INDEPENDENT AUDITORS' REPORT

To,
The Members,
ECS Biztech Limited
Ahmedabad.

Report on the Financial Statements:

We have audited the accompanying financial statements of **ECS Biztech Limited** ("the Company"), which comprise the Balance Sheet as at March 31st, 2018, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act"), with respect to the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with relevant rules of the Companies (Accounts) Rules, 2014. The responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgment and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring that adequacy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility:

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the

appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India.

Annexure A to the Independent Auditors' Report:

Referred to in paragraph 2(f) of the Independent Auditors' Report of even date to the members of **ECS Biztech Limited** on the financial statements for the year ended March 31, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act:

We have audited the internal financial controls over financial reporting of **ECS Biztech Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls:

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (the Act).

Auditors' Responsibility:

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and may not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

Note 25(7): Significant Accounting Policies & Key Accounting Estimates

Note 7.1 : Company Overview

ECS Biztech Limited (hereinafter referred to as “EBL” or “the Company”) is a Company formed and registered under the Companies Act, 1956, on 29th November, 2010, by the Registrar of Companies, Gujarat, Dadra and Nagar Haveli. The name of the Company has been changed from SAC Infosystem Private Limited to ECS Biztech Private Limited consequent upon issue of fresh Certificate of change of name on dated 08/12/2011. The Company is been converted from Private Limited to Public Limited vide resolution dated 02/09/2014. The Company has procured and sold IT products including Computers and computer peripherals. In addition to that the company has rendered IT related services during the year..

The standalone financial statements for the year ended March 31, 2018 were considered by the Board of Directors and approved for issuance on May 30, 2018.

Note 7.2 : Basis of Preparation

These standalone financial statements have been prepared in accordance with Indian Accounting Standards (“Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016, as applicable. For periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the then applicable Accounting Standards in India (‘previous GAAP’). These are the Company’s first Ind AS financial statements. The date of transition to Ind AS is April 1, 2016. The comparative figures in the Balance Sheet as at March 31, 2017 and April 1, 2016 and Statement of Profit and Loss and Cash Flow Statement for the year ended March 31, 2017 have been restated accordingly. Accounting Policies have been consistently applied except where newly issued accounting standard is initially adopted or revision to the existing standards requires a change in the accounting policy hitherto in use. Management evaluates all recently issued or revised accounting standards on an on-going basis.

Refer Note 4.21 for the explanations of transition to Ind AS including the details of first-time adoption exemptions availed by the Company.

The standalone financial statements are prepared in INR and all the values are rounded to the nearest lacs, except when otherwise indicated.

1 Statement of Compliance

The standalone financial statements comprising Balance Sheet, Statement of Profit and Loss, Statement of Changes in Equity and Cash Flow Statement, together with notes for the year ended March 31, 2018 have been prepared in accordance with Ind AS as notified under section 133 of the Companies’ Act, 2013 (“the Act”) duly approved by the Board of Directors at its meeting held on 30th May, 2018.

2 Basis of Measurement

The standalone financial statements of the Company have been prepared and presented in accordance with the Generally Accepted Accounting Principles (GAAP) under the historical cost convention on accrual basis of accounting, except for certain Assets and Liabilities as stated below:

- (a) Financial instruments (assets / liabilities) classified as Fair Value through profit or loss or Fair Value through Other Comprehensive Income are measured at Fair Value.
- (b) The defined benefit asset/liability is recognised as the present value of defined benefit obligation less fair value of plan assets.
- (c) Assets held for sale measured at fair value less cost to sales

The above items have been measured at Fair Value and the methods used to measure Fair Values are discussed further in Note 4.18.

3 Functional and Presentation Currency

Items included in the standalone financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (“the functional currency”). Indian Rupee is the functional currency of the Company.

The standalone financial statements are presented in Indian Rupees (₹) and all values are rounded to the nearest lakhs as per the requirement of Schedule III, except when otherwise indicated.

4 Standard issued but not yet effective

Ministry of Corporate Affairs (MCA) issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, ('the Rules') on 28th March, 2018. The rules notify the new Revenue Standard Ind AS 115 'Revenue from Contracts with Customers' and also bring in amendments to existing Ind AS. The rules shall be effective from reporting period beginning on or after 1st April, 2018 and cannot be reported early. Hence, not applied in the preparation of these financial statements.

Note 7.3 : Significant accounting judgments, estimates and assumptions

The preparation of standalone financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosures of contingent assets and contingent liabilities at the date of standalone financial statements, income and expense during the period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the periods in which the estimates are revised and in future periods which are affected.

In the process of applying the Company's accounting policies, management has made the following judgments and estimates, which have the most significant effect on the amounts recognised in the standalone financial statements.

1 Revenue recognition

- (i) Revenue in respect of domestic sale of products is recognised when the risks and rewards of ownership are passed on to the customers, which is upon dispatch of products. Sales are stated at contractual realizable values, net of excise duty, sales tax and trade discount.
- (ii) Export Sales are recognized at invoiced value converted in to reporting currency by applying the exchange rate prevailing on transaction date i.e. Bill of lading date.
- (iii) Export Incentives are accounted for on accrual basis.

2 Impairment of investments in subsidiaries

The Company reviews its carrying value of investments in subsidiaries at cost, annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

3 Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

4 Employee Benefits

The cost of defined benefit plans are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

5 Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include

Trade receivables, predominantly from Government schemes/insurance companies and corporates which enjoy high credit ratings are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the ageing of the receivable balance and historical experience. Individual trade receivables are written off when management deems it not to be collectible.

ECS Biztech Limited

CIN :-L30007GJ2010PLC063070

The company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix considering the nature of receivables and the risk characteristics. The considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments.

6 Allowance for uncollectible trade receivables

Provision matrix takes into accounts historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the day of the receivables are due and the rates as given in the provision matrix.

7 Impairment of Property, Plant & Equipment

The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, an impairment loss which is material in nature is accounted for.

8 Litigations

The provision is recognized based on the best estimate of the amount desirable to settle the present obligation arising at the reporting period and of the income is recognized in the cases involving high degree of certainty as to realization.

Note 7.4: Significant Accounting Policies

1 Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

(a) Financial Assets

Financial Assets comprises of investments in equity instruments, trade receivables, cash and cash equivalents and other financial assets.

Initial Recognition:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit or Loss, transaction costs that are attributable to the acquisition of financial assets. Purchases or sales of financial assets that requires delivery of assets within a period of time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the company committed to purchase or sell the asset.

Subsequent Measurement:

(i) Financial assets measured at amortized Cost:

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and where contractual terms of financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at Fair Value through Other Comprehensive Income (FVTOCI):

Financial Assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are subsequently measured at FVTOCI. Fair Value movements in financial assets at FVTOCI are recognized in Other Comprehensive Income.

Equity instruments held for trading are classified as at fair value through profit or loss (FVTPL). For other equity instruments the company classifies the same as FVTOCI. The classification is made on initial recognition and is irrevocable. Fair Value changes on equity instruments at FVTOCI, excluding dividends are recognized in Other Comprehensive Income (OCI).

(iii) Fair Value through Profit or Loss (FVTPL):

Financial Assets are measured at FVTPL if it does not meet the criteria for classification as measured at amortized cost or at FVTOCI. All fair value changes are recognized in the Statement of Profit and Loss.

De-recognition of Financial Assets:

Financial Assets are derecognized when the contractual rights to cash flows from the financial assets expire or the financial asset is transferred and the transfer qualifies for de-recognition. On de-recognition of the financial assets in its entirety, the difference between the carrying amount (measured at the date of de-recognition) and the consideration received (including any new asset obtained less any new liability assumed) shall be recognized in the Statement of Profit and Loss.

(b) Financial Liabilities**Initial Recognition and Measurement**

Financial Liabilities are initially recognized at fair value plus any transaction costs, (if any) which are attributable to acquisition of the financial liabilities.

Subsequent Measurement:

Financial Liabilities are classified for subsequent measurement into following categories:

(i) Financial liabilities at Amortized Cost:

The Company is classifying the following under amortized cost:

- Borrowing from Banks
- Borrowing from Others
- Trade Payables
- Other Financial Liabilities

Amortized cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus cumulative amortization using the effective interest method of any differences between the initial amount and maturity amount.

(ii) Financial liabilities at Fair Value through Profit or Loss:

Financial liabilities held for trading are measured at Fair Value through Profit or Loss

De-recognition of Financial Liabilities:

Financial liabilities shall be derecognized when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expires.

(c) Offsetting of Financial assets and Financial Liabilities

Financial assets and Financial Liabilities are offset and the net amount is presented in Balance Sheet when, and only when, the Company has legal right to offset the recognized amounts and intends either to settle on the net basis or to realize the assets and liabilities simultaneously.

(d) Reclassification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are categorized as equity instruments at FVTOCI, and financial assets or liabilities that are specifically designated as FVTPL. For financial assets which are debt instruments, a reclassification is made only if there is a change in business model for managing those assets. Changes to the business model are expected to be very infrequent. The management determines the change in a business model as a result of external or internal changes which are significant to the Company's Operations. A Change in business occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively effective from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

2 Share Capital

Ordinary Shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or share options are recognized as a deduction from equity, net of any tax effects.

3 Property, Plant and Equipment

Property, plant and equipment held for use in the supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated. All repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred.

Properties in the course of construction for supply of services or administrative purpose are carried at cost, less any recognised impairment loss. Cost includes professional fees and other directly attributable cost and for qualifying assets, borrowing cost capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of Property Plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives as prescribed under Part C of Schedule II to the Companies Act 2013, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Depreciation for assets purchased/sold during a period is proportionately charged for the period of use.

Depreciation on Tangible Fixed Assets is provided on straight line method over the useful lives of assets specified in Part C of Schedule II to the Companies Act 2013 read with the relevant notifications issued by the Department of Company affairs.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. Leasehold land with lease term of 99 years or more and it is amortized over the period of lease i.e. 99 years.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and are recognised net within "other income / other expenses" in the Statement of profit and loss.

Transition to Ind AS

For transition to Ind AS, the Company has opted to adopt the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

4 Intangible assets**Intangible Assets acquired separately**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as

ECS Biztech Limited

CIN :-L30007GJ2010PLC063070

the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in statement of profit and loss when the asset is de-recognised.

Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

Type of Asset	Useful Life
----------------------	--------------------

Computer software	3 years
-------------------	---------

Deemed cost on transition to Ind AS

For transition to Ind AS, the Company has opted to continue with the carrying value of all of its intangible assets recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

5 Inventories

- (i) Raw Materials, Stock-in-process, Finished Goods are valued at lower of cost or net realizable value. Cost of stock-in-process and finished goods include materials, labour, manufacturing overhead and other cost incurred in bringing the inventories to their present location. Excise duty on goods manufactured by the company and remaining in inventory is included as a part of valuation of finished goods.
- (ii) Stock of stores, spares, consumable and packing materials are valued at cost.

6 Impairment

(a) Financial assets (other than at fair value)

The Company assesses at each date of balance sheet, whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the twelve-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly, since initial recognition.

(b) Non-financial assets

Tangible and Intangible assets

Property, Plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Reversal of impairment loss

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized directly in other comprehensive income and presented within equity.

7 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre tax rates that reflects, where appropriate, the risks

specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A provision for onerous contract is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with the contract.

Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

8 Revenue Recognition

- (a) Revenue in respect of domestic sale of products is recognised when the risks and rewards of ownership are passed on to the customers, which is upon dispatch of products. Sales are stated at contractual realizable values, net of excise duty, sales tax and trade discount.
- (b) Export Sales are recognized at invoiced value converted in to reporting currency by applying the exchange rate prevailing on transaction date i.e. Bill of lading date.
- (c) Export Incentives are accounted for on accrual basis.
- (d) Dividend and Interest Income

Dividend income from investments is recognised when the right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

9 Leases

Leases are classified as finance leases whenever the (substantial value of the assets is initially paid as non-refundable lease premium) and terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefit accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

10 Foreign Currency Translation

The functional currency of the Company is the Indian Rupee (₹)

Exchange differences on monetary items are recognised in the Statement of profit and loss in the period in which they arise except for:

- (i) exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- (ii) exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements of the Company for the period immediately before the beginning of the first Ind AS financial reporting period (prior to April 1, 2016), as per the previous GAAP, pursuant to the Company's choice of availing the exemption as permitted by Ind AS 101.

Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

Income and expense items in foreign currency are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used.

11 Borrowing Costs

Borrowing costs include

- (i) interest expense calculated using the effective interest rate method,
- (ii) finance charges in respect of finance leases, and
- (iii) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

12 Employee benefits**(a) Short-term obligations**

Liabilities for salaries, including other monetary and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Post-employment obligations

The Company operates the following post-employment schemes: a) defined contribution plans - provident fund b) defined benefit plans - gratuity plans

(i) Defined contribution plans

The Company has defined contribution plan for the post-employment benefits namely Provident Fund and Employees Death Linked Insurance, the contributions towards such funds and schemes are recognised as employee benefits expense and charged to the Statement of Profit and Loss when they are due. The Company does not carry any further obligations with respect to this, apart from contributions made on a monthly basis.

(ii) Defined benefit plans

The Company has defined benefit plan, namely gratuity for eligible employees in accordance with the Payment of Gratuity Act, 1972 the liability for which is determined on the basis of an actuarial valuation (using the Projected Unit Credit method) at the end of each year.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the tenor of the related obligation. The liability or asset recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements) is recognised in the Statement of profit and loss in the line item 'Employee benefits expense'.

Remeasurements of the net defined liability, comprising of actuarial gains and losses, return on plan assets (excluding amounts included in net interest on the net defined benefit liability) and any change in the effect of asset ceiling (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Change in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the profit or loss as past service cost.

13 Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax

(i) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the standalone statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

(iii) Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

14 Derivative financial instruments

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

15 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the period. Where ordinary shares are issued but not fully paid, they are treated in the calculation of basic earnings per share as a fraction of an ordinary share to the extent that they were entitled to participate in dividends during the period relative to a fully paid ordinary share. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

16 Fair Value Measurement

A number of Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair value is the price that would be received on sell of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal market or the most advantageous market must be accessible to the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as below:

- (a) Level 1 -unadjusted quoted prices in active markets for identical assets and liabilities.
- (b) Level 2 -Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (c) Level 3 -unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the standalone financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy.

Fair values have been determined for measurement and / or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

- (a) Investment in equity and debt securities

The fair value is determined by reference to their quoted price at the reporting date. In the absence of quoted price, the fair value of the financial asset is measured using valuation techniques.

- (b) Trade and other receivables

The fair value of trade and other receivables, excluding construction contracts in progress, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. However in respect of such financial instruments, fair value generally approximates the carrying amount due to short term nature of such assets. This fair value is determined for disclosure purposes or when acquired in a business combination.

- (c) Non derivative financial liabilities

Fair Value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

17 Current / non- current classification

An asset is classified as current if:

- (a) it is expected to be realized or sold or consumed in the Company's normal operating cycle;

ECS Biztech Limited

CIN :-L30007GJ2010PLC063070

- (b) it is held primarily for the purpose of trading;
- (c) it is expected to be realized within twelve months after the reporting period; or
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

- (a) it is expected to be settled in normal operating cycle;
- (b) it is held primarily for the purpose of trading;
- (c) it is expected to be settled within twelve months after the reporting period;
- (d) it has no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between acquisition of assets for processing / trading / assembling and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

18 Cash and cash equivalent

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage.

19 First Time Adoption of Ind AS

The Company has prepared the opening standalone balance sheet as per Ind AS as of April 1, 2016 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain mandatory exceptions under Ind AS 101 and certain optional exemptions permitted under Ind AS 101 availed by the Company as detailed below:

1 Mandatory exceptions to retrospective application of other Ind AS

- (a) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with Previous GAAP (after adjustments to reflect any differences in accounting policies) unless there is an objective evidence that those estimates were in error.

The company has not made any changes to estimates made in accordance with Previous GAAP.

- (b) Ind AS 109 - Financial Instruments (Derecognition of previously recognized Financial Assets/ Financial Liabilities)

An entity shall apply the derecognition requirements in Ind AS 109 prospectively for the transactions occurring on or after date of transition to Ind AS.

The Company has applied the derecognition requirements prospectively.

- (c) Ind AS 109 "Financial Instruments" (Classification and Measurement of Financial Assets/ Financial Liabilities)

Classification and measurement of Financial Assets shall be made on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

The Company has evaluated the facts and circumstances existing on the date of transition to Ind AS for the purpose of classification and measurement of Financial Assets and accordingly has classified and measured financial assets on the date of transition.

- (d) Ind AS 109 “Financial Instruments” (Impairment of Financial Assets): Impairment requirements under Ind AS 109 should be applied retrospectively based on reasonable and supportable information that is available on the date of transition without undue cost or effort.

The borrowings of the Company outstanding as at the transition date, consists of loans whose disbursements have taken place in multiple tranches in different financial years with varying interest rates. In some cases, the rate of interest on the loans are variable in nature and drawal of the loans have been made in multiple installments with each drawal to be treated as a separate transaction for the purpose of computing the amortised cost. Implementing the requirement of amortised cost retrospectively is impracticable and also the amount is expected to be immaterial and hence the Company has considered the fair value of the financial liability at the date of transition to Ind AS as new amortised cost of that financial liability at the date of transition to Ind AS i.e. 1 April 2016.

2. Optional exemptions

- (a) Deemed cost for property, plant and equipment, and intangible assets

Ind AS 101 permits a first-time adopter to opt to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 “Intangible Assets”.

Accordingly, the Company has opted to measure all of its property, plant and equipment, and intangible assets at their previous GAAP carrying value.

- (b) Investments in subsidiaries, joint ventures and associates

IND AS 101 provides the option to the first-time adopter to account for its investments in subsidiaries, joint ventures and associates at either cost determined in accordance with IND AS 27 or in accordance with IND AS 109.

Accordingly, the Company has opted to measure such investments at cost in accordance with Ind AS 27.

- (c) Determining whether an arrangement contains a lease

The Company has applied Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to determine whether an arrangement contains a lease on the basis of facts and circumstances existing at the transition date.

The Company has leases of land. The classification of each land as finance lease or operating lease at the date of transition to Ind AS is done based on the basis of facts and circumstances existing as at that date.
