## MANAGEMENT'S DISCUSSION AND ANALYSIS

### 1. Industry Overview:

The business of the Company is that of a Non Banking Finance Company.

Non Banking Financial Companies (NBFCs) have become an integral part India's financial system. In recent times, NBFC's have emerged as lenders to both companies and individuals. When it comes to lending, NBFCs are generally regarded to be complementary to banks and are often able to offer better services and products to their customers. NBFCs play a crucial role in broadening access to financial services, enhancing competition and diversification of the financial sector. Banks and NBFCs compete for similar kinds of business. In spite of strong competition faced by the NBFCs, the inner strength of NBFCs viz. local knowledge, credit appraisal skill, well trained collection machinery, close monitoring of borrowers and personalized attention to each client, are catering to the needs of small and medium enterprises.

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use,

or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
