LETTER FROM THE CHAIRMAN

Dear Members,

I would like to extend my warm welcome to you all, to the 27th Annual General Meeting of the Company.

As you all are aware that financial year 2017 - 18, was a very challenging year for the global economy and the steel industry in particular. These unfavorable conditions inevitably affected our results adversely.

Due to the unfavorable market conditions in steel industry and meltdown in the prices of nickel, chromium, molybdenum, and levy of taxes on Import there was pressure on the receivables, stock valuations and selling prices which resulted into heavy operational losses during the financial year 2017-18.

On the operational front, the Company on standalone basis has recorded net revenue of Rs. 4663.35 Lakhs as compared to Rs. 14,513.70 Lakhs of previous year. The net loss before tax is Rs. 24,826.70 Lakhs as compared to previous year's loss before tax of Rs. 15,130.24. Lakhs. The Company has suffered net loss after tax of Rs. 24,076.33 Lakhs as compared to previous year's loss after tax of Rs. 15,139.75 Lakhs. The Earning Per Share (EPS) stood at (13.76).

Despite of all the above adverse situations, including levy of anti dumping duty by US government, the Company continues to work and to strive towards making permanent structural changes that will allow the company not just to survive, but to grow in the future.

We are facing serious challenges, but we will not be bowed down from achieving our principal objective i.e. to earn a pre eminent position in manufacturing high grade stainless steel products in India.

We are quite hopeful for the future as present government is coming up with new avenues for Stainless Steel Products, which would be in favour of your Company.

We are committed and determined to make the Company once again profitable, competitive and capable to achieve even greater success in the future.

I would like to express my sincere appreciation to our shareholders for the support and confidence reposed on us, and all other stakeholders and Government agencies, our bankers for the continuing commitment and support your Company.

We look forward for your continued support in this crucial time with the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

The Management of **Prakash Steelage Limited**, presents its analysis report covering performance and outlook of the Company. The core business of the Company is manufacturing and exporting stainless steel tubes and pipes. It has its registered office located in Mumbai, Maharashtra and plant located at Silvassa (UT – Dadra & Nagar Haveli) The Management accepts responsibility for integrity and objectivity of the Financial Statements of the Company.

Industry Structure and Developments:

Worldwide production of steel pipe is expecting the year 2018-2019 onwards an upward trend. According to estimates of the German Steel Tube Association, the outlook for the steel pipe industry has improved since 2016. It predicts that investment activities in the energy sector, which had practically reached a complete standstill after the crude oil price collapse in 2015, are starting to return to normal. In addition to the resulting backlog, the cyclical upswing in raw material and steel prices should benefit the sector just as much as the continued robust economic activity in the industrialized world. Playing important roles are the relatively favorable energy prices, expansive fiscal policies, and the favorable euro-to-dollar exchange rate. On top of this, the association expects North America's anticipated expansive economic policies, and an energy policy that puts a stronger focus on fossil fuels, to have a positive effect on the steel pipe industry. Global Stainless Steel Pipes and Tubes market is projected to display a sustainable growth represented by a CAGR of over 3.55% during 2017 - 2022, primarily driven by rising energy demand and production of vehicles. The Stainless Steel Pipe and Tube is expected to lead the market in the forecast period. Among the regions, Asia Pacific accounts for the largest regional share in the Global Stainless Steel Pipe and Tube Market in 2016. However, Asia Pacific also projected to progress at the highest rate, mainly driven by construction of major infrastructural projects and power projects and increasing demand of oil and gas. Additionally, the investment in Water supply and desalination projects foster the demand of stainless steel pipe and tube.

Opportunities, Threats, Risks and Concerns:

As is normal and prevalent for any business, the Company is likely to face competition from large scale imports. There can be risks inherent in meeting unforeseen situation, not uncommon in the industry. Company is fully aware of these challenges and is geared to meet them. Company also recognizes the risks associated with business and would take adequate measures to address the associated risks and concerns. Some of these factors include competition from multinational Companies, duty free imports by customers against export obligations, our pricing strategy being mainly dependent on import affairs and dependence on imported raw material.

Segment – wise or Product wise performance:

Pursuant to the Joint Venture Agreement executed between Tubacex S.A. Spain and the Company dated 13th February, 2015, in order to reduce its bank debts. However, the Company retains 32.47% shareholding in Tubacex Prakash India Private Limited post transfer of such seamless division. The Company continues to manufacture the welded tubes and pipes and also trade in Stainless Steel products.

Outlook:

Steel Industry in India seems to be positive despite continuing global economic slowdown. This optimism stems from many factors. The Indian steel industry is in some ways insulated from the events affecting steel industry on a global scale as it does not rely on export to the developed markets. Despite high interest rates and marginal slowdown in economic activity, the basic economic fundamentals will ensure stable performance of the economy in coming year. Indian Steel production is set to meet the target of 200 million tonnes by 2020. This will result in India reaching second place in world steel production. The Summit on Steel was organized by Confederation of Indian Industry (CII). Public and private players discussed their intention to expand their existing capacities of steel. Industry value Added (IVA), or the industry's contribution to the overall economy, is expected to grow at an annualized increase by 0.7% to nearly 1.627 billion tonne in 2019 with India poised to overtake the US and grab the No. 2 slot in terms of global steel demand. Industry's growth in relation to that of the overall economy indicates that it is mature.

Internal Control systems and their adequacy:

The Company has in place adequate Internal Financial Controls with reference to financial statements and such internal financial controls are operating effectively. Your company has adopted policies and procedures for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records and timely preparation of reliable financial statements.

Discussion on financial performance with respect to operational performance:

On the operational front, the Company on standalone basis has recorded net revenue of Rs. 4,930.17 Lakhs as compared to Rs. 16,371.82 Lakhs in the previous year. The net loss before tax is Rs. 24,826.70 Lakhs as compared to previous year's net loss before tax of Rs. 15,130.23 Lakhs. The Company has suffered net loss after tax of Rs. 24,076.33 Lakhs as compared to previous year's net loss after tax of Rs. 15,139.74 Lakhs.

Material developments in Human Resources / Industrial Relations front, including number of people employed:

The Company continued to cultivate a learning mindset among employees with the help of its experienced talent pool to ensure they are ready for the challenges ahead and be well positioned for the future. The company has maintained an unbroken record of trouble free operations and good relations with its internal workmen union.

Cautionary Statement:

Statements in this Management Discussion and Analysis Report describing the Company's objectives, projections, estimates and expectations may be termed as "forward looking statements" within the meaning of applicable Laws and Regulations. Actual results may differ materially from those either expressed or implied. The readers of this report are, therefore, advised to read the same with this caution. INDEPENDENT AUDITOR'S REPORT

To the members of **Prakash Steelage Limited**,

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Prakash Steelage Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement (hereinafter referred to as "Ind AS Financial Statements), the Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for Ind AS the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act, read with relevant rules thereunder and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Basis for Qualified Opinion

1) The account of the Company with its consortium Banks has turned Non Performing Asset on various dates. In view of uncertainty the Company has not provided interest including penal interest and other dues for the year ended March, 2018 on borrowings, to the extent the same have remained unpaid. The impact of the same on the loss for the year and its consequent effect on the Liabilities and Reserve & Surplus is not ascertainable (Refer note no. – 40)

2) The Company has accumulated losses resulting in erosion of Net Worth and has incurred net cash losses in the previous Financial Years. These conditions cast serious doubt about the company's ability to continue as a going concern. However, the statement of audited financial results of the Company has been prepared on a going concern basis. (Refer note no. – 42)

Opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the basis for qualified opinion para, aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at 31st March, 2018, and its loss(including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Emphasis of Matter

We draw attention to:

- I. Note no. 36 of statement of audited financial results which states that exceptional item represents provision for doubtful debts of Rs. 24,916.88 Lakhs. In the said exceptional items the company has initiated legal action to recover the long outstanding debts. In few cases the debtors have also initiated cases against the company raising quality concerns. As a result the company foresees remote chances of recovery of the said debts and hence has provided for doubtful debts.
- II. Note no. 40 of statement of audited financial results stating that the Company has unfavorable market conditions for steel industry, which has resulted in pressure on the realization of receivables, stock and selling prices.
- III. Note no. 41 of statement of audited financial results stating that the company has submitted its proposal to the consortium banks towards settlement of its borrowing through the Assets Reconstruction Company (ARC) route. This proposal is under active consideration by the consortium banks. Meanwhile the bankers have taken symbolic possession of the collaterals of the company comprising of factory land, factory building, office building and plant and machinery located at Silvassa.
- IV. Some of the balances of Trade Receivables, Deposits, Loans & Advances, Advances received from customers, Liability for expenses and Trade Payables are subject to confirmation from the respective parties and consequential reconciliation/adjustment arising there from, if any.
- V. Note no. 37 of statement of audited financial results stating that the Company has reversed the income tax provisions for the earlier years, as according to management same is no longer payable.

Our conclusion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the **Annexure A**, a statement on the matters specified in the paragraph 3 and 4 of the order.

 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, we give our separate report in "**Annexure B**".
 - (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended) in our opinion and to the best of our information and according to the explanations given to us:

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Prakash Steelage Limited** ("the Company") as of 31 March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information & according to the explanations give to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2.02 Basis of Preparation and Presentation :

The Financial Statements have been prepared on the historical cost basis except for defined benefit plans which are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes in to account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The financial statements are presented in Indian currency (INR) which is the Company's functional and presentation currency.

The financial statements were approved for issue by the Board of Directors on 28th May, 2018.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current-non current classification of assets and liabilities.

The unadjusted credits of such duties and taxes are shown under the head other current / non-current assets.

2.06 Property, Plant and Equipment :

Property, plant and equipment is stated at acquisition cost inclusive of expenses directly attributable to acquisition of such assets net of accumulated depreciation, refundable duties and taxes and accumulated impairment losses, if any. **Subsequent costs** are included in the asset's carrying amount or recognised as asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or Losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013. Depreciation on fixed assets is provided on Written Down Value (WDV) method except for fixed assets pertaining to umbrella unit where the depreciation is charged on SLM basis. The useful life, residual value and the depreciation method are reviewed at least at each financial year end and adjusted prospectively.

Capital Work in Progress/ intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing costs

Transition to Ind AS :

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1st April, 2017 measured as per IGAAP as the deemed cost of the property, plant and equipment.

2.07 Intangible Assets :

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Transition to Ind AS :

On transition to Ind AS, the Company has elected to continue with the carrying value of intangible assets recognised as at 1st April, 2017 measured as per IGAAP as the deemed cost of intangible assets.

2.08 Impairment of assets :

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) earlier.

2.09 Financial instruments :

1. Initial recognition and measurement

Financial assets and/or financial liabilities are recognised when the Company becomes party to a contract embodying the related financial instruments. All financial assets, financial liabilities are initially measured at fair value. Transaction costs that are attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from as the case may be, the fair value of such assets or liabilities, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2. Financial assets:

Classification and subsequent measurement of financial assets:

a) Classification of financial assets :

- (i) The Company classifies its financial assets in the following measurement categories:
 - those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
 - those measured at amortised cost.
- (ii) The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows.
- (iii) For investments in debt instruments, this will depend on the business model in which the investment is held.
- (iv) The Company reclassifies debt investments when and only when its business model for managing those assets changes.

b) Subsequent Measurement

(i) Debt instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

(1) Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(2) Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are subsequently measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

(3) Financial assets at fair value through profit or loss (FVTPL)

Financial assets are subsequently measured at fair value through profit or loss unless it is measured at amortised cost or fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

(ii) Equity instruments:

The Company subsequently measures all equity investments at fair value. There are two measurement categories into which the Company classifies its equity instruments:

Investments in equity instruments at FVTPL:

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for equity instruments which are not held for trading.

Investments in equity instruments at FVTOCI:

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses

arising from changes in fair value recognised in other comprehensive income and accumulated in the reserve for 'equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments.

c) Impairment of financial assets:

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset. For trade receivables, the Company measures the loss allowance at an amount equal to lifetime expected credit losses. Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

d) Derecognition of financial assets:

A financial asset is primarily derecognised when:

1. The right to receive cash flows from the asset has expired, or
2. The Company has transferred its rights to receive cash flows from the asset; and

(a) the Company has transferred substantially all the risks and rewards of the asset, or

(b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety (other than investments in equity instruments at FVOCI), the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

3. Financial liabilities and equity instruments

Classification as debt or equity.

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments :

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instrument is recognised and deducted directly in equity. No gain or loss is recognised in the Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial Liabilities :

Classification and subsequent measurement

The Company's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments. Subsequent measurement of financial liabilities depends on their classification as fair value through Profit and loss or at amortized cost. All changes in fair value of financial liabilities classified as FVTPL are recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortised cost using the Effective Interest Rate method.

Derecognition :

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in profit and loss when the liabilities are derecognized.

Offsetting of financial instruments :

Financial assets and financial liabilities are offset and presented on net basis in the Balance Sheet when there is a currently enforceable legal right to offset the recognised amounts and there is an intention either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.10 Inventories:

- i) Raw materials have been valued at lower of cost or net realisable value based upon FIFO method except where the material is specifically identifiable.
- ii) Work in Progress has been valued on Cost of Raw-material and other direct costs depending upon the stage of completion in general.
- iii) Finished goods and trading stocks have been valued at lower of costs or net realisable value based upon FIFO method except where the finished goods are specifically identifiable.
- iv) Scraps, defectives and inferior production have been valued at net realisable value.
- v) Stores, spares and consumables have been valued at lower of cost or net realisable value.

Cost/Rate considered above for valuation of inventory is exclusive of Cenvat, refundable CVD and VAT/GST component and inclusive of other direct cost incurred for acquiring the respective material.

2.11 Foreign currencies:

Items included in the financial statements of the Company are recorded using the currency of the primary economic environment (INR) in which the Company operates (the 'functional currency').

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions, and from translation of monetary assets and liabilities at the reporting date exchange rates are recognised in the Statement of Profit and Loss.

Monetary items denominated in foreign currencies at the year end are restated at year end rates.

Non monetary foreign currency items are carried at cost.

Exchange differences, other than those which are regarded as an adjustment to interest cost, arising on repayment of liabilities and conversion of year-end foreign currency balances pertaining to long term loans for acquiring depreciable assets including capital work in progress are adjusted in the carrying cost of these assets.

2.12 Employee Benefits :

Retirement benefit costs and termination benefits:

Defined Contribution Plans

Payment to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. Contributions to Provident Fund and Employees State Insurance Corporation, which are defined contribution plans, are made as required by the statute and expensed in the Statement of profit and loss.

Defined Benefit Plans

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement comprising actuarial gains and losses and the effect of the changes to the return of plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in the other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss. Past service cost is recognised in Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in the Statement of Profit and Loss in the line item "Employee benefits expense". Curtailment gains and losses are accounted for as past service cost.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for the termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognizes any related restructuring costs.

Short-term and other long-term employee benefits:

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange of related service.

Liabilities recognized in respect of other long-term employee benefits are measured at present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employee upto the reporting date.

2.13 Finance Costs :

- (a) Borrowing costs that are attributable to the acquisition, construction, or production of a qualifying asset are capitalised as a part of the cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time (generally over twelve months) to get ready for its intended use or sale.
- (b) All other borrowing costs are recognised as expense in the period in which they are incurred.

2.14 Taxation:

Income Tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year.

Deferred tax :

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Company's financial statements and the corresponding tax bases used in computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences.

Deferred tax assets including Minimum Alternate Tax (MAT) are generally recognised for all taxable temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets relating to unabsorbed depreciation/business losses/losses under the head "capital gains" are recognised and carried forward to the extent of available taxable temporary differences or where there is convincing other evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current Tax Assets and Current Tax Liabilities are offset when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle the asset and liability on a net basis. Deferred Tax Assets and Deferred Tax Liability are offset when they relate to the same governing taxation laws.

Current and Deferred tax is recognised in Statement of Profit and Loss, except when it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.15 Provisions, Contingent Liabilities and Contingent Assets:

Provisions : Provisions are recognised when there is a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured using the cash flows estimated to settle the present obligation at the Balance sheet date.

Contingent Liabilities : Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent Assets : Contingent assets are disclosed, where an inflow of economic benefits is probable

2.16 Cash and cash equivalents:

Cash and Cash equivalents include cash, cheques on hand, cash at bank and short term deposits with banks having original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.17 Statement of Cash Flows:

Cash flows are reported using the indirect method whereby profit / (loss) is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.18 Dividend to equity shareholders:

Dividend to equity shareholders is recognised as a liability and deducted from shareholders' equity, in the period in which the dividends are approved by the equity shareholders in the general meeting.

2.19 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.20 Critical accounting judgements and key sources of estimation uncertainty:

The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes judgements, estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to significant accounting estimates include useful lives and impairment of property, plant and equipment, allowance for doubtful debts/advances,

deferred tax assets, future obligations in respect of retirement benefit plans, expected cost of completion of contracts, allowances for inventories, etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

(i) Useful lives and Impairment of property, plant and equipment :

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This re-assessment may result in change in depreciation expense in future periods.

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset.

(ii) Allowance for doubtful debts/advances :

When determining the lifetime expected credit losses for trade receivables, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and credit assessment and including forward-looking information. Refer Note 9 (ii).

(iii) Deferred tax assets :

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits. The amount of total deferred tax assets could change if estimates of projected future taxable income or if tax regulations undergo a change.

(iv) Employee Benefit Obligations :

Employee benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(v) Allowance for Inventories :

An inventory provision is recognised for cases where the realisable value is estimated to be lower than the inventory carrying value. The inventory provision is estimated taking into account various factors, including prevailing sales prices of inventory item and losses associated with obsolete / non-moving inventory items.

2.21 First time adoption of Ind AS:

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from 1st April, 2017, with a transition date of 1st April, 2016. These financial statements for the year ended 31st March, 2018 are the first financial statements the Company has prepared under Ind AS. For all periods upto and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with rule 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP').

The Company has prepared opening Balance Sheet as per Ind AS as of April 1, 2016 (transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, derecognising items of assets or liabilities which are not permitted to be recognised by Ind AS, reclassifying items from Previous GAAP to Ind AS as required, and applying Ind AS to measure the recognised assets and liabilities. The optional exemption and mandatory exceptions availed by the Company under Ind AS 101 are as follows:

A. Optional Exemption:

Deemed cost for property, plant and equipment and intangible assets

The Company has elected to continue with the carrying value determined in accordance with Previous GAAP for all of its property, plant and equipment and intangible assets recognised as of April 1, 2016 (transition date) and use that carrying value as deemed cost of such assets as of transition date.

B. Mandatory Exceptions :

Use of Estimates:

(i) On assessment of the estimates made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence of an error in those estimates. However, estimates that are required under Ind AS but not required under Previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

Under Ind AS, the actuarial gains and losses on re-measurement of net defined benefit obligations are recognised in Other Comprehensive Income.

(iv) Other material reclassification adjustments made in the Balance sheet and Statement of Profit and Loss

33 Employee benefit plans**1) Defined contribution plans :**

The Company participates in defined contribution plans on behalf of relevant personnel. Any expense recognized in relation to these schemes represents the value of contributions payable during the period by the Company at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The defined contribution plans are as below:

a) Provident fund

In accordance with the Employee's Provident Fund and Miscellaneous Provisions Act, 1952 eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The contributions, as specified under the law, are made to the provident fund administered and managed by Government of India (GOI). The Company has no further obligations under the fund managed by the GOI beyond its monthly contributions which are charged to the Statement of Profit and Loss in the period they are incurred. The benefits are paid to employees on their retirement or resignation from the Company.

Contribution to Defined Contribution Plans, recognized in the Statement of Profit and Loss for the year under employee benefits expense, are as under :

	As at 31-03-2018 Rs.	As at 31-03-2017 Rs.	As at 01-04-2016 Rs.

Total	7,53,909	9,60,554	21,42,787

(2) Defined Benefit Plans :

The Defined Benefit Plan is as below :

Gratuity

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. It provides for lump sum payment to vested employees at retirement, on death while in employment or on termination of the employment in terms of the provisions of the Payment of Gratuity Act, 1972 or as per the Company's Scheme, as applicable. Vesting occurs upon completion of five years of service. The Company accounts for the liability for gratuity benefits payable based on an actuarial valuation.

The plan typically exposes the Company to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Interest risk

If the Discount Rate i.e. the yield on the Government Bonds decrease in future, the Actuarial Liability will increase and vice versa.

The quantum of increase in valuation liability corresponding to specific decrease in the Discount Rate and vice versa, has been shown in the annexure containing the sensitivity Analysis of Key Actuarial Assumption.

Longevity risk

If the Mortality rate experienced by the staff of a particular company is higher than what is assumed in mortality Table used in the valuation, the valuation liability will increase.

However, it will be very cumbersome to measure the quantum of increase for assumed reduction of Mortality rates as can be done in case of changes in salary Growth Rate and Interest Rate.

Salary risk

If the salary Growth Rate over the future years of services is increased, the Actuarial Liability will increase and vice versa.

The quantum of increase in the valuation liability corresponding to specific increase in the salary growth rate and vice versa has been shown in the annexure containing Sensitivity Analysis of key Actuarial Assumption.

The most recent actuarial valuation of the present value of the defined benefit obligation was carried out at 31st March, 2018 by an independent actuary. The present value of the defined benefit obligation, the related current service cost and past service cost were measured using the projected unit credit method.
