in Statement of Profit or Loss.

2. Fair Valuation of Investments and Forward Contracts

Under previous GAAP, the long-term investments were measured at cost less permanent diminution in value, if any and current investments at cost. Ind AS requires all investments and derivatives to be measured at fair value at the reporting date and all changes in the fair value subsequent to the transition date to be recognised either in the Statement of profit and loss or Other Comprehensive Income (based on the category in which they are classified).

This has resulted in increase in other equity by ₹ 172.79 Lakhs and ₹ 314.72 Lakhs with corresponding increase in value of investment by ₹ 18.88 Lakhs and ₹ 21.22 Lakhs and in Derivative assets & Debtors by ₹ 155.03 Lakhs and ₹ 290.02 Lakhs as at 1st April 2016 and 31st March 2017, respectively.

3. Proposed Dividend and tax thereon

Under Previous GAAP, proposed dividends are recognized as liability in the period to which they relate irrespective of the approval by shareholders. Under Ind AS, a proposed dividend is recognised as a liability in the period in which it is declared by the company (on approval of Shareholders in a general meeting) or paid. Therefore, the liability amounting ₹ 407.52 Lakhs (inclusive of Dividend Distribution Tax) recorded under previous GAAP has been derecognised as on the date of transition i.e. 01.04.2016. The same is recognised in Financial year 2016-17, when dividend was approved by shareholders.

4. Business Combination

During the financial year 2016-17 the company was combined with Banswara Global Limited and Banswara Fabrics Limited. Under Previous GAAP accounting done as per pooling of interest method as specified in AS-14 from the date on which merger was effected. Ind AS requires business combination under common control to be accounted as per Appendix C of Ind AS 103, which prescribes pooling of interest method. Under pooling of interest method assets and liabilities are required to be carried forward at book value and prior period presented in balance sheet are to be restated considering that the merger was effective from first day of the last year presented.

Hence, balance sheet of 01 April, 2016 has been prepared as if the merger was effective from that day.

5. Deferred Tax

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12-Income Taxes requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of asset or liability in the balance sheet and its corresponding tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAP.

In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognized in correlation to the underlying transaction either in retained earnings or as separate component of equity.

6. Actuarial Gain or Loss on Defined Benefit Plans

Both under Indian GAAP and IND AS, the company recognized costs related to its post employment defined benefits plan on an actuarial basis. Under Indian GAAP the entire cost including actuarial gain/loss are charged to profit or loss. Under IND AS, remeasurements are recognized in Other Comprehensive Income.

As a result profit for the year ended 31st March 2017 has increased by ₹ 27.25 Lakhs (net of tax) with corresponding decrease in Other Comprehensive Income during the year.

7. Other equity

Retained earnings as at 1st April 2016 has been adjusted consequent to the above Ind AS transition adjustments. Refer 'Reconciliation of total equity as at 31st March 2017 and 1st April 2016' as given above for details.

8. Other comprehensive income

Under previous GAAP, the Company has not presented other comprehensive income (OCI) separately. Items that have been reclassified from statement of profit and loss to other comprehensive income includes remeasurement of defined benefit plans and fair value gain/loss on FVTOCI equity instruments. Hence, previous GAAP profit or loss is reconciled to total comprehensive income as per Ind AS

9. Under Indian GAAP, sale of goods was presented as net of excise duty. However, under Ind AS, sale of goods includes excise duty. Excise duty on sale of goods shown as separate line item as expenses in the Statement of Profit and Loss accordingly.
10. Due to classification of one of the land as operating lease, the related amount which was earlier classified as depreciation and amortization is now considered as lease rent expense, hence grouped in Other Expenses.
11. Certain amount of Cash and cash equivalents has been reclassified to Other Bank Balances and Other Non-Current Financial Assets in accordance with Ind AS 7-Statement of Cash Flows and Division II of Schedule III of Companies Act, 2013.
12. One of the Leasehold land has been classified as operating lease and accordingly, amount of ₹ 33.23 Lakhs as on 31 March, 2017 and ₹ 35.08 Lakhs as on 01 April, 2016 has been representing its value has been transferred to Other Non-current Assets and Other Current Assets.
13. Effect of Ind AS adoption on the cash flow statement as at 31st March, 2017. (₹ In Lakhs)

Particulars	Previous GAAP	Adjustments	As per Ind AS
Net cash flow from operating activities	14,303.31	(278.73)	14,024.58
Net cash flow from investing activities	(5,915.65)	(199.17)	(6,114.82)
Net cash flow from financing activities	(8,493.63)	335.83	(8,157.80)
Net increase/ (decrease) in cash and cash equivalents during the year	(105.97)	(142.07)	(248.04)
Cash and cash equivalents at the beginning of the year	2,084.99	(1,052.82)	1,032.17
Cash and cash equivalent at the end of the year	1,979.02	(1,194.89)	784.13

Cash flow from Operating Activities under Ind AS has been decreased mainly due to reclassification of other bank balances from cash and cash equivalents to working capital changes. The difference in the balance of cash and cash equivalents, cash flow from investing activities and cash flow from financing activities respectively is mainly due to taking the effect of merger of BFL and BGL with the Company as presented in Note No. 50.

Note No. 60. Standards issued but not yet effective

The standard issued, but not yet effective up to the date of issuance of the Company financial statement is disclosed below. The Company intends to adopt this standard when it becomes effective.

Ind AS 115 Revenue from Contracts with Customers Ind AS 115 was issued by Ministry of Corporate Affairs on 28th March, 2018 vide Companies (Indian Accounting Standard) Amendments Rules, 2018 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115 revenue is recognised at an amount that reflects to a consideration which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard supersede all current revenue recognition requirements under Ind AS. This standard will come into force from 1st April, 2018. The Company will adopt the new standard on the effective date.

Appendix to Ind AS 21, Foreign Currency transaction and advance consideration.

This appendix was issued by Ministry of Corporate Affairs on 28th March, 2018. It clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expenses or income when an entity has received or paid advance consideration in a foreign currency. The appendix will come into force from 1st April, 2018. The Company will adopt the requirement in the new appendix from the effective date.

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder. The respective Board of Directors of the companies included in the Group and of its jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Holding Company's Board of directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and audit evidence obtained by the other auditors in terms of their reports referred to in the 'Other Matter's paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Annexure A" to the Independent Auditor's Report of even date on the Consolidated Ind AS Financial Statements of Banswara Syntex Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Banswara Syntex Limited (hereinafter referred to as "the Holding Company") and its Joint Venture Company together referred to as "the Group") as of 31st March, 2018 in conjunction with our audit of the consolidated Ind AS financial statements of the Group for the year ended on that date. We did not audit the internal financial controls over financial reporting of one Joint Venture Company Incorporated in India as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company's and its Joint Venture Company which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company and its Joint Venture Company which is incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The

procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report, is sufficient and appropriate to provide a basis for our un-qualified audit opinion respectively on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Holding company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Holding company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Holding company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of un-authorized acquisition, use, or disposition of the Holding company's assets that could have a material effect on the consolidated Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and subject to the other matter paragraph given below, the Holding Company and its Joint Venture Company which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India as it appears from our examination of the books and records of the

Holding company and the report of the other auditor in respect of entity audited by them.

However, internal control needs further strengthening in respect of implementation of risk management and systems to ensure continued implementation of Company's risk management policy and strategy and documentation thereof, critical review and refresh process on an ongoing basis.

Emphasis of Matters

- (a) Attention is invited to Note 56 of Consolidated Financial Statement. During the year, the Holding company has implemented SAP for certain business processes. Inventory valuations and raw material consumption have been worked out manually based on the other records available/ physical Inventories taken by the management. Necessary up-dation in SAP modules shall be done in subsequent period.
- (b) Attention is invited to Note 57 of Consolidated Financial Statement . The Holding Company has noticed a fraud of ₹ 196.89 Lakh approximately at Surat Unit and lodged FIR on 27.04.2018. This matter is under Investigation. In view of the management, there will not be any material financial impact on the financial results of the Holding company.
- (c) The Holding Company is processing data related to wages manually which needs to be improved since it increases the chances of error. More controls are to be needed i.e. surprise physical verification of workers on duties, cross checking of wages sheet by finance team before disbursement of wages by HR department.
- (d) Inventory management needs to be strengthen since there is manual intervention in respect of certain areas and these can be monitored in a better way with the help of ERP system.

Our report is not qualified in respect of the above matters.

Other Matters

Our aforesaid report Section 143(3)(i) of the Act include the information of the Holding Company in respect of the adequacy and operating effectiveness of the internal financial controls over financial reporting. It did not contain such information in respect of Joint Venture Company for which no corresponding report of the auditor has been obtained as reporting requirements not applicable to it, being a "Small Company".

our opinion is not qualified in respect of this matter.

1. Significant Accounting Policies for the Financial Year 2017-18:- Consolidated Financial Statements

A. Corporate Information

Banswara Syntex Limited ("the Company") is a Company domiciled in India and limited by shares (CIN: L24302RJ1976PLC001684). The shares of the Company are publicly traded on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The address of the Company's registered office is Industrial Area, Dahod Road, Post Box No. 21, Banswara – 327001 (Rajasthan). These consolidated financial statements comprise the financial statements of the Company and the Company's interest in its joint venture (referred to collectively as the 'Group'). The Group is a vertically integrated textile mill manufacturing man-made synthetic blended Yarn, wool and wool mixed yarn, all type of Fabrics, Jacquard Furnishing Fabrics, besides production of Readymade Garments and Made-up's.

B. Statement of Compliance and Basis of Preparation

1. Compliance with Ind AS

These Consolidated Financial Statements are prepared on going concern basis following accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent applicable) and applicable provisions of the Companies Act, 1956. These are Group's first Ind AS compliant financial statements and Ind AS 101 'First Time Adoption of Indian Accounting Standards' has been applied.

For all periods up to and including 31st March 2017, the Group has prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) in India, accounting standards specified under Section 133 of the Companies Act, 2013, the Companies Act, 2013 (to the extent notified and applicable) and applicable provisions of the Companies Act, 1956. The Group followed the provisions of Ind AS 101 in preparing its Opening Ind AS Balance Sheet as on the date of Transition, viz. 1st April 2016. Some of the Group's Ind AS accounting policies used in the Opening Balance Sheet are different from its previous GAAP policies applied as at 31st March 2016, accordingly the adjustments were made to restate the opening balance as per Ind AS. The resulting adjustment arose from events and transaction before the date of transition to Ind AS. Therefore, as required by Ind AS 101, those adjustments were recognized directly through retained earnings as at 1st April 2016. This is the effect of the general rule of the Ind AS 101 which is to apply Ind AS retrospectively.

An Explanation of how the transition to Ind AS 101 has affected the reported financial position, financial performance and cash flows of the Group is provided in note no. 58.

These financial statements were authorized for issue by Board of Directors on 30th May 2018.

2. Basis of measurement/Use of Estimates

- (i) The Financial Statements are prepared on accrual basis under the historical cost convention except certain financial assets and liabilities (including derivatives instruments) that are measured at fair value. The methods used to measure fair values are discussed in notes no. 53 to financial statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

- (ii) The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized. Major Estimates are discussed in Part D.

3. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Group's functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (up to two decimals), except as stated otherwise.

4. Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

C. Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

The Group has elected to utilize the option under Ind AS 101 by not applying the provisions of Ind AS 16 and Ind AS 38 retrospectively and continue to use the previous GAAP carrying amount as a deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment and intangible assets at 1 April 2016, the Group's date of transition to Ind AS, according to the previous GAAP were maintained in transition to Ind AS.

1. Basis of Consolidation

The financial statements of Joint venture are drawn up to the same reporting date as of the Group for the purpose of consolidation.

1.1. Joint arrangements

Under Ind AS 111 'Joint Arrangements', investment in joint arrangements are classified as either joint operations or joint venture. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The group has only joint venture.

Joint Venture

Interests in joint venture are accounted for using the equity method (see C.1.2 below), after initially being recognized at cost in the consolidated balance sheet.

1.2. Equity Method

Under the equity method of accounting, the investment in a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

Upon loss of internal control over joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

2. Property, plant & equipment

2.1. Initial recognition and measurement

An item of property, plant and equipments recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably.

Items of property, plant and equipments are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipments have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipments are capitalized.

2.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of Property, Plant and Equipment are recognized in the statement of profit and loss as incurred.

2.3. Derecognition

Property, Plant and Equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

2.4. Depreciation

Depreciation is recognized in statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leasehold lands are amortized over the lease term unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

Assets costing up to ₹ 5,000/- are fully depreciated in the year of acquisition.

Depreciation on additions to/deductions from fixed assets during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a property, plant and equipment along-with its unamortized depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

3. Capital work-in-progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

4. Intangible assets and intangible assets under development

4.1. Initial recognition and measurement

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the group and the cost of the asset can be measured reliably.

Intangible assets acquired by the Group are measured on initial recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure on development activities is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset.

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

4.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

4.3. Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

4.4. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. Useful life of computer software is estimated at five years.

5. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of (a) interest expense calculated using the effective interest method as described in Ind AS 109 – 'Financial Instruments' (b) finance charges in respect of finance leases recognized in accordance with Ind AS 17 – 'Leases' (c) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs and (d) other costs that an entity incurs in connection with the borrowing of funds. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to revenue as and when incurred.

6. Inventories

Inventories are valued at the lower of cost and net realizable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable and surplus stores & spares is ascertained on review and provided for.

Inventories of services is recognized based on stage of completion when the outcome of the transaction involving rendering of services can be estimated reliably.

7. Cash and Cash Equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and cash on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

8. Government Grants

Government grants are recognized only when its reasonable certainty that economics benefit flow to the entities and attached conditions will be complied with it

Government grants are recognized and shown in the balance sheet as liability and income is accrued based on the terms of schemes in the statement of profit and loss over a phased manner in consideration with scheme terms and related use of assets.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Profit and Loss on straight –line basis over the expected lives of related assets and presented within other income.

9. Provisions, Contingent liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Group. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

10. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of profit or loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11. Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group, the Group retains neither continuing managerial involvement to the degree usually associated with ownership or effective control over the goods sold, and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable and taking into account contractually defined terms of payment.

Sale of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, which generally coincides with dispatch. Revenue from export sales are recognized on shipment basis (i.e. Late Export Date). Revenue from the sale of goods is measured at the fair value of the consideration received or receivable including duties/taxes, net of returns and allowances, trade discounts and volume rebates.

Rendering of services

Revenue from job work charges is recognized as per term of the contract with contracts with customers based on stage of completion when the outcome of the transaction involving rendering of services can be estimated reliably.

Other Export Benefit

Export Benefits are accounted for in the year of export at net market realizable value.

Interest Income

For all financial instruments classified and measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the Statement of Profit or loss.

Dividend

Dividend Income is recognized when the Group's right to receive is established which generally occurs when the shareholders approve the dividend.

Other Income

Other income is recognized in the statement of profit and loss when increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably

12. Employee Benefits

12.1. Short Term Benefit

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

12.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two type:

12.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Group pays a fixed contribution and will have no further obligation.

12.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Group pays Gratuity as per provisions of the Gratuity Act, 1972. Leave Encashment up to 90 days is payable at the end of the employment is also a post-employment defined benefit plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the group, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

13.3 Other long-term employee benefits

Benefits under the Group's leave encashment, long-service award and economic rehabilitation scheme constitute other long term employee benefits. The Group's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Group's obligations. The calculation is performed using the projected unit credit method. Actuarial gains or losses are recognized in statement of profit or loss in the period in which they arise. In case of funded plans, the fair value of plant asset is reduced from the gross obligation, to recognize the obligation on the net basis.

13. Taxes

Tax expense comprises current tax and deferred tax. Current tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Additional income taxes that arise from the distribution of dividends are recognized at the same time that the liability to pay the related dividend is recognized.

Deferred Tax is not recognized for taxable temporary difference in respect of interest in joint arrangement, considering that the Company is able to control the timing of the reversal of temporary difference and such temporary will not reverse in foreseeable future.

14. Leases**14.1. As Lessee****Accounting for finance leases**

Leases of Property, Plant and Equipment where the Group, as lessee has substantially all risks and rewards of ownership are classified as finance lease. On initial recognition, assets held under finance leases are recorded as Property, Plant and Equipment and the related liability is recognized under borrowings. At inception of the lease, finance leases are recorded at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

Accounting for operating leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating lease. Payments made under operating leases are recognized as an expense over the lease term.

14.2 As Lessor

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease. A specific asset is subject of a lease if fulfillment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the customer the right to control the use of the underlying asset. Arrangements that do not take the legal form of a lease but convey rights to customers/suppliers to use an asset in return for a payment or a series of payments are identified as either finance leases or operating leases.

Accounting for finance leases

The amounts due from lessees under finance leases are recorded in the balance sheet as financial assets, classified as finance lease receivables, at the amount of the net investment in the lease.

Accounting for operating leases

Rental income from operating leases is recognized on a straight line basis over the term of the arrangement

15. Impairment of Non-financial Assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in statement of profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of goodwill of that CGU, if any and then the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

16. Dividends

Dividends and interim dividends payable to a Group's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

17. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

18. Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

19. Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of cash flows'.

20. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

20.1. Financial assets
Initial recognition and measurement

All financial assets are recognized initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Subsequent measurement
Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate method ("EIR"). Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI (Fair Value through OCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On Derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities other than joint ventures are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVTOCI or FVTPL. The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the group may transfer cumulative gain or loss within the equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments in joint venture are measured at cost.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognized (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind-AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18

The Group follows 'simplified approach' for recognition of impairment loss allowance on:

Trade receivables or contract assets resulting from transactions within the scope of Ind AS 11 and Ind AS 18, if they do not contain a significant financing component

- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 11 and Ind AS 18 that contain a significant financing component, if the Group applies practical expedient to ignore separation of time value of money, and

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk

has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any material transaction that are any integral part of the EIR. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Derivative financial instruments

The Group uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

21. Business Combinations

In accordance with Ind AS 101 'First Time Adoption of Ind AS', the Company has elected to apply Ind AS accounting for business combinations prospectively from 1st April 2016.

Business combinations in nature of acquisitions or mergers are accounted for using the purchase method under which the transferee on acquisition date, shall recognize separately from goodwill, the identifiable assets acquired, the liabilities assumed and any non-controlling interest of the transferor at fair value.

Business combinations arising from transfers of interests in entities under common control (Appendix C of Ind AS 103) are accounted for at carrying value using pooling of interest method as if acquisition had occurred at the beginning of the earliest period presented or, if later, at the date that common control was established.

- The assets and liabilities acquired are recognized at the carrying amounts. No adjustments are made to reflect fair values nor new assets and liabilities recognized.
- The identity of the reserves is preserved and they appear in the transferee's financial statements in the same form in which they are appeared in the financial statements of the transferor company.
- The difference, if any, between the consideration and the amount of share capital of the transferor entity is transferred to capital reserve.

D. Major Estimates made in preparing Financial Statements

1. Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Group reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets is being amortized on straight line basis over the period of five years.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Group considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

4. Asset Held for Sale

Significant judgment is required to apply the accounting of non-current assets held for sale under Ind AS 105 'Non-current Assets Held for Sale and Discontinued Operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

Risk Exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

a) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments are in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimize risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities. The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. The Company has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. The Company intends to maintain the above investment mix in the continuing years.

b) Changes in discount rate

A decrease in discount rate will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

c) Inflation risks

In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.

d) Life expectancy

The pension plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within this framework, the Company's ALM objective is to match assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the processes used to manage its risks from previous periods. The Company uses derivatives to manage some of its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

C) Other Long Term Employee Benefit
Leave Encashment

Amount of ₹ 193.38 Lakhs (31st March, 2017 ; ₹ 217.15 Lakhs) is recognised as expenses and included in Note No 34 "Employee benefit expenses."

B) Financial risk management

Financial Risk Management

The Company's principal financial liabilities comprise Borrowings, trade payables and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade & other receivables, loan given, cash & cash equivalent, Investment, deposits.

Company is exposed to following risk from the use of its financial instrument:

- (a) Credit Risk
- (b) Liquidity Risk
- (c) Market Risk
- (d) Foreign Currency Risk
- (e) Interest Rate Risk

The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.

Trade Receivable

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 7 days to 90 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 11. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed as each reporting date.

Other Financial Instruments and Cash & Cash Equivalent

The Company maintain its cash & cash equivalent in current account to meet the day to day requirements, in fixed deposits for bank margin & to meet regulatory requirements for repayment of deposits. Other financial instruments are loan given to employee, Investment and Deposit. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31st March, 2018, 31st March, 2017 & 1st April, 2016 is the carrying amount as disclosed in Note 10,12, 13, 14 & 15.

Provision for Expected Credit or Loss

- (a) Financial assets for which loss allowance is measured using 12 month expected credit losses.

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

- (b) Financial assets for which loss allowance is measured using life time expected credit losses.

The Company provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach

Ageing of trade receivables

The Ageing of trade receivables is as below:

Impairment loss recognised on above	-	-	100.37	543.13	479.73	1,123.23

(b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Total	12,722.24	11,871.95	11,360.17

(c) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the Managing Board.

(d) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The company uses forward contracts to mitigate its risk from foreign currency fluctuations.

The Company's investment consists of investments in publicly traded companies held for purposes other than trading. Such investments held in connection with non-consolidated investments represent a low exposure risk for the Company and are not hedged.

As at 31st March, 2018 Company does not have material exposure to listed or unlisted equity price risk.

Interest Rate Risk

Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest.

The Company is exposed to interest rate risk arising mainly from long term borrowings with floating interest rates. The Company is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Company manages the interest rate risks by entering into different kinds of loan arrangements with varied terms.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

Note No. 53. Disclosure as per Ind AS 113 'Fair Value Measurement
Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are:-

- (a) recognised and measured at fair value and;
- (b) measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard.

Fair value are categorised into different level in a fair value hierarchy which are as follows:

- Level 1** : Level 1 hierarchy includes financial instruments measured using quoted prices.
- Level 2** : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates.
- Level 3** : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable market transactions and dealer quotes of similar instruments.

Valuation Techniques used to determine fair values:
A) Specific valuation technique is used to determine the fair value of the financial instruments which include:

- i) For financial instruments other than (ii) and (iii)- the use of quoted market prices
- ii) For financial liabilities (domestic currency loans) :- appropriate market borrowing rate of the entity as of each balance sheet date used.
- iii) For financial assets (employee loans) : appropriate market rate of the entity as of each balance sheet date used.

Note No. 54. Some of the balances shown under Trade Receivables, Advances and Trade Payables are subject to confirmation. The Company has been sending letter for confirmation to parties and does not expect any material dispute w.r.t. the recoverability/payment of the same.

Note No. 55. Event occurring after Balance Sheet Date

The Board of Directors has recommended equity dividend of ₹ one per share (Previous Year ₹ one per share) for the year ended 31st March, 2018, subject to the approval of the shareholders.

Note No. 56. During the year, the Company has implemented SAP for certain business processes. Inventory valuations and raw material consumption have been worked out manually based on the other records available/physical Inventories taken by the management. Necessary updation in SAP modules shall be done in subsequent period.

Note No. 57. The Company has noticed a fraud of ₹ 196.89 lakhs approximately at Surat Unit and lodged FIR on 27.04.2018. The same was intimated to Bombay Stock Exchange Limited and National Stock Exchange of India Limited under the SEBI (Listing Obligation and Disclosure Reports) Regulations, 2015 and SEBI Circular CIR/CFD/CMD/4/2015 dated 09.09.2015. Two employees of Surat Unit have withdrawn the fake salary and wages in the name of 50 workers who have left the Company in earlier periods by preparing fake papers and documents. This matter is under investigation. In view of the management, there will not be any material financial impact on the financial results of the Company.

Note No. 58. Disclosure as per Ind AS 101 'First Time Adoption of Ind AS'

These financial statements, for the year ended 31st March, 2018, are the first annual Ind AS financial statements, the Company has prepared in accordance with Ind AS. For periods up to and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance with accounting standards notified under the Companies (Accounting Standard) Rules, 2006 (as amended) read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on 31st March, 2018, together with the comparative period data as at and for the year ended 31st March, 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet is prepared as at 1st April, 2016, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 1st April, 2016 and the previously published Indian GAAP financial statements as at and for the year ended 31st March, 2017.

Any resulting differences between carrying amounts of assets and liabilities according to Ind AS 101 as of 1st April, 2016 compared with those presented in the previous GAAP Balance Sheet as of 31st March, 2015, were recognized in equity under retained earnings within the Ind AS Balance Sheet.

Exemptions applied:

Ind AS 101 "First-time Adoption of Indian Accounting Standards" allows first-time adopter certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

Ind AS Optional Exemptions**1. Property, Plant and Equipments and Intangible Assets**

As per Ind AS 101, para D7AA, a first-time adopter to Ind ASs may elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind ASs, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

2. Business Combination

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date.

Accordingly, the Company has elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Business combinations occurring prior to the transition date have not been restated.

3. Borrowings

Ind AS 101 permits that if it is impracticable for an entity to apply retrospectively the effective interest method in Ind AS 109 'Financial Instruments', the fair value of the financial liability at the date of transition to Ind AS shall be the new amortised cost of that financial liability at the date of transition to Ind AS. Accordingly, Company has elected to apply this exemption.

4. Classification and measurement of financial assets

As per Ind AS 101, para B8, an entity is required to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

5. Derecognition of financial assets and financial liabilities

As per Ind AS 101, para B2, a first-time adopter shall apply the derecognition requirements in Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind ASs.

6. Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP, unless there is objective evidence that those estimates were in error. Ind AS estimates as at 1st April, 2015 and March 31, 2016 are consistent with the estimates as at the same date made in the conformity with previous GAAP. The Company made estimates for the following in accordance with Ind AS at the date of transition as these were not required under previous GAAP.

1. Investment in equity instruments carried at FVTPL
2. Impairment of financial assets based on Expected Credit Loss model The estimates used by the Company to present these amounts in accordance with Ind AS reflect conditions at 1st April, 2016, the date of transition to Ind AS and as of 31st March, 2017.

Notes to the reconciliation of equity as at 1st April, 2016 and 31st March, 2017 and total comprehensive income for the year ended 31st March, 2017.**1. Government Grant**

Under Previous GAAP Government Grant received was recognised in Capital Reserve by considering it as promoter's contribution. Under Ind AS Government grant are required to be recognised in Profit or Loss on systematic basis in case, the grant is related to assets and recognised as deferred income. Accordingly, ₹ 788.11 Lakhs has been transferred to Deferred income and is amortised in life of PPE for which it is received and accordingly an amount ₹ 171.37 Lakhs has been transferred to Retained Earnings being the amount amortised till 1st April, 2016. Grant received during the year 2016-17 has been transferred to Deferred Income and ₹ 71.78 Lakhs has been transferred to Other Income in Statement of Profit or Loss.

2. Fair Valuation of Investments and Forward Contracts

"Under previous GAAP, the long-term investments were measured at cost less permanent diminution in value, if any and current investments at cost. Ind AS requires all investments and derivatives to be measured at fair value at the reporting date and all changes in the fair value subsequent to the transition date to be recognised either in the Statement of profit and loss or Other Comprehensive Income (based on the category in which they are classified).

This has resulted in increase in other equity by ₹ 172.79 Lakhs and ₹ 314.72 Lakhs with corresponding increase in value of investment by ₹ 18.88 Lakhs and ₹ 21.22 Lakhs and in Derivative assets & Debtors by ₹ 155.03 Lakhs and ₹ 290.02 Lakhs as at 1st April 2016 and 31st March 2017, respectively.

3. Proposed Dividend and tax thereon

Under Previous GAAP, proposed dividends are recognized as liability in the period to which they relate irrespective of the approval by shareholders. Under Ind AS, a proposed dividend is recognised as a liability in the period in which it is declared by the company (on approval of Shareholders in a general meeting) or paid. Therefore, the liability amounting ₹ 407.52 Lakhs (inclusive of Dividend Distribution Tax) recorded under previous GAAP has been derecognised as on the date of transition i.e. 01.04.2016. The same is now recognised in Financial year 2016-17, when dividend was approved by shareholders.

4. Business Combination

During the financial year 2016-17 the company was combined with Banswara Global Limited and Banswara Fabrics Limited. Under Previous GAAP accounting done as per pooling of interest method as specified in AS-14 from the date on which merger was effected. Ind AS requires business combination under common control to be accounted as per Appendix C of Ind AS 103, which prescribes pooling of interest method. Under pooling of interest method assets and liabilities are required to be carried forward at book value and prior period presented in balance sheet are to be restated considering that the merger was effective from first day of the last year presented.

Hence, balance sheet of 1st April, 2016 has been prepared as if the merger was effective from that day.

5. Deferred Tax

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12-Income Taxes requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of asset or liability in the balance sheet and its corresponding tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP.

In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognized in correlation to the underlying transaction either in retained earnings or as separate component of equity.

6. Actuarial Gain or Loss on Defined Benefit Plans

Both under Indian GAAP and IND AS, the company recognized costs related to its post employment defined benefits plan on an actuarial basis. Under Indian GAAP the entire cost including actuarial gain/loss are charged to profit or loss. Under IND AS, remeasurements are recognized in Other Comprehensive Income.

As a result profit for the year ended 31st March 2017 has increased by ₹ 27.25 Lakhs (net of tax) with corresponding decrease in Other Comprehensive Income during the year.

7. Other equity

Retained earnings as at 1st April 2016 has been adjusted consequent to the above Ind AS transition adjustments. Refer 'Reconciliation of total equity as at 31st March 2017 and 1st April 2016' as given above for details.

8. Other comprehensive income

Under previous GAAP, the Company has not presented other comprehensive income (OCI) separately. Items that have been reclassified from statement of profit and loss to other comprehensive income includes remeasurement of defined benefit plans and fair value gain/loss on FVTOCI equity instruments. Hence, previous GAAP profit or loss is reconciled to total comprehensive income as per Ind AS

9. Under Indian GAAP, sale of goods was presented as net of excise duty. However, under Ind AS, sale of goods includes excise duty. Excise duty on sale of goods shown as separate line item as expenses in the Statement of Profit and Loss accordingly.
10. Due to classification of one of the land as operating lease, the related amount which was earlier classified as depreciation and amortization is now considered as lease rent expense, hence grouped in Other Expenses.
11. Certain amount of Cash and cash equivalents has been reclassified to Other Bank Balances and Other Non-Current Financial Assets in accordance with Ind AS 7-Statement of Cash Flows and Divison II of Schedule III of Companies Act, 2013.
12. One of the Leasehold land has been classified as operating lease and accordingly, amount of ₹ 33.23 Lakhs as on 31st March, 2017 and ₹ 35.08 Lakhs as on 1st April, 2016 has been representing its value has been transferred to Other Non-current Assets and Other Current Assets.

13. Effect of Ind AS adoption on the cash flow statement as at 31st March, 2017.

(₹ In Lakhs)

Particulars	Previous GAAP	Adjustments	As per Ind AS
Net cash flow from operating activities	14,233.12	(208.54)	14,024.58
Net cash flow from investing activities	(5,890.84)	(223.98)	(6,114.82)
Net cash flow from financing activities	(8,493.63)	335.83	(8,157.80)
Net increase/ (decrease) in cash and cash equivalents during the year	(151.35)	(96.68)	(248.03)
Cash and cash equivalents at the beginning of the year	2,200.35	(1,168.18)	1,032.17
Cash and cash equivalent at the end of the year	2,049.00	(1,264.86)	784.14

Cash flow from Operating Activities under Ind AS has been decreased mainly due to reclassification of other bank balances from cash and cash equivalents to working capital changes. The difference in the balance of cash and cash equivalents, cash flow from investing activities and cash flow from financing activities respectively is mainly due to taking the effect of merger of BFL and BGL with the Company as presented in Note No. 50 and accounting of joint venture Tesca Textiles & Seat Components (India) Private Limited (Formerly known as Treves Banswara Private Limited) using Equity Method.

14. Under the previous GAAP, the investments in joint ventures were classified as 'Jointly Controlled Entities' and accordingly, accounted for using proportionate consolidation method. On transition to Ind As, such investments have been classified as joint ventures and consolidated using Ind AS 28, 'Investments in Associate and Joint Ventures.

The proportionately consolidated amounts of assets and liabilities of joint venture under previous GAAP were as below:

Note No. 61. Standards issued but not yet effective

The standard issued, but not yet effective up to the date of issuance of the Company financials statement is disclosed below. The Company intends to adopt this standard when it becomes effective.

Ind AS 115 Revenue from Contracts with Customers Ind AS 115 was issued by Ministry of Corporate Affairs on 28th March, 2018 vide Companies (Indian Accounting Standard) Amendments Rules, 2018 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115 revenue is recognised at an amount that reflects to a consideration which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard supersede all current revenue recognition requirements under Ind AS. This standard will come into force from 1st April, 2018. The Company will adopt the new standard on the effective date.

Appendix to Ind AS 21, Foreign Currency transaction and advance consideration.

This appendix was issued by Ministry of Corporate Affairs on 28th March, 2018. It clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expenses or income when an entity has received or paid advance consideration in a foreign currency. The appendix will come into force from 1st April, 2018. The Company will adopt the requirement in the new appendix from the effective date.
