SUMMARY OF OUR INDUSTRY

Steel is one of the world’s most essential materials. It is fundamental to every aspect of our lives, including construction, transportation, machinery, appliances, and packaging. The steel industry plays a vital role in the global economy and significantly impacts employment, trade, infrastructure development, and the growth of other industries. However, it also faces multiple challenges, including environmental concerns, fluctuating demands and raw material prices, and intense competition.

The last decade was significant for the Indian steel industry, as India pipped Japan to become the world’s second-largest producer of crude steel. India also witnessed significant capacity consolidation under the Insolvency and Bankruptcy Code (IBC) with the acquisition of steel assets by leading players. Industry consolidation is expected to improve efficiencies and capacity utilisation and enhance domestic pricing power for the players, thus putting India firmly back on the path to potentially reach 300 Million Tonnes (MT) of crude steel capacity by 2030 and 500 MT by 2047. With the scope of growth and penetration in value-added special steel products for greater economies, the next 25 years seem promising for the Indian steel industry.

Our Company has not issued any Equity Shares for consideration other than cash during the last 1 (One) year immediately preceding the date of filing this Draft Letter of Offer.

SECTION II – RISK FACTORS

An investment in equity shares involves a high degree of risk. Prospective Investors should carefully consider all the information disclosed in this Letter of Offer, including the risks and uncertainties described below and the **“Financial Statements”** on page 68 before making an investment in the Equity Shares. The risks described below are not the only risks relevant to us or the Equity Shares or the industries in which we currently operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may also impair our business, cash flows, prospects, results of operations and financial condition. In order to obtain a complete understanding about us, investors should read this section in conjunction with **“Our Business”**, **“Industry Overview”** and **“Management’s Discussion and Analysis of Financial Condition and Results of Operations”** on pages 57, 53 and 108, respectively, as well as the other financial information included in this Letter of Offer. If any of the risks described below, or other risks that are not currently known or are currently deemed immaterial actually occur, our business, cash flows, prospects, results of operations and financial condition could be adversely affected, the trading price of the Equity Shares could decline, and investors may lose all or part of the value of their investment. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below.

However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in this Issue. The following factors have been considered for determining the materiality: (1) some events may not be material individually but may be found material collectively; (2) some events may have material impact qualitatively instead of quantitatively; and (3) some events may not be material at present but may have material impact in future.

This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer. Any potential investor in, and purchaser of, the Equity Shares should pay particular attention to the fact that our Company is an Indian company and is subject to a legal and regulatory environment which, in some respects, may be different from that which prevails in other countries. For further information, see **“Forward Looking Statements”** on page 17.

Unless otherwise indicated or the context requires otherwise, the financial information included herein is based on our Audited Financial Statements included in this Letter of Offer. For further information, see **“Financial Statements”** on page 68. In this section, unless the context otherwise requires, a reference to **“our Company”** on a standalone basis.

INTERNAL RISK FACTORS**1. We have not entered into any long-term contracts with any of our clients.**

We do not have any long-term contracts with our clients and any change in the business pattern of our existing clients could adversely affect the business of our Company. As a result, our customers can terminate their relationships with us due to a change in preference or any other reason on immediate basis, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our products. Our Company's customers have no obligation to place order with us and may either cancel, reduce, or delay orders. The orders placed by our Company's customers are dependent on factors such as the customer satisfaction with the level of service that our Company provides, fluctuation in demand for our Company's products, customer's inventory management, amongst others. Although we have satisfactory business relations with our clients and have received continued business from them in the past, there is no certainty that the same will continue in the years to come and may affect our profitability.

2. We have referred to the data derived from internal Company reports and industry and government publications, publicly available information, and sources.

Unless stated otherwise, industry and market data used throughout this Draft letter of offer has been obtained or derived from internal Company reports and industry and government publications, publicly available information, and sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Although, our Company believes that industry data used in this Draft letter of offer is reliable, it has not been independently verified. Further, the extent to which the industry and market data presented in this Draft Letter of Offer is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

3. Our business is geographically located in one area, Delhi. Any loss or shutdown of operations at any of our facilities in Delhi may have an adverse effect on our business and results of operations

Majority of our business is based Delhi. As a result, if there is any localized social unrest, natural disaster or breakdown of services and utilities in this area, it may affect our business adversely. Further our manufacturing activities are subject to operating risks, such as breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, labour disputes, strikes, continued availability of services of our external contractors, earthquakes and other natural disasters, industrial accidents etc. We have not experienced any of these operating risks in the past. We cannot assure we will be adequately able to mitigate all of our operating risks.

4. Our success depends largely upon the services of our Promoters, Managing Directors and other key managerial personnel and our ability to attract and retain them..

We are dependent on our Promoters, Managing Director and Key Managerial Personnel for setting our strategic direction and managing our businesses. Our Promoter has over past years built relations with suppliers, customers and other persons who are connected with us. Accordingly, our Company's performance is dependent upon the services of our Promoters, our Managing Director, and other key managerial personnel. Our future performance will depend upon the continued services of these persons. Demand for key managerial personnel in the industry is intense and our inability to attract and retain key managerial personnel may affect the operations of our Company..

5. The steel industry is affected by global economic conditions. Slower than expected or uneven growth of the global economy or a renewed global recession could have a material adverse effect on the steel industry and us.

Our business and results of operations have been and continue to be affected by international, national and regional economic conditions. Following the global financial crisis in 2007 to 2009, the Eurozone crisis in 2009 to 2013 and the decline in commodity prices that began in 2014, there has been significant volatility in number of indicators, making it more difficult to forecast short and medium term growth. Rates of economic growth have significant impacts on substantial consumers of steel products, such as the automotive and the construction industries and declines in steel consumption caused by poor or unfavorable economic conditions in one or more of our major markets or by the deterioration of the financial condition of our key customers would have a material adverse effect on demand for our products and hence on our business and results of operations. Unfavorable economic conditions in any of our key markets could have a material adverse effect on our business, results of operations, financial condition and prospects.

6. Our inability to manage growth could disrupt our business and reduce our profitability.

A principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses, as well as the development of our new products portfolio. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial, and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values, and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition, and adversely affect our results of operations.

7. We have high working capital requirements. Any failure in arranging adequate working capital for our operations may adversely affect our business, results of operations, cash flows and financial condition.

Our business requires a high amount of working capital. For further details of our working capital borrowings, please see the section entitled "Financial Information" on page 68. To finance such capital requirements, we have availed certain loan facilities including overdraft facilities. We cannot assure you that we will be able to raise debt to meet our working capital requirements on commercially acceptable terms in a timely manner or at all. If we have to fund our working capital requirements from infusion of equity, it may result in dilution of shareholding of our existing Shareholders. Further, our Company proposes to utilize the Net Proceeds for its working capital requirements.

Any delay in the Offer may have an adverse effect on our business, results of operation, cash flows and financial condition. For further details of the proposed objects of the Offer, please see the section entitled "Objects of the Issue" on page 42.

8. The business orders which we undertake may be delayed, modified, cancelled, or not fully paid for by our clients and therefore, could materially affect our business, results of operations and financial condition.

The business orders which we undertake may be cancelled or may be subject to changes in scope or schedule. We may also encounter problems executing the orders or executing them on a timely basis. Moreover, factors beyond our control or the control of our clients may postpone an order or cause its cancellation. Such factors could include delays or failures to obtain necessary permits, right-of-way, or receive performance bonds and other types of difficulties or obstructions. Any delay, failure, or execution difficulty with respect to orders in our Order Book could materially affect our business, results of operations and financial condition..

9. The steel industry is highly cyclical and a decrease in steel prices may have a material adverse effect on our business, results of operations, prospects and financial condition.

Steel prices are volatile, reflecting the highly cyclical nature of the global steel industry. Steel prices fluctuate based on a number of factors, such as the availability and cost of raw material inputs, fluctuations in domestic and international demand and supply of steel and steel products, worldwide production and capacity, fluctuation in the volume of steel imports, transportation costs, protective trade measures and various social and political factors, in the economies in which the steel producers sell their products and are sensitive to the trends of particular industries, such as the automotive, construction, packaging, appliance, machinery, equipment and transportation industries, which are among the biggest consumers of steel products. When downturns occur in these economies or sectors, we may experience decreased demand for our products, which may lead to a decrease in steel prices, which may, in turn, have a material adverse effect on our business, results of operations, financial condition and prospects.

Global steel prices fell sharply in 2008 as the global credit crisis led to a collapse in global demand. If there is weakness in sectors of the economy that are substantial consumers of steel products, such as the construction and automobile industries would also hurt steel producers. While steel prices have increased in recent years, they have been subject to fluctuation. Low steel prices adversely affect the businesses and results of operations of steel producers generally, including ours, resulting in lower revenue and margins and write downs of finished steel products and raw material inventories. In addition, the volatility, length and nature of business cycles affecting the steel industry have become increasingly unpredictable, and the recurrence of another major downturn in the industry may have a material adverse impact on our business, results of operations, financial condition and prospects.

In addition, substantial decreases in steel prices during periods of economic weakness have not always been balanced by commensurate price increases during periods of economic strength. Any sustained price recovery will most likely require a broad economic recovery, in order to underpin an increase in real demand for steel products by end users.

10. Our Company is dependent on third party transportation providers for the supply of materials and delivery of our products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations

Our Company uses third party transportation providers for the supply of our materials and delivery of our products to our domestic customers. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on the supplies from our suppliers and deliveries to our customers. These transportation facilities may not be adequate to support our existing and future operations. In addition, the materials, and products maybe lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our products to our customers may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair our ability to supply our products to our customers. Any such disruptions could materially and adversely affect our business, financial condition, and results of operations. We face intense competition in our businesses, which may limit our growth and prospects.

11. We face intense competition in our businesses, which may limit our growth and prospects.

Our Company faces significant competition from other manufacturers and traders. In particular, we compete with other traders operating in the markets in which we are present. Our competitors may have advantages over us, including, but not limited to: • Substantially greater financial resources; • Longer operating history than in certain of our businesses; • Greater brand recognition among consumers; • Larger customer bases in and outside India; or • More diversified operations which allow profits from certain operations to support others with lower profitability. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures.

12. Our results of operations are likely to vary from year to year and be unpredictable, which could cause the market price of the Equity Shares to be volatile.

Our results of operations in any given year can be influenced by a number of factors, many of which are outside of our control and may be difficult to predict, including:

- our ability to acquire and retain clients for our products & services;
- maintaining high levels of customer satisfaction;
- costs relating to our operations;
- adhering to our high quality and process execution standards;
- pricing policies introduced by our competitors;
- the timing and nature of, and expenses incurred in, our marketing efforts;
- recruiting, training, and retaining sufficient skilled technical and management personnel;
- developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, and other internal systems;

All of these factors, in combination or alone could negatively impact our revenues and may cause significant fluctuations in our results of operations. This variability and unpredictability could materially and adversely affect our results of operations and financial condition.

13. As the securities of our Company are listed on Stock Exchanges in India, our Company is subject to certain obligations and reporting requirements under the SEBI Listing Regulations.

Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties. The Equity Shares of our Company are listed on BSE Limited, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI Listing Regulations.

Our Company endeavours to comply with all such obligations/reporting requirements, there may be nondisclosures/delayed/erroneous disclosures and/or any other violations which might have been committed by us, and the same may result into Stock Exchanges and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and Rules and Regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

14. Our Company has not registered the trademark. Our ability to use the trademark may be impaired if the same is not registered under our name.

We have not registered the trademark and logo of our Company which we use. The registration for the said trademark in our name is important to retain our brand equity. If we do not register our trademark, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. We are unable to assure that the future viability or value of any of our intellectual. Our Company's business may be affected due to our inability to protect our existing and future intellectual property rights. Currently, we do not enjoy the statutory protections accorded to a trademark registered in India and may not prohibit the use of such name and logo by anybody by means of statutory protection until it is registered.

15. Our Company has not taken insurance cover hence we may not be able to protect ourselves from all losses and may in turn adversely affect our financial condition.

Our Company has not taken any insurance cover at present. Hence, we may not be able to protect ourselves from any damage or loss suffered by us. To the extent that we suffer loss or damage, our results of operations or cash flow may be affected.

16. We have experienced negative cash flows in the past. Any such negative cash flows in the future could adversely affect our business, results of operations and prospects.

The following table sets forth our cash flow for the periods indicated:

Particulars	For the Financial year ended March 31,2024	For the Financial year ended March 31,2023	For the Financial year ended March 31,2022	For the Financial year ended March 31,2021
Net Cash from Operating Activities	(5328,000)	(30,10,000)	(10,62,24,007)	8,42,18,367
Net cash from Financing Activities	-	(54,99,000)	14,54,079	-

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. Such negative cash flows lead to a net decrease in cash and cash equivalents. Any negative cash flow in future could adversely affect our operations and financial conditions and the trading price of our Equity Shares.

17. We do not own our Registered Office from which we operate.

We do not own the premises on which our Registered Office is situated. Our Company has taken the registered office on lease & license basis. If the owner of the premises revokes the arrangements under which we occupy the premises or imposes terms and conditions that are unfavorable to us, we may suffer a disruption in our operations or have to pay increased rent, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

18. Our Company's management will have flexibility in utilizing the Net Proceeds. There is no monitoring agency appointed by our Company and the deployment of funds is at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

As the Issue size is not more than ₹10,000 lakhs, under Regulation 82 of the SEBI (ICDR) Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilisation of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilisation of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue. However, the management of our Company shall not have the power to alter the objects of this Issue except with the approval of the shareholders of the Company given by way of a special resolution in a general meeting, in the manner specified in Section 27 of the Companies Act. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue,. For further details, please refer to the section titled 'Objects of the Issue' on page 42 of this Draft Letter of Offer.

19. Overcapacity and oversupply in the global steel industry may adversely affect our profitability.

China is the largest steel producing country in the world by a significant margin, with the balance between its domestic production and demand being an important factor in the determination of global steel prices. In addition, Chinese steel exports may have a significant impact on steel prices in markets outside of China, including in the markets where we operate. Any production overcapacity and oversupply in the steel industry would likely cause increased competition in steel markets around the world which would likely lead to reduced profit margins for steel producers, and would also likely have a negative effect on our ability to increase steel production in general. No assurance can be given that we will be able to continue to compete in such an economic environment or that a prolonged stagnation of the global economy or production overcapacity will not have a material adverse effect on our business, results of operations, financial condition or prospects.

20. If industry-wide steel inventory levels are high, customers may draw from inventory rather than purchase new products, which would reduce our sales and earnings.

Above-normal industry inventory levels can cause a decrease in demand for our products and thereby adversely impact our earnings. High industry-wide inventory levels of steel reduce the demand for production of steel because customers can draw from inventory rather than purchase new products. This reduction in demand could result in a corresponding reduction in prices and sales, both of which could contribute to a decrease in earnings. Industry-wide inventory levels of steel products can fluctuate significantly from period to period.

21. Labour problems could adversely affect our results of operations and financial condition.

Most of our employees in India, and a substantial portion of our employees in Europe, other than management, are members of labor unions and are covered by collective-bargaining agreements with those labor unions, which have different terms at different locations and are subject to periodic renegotiation. Although we work to maintain good relations with unions, there can be no assurance that there will be no labor unrest in the future, which may delay or disrupt our operations. If strikes, work stoppages, work slow-downs or lockouts at our facilities occur or continue for a prolonged period of time, our business, results of operations, financial condition and prospects could be adversely affected

ISSUE SPECIFIC FACTORS

1. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements.

2. **The Rights Entitlement of Physical Shareholders may lapse in case they fail to furnish the details of their demat account to the Registrar.**

In accordance with the SEBI Circular bearing reference number 'SEBI/HO/CFD/DIL2/CIR/P/2020/13' dated January 22, 2020, the credit of Rights Entitlements and Allotment of Right Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least 1 (One) day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

3. **SEBI has recently, by way of Rights Issue Circulars streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.**

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI Rights Issue Circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see 'Terms of the Issue' on page 125 of this Draft Letter of Offer.

In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Right Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account (namely being [●]) opened by our Company, for the Eligible Shareholders which would comprise Rights Entitlements relating to:

- (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI (LODR) Regulations; or
- (b) Equity Shares held in the account of IEPF authority; or
- (c) The demat accounts of the Eligible Equity Shareholder which are frozen or suspended for debit or credit or details of which are unavailable with our Company or with the Registrar on the Record Date; or
- (d) Equity Shares held by Eligible Equity Shareholders holding Equity Shares in the physical form on the Record Date the details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or
- (e) Credit of the Rights Entitlements returned/reversed/failed; or
- (f) The ownership of the Equity Shares currently under dispute, including any court proceedings.

4. **Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our or members of our Promoter Group may adversely affect the trading price of the Equity Shares.**

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

5. **You may be subject to Indian taxes arising out of capital gains on the sale of the Right Shares and Rights Entitlement.**

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian Company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 (Twelve) months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit

India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

Further, the Finance Act, 2019, which has been notified with effect from April 01, 2019, stipulates the sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, and the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments have been notified on December 10, 2019 and have come into effect from July 01, 2020.

The Finance Act, 2020 has also provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident.

6. Investors will be subject to market risks until our Equity Shares credited to the investor's demat account are listed and permitted to trade.

Investors can start trading our Equity Shares Allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. Since our Equity Shares are currently traded on the Stock Exchanges, investors will be subject to market risk from the date they pay for our Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that our Equity Shares allocated to an investor will be credited to the investor's demat account or that trading in such Equity Shares will commence in a timely manner.

7. There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by BSE until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

8. Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

9. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

10. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the SEBI ICDR Regulations, the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political, or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of our Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase the Rights Equity Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealised loss as a result. We may complete the Allotment even if such events may limit the Applicant's ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

11. Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

12. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

13. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Following the Issue, we will be subject to a daily "circuit breaker" imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

Furthermore, prior trading prices may not be indicative of future trading values for the Rights Equity Shares. A stock exchange may halt secondary market trading in our Equity Shares due to market conditions or other reasons. Furthermore, an exchange or market may close or issue trading halts on specific securities, or the ability to buy or sell certain securities or financial instruments may be restricted, all of which may have an adverse impact on our Shareholders' ability to sell their Equity Shares or the price at which Shareholders may be able to sell their Equity Shares at any given time.

EXTERNAL RISK FACTORS**1. Any downturn in the macroeconomic environment in India could adversely affect our business, results of operations, cash flows and financial condition.**

India is our key market. For Fiscal 2024, entire of our Company's revenue from operations was from India. In addition, an increase in India's trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could increase interest rates and adversely affect liquidity, which could adversely affect the Indian economy and our business, results of operations, cash flows and financial condition.

2. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, in the jurisdictions in which we operate may adversely affect our business and results of operations.

Our business is subject to various laws and regulations, which are evolving and subject to change. We are also subject to corporate, taxation and other laws in effect in India, which require continued monitoring and compliance. These laws and regulations and the way in which they are implemented and enforced may change. There can be no assurance that future legislative or regulatory changes will not have any adverse effect on our business, results of operations, cash flows and financial condition.

3. Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as , acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India, or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations.

4. Significant differences exist between Ind AS and Indian GAAP and other accounting principles, such as IFRS and US GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our financial statements for Fiscals 2019, 2018 and 2017 included in this offer documents are prepared and presented in conformity with Indian GAAP and restated in accordance with the requirements the SEBI (ICDR) Regulations and the Guidance Note on "Reports in Company Offer Documents (Revised 2016)" issued by the ICAI. Ind AS differs from Indian GAAP and other accounting principles with which prospective investors may be familiar in other countries, such as IFRS and U.S. GAAP. Accordingly, the degree to which the Financial Statements included in this Offer Documents will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices.

Details of the Objects

The details of the Objects of the Issue are set out below:

1. To augment the existing and incremental working capital requirement of our company

Our Business is a working capital intensive industry. The increasing operations of our company will in turn lead to the increase in the requirement of working capital. The lead time for procuring the products is high and also in order to ensure readily available customized product along with a low lead time for our clients, we enjoy a lower credit period. Further, we are required to provide sufficient credit period to our clients resulting in high receivables and we enjoy minimum credit from our suppliers through against the same. We intend to increase our turnover over the years for which we would be required to provide extended credit period to our customers, but the credit period that we avail from our suppliers shall not increase substantially. This would require us to have adequate working capital to ensure a smooth and uninterrupted flow of our business operations. Accordingly, we expect a further increase in the working capital requirements in view of current and potential business operations that we may undertake.

SECTION IV – ABOUT THE COMPANY
INDUSTRY OVERVIEW

INTRODUCTION

One of the primary forces behind industrialization has been the use of metals. Steel has traditionally occupied a top spot among metals. Steel production and consumption are frequently seen as measures of a country's economic development because it is both a raw material and an intermediary product. Therefore, it would not be an exaggeration to argue that the steel sector has always been at the forefront of industrial progress and that it is the foundation of any economy. The Indian steel industry is classified into three categories - major producers, main producers and secondary producers.

India is the world's second-largest producer of crude steel, with an output of 125.32 MT of crude steel and finished steel production of 121.29 MT in FY23.

India's steel production is estimated to grow 4-7% to 123-127 MT in FY24.

The growth in the Indian steel sector has been driven by the domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output.

The Indian steel industry is modern, with state-of-the-art steel mills. It has always strived for continuous modernisation of older plants and up-gradation to higher energy efficiency levels.

**MARKET SIZE**

In the past 10–12 years, India's steel sector has expanded significantly. Production has increased by 75% since 2008, while domestic steel demand has increased by almost 80%. The capacity for producing steel has grown concurrently, and the rise has been largely organic.

In FY23, the production of crude steel and finished steel stood at 125.32 MT and 121.29 MT respectively.

In FY24 (until July 2023), the production of crude steel and finished steel stood at 45.39 MT and 43.01 MT respectively.

In FY23, crude and finished steel production stood at 125.32 MT and 121.29 MT respectively. In July 2023, crude steel production in India stood at 11.52 MT. In July 2023, finished steel production stood at 10.53 MT.

In FY24 (until July 2023), the consumption of finished steel stood at 41.15 MT.

The per-capita consumption of steel stood at 86.7 kgs in FY23.

In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. The consumption of finished steel stood at 105.751 MT in FY22. In FY23, the consumption of finished steel stood at 119.17 MT. In April-July 2022, the production of crude steel and finished steel stood at 40.95 MT and 38.55 MT respectively.

In FY23, exports and imports of finished steel stood at 6.7 MT and 6.02 MT, respectively. In FY22, India exported 11.14 MT of finished steel. In April 2023 exports of steel stood at 8.55 lakh metric tonnes (LMT), while imports stood at 4.60 LMT. In FY24 (until July 2023), the exports and imports of finished steel stood at 2.56 MT and 1.98 MT, respectively.

The annual production of steel is anticipated to exceed 300 million tonnes by 2030-31. By 2030-31, crude steel production is projected to reach 255 million tonnes at 85% capacity utilisation achieving 230 million tonnes of finished steel production,

assuming a 10% yield loss or a 90% conversion ratio for the conversion of raw steel to finished steel. With net exports of 24 million tonnes, consumption is expected to reach 206 million tonnes by the years 2030–1931. As a result, it is anticipated that per-person steel consumption will grow to 160 kg.

INVESTMENTS

The steel industry and its associated mining and metallurgy sectors have seen major investments and developments in the recent past.

- The Ministry of Steel is facilitating the setting up of an industry driven Steel Research and Technology Mission of India (SRTMI) in association with the public and private sector steel companies to spearhead research and development activities in the iron and steel industry at an initial corpus of Rs. 200 crore (US\$ 30 million).

ROAD AHEAD

The steel industry has emerged as a major focus area given the dependence of a diverse range of sectors on its output as India works to become a manufacturing powerhouse through policy initiatives like Make in India. With the industry accounting for about 2% of the nation's GDP, India ranks as the world's second-largest producer of steel and is poised to overtake China as the world's second-largest consumer of steel. Both the industry and the nation's export manufacturing capacity have the potential to help India regain its favourable steel trade balance.

The National Steel Policy, 2017 envisage 300 million tonnes of production capacity by 2030-31. The per capita consumption of steel has increased from 57.6 kgs to 74.1 kgs during the last five years. The government has a fixed objective of increasing rural consumption of steel from the current 19.6 kg/per capita to 38 kg/per capita by 2030-31. As per Indian Steel Association (ISA), steel demand will grow by 7.2% in 2019-20 and 2020-21.

Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

Basis for opinion

3. We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors Responsibilities for the Audit of Standalone Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules made there under, and we have fulfilled our other Ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of standalone financial statements of the current period. There matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information other than the Standalone Financial Statements and Auditor's Report thereon

5. The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board Report's, Business Responsibility Report, Corporate Governance and shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whenever the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

6. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act' 2013 ("the Act") with respect to the preparation of these standalone financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimate that are reasonable and prudent, and design implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and free from material misstatement, whether due to fraud or error.
7. In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the company or to cease operation, or has no realistic alternative but to do so.
8. The Boards of Directors are also responsible for overseeing the Company's financial process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

9. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could

reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure, and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure - B to the Independent Auditors Report-31st March, 2024

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of SRU Steels Limited ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Standalone Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

3 SIGNIFICANT ACCOUNTING POLICIES**3.1 USE OF ESTIMATES**

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. SRU STEELS LIMITED*Notes forming part of financial statements***3.2 PROPERTY PLANT & EQUIPMENT**

- a) Property, plant and equipment are stated at cost net of taxes less accumulated depreciation and/or impairment loss; if any. All costs such as freight, non recoverable duties & taxes and other incidental expenses until the property, plant and equipment are ready for use, as intended by the management and borrowing cost attributable to the qualifying property, plant and equipments are capitalized. Assets costing less than Rs.5,000/- are fully depreciated in the year of purchase in merging unit.
- b) Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.
- c) Capital work in progress represents expenditure incurred in respect of capital projects which are carried at cost. Cost includes land, related acquisition expenses, development and construction costs, borrowing costs and other direct expenditure.
- d) The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.
- e) Depreciation on property, plant and equipment is charged in accordance with estimate of useful life of the assets on written down value method, at rates specified in Schedule II to the Companies Act, 2013.
- f) In respect of assets added/disposed off during the year, depreciation is charged on pro-rata basis with reference to the month of addition/disposal.
- g) Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

3.3 FINANCIAL INSTRUMENTS**Initial recognition**

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Subsequent measurement*Financial assets carried at amortised cost*

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with Ind AS 109 "Financial Instruments" issued by the Ministry of Corporate Affairs, Government of India. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

SRU STEELS LIMITED*Notes forming part of financial statements***3.4 IMPAIRMENT****Financial assets**

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

Non-financial assets

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss, if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

3.5 PROVISIONS

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities are not recognised but are disclosed by way of notes to the financial statements, after careful evaluation by the management of the facts and legal aspects of each matter involved. Contingent assets are neither recognised nor disclosed in the financial statements.

Contingent liabilities are assessed continually to determine whether an outflow of resources embodying the economic benefit has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as contingent liability, a provision is recognised in the financial statements of the period in which the change in probability occurs.

3.6 BORROWING COST

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets to the extent they relate to the period till such assets are ready to be put to use, while other borrowing costs are recognized as expenses in the year in which they are incurred. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

3.7 INVENTORIES

Inventories other than scrap and goods in transit have been valued at lower of cost and net realisable value. The cost is ascertained as below:-

- i) Finished goods are valued at lower of cost or net realizable value on first in first out (FIFO) basis.
- ii) Scrap is valued at the net realisable value.

Where, net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

SRU STEELS LIMITED*Notes forming part of financial statements***3.8 EMPLOYEE BENEFITS****(i). Short-term employee benefits**

The undiscounted amount of short-term employee benefits expected to be paid in exchange of services rendered by employees is recognised during the period when the employee renders the services. These benefits include salaries, bonus and performance incentives.

3.9 FOREIGN CURRENCY TRANSACTIONS

In preparing the financial statements of the Company, transactions in currencies other than the company's functional currency i.e. foreign currencies are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the statement of profit or loss in the period in which they arise.

Foreign currency derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

3.10 TAXATION

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

The Company has identified one reportable segment "Trading of stainless steels" based on the information reviewed by the CODM. Refer note 38 for the Segment information presented.

3.13 CASH FLOW STATEMENT

The Cash Flow Statement is prepared by the indirect method set out in Indian Accounting Standard-7 on Cash Flow Statements and presents cash flows by operating, investing and financing activities of the Company. The Company considers all highly liquid financial instruments, which are readily convertible into cash, to be cash equivalents.

3.14 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.15 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3.16 FINANCIAL ASSETS

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

SRU STEELS LIMITED*Notes forming part of financial statements***Fair value measurements**

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

The following is the basis of categorising the financial instruments measured at fair value into Level 1 to Level 3: Level 1: This level includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: This level includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). Level 3: This level includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Trade receivables, cash & cash equivalents, other bank balances, loans, other current financial assets, trade payables and other current financial liabilities: Approximate their carrying amounts largely due to short-term maturities of these instruments.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

37 Financial risk management objectives

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support Company's operations. The Company's principal financial assets include inventory, trade and other receivables, cash and cash equivalents and land advances that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real estate risk. Financial instruments affected by market risk include loans and borrowings.

b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including refundable joint development deposits, security deposits, loans to employees and other financial instruments.

i) Trade receivables

Receivables resulting from sale of properties: Customer credit risk is managed by requiring customers to pay advances before transfer of ownership, therefore, substantially eliminating the Company's credit risk in this respect.

Receivables resulting from other than sale of properties: Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. The impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively.

ii) Financial Instrument and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments. The Company's maximum exposure to credit risk for the components of the statement of financial position at 31 March 2019 and 2018 is the carrying amounts.

SRU STEELS LIMITED

c) Liquidity risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank deposits and loans.

Following is an overview of some of the important laws and regulations, which are relevant to our business.

The Micro, Small and Medium Enterprises Development Act, 2006.

Small and medium scale enterprises (SMEs) are understood in India as enterprises where the investment in plant and machinery or equipment is between ` 25 lakhs to ` 10 crores in case of a manufacturing industry and between ` 10 lakhs to ` 5 Crores in case of a service sector enterprise. This definition is provided in Section 7 of Micro, Small & Medium Enterprises Development Act, 2006 (MSMED Act) and was notified in September 2006. The Act provides for classification of enterprises based on their investment size and the nature of the activity undertaken by that enterprise.

Labour Laws

Depending upon the nature of the activities undertaken by our Company, certain applicable labour laws and regulation include the following:

Child Labour (Prohibition and Regulation) Act, 1986

The Child Labour (Prohibition and Regulation) Act, 1986, ("CLPRA Act") provides for prohibiting engagement of children below 14 years in factories, mines and hazardous employments and regulates the conditions of their employment in certain other employments. The CLPRA Act aims to regulate the number of hours, period of work and holidays to be given to child labourers. It specifies that the employer has to mandatorily furnish certain information regarding employment of child labour to the inspector and maintain a register which would contain details regarding the child labourers. The CLPRA Act also provides for health and safety measures to be complied with by the employer. Inter State Migrant Workmen (Regulation of Employment & Conditions of Service) Act, 1979 ("ISMW Act")

The ISMW Act regulates the employment of inter-state migrant workmen and provides for their conditions of services and for matter connected therewith. Under the provisions of the ISMW Act, every principal employer of an establishment which employs five or more inter-state migrant workmen (whether or not in addition to other workmen) on any day of the preceding 12 months has to register his establishment under ISMW Act. The ISMW Act also requires the principal employers and contractors to maintain registers with such details of the migrant workmen as may be prescribed. Any violation of the provisions of the ISMW Act and Rules prescribed thereunder is imprisonment which may extend to two years or with fine which may extend to ` 2,000 or with both

Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013 ("SHWPPR Act") aims to provide women protection against sexual harassment at the workplace and prevention and redressal of complaints of sexual harassment. The SHWPPR Act defines 'sexual harassment' to include any unwelcome acts or a sexually determined behaviour (inter alia whether directly or by implication). Workplace under the SHWPPR Act has been defined widely to include government bodies, private and public sector organisations, non-governmental organisations, organizations carrying on commercial, vocational, educational, entertainment, industrial, financial activities, hospitals and nursing homes, educational institutes, sports institutions and stadiums used for training individuals. The SHWPPR Act requires an employer to set up an 'internal complaints committee' at each office or branch, of an organization employing at least 10 employees. Factors like mental trauma, medical expenses, loss

in the career opportunity and income shall be considered while determining compensation. The duties of the employer and the district officer are provided in the SHWPPR Act.

The Maternity Benefit Act, 1961

The Maternity Benefit Act, 1961, as amended (“Maternity Benefit Act”) on 1st April 2017 regulates the employment of pregnant women and ensures that they get paid leave for a specified period during and after their pregnancy. However, the relevant provision on the “work from home” option will come into effect from 1st July 2017. The Maternity Benefit Act is applicable to establishments in which 10 or more employees are employed, or were employed on any day of the preceding 12 months. The maximum period for which any woman shall be entitled to maternity benefit shall be 26 weeks, of which not more than Eight weeks shall precede the date of her expected delivery. For women who are expecting after having 2 children, the duration of paid maternity leave shall be 12 weeks (i.e., 6 weeks pre and 6 weeks post expected date of delivery). It also provides that every woman who adopts a child shall be entitled to 12 weeks of maternity leave, from the date of adoption. The MB Amendment Act has also introduced an enabling provision relating to “work from home” for women, which may be exercised after the expiry of the 26 weeks’ leave period depending on nature of work. Entitlement of six weeks of paid leave is also applicable in case of miscarriage or medical termination of pregnancy. The MB Amendment Act makes crèche facility mandatory for every establishment employing 50 or more employees. Women employees would be permitted to visit the crèche 4 times during the day.

The Minimum Wages Act, 1948

Under the Minimum Wages Act, 1948 (“Minimum Wages Act”) every employer is mandated to pay not less than the minimum wages to all employees engaged to do any work whether skilled, unskilled, manual or clerical (including outworkers) in any employment listed in the schedule to the Minimum Wages Act, in respect of which minimum rates of wages have been fixed or revised under the Minimum Wages Act.

The Central Goods and Services Tax Act, 2017

The GST Act levies tax on supply of goods and services throughout India to replace multiple taxes levied by the Central and State Governments on production, supply and sale of goods and providing of services in India. The GST Act is applicable from July 1, 2017 and binds together the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. Under GST, goods and services are taxed under five different categories that are 0%, 5%, 12%, 18%, 28%. GST is levied on all transactions such as supply, transfer, purchase, barter, lease, or import of goods and/or services. Transactions made within a single state are levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the 'automatic route', where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the 'government route', where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (**'FDI Circular 2020'**), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

Our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Draft Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
