INDUSTRIES LIMITED

2016 Annual Report

“The future belongs to the few of us still willing to get our hands dirty.”

– Roland Tiangco

Hands.

Hands brighten our world.

Hands do wonderful things. They build the sturdiest structures. Create the most intricate and minute pieces of jewelry. They create the most advanced machines. And weave the most vibrant and colorful designs. Indeed, hands create wonders.

Which is why, at Emmbi Industries, we salute the hands that help lift us to greater heights – those of our blue-collared employees. Workers are the core at Emmbi. It is they who weave the fabric that finds varied applications in every corner of the globe. It is their effort that is ultimately translated into meaningful value for our stakeholders. It is they who have helped us reach these heights of success.

It's no coincidence that our symbol – the Whizz – has its topmost ribbon in blue. Because this blue represents our workers who have toiled through the years and helped make Emmbi a respected and premium brand.

It is fitting then, to dedicate this annual report to

The hands that built Emmbi.

This is Emmbi.

At Emmbi Industries, “Brighter Every Way” is a deep-rooted belief that guides our thoughts, our actions and the initiatives we take. Emmbi Industries began as a twinkle in the eyes of first-generation entrepreneurs, Makrand and Rinku Appalwar. An opportunity spotted in 1994 saw the birth of Emmbi in the November of 1994 with one small manufacturing unit in Silvassa. Since then, Emmbi has grown from strength to strength, transforming into a leading player in the area of woven polymeric products.

The Whizz Our philosophy and guiding principles are embodied in our corporate symbol - the “Whizz”. It stands for the energy and flexibility that we bring to our business. The ribbons embody the freedom and the flexibility that we encourage. Their upward slant represents our ambition and vision. Our colors represent the qualities that we are known for.

Our colors Yellow stands for the optimism and the energy that we bring to the table. It embodies our creative bent of mind, as we innovate to find tailor-made solutions to our customers’ problems. Green embodies the freshness of our ideas, and our responsibility to the environment, our community and our society. It stands for our commitment to Mother Earth and the bounty that she bestows us with. Blue is for the loyalty that we bring to our customers, partners, shareholders and employees alike. In particular, it speaks to the gratitude that we feel to our blue-collared employees. For, it is they who are the backbone of not just Emmbi, but of industry at large

The upshot of this philosophy is that Emmbi has been able to consistently deliver superior value to each of our stakeholders. And ultimately, has been able to deliver superior business performance and better returns to you, the investor.

Ultimately, that is what “Brighter Every Way” stands for.

We are in the business of brightening lives.

As a leader in the polymer processing business, Emmbi caters to a wide range of customers and industries with our innovative solutions. Our products find applications across a number of industries, and broadly fall into four key groups:

Water Conservation Emmbi manufactures a range of products that help in the storage, transportation, conservation and harvesting of water, apart from fulfilling the irrigation needs of farmers across the country.

Advanced Composites This refers to a range of products that are primarily meant to take care of human safety, especially in hazardous environments. Our protective films and fabrics are used for transportation and management of hazardous material.

Specialty Packaging Emmbi caters to a range of customers globally, serving industries as varied as chemicals, e-commerce, oil and water, through a range of products for transportation and storage.

Agri Products This refers to a range of products especially made for the farming community. Typical applications include those for yield improvement through crop protection systems, fermentation, storage, radiation- and hailstorm-control and weed management products.

Ensuring Human Safety

Emmbi's products find a number of applications for Human Safety. One such example is Fall Arrest Systems, like large airbags to break a fall (left). Our polymer films are lightweight and incredibly strong, making them the perfect ingredient in custom-made airbags for varied applications.

Chairman's Address

'Differentiation is not about what you know, it is about what you notice.'

Dear Shareholders,

I am pleased to inform you of another commendable year at Emmbi. If last year was significant in terms of exports crossing the one billion rupees mark, this year not only did we beat those numbers, we reported growth across all segments. We have been recognised as a full-fledged In-house R&D Center by the Ministry of Science & Technology, Government of India. I have come to realise that there are three building blocks that are integral for a company to be successful in the long run. Firstly, it has to showcase Sustainable Growth, next it has to have a Differentiator irrespective of the industry it operates in, and lastly it has to utilise Capital Efficiently. You would be glad to know that at Emmbi this is being translated into action, and it is reflected in the financial performance.

Economic output and trends around the globe remained mixed, with pick up across the US, parts of Western Europe, and India, and steep declines in commodity exporting countries, and in China. India continued to be one of the better performing economies, and the subdued commodity prices have helped it both from a fiscal, and structural perspective. I had mentioned in the previous address that the country is yet to capitalise on its demographic dividend, and when it does so, opportunities for Emmbi can be tremendous. India's 2016 budget prioritises rural and farm sector, social development, infrastructure, employment generation, and recapitalisation of banks.

I shall attempt to explain how the interests of Emmbi are directly aligned with the priorities of what the Government considers essential in its budget focus. Whenever the government increases its budgetary allocation to a particular area, it generates two positive outcomes. One is the direct impact that this spend creates in terms of infrastructure development, and employment, second the feedback effect of increasing the disposable income in the hands of the rural consumer. Emmbi would benefit from both these, as its products not only find applications in overall rural development, but also in having the rural diaspora as its consumer.

How are we growing, and ensuring that this is sustainable in the long term?

Emmbi has evolved positively in the past 22 years, and would keep doing so in the years to come. Our top-line growth has never been at the expense of margins, or outside the core capabilities of the company. We commenced operations as a manufacturer of polymer based packaging that find, varied applications from packaging of retail and industrial goods, and we continue to derive major revenues from this segment (speciality packaging). However our investments in research and development, and our understanding of the customer needs have helped us move up the value chain with the advanced composites segment contributing to a significant share of the revenues. In the near future, we expect sales of Advance Composites a high margin business, to over-take Speciality Packaging, and be the growth engine of Emmbi.

It pains me to see our country suffer from acute water shortages and hence water conservation has been at the heart of Emmbi. In the recent years water has become a national priority, so our investments in this line has paid off positively, we expect the Water Conservation segment to grow in double digits over the next five years. This business is not only about weaving textiles that find applications in lining of

We are setting up a facility for the manufacture of food- and pharma-grade bags.

lakes, or canals it is also about touching human lives. We have been exporting our pond lining, canal lining, and check dam products across the globe, and now we are adapting to the Indian market. We have researched, designed, and perfected collapsible water tanks that are convenient for storage at homes while saving space. We have also devised flexible tanks for easy transportation of water on bicycles and motorbikes.. Our customers love this product, and now we have engaged a well-reputed international consultancy firm to devise a strategy to grow this business. In short this would be Emmbi's foray into the consumer segment, whilst the core remains specialised polymer processing. The latest segment we have entered is the Agri-Business. India being an agrarian economy, this segment offers tremendous growth potential.

We are in the process of setting up a new facility for the manufacture of food-grade and pharmaceutical packaging. The revised US FDA guidelines make it mandatory for the food industry to comply with these packaging; we anticipate additional revenues from this line. We continue to constantly ask ourselves, "What next? What would be the next area of growth, and how can Emmbi participate?" This is what has kept our wheels rolling and would continue to do so in the future.

How are we Differentiating?

It is not about what you know, it is about what you notice.

It is our constant endeavour to listen to needs of the society and our ability to meet demands that has kept us on the growth path. The fact that we are constantly innovating, and bringing tangible benefits to our clients, glues the customers to us. I also believe that innovation is not only about creating value in a laboratory environment, it is also building a culture of innovation around the company. It could come from any of our employees, a scientist, an operator of a machine or from an accountant. We have invested in creating this environment through regular ideation exercises, creative competitions, and workshops. We believe in our people, and are consciously building a team of competent and motivated professionals. These are the facets of our success.

Are we using Capital efficiently?

For a manufacturer not only is profitability and cash flow key, asset utilisation is equally critical. Our capacity utilisation today stands at 83%, and in the next two years we would be reaching over 90%, so the increased benefits of economies of scale (or operational leverage, in financial parlance) have begun to show in recent years. Despite our advanced thinking in terms of business, the anticipated investments have never been a drag on the capital. You would be happy to note that our debt has always been rated investment grade, and we have recently been awarded with a higher rating. This coupled with the gradual lowering of interest rates should help business in the coming years.

You would be hearing from us very soon on some of the other initiatives such as tapping into the consumer market through channel sales, opening up of our own distribution centres, and of course increasing the social spend for a better India. In the meantime let me congratulate my colleagues for the stellar performance in achieving improvements across all operating and financial metrics, thank all stakeholders for the faith in us, and promise that on behalf of the Emmbi family that we shall keep growing this company to greater heights.

With best wishes,

Makrand Appalwar
Chairman
May 17, 2016

It pains me to see our country suffer from acute water shortages and hence water conservation has been at the heart of Emmbi.

A global problem.

Water scarcity is a problem that is not just confined to India. Our innovative range of flexible tanks are a cost effective solution to storage and transportation of water.

As the chairman of the audit committee his experience is very valuable to the company.

Hands generate growth

Emmbi began as a manufacturer of polymer cloth. Despite the fact that it was a highly commoditized and competitive industry, we managed to create a competitive edge for ourselves by quickly finding varied and multiple applications for our product. We managed this by constantly innovating and evolving newer, more specialized applications that gave us an edge over the competition. The strategy paid off in spades. To date, we continue to derive a significant proportion of our revenue from this Specialty Packaging segment. However, we continue to invest in research and make an effort to better understand our customers' unmet needs. This has helped us move steadily up the value chain. In effect, our efforts have made sure that our top-line growth has never been at the expense of margins, or outside our core capabilities.

Business Risk

Unforeseen factors, be it related to industry, regulations, and/or the economy could affect business in an adverse manner, that could lead to impairment to income and capital. Also in a capital-intensive industry, any downward swings in revenues could be detrimental to earnings.

Emmbi is not in an industry that is overtly exposed to governmental regulations, and the fact that we have been profitable since inception and is a regular dividend payer mitigates the business risk to a large extent. We operate at 83%, a 20% jump from the previous year. This and outsourcing some non-core activities would further improve the distribution of fixed costs. We consciously ensure that our production is not concentrated on one unit and is spread across five locations to mitigate any eventuality. We also maintain cordial and healthy relationship with workers, ensuring their safety and wellbeing.

Financial Risk

Emmbi's capital structure is very conservative, and it's cash flows adequate to meet obligations when due. Also the fair value of assets, far exceed the book value providing additional buffer in the event of a remote outlier. We are also rated investment grade with a positive outlook on our debt, and are confident that in the next few years this would only improve given the growth in our business, and growth. In addition we do not rely on one lender, and have a consortium of banks, and are constantly engaging with newer banks, who are more than willing to do business with us.

Liquidity Risk

We maintain adequate cash at all times. Contrary to peers, we do majority purchases on an advance payment basis (not due to the fact that suppliers, are unwilling to provide credit, but to take advantage of the prices), despite that we have ample liquidity, and do not lock up our operating cash flow in non-core or unproductive assets. Inventories and debtors are managed prudently, and impairments negligible. We have this year increased our dividend pay out which also cements that Emmbi is a very liquid company.

Single Product Risk

Emmbi's product line is well diversified with over 180 products, and no single client contributes to more than 5% of total revenues. We have strategically reduced our dependence on low margin products.

Single Geography Risk

Emmbi exports to over 51 countries, and are not exposed to a single market or its vagaries. In the years to come we should be expanding the reach to more countries, and clients with establishment of our own offices.

Foreign Exchange Risk

Emmbi has an internal policy to hedge all its export revenues, and it has no exposure to foreign currency borrowings. The company also does not trade, or speculate in the foreign currency market or make any opportunistic positions.

Enterprise Wide Risk

We are compliant with international best practices, as can be noted from the continual certifications, and the periodic audits. The Management at Emmbi does not view risks in silos, however analyses, how it can impact the whole organisation. We have a very efficient ERP system that would also have a module for managing uncertainties. We have also got accredited as an R&D House by the Government of India, who have also commended us on our risk management practices.

Nurturing prosperity for our farmers.

Emmbi's Agri Product range comprising products like Mulch Films (left) and Crop Covers (right) help protect sensitive crops and maintain the best conditions for optimal growth and yield.

Brighter Beginnings

Hands implement new ideas

Value addition and innovation are the only ways to stay ahead of the competition. That is why, at Emmbi, we commit a significant proportion of our time and resources to innovative new products and applications. The Emmbi Innovation Lab was conceived with the sole purpose of spearheading innovation at our company. Our efforts have begun to bear fruit. In the year gone by, the Emmbi Innovation Lab has already delivered numerous Product and Process Patents that further our competitive advantage. In the years ahead, we are confident that the Emmbi Innovation Lab will continue to keep us miles ahead of competition.

Management Discussion and Analysis

1) Forward looking statements

The report contains forward-looking statements, identified by words like 'plans', 'expects', 'will', 'anticipates', 'believes', 'intends', 'projects', 'estimates' and so on. All statements that address expectations or projections about the future, but not limited to the Company's strategy for growth, product development, market position, expenditures and financial results, are forward-looking statements. Since these are based on certain assumptions and expectations of future events, the Company cannot guarantee that these are accurate or will be realised. The Company's actual results, performance or achievements could thus differ from those projected in any forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any such statements on the basis of subsequent developments, information or events.

(2) Economy and Outlook

Global growth in 2015 was at 3.10%, and is expected to pick up to 3.40% in 2016, and 3.60% in 2017. The advanced economies continued to show modest and uneven improvements, as the US continued to be resilient supported by easy financing and strong housing, and labour markets. Private consumption and financial measures in the Euro Area outweighed the declines in exports. Japan continued on its modest recovery, aided by government initiatives, and rising incomes. The emerging markets and developing economies that contribute to almost 70% of the global growth continued to be strained, however in a better position compared to the previous years

India's per capita consumption of polymers stands below 10 Kgs, compared to the world average of 30 Kgs.

The outlook for the years ahead is likely to be influenced by three factors (1) China's structural change from a manufacturing, and investment economy to a services and consumption led one. (2) Commodity and Energy Prices (3) Gradual but inevitable tightening of the monetary policy in the US.

Global trade grew at 2.80%, and is expected to remain flat in 2016, prior to inching above the 3.00% levels in 2017.

The Indian economy witnessed levels of growth above 7.50% the primary drivers for the growth being domestic consumption, and investments. Investments in infrastructure, select policy initiatives were enablers of this growth, which led to a pick-up in industrial production. The lower prices of hydrocarbons, kept inflation in check, and aided the government to bring down its fiscal deficit. Exports however de-grew by almost 16%, despite the 6% depreciation in the rupee.

It is anticipated in 2016, a gradual acceleration in governmental decision making in areas of dis-investment, Public-Private Partnerships (PPP), freeing up of more sectors for foreign investment, and a quantum jump across investments in retail, aviation, security services, transportation, roads and power infrastructure. The 'Make in India' campaign, Competitive Federalism, i.e., allowing different states to be gauged on select parameters to enhance business conditions, the scheme of 'Housing for All' by 2022, the 'Digital India' campaign, and 'Financial Inclusion' would provide a positive impetus to maintain growth levels upwards of 7.00%.

(3) Sector Performance

The Polymer sector in India is estimated at over *\$32 billion (\$30 billion in 2015), and this is expected to grow at upwards of 8% over the next five years. Despite being the world's third largest market behind the US and China, India lags in the consumption of polymers.

*India's per capita consumption stood at below 10 Kgs, compared to the world average of 30 Kgs. With increased sales of automobiles, the government's initiatives of lining canals, ponds etc., and demand for packing material increasing on account of retail growth this sector is slated to grow at double digits in the coming years.

(4) Emmbi's Industries International and Domestic Business

Product Range

Since the commencement of operations two decades ago, today we are proud to say that we have over 35 products that cater to a client base of over 180. The products are classified into four business segments – Speciality Packaging, Advance Composites, Water Conservation and Agri Products.

International Business

Revenues from Exports stood at ₹ 1,086 million, notably across 52 countries with North America being the largest contributor. In addition to diversification across geographies, Emmbi's clientele include a wide range of industries.

Our focus continues to be on stable markets, geographical, demographic and product diversification so that, our risks are mitigated. On Across verticals we restrict our exposure not more than 5% across each country, and below 3% per client. Moreover our strategy to keep recessionary trends in check is not only to add clients, however add new geographies as well.

Domestic Business

The domestic business continues to register handsome growth despite us, scaling down our exposure to low value add items. Revenues grew at an impressive 20% to ₹ 1,080 Million, aided by both volumes, as well as margins. The water conservation segment, and the agri-business double digits growth was in line with expectations, and going forward we expect very good demand from the rural markets for our products.

We expect growth in the domestic sector to be sustainable on three counts, first the natural demand for the products we are in, and the growing clientele, secondly our initiative to set up a full-fledged consumer segment (we have essentially been a B2B company, and now we are moving into the B2C category as well), and more importantly our continued investments in R&D, leads to innovative products that is a pillar for sustainability.

Segment	Share	Applications
Water Conservation	15%	Transportation, Storage, Irrigation, Conservation, Harvesting of water.
Advance Composites	44%	Human Safety, Transportation & Management of Hazardous Material, Protective films & Fabrics.
Speciality Packaging	38%	Chemicals, e-commerce, Oil & Water, Polymer Packaging.
Agri Products	3%	Yield Improvement in Agri & Dairy industry through Crop Protection Systems, Flexible Fermentation Storages, Radiation & Hailstorm Control, Weed management films.

Retail Operations

The success we have enjoyed over the years is now being replicated in the consumer space. Over the past two years we have observed increasing interest and enquiries from retail clients for some of our products, especially the collapsible water tanks, and the crop covers. In addition to engaging with channel partners, one of the world's leading consulting firms has designed the go-to-market-strategy, for this 'Strategic Business Unit'.

(5) Emmbi's Operations

Plant Capacity and Utilisation

Capacity at 83% registered a growth of 22% over the previous year, and we would be reaching full utilisation, and perhaps cross this in the next few years. We have also embarked on the manufacture of food grade packaging and this would add to another 2,400 tonnes of capacity by the end of this calendar year. We expect a real jump on capacity to come in the year 2019, and to meet that the strategic planning is currently underway.

Inventories Management

Emmbi's strategy of managing business in a non-speculative nature, translates down to its inventory management policies. We always make it a point to match the order pipeline to the inventory levels. Procurements of raw material is simultaneous to order booking, and

that way neither the fluctuations in the prices of crude, and thereby its derivatives impact the income statement or capital in an adverse manner. The relationship between crude prices, and polymer prices is not entirely direct, for crude constitutes only a fraction of the overall price. The crude-linked raw materials that go into our products, are multi-stage derivatives of crude, and fluctuations in crude prices have a negligible impact on our margins.

Despite this linkage, we as a policy continue to apply effective hedge mechanisms.

Record Earnings

We continued to impress both in terms of revenues, and earnings to shareholders. The company recorded an impressive top line growth in revenues to ₹ 2,079 million and a record profit of ₹ 105.95 million.

Quality and Adherence

We adhere to the latest international standards, and believe in adapting the best practices in the industry, be it people, processes, quality of our products or internal systems. We are in the process of "Integrated Management System"(IMS) of Quality Management Standards (QMS) ISO 9001:2015, & Environmental Management Standards (EMS) 14001:2015 and Occupational Health & Safety Standards (OSHAAS) 45001:2015 . This is in addition to the certification of ISO 9001:2008 that your company possess.

People and Processes

We continue in investing and developing existing talent, and source human resources when needed. We continue to conduct workshops on both technical, and soft skills, with the help of internally created teams, and external experts. We have in place a 'Whistle Blower' policy keeping in check with the best practices (Detailed in the Corporate Governance Section).

We have launched initiatives that have brought down attrition rate by nearly 35% in the blue collared work force, one of which is a structured skill up-grad

The company impressed with record earnings, with revenues of ₹ 2,079 Mn and profits of ₹ 105.95 Mn

The year that was:

five significant milestones that defined the year for us

1

ERP & Enterprise Risk Management

We are in the process of implementing a state of the art online ERP system that would provide timely information for managerial decision-making and help us manage enterprise wide risk.

2

Human Initiatives

We adopt a scientific approach to help with attrition as well, and this coupled with a humane touch has brought down attrition levels of the blue-collared work force by 35%. We have also established a 'Good-will Store' for the workers, besides the routine health, and medical camps.

3

Improved Financial Strength

The rating agency, CARE has improved both our long term, and short-term ratings to BBB+ and A3+ respectively. We feel there is a strong case of this improving further, as these were based on the half-year performance, and this year we have come out with record profits, and margin, and metric improvements across income and balance sheet statements.

4

Emmbi Innovation Labs

It is the hard work of the people at Emmbi that has been an enabler for the Government of India, to award the prestigious R&D recognition. Besides the financial benefits from a tax saving perspective, we are now a preferred bidder for many government projects. We would also get invaluable intangible benefits such as visibility in the international arena, through government initiatives. We understand that at Emmbi we do not rest on our laurels, and innovation is a continuous process.

5

Food and Pharmaceutical Grade Packaging

We commenced the construction of "Positive Pressure Clean Room facility for manufacturing of Food and Pharmaceutical Grade FIBC Packaging Material". This is expected to go completely on stream by the end of this calendar year, and shall initially help the company strengthen its product foothold in the international market, especially the US (as the revised FDA guidelines advocate use of food grade material for packaging for the entire value-chain of food and pharmaceutical products.

tion programme. As the cover of the annual report shows, our employees are at the heart of each of our core activity, and it is due to them we stand on firm ground.

Information Technology

We are in the process of integrating our plants located at five different locations, the head offices in Mumbai, and the offices overseas through an integrated ERP Platform. We believe in addition to providing timely reports this would reduce costs, and aid us immensely in managerial decision making.

Research & Development Department

The company's policy of continuous innovation, and investing in home-grown research over the years, has not only translated to tangible benefits, but has importantly helped in getting an accredited as a full-fledged R&D Development centre by the Government of India. This not only helps us getting tangible benefits like tax breaks, excise and customs benefits, preferred bidder for Government projects etc. We also get invaluable intangible benefits such as visibility in the international arena, through government initiatives.

Financial Analysis

Statement of Income Revenue from Operations

The top-line growth of 12.83% was aided by increases in revenues in both exports (6.34%), and domestic sales (6.49%). Growth was in line with the strategy of reducing dependence on low margin business, and focusing on margin driven segments, and products. Whilst there was de-growth (9.02%) in the Speciality Packaging business, which was a conscious decision by the company to exit certain low margin products, Advance Composites registered a smart climb of 36.51%. The Water Conservation and Agri Product segments also clocked high double-digit increases in revenues and contribute to almost 20% of the total revenues.

BUSINESS SPLIT

Cost of Operations

The increase in the cost of operations at 11%, was lower than the growth in revenues, and the overall margins witnessed smart improvements. EBIDTA at ₹ 270 million (₹ 202 million) registered an impressive growth of 35%. Manufacturing expenses were lower compared to the previous year, on account of both economies of scale (operational leverage), as well as adoption of innovative methods to lower costs.

Purchases were higher to aid the increased sales, and as always the company augments purchases in the last quarter to mitigate any shortfall in raw materials availability. The company established an

office in Denmark, that led to an increase in the establishment expenses, we anticipate that this would not only lead to additional revenues in terms of new clientele, but also an improvement in the sales realisations.

GEOGRAPHIC SPREAD

Where the Rupee was spent?

Cost of Finance

Finance costs stood at ₹ 90million (₹ 89 million) despite incremental borrowings, as incremental debt was utilised to retire high cost debt. We believe the recent upgrade on the company's credit ratings, coupled with the possibility of a declining rate scenario would help in the overall reduction in interest costs. Depreciation and amortisation expenses stood at ₹ 37 million (₹ 31 million).

Profits and Distribution

Emmbi industries continued to improve its profit margins, and delivered results with Profits after Tax at ₹ 105 million (a 78% growth), and the management, and the board decided to reward the shareholders by increasing the dividend to ₹ 0.50 (₹ 0.30) per share.

Balance Sheet Items

Emmbi has always prided itself in growing conservatively, with minimum risks to shareholders, and its stakeholders.

Assets and Deployment

Assets for the year stood at ₹ 1,651 million (₹ 1,562 million), the 5.65% growth primarily on account of investments in the new line, since operational.

Current Assets

Inventories stood at the year-end stood at ₹ 570 million (₹ 547 million) or almost five months at 147 days (151 days). This was an improvement despite the 12.83% growth in revenues, and tapping new markets. The average inventories holding is normally three months, however as highlighted earlier, the primary supplier of raw materials to the industry normally shutdown their plant for maintenance in March, so as a prudent principle the company maintains higher inventories in the last quarter.

Cash in hand decreased to ₹ 10 million (₹ 33 million) to meet advances for the factory expansion; Receivables at ₹ 321 million (₹ 334 million) was in line with the growth in business, and the collection period improved to 53 days (62 days). The company is very prudent in extending credit terms to its suppliers, and this is well below the industry average.

Fixed Assets

The company expanded its factory operations, through an additional investment in building and machinery, research and development by ₹ 71 million.

Capital and Borrowings

The growth was financed through a mix of internal accruals, additional term borrowings, and working capital. Debt-Equity was at the same level and very conservative at 0.25x, and the current ratio at a healthy 1.31x (1.27x). This indicated that liquidity, and the solvency parameters are strong, and the ability to absorb unforeseen shocks. The company's payables to creditors stood at 32 days, and the company uses the policy of both cash, and credit towards its purchases.

Total net worth increased to ₹ 730 million (₹ 634 million), whilst overall bank borrowings reduced to ₹ 591 million (₹ 767 million). In the course of the year the company repaid its obligations, as per schedule.

Going places!

Retail is likely to emerge as a key growth area for us, especially with our Agri and Water Conservation product lines. Our retail push is supplemented by innovative ways of creating visibility, such as our vehicles.

Hands nurture prosperity

With close to 69% of India living in villages, the rural economy is critical to the country's progress. Emmbi is doing its bit for the country's farmers by creating products especially suited to their needs and requirements. Two such products are Jalsanchay Pond Liners and Crop covers.

Jalsanchay Pond Liner is a unique product that meets the highest standards of quality, efficiency and safety. Its superior barrier properties ensure that farmers can easily use it to create an artificial pond, thereby helping irrigate their land.

Crop Covers help farmers protect their crop against the elements, especially at a young age. Emmbi Crop Covers combine superior protection with breathability to ensure that the crop continues to get its supply of oxygen, while keeping the harsher elements of nature at bay.

Both these products received an excellent response from the farming community at Kissan 2015, India's premier exhibition dedicated to farmers.

Emmbi Jalsanchay Pond Liners (above) make it very simple and economical for farmers to create artificial ponds or reservoirs, thereby assuring them of a regular supply of water for their irrigation needs.

Corporate Governance Report

I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate governance seeks to raise the standards of corporate management, strengthen the Board systems, significantly increase its effectiveness and ultimately serve the objective of maximizing the shareholders' value. Corporate Governance ensures fairness, transparency and integrity of the management.

The Company's philosophy on Corporate Governance envisages accountability, responsibility and transparency in the conduct of the Company's business and its affairs vis-à-vis its employees, shareholders, bankers, lenders, government, suppliers, dealers, customers, etc. and accordingly lays great emphasis on regulatory compliances. Hands conserve water

Scarcity of water is quickly becoming a problem of global proportions. In India, the problem is even more acute, especially in the rural areas. According to the Water Resources Institute, close to 54% of India faces high to very high water stress. 57% of rural households in India need to commute 30 minutes or more, just to get access to drinking water.

At Emmbi, we feel it is our moral responsibility and national duty to create solutions to this problem. We developed a range of flexible water storage and transportation tanks with a view to mitigate the problem. Long-lasting and highly affordable as compared to the other solutions, our flexible tanks build on our expertise in polymers.

We test-marketed the range at Kissan 2015, the largest exhibition focused on agriculture in Maharashtra. The tanks received an overwhelming response, encouraging us to work on a focused strategy to commercialize the product.

Our Flexible Water Tanks offer the most convenient and cost-effective means of storage and transportation of water. Each of these designs has been successfully patented by us.

Independent Auditors' Report

TO THE MEMBERS OF
EMMBI INDUSTRIES LIMITED.

Report on the Financial Statements

We have audited the accompanying financial statements of EMMBI INDUSTRIES LIMITED, ("the Company") which comprise the Balance Sheet as at 31st March, 2016, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the company in accordance with the accounting principles generally accepted in India including accounting standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order under section 143(11) of the Act.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation and presentation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2016;

- (b) In the case of the Statement of Profit and Loss, of the Profit of the Company for the year ended on that date, and
(c) In the case of the Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016, ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our Audit.
 - b) In our opinion, proper books of accounts as required by law, have been kept by the Company so far as appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the Books of Account.
 - d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of written representations received from the Directors as on March 31, 2016, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2016, from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the Internal Financial Controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanation given to us;
 - i. The Company has disclosed its pending litigations in its financial statements as referred to in Note 19 (c) to the financial statements.
 - ii. The Company did not have any long term contracts including derivative contracts; as such the question of commenting on any material foreseeable losses thereon does not arise.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in Paragraph 2 (f) of the Independent Auditors' Report of even date to the members of Emmbi Industries Ltd. on the financial statements for the year ended March 31, 2016)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub Section 3 of Section 143 of the Act.

1. We have audited the internal financial controls over financial reporting of Emmbi Industries Ltd. ("the Company") as of 31 March, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on internal controls over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013 ("the Act").

Auditor' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under Section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by ICAI.

Non Current investments are valued at cost less provision for diminution other than temporary diminution in the carrying value of investment.

6 Valuation of Inventories

Items of inventories are valued at lower of cost or net realisable value. Cost of inventories comprise of all cost of purchase, cost of conversion and other costs incurred in bringing the inventory to their present location and condition. Raw materials, Stores and Spares are valued at weighted average cost. Processed stocks and finished goods are valued at material cost plus appropriate value of overheads. Provision for Excise duty on opening and closing inventory of finished goods (domestic stock and wastage) is included under Note No. 9

7 Revenue Recognition

Revenue (Income) is recognised only when it is reasonably certain that the ultimate collection will be made and after all the risks and rewards of ownership is transferred to the customer. Interest on Investments is recognised on a time proportion basis taking into account amounts invested and the rate of interest applicable. Dividend Income on Investments is recognised for when the right to receive the payment is established.

8 Sales

Sales are recognised on dispatch of material to customers. Sales are net of indirect taxes payable.

9 Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised but are disclosed in the notes. There are no Contingent Assets.

10 Employee Benefits

- a) Gratuity is accounted on the basis of valuation made by the LIC Company created Trust with LIC for Gratuity. Contribution is paid to LIC Employees Group Gratuity Fund.
- b) Short Term Employee benefits
The undiscounted amount of Short Term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the services.
- c) Bonus and Leave Encashment is paid during the year.

11 Foreign Exchange Transactions

- a) Transactions in Foreign Currency are accounted at the exchange rate prevailing on the date of Transactions. Exchange fluctuations between the transaction date and the settlement date in respect of Revenue Transactions are recognized in Profit & Loss A/c
- b) All export proceeds not realised at the year end are restated at the rate prescribed in the month of March by Central Board of Excise and Customs. The exchange difference arising there from has been recognised as income / expenses in the Current Year's Profit & Loss A/c
- c) Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Profit and Loss statement except in case of long term liabilities, where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

12 Borrowing Costs

Borrowing Costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A Qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue.

13 Research and Development Expenses

Revenue expenditure pertaining to research is charged to the Statement of Profit and loss, unless a product's technical feasibility has been established, in which case such expenditure is capitalised. Fixed assets utilised for Research and Development are capitalised and depreciated in accordance with the policies stated for Fixed Assets.

14 Taxes on Income

Tax Expense comprises of Current Tax and Deferred Tax

- a) Current tax is measured at the amount expected to be paid to the tax authorities, after taking into consideration benefits admissible under the provisions of the Income - Tax Act, 1961.
- b) Deferred tax liabilities are recognised for future tax consequences attributable to the "timing differences" between taxable income and accounting income that are capable of reversal in one or more subsequent periods and are measured using the tax rates and laws that have been enacted or substantively enacted as on the Balance Sheet date. Deferred Tax Asset is not recognised unless there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax asset can be realised.

15 Earning Per Share

Basic Earning per share is calculated by dividing the Net Profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Hands keep our food hygienic

Food Safety is an issue that many governments around the world are seized upon. One of the variables that affects the food industry is the transportation of food items. While most regulation focuses on the preparation and storage of food, transportation is an area that's often not scrutinized so minutely. That is set to change, with the Government notifying new guidelines that makes the use of food-grade polymers in transportation, mandatory.

At Emmbi, we are already ready for the challenges that the future holds. We completed the construction of a facility specifically for food-grade bags. Housed in a special clean room that maintains a 'positive pressure', this facility ensures that our bags are not contaminated by external contaminants during their manufacture and storage. Going forward, we see significant revenues and margins from this facility as the new guidelines come into force.

Emmbi's Food- and Pharma-grade Flexible Intermediate Bulk Containers help differentiate the company and its offerings from the competition, in addition to commanding a significant premium and loyalty from our customers.

Hands help each other

Ultimately, creating a brighter world begins with spreading happiness and brightening our community and our society. Charity, as they say, begins at home. This is the underlying philosophy behind our Corporate Citizenship initiatives.

The Emmbi Foundation spearheads all of Emmbi's corporate social responsibility initiatives. In doing so, the Foundation looks for ways and means of making a real difference to the people that Emmbi touches.

One such initiative that the Foundation piloted this year was the Sahyog Store. The Sahyog Store operates on a simple premise – that each one of us possesses a number of articles which someone else could make better use of. So, the store encouraged Emmbi employees to donate unused articles (like the numerous gifts received at Diwali that we might never use). The employees at the factory were entitled to pick any article that they wanted from the store, completely free of cost. The Sahyog Store thus, became a true embodiment of the spirit of giving.

In the year gone by, the Emmbi Foundation undertook a number of activities including conducting medical camps (top left and middle right) and helping workers through the Sahyog Store (middle left), besides sponsoring the India U-19 cricket team on tour to Malaysia (bottom right). Our employees also volunteered at the North Mumbai Marathon (top right and bottom left).
