Indian Plantation Industry & Joonktollee Tea

As the global population is expected to touch 7.25 billion at the end of 2014, the demand for beverages including tea & coffee is expected to surge even with a greater pace. India with a billion-plus population and aspirational high end earners, represents possible the world's most potent resource - a resource which is going to lead the world in productivity, thought leadership and action across every sphere.

The country is considered to be as a largest consumer of tea and so the prospects of Indian tea industry is bright for some significant reasons: a growing national population, established tea drinking tradition, low per capita consumption that is expected to rise in line with enhanced incomes, increased preference for better tea varieties and finally the fact that tea continues to be the cheapest beverage on offer. India is the second largest producer of tea in the world and contributes to around 30% of the global tea production. The market size of tea is estimated to be around ₹ 10,000 crore with a penetration of more than 90% in the domestic market. With an export of approx. 210 million kg of tea, India stands as the fourth largest exporter of tea in the world. Over the forecast period, retail value sales of tea is expected to witness a CAGR of 8% in constant value terms to reach ₹ 133 billion in 2017. Moreover, demand for coffee as a preferred alternative beverage is slowly finding a bigger space in our country through newer coffee retail outlets. While India only represents 1.4% of global demand, the sub-continent's coffee market is forecast to grow almost 9% to \$486.6 million this year, according to market-research firm Euro monitor International. That would follow growth of almost 80% over the past five years.

These demand prospects and a fact - the rich experience and expertise that we possess is going to benefit a company like ours in the Indian plantation industry.

As one of the leading plantation company,

offering a wider range of products including Tea, Coffee, Rubber, Pepper, Cardamom and Areca.

We envisage a vision,

that an eco-friendly business practice is a key to the preservation and protection of our natural resources.

We believe that quality remains an inherent feature of our Company,

by offering highest standards of products without harming the natural resources.

For more than 140 years,

our experience and expertise have always focused on marrying the two.

An integrated approach to refreshment and rejuvenation.

We are one of India's oldest plantation industry player focused into 3 main business verticals – Tea, Coffee and Rubber plantation. Enriched by more than a century-rich market insight, Joonktollee Tea has come a long way since its inception in 1874. Merely from managing the affairs of a small tea industry in upper Assam by Late John Elliot Esq., the company has come a long way since the change of ownership to house of Bangurs and is now regarded a leading producer of Assam CTC Tea.

Over the years, at Joonktollee Tea, refreshment and rejuvenation, has not only helped our organisation in increasing the topline and bottomline, it has also helped us in deriving the competitive edge through the rich talent pool we possess and growing our business while protecting the Mother Nature. We are proud to achieve a balanced interplay of People-Planet-Profits.

Refreshing, Rejuvenating by Ensuring quality & Enhancing viability

Corporate Overview	Refresh & Rejuvenate
9	Integrated Approach
	Story of Refreshing & Rejuvenating
	Tribute

Quality is not limited to the products we manufacture, but it is reflected in the manner we handle every aspect of our business. We cannot be recalled as a producer of quality products in the plantation industry if we are not concerned about the quality of our people, the quality of our processes and the quality of our management. It is only when quality becomes an intrinsic factor in our lives, that viability becomes automatic. When we achieve this level of quality leadership in everything we do, then only we are recognised as quality enablers.

The quality framework, implementation and learning programmes at Joonktollee Tea helps create a quality-driven organisation.

By virtue of the quality framework, learning programmes and engagement process activities at Joonktollee Tea, the quality standards are regarded as ever-present. We ensure superlative quality control, through continuous monitoring and standardising our plantation & process areas to best practices and required quality parameters.

Quality objectives at Joonktollee

- 👍 Deliver services and solutions that meet customer requirements.
- 👍 Continually enhance external and internal customer satisfaction.
- 👍 Offering highest standards of products without harming the consumer through a responsible and minimal usage of pesticides & chemicals into the plants thereby keeping them fresh, relaxed, mentally alert and healthy.

Joonktollee Tea's Quality Management System has been created over a span of years and are based on international frameworks and benchmarks it uses :

- ISO 9001:2008 certification by SGS U.K.
- ISO 22000:2005 certification by SGS U.K. to Joonktollee Tea Estate.
- ISO 9001:2008 certification by Det Norske Veritas of Netherland for Goomankhan Tea Estate.

The zeal towards maintaining & harnessing quality focus into the organisational culture has made Joonktollee Tea won several accolades and awards nationally and internationally.

- ★ International Star Award for Quality at Geneva for the year 2012-13.
- ★ Bharat Nav-Nirman Ratan Award for contribution toward Social and Economic Growth for the year 2012-13.
- ★ League of American Communication Professionals (LACP), USA awards for the best Annual Report during the year 2012-13. It won **Gold Award** in the "Consumer Consumables – Food / Beverages / Tobacco" category and was conferred with **38th rank** globally, out of 6,000 entries globally.

At Joonktollee Tea, growth is always complemented by an emphasis on product quality.

Refreshing, Rejuvenating by Ensuring togetherness

The story of Joonktolee Tea is not just about corporate strategies and their implementation, it is also about people who work together, help each other and strive hard to achieve a higher vision.

We are committed to a culture of diversity, which is reflected in our large and varied workforce. The value of this diversity is a rich and unique blend of minds and cultures that makes working at Joonktolee Tea more compelling and exciting. The organization's HR strategy is developed in alignment with the corporate strategy, focusing on leadership development and maximizing the return on investment from the organization's human capital.

At our organisation, employee participation is encouraged by inviting suggestions and opinions. This is coupled with competitive compensation, rewards and training through various development programmes. We encourage communication and a participative environment and also provide various proactive platforms for brain storming and idea sharing.

During the year 2013-14, we not only retained our existing workforce but also plan to hire selectively, while concurrently investing in capabilities improvement to drive organic growth.

It is assumed that corporate social responsibility is consequent to growth. We believe it is concurrent to our existence.

Corporate Social Responsibility and sustainability is central to our business as other verticals are. We pursue both with equal passion and we contribute to the development of peoples in our surrounding where we operate. Following the guidelines of the Plantation Labour Act, our Company adheres to the following initiatives :

- ❑ Basic schooling and electricity facilities in the surrounding villages.
- ❑ Potable drinking water and free health centre with ambulance and round-the-clock doctor for the employees and their family members.
- ❑ Staff quarter with free electricity, subsidised ration and temple at every garden & estate.
- ❑ Proper illumination of the approach road towards the garden & estate.
- ❑ Constantly abiding to the statutory requirements towards prevention of pollution and maintaining highest standards of safety and environment protection.

Sustainability is a fundamental principle of operation. We see it as a way to deepen our understanding of how to be better to our people, better to our planet and to stay profitable.

Refreshing, Rejuvenating by Ensuring prudent Governance practices

At Joonktolee Tea, our governance philosophies are based on transparency, accountability, values and ethics and are an integral part of the management's initiative in its pursuit towards excellence, growth and value creation. Our commitment towards highest standards of ethical governance practices and disclosure practices thereby ensure that the affairs are managed in the best interest of all stakeholders. Prudent governance practices are also reflected in the ethical & transparent ways, the meetings of the Company is conducted whereby every shareholder is invited to speak freely and interact with the management directly on varied topics related to the organisation.

Our multiple revenue platforms and cost-management initiatives help us deliver sustainable stakeholder returns. It is a predictable pattern that stakeholders expect from us. We are committed to fulfilling their expectations by strengthening current operations and leveraging future opportunities and de-risking our enterprise from the cyclicity of a single product segment and delivering visibility of our income in more ways than one.

We also endeavours to be a responsible corporate citizen, contributing to the country's exchequer. This has prudently been reflected in our Balance Sheet, whereby we contributed more than ₹ 1,214.60 Lacs during the last decade in the form of dividend tax, entry tax, service tax, etc. Even during the difficult of times, we have also endeavoured to pay rich dividends to our shareholders, which are clearly reflected through our track record of continuously paying dividend since last 60 years (after the acquisition of the Company by the House of Bangurs).

A glimpse....

We always aim to built a multi-ethnic organisation focusing on highest standards of governance practices and improved shareholders return.

A tribute to
Our beloved Chairman

Management Discussion and Analysis Report

The global economy had been remarkably tough in the last few years. Though global recession had not affected Indian economy till 2010, the ongoing slowdown, income level stagnation and continuation of rising inflation have gradually affected Indian economy after 2010. Indian economy as it was hurtling from one crisis to another, things were looking ominous. In plantation sector, Natural Rubber, Coffee etc. too could not desist the influences by these developments. But, after dismal macro-economic scenario for the last couple of years, we are now seeing a gradual improvement.

TEA

The world Tea production estimated at 4,625 m. kgs. in 2013 as compared to 4,534.5 m. kgs. in 2012. The world Tea production during the last decade has grown at an annual rate of 4%. The growth during the 2nd half of the decade was higher compared to the 1st half suggesting that price situation was generally conducive for higher crop intake.

India produced 1,200.04 m. kgs. of Tea during the year 2013 as compared to 1,126.33 m. kgs. in 2012. Indian Tea production was higher by 73.71 m. kgs. during the year 2013. The North Indian crop was higher by 70.49 m. kgs. while South Indian crop was estimated higher by 3.22 m. kgs. during the year 2013. The average price of Tea stood at ₹ 119.72 per kg. in 2013 as against ₹ 121.81 per kg. in 2012 represents a drop in Tea price by ₹ 2.09 per kg. The main reason for the drop in the average price was higher crop due to better weather condition.

The Company produced 53,80,878 kgs of Tea during the year ended 31st March, 2014 against 43,12,279 kgs. for the same period last year. The average price for Tea realized by the Company during the year ended 31st March, 2014 was ₹ 149/- per kg. in the North and ₹ 98/- per kg. in the South.

The production of the first flush of the new season this year is down due to heat wave and scanty rainfall damaging badly the Tea production in Assam. Pest attacks have worsened the situation further which may affect the Tea production of the second flush too. However, the initial crop loss might be recovered in the later part of the year if the rains are satisfactory. Tea prices are expected to remain firm due to gap in demand and supply for low production; and increase in the consumption. Loss of crop cannot be compensated

by increase in the Tea prices. However, taking into account the small carryover stocks and giving a low production on account of adverse weather during the first half of the current year, the prices of Tea are expected to be bullish.

There has not been any addition to the land under Tea cultivation in India in the organized sector since last couple of decades. However, significant area has been added in the unorganised sector which will both be an opportunity and threat to the non-quality producers. Threat of rising labour shortage especially, in South India exists to the Tea growers.

COFFEE

The global Coffee production during 2013 season was estimated at 145.8 m. bags as compared to 144.1 m. bags in the previous year, an increase of 0.5% on the previous year. The world Coffee consumption during 2013 was estimated at 142 m. bags as compared to 139 m. bags in 2012, an increase of 3 m. bags on the previous year. The international consumption of Coffee is growing @ 2.4% p.a. due to the strong potential for growth in exporting countries and emerging markets. Stocks and inventories are at low levels and as such there seems to be limited potential for further downward price corrections.

The Production of Coffee in India for the season 2013 was estimated at around 3,47,000 MT comprising of 111000 MT of Arabica and 2,26,000 MT of Robusta as compared to 3,15,500 MT in 2012 and thus Coffee production in India has increased as compared to last year due to the replantation

Management Discussion & Analysis Report

and expansion in the traditional as well as in the new area and improvement in productivity and quality. Coffee consumption in the country is growing at the rate of 5% to 6% in the last 5 years. The Coffee consumption in India over the last decade has increased by a mere 40 gms. to 96 gms. a person a year against European average of 4 kgs. a person a year. The country exported 3,00,525 tons of Coffee as compared to 3,16,160 tons in the earlier year. Sharp drop in the prices of Arabica variety contributed to the decline in the export.

The Company produced 1,94,445 kgs of Coffee comprising of 1,02,617 kgs. of Arabica and 91,828 kgs. of Robusta during the year ended 31st March, 2014 against 1,84,311 kgs. comprising of 76,570 Kgs. of Arabica and 1,07,741 kgs. of Robusta harvested for the same period last year. Coffee prices remain subdued for the year ended 31st March, 2014. The average price for Coffee realized by the Company during the year ended 31st March, 2014 was lower at ₹ 154/- per kg. as compared to ₹ 164.41 per kg. last year. The cost of production of Coffee has increased due to the increase in input costs. The Company has taken extensive re-plantation which will give higher yield in the years to come.

The trend for the global Coffee production in the last 15-20 years gives an impression that the Coffee production is increasing at a rate of 1.5% to 2% p.a. across the world while the consumption is growing consistently at not less than 2.5% p.a. The damage to the current crop in Brazil is irreversible with the Coffee growing areas in the world going through one of the hottest periods in recent years. The record high temperatures have made the plant suffer so much that the branches cannot yield the next crop. The prices therefore, will rule firm as the surplus stock of 3.5 m. bags of the last year has turned into a deficit of at least 4 m. bags. The outlook of Coffee appears to be promising.

RUBBER

The global production of Natural Rubber (NR) in 2013 was estimated at 11.7 m. tons registering an increase of 2.5% from 2012. In 2014, production is projected to touch 12.1 m. tons registering an increase of 3.4%. Meanwhile, NR consumption which was around 11.3 million tonnes in 2013, is expected to touch 11.9 million tonnes in 2014, an increase of 0.6 million tonnes. It is expected that consumption is likely to go up to 12.1 million tonnes in 2015. Taking the year 2013 as a whole NR production outstripped consumption by 4,00,000 tonnes. As a result, the implied stocks increased to 2 million tonnes in December 2013 and that the surplus of 2013 has been the largest in absolute tonnage terms.

India is the 4th largest producer of NR in the world and 2nd largest consumer next to China. The production of NR has progressed steadily in India over the past many decades

with expansion in planted area and rejuvenation of old plantation. NR production of India during 2013 was 9,50,000 tonnes as against 9,51,000 tonnes during the previous year. The Indian consumption of NR was reduced in 2013 and 2014 by 15,000 tonnes and 25,000 tonnes to 9,83,000 tonnes and 10,10,000 tonnes respectively. The average domestic price of RSS-4 was ₹ 184.37 per kg. as against ₹ 176.82 per kg. in the previous year. Fall in domestic production and strong demands have pushed up NR imports. This fall in output could not reflect in better price realization as high imports cushioned the domestic supply. However, there are indications that the situation may change for the better in the near term.

Company produced 7.43 lac kgs. of rubber during 2013-14 as against 9.45 lac kgs. during the previous year, a decrease of 2.02 lakh kgs. to the previous year due to drastically reducing rainfall and rising temperature. The Company continues to focus on quality to fetch premium in the market for its product comprises of latex and skim rubber. The average price of rubber realized by the Company for 2013-14 was ₹ 185.87 per DRC kg. as against ₹ 177.44 per DRC kg. last year, which was higher by ₹ 8.43 per DRC kg.

NR market has been on the decline over the past few years. At one time it reached the nadir in recent history, touching ₹ 150 a kg. Recent developments suggest that the price may bottom out in the near-term, though the recovery may not be strong enough to give a boost to the market as the record import of 2013 and carryover of its balance to 2014 may cushion the supply. The outlook of Rubber therefore appears to be muted.

RISKS AND CONCERNS

A note on the Risk and Concerns forming part of the Management Discussion and Analysis Report is attached.

HIGHLIGHTS OF FINANCIAL PERFORMANCE

A note on the Highlights of Financial Performance forming part of the Management Discussion and Analysis Report is attached.

Risks and Concerns

(forming part of the Management Discussion and Analysis Report)

Risk Management is an ongoing process that can help improve operation, prioritise resources, ensure regulatory compliance, achieve performance target, improve financial stability and ultimately prevent loss/damage to the entity. But business entities cannot be risk averse as profits in business without taking risk is highly unlikely. Risk management plays a key role in protecting the assets and resources and ensuring that risks are reduced to an acceptable level. The essence of the risk management is to reduce the risk to a reasonable and in manageable level on an ongoing basis. Risk management is a two-step process - determining what risks exist and, then, handling those risks in ways best-suited to the objectives. The Company has risk management which inter alia provides for review of the risk assessment and mitigation procedure, laying down procedure to inform and report periodically to the Board of Directors and to ensure that the procedure is properly followed to mitigate the risks. Some of the key risks and its mitigation are illustrated below :

INDUSTRY RISK

i) Tea, Coffee & Rubber are agricultural products and their performance depends on the vagaries of nature. For Tea & Rubber, timely rainfall is a pre-requisite. Similarly, for Coffee, adequate rainfall for pre and post blossom is required for formation of fruits. Untimely rain during the Coffee harvest season, and attack of tea thrips and jassids; caterpillar pests; tea mosquito bugs e.g. helopeltis; red spider mites, looper, termites etc. result in crop loss.

ii) Demand slowdown could dampen Company's profitability.

Risk Mitigation :

- Since timely information of weather plays a vital role for initiating steps towards application of fertilizers, chemicals and pesticides, steps are taken to get the weather information well in advance.
- Automatic weather prediction system has been installed at our Coffee Estate.
- Company is uprooting and replanting the uneconomical areas for the plantation of Tea, Coffee & Rubber in a phased manner.
- Company is in the process of adopting Tea Plantation Code introduced by the Tea Board of India.
- There is no additional land available which even otherwise could be converted into Tea production by the organized sectors and as such production of Tea for the next few years appears to be stagnant which may lead to demand & supply mismatch. Moreover, the domestic consumption of Tea in India is likely to have an annual growth of 3% to 4% and as such the Tea prices will remain firm.
- Similarly, Coffee prices will remain firm due to the low level of stocks especially of Robusta grade coffee.
- The consumption is exceeding the production and supply and thus ensures an opportunity to enhance the rubber production for the reason that the prevailing prices of the rubber may remain firm.

INDUSTRIAL RELATION RISK

The Company being labour intensive is faced with the threat of the labour unrest & labour shortage.

Risk Mitigation :

- The Company has been maintaining exceptionally good relations with the labour force since its inception and there have been no loss of man-days on this account. The Company expects that with the employee friendly approach being adopted by it, the industrial relations continue to remain cordial. The Company is attempting to attract workers from the non-traditional plantation districts of Orissa, Jharkhand and Assam.
- The Company is in the process of introducing Mechanical Harvesting System.

Risks and Concerns

INTELLECTUAL CAPITAL RISK	Risk Mitigation :
The Company may not have competent people to run the business.	<ul style="list-style-type: none"> ● Geared up recruitment process, focusing on prospective growth. ● Developed functional and behavioural skills through proactive training. ● Enjoys one of the lowest attrition rate in the industry.
OPERATING RISK	Risk Mitigation :
Operating risk refers to things that go wrong during the Company's everyday operations. Factory breakdown, or consignments of materials do not arrive on time etc.	Operating team is available to take corrective measures for such risks when it occurs.
COMPETITION RISK	Risk Mitigation :
Owing to the opening of the world trade Company is faced with the menace of pressure on margins on its products more particularly, Coffee & Rubber. The prices of the finished goods are based on the movement of the international prices.	Your Company has stepped up its focus on the quality, structural cost optimization and cost control measures.
FUNDING & LIQUIDITY RISK	Risk Mitigation :
The Company may not be able to source fund for capital expenditure and to manage daily operations.	<ul style="list-style-type: none"> ● Your Company has large reserves and surplus to fund the capital expenditure. ● Maintains low debt-equity ratio to facilitate low-cost funds mobilization over the coming years. ● Rated 'BBB' for (long term) credit by CRISIL, providing ample scope for further fund raising. ● Your Company has enough cash for meeting the operational cash requirements. ● Managed debtors' cycle at a comfortable level. ● Maintained a quick ratio of 0.30. ● Reduced average inventory days from 30 to 45 days.
GEOPOLITICAL AND ENVIRONMENTAL RISK	
War and terrorism represent a threat to disruption of entire activities of the Company. Geopolitical risk includes changes of government that might result in new and unfavourable regulations or tax regimes.	Such risks are analysed through the expert consultant and are to be understood once risks are stemming from the global issues. Once the range of possible future crisis has been established, contingency plans can then be put in place to deal with them.

We have audited the accompanying financial statements of **JOONKTOLLEE TEA & INDUSTRIES LIMITED ("the Company")**, which comprise the Balance Sheet as at March 31, 2014 and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") read with general circular 15/2013 dated 13th September 2013 by Ministry of Company Affairs in respect of section 133 of the Companies Act 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the financial

statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India :

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order"), as amended, issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that :
 - a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books.
 - c) The Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this report are in agreement with the books of account.
 - d) In our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 read with general circular 15/2013 dated 13th September 2013 by Ministry of Company Affairs in respect of section 133 of the Companies Act 2013;
 - e) On the basis of written representations received from the directors as on March 31st, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31st, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

Notes to Financial Statements

As at and for the year ended 31st March, 2014

1. SIGNIFICANT ACCOUNTING POLICIES

a) Accounting Convention

The financial statements have been prepared in accordance with historical cost convention, on accrual basis, in accordance with the generally accepted accounting principles in India, the applicable mandatory Accounting Standards and the relevant provisions of Companies Act, 1956.

b) Use of Estimates

The preparation of financial statements require estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognized in the period in which the results are known /materialized.

c) Fixed Assets and Depreciation

Fixed Assets

- i) Tangible Fixed Assets are stated at their original cost less depreciation. Cost includes incidental expenses. Profits or losses on sale of tangible fixed assets are included in the statement of profit and loss and calculated as difference between the value realized and book value. Capital work-in-progress is stated at cost.
- ii) Items of machinery spares to be used in connection with an item of tangible fixed assets are amortized over the useful life of the assets.
- iii) Land taken on perpetual lease is capitalized together with development expenditure incurred on the same.

Depreciation

- iv) Depreciation on tangible fixed assets other than land and tea plantation is provided on written down value basis in accordance with the provisions of Schedule XIV of the Companies Act, 1956. Land taken on perpetual lease is not amortized.
- v) All expenses incurred for extension of new areas of cultivation are capitalized. Cost of upkeep and maintenance of areas till not matured for plucking and cost of replanting in existing areas are charged to revenue.
- vi) Intangible assets are being amortized over a period of 5 years.

d) Government Grants

Grants and subsidies from the Government are

recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/ subsidy will be received.

Government grants related to specific tangible fixed assets are deducted from gross value of related assets in arriving at their book value. Government grants related to revenue are recognized in the statement of profit and loss.

e) Investment

Long term and unquoted investments are considered at cost, unless there is a permanent decline in value thereof, in which case, adequate provision is made in the accounts. Current investments are stated at lower of cost or market / fair value.

f) Inventories

- i) Stock of finished rubber, tea, coffee and minor produce (i.e. pepper and cardamom) are valued at cost (determined on weighted average basis) or net realizable value whichever is lower.
- ii) Stock of stores and spare parts are valued at cost (using the weighted average cost basis) or net realizable value which ever is lower.
- iii) Cost comprises all direct and indirect expenses.
- iv) Net realizable value is the estimated selling price in ordinary course of business less estimated cost of completion and estimated cost necessary to make the sale.
- v) Materials and other items held for use in the production of inventories are not written down below the cost of the finished products in which they will be incorporated are expected to be sold at or above cost.
- vi) Provision is made for obsolete and slow moving stocks where necessary.

g) Foreign Currency Transactions

- i) Foreign currency transactions are recorded at the rate of exchange prevailing on the dates when the relevant transactions take place.
- ii) Year end balances of foreign currency transactions are translated at exchange rates prevailing at the end of the year.
- iii) Any income or expense on account of exchange difference either on settlement or translation is recognized in the Statement of Profit and Loss.

Notes to Financial Statements

As at and for the year ended 31st March, 2014

h) Revenue Recognition

Sales are recognized in the accounts on passing of titles of the goods, i.e. delivery as per terms of sales or completion of auction in case of auction sale. Sale of standing trees is accounted as and when they are removed and the proceeds are credited to the Statement of Profit & Loss. Other income with related tax credits and expenditure are accounted for on accrual basis.

i) Employee Benefits

Short Term Employees Benefits

The undiscounted amount of short term employee benefit expected to be paid in exchange for the services rendered by employee is recognized during the period when the employee rendered the service. This benefit includes salary, wages, short term compensatory absences and bonus.

Long Term Employee Benefits

Defined Contribution Scheme

This benefit includes contribution to provident fund schemes and superannuation fund. The contribution is recognized during the period in which the employee renders service.

Defined Benefit Scheme

For defined benefit scheme the cost of providing benefit is determined using the projected unit credit method with actuarial valuation being carried out at each balance sheet date. The benefit obligation recognized in the balance sheet represents value of defined benefit obligation determined at the end of the year. Actuarial gains and losses are recognized in full during the period in which they occur.

Other Long Term Benefits

Long term compensation absence is provided for on the basis of an actuarial valuation, using the projected unit credit method as at the date of balance sheet.

j) Borrowing Costs

Borrowing costs, if attributable to qualifying assets (i.e. assets that necessarily take substantial period of time to get ready for its intended use or sale) are capitalized. Other borrowing costs are charged to Statement of Profit and Loss in the period they are incurred.

k) Taxes on Income

Current tax comprise of Income Tax and Wealth Tax that would be payable based on computation of tax as per taxation laws under the Income Tax Act, 1961 and under the respective state

Agricultural Income Tax Acts. Deferred Tax is recognised, subject to the consideration of prudence, on timing differences, between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax assets are not recognised unless there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Tax credit for Minimum Alternate Tax (MAT) is recognized when there is convincing evidence of its realisability against future normal tax liability.

l) Leases

i) For assets acquired under operating lease, rentals payable are charged to the Statement of Profit and Loss.

ii) For assets acquired under finance lease/hire purchase agreement, the assets are capitalized at lower of their respective fair value and present value of minimum lease payments after discounting them at an appropriate discount rate.

iii) Hire purchase charges are being amortized based on a constant periodic rate of interest on the remaining balance of the liability of each period.

m) Impairment

An impairment loss is recognized where applicable when the carrying value of fixed assets exceeds its market value or value in use whichever is higher. Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the assets no longer exist or have decreased.

n) Provisions and Contingent Liabilities

The Company recognizes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation and the likelihood of outflow of resources is remote, no provision or disclosure for contingent liability is made. Contingent assets are not provided for or disclosed.

Consolidated Auditors' Report

To
The Board of Directors of
Joonktollee Tea & Industries Limited

INDEPENDENT AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated financial statements of Joonktollee Tea & Industries Limited (the "Company") and its subsidiaries (collectively referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the group in accordance with accounting principles generally accepted in India including Accounting Standards referred to in Section 211(3C) of the Companies Act, 1956 ("the Act") read with general circular 15/2013 dated 13th September 2013 by Ministry of Company Affairs in respect of section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and presentation of the consolidated financial statements that give a true & fair view in order to design audit procedures that are appropriate in the circumstances, but not for the

purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of the reports of the other auditors on the financial statements of the subsidiaries as noted below, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- in the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
- in the case of the Consolidated Statement of Profit and Loss, of the loss of the Group for the year ended on that date and
- in the case of the Consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

OTHER MATTERS

- We did not audit the financial statements of the subsidiaries whose financial statements reflect total assets of ₹ 43,98,76,582/- as at 31st March, 2014, total other Income of ₹ 1,10,41,318/- and net cash inflow of ₹ 1,42,36,430/- for the year ended on that date as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us, and our opinion, in so far as it relates to the amounts included in respect of the subsidiaries is based solely on the report of the other auditors.

Our opinion is not qualified in respect of other matters.

a) Accounting Convention

The financial statements have been prepared in accordance with historical cost convention, on accrual basis, in accordance with the generally accepted accounting principles in India, the applicable mandatory Accounting Standards and the relevant provisions of Companies Act, 1956.

b) Use of Estimates

The preparation of financial statements require estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognized in the period in which the results are known /materialized.

c) Fixed Assets and Depreciation

Fixed Assets

- i) Tangible Fixed Assets are stated at their original cost less depreciation. Cost includes incidental expenses. Profits or Losses on sale of tangible fixed assets are included in the Statement of Profit & Loss and calculated as difference between the value realized and book value. Capital Work-in-Progress is stated at cost. Subsidies received in respect of tangible fixed assets are deducted from the cost of respective assets.
- ii) Items of machinery spares to be used in connection with an item of tangible fixed assets are amortized over the useful life of the assets.
- iii) Tangible Fixed Asset taken on lease (other than land taken on perpetual lease) is not capitalized and the annual lease rentals are absorbed in the Statement of Profit & Loss. The excess of lease rentals paid over the amount accrued in respect thereof is treated as prepaid lease rental.

Depreciation

- iv) Depreciation on tangible fixed assets other than land and tea plantation is provided on written down value basis in accordance with the provisions of Schedule XIV of the Companies Act, 1956. No depreciation has been provided in respect of Rubberwood Division and Kinalur Estate of Rubber Division during the year since these divisions are not in operation.
- v) All expenses incurred for extension of new areas of cultivation are capitalized. Cost of

upkeep and maintenance of areas till not matured for plucking and cost of replanting in existing areas are charged to revenue.

- vi) Intangible assets are being amortized over a period of 5 years.

d) Government Grants

Grants and subsidies from the Government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/ subsidy will be received.

Government grants related to specific tangible fixed assets are deducted from gross value of related assets in arriving at their book value. Government grants related to revenue are recognized in the statement of profit and loss.

e) Investment

Long term and unquoted investments are considered at cost, unless there is a permanent decline in value thereof, in which case, adequate provision is made in the accounts. Current investments are stated at lower of cost or market / fair value.

f) Inventories

- i) Stock of finished rubber, tea, coffee and minor produce (i.e. pepper and cardamom) are valued at cost (determined on weighted average basis) or net realizable value whichever is lower.
- ii) Stock of stores and spare parts are valued at cost (using the weighted average cost basis) or net realizable value which ever is lower.
- iii) Cost comprises all direct and indirect expenses.
- iv) Net realizable value is the estimated selling price in ordinary course of business less estimated cost of completion and estimated cost necessary to make the sale.
- v) Materials and other items held for use in the production of inventories are not written down below the cost of the finished products in which they will be incorporated are expected to be sold at or above cost.
- vi) Provision is made for obsolete and slow moving stocks where necessary.

g) Foreign Currency Transactions

- i) Foreign currency transactions are recorded at the rate of exchange prevailing on the dates when the relevant transactions take place.

Notes to Consolidated Financial Statements

As at and for the year ended 31st March, 2014

- ii) Year end balances of foreign currency transactions are translated at exchange rates prevailing at the end of the year.
- iii) Any income or expense on account of exchange difference either on settlement or translation is recognized in the Statement of Profit and Loss.
- h) **Revenue Recognition**
Sales are recognized in the accounts on passing of titles of the goods, i.e. delivery as per terms of sales or completion of auction in case of auction sale. Other income with related tax credits and expenditure are accounted for on accrual basis. Dividend from Companies is accounted as income in the year in which they are received.
- i) **Employee Benefits**
Short Term Employee Benefits
The undiscounted amount of short-term employee benefit expected to be paid in exchange for the services rendered by employee is recognized during the period when the employee rendered the service. This benefit includes salary, wages, short term compensatory absences and bonus.
Long Term Employee Benefits
Defined Contribution Scheme
This benefit includes contribution to provident fund schemes and superannuation fund. The contribution is recognized during the period in which the employee renders service.
Defined Benefit Scheme
For defined benefit scheme the cost of providing benefit is determined using the projected unit credit method with actuarial valuation being carried out at each balance sheet date. The benefit obligation recognized in the balance sheet represents value of defined benefit obligation determined at the end of the year. Actuarial gains and losses are recognized in full during the period in which they occur.
Other Long Term Benefits
Long term compensation absence is provided for on the basis of an actuarial valuation, using the projected unit credit method as at the date of balance sheet.
- j) **Borrowing Costs**
Borrowing costs, if attributable to qualifying assets (i.e. assets that necessarily take substantial period of time to get ready for its intended use or sale) are capitalized. Other borrowing costs are charged to Statement of Profit and Loss in the period they are incurred.
- k) **Taxes on Income**
Current tax comprise of Income Tax and Wealth Tax that would be payable based on computation of tax as per taxation laws under the Income Tax Act, 1961 and under the respective state Agricultural Income Tax Acts. Deferred Tax is recognised, subject to the consideration of prudence, on timing differences, between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax assets are not recognised unless there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Tax credit for Minimum Alternate Tax (MAT) is recognized when there is convincing evidence of its realisability against future normal tax liability.
- l) **Leases**
i) For assets acquired under operating lease, rentals payable are charged to the Statement of Profit and Loss.
ii) For assets acquired under finance lease/hire purchase agreement, the assets are capitalized at lower of their respective fair value and present value of minimum lease payments after discounting them at an appropriate discount rate.
iii) Hire purchase charges are being amortized based on a constant periodic rate of interest on the remaining balance of the liability of each period.
- m) **Impairment**
An impairment loss is recognized where applicable when the carrying value of fixed assets exceeds its market value or value in use whichever is higher. Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the assets no longer exist or have decreased.
- n) **Provisions and Contingent Liabilities**
The Company recognizes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation and the likelihood of outflow of resources is remote, no provision or disclosure for contingent liability is made. Contingent assets are not provided for or disclosed.
