MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structure and Developments:

The decorative industry market is continuing to grow at a moderate rate of 12% to 15% annually and with more awareness of quality products used by the developers. The industry gap between the organized and the unorganized is predicted to be narrowing significantly with the roll out of GST which will make the competition healthy and reduce the tax burden on the organized industries thereby making it easier to penetrate the market and scale up.

Expand Market Network: Your Company continues to expand its marketing networks.

Government: After a long time, the government is changed and we might have got stable government which has more focus on the development side and improving environment conditions of country, it may lead to growth in infrastructure and real estate sector i.e. roads, bridges, hospitals, Housing, Hotels, Commercial Properties etc. The growth in this sector will lead to the growth of Companies which are connected with Interior Infrastructure items.

Housing for All: It is the big mission of Central Government that by 2020, every Indian family should have a house of its own. Imagine, what may be effect of this mission on the demand of housing related industries including furniture.

Threats:

Raw Material: The wood based panel industries are dependent on natural forests for their raw material requirement, it is crisis in view of the restrictions on timber extraction owing to environmental considerations.

Manpower: One of the common problems is emerge for finding talent with competence or even skilled manpower for the wood based panel industries irrespective of the company Brand or Size.

Price cutting: Due to high competitions in market, the competitors are doing price cutting of products to compete or keep their existence in markets which is ultimate big problems for the industries.

New Entrants: More and more new organized players are entering into market which will increase competition in organized sector also.

High Competition Era: The laminate Industry has entered into the orbit of the high competition. The market fights are set to intensify with unstoppable capacity build up. The Competition from both, unorganized and other organized players is leading to difficulties in improving market share.

Importation: Dumping or Cheap import from China and other Countries of laminates, MDF and other furniture products.

The reason for fall in the Profit after tax is increase in the employment cost and finance cost as well in the financial year 2015-16.

Risk and concerns:

Stiff competition from the unorganized players resulting in lower margins or losing out the customers to the suppliers with lower overheads and poor quality is a threat that keeps looming over the organized industries. However, with the gap bridging and the awareness of quality products, the company has, at its own, penetrated newer markets and enhanced its offerings and sales revenues. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

According to the information and explanations given to us and based on our audit, the following material weakness has been identified in the operating effectiveness of the Company's internal financial controls over financial reporting as at March 31, 2016

A material weakness is deficiency, in internal financial control over financial reporting, such that there is a no control over entry level documentation , validation and standard operating system in operation and code of business control of the company hence there is reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

We have considered the material weakness identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2016 financial statements of the Company, and the material weakness do not affect our opinion on the standalone financial statements of the Company.

In Our opinion the Company has, except stated above, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Suncare Traders Limited** (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

According to the information and explanations given to us and based on our audit, the following material weakness has been identified in the operating effectiveness of the Company's internal financial controls over financial reporting as at March 31, 2016

A material weakness is deficiency, in internal financial control over financial reporting, such that there is a no control over entry level documentation , validation and standard operating system in operation and code of business control of the company hence there is reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

We have considered the material weakness identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2016 financial statements of the Company, and the material weakness do not affect our opinion on the standalone financial statements of the Company.

In Our opinion the Company has, except stated above, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
