MANAGEMENT REVIEW: 2016-17

PAPER INDUSTRY SCENARIO

This was a difficult year for the pulp and Paper industry worldwide as the demand has grown at very slow pace of about 1%. The muted growth worldwide has been due to increase in digitization in developed and developing countries for the writing and printing segment, in the paperboard segment the growth has been slow due to China's demand contraction and the Newsprint industry is affected by the growth of e-newspapers in developed countries, however in developing countries there is growth in the market due to rise in literacy level and income growth. There was a marked slowdown in the overall capacity addition globally, as companies concentrated on raising the capacity utilisation and conversion of facilities for suitable grades. The lower new capacity addition will lead to increase in operating rates in the coming years. The demand growth is likely to outpace the capacity addition in the coming years. The growing capacity utilization might see some hardening in the recovered paper price in the coming years, but this is likely to stabilize as pulp supply is likely to increase due to increased availability of pulp in the market as new capacities come up in South East Asia and South America.

The Indian Paper & Paper board industry will continue to grow at a CAGR of 6-7% during the next 5 years to approx 19.8 million tons. The segment wise break up and usage of paper & paper products in India in FY 2017 is Writing & Printing Paper 30%, Packaging and Paperboard around 47%, Newsprint 19% and Speciality and other paper about 5%. The segment wise share is likely to remain same in coming years. The segment wise growth will be lead by speciality paper at around 9-10% as the economy matures, followed by paperboard at 7-8% , Writing and Printing paper at 5-6% and Newsprint at 4.5-5%.

The Indian paper industry continues to remain fragmented in nature due to logistics costs and scattered demand over the large landscape. The paper industry caters to the regional demands and this limits the large volume capacity addition. The overall growth in the W&P segment is expected to be at 5.5%-6.5%. The W&P paper demand will be lead by the Copier and Coated paper where the copier paper is expected to grow at 9-9.5% and Coated paper at 5%. The maplitho and creamwove segment will continue to grow at a pace of about 4%.

Newsprint demand is expected to grow at a moderate pace of about 4-5% over the next couple of years, the demand will be driven by the gradual rise in the literacy rates and steady growth of Newspaper circulation at about CAGR of 3-3.5%. There is unlikely to be any new capacity addition in the Newsprint segment, the share of imports may rise to about 68% and the capacity utilization of the domestic producers will also rise. The industry will also be supported by rise in the advertisement revenue due to increased economic activity of a proactive government, leading to increase in the number of pages per copy.

The demand of Paper and Paper Board is set to rise to robust 7-8%. The demand is expected to be led by FMCG and Pharmaceuticals due to the growth in the rural markets, availability of credit for consumer durables and increasing spend on the health care. The electronics and e-commerce are other sectors which will lead the demand growth. The rising affordability leading to shorter replacement cycles, multiple ownership of durable products and rise in e-commerce which fulfills the aspiration of the people in the remotest corner of India is going to be the demand generator in the economy. The increased use of packaging of fruits and vegetables also lends its share in increasing the demand for the paper board.

The per capita consumption of paper in India is a mere 11-12 kg in comparison to world average of 57 kg. The growth of paper industry is directly correlated to the growth in the economy, with the Indian economy expected to grow at a healthy pace, the paper industry will perform better in the coming years.

FUTURE OUTLOOK

The implementation of the GST law, which is the single biggest change in the business environment of modern India alongwith the emphasis of the Central Government in curtailing the unreported economic activity is going to be a big disruptor. This is going to transfer the scale in favour of more organized and formal economic activity. The implementation of the GST has removed the trade barriers caused by individual state taxation and smoothened the flow of goods across state borders. The growth prospects of paper & paper board industry are closely aligned with that of the economy in general and the growth in paper industry has historically followed the national GDP growth rate. The company is located centrally and equidistant from major markets. Therefore, the implementation of the GST act will open new frontiers and possibilities for the company.

In the recent past the paper industry has seen consolidation of capacities where in small and marginal players have closed down and efficient responsive managements have increased the production capacities by brownfield and green field expansions. There has been a shake up in the writing and printing paper segments where even the established producers have been forced to close down production. The demand growth forecast and closure of existing plants has opened new avenues for the existing players. The industry is poised to witness increased capacity utilisations and realisations in coming years.

Our company has been actively participating in the ongoing changes in the industry keeping in line with the trends in the industry. The company has focused on increasing the production of packaging and paper board segment as the robust growth in e-commerce, FMCG, Consumer goods, Healthcare etc. is likely to drive the paper board demand in coming years. The company has also focused in increasing its share in W&P segment as rising literacy, school enrolment drive and formalization of the economy will lead to increased growth in this segment. The company has been focused on its Newsprint business, it is likely to benefit from implementation of the GST as it will be able to get credit on the input tax under the GST regime. The major customers are situated in away states, they will be able to take the benefit of input tax credit, making the products of the company more competitive. The governments focus to kick start the economy by focusing the expenditure on infrastructure thereby increasing the print advertisement spend which is expected to increase the number of pages and copies of newspaper. Increase in the general level of literacy and continued rise in the readership will further add to the growth prospects of the Newsprint Division. The company has been adapting its product portfolio to compete in emerging market conditions.

The company is likely to witness the benefits of better realisation in the coming year due to the change in the business environment, efforts taken by it in the past years to increase the quality & production and to diversify its product portfolio. The company continues to focus on the long term and it continues its drive for sustainable growth.

INTERNAL CONTROL SYSTEM:

Your Company has adequate internal control procedures commensurate with the size and nature of business. There is a periodical review mechanism for ensuring the sustenance and upgradation of these systems.

THREATS, RISKS AND CONCERNS:

- Availability of raw materials.
- Cyclical nature of the paper industry.
- The capital intensive nature of the industry.
- Digitisation to impact Newsprint and W&P demand in very long term.

OPPORTUNITIES & STRENGTHS:

- Robust growth in e-commerce FMCG, Consumer goods to drive paper board demand.
- Increasing literacy and enrolment ratio at schools to drive the Newsprint and W&P paper demand.
- The environment protection measures taken by Govt. and promotion of bio degradable packaging is leading to newer avenues for paper packaging.
- W&P demand to witness growth due to increase in office paper consumption as a result of formalization of economy after implementation of the GST act.
- Paper industry growth is directly linked to growth in economy, Indian economy is poised for a double digit growth.
- Focus of the Govt on Non conventional energy and debottlenecking of the power sector leading to reliable supplies and lower tariffs will support the power intensive paper industry.

CORPORATE SOCIAL RESPONSIBILITY:

The Company is not required to constitute CSR Committee as per the provisions of Section 135 (1) of the Companies Act 2013 read with Companies (Corporate Social Responsibility Policy) Rules, 2014. However, Your company has always discharged its social responsibility as a part of its corporate governance philosophy. The company has lend helping hand by taking up health check up camps, drinking water supply, tree plantations in the plant premises and in the vicinity of its plant.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material

misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MALU PAPER MILLS LIMITED** as of **31 March, 2017**, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial

controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

The Company is in process of compiling the documented policies for internal financial controls with respect to maintenance of records, authorization by appropriate authority for material transactions, check against unauthorized, acquisition/use/disposition of company's assets, and utilization of equity and borrowed funds, prevention and detection of frauds and errors, the accuracy and completeness of accounting records and the timely completion of reliable financial information etc. The company is streaming to lay down controls with respect to the above.

In view of this, in our opinion the adequacy & effectiveness of the internal control systems over financial reporting as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India needs to be strengthened.

- m) **Earning Per Share :-**
Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

MALU PAPER MILLS LIMITED, NAGPUR

n) **Provisions, Contingent Liabilities and Contingent Assets :-**

A provision is recognized when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liability is disclosed for (i) Possible obligation which will be confirmed only by future events not wholly within the control of the company or (ii) Present obligation arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.
