Non – GAAP financial measures

Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the year/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, or IFRS. Other companies may calculate the Non-GAAP Measures differently from us, limiting their usefulness as a comparative measure. Although the Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company’s operating performance or liquidity. Similarly, while our Company believes its internal estimates to be reasonable, such estimates have not been verified by any independent sources and neither our Company nor any of the BRLM can assure potential Investors as to their accuracy.

Accordingly, investors must rely on their independent examination of, and should not place undue reliance on, or base their investment decision solely on this information.

- 1) where the judgment has not been pronounced by a court of competent jurisdiction;
- 2) where the judgment has not been given on the merits of the case;
- 3) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognize the law of India in cases, in which such law is applicable, where the proceedings in which the judgment was obtained were opposed to natural justice;
- 4) where the judgment has been obtained by fraud; and
- 5) where the judgment sustains a claim founded on a breach of any law, then in force in India.

Section 44A of the Civil Procedure Code provides that a foreign judgment rendered by a superior court (within the meaning of that section) in any jurisdiction outside India which the Government has by notification declared to be a reciprocating territory, may be enforced in India by proceedings in execution as if the judgment had been rendered by a district court in India. However, Section 44A of the Civil Procedure Code is applicable only to monetary decrees not being in the nature of any amounts payable in respect of taxes or other charges of a like nature or in respect of a fine or other penalties and does not include arbitration awards.

Under Section 14 of the Civil Procedure Code, a court in India will, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the foreign judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record but such presumption may be displaced by proving want of jurisdiction.

Each of the United Kingdom, Singapore, United Arab Emirates and Hong Kong, amongst others, has been declared by the Government to be a reciprocating territory for the purposes of Section 44A of the Civil Procedure Code, but the United States of America has not been so declared. A foreign judgment of a court in a jurisdiction which is not a reciprocating territory may be enforced only by a new suit upon the foreign judgment and not by proceedings in execution. The suit must be brought in India within three years from the date of the foreign judgment in the same manner as any other suit filed to enforce a civil liability in India. Accordingly, a judgment of a court in the United States may be enforced only by a fresh suit upon the foreign judgment and not by proceedings in execution.

It is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it viewed the amount of damages awarded as excessive or inconsistent with public policy of India, and it is uncertain whether an Indian court would enforce foreign judgments that would contravene or violate Indian law. Further, any judgment or award denominated in a foreign currency would be converted into Rupees on the date of such judgment or award and not on the date of payment. A party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to repatriate outside India any amount recovered, and any such amount may be subject to income tax in accordance with applicable laws.

Silver Conductive Ink

Our Company is engaged in the business of trading in Silver Conductive Ink. Our business is purely dependent on the demand and supply of Silver Ink in the markets. We import silver ink from Hong Kong. We procure our inks from suppliers based in the international market. Specifications and Description of Silver Conductive Ink

There are many types of conductive ink available in the market, but the silver conductive ink is the best in terms of conductivity and printability. This product formulation is manufactured from three main components, such as Silver (Ag) nano powder, adhesive or binder polymer, and solvent. It is also known as Nano-silver printing ink.

It is primarily used for flexible substrate printing, where it screens printed on the insulated surface of the plastic, PET, acrylic, and many other plastic components to make a conductive

circuit. Since the electronics devices require multiple interconnect and electrode, hence the silver ink is the best solution to fulfill its requirements. The viscosity plays a vital role in inject and screen printing, which can be optimized through the concentration of solvent and patented adhesive.

Our silver conductive ink dried at room temperature with excellent curing time, whereas the flexibility of a substrate does not affect after getting cured. The resistivity of ink is less than 0.003 ohms/sq.cm. The researchers may calculate the resistivity by using the 4-probe method. The used adhesive is itself conductive; hence the silver conductive paste is highly durable and conductive. We also supply silver ink conductive pen.

The silver used in ink is 99.9% pure nano powder with uniform particle size. The loading percentage varies as per the application. It is majorly used for wearable electronics, touchscreens, smartphones, 3D printing, OLEDs, battery electrodes, membrane circuits, printed circuit boards (PCB), Switchable films, and many more. It is also used in inkjet printing technology. Some people used it for their existing printers with slight modifications. In many places, it is used for indirect soldering applications where it places as a sandwich between the insulated substrate and copper tape.

Silver Conductive Ink Applications:

- Digital Printing
- Solar cell
- Optoelectronics
- Radio-frequency identification (RFID)

INTERNAL RISK FACTORS

BUSINESS RELATED RISKS

- 1. Our Company does not own the premises where its registered and corporate office is situated, and leave & license agreement have been executed for the same. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof.***

Our Registered office situated at 404 - 4th floor, Samarth Co. Op. H. Soc., Nr. Silicon Tower, Nr. Law Garden, Ellisbridge, Ahmedabad 380006, Gujarat, India is a leased premises. The said property is owned by third party, namely Bhalodia Vikrant Our Company has entered into an agreement with them for leasing the same premises for a period of 11 month 29 days w.e.f. 14th September 2024. Our business operations are also conducted from the said premises. As per the lease agreement if there are any non-compliance by us in relation to any term of lease, lease fee and any other terms and conditions, the lease may result in the termination of the lease agreement and consequently we have to vacate the said premises. We also cannot assure you that the lessor will not terminate the lease agreement, which would require us to locate to another premise and may have an adverse effect on our conducting our business operations.

2. *Some of our corporate records, including forms filed in the registrar of companies prior to 2006 are not traceable.*

We are unable to trace certain corporate and other documents in relation to our Company such as roc forms prior to the year 2006. We cannot assure you that the filings were made in a timely manner and that we shall not be subject to penalties on this account. Further online filing of Roc Documents was initiated in the year 2006 and all forms prior to the said year were physically filed, hence certain of these forms could not be retrieved from Ministry of Corporate Affairs (MCA) portal. We cannot further assure you that we will not be penalized by the relevant supervisory and regulatory authorities in India for not maintaining secretarial records before 2006.

3. *There is Income Tax Demand Notice against Our Company in few Assessment Years, and the Company is yet to make the payment according to such Demand Notice.*

Our Company has some outstanding demand for Income Tax, the details of demands in relation to direct tax matters against our Company have been set out below.

Outstanding demand against our Company: -

For further details, see '*Legal Proceedings*' beginning on page 303.

4. *Due to Inadvertence, the Company took new Permanent Account Number (PAN) AAGCG9686L even though the Company was holding its original PAN - AAACG5585F. The Company has processed for surrender of duplicate PAN - AAGCG9686L.*

Our Company originally incorporated in the name and style of "Pirnmatic Engineering Private Limited" on 25th March 1983 and thereafter its name changed to Kunal Fabricators Private Limited. It is to be noted that thereafter again name of the Company changed to Kunal Fabricators Private Limited and also changed its registered office multiple times during 2006 and 2023 and hence the original PAN Card of the Company misplaced. In the FY 2017-18, the Company planned to apply for issue of duplicate PAN CARD from Income Tax Department, but inadvertently applied for new PAN in place of application of duplicate PAN Card and accordingly a new PAN AAGCG9689L was allotted to the Company in FY 2017-18 in its present name. The Company regularly filling all its

Income Tax Returns and other applicable filing with IT in old PAN i.e. AAACG5585F and getting all its Assessment Orders in that PAN only. This matter came to notice of company about holding of two (2) different PAN and hence immediately started the process of surrender of PAN AAGCG9586L, which till date, the Company has not used in Income Tax fillings. The cancellation of PAN AAGCG9586L may take some time with Income Tax authority and our Company may receive any show cause notice form IT Authority of such duplication and presently we cannot anticipate the financial and/or other implication of any action form IT Authority. Our Company may like to clarify that such an error was inadvertent with no mala fide intention.

5. *The Silver Conducive Ink, the product in which our Company trades is an imported material and hence the Import Policy of Government of India will affect the business of our Company.*

Our Company commenced the trading business of Silver Conducive Ink. The 100% purchase of the Company is from Hong Kong and hence it falls under imported material. Presently there is no restriction on value and or/quantity of Import by a single party, but, if the Government of India changes any policy relating to Import of Silver Conducive Ink in India may affect the business of the Company in terms of volume and/or profit.

6. *A decrease in the availability or an increase in the price of inks may make it difficult for us to procure enough silver inks at competitive prices to supply our customers.*

Timely procurement of materials such as Silver –Conducive Ink, as well as the quality and the price at which they are procured, play an important role in the successful operation of our business. A sudden fall in the market price of Silver –Conducive Ink, may affect our ability to recover our procurement costs. Conversely, an increase in the price of Silver –Conducive Ink could lead to a decrease in demand for a particular item and/or a decrease in our profit margins. The prices and supply of these and other materials depend on factors beyond our control, including general economic conditions, competition, production levels and regulatory factors such as import duties. We cannot assure you that we will be able to procure quality materials at competitive prices or at all. Further, any rise in prices of products used by us may cause customers to delay their purchases, thereby adversely affecting our business, operations, and financial condition.

7. *Our Company is dependent on third party transportation providers for the delivery of our goods and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and the results of operations.*

Our Company uses third-party transportation providers for the delivery of our goods. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. In addition, goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road and water infrastructure, or other events could impair ability to procure silver ink on time. Any such disruptions could materially and adversely affect our business, financial condition, and results of operations.

8. *The total purchase of our Company presently sourced from Hong Kong.*

Our Company is importing Silver Conductive Ink from Imperial Business Trading Limited and presently all purchase is sourced from one Supplier, based at Hong Kong. Looking to the size and future expectation of business, the present business pattern of Our Company dealing with single supplier and sourcing from one country may cause disruption and or affect consistency in this business, if our terms and/or other business conditions with our single supplier get effected negatively or they find good buyer in India. Our Company is looking to increase its supplier base of Silver Conductive Ink and any success in sourcing new supplier will give chance of better consistency in this business.

9. *The immovable properties used by us are leased. If we are unable to renew existing leases or relocate operations on commercially reasonable terms, there may be an effect on our business, results of operations and prospects.*

We do not own registered office premises from where we operate. We entered into a rent agreement, which is renewable based on the terms of the agreement. Typically for a short-term lease, the lease is required to be renewed every year. Periodic renewals of short-term leases may increase our costs, since they are subject to rent escalation. Further, if we are required to relocate our registered office because of any termination or non-renewal of our leases, we may incur additional costs because of such relocation. If we are unable to renew the agreements pursuant to which we occupy the premises on terms and conditions acceptable to us, or at all, we may have to relocate to other places.

Any failure or difficulty faced by us in renewing leases, or disputes or other problems that we or our business partners may face in the future with lessees may affect our business and prospects. 11. *There are no long-term supply agreements with our vendors/suppliers.*

Our business presently consists of Silver Conducive Ink only, which is an imported material and hence our income is fully dependent on sales of ink. Our continued reliance on sales of this particular type of ink trends for a significant portion of our revenue exposes us to risks, including increased competition from domestic and international manufacturers; the invention of superior and cost-effective technology; fluctuations in the price and availability of the raw materials; changes in regulations and import duties; and the cyclical nature of our customers' businesses.

In addition, our ability to raise funds, either through equity or debt, may be limited by certain restrictions imposed under Indian law or judicial order.

Our business is subject to applicable government regulations and legislations and we require certain statutory and regulatory approvals, licenses, registrations, and permissions for operating our business. These permits, licenses and approvals may also be tied to numerous conditions and terms, obtaining some of which may be time consuming and may incur high cost. Further, applications for approvals, licenses, registrations and permissions for operating our business need to be made within certain timeframes and are often subject to the discretion of relevant authorities. If we are unable to make applications or renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner, at a reasonable cost, or at all or in the event we fail to comply with the terms and conditions therein, it could materially and adversely affect our financial condition and results of operations, including cancellation, revocation or suspension of relevant permits, licenses, registrations and approvals and the imposition of penalties by relevant authorities.

In addition, if we experience an increase in the time to bill and collect for our services, our cash flows could be adversely affected.

We may be subject to working capital shortages due to delays or defaults in payments by clients. 24. Our Company's securities are subject to surveillance and categorized on account of ESM: Stage 2 by Securities and Exchange Board of India (SEBI), resulting which the investors may face restriction and hindrance in trading.

In order to enhance market integrity and safeguard interest of investors SEBI has introduced various enhanced pre-emptive surveillance measures such as reduction in price band, periodic call auction and transfer of securities to Trade to Trade category from time to time.

Along with the aforesaid measures there are additional Graded Surveillance Measures on securities which witness an abnormal price rise not commensurate with financial health and fundamentals.

Presently, our Company's securities are under SEBI surveillance and categorized under ESM: Stage 2, repercussions of which are as follows:

- Trade for Trade settlement

AND

- 100% Margin

AND

- Trading permitted with +/- 2% price band on all trading days under Periodic Call Auction.

Due to these actions the investors may face restriction and hinderance in trading. We can't provide assurance that in future the Company will be able to exit the surveillance or even the Company may move to higher stage of the Surveillance framework or a higher level of Surveillance such as GSM.

All market participants dealing in the securities of our Company have to be extra cautious and diligent as, Exchanges and SEBI may at an appropriate time subject to satisfaction of certain criteria even lay additional restrictions such as:

Any such adverse regulatory action or development could affect our Company's operations and result in an adverse effect on the trading price of the Equity Shares.

25. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively or at all. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

Our business is dependent on the decisions and actions of our customers, and there are a number of factors relating to our clients that are outside our control that might result in the termination of an assignment or the loss of a client, including a demand for price reductions. Therefore, our business may be adversely affected if any of our contracts are terminated by our customers.

30. *Our insurance coverage may not adequately protect us against certain operating risks and this may have an adverse effect on the results of our business.*

We could face liabilities or otherwise suffer losses should any unforeseen incident such as fire, flood, and accidents affect our factories and distribution centers or in the regions/areas where our stores and

distribution centers are located. Although we maintain insurance coverage in relation to fire and other natural and accidental risks at our facilities, money and fidelity insurance and stock insurance, there are possible losses, which we may not have insured against or covered or wherein the insurance cover in relation to the same may not be adequate. Any damage suffered by us in excess of such limited coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. A successful enforcement of one or more claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, financial condition, cash flows and results of operations.

Accordingly, it is difficult to predict with certainty if, when, and to what extent the delivery of the orders placed will be made. ISSUE SPECIFIC RISKS

37. Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.

Any future issuance of Equity Shares by our Company could dilute the investor's shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

38. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if STT has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. It is pertinent to note that pursuant to the Finance Bill, 2017, it has been proposed, that with effect from April 1, 2017, this exemption would only be available if the original acquisition of equity shares was chargeable to STT. The Central Government is expected to, however, notify the transactions which would be exempt from the application of this new amendment. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to applicable short-term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption is provided under a treaty between India and the country of which the seller is resident, subject to the availability of certain documents. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. For more details, please refer to '*Statement of Possible Special Tax Benefits*' beginning on page 301 of this Placement Document.

39. There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchange until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchange. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

40. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

41. *In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.*

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the section titled '*Use of Proceeds*' beginning on page 69. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

42. *Investors will be subject to market risks until the Issue Shares credited to their demat accounts are listed and permitted to trade.*

Investors can start trading the Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Issue Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Issue Shares allocated to an Investor will be credited to the Investor's demat account or that trading in the Equity Shares will commence in a timely manner.

EXTERNAL RISK FACTORS

43. *Significant differences exist between Ind-AS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with Ind-AS contained in this Placement Document*

Our summary Statements of Assets and Liabilities, Statements of Profit and Loss (including other comprehensive income), Cash Flows and Changes in Equity for the Fiscals 2024, 2023 and 2022 have been prepared in accordance with the Indian Accounting Standards notified under Section 133 of the Companies Act, read with the Ind AS Rules and in accordance with the SEBI ICDR Regulations, the SEBI Circulars and the prospectus Guidance Note.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Placement Document, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP.

Accordingly, the degree to which the Financial Information included in this Placement Document will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Placement Document should accordingly be limited.

44. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity, which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis and volatility in exchange currency rates.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

45. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including Foreign Investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to

resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Any increase in taxes and levies, or the imposition of new taxes and levies in the future, could increase the cost of production and operating expenses. Taxes and other levies imposed by the Central or State governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. The Central and State tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the Central or State governments may adversely affect our competitive position and profitability.

46. Financial instability in both Indian and International financial markets could adversely affect our results of operations and financial condition.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging markets. Financial turmoil in Asia, Europe, the United States and elsewhere in the World in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

47. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

48. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our business and hence could constrain our ability to obtain financing on competitive

terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non- residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authority. There can be no assurance that any approval required from the RBI, or any other government agency, can be obtained on any particular terms or at all.

49. Any downgrading of India's credit rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings by international rating agencies may adversely affect our ability to raise overseas financing and the interest rates and other commercial terms at which such financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

50. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in the past years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Recent developments in the ongoing conflict between Russia and Ukraine has resulted in and may continue to result in a period of sustained instability across global financial markets, induce volatility in commodity prices, adversely impact availability of natural gas, increase in supply chain, logistics times and costs, increase borrowing costs, cause outflow of capital from emerging markets and may lead to overall slowdown in economic activity in India. Such incidents could also create a greater perception that investment in Indian Companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

Subject to compliance with applicable laws, the net proceeds from the Issue, after deducting fees, commissions, and the estimated expenses of the Issue of approximately ₹ 30 Lakhs, shall be approximately ₹ 4969.99 Lakhs (the “Net Proceeds”).

Objects of the Issue

Subject to compliance with applicable laws, our Company intends to use the Net Proceeds towards funding the following objects:

- 1) Funding working capital requirements of our Company; and
- 2) General corporate purposes (collectively, “Objects”)

The objects clause and matters in furtherance of the objects, as set out in the memorandum of association of our Company enable us to undertake (i) existing business activities and (ii) the activities proposed to be funded from the Net Proceeds.

Utilisation of Net Proceeds

The Net Proceeds are proposed to be utilised in the manner set forth below:

Sr. No.	Particulars	Amount
1.	Funding working capital requirements of our Company	4,000.00
2.	General Corporate Purpose ⁽¹⁾	969.99
	Total Net Proceeds	4,969.99

(Rs. In Lakhs)

(1) The amount utilised for general corporate purposes shall not exceed 25% of the Gross Proceeds.

In the event of a change in the final Issue size, the amounts shown in the table above against each of the use of proceeds specified therein shall be modified in proportion to the change in the final Issue size in the Placement Document.

Proposed schedule of implementation and deployment of Net Proceeds

The Net Proceeds are currently expected to be deployed in accordance with the schedule set forth below:

Sr. No.	Particulars	Amount to be funded from Net Proceeds	Proposed schedule for deployment of the Net Proceeds
			FY 2024-25
1.	Funding working capital requirements of our Company	4,000.00	4,000.00
2.	General Corporate Purpose ⁽¹⁾	969.99	969.99
	Total Proceeds	4,969.99	4,969.99

(Rs. In Lakhs)

(1) The amount utilised for general corporate purposes shall not exceed 25% of the Gross Proceeds.

The above-stated funding requirements, deployment of funds and the intended use of Net Proceeds indicated above is based on management estimates, current circumstances of our business, our existing business plans, the prevailing market conditions and other commercial and technical factors. Given the nature of our business, we may have to revise our funding requirements and intended deployment schedule on account of a variety of factors such as our financial condition, business and growth strategy, and external factors such as market conditions, competitive environment, price fluctuations and interest or exchange rate fluctuations and other external factors which may not be within the control of our management. Depending upon such factors, we may have to reduce or extend the deployment period for the stated objects. This may entail rescheduling or revising the planned expenditure, implementation schedule and funding requirements, including the expenditure for a particular purpose, at the discretion of our management, subject to compliance with the applicable laws. If the actual utilisation towards the objects is lower than the proposed deployment, such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 25% of the Gross Proceeds. In case of a shortfall in raising requisite capital from the Net Proceeds, business considerations may require us to explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders. We believe that such alternate arrangements would be available to fund any such shortfalls. Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Issue, subject to compliance with applicable laws.

Independent Auditor's Limited Review Report on Unaudited Quarterly Consolidated financial results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015.

The Board of Directors
Gujarat Toolroom Limited

We have reviewed the accompanying statement of unaudited consolidated financial results of **GUJARAT TOOLROOM LIMITED** ('the Company') for the quarter ended **30th June 2024** being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended). Our responsibility is to issue a report on the financial statement based on our review.

This Statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and rules thereunder, requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.

We conducted our review of the Statement in accordance with the Standard on Review Engagement (SRE) 2410 "Review of Interim Consolidated Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of

We have not performed an audit and accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement prepared in accordance with applicable accounting standards i.e. Ind AS prescribed under section 133 of the act read with relevant rules issued there under and other recognized accounting practice and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including the manner in which it is to be disclosed, or that it contains any material misstatement

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have nothing to communicate in this regard.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Board's Report, but does not include the

Financial Statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

1. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error,

as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
2. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 3. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 4. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of GUJARAT TOOLROOM LIMITED (“the Company”) as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis

for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of the Financial Statements

1 SIGNIFICANT ACCOUNTING POLICIES

a Basis of Preparation

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India ("Indian GAAP") to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, as applicable. The financial statements have been prepared under the historical cost convention on accrual basis, except for certain financial instruments which are measured at fair value.

b Use of estimates

The preparation of financial statements requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expense during the year. Examples of such estimates include provisions for doubtful receivables, provision for income taxes, the useful lives of depreciable Property, Plant and Equipment and provision for impairment. Future results could differ due to changes in these estimates and the difference between the actual result and the estimates are recognised in the period in which the results are known / materialise.

c Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation / amortisation. Costs include all expenses incurred to bring the asset to its present location and condition.

d Depreciation / amortisation

In respect of Property, Plant and Equipment (other than freehold land and capital work-in-progress) acquired during the year, depreciation/amortisation is charged on a Written Down Value Method.

Type of Assets	Period
Buildings	30 Years
Plant and Equipment	15 Years
Medical Equipment & Plant	13 Years
Furniture and Fixtures	10 Years
Electrical equipment	5 Years
Computers	3 Years
Software	3 Years

e Leases

Assets taken on lease by the Company in its capacity as lessee, where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such a lease is capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight-line basis.

f Impairment

At each balance sheet date, the management reviews the carrying amounts of its assets included in each cash generating unit to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset. Reversal of impairment loss is recognised as income in the statement of profit and loss.

g Investments

Long-term investments and current maturities of long-term investments are stated at cost, less provision for other than temporary diminution in value. Current investments, except for current maturities of long-term investments, comprising investments in mutual funds, government securities and bonds are stated at the lower of cost and fair value.

h Revenue recognition

Revenue from the sale of agricultural goods are recognised upon delivery, which is when title passes to the customer. Revenue is reported net of discounts.

Dividend is recorded when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.

i Taxation

Current income tax expense comprises taxes on income from operations in India and in foreign jurisdictions. Income tax payable in India is determined in accordance with the provisions of the Income Tax Act, 1961. Tax expense relating to foreign operations is determined in accordance with tax laws applicable in countries where such operations are domiciled.

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax after the tax holiday period. Accordingly, MAT is recognised as an asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify.

Deferred tax expense or benefit is recognised on timing differences being the difference between taxable income and accounting income that originate in one period and is likely to reverse in one or more subsequent periods. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction for relevant tax paying units and where the Company is able to and intends to settle the asset and liability on a net basis.

The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

j Foreign currency transactions

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities other than net investments in non-integral foreign operations are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses are recognised in the statement of profit and loss. Exchange difference arising on a monetary item that, in substance, forms part of an enterprise's net investments in a non-integral foreign operation are accumulated in a foreign currency translation reserve.

k Inventories

Raw materials are carried at the lower of cost and net realisable value. Cost is determined on a weighted average basis. Purchased goods-in-transit are carried at cost. Work-in-progress is carried at the lower of cost and net realisable value. Stores and spare parts are carried at lower of cost and net realisable value. Finished goods produced or purchased by the Company are carried at lower of cost and net realisable value. Cost includes direct material and labour cost and a proportion of manufacturing overheads.

l Provisions, Contingent liabilities and Contingent assets

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

m Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Parent's preparation and fair presentation of the Statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the Parent's internal financial control with reference to the Statement. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the Statement.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion. However, as of the date of this report, we have not yet received the Audit

(Referred to in paragraph 2 (f) under ‘Report on other legal and regulatory requirements’ section of our report to the Members of GUJARAT TOOLROOM LIMITED of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of GUJARAT TOOLROOM LIMITED (“the Company”) as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Opinion

In conjunction with our audit of the consolidated financial statements of GUJARAT TOOLROOM LIMITED (hereinafter referred to as “the Holding Company”) as of and for the year ended 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Holding Company and such companies incorporated in India under the Act which is its subsidiary companies, its associate companies, its joint venture companies and joint operation companies, as of that date.

In our opinion and based on the consideration of reports of the other auditors on internal financial controls with reference to financial statements/financial information of subsidiary companies, associate companies, joint venture companies and joint operation companies, as were audited by the other auditors, the Holding Company and such companies incorporated in India which is its subsidiary companies, its associate companies, its joint venture companies and joint operation companies, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material

respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements. As of the date of this report, we have not yet received the Audit report of the wholly owned subsidiary. Consequently, in the absence of the audited Financial Statements for the subsidiary, we are unable to express our opinion on its Internal Control System with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

The internal financial controls with reference to financial statements/financial information in so far as it relates to the 1 subsidiary company which is company incorporated in outside India and included in these consolidated financial statements, have not been audited either by us or by other auditors. In our opinion and according to the information and explanations given to us by the Management, such

unaudited subsidiary companies, associate companies and joint venture companies are material to the Holding Company.

Our opinion is not modified in respect of these matters.

Notes forming part of the Financial Statements

1 SIGNIFICANT ACCOUNTING POLICIES

a Basis of Preparation

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India ('Indian GAAP') to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, as applicable. The financial statements have been prepared under the historical cost convention on accrual basis, except for certain financial instruments which are measured at fair value.

b Use of estimates

The preparation of financial statements requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expense during the year. Examples of such estimates include provisions for doubtful receivables, provision for income taxes, the useful lives of depreciable Property, Plant and Equipment and provision for impairment. Future results could differ due to changes in these estimates and the difference between the actual result and the estimates are recognised in the period in which the results are known / materialise.

c Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation / amortisation. Costs include all expenses incurred to bring the asset to its present location and condition.

d Depreciation / amortisation

In respect of Property, Plant and Equipment (other than freehold land and capital work-in-progress) acquired during the year, depreciation/amortisation is charged on a Written Down Value Method.

Type of Assets	Period
Buildings	30 Years
Plant and Equipment	15 Years
Medical Equipment & Plant	13 Years
Furniture and Fixtures	10 Years
Electrical equipment	5 Years
Computers	3 Years
Software	3 Years

e Leases

Assets taken on lease by the Company in its capacity as lessee, where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such a lease is capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight-line basis.

f Impairment

At each balance sheet date, the management reviews the carrying amounts of its assets included in each cash generating unit to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset. Reversal of impairment loss is recognised as income in the statement of profit and loss.

g Investments

Long-term investments and current maturities of long-term investments are stated at cost, less provision for other than temporary diminution in value. Current investments, except for current maturities of long-term investments, comprising investments in mutual funds, government securities and bonds are stated at the lower of cost and fair value.

h Revenue recognition

Revenue from the sale of agricultural goods are recognised upon delivery, which is when title passes to the customer. Revenue is reported net of discounts.

Dividend is recorded when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.

i Taxation

Current income tax expense comprises taxes on income from operations in India and in foreign jurisdictions. Income tax payable in India is determined in accordance with the provisions of the Income Tax Act, 1961. Tax expense relating to foreign operations is determined in accordance with tax laws applicable in countries where such operations are domiciled.

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax after the tax holiday period. Accordingly, MAT is recognised as an asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify.

Deferred tax expense or benefit is recognised on timing differences being the difference between taxable income and accounting income that originate in one period and is likely to reverse in one or more subsequent periods. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction for relevant tax paying units and where the Company is able to and intends to settle the asset and liability on a net basis.

The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

j Foreign currency transactions

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities other than net investments in non-integral foreign operations are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses are recognised in the statement of profit and loss. Exchange difference arising on a monetary item that, in substance, forms part of an enterprise's net investments in a non-integral foreign operation are accumulated in a foreign currency translation reserve.

k Inventories

Raw materials are carried at the lower of cost and net realisable value. Cost is determined on a weighted average basis. Purchased goods-in-transit are carried at cost. Work-in-progress is carried at the lower of cost and net realisable value. Stores and spare parts are carried at lower of cost and net realisable value. Finished goods produced or purchased by the Company are carried at lower of cost and net realisable value. Cost includes direct material and labour cost and a proportion of manufacturing overheads.

l Provisions, Contingent liabilities and Contingent assets

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

m Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key Audit Matters are those matters that, in my professional judgment, are of most significance in my audit of the financial statements of the current period. These matters are addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide separate opinion on these matters.

*Annexure "A" to the Independent Auditor's Report Responsibilities for Audit of Financial
Statement*

As part of an audit in accordance with SAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, I am also responsible for expressing my opinion on whether the company has internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusion is based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

I have audited the internal financial controls over financial statements of **GUJARAT TOOLROOM LIMITED** ("the Company"), as of 31 March, 2023, in conjunction with my audit of the standalone financial statements of the Company as at and for the year ended that date.

In my opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls are operating effectively as at 31 March 2023, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Auditor's Responsibility

My responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on my audit. I conducted my audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards of Accounting, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. My audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed

risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company,
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1 Corporate Information

Gujarat ToolRoom Limited (GTL or 'the company'), was originally incorporated as Private Limited Company on 25/03/1983 with the Registrar of Companies, Gujarat and consequently converted in to Limited company with effect from 11/09/1991. The Company is listed Company and its equity shares are presently listed at Bombay Stock Exchange & Ahmedabad Stock Exchange. The company currently do not have any significant business. 2 Significant Accounting Policies

1) Basis of Preparation

a) Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time.

These financial Statements have been prepared and presented under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values by Ind AS. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date.

The financial statements are presented in Indian Rupee (INR), which is entity's functional and presentation currency.

The financial statements are presented in INR except when otherwise stated. All amounts have been rounded-off to the nearest Lacs unless otherwise indicated and amounts less than Rs. 500/- have been presented as "0.00. The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

Gujarat Toolroom Limited ('the Company') has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 with effect from 1st April 2016, in accordance with the notification issued by the Ministry of Corporate Affairs.

Upto the year ended March 31, 2016, the Company has presented its financial statements in accordance with the requirements of previous GAAP, which includes the Standards notified under the Companies (Accounting Standards) Rules, 2006. The date of transition to Ind AS is 1st April, 2016.

b) Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and differences between the actual results and the estimates are recognised in the periods in which the results are known / materialized.

Significant estimates and assumptions are required in particular for:

1) Recognition of deferred tax

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management assumes that taxable profits will be available while recognising deferred tax assets.

2) Recognition and measurement of other provisions:

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

3) Impairment of Non Financial

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted future cashflows model. The recoverable amount is sensitive to the discount rate used for the discounted future cashflows model as well as the expected future cash-inflows and the growth rate used.

4) Impairment of Financial Assets

The impairment provisions for trade receivables are made considering simplified approach based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on the company's past history and other factors at the end of each reporting period. In case of other financial assets, the Company applies general approach for recognition of impairment losses wherein the Company uses judgement in considering the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

5) Fair value measurement of financial instruments:

In estimating the fair value of financial assets and financial liabilities, the Company uses market observable data to the extent available. Where such Level 1 inputs are not available, the Company establishes appropriate valuation techniques and inputs to the model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

6) Recognition and measurement of Contingent liabilities, provisions and uncertain tax positions:

There are various legal, direct and indirect tax matters and other obligations including local and state levies, availing input tax credits etc., which may impact the Company. Evaluation of uncertain liabilities and contingent liabilities arising out of above matters and recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

c) Current & Non-Current Classification :

Any asset or liability is classified as current if it satisfies any of the following conditions:

- (B) The asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- (I) The asset is intended for sale or consumption;
- (W) The asset/liability is held primarily for the purpose of trading;
- (M) The asset/liability is expected to be realized /settled within twelve months after the reporting period;
- (X) The asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- (N) In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

II) Summary of Significant Accounting Policies**a) Functional and Presentation Currency**

The financial statements are presented in Indian Rupee (INR), which is entity's functional and presentation currency.

b) Cash And Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

c) Revenue Recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other incentives, if any, as per contracts with the customers. Revenue also excludes taxes collected from customers.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

d) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

A) Financial Assets**Initial Measurement**

All financial assets are recognised initially at fair value. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent Measurement

The measurement of financial assets depends on their classification, as described below:

1) At amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met :

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

2) At Fair Value through Other Comprehensive Income (FVTOCI)

A financial asset is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income (OCI) and on derecognition, cumulative gain or loss previously recognised in OCI is reclassified to Statement of Profit and Loss. For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment.

GUJARAT TOOLROOM LIMITED

CIN : L45208GJ1983PLC006056

Notes forming part of the Financial Statements for the year ended 31st March, 2023

3) **At Fair Value through Profit & Loss (FVTPL)**

FVTPL is a residual category for debt instruments and default category for equity instruments. Financial assets included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Derecognition

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset.

Impairment of financial assets

The Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure. The Company assesses on a forward looking basis the expected credit losses associated with its receivables based on historical trends and past experience.

The Company follows 'Simplified Approach' for recognition of impairment loss allowance on all trade receivables or contractual receivables. Under the simplified approach the Company does not track changes in credit risk, but it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

ECL is the difference between all contracted cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original EIR. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income / (expense) in the Statement of Profit and Loss.

B) Financial Liabilities

Financial liabilities are classified, at initial recognition as at amortised cost or fair value through profit or loss. The measurement of financial liabilities depends on their classification, as described below:

1) At amortised cost

This is the category most relevant to the Company. After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

2) At fair value through profit or loss (FVTPL)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as such. Subsequently, any changes in fair value are recognised in the Statement of Profit and Loss.

Derecognition of Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

e) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

f) Earnings Per Share

The Basic EPS has been computed by dividing the income available to equity shareholders by the weighted average number of equity shares outstanding during the accounting year. The Diluted EPS has been computed using the weighted average number of equity shares and dilutive potential equity shares outstanding at the end of the year.

g) Taxes on Income

Tax expense comprises of current income tax and deferred tax.

h) Deferred Taxation

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent it is probable that these assets can be realised in future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are offset where a legally enforceable right exists to offset current tax assets and liabilities and the deferred taxes relate to the same. Deferred tax includes MAT credit. The Company reviews such tax credit asset at each reporting date to assess its recoverability.

AUDITED FINANCIAL STATEMENTS FOR FISCAL 2022

**Independent Auditor's Report
To the Members of Gujarat Toolroom Limited**

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Gujarat Toolroom Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2022, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements, read with the emphasis of matter paragraph below, give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2022, the loss and total comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to the fact that the company has huge accumulated losses and do not have any operating revenue. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. However, the accompanying financial statements have been prepared under the going concern assumption based on the undertaking from the management that they are looking for alternative business opportunities and do not have any intention to curtail the business.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matters

In our opinion and to the best of our information and according to the explanations given to us we have determined that there are no key audit matters to communicate in our report.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under.

Independent Auditor's Report**To the Members of Gujarat Toolroom Limited (Continue)**

The provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Information other than the Financial Statements and Auditor's Report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexure to Board's Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the applicable Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

**Independent Auditor's Report
To the Members of Gujarat Toolroom Limited (Continue)
Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of section 143 of the Companies Act 2013 (the act).

Opinion

We have audited the internal financial controls over financial reporting of the company as of 31st March, 2022 in conjunction with our audit of the Standalone Financial Statements of the company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management’s Responsibilities for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the Guidance Note) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Annexure – B to the Independent Auditor’s Report
RE: Gujarat Toolroom Limited(continue)

(Referred to in Paragraph 2(f) of our Report of even date)

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to Financial Statements for the year ended 31st March 2022.**1 Corporate Information**

Gujarat Toolroom Limited (GTL or 'the company'), was originally incorporated as Private Limited Company on 25/03/1983 with the Registrar of Companies, Gujarat and consequently converted in to Limited company with effect from 11/09/1991. The Company is listed Company and its equity shares are presently listed at Bombay Stock Exchange & Ahmedabad Stock Exchange. The company currently do not have any significant business. However the management is working on other alternative business opportunities and are hopeful of revival in the near future.

2 Summary of Significant Accounting Policies**a) Statement of Compliance**

Gujarat Toolroom Limited ('the Company') has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 with effect from 1st April 2016, in accordance with the notification issued by the Ministry of Corporate Affairs.

Upto the year ended March 31, 2016, the Company has presented its financial statements in accordance with the requirements of previous GAAP, which includes the Standards notified under the Companies (Accounting Standards) Rules, 2006. The date of transition to Ind AS is 1st April, 2016.

b) Basis of preparation and presentation of financial statements

These financial statements have been prepared on historical cost basis, except for certain financial instruments that are measured at fair values at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date.

In accordance with Ind AS 101 First-time Adoption of Indian Accounting Standard, the Company has presented a reconciliation of shareholders' equity as at 31st March, 2017 and 1st April, 2016 and of the comprehensive net income for the year ended 31st March, 2017 as reported under Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006 ("Previous GAAP") to Ind AS financial statements.

The Financial statements are presented in INR except when otherwise stated.

c) Use of Estimates

The preparation of financial statements in conformity with Ind AS requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and differences between the actual results and the estimates are recognised in the periods in which the results are known / materialized.

Estimates and assumptions are required in particular for:**i) Recognition of deferred tax assets:**

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management assumes that taxable profits will be available while recognising deferred tax assets.

ii) Recognition and measurement of other provisions:

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

iii) Defined benefit plans (Gratuity benefits):

The obligation arising from the defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and life expectancy.

d) Current & Non-Current Classification

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of activities and time between the activities performed and their subsequent realisation in cash or cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current / non-current classification of assets and liabilities.

e) Cash And Cash Equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

f) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

g) Revenue Recognition

i) Revenue from sale of goods is recognised, net of return and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customer. Sales excludes sales tax and value added tax.

ii) Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

h) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

For purposes of subsequent measurement, financial assets and liabilities are classified in various categories as under.

- > at amortised cost
- > fair value through other comprehensive income
- > fair value through profit and loss account

Financial instruments are subsequently measured and accounted based on their category. All financial instruments of the Company are covered under Amortised Cost. After initial measurement, such financial assets and liabilities are subsequently measured using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Derecognition of Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

Impairment of Financial Assets

The Company applies simplified approach model for measurement and recognition of impairment loss on the financial assets and credit risk exposure.

Under the simplified approach the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit losses (ECL) at each reporting date, right from its initial recognition.

Derecognition of Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

i) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

j) Segment Accounting

In accordance with Companies (Indian Accounting Standard) Rules, 2015 (as amended), the company has determined its business segment as Mining Services. Since, there are no other business segments in which the company operates, there are no other primary reportable segments. Further since the company's services are limited to the operation of allocated mine, it operates in a single geographical segment. Therefore, the segment revenue, results, segment assets, segment liabilities, total cost incurred to acquire segment assets, depreciation charge are all as reflected in the financial statements.

k) Related Party Transactions

Disclosure of transactions with Related Parties, as required by Ind AS 24 "Related Party disclosures" has been set out in a separate note. Related Parties as defined under clause 9 of the Ind AS 24 have been identified on the basis of representation made by management and information available with the Company.

l) Earnings Per Share

The Basic EPS has been computed by dividing the income available to equity shareholders by the weighted average number of equity shares outstanding during the accounting year. The Diluted EPS has been computed using the weighted average number of equity shares and dilutive potential equity shares outstanding at the end of the year.

m) Taxes on Income

Tax expense comprises of current income tax and deferred tax.

i) Current Taxation

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date where the Company operates and generates taxable income.

Current tax items, relating to items recognised outside the statement of profit and loss, are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Provision for current tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemption in accordance with the Income Tax Act, 1961.

Current tax assets and liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

ii) Deferred Taxation

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent it is probable that these assets can be realised in future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are offset where a legally enforceable right exists to offset current tax assets and liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax includes MAT tax credit. The Company reviews such tax credit asset at each reporting date to assess its recoverability.

n) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is possible that there will be an outflow of resources. Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are not recognised in the financial statements. The nature of such assets and an estimate of its financial effect are disclosed in notes to the Financial Statements.

Specifications and Description of Silver Conductive Ink

There are many types of conductive ink available in the market, but the silver conductive ink is the best in terms of conductivity and printability. This product formulation manufactured from three main components, such as Silver (Ag) nano powder, adhesive or binder polymer, and solvent. It is also known as Nano-silver printing ink.

It is primarily used for flexible substrate printing, where it screens printed on the insulated surface of the plastic, PET, acrylic, and many other plastic components to make a conductive circuit. Since the electronics devices require multiple interconnect and electrode, hence the silver ink is the best solution to fulfill its requirements. The viscosity plays a vital role in

inject and screen printing, which can be optimized through the concentration of solvent and patented adhesive.

Our silver conductive ink dried at room temperature with excellent curing time, whereas the flexibility of a substrate does not affect after getting cured. The resistivity of ink is less than 0.003 ohms/sq.cm. The researchers may calculate the resistivity by using the 4-probe method. The used adhesive is itself conductive; hence the silver conductive paste is highly durable and conductive. We also supply silver ink conductive pens.

The silver used in ink is 99.9% pure nano powder with uniform particle size. The loading percentage varies as per the application. It is majorly used for wearable electronics, touchscreens, smartphones, 3D printing, OLEDs, battery electrodes, membrane circuits, printed circuit boards (PCB), Switchable films, and many more. It is also used in inkjet printing technology. Some people used it for their existing printers with slight modifications. In many places, it is used for indirect soldering applications where it places as a sandwich between the insulated substrate and copper tape.

Silver Conductive Ink Applications:

- Digital Printing
- Solar cell
- Optoelectronics
- Radio-frequency identification (RFID)
- Photovoltaics
- Bio-sensors
- Printed electronics industry
- Aerospace

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (INDAS) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, as applicable. The financial statements have been prepared under the historical cost convention on accrual basis, except for certain financial instruments which are measured at fair value.

2. Use of estimates

The preparation of financial statements requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expense during the year. Examples of such estimates include provisions for doubtful receivables, provision for income taxes, the useful lives of depreciable Property, Plant and Equipment and provision for impairment. Future results could differ due to changes in these estimates and the difference between the actual result and the estimates are recognised in the period in which the results are known / materialise.

3. Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation / amortisation. Costs include all expenses incurred to bring the asset to its present location and condition.

4. Depreciation / amortisation

In respect of Property, Plant and Equipment (other than freehold land and capital work-in-progress) acquired during the year, depreciation/amortisation is charged on a Written Down Value Method.

Type of Assets	Period
Buildings	30 Years
Plant and Equipment	15 Years
Medical Equipment & Plant	13 Years
Furniture and Fixtures	10 Years
Electrical equipment	5 Years
Computers	3 Years
Software	3 Years

5. Leases

Assets taken on lease by the Company in its capacity as lessee, where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such a lease is capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight-line basis.

6. Impairment

At each balance sheet date, the management reviews the carrying amounts of its assets included in each cash generating unit to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset. Reversal of impairment loss is recognised as income in the statement of profit and loss.

7. Investments

Long-term investments and current maturities of long-term investments are stated at cost, less provision for other than temporary diminution in value. Current investments, except for current maturities of long-term investments, comprising investments in mutual funds, government securities and bonds are stated at the lower of cost and fair value.

8. Revenue recognition

Revenue from the sale of agricultural goods are recognised upon delivery, which is when title passes to the customer. Revenue is reported net of discounts.

Dividend is recorded when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.

9. Taxation

Current income tax expense comprises taxes on income from operations in India and in foreign jurisdictions. Income tax payable in India is determined in accordance with the provisions of the Income Tax Act, 1961. Tax expense relating to foreign operations is determined in accordance with tax laws applicable in countries where such operations are domiciled.

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax after the tax holiday period. Accordingly, MAT is recognised as an asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify.

Deferred tax expense or benefit is recognised on timing differences being the difference between taxable income and accounting income that originate in one period and is likely to reverse in one or more subsequent periods. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction for relevant tax paying units and where the Company is able to and intends to settle the asset and liability on a net basis.

The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

10. Foreign currency transactions

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities other than net investments in non-integral foreign operations are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses are recognised in the statement of profit and loss. Exchange difference arising on a monetary item that, in substance, forms part of an enterprise's net investments in a non-integral foreign operation are accumulated in a foreign currency translation reserve.

11. Inventories

Raw materials are carried at the lower of cost and net realisable value. Cost is determined on a weighted average basis. Purchased goods-in-transit are carried at cost. Work-in-progress is carried at the lower of cost and net realisable value. Stores and spare parts are carried at lower of cost and net realisable value. Finished goods produced or purchased by the Company are carried at lower of cost and net realisable value. Cost includes direct material and labour cost and a proportion of manufacturing overheads.

12. Provisions, Contingent liabilities and Contingent assets

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

13. Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Market risk is the risk of loss related to adverse changes in market prices, including interest rates. In the normal course of business, we are exposed to certain market risks including interest rate risk, Liquidity risk and credit risk.

Interest rate risk

Interest rate risk results from changes in prevailing market interest rates, which can cause a change in the fair value of fixed-rate instruments and changes in the interest payments of the variable-rate

instruments. Our operations are funded to a certain extent by borrowings. Our current loan facilities carry interest at variable rates as well as fixed rates. We mitigate risk by structuring our borrowings to achieve a reasonable, competitive cost of funding. There can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us adequately against interest rate risks.

Liquidity risk

Adequate and timely cash availability for our operations is the liquidity risk associated with our operations. Our Company's objective is to all time maintain optimum levels of liquidity to meet its cash and collateral requirements. We employ prudent liquidity risk management practices which inter-alia means maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities.

Credit Risk

We are exposed to the risk that our counterparties may not comply with their obligations under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities, primarily from trade receivables.

We consider our customers to be creditworthy counterparties, which limits the credit risk, however, there can be no assurance that our counterparties may not default on their obligations, which may adversely affect our business and financial condition.

Material Frauds

There are no material frauds committed against our Company in the last three financials year.

Our Company's future costs and revenues will be determined by demand/supply situation, government policies and other economic factors

Competitive Conditions

We expect competition in our business from existing and potential competitors to intensify. We face competition from both organised and unorganised players in the market. We believe our expertise and quality service offerings with distinguished experience will be key to overcome competition posed by such players. We believe that the principal factors affecting competition in our business include client relationships, reputation, and the quality and pricing of our services. GLOBAL ECONOMIC OVERVIEW

The global conductive ink market size was valued at USD 2756.9 million in 2021 and is expected to expand at a compound annual growth rate (CAGR) of 6.0 % from 2022 to 2030. Growth in the market can be attributed to several critical factors such as strong demand from the end-use industries. Possesses certain inherent advantages such as better electrical conductivity and strong resistance to oxidation. Conductive silver ink products find use in markets such as medical devices, consumer electronics, and alternative energy solutions. The products also find applications in polymer thick-film circuitry, EMI, and RFI shielding of polyimide flexible circuits, membrane switches, and coatings for tantalum capacitors. The inks are used on various substrates such as Mylar, Kapton, Polycarbonate, Glass, Polyester, Polyimide, Teflon and Silicone Surfaces, and ITO-coated Surfaces.

INDIAN ECONOMIC OUTLOOK

India, the third-largest economy in the world in Purchasing Power Parity (PPP) terms and the fifth-largest in market exchange rates, has reinforced the country’s belief in its economic resilience as it has withstood the internal and external challenges alike such as of mitigating external imbalances caused by the Russian-Ukraine conflict without losing growth momentum in the process. The Indian economy appears to have moved on addressing the challenges posed by the pandemic, staging a full recovery, ahead of many nations and positioning itself to ascend to the pre-pandemic growth path in Financial Year (FY) 2023-24.

India’s recovery from the pandemic was relatively quick, and growth in the upcoming year will be supported by solid domestic demand and a pickup in capital investment. Incipient signs of a new private sector capital formation cycle are visible and more importantly, compensating for the private sector’s caution in capital expenditure, the government raised capital expenditure substantially.

Apart from gold jewellery, the other type of jewellery which is gaining traction is the studded ornaments segment. The key factor contributing to the growth of this segment is the younger population’s preference for diamond studded gold jewellery, typically made with 14 or 18 carat gold rather than heavy 22 carat gold. India is one of the leading cutting and polishing centre for diamonds with support from government policies. India is deemed as hub for this industry because of low cost and availability of highly skilled labour. Due to its potential for growth and value addition, the government considers this segment as a focus area for exports. The industry has become highly sophisticated over the years with the use of hi-technology in different processes, especially, in planning, inclusion plotting, and laser sawing. Grading of polished diamonds, is an established practice – the 4Cs of cut, clarity, colour and carat are being the standard measure for assigning grade.

INDIA CONDUCTIVE INKS MARKET RESEARCH

BOTTOM-UP APPROACH

In the bottom-up approach, the revenue of key companies and their shares in the market are assessed to deduce the market size. More than 15 key players operating in the conductive inks market are studied. The segmental revenue of each player is analyzed and the size for the conductive inks market is extracted from the segmental/product revenue with the help of secondary and primary research. The extracted size for the market is then validated with industry experts and partner consultants. This derived market size contributes to around 65%–70% of the total India market share in terms of revenue for the conductive inks market. Using the data triangulation method, the overall India market size is estimated.

TOP-DOWN APPROACH

The overall market size is then used in the top-down procedure to estimate the size of the other sub-markets with the help of percentage splits of the market segments from secondary and primary research. The demand-side analysis is conducted, in which the expenditure of major industry players in each region is studied.

As a part of the market engineering, both top-down and bottom-up approaches are utilized along with data triangulation models to derive and verify the market sizes and forecast over the coming years.

PRICING, TRADE AND MARKET BREAKDOWN APPROACH

Market Pricing Approach

Market pricing analysis and forecast is conducted by subject matter experts by analyzing the supply-demand scenario of the market. In addition to that, the pricing is established through benchmarking suitable alternative products and regional markets. Thereafter, the figures are confirmed by conducting primary interviews with industry experts from companies across the value chain. Value addition at each step of the supply chain is collected by finding the profit margin of various stakeholders in the supply chain. Primary respondents include prominent and niche participants in the market such as raw material suppliers, manufacturers, traders, distributors, and end users.

Net Trade Analysis Approach

Market trade analysis is formulated by mining imports and exports by region, by country, and product. Authentic secondary by country are used, which provides import and export database for HS commodities for countries along with some paid data sources are used. Moreover, the import-export by region is calculated by balancing country wise production, demand, and consumption. In order to validate the overall trade detailed interviews with industry experts using a designed detailed questionnaire/discussion guide are carried out. The industry experts include the manufacturer, supplier/ distributor, exporter, importer, custom service agents at ports.

Market Share Analysis Methodology

Market share analysis comprises the breakdown of production capacities, annual production, utilization rates, and segmental revenue of the prominent players in the market. The analysis is conducted by analysts by carrying in-depth analysis of the key financials which include revenue analysis, COGS (Cost of Goods Sold), and analysis of price offered of prominent companies active in various regions. The market share analysis is established by conducting primary interviews across the value chain with supply side industry experts as well as demand side end users, in order to advance data accuracy for market share and brand analysis.

KEY CHALLENGES FOR JEWELLERY IN INDIA

- **Shortage of skilled labor:**
One of the key challenges for the industry to scale up their operations is the scarcity of trained people. To have access to a large talent pool, the supply of craftsmen/artisans that come through generations must be supplemented by new talents who have been professionally taught. Moreover, the industry's on-the-job training strategy results in lengthier training times and gaps in the availability of skilled labour and standardization, particularly in the fragmented sector. This is compounded by infrastructural deficiencies, lower need for institution-trained personnel in the fragmented sector, and the industry's limited appeal to the younger generation of workers.
- **Short lived fashion and design preferences:**
Exporters do not have enough design development centres or the resources to constantly innovate new designs to keep up with the changing trends among international purchasers. In an era of high diamond, gold, and silver prices, global marketing necessitates changing fashion in the gems and jewellery segment. According to the market demand, manufacturers can produce specific types of gems and jewellery products. However, as a result of the changing trend, demand for certain types of products begins to decline and eventually ceases. The manufacturer's money is blocked in the older designs, and this results in a pile-up of unsold stock.

- **Dependency on imports for raw materials:**

The availability of raw materials is crucial to the gems and jewellery business. In India, a large percentage of raw materials are imported, as the domestic supply is limited. The raw material is converted into finished goods that are sold in the domestic and international market.

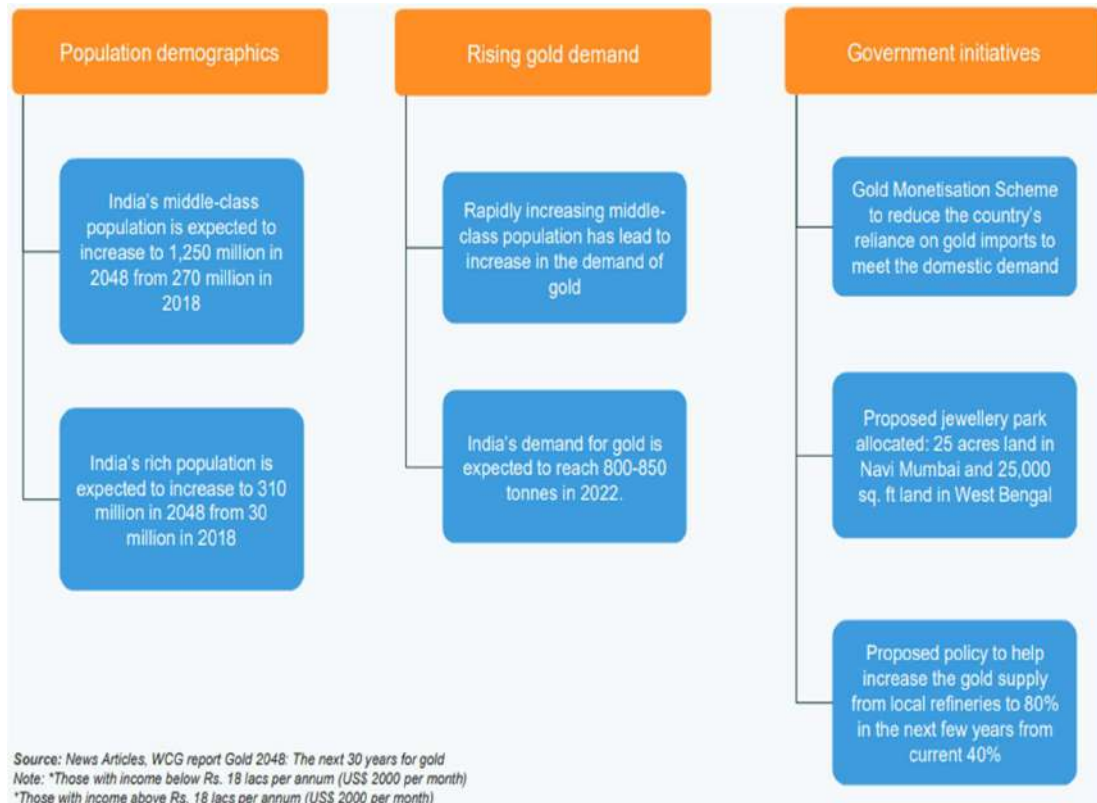

India is a net importer of raw gold and meets over 90% of its gold requirement through imports. The total gold imported (in value terms) by India was Rs. 3,441 billion in FY22 and Rs. 2,258 billion in 9M FY23. Gold is imported from Switzerland, South Africa, the United Arab Emirates, and Australia, among other countries. Raw pearls, precious and semi-precious stones, and other items are imported from Belgium, the United Kingdom, and Hong Kong.

Rough diamonds account for more than half of all G&J imports (66%). The total rough diamond imports i- April 2022 - January 2023 stand at Rs 1,118 billion in value terms and 1064.82 lakhs carats in volume terms. India imports rough diamonds primarily from Belgium, the United Kingdom, Israel, and the United Arab Emirates.

- **Impact of global slow-down**

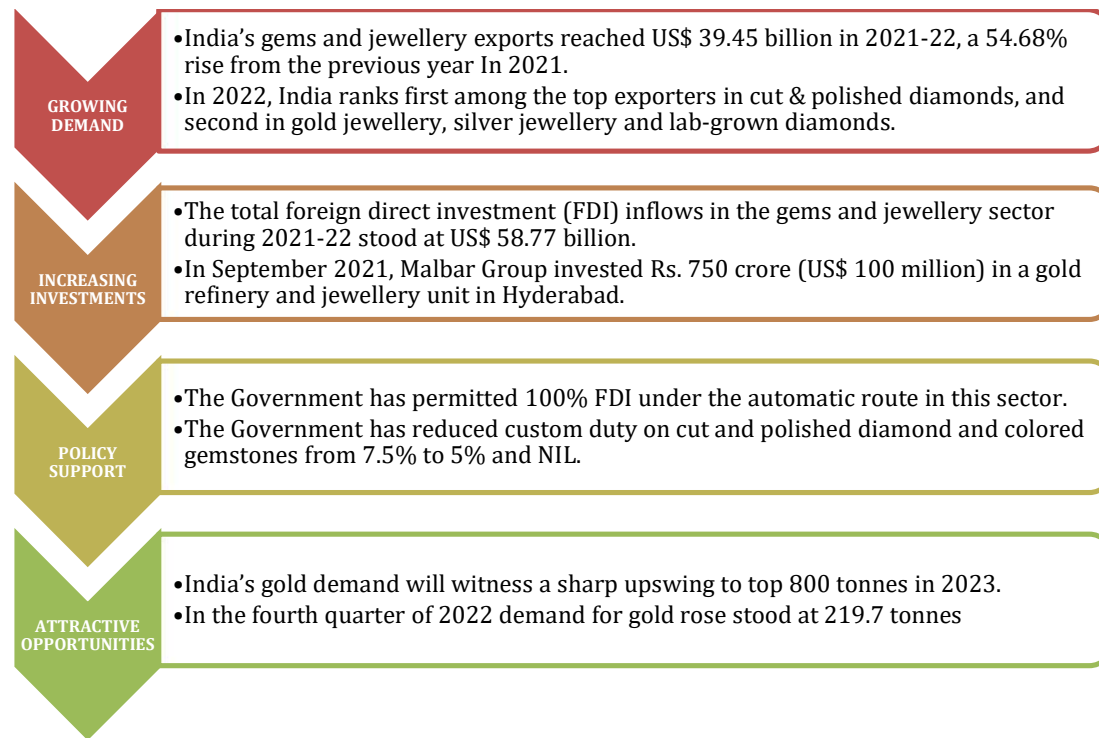

The United States, Hong Kong, UAE and Belgium are key export destinations for Indian G&J industry. The United States accounted for about 37% to total exports of gems and jewellery in FY22. Persistent high inflation rates and slowdown in these economies will have an adverse impact on the gems and jewellery exports from India.

- In February 2021, Reliance expanded its e-commerce arm, Jio Mart, to jewellery with silver coins of 5gm and 10 gm, and gold coins of 1gm, 5gm and 10gm.
- Reliance's in-house jewellery brand, Reliance Jewels, which has 93 flagship showrooms and 110 shop-in-shops in 105 cities in the country, will fulfil the orders for the new segment.

GOVERNMENT INITIATIVES

- In the Union Budget 2023-24, the government proposed to increase the import duty on silver dore, bars, and articles to 10% to align them with that of gold and platinum.
- India has signed an FTA with the UAE which will further boost exports and is expected to reach the target of US\$ 52 billion.
- The Government has reduced custom duty on cut and polished diamond and colored gemstones from 7.5% to 5% and NIL.
- Revised SEZ Act is also expected to boost exports of gems and jewellery.
- In September 2021, Ms. Anupriya Patel, Minister of State for Commerce and Industry said that reforms such as the revamped gold monetization scheme, reduction in import duty of gold, hallmarking and others would help the industry grow. The market export target is US\$ 43.75 billion for 2021.
- The government has reduced import duty for Gold & Silver (from 12.5% to 7.5%) and Platinum & Palladium (from 12.5% to 10%) to bring down the prices of precious metals in the local market.
- Indian Government made hallmarking mandatory for Gold Jewellery and Artefacts. A period of one year is provided for implementation i.e. till January 2021.

- In December 2020, All India Gem and Jewellery Domestic Council (GJC) welcomed the decision to make hallmarking compulsory from June 2021 in a phased manner; urged the government to examine the key concerns of the industry for smooth implementation of the initiative.
- Hallmarking of gold jewellery is set to begin from June 15, 2021. In view of the COVID-19 pandemic, the government accepted request of stakeholders to provide jewellers some more time to prepare for implementation and resolve issues. Earlier, the date of implementation was June 01, 2021.
- In December 2020, the Finance Ministry notified that the amendment under Prevention of Money Laundering Act (PMLA), notifying dealers in precious metals and stones, will maintain records of cash transactions worth Rs. 10 lakh (US\$ 13.61 thousand) or more cumulatively with a single customer.

ROAD AHEAD

In the coming years, growth in the gems and jewellery sector would largely be contributed by the development of large retailers/brands. Established brands are guiding the organized market and are opening opportunities to grow. Increasing penetration of organized players provides variety in terms of products and designs. Online sales are expected to account for 1–2% of the fine jewellery segment by 2021–22. Also, the relaxation of restrictions on gold import is likely to provide a fillip to the industry.

The improvement in availability along with the reintroduction of low-cost gold metal loans and likely stabilization of gold prices at lower levels is also expected to drive volume growth for jewellers over the short to medium term. India has 450 organized jewellery manufacturers, importers & exporters and is the hub for jewellery manufacturing. These players have benefited greatly due to the increasing liberal policies by the government. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry. India's gems and jewellery industry is expected to reach US\$ 100 billion by 2027.

The trading of these products is influenced by various factors such as global market trends, and demand and supply.

Specifications and Description of Silver Conductive Ink

There are many types of conductive ink available in the market, but the silver conductive ink is the best in terms of conductivity and printability. This product formulation manufactured from three main components, such as Silver (Ag) nanopowder, adhesive or binder polymer, and solvent. It is also known as Nano-silver printing ink.

It is primarily used for flexible substrate printing, where it screens printed on the insulated surface of the plastic, PET, acrylic, and many other plastic components to make a conductive circuit. Since the electronics devices require multiple interconnect and electrode, hence the silver ink is the best solution to fulfill its requirements. The viscosity plays a vital role in inject and screen printing, which can be optimized through the concentration of solvent and patented adhesive.

Our silver conductive ink dries at room temperature with excellent curing time, whereas the flexibility of a substrate does not affect after getting cured. The resistivity of ink is less than 0.003 ohms/sq.cm. The researchers may calculate the resistivity by using the 4-probe method. The used adhesive is itself conductive; hence the silver conductive paste is highly durable and conductive. We also supply the silver ink conductive pen.

The silver used in ink is 99.9% pure nanopowder with uniform particle size. The loading percentage varies as per the application. It is majorly used for wearable electronics, touchscreens, smartphones, 3D printing, OLEDs, battery electrodes, membrane circuits, printed circuit boards (PCB), Switchable films, and many more. It is also used in inkjet printing technology. Some people use it for their existing printers with slight modifications. In many places, it is used for indirect soldering applications where it acts as a sandwich between the insulated substrate and copper tape.

Silver Conductive Ink Applications:

- Digital Printing

THE SECURITIES MARKET OF INDIA

The information in this section has been extracted from documents available on the websites of SEBI and the Stock Exchanges and has not been prepared or independently verified by our Company or the Book Running Lead Manager or any of its respective affiliates or advisors.

India has a long history of organized securities trading. In 1875, the first stock exchange was established in Mumbai. BSE and NSE are the significant stock exchanges of India in terms of the number of listed companies, market capitalization and trading activity.

Indian Stock Exchanges

Indian stock exchanges are regulated primarily by SEBI, as well as by the Government acting through the Ministry of Finance, Capital Markets Division, under the SCRA and the SCRR. On October 3, 2018, SEBI, in exercise of its powers under the SCRA and the SEBI Act, notified the Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, 2018 (the “SECC Regulations”), which regulate inter alia the recognition, ownership and internal governance of stock exchanges and clearing corporations in India together with providing for minimum capitalization requirements for stock exchanges. The SCRA, the SCRR and the SECC Regulations along with various rules, bye-laws and regulations of the respective stock exchanges, regulate the recognition of stock exchanges, the qualifications for membership thereof and the manner, in which contracts are entered into, settled and enforced between members of the stock exchanges.

The SEBI Act empowers SEBI to regulate the Indian securities markets, including stock exchanges and intermediaries in the capital markets, promote and monitor self-regulatory organizations and prohibit fraudulent and unfair trade practices. Regulations concerning minimum disclosure requirements by public companies, investor protection, insider trading, substantial acquisitions of shares and takeover of companies, buy-backs of securities, employee stock option schemes, stockbrokers, merchant bankers, underwriters, mutual funds, foreign portfolio investors, credit rating agencies and other capital market participants have been notified by the relevant regulatory authority.

BSE Ltd

BSE is one of the stock exchanges in India on which our Equity Shares are listed. Established in 1875, it is the oldest stock exchange in India. In 1956, it became the first stock exchange in India to obtain permanent recognition from the Government under the SCRA. Pursuant to the BSE (Corporatization and Demutualization) Scheme 2005 of SEBI, with effect from August 19, 2005, BSE was incorporated as a company under the Companies Act, 1956. BSE was listed on NSE with effect from February 3, 2017.

Listing and delisting of Securities

The listing of securities on a recognized Indian stock exchange is regulated by the applicable Indian laws including the Companies Act, the SCRA, the SCRR, the SEBI Act and various guidelines and regulations issued by SEBI including the SEBI ICDR Regulations and the SEBI Listing Regulations. The SCRA empowers the governing body of each recognized stock exchange to suspend trading of or withdraw admission to dealings in a listed security for breach of or non-compliance with any

conditions or breach of company's obligations under the SEBI Listing Regulations or for any reason, subject to the issuer receiving prior written notice of the intent of the exchange and upon granting of a hearing in the matter. SEBI also has the power to amend the SEBI Listing Regulations and bye-laws of the stock exchanges in India, to overrule a stock exchange's governing body and withdraw recognition of a recognized stock exchange.

Further the Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009, govern the voluntary and compulsory delisting of equity shares from the stock exchanges which were significantly modified in 2015. In addition, certain amendments to the SCRR have also been notified in relation to delisting.

Disclosure under the SEBI Listing Regulations

Public listed companies are required under the SEBI Listing Regulations to prepare and circulate to their shareholders audited annual accounts which comply with the disclosure requirements and regulations governing their manner of presentation and which include sections relating to corporate governance, related party transactions and management's discussion and analysis as required under the SEBI Listing Regulations. In addition, a listed company is subject to continuing disclosure requirements pursuant to the terms of the SEBI Listing Regulations.

Minimum Level of Public Shareholding

All listed companies (except public sector undertakings) are required to maintain a minimum public shareholding of 25%. In this regard, SEBI has provided several mechanisms to comply with this requirement. Where the public shareholding in a listed Company falls below 25% (except public sector undertakings) at any time, such Company shall bring the public shareholding to 25% within a maximum period of 12 months from the date of such the public shareholding having fallen below the 25% threshold. Consequently, a listed Company may be delisted from the Stock Exchanges for not complying with the above-mentioned requirements.

Index-Based Market-Wide Circuit Breaker System

In order to restrict abnormal price volatility in any particular stock, SEBI has instructed stock exchanges to apply daily circuit breakers which do not allow transactions beyond a certain level of price volatility. The index-based market-wide circuit breaker system (equity and equity derivatives) applies at three stages of the index movement, at 10%, 15% and 20%. The stock exchanges on a daily basis translate the circuit breaker limits based on previous day's closing level of the index. These circuit breakers, when triggered, bring about a co-ordinated trading halt in all equity and equity derivative markets nationwide. The market-wide circuit breakers are triggered by movement of either the SENSEX of BSE or the, whichever is breached earlier.

In addition to the market-wide index-based circuit breakers, there are currently in place individual scrip-wise price bands of up to 20% movements either up or down. However, no price bands are applicable on scrips on which derivative products are available or scrips included in indices on which derivative products are available.

The stock exchanges in India can also exercise the power to suspend trading during periods of market

volatility.

Margin requirements are imposed by stock exchanges that are required to be paid by the stockbrokers.

Internet-based Securities Trading and Services

Internet trading takes place through order routing systems, which route client orders to exchange trading systems for execution. Stock brokers interested in providing this service are required to apply for permission to the relevant stock exchange and also have to comply with certain minimum conditions stipulated by SEBI. NSE became the first exchange to grant approval to its members for providing internet-based trading services. Internet trading is possible on both the “equities” as well as the “derivatives” segments of NSE.

Trading Hours

Trading on both NSE and BSE occurs from Monday to Friday, between 9:15 a.m. and 3:30 p.m. IST (excluding the 15 minutes pre-open session from 9:00 a.m. to 9:15 a.m.). BSE and NSE are closed on Public holidays. The recognized stock exchanges have been permitted to set their own trading hours (in the cash and derivatives segments) subject to the condition that (i) the trading hours are between 9.00 a.m. and 5.00 p.m.; and (ii) the stock exchange has in place a risk management system and infrastructure commensurate to the trading hours.

Trading Procedure

In order to facilitate smooth transactions, BSE replaced its open outcry system with BSE On-line Trading (“BOLT”) facility in 1995. This totally automated screen-based trading in securities was put into practice nationwide. This has enhanced transparency in dealings and has assisted considerably in smoothening settlement cycles and improving efficiency in back-office work. In the year 2004, BSE introduced its new generation trading platform, BOLT Plus.

NSE has introduced a fully automated trading system called National Exchange for Automated Trading (“NEAT”), which operates on strict time/price priority besides enabling efficient trade. NEAT has provided depth in the market by enabling large number of members all over India to trade simultaneously, narrowing the spreads.

SEBI Takeover Regulations

Disclosure and mandatory bid obligations for listed Indian companies under Indian law are governed by the SEBI Takeover Regulations, which provides for specific regulations in relation to substantial acquisition of shares and takeover. Once the equity shares of a company are listed on a stock exchange in India, the provisions of the SEBI Takeover Regulations will apply to any substantial acquisition of the company’s shares/voting rights/control. The SEBI Takeover Regulations prescribe certain thresholds or trigger points in the shareholding a person or entity has in the listed Indian company, which give rise to certain obligations on part of the acquirer. Acquisitions up to a certain threshold prescribed under the SEBI Takeover Regulations mandate specific disclosure requirements, while acquisitions crossing particular thresholds may result in the acquirer having to

make an open offer of the shares of the Target Company. The SEBI Takeover Regulations also provide for the possibility of indirect acquisitions, imposing specific obligations on the acquirer in case of such indirect acquisition. The SEBI Takeover Regulations also provides certain general exemptions which exempt certain acquisitions from the obligation to make an open offer. The SEBI Takeover Regulations were further amended on June 22, 2020, to exempt any acquisitions by way of preferential issue from the obligation to make an open offer.

SEBI Insider Trading Regulations

The SEBI Insider Trading Regulations have been notified to prohibit and penalise insider trading in India. An insider is, among other things, prohibited from dealing in the securities of a listed company when in possession of unpublished price sensitive information (“UPSI”).

The SEBI Insider Trading Regulations were notified on January 15, 2015, and came into effect on May 15, 2015, which repealed the erstwhile regulations of 1992. The SEBI Insider Trading Regulations, inter alia, impose certain restrictions on the communication of information by listed companies. Under the SEBI Insider Trading Regulations, (i) no insider shall communicate, provide or allow access to any UPSI relating to such companies and securities listed or proposed to be listed, to any person including other insiders; and (ii) no person shall procure or cause the communication by any insider of UPSI relating to such companies and securities listed or proposed to be listed, except in furtherance of legitimate purposes, performance of duties or discharge of legal obligations. However, UPSI may be communicated, provided or allowed access to or procured, under certain circumstances specified in the SEBI Insider Trading Regulations.

The SEBI Insider Trading Regulations make it compulsory for listed companies and certain other entities that are required to handle UPSI in the course of business operations to establish an internal code of practices and procedures for fair disclosure of UPSI and to regulate, monitor and report trading by insiders. To this end, the SEBI Insider Trading Regulations provide principles of fair disclosure for purposes of code of practices and procedures for fair disclosure of UPSI and minimum standards for code of conduct to regulate, monitor and report trading by insiders. There are also initial and continuing shareholding disclosure obligations under the SEBI Insider Trading Regulations. The SEBI Insider Trading Regulations also provides for disclosure obligations for promoters, members of the promoter group, designated person or director in case value of trade exceed monetary threshold of ₹1 millions over a calendar quarter, within two days of reaching such threshold. The board of directors of all listed companies are required to formulate and publish on the company’s website a code of procedure for fair disclosure of UPSI along with a code of conduct for its employees for compliances with the SEBI Insider Trading Regulations.

Further, on July 17, 2020, SEBI amended the Insider Trading Regulations to prescribe that the board of directors or head(s) of listed companies shall ensure that a structured digital database be maintained, containing the nature of unpublished price sensitive information, the names and details of persons who have shared the information and the names and details person with whom information is shared.

Depositories

The Depositories Act provides a legal framework for the establishment of depositories to record

ownership details and effect transfer in book-entry form. Further, SEBI framed regulations in relation to the formation and registration of such Depositories, the registration of participants as well as the rights and obligations of the depositories, participants, companies and beneficial owners. The depository system has significantly improved the operation of the Indian securities markets.

Derivatives (Futures and Options)

Trading in derivatives is governed by the SCRA, the SCRR and the SEBI Act. The SCRA was amended in February 2000 and derivatives contracts were included within the term "securities", as defined by the SCRA. Trading in derivatives in India takes place either on separate and independent derivatives exchanges or on a separate segment of an existing stock exchange. The derivatives exchange or derivatives segment of a stock exchange functions as a self-regulatory Organization under the supervision of SEBI.

A shareholder may exercise his voting rights by proxy to be given in the form required by the Companies Act read with the rules issued thereunder.

The instrument appointing a proxy is required to be lodged with our Company at least 48 hours before the time of the meeting. Section 108 of the Companies Act and Rule 20 of the Companies (Management and Administration) Rules, 2014, deal with the exercise of the right to vote by members by electronic means.

Transfer and transmission of shares

Equity Shares held through Depositories are transferred in the form of book entries or in electronic form in accordance with the regulations laid down by SEBI. These regulations provide the regime for the functioning of the Depositories and the participants and set out the manner in which the records are to be kept and maintained and the safeguards to be followed in this system. Our Company has entered into an agreement for such depository services with the NSDL and CDSL. SEBI requires that the shares for trading and settlement purposes be in book-entry form for all Investors, except for transactions that are not made on a Stock Exchange and transactions that are not required to be reported to the Stock Exchange. Our Company shall keep an electronic book in which every transfer or transmission of shares will be maintained. Pursuant to the SEBI Listing Regulations, except in case of transmission or transposition of Equity

Shares, requests for effecting transfer of Equity Shares shall not be processed unless the Equity Shares are held in Dematerialized form with a Depository.
