Segments

Paper Division

We are pleased to inform to our stakeholders that, at present, the Company is manufacturing the following Products:

- a. Paper Board
- b. Newsprints

Benefits of Manufacturing Paper Board

1. Demand has been increased by reason of increase in the volume of packaged material by consumers.
2. As the plastic bags are hazardous for environment, hence, demand of Paper Board has also been increased.
3. Almost manufacturing are based on orders/ demands, hence, the risk of spoilage are less.
4. Less expenditure on stock/ inventory management.

Benefits of Manufacturing Newsprints

1. Demand for Newsprints paper is increased.
2. The realization of payment is better with less risk of bad debts.
3. Final Product is exempt from Excise Duty.

The Detail of Paper Board & Newsprints manufacture and sale during the Fiscal year 2017-18 and 2016-17 are as under:

Particular	2017-18	2016-17

Directors Response

In Audit Report

1. The Company availed the credit facilities from the above mentioned banks for its Paper Division and Hotel Division. Due to Economic slowdown and uncontrolled inflation, since 2009, In April 2013, we requested banks to re-structure the debts as our EBITDA is not sufficient to honour the repayment obligations.

Banks assigned our account to ARC as per dates mentioned above and till 30.09.2017. Most of the banks assigned our account to M/s Alchemist ARC.

We approached M/s Alchemist ARC to re-structure the debts considering our EBITDA. M/s Alchemist ARC restructured our debts on 31.03.2018 after TEV Study conducted by M/s. GMB & Associates

We are regular in making the repayment as per repayment schedule and expected to repay the debts as per repayment schedule.

2. The Company has stopped production of Duplex Board from January 2018 and started Production of Grey Board (laminated) and Kraft Board. The debtors more than 6 month mainly consist of Duplex Board and Management expecting the full recovery from these debtors.
3. It is as per our waste paper processing industry practice. The order sourcing persons are individual and not organized sector. Commission is being paid for the sourcing of order.
4. The Company is reconciling their account with their debtors and creditors and no major deviation is expected in the balances of debtors and creditors.

In CARO

- i. The Company availed Loan from the abovementioned bank however due to global slowdown and uncontrolled inflation the company's profitability the company's EBITDA was not sufficient to honour the repayment obligations.

INDUSTRY STRUCTURE, DEVELOPMENTS & OUTLOOK:

Our Company's business is broadly consists of manufacturing of Papers and Hotel Industry.

Paper Industry

As the present era is globally rising and more demand is on the increasing of the knowledge which as a result leads to the overall growth of the paper industry. The Indian paper industry is said to be growing in the line with the GDP of the country. Paper being an essential commodity has its socio- economic importance in the overall development of the country which is directly linked with the educational and the industrial growth. With the increasing competition, the Company so as to maintain a sustainable position in the market has to make a planned approach towards attaining its goal of maximum profit by overcoming the challenge of raw material availability, manpower, short term over capacity situation, environmental foot print etc.

Hotel Industry

The tourism and hospitality industry is one of the largest segments under the services sector of the Indian economy. In India, the sector's direct contribution to gross domestic product (GDP) is expected to grow at 7.8 per cent per annum during the period 2013-2023. Hotels are an extremely important component of the tourism industry and are the key drivers of growth among the services sectors in India. The Indian hospitality sector has been growing at a cumulative annual growth rate of 14 per cent every year, adding significant amount of foreign exchange to the economy. The role of the Indian government, which has provided policy and infrastructural support, has been instrumental in the growth and development of the industry.

SWOT ANALYSIS

STRENGTHS:

Paper Industry

The paper is in use since the second century A.D. and despite the emergence of the electronic media, the use of paper has always been adored by the mankind. The spurt in demand for paper and paper board rises from India's all round industrial development and growing rate of literacy. Over the last five years, many paper companies went for major modernisation and expansion.

India's paper and paper board industry has unlimited scope for further growth. Judging by the investment that paper manufacturers have made in modernisation and expansion so far, India's pulp and paper industry is well on its way to have a strong presence in Asia.

The Indian Paper Industry is among the top 12 Global players today, with an output of more than 13.5 Million tonnes annual with an estimated turnover of Rs. 35000 Crores.

Paper Industry in India is moving up with a strong demand push and is in expansion mode to meet the projected demand of 20 Million tonnes by 2020. Thus paper industry in India is on the growth trajectory and is expected to touch 8.5% GDP in the coming years. Therefore, the growth of Industry will out span the present growth rate of 6.5%.

Hotel Industry

Tourism has now become a significant industry in India. India offers a readymade tourist destination with the resources it has and the most fascinating hospitality statement of – “Atithidevo bhava”. According to recent estimates, there is almost a 2:1 demand-supply ratio for rooms in India, demonstrating the untapped potential that continues to exist in this industry. As per the World Travel & Tourism Council, the occupancy ratio is around 80-85%, with nearly 10% increase from the last three years. There are international players in the market such as Taj and Oberoi & International Chains. Thus, the needs of the international tourist’s travellers are met while they are on a visit to India.

WEAKNESSES:

Paper Industry

In India, production of paper and paper board entails enormous challenges- ranging from procurement of raw materials, energy and water to facing the harsh criticism coming from environmental activists and observing a number of complex laws.

The biggest challenge facing paper industry in India is the procurement of raw materials. As availability of waste papers, is limited. The companies have to incur huge transportation cost in shipping waste papers and other raw materials from various countries. As a result, the fortunes of the industry depend on the great extent on the foreign exchange rate.

Hotel Industry

The Hotel industry also has weaknesses and one of them is that the land is expensive in India and most hotels are staffed heavily! The tax structure in the country is also higher as compared to other countries and the hotel rooms in the country are far lesser as well. The services offered by hotels are limited and will not meet with the world standards.

Poor support infrastructure is another weakness which need to be looked upon. Though the government is taking necessary steps, many more things need to be done to improve the infrastructure. The lack of adequate recognition for the tourism industry has been hampering its growth prospects. Whatever steps are being taken by the government are implemented at a slower pace.

OPPURTUNITIES:

Paper Industry

Major changes are taking place in various segments like writing & printing paper, paperboard, newsprint, tissues, etc. New technologies and modern management will have vital part in this process. Besides that many overseas players are entering India by acquiring or by setting up new plants in Indian soil with an aim to make India as a paper manufacturing hub which will bring huge investments to Indian Pulp and Paper Industry.

Today India is an excellent and vibrant market for Paper and Paper products due to high spending of the middle class people and some of the Government initiatives in the Social Development front also make the industry more vibrant. Many Indian Paper Mills are eyeing now to new mills to setup or joint ventures with existing players abroad to widen their business horizon.

The Govt. of India has relaxed the rules and regulations and also de-licensed the paper industry to encourage investment into this sector and joint ventures are allowed and some of the joint ventures have

also started in India. The paper industry in India is looking for state-of-art technologies to reduce its production cost and to upgrade the technology to meet the international standards.

Hotel Industry:

The Government of India has contributed significantly to the growth and development of the industry by providing policy and infrastructural support such as simplification of visa procedures and tax holidays for hotels. In the long term, the demand-supply gap in India is very real and that there is need for more hotels, the average increase in room rates over the last one year has hovered around 22-25%. India, being the only country with the most diverse topography has the potential for the growth of the hotel industry. Due to difference in the climatic condition and the period of holidays, the demand between the national and foreign tourists can easily be managed.

THREATS:

Paper Industry

The increasing competition for wood and other raw materials from the renewable energy sector possess a serious threat on the paper industry. The need for growing supply of low-cost and high-quality imports of commodity-grade papers, especially from China adds to the additional cost of paper industry. Moreover, the need for the woods for the production of paper is indispensable. The impact of climate change on forest health and productivity cannot be ignored. Thereby, it directly impacts the production of paper. This way, the growth of the paper industry is endangered.

Hotel Industry

There have been wide fluctuations in international tourist arrivals. The total dependency of the Hotel industry on foreign tourists can be risky, as there are wide fluctuations in international tourism. Domestic tourism needs to be given equal importance and measures should be taken to promote it.

The Increasing competition is another threat posing the hotel industry. Several international majors like the Four Seasons, Shangri-La and Aman Resorts are entering the Indian markets. This will increase the competition for the existing Indian hotel majors.

ANNEXURE - B TO THE AUDITORS' REPORT

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of Magnum Ventures Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and according to the information and explanations given to us, the company does not have an adequate internal control system commensurate with the size of company and the nature of its business with regard to the sale of goods as they are unable to collect their sale proceeds.
