INDUSTRIAL SCENARIO

The Financial Year 2016-17 was not smooth for the cotton yarn and textile industry. The expectations of a better yield leading to a bigger cotton crop were hit by an erratic monsoon.

The demonetization in early November, 2016, disrupted the arrival of the crop in the markets due to reluctance of farmers to accept modes of payment other than cash. Thus, the prices of cotton stayed much higher than the projections.

Other costs such as power and man power were also increased more than normal by certain regulatory changes & decisions on open access for power, payment of bonus & applicability of ESIC.

The emergence of substantial new spinning capacity in Vidharbha and Gujarat on the back of very substantial incentives has made competition very intense. Added to, this is competition from low cost economics such as Bangladesh, Vietnam, Pakistan, who also enjoy preferential duties and access to US and EU.

China continued its policy of reducing reserves of cotton and produced more yarn & imported less cotton and yarn. The total exports of the country were also below target.

Your Company was able to successfully deal with all these to achieve a growth in turnover of more than 20%.

PERFORMANCE REVIEW

Your company's performance can be judged on a positive note. The revenue from operation was Rs. 61562.08 lakh as against Rs. 49221.54 lakh in the Previous Year. However, The profit after tax for the year 2016-17 has been Rs. 103.33 lakh as against Rs. 253.92 lakh in the Previous Year.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

(1) Economic Scenario

(a) Global Economy

Global economic growth continued to be slow following slow trades, low investments and policy uncertainties in advanced economies. Major global events during the year including United Kingdom's decision to leave the European Union and the outcome of presidential election in United States of America are expected to have long term effects on the global economy. Global growth in 2016 was estimated at 3.1% and is projected to rise to 3.5% in 2017. Growth, in emerging markets and developing economies, is expected to pick up in 2017 on the back of fiscal stimulus measures in developed economies and narrowing of divergence between commodity exporters and importers. The main factors that could possibly weigh on the medium- term growth prospects across many emerging markets and developing economies are weak investments, below par levels of productivity coupled with heightened policy uncertainty, and protectionist pressures.

(b) Indian Economy

India emerged as a "bright spot" in an otherwise subdued world economy when it overtook China in 2015-16 as the fastest growing major economy in the world. Though India's fundamentals still remain strong, the recent demonetization initiative undertaken by the Indian government is expected to lower India's GDP growth from 7.6% in FY16 to 6.8% in FY17. The IMF mentioned that this cash shortage and slow private consumption would only be a temporary disruption and the otherwise, healthy economy will return to growth post the predicted slowdown in FY17. The Indian government's decisive policy manoeuvres towards ensuring fiscal consolidation and pegging back inflation will help it maintain economic stability in the years ahead. India's eight core infrastructure Industries- coal, crude oil, natural gas, refinery products, fertilizers, steel, cement and electricity registered cumulative growth of 4.9% during the April- November 2016 period compared to 2.5% a year ago.

(2) Industry Structure and Development

The Indian Textiles Industry is one of the oldest and biggest Industries of the Country. The Textile Industry has two broad segments. First, the unorganized sector consisting of handloom, powerloom, handicrafts and sericulture and the second is, the organized sector consisting of spinning, weaving, knitting, garments and home textiles segments. The industry has major contribution to the national economy in terms of direct and indirect employment generation and net foreign exchange earnings. The sector contributes 14% to industrial production, 4% to India's Gross Domestic Product (GDP) and 15% to the country's export earnings. It is the second largest employment provider in the country employing nearly 51 million people directly and 68 million people indirectly in 2016-2017.

The Central Textiles Ministry, Government of India has announced Rs 6000 Cr package for the textile sector in June, 2016. The mode and modality thereof have since been formulated. This will have favourable fallout in very near future.

(3) Opportunities and Threats

Exports have been core feature of India's textile sector. The Indian textiles exports market estimated at \$18 billion is expected to grow at a CAGR of 4% as compared to the global CAGR of 3% over 2016-2026. The Indian Textile Industry is currently estimated at around US\$ 108 billion and is expected to reach US\$ 223 billion by 2021. The Indian textiles and yarn industries are expected to reach very high levels of performance at least in the next 4 to 5 years. Favourable demographics and rising incomes level in India are expected to stimulate textile demand.

The Indian Textiles and yarn industry may face threats from constraints in domestic supplies and cheaper availability of good quality cotton overseas. The cotton acreage is likely to fluctuate which will be detrimental to textiles and yarn industries. Though, in 2017-18 the area is projected to grow substantially.

ANNEXURE “B” TO DIRECTORS’ REPORT (Contd.)

(4) Outlook

The Indian Cotton textile industry will continue to grow alongwith growing consumption of textile and yarn products in India as well as abroad. Geography wise, while the textile market is stable and dominated by European Union and the U.S, countries like China, India and Russia are emerging as future destination for textile and yarn consumption. The high growth is expected to be primarily driven by increase in consumption as well as per-capita apparel spending of the already large population in these countries including India.

(5) Management perception of Risk Concern

ANNEXURE - "B" TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Nagreeka Exports Limited ("the Company") as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to

ANNEXURE - "B" TO THE AUDITORS' REPORT

permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

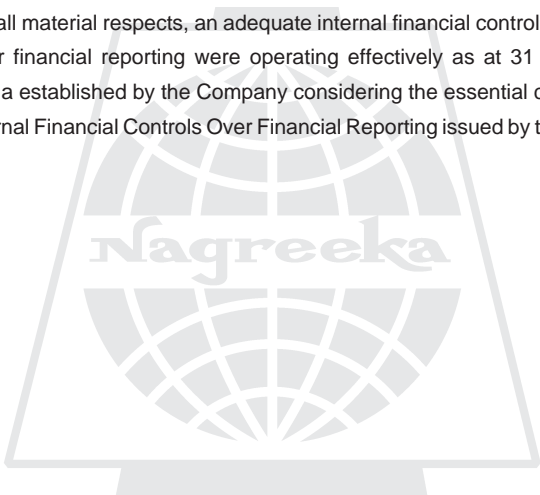

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
