RISK FACTORS

The disclosures in the section “*Risk Factors*” on page 28 of the Draft Red Herring Prospectus shall be updated/replaced, as applicable, with the following additional details:

1. *We have experienced negative cash flows in the prior periods.*

Following is the summary of cash flow statement for fiscal 2022, fiscal 2023 and fiscal 2024:

(₹ in lakhs)

Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Net Cash Used in Operating Activities	276.32	798.17	272.84
Net Cash Used in Investing Activities	(151.69)	(314.46)	(358.74)
Net Cash Generated from Financing Activities	(94.01)	(396.23)	73.72
Net increase / (decrease) in cash & cash equivalents	184.54	153.93	66.44

Any negative cash flows in the future could adversely affect our business, results of operations and financial condition. For further details, see “*Management's Discussion and Analysis of Financial condition and Results of Operations*” and “*Restated Financial Information*” on pages 216 and 184 respectively of the Draft Red Herring Prospectus.

2. *We have certain contingent liabilities which may adversely affect our financial condition.*

As on March 31, 2024, our Company had the following contingent liabilities:

Particulars	Amount (₹ in lakhs)
Performance bank guarantees	23.24
Corporate guarantees	100.00
Total	123.24

In the event that any of these contingent liabilities materialize, our financial condition may be adversely affected. For further information, please refer chapter titled “*Restated Financial Information – Note 30 Restated Contingent Liabilities and Commitments*” on page 204 of the Draft Red Herring Prospectus.

3. *Majority of our customers operate in the pharmaceuticals, healthcare and biotech sectors. Factors that adversely affect these sectors or capital expenditure by companies within these sectors may adversely affect our business, results of operations and financial condition.*

We derive a large proportion of our consolidated revenues from customers that operate in the pharmaceuticals, healthcare and biotech sectors. Accordingly, we are highly dependent on the long term and short term trends in these sectors, especially on the capital expenditure investment cycle of these sectors. The following table sets forth our revenues by end user industries for Fiscal 2024, Fiscal 2023 and Fiscal 2022, respectively:

Particulars	FY 2023-24		FY 2022-23		FY 2021-22	
	Amount (₹ in lakhs)	% of our revenue from operations	Amount (₹ in lakhs)	% of our revenue from operations	Amount (₹ in lakhs)	% of our revenue from operations
Pharmaceuticals, Healthcare and Biotech	9,258.99	95.07%	11,763.59	94.36%	10,988.88	96.65
Others*	480.16	4.93%	703.04	5.64%	381.01	3.35
Total Revenue from Operations	9,739.15	100.00%	12,466.63	100.00%	11,369.89	100.00%

**includes semiconductors, automobiles, renewable energy, data centers, food and dairy, laboratories, aeronautics and hospitals etc. As the individual contribution per sector is negligible, all such sectors are grouped and disclosed as "OTHERS".*

Any significant downturn in these sectors may reduce the demand for our products. Further, any significant decrease in the growth of the pharmaceutical and chemical sector in India or significant consolidation in this industry, may reduce the demand for our products and have an adverse effect on our business, results of operations and financial condition. While we aim to capitalise on increasing demand in other emerging sectors such as semiconductors, automobiles, renewable energy, data centers, etc., we expect to derive major part of our revenue from the operations from pharmaceutical, healthcare and biotech sector. If these industries face a downturn or recessionary cycle, sales of our products may be adversely affected which may impact our business, results of operations and financial condition.

- 6. We may in the future continue to make strategic acquisitions to grow our business and further diversify product and service offerings. Our acquisitions are subject to various risks, including risks relating to the integration of these acquired businesses with our existing operations. An inability to identify, complete and successfully integrate such acquisitions could adversely affect our business prospects, results of operations and financial condition.*

One of our strategies is to continue pursuing inorganic growth through acquisition and strategic partnerships in order to expand our execution capabilities, diversify customer base, enable operational integration with our business, cost and process optimization, streamlining business processes, venture into new industries, expand geographic reach and gain further market share in cleanroom technology market. With this objective, we have acquired 26% equity share capital of Advantek, which is engaged in the business of manufacturing of Air Handling Units, a critical component essential for the optimal operation of cleanrooms. We also have recently invested in Kelvin by way of subscription to 5,000, 0.001% Compulsory Convertible Preference Shares at a price of Rs. 6,660 per CCPS aggregating to ₹ 333.00 lakhs vide Share Subscription Agreement dated July 10, 2024 with an option to further acquire an additional such number of equity shares of Kelvin from the existing promoters, representing at least 18% of equity shares of Kelvin on a fully diluted basis for a consideration of ₹ 550.00 lakhs. Kelvin is operating as an integrator for critical HVAC applications catering to a wide spectrum of industries and businesses. For further details, please refer "Our Business" and "History and Certain Corporate Matters" on page 133 and 152 of the Draft Red Herring Prospectus.

We further continue to evaluate inorganic growth opportunities consistent with our business strategy of diversifying our product and service offerings while providing integrated business services to our customers. However, our acquisition strategy involves various risks and challenges, including the diversion of management's attention from our core business operations; the potential loss of key employees and customers of the acquired businesses; potential disruption of business relationships with current customers; uncertainties that may impair our ability to attract, retain and motivate key employees; issues relating to management and integration of operations; potential deficiencies in financial control and statutory compliance at the acquired companies; an increase in our expenses and working capital requirements; a failure to achieve cultural compatibility and other benefits expected from an acquisition; and exposure to unanticipated liabilities of the acquired companies. There can be no assurance that we will be able to successfully integrate the acquired businesses into our existing operations or achieve economies of scale. Our inability to integrate or manage these acquired businesses or entities may result in increased costs and adversely.

- 7. We are dependent on limited number of suppliers for supply of key raw materials and we have not made any long term supply arrangement with our suppliers. In an eventuality where our suppliers are unable to deliver us the required materials in a time-bound manner it may have a material adverse effect on our business operations and profitability.*

Our Company is dependent on suppliers for supply of raw materials; however, we have not entered into any long term supply agreement for the same. **Our major material purchases are galvanized plain skin pass sheets, galvanized iron sheet and Pre-painted galvanized Iron, Coil, aluminium profile, insulation such as rockwool, isocyanate and polyol, powder, HVAC equipment's, door closer and accessories, toughened glass, accessories such as base runner, external pillar, coving and conduit, site tools and consumables.** For the financial year ended March 31, 2024, March 31, 2023 and March 31, 2022, our purchases from top five (5) and top ten (10) suppliers are as follows:

Sr No	Particulars	FY 2023-24		FY 2022-23		FY 2021-22	
		Amount (₹ in lakhs)	% of our purchases	Amount (₹ in lakhs)	% of our purchases	Amount (₹ in lakhs)	% of our purchases
1.	Purchase from top five (5) suppliers	484.53	1.26%	576.82	4.51%	510.80	2.17%
2.	Purchase from top ten (10) suppliers	310.81	3.42%	908.04	9.42%	131.86	9.93%

Note: We are unable to disclose the names of individual suppliers since this information is commercially sensitive to our business

For further details, see “Our Business” on page 133 of the Draft Red Herring Prospectus.

There can be no assurance that strong demand, capacity limitations or other problems experienced by our supplier will not result in occasional shortages or delays in their supply of raw materials. If we experience a significant or prolonged shortage of raw materials from any of our supplier and we cannot procure the raw materials from other sources, we would be unable to meet our production schedules in a timely manner, which would adversely affect our sales, margins and customer relations. In the absence of such supply agreements, we cannot assure that a particular supplier will continue to supply raw materials to us in the future. In the event the prices of such raw materials were to rise substantially or any disruption in supply chain of such raw materials, we may find it difficult to make alternative arrangements for supplies of our raw materials, on the terms acceptable to us, which could materially affect our business, results of operations and financial condition.

While we may find additional suppliers to supply these raw materials, any failure of our suppliers to deliver these raw materials in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our production processes and our ability to deliver orders on time and at the desired level of quality. As a result, we may lose customers which could have a material adverse effect on our business, financial condition and results of operations. Further, there can be no assurance that we will be able to effectively manage relationships with our existing or new suppliers or that we will be able to enter into arrangements with new suppliers at attractive terms or at all. If we fail to successfully leverage our existing and new relationships with suppliers, our business and financial performance could be adversely affected.

8. *Our Company’s logo is not registered as on date of Draft Red Herring Prospectus. We may be unable to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third-party intellectual property rights.*

As on date of Draft Red Herring Prospectus, our Company uses the logo  under the Trademarks Act, 1999, our logo is owned by, Fabtech International Private Limited (“FIPL”), and therefore, we do not have the statutory protections of a registered logo. We have obtained a 'No Objection Certificate' from FIPL to use the trademark, but this permission could be revoked. Additionally, we cannot guarantee that third parties will not infringe on our intellectual property, potentially harming our business prospects, reputation, and goodwill. Unauthorized use may go undetected, and our efforts to protect our intellectual property may be insufficient, leading to a decline in our business value and negatively impacting our operations. We may need to engage in litigation to determine the validity of claims and the extent of others' proprietary rights. Further, we have made application for the registration of the trademark in name of our Company, however, such applications are currently pending before the authorities. Such legal proceedings could be time-consuming, expensive, and their outcomes are uncertain. Please refer to chapter “Government Approvals- Intellectual Property” on page 239 of the Draft Red Herring Prospectus.

11. *We have taken guarantees from Promoters in relation to debt facilities provided to us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities*

Our individual promoters and their relatives viz., Aarif Ahsan Khan, Aatif Ahsan Khan and Hemant Mohan Anavkar have provided personal and/or corporate guarantees towards certain financing facilities taken from our Bankers by our Company. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information, please see the chapter titled ‘Financial Indebtedness’ on page 225 of the Draft Red Herring Prospectus.

12. Some of our loan agreements contain restrictive covenants which may adversely affect our business results of operations and financial condition.

As on March 31, 2024, our indebtedness (long term and short term) was ₹ 574.74 lakhs. The terms of sanction of such borrowings and certain terms of the financing agreements include covenants, such as requirement to maintain certain security, margins, financial ratios and other restrictive covenants relating to issuance of new shares, changes in capital structure, making material changes to constitutional documents, implementing any expansion scheme, incurring further indebtedness, encumbrances on, or disposal of, assets and paying dividends. There can be no assurance that maintaining or adhering to such covenants will not hinder business development and growth. There can be no assurance that we will be able to comply with these financial or other covenants, or that we will be able to obtain the consents necessary to proceed with the actions which we believe are necessary to operate and grow our business, which may in turn have a material adverse effect on our business and operations. We cannot assure you that we have complied with all such restrictive covenants in a timely manner, or at all, or that we will be able to comply with all such restrictive covenants in the future. Further, during any period in which we are in default, we may not be able to raise, or may face difficulties raising, further financing. For details, see “*Financial Indebtedness*” on page 225 of the Draft Red Herring Prospectus.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

PRINCIPAL COMPONENTS OF OUR STATEMENT OF PROFIT AND LOSS ACCOUNT

Revenue from operations

Our revenue from operations comprises of revenue from sales of our products and service income from installation and commissioning services. Our revenue from operations accounted for 99.39%, 99.65%, 99.78% of our total income for the financial years ended March 31, 2024, March 31, 2023, and March 31, 2022, respectively. **Company is into providing end to end solutions of pre-engineered and prefabricated modular panels and doors for building cleanrooms for pharmaceutical, healthcare and biotech sectors. Company provides cleanroom solutions, which are tailor made as per our customers' designs and global regulatory standards.**

Sale of products under revenue from operations includes products such as wall panels, view panels, doors, risers, ceiling panels, covings, heat ventilation air conditioning ("HVAC") system, epoxy flooring and electrification works.

Financial Year 2024 compared to Financial Year 2023

Revenue from operations

Our revenue from operations decreased by 21.88% from ₹ 12,466.63 lakhs in financial year ended March 31, 2023, to ₹ 9,739.15 lakhs in financial year ended March 31, 2024, primarily due to change in sales mix of our products. **The Company primarily produces two type of cleanroom panels i.e., rockwool panel and puff panel. Rockwool panels are comparatively more fire resistant and require higher manual process for production as compared to puff panels. Hence, due to its' inherent characteristics and specifications, rockwool panels requires higher production time which results in lower production output as compared to puff panels. During fiscal 2024, the Company received higher orders for rockwool panels from some of its large clients. Hence, the Company changed its product mix in favour of rockwool panel which resulted in lower production output during the year. The same can also be established from lower capacity utilisation for fiscal 2024 which is disclosed in "Our Business" chapter under the head "Capacity Utilisation".**

Further, the Company received purchase orders to supply cleanroom panels to some of its large clients. The Company initially expected to fulfill these orders before the end of fiscal year, however, the delivery schedule for these large order got delayed later during the year. As a result, the Company could not recognize the revenue during the fiscal and it got spilled over to first quarter of fiscal 2025.

Due to reasons as discussed hereinabove, the Company recorded a decrease in revenue from operations during fiscal 2024 as compared to fiscal 2023.

Profit after tax

The profit after tax for fiscal 2024 decreased primarily on account of reduction in sales during fiscal 2024. EBITDA as a percentage of total income was 9.24% for fiscal 2024 as compared to 10.55% for fiscal 2023 which denotes the similar profitability for both the fiscal year.

Financial Year 2023 compared to Financial Year 2022

Profit after tax

The profit after tax of the Company for financial year 2023 increased from ₹ 360.02 lakhs in fiscal 2023 as compared to ₹ 796.28 lakhs in fiscal 2022 on account of following reasons (i) The revenue from operations increased by 9.65% from ₹ 11,369.89 in fiscal year 2022 to ₹ 12,466.63 lakhs in fiscal year 2023. The said increase in revenue from operations was on account of higher price realisation for cleanroom products sold by the Company; (ii) EBITDA as a percentage of total income also improved from 5.57% in fiscal 2022 to 10.55% for fiscal 2023 due to better price realisation and decrease in raw material cost per unit of goods sold.

SELECTED RESTATED STATEMENT OF ASSETS AND LIABILITIES

As on March 31, 2023, the Company had a long term borrowing of ₹20.58 lakhs which was increased to ₹125.73 lakhs as on March 31, 2024, primarily as company has availed vehicle loan of ₹116 lakhs as on 23rd March 2024.

Our trade payables mainly comprise of suppliers of raw materials and other services. During Fiscal 2022, 2023 and 2024, our creditors period was 75, 51 and 75 days respectively. Trade payable for the fiscal period ended 2022, 2023 and 2024 are ₹2409.76 lakhs, ₹1877.11 lakhs and ₹2177.86 lakhs respectively. The increase in trade payables is primarily due to improved credit terms secured by our subsidiary, M/s Altair Partition Systems LLP. Additionally, the last quarter of FY24 saw a substantial increase in raw material purchases to fulfil project demands and inventory buildup to meet upcoming production and project commitments. This surge in procurement during the later part of the fiscal year directly contributed to a rise in outstanding payables as of the period-end.

As of March 31, 2024, the Company has an receivable which are outstanding for more than one year amounts to ₹2,253.84 lakhs. Out of this amount, the Company has already received ₹478.25 lakhs post March 31, 2024. The recovered amount included ₹420.73 lakhs in form of retention money which are typically received after an agreed upon period post completion of the projects and ₹57.52 lakhs were of regular business receivables. Further, the Company anticipates receiving an additional amount of ₹1,484.79 lakhs in normal course of business, which includes ₹1,043.70 lakhs in form of retention money and ₹441.09 lakhs as regular business receivables. Furthermore, the amount of ₹2,253.84 lakhs includes receivable of ₹209.43 lakhs which is under dispute in an ongoing legal matter with one of its customers. The Company expects full recovery of this amount and hence it has not provided for any doubtful debt in books of account.

II. Litigation involving our Directors (except Promoters)

A. *Litigation filed against our directors*

1. Criminal proceedings

Fabtech Technologies International Limited & Ors. Vs Pawankumar Ramakrishna Chunduru & Ors. - Criminal Revision Application No. 57 of 2022 IN Criminal Case No. SW/02 of 2022

Pawan Kumar Ramakrishna (“**Complainant**”) filed a Summons Warrant Case bearing number 2 of 2022 against Fabtech Technologies International Limited (“**Accused No. 4**”) and its directors before the Ld. Metropolitan Magistrate, 65th Andheri Court, Mumbai by under Sections 419, 420, 406, 465, 467, 471 and 34 read with section 120 (B) of Indian Penal Code (“**Complaint**”). It is the alleged case of the Complainant that in the year 2013-2014, the Complainant received certain work orders from Rajesh Dokaniya and Shirish Devendra Kejriwal (“**Accused No. 2 and Accused No. 3**”) pertaining to HVAC and Clean Room Panel for the pharmaceutical factory/ plant of Brucke Pharma Private Limited (“**Accused No. 1**”). It is further the case of the Complainant that he had deposited blank cheques with Accused No. 2 and 3. Thereafter it is alleged that, Aasif Ahsan Khan (“**Accused No. 5**”) and Amjad Arani (“**Accused No. 6**”) had sold supplied and delivered the goods directly to Accused No. 1 pursuant to which the Accused No. 2 and 3 handed over the said blank cheques to Accused No. 5 and 6. Thereafter, it is alleged that Accused No. 5 and 6 prepared bogus invoices, letters and undertaking to prove the liability and have misused the said security deposit cheques by filing complaint under section 138 of Negotiable Instruments Act, 1881. In view of these allegations, the Complainant has filed the present case under sections 419, 420, 406, 465, 467, 471 and 34 read with section 120 (B) of Indian Penal Code. In fact the two cases filed under the Negotiable Instruments Act were decided against the Complainant and the Court was pleased to convict the said company i.e., Centech Engineers Limited. and being aggrieved by the order they have preferred appeals against the convictions which are pending.

Therefore, being aggrieved by the issuance of process vide order dated December 30, 2021, the Accused No. 4, 5 and 6 have preferred a Criminal Revision Application No. 57 of 2022 against the order dated December 30, 2021 which is pending before the Court of Sessions, Borivali Division, Goregaon, Mumbai and a stay has been granted by the Court on the order dated December 30, 2021. 1. Material civil proceedings

Aarif Ahsan Khan vs Jayesh Sanghrajka and Ors. – Civil Appeal 1526 of 2023 from Company Appeal No. (AT) (Insolvency) 1429 of 2023 and 1510 of 2023

Our Promoter, Aarif Ahsan Khan (“**Appellant**”) filed the present appeal under Section 61 of the Insolvency and Bankruptcy Code, 2016 (“**IBC**”) against Jayesh Sanghrajka (“**Respondent**”), the resolution professional of Ornate Spaces Private Limited (“**Corporate Debtor**”). The appeal was filed as a composite appeal against the order dated May 2, 2023 (“**First Impugned Order**”), only to the limited extent as against the Appellant, passed in Interlocutory Application No. 1927 of 2021 (“**PUFE Application**”) and order dated August 17, 2023 (“**Second Impugned Order**”) passed in Interlocutory Application No. 2679 of 2023 (“**Modification Application**”) passed by the Hon’ble National Company Law Tribunal, Mumbai (Bench - IV) (“**NCLT**”) in corporate insolvency resolution process initiated in P. No. (IB) – 4469/2019 “*IDBI Trusteeship Services Limited vs. Ornate Spaces Private Limited*”. However, on the records of the Hon’ble NCLAT, there were two composite appeals, being Company.

Appeal (AT) (Insolvency) 1429 of 2023 (“**Appeal No. 1429**”) and Company Appeal (AT) (Insolvency) 1510 of 2023 (“**Appeal No. 1510**”). The contents of the appeal are identical but for filing purposes the Appeal No. 1429 was considered challenging the First Impugned Order and Appeal No. 1510 was considered challenging the Second Impugned Order. The Hon’ble NCLT by the First Impugned Order disposed the said PUFÉ Application against the respondents therein and directed Aryan Spaces (sole proprietorship of the appellant) to contribute ₹ 120 lakhs to the Corporate Debtor. The First Impugned Order was passed without considering the Appellant’s Affidavit in Reply and arguments advanced by the advocates for the Appellant. Further, the Appellant filed Modification Application praying for modification of the First Impugned Order, but the Hon’ble NCLT yet again failed to consider the arguments advanced by the Appellant and by the Second Impugned Order, only clarified that the Affidavit in Reply filed on behalf of the Appellant was duly considered while passing the First Impugned Order. Therefore, being aggrieved by the said orders, the appellant filed the present Appeal.

Since Appeal No. 1429 was considered challenging the First Impugned Order, an Interlocutory Application No. 5116 of 2023 was also filed, seeking condonation of delay in filing the Appeal No. 1429. However, the Hon’ble National Company Law Appellate Tribunal (“**NCLAT**”) dismissed the Appeal No. 1429 vide order dated December 8, 2023 on the ground that it is time barred by limitation. Therefore, being aggrieved by this order, the Appellant has filed a Civil Appeal No. 1526 of 2024 before the Hon’ble Supreme Court and the same is pending. Further, the Appeal No. 1510 is also pending before the Hon’ble NCLT. In the above-mentioned appeals, apart from the Interlocutory Applications mentioned above 2 more were also filed seeking (a) stay of the impugned orders and (b) exemption from filing typed/ legible/ original/ certified documents. **The next date of hearing for the Civil Appeal is August 27, 2024 and for Appeal No. 1510 is December 09, 2024.**

Aarif Ahsan Khan vs Jayesh Sanghrajka and Ors. – Company Appeal No. (AT) (Insolvency) 1547 of 2023

Our Promoter, Aarif Ahsan Khan (“**Appellant**”) filed the present appeal under Section 61 of the Insolvency and Bankruptcy Code, 2016 (“**IBC**”) against Jayesh Sanghrajka (“**Respondent**”), the resolution professional of Ornate Spaces Private Limited (“**Corporate Debtor**”). The appeal is filed against an order dated October 6, 2023 (“**Impugned Order**”) passed in Interlocutory Application No. 277 of 2023 (“**Application**”) passed by Hon’ble National Company Law Tribunal, Mumbai (Bench - IV) (“**NCLT**”) in corporate insolvency resolution process initiated in C.P. No. (IB) – 4469/2019 “*IDBI Trusteeship Services Limited vs. Ornate Spaces Private Limited*”. The Hon’ble NCLT by the impugned order dismissed the said Application for claims of the Appellant against the Corporate Debtor for payments made by the Appellant amounting to ₹ 438 lakhs towards booking of certain flats in a project of the Corporate Debtor. The Hon’ble NCLT not only dismissed the said Application, but even took a view that the booking of flats by the Appellant is a “*sham transaction, having been made by using the funds received from the Corporate Debtor*” and directed the Respondent to re-appreciate the evidence on record to decide whether the amount paid to the Corporate Debtor by the Appellant is routed from the amount received from the Corporate Debtor. Therefore, being aggrieved by the impugned order, the Appellant has filed the present Appeal. Further, there are also 2 Interlocutory Applications filed in the abovementioned appeal praying for a stay of the impugned order and for exemption from filing typed/ legible/ original/ certified documents. **The next date of hearing of the appeal is December 09, 2024**

Total Revenue from Operations	9,739.15	100.00%	12,466.63	100.00%	11,369.89	100.00%

Any significant downturn in these sectors may reduce the demand for our products. Further, any significant decrease in the growth of the pharmaceutical and chemical sector in India or significant consolidation in this industry, may reduce the demand for our products and have an adverse effect on our business, results of operations and financial condition. While we aim to capitalise on increasing demand in other emerging sectors such as semiconductors, automobiles, renewable energy, data centers, etc., we expect to derive major part of our revenue from the operations from pharmaceutical, healthcare and biotech sector. If these industries face a downturn or recessionary cycle, sales of our products may be adversely affected which may impact our business, results of operations and financial condition.

2. *We require certain approvals and licenses in the ordinary course of business. Any failure to successfully obtain/renew/update such registrations may adversely affect our operations, results of operations and financial condition*

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or revoke the cancellation or suspension of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled “Key Industry Regulations and Policies” and “Government and Other Key Approvals” at pages 146 and 235 respectively of this Draft Red Herring Prospectus.

Our Material Subsidiary are in the process of applying for the licenses set out below. These pending licenses, however, do not restrict our business or that of our Material Subsidiary. Pursuant to conversion of our Company into a public limited company, we must change the name in most of our approvals, licenses, registrations and permits to the new name. Our Company is in the process to obtain these approvals.

Our Material Subsidiary, Altair Partition Systems LLP, has applied for a factory license under the Factories Act, 1948 for their factory located At Plot No J-65, Village Kudavali, Additional MIDC, Murbad, Thane 421401, vide application bearing token ID 13581240003244 dated July 31, 2024, which licenses are currently pending before the relevant authorities. For further details, see “Government and Other Statutory Approvals” on page 235 of this Draft Red Herring Prospectus.

While our Company and Material Subsidiary expect to obtain the above licenses in a timely manner, there can be no assurance that the relevant authority will issue an approval within the applicable time period or at all. Any delay in receipt or non-receipt of such approvals, licenses, registrations and permits

could result in cost and time overrun or which could affect our related operations. Furthermore, under such circumstances, the relevant authorities may initiate penal action against us, restrain our operations, impose fines/penalties or initiate legal proceedings for our inability to renew/obtain approvals in a timely manner or at all.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see “*Government and Other Approvals*” on page 235 of this Draft Red Herring Prospectus.

3. *We propose to utilize a part of the Net Proceeds to undertake proposed acquisition of the equity shares of Kelvin Air Conditioning and Ventilation Systems Private Limited*

We have recently invested in Kelvin by way of subscription to 5,000, 0.001% Compulsory Convertible Preference Shares at a price of Rs. 6,660 per CCPS aggregating to ₹ 333.00 lakhs vide Share Subscription Agreement dated July 10, 2024 with an option to further acquire an additional such number of equity shares of Kelvin from the existing promoters, representing at least 18% of equity shares of Kelvin on a fully diluted basis for a consideration of ₹ 550.00 lakhs. We propose to utilize ₹ 550.00 lakhs from our Net Proceeds from the Issue towards aforesaid acquisition of the equity shares of Kelvin. As on date of filing this Draft Red Herring Prospectus, other than the proposed acquisition, we have not entered into any definitive agreements towards any future acquisitions or strategic initiatives. The amount of Net Proceeds identified for acquisitions is based on the amount as agreed in the SSA. The actual quantum of equity shares to be acquired and the timing of such acquisition is dependent on certain identified factors which include achievement of certain financial targets as set out in the definitive agreements. The actual deployment of funds will depend on fulfilling of such agreed conditions and are subject to change in light of changes in internal as well as external circumstances or costs or in other financial conditions, business strategy, etc.

In the interim, the Net Proceeds proposed to be utilized towards this object shall be deposited only in the scheduled commercial banks as may be approved by our Board. For further information, see “*Objects of the Issue*” and “*History and Certain Corporate Matters*” on page 89 and 152 of this Draft Red Herring Prospectus.

4. *The Net Proceeds from the Issue are proposed to be deployed by our Company to fund the consideration for the proposed acquisition. If the proposed acquisition is not completed, the proceeds of the Issue will be retained by our Company and used for other objects.*

We propose to fund the proposed acquisition of equity shares of Kelvin through the proceeds of this Issue. For further information, see “*Objects of the Issue*” on page 89. It is possible that completion of the proposed acquisition may not occur in timely manner or occur at all. If the proposed acquisition is not completed for any reason, the Net Proceeds shall be deployed by our Board in subsequent periods, at its sole discretion in such manner as it may decide based on its funding requirements at the relevant point of time, including funding opportunities in its business through inorganic growth, without requiring any further approvals from the Shareholders, in accordance with applicable laws. This allocation will be based on our Company’s funding requirements at the relevant point in time.

5. *Our funding requirements and the proposed deployment of Net Proceeds are not appraised by any independent agency and deployment of funds raised through this Issue shall not be subject to monitoring by any monitoring agency*

We intend to use the Net Proceeds for the purposes described in “*Objects of the Issue*” on page 89 of this Draft Red Herring Prospectus. Our funding requirements are based on management estimates and our current business plans and have not been appraised by any bank or financial institution. The deployment

of the Net Proceeds will be at the discretion of our Board. We may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, such as interest rate fluctuations, changes in input cost, changes in terms of our work and purchase orders or contracts, inability to receive the award of new orders and contracts, and other financial and operational factors. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of proceeds. If we are unable to deploy the proceeds of the Issue in a timely or an efficient manner, it may affect our business, results of operations and financial condition.

Since the size of the Issue is less than ₹10,000 lakhs, we need not to appoint a monitoring agency to oversee the deployment of funds raised through this Issue. The deployment of funds raised through this Issue is hence, at the discretion of the management and will not be subject to monitoring by any independent agency. The Board of Directors of our Company through the Audit Committee will monitor the utilization of the Issue proceeds. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

6. *We derive a significant portion of our revenues from a limited number of customers. Less projects or expansion by them may affect or business The loss of any significant customers may have an adverse effect on our business, financial condition, results of operations, and prospects*

We derive a significant portion of our revenues from a limited number of customers. For the Financial year ended March 31, 2024, March 31, 2023 and March 31, 2022, our revenue from top five (5) and top ten (10) customers are as follows:

Sr No.	Particulars	FY 2023-24		FY 2022-23		FY 2021-22	
		Amount (₹ in lakhs)	% of our revenue from operations	Amount (₹ in lakhs)	% of our revenue from operations	Amount (₹ in lakhs)	% of our revenue from operations
1.	Revenue from top five (5) customers	4,122.39	42.33%	4,232.35	33.95%	4,097.34	36.04%
2.	Revenue from top ten (10) customers	5,290.77	54.32%	6,539.95	52.46%	5,597.49	49.23%

Note: We are unable to disclose the names of individual customers since this information is commercially sensitive to our business

For further details, see “Our Business” on page 133 of this Draft Red Herring Prospectus.

We might continue to derive a material portion of our revenues from our key customers. While the composition and mix of our top 5 and top 10 customers keeps changing from year to year, if any or all of our key customers cease doing business or substantially reduce their dealings with us, our revenues could decline, which may have a material adverse effect on our business, results of operations, cash flows and financial condition.

Our business is dependent on our continuing relationship with such customers, the quality of our products and our ability to deliver on their orders, and there can be no assurance that such customers will continue to do business with us in the future on commercially acceptable terms or at all. While we have developed valued relationships with certain of our customers in the normal course of business, there can be no assurance that our customers in the past or our newly acquired customers will continue to place similar orders with us in the future. Our reliance on a select group of customers may also constrain our ability to negotiate our arrangements, which may have an impact on our profit margins and financial performance.

7. *We could become liable to customers and incur substantial costs as a result of defects in our products, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.*

Any failure or defect in our products could result in a claim against us for damages, regardless of our responsibility for such a failure or defect. Quality check of our raw materials, products, processed and

finished products undergoes a simultaneous quality check to ensure that the quality or technical defects are adhered on a real time basis and the same is removed before the working in process material is passed on to next process. Although we attempt to maintain quality standards, we cannot assure that all our products would be of uniform quality, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

Also, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of merchandise from our vendors, mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations.

8. *Our continued operations are critical to our business and any shutdown of our manufacturing unit may adversely affect our business, results of operations and financial condition.*

Our current manufacturing units are subject to operating risks, such as breakdown or failure of equipment, power supply or processes, reduction or stoppage of water supply, performance below expected levels of efficiency, obsolescence, natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities.

In the event, we are forced to shut down our manufacturing units for a prolonged period; it would adversely affect our earnings, our other results of operations and financial condition as a whole.

In addition to the above if our manufacturing units suffer losses as a result of any industrial accident, we may be forced to shut down our manufacturing units which could result in us being unable to meet with our commitments, which will have an adverse effect on our business, results of operation and financial condition. Further, any contravention of or noncompliance with the terms of various regulatory approvals applicable to our manufacturing units may also require us to cease or limit production until such non-compliance is remedied to the satisfaction of relevant regulatory authorities. We cannot assure you that we will not experience work disruptions in the future resulting from any dispute with our employees or other problems associated with our employees and the labor involved in our manufacturing units, which may hinder our regular operating activities and lead to disruptions in our operations, which could adversely affect our business, prospects, financial condition, cash flows and results of operations.

9. *Our Company's failure to maintain the quality standards of the products or keep pace with the technological developments could adversely impact our business, results of operations and financial condition.*

Our products depend on the customers' expectations and choice or demand of the customers as we manufacture products as per the customers' specifications and as per particular customers' needs. Any failure to maintain the quality standards may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customers' quality standards. Also, rapid change in our customers' expectation on account of changes in technology or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition.

If any of our products do not meet established quality requirements or are defective, we may be, inter alia, (i) responsible for damages relating to any defective products; (ii) required to replace or redesign such products; or (iii) incur significant costs to defend any such claims. There is no assurance that our products will always meet the satisfaction of our customers' quality standards.

10. *We are dependent on limited number of suppliers for supply of key raw materials and we have not made any long term supply arrangement with our suppliers. In an eventuality where our suppliers are unable to deliver us the required materials in a time-bound manner it may have a material adverse effect on our business operations and profitability.*

Our Company is dependent on suppliers for supply of raw materials; however, we have not entered into

any long term supply agreement for the same. For the financial year ended March 31, 2024, March 31, 2023 and March 31, 2022, our purchases from top five (5) and top ten (10) suppliers are as follows:

Sr No	Particulars	FY 2023-24		FY 2022-23		FY 2021-22	
		Amount (₹ in lakhs)	% of our purchases	Amount (₹ in lakhs)	% of our purchases	Amount (₹ in lakhs)	% of our purchases
1.	Purchase from top five (5) suppliers	3,484.53	51.26%	3,676.82	44.51%	3,610.80	42.17%
2.	Purchase from top ten (10) suppliers	4,310.81	63.42%	4,908.04	59.42%	5,131.86	59.93%

Note: We are unable to disclose the names of individual suppliers since this information is commercially sensitive to our business

For further details, see “*Our Business*” on page 133 of this Draft Red Herring Prospectus.

There can be no assurance that strong demand, capacity limitations or other problems experienced by our supplier will not result in occasional shortages or delays in their supply of raw materials. If we experience a significant or prolonged shortage of raw materials from any of our supplier and we cannot procure the raw materials from other sources, we would be unable to meet our production schedules in a timely manner, which would adversely affect our sales, margins and customer relations. In the absence of such supply agreements, we cannot assure that a particular supplier will continue to supply raw materials to us in the future. In the event the prices of such raw materials were to rise substantially or any disruption in supply chain of such raw materials, we may find it difficult to make alternative arrangements for supplies of our raw materials, on the terms acceptable to us, which could materially affect our business, results of operations and financial condition.

While we may find additional suppliers to supply these raw materials, any failure of our suppliers to deliver these raw materials in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our production processes and our ability to deliver orders on time and at the desired level of quality. As a result, we may lose customers which could have a material adverse effect on our business, financial condition and results of operations. Further, there can be no assurance that we will be able to effectively manage relationships with our existing or new suppliers or that we will be able to enter into arrangements with new suppliers at attractive terms or at all. If we fail to successfully leverage our existing and new relationships with suppliers, our business and financial performance could be adversely affected.

11. *We may not be able to successfully manage the growth of our operations and execute our growth strategies which may have an adverse effect on our business, financial condition, results of operations and future prospects.*

As we continue to grow, we must continue to improve our managerial, technical and operational knowledge and allocation of resources, and implement an effective management information system. In order to fund our ongoing operations and future growth, we need to have sufficient internal sources of liquidity or access to additional financing from external sources, including debt or equity. For further details on our strategies, see “*Our Business*” on page 133 of this Draft Red Herring Prospectus.

Further, we will be required to manage relationships with a number of customers, suppliers, contractors, service providers, lenders and other third parties. We will need to further strengthen our internal control and compliance functions to ensure that we will be able to comply with our legal and contractual obligations and minimize our operational and compliance risks. There can be no assurance that we will not suffer from capital constraints, operational difficulties or difficulties in expanding existing business and operations and training an increasing number of personnel to manage and operate the expanded business. There can be no assurance that we will be able to successfully manage our growth, strategies or that our expansion plans will not adversely affect our existing operations and thereby have an adverse effect on our business, financial condition, results of operations and prospects.

Further, we could also encounter difficulties and delays in executing our growth strategies due to a

number of factors, including, unavailability of human and capital resources, inability to develop adequate systems, infrastructure and technologies, delayed payments or non-payments by customers, failure to implement bidding strategy, failure to correctly identify market trends, increase in cost of raw material, fuel, labour etc., failure to form and maintain alliance with joint venture partners, failure on the part of our joint venture partners to perform their contractual obligations or any other risk that we may or may not have foreseen and such difficulties may result in delay in the execution of our projects. There can be no assurance that we will be able to execute our growth strategy on time and within the estimated costs, or that we will meet the expectations of our customers.

12. *There are pending litigations against our Company, certain of our Promoters and our Directors. Any adverse decision in such proceedings may render us/them liable to liabilities/penalties and may adversely affect our business, results of operations and financial condition.*

Our Company is involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and tribunals or other governmental authorities. The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally from us and other parties. Should any new developments arise, such as any change in applicable Indian law or any rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase expenses and current liabilities. Any adverse decision in such legal proceedings may have a material adverse effect on our business, financial condition, results of operations and cash flows.

A summary of outstanding litigation proceedings involving our Company, our Promoters, our Directors and our Group Company as on the date of this Draft Red Herring Prospectus and as disclosed in the section titled “*Outstanding Litigation and Other Material Developments*” in terms of the requirements under the SEBI ICDR Regulations is provided below:

* To the extent quantifiable.

**Excluding our Individual Promoter who is also a director of our Company

Further, except as disclosed in “*Outstanding Litigation and Other Material Developments- Litigation proceedings involving our Group Companies*” on page 233.

If any of these outstanding litigations are decided against our Company, Promoters, Directors, Subsidiaries or Group Companies, as the case may be, we may need to make provisions in our financial statements that could increase our expenses and current liabilities. In this regard, we may be subject to penalties and regulatory actions including the suspension of our business. There can be no assurance that these litigations will be decided in favor of our Company or in the favor of our Promoter, Directors, Subsidiaries or Group Company, and such proceedings may divert management time and attention and consume financial resources in their defense or prosecution. An adverse outcome in any of these

proceedings may affect our reputation, standing and future business, and could have an adverse effect on our business, prospects, financial condition, results of operations and cash flows.

13. ***We may in the future continue to make strategic acquisitions to grow our business and further diversify product and service offerings. Our acquisitions are subject to various risks, including risks relating to the integration of these acquired businesses with our existing operations. An inability to identify, complete and successfully integrate such acquisitions could adversely affect our business prospects, results of operations and financial condition.***

One of our strategies is to continue pursuing inorganic growth through acquisition and strategic partnerships in order to expand our execution capabilities, diversify customer base, enable operational integration with our business, cost and process optimization, streamlining business processes, venture into new industries, expand geographic reach and gain further market share in cleanroom technology market. With this objective, we have acquired 26% equity share capital of Advantek, which is engaged in the business of manufacturing of Air Handling Units, a critical component essential for the optimal operation of cleanrooms. We also have recently invested in Kelvin by way of subscription to 5,000, 0.001% Compulsory Convertible Preference Shares at a price of Rs. 6,660 per CCPS aggregating to ₹ 333.00 lakhs vide Share Subscription Agreement dated July 10, 2024 with an option to further acquire an additional such number of equity shares of Kelvin from the existing promoters, representing at least 18% of equity shares of Kelvin on a fully diluted basis for a consideration of ₹ 550.00 lakhs. Kelvin is operating as an integrator for critical HVAC applications catering to a wide spectrum of industries and businesses. For further details, please refer “*Our Business*” and “*History and Certain Corporate Matters*” on page 133 and 152 of this Draft Red Herring Prospectus.

We further continue to evaluate inorganic growth opportunities consistent with our business strategy of diversifying our product and service offerings while providing integrated business services to our customers. However, our acquisition strategy involves various risks and challenges, including the diversion of management’s attention from our core business operations; the potential loss of key employees and customers of the acquired businesses; potential disruption of business relationships with current customers; uncertainties that may impair our ability to attract, retain and motivate key employees; issues relating to management and integration of operations; potential deficiencies in financial control and statutory compliance at the acquired companies; an increase in our expenses and working capital requirements; a failure to achieve cultural compatibility and other benefits expected from an acquisition; and exposure to unanticipated liabilities of the acquired companies. There can be no assurance that we will be able to successfully integrate the acquired businesses into our existing operations or achieve economies of scale. Our inability to integrate or manage these acquired businesses or entities may result in increased costs and adversely

14. ***The licenses obtained pertaining to our manufacturing facility in Gujarat, are in the name of the demerged entity Fabtech Technologies International Private Limited (formerly known as Fabtech Technologies International Limited).***

Our Company is one of the resulting companies from the Scheme of Demerger of the demerged entity i.e., Fabtech Technologies International Private Limited (formerly known as Fabtech Technologies International Limited). This Scheme of Demerger received the sanction of the National Company Law Tribunal, Mumbai Bench vide order dated November 19, 2020. Consequently, the licenses for our manufacturing facility situated at plot no. 190/191, G.I.D.C., Umbergaon, Gujarat - 400 053, obtained before the Scheme of Demerger, remain under the name of the demerged entity. Our Company has submitted application bearing no. 2024/114 dated July 29, 2024, to update the factory license to reflect our name, and these application are currently pending for approval.

15. ***Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholder’s approval.***

We intend to use Net Proceeds from the Issue towards (i) meeting long-term working capital requirements; (ii) proposed acquisition of equity shares of Kelvin Air Conditioning and Ventilation

Systems Private Limited; and (iii) General Corporate Purposes. For further details of the proposed objects of the Issue, see “*Objects of the Issue*” on page 89 of this Draft Red Herring Prospectus. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds without obtaining the shareholders’ approval by way of a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in this Draft Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

Further, our Promoters would be required to provide an exit opportunity to the Shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI. In light of these factors, we may not be able to undertake variation of objects of the Issue to any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in this Draft Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

- 16. *We appoint contract labour for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations, cash flows and financial condition.***

We engage independent contractors through whom we engage contract labourers for performance of certain functions at our manufacturing facility for the performance of non-core tasks. Although we do not engage these labourers directly, we are responsible for any wage and payments to be made to such labourers in the event of default by such independent contractors. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and our financial conditions. In addition, we may be liable for or exposed to litigations, sanctions, penalties or losses arising from accidents or damages caused by our workers or contractors.

- 17. *Our industry is labour intensive, and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees.***

We believe that our industry faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry, being labour intensive, is highly dependent on labour force for carrying out its manufacturing operations. A shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Though we have not experienced disruptions in our business operations due to disputes or other problems such as strikes, lockouts, etc. with our work force in the past, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management’s attention and result in increased costs. India has

stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

18. *The shortage or non-availability of power facilities may adversely affect our manufacturing processes and have an adverse impact on our results of operations and financial condition.*

Our manufacturing process require a substantial amount of power facilities. The quantum and nature of power requirements of our industry and Company is such that it cannot be supplemented/ augmented by alternative/ independent sources of power supply since it involves significant capital expenditure and per unit cost of electricity produced is very high in view of oil prices and other constraints. We are mainly dependent on the State Government to meet our electricity requirements. Any defaults or non-compliance of the conditions may render us liable for termination of the agreement or any future changes in the terms of the agreement may lead to increased costs, thereby affecting the profitability. Further, since we are majorly dependent on third party power supply; there may be factors beyond our control affecting the supply of power.

Any disruption / non availability of power shall directly affect our production which in turn shall have an impact on profitability and turnover of our Company

19. *We are dependent on third party transportation providers for the supply and distribution of our products. Any failure or delay in such transportation and logistics arrangements could materially affect our business, our operations and financial condition*

Our business requires smooth supply and transportation of our raw materials as well as our finished goods. We are dependent on third-party transportation and logistics providers for various forms of transportation. Though our business has not experienced any major disruptions due to transportation strikes in the past, any future disruption in transportation services may have an adverse effect on our business.

We do not have formal contractual relationships with such transportation or logistic companies and freight forwarders. Transportation strikes may also have an adverse effect on supplies and deliveries to and from our customers and suppliers. In addition, products may be lost or damaged in transit for various reasons including theft, occurrence of accidents or natural disasters. This may lead to a delay in delivery of our products which may also affect our business and the results of our operations negatively. Though such material events have not taken place in the past, any recompense received from insurers or third-party transportation providers may be time consuming and insufficient to cover the cost of any delays and further may not be able to repair our relationships with our affected customers. We may also be affected by an increase in fuel costs, as it will have a corresponding impact on freight charges levied by our third - party transportation providers. Any such adverse event, or increase in costs could have an adverse effect on our business, prospects, financial condition, results of operations and cash flows

20. *Our insurance coverage may not be adequate to protect us against certain operating and financial loss and this may have a material adverse effect on our business and cash flow.*

Our Company's operations are subject to inherent risks and hazards which may adversely impact our profitability, such as breakdown, work accidents, fire, earthquake, flood and other force majeure events, acts of terrorism and explosions that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. We generally maintain insurance

covering our assets and operations at levels that we believe to be appropriate, including group medical and group personnel accident policies for our employees. Risks of loss or damage to project works and materials are often insured jointly with our customers. We have previously suffered losses due to which we have claimed insurance compensation for our Insurers: The following tables shows claims made by our Company in the past:

Sr. No.	Policy No.	Claim No.	Claim Date	Claim Amount (in ₹)

At present our Company's insurance policies provide for coverage against risks such fire, theft, burglary, workmen compensation and accidents. However, there can be no assurance that any claim under the insurance policies maintained by our Company will be honoured fully, in part or on time. While our Company maintains insurance coverage in amounts consistent with industry norms, the said insurance policies do not cover all risks, specifically risks such as loss of profits, and are subject to exclusions and deductibles. There can be no assurance that our Company's insurance policies will be adequate to cover the losses in respect of which the insurance had been availed. If our Company suffers a significant uninsured loss or if the insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by our Company significantly exceeds its insurance coverage, our Company's business, financial condition and results of operations may be materially and adversely affected. Further, there is no assurance that the insurance premium payable by our Company will be commercially viable or justifiable. 22. We may not be able to optimally utilise our installed manufacturing capacity

Following is the summary of our installed capacity and capacity utilisation for our manufacturing unit for fiscal 2022, fiscal 2023 and fiscal 2024:

Fiscal	Annual Installed Capacity (in sq ft)	Annual Production (in sq ft)	Capacity Utilization (%)*

*As certified by M/s. Krishnakant A. Pandat, Chartered Engineer, vide his certificate dated July 25, 2024

Our actual capacities may not reach their installed capacity. Under-utilization of our manufacturing capacities over extended periods, or significant under-utilization in the short-term, could materially and

adversely impact our business, growth prospects and future financial performance on account of the constant overhead costs associated with our business. For details on our manufacturing capacities, see “Our Business” on page 133 of this Draft Red Herring Prospectus.

23. ***Our registered office is being utilised by us on the basis of an Affidavit received from one of our Promoters, Manisha Hemant Anavkar, also a partner of Fabtech Turnkey Projects LLP. We are subject to terms and conditions imposed on us by the original owner. In any event we are unable to renew such occupancy rights, our business, financial condition and results of operations may be adversely affected.***

We occupy our registered office, situated at 615, Janki Center, Off. Veera Desai Road, Andheri West, Mumbai 400 053, Maharashtra, India, on the basis of an affidavit received from M/s Fabtech Turnkey Projects LLP. The affidavit, signed by Manisha Hemant Anavkar, designated partner of M/s Fabtech Turnkey Projects LLP states that the firm has no objection with our Company using the premises as our Registered Office. Due to any unforeseen circumstances if the NOC is redacted, we may be required to relocate and make alternative arrangements. We cannot assure that we will be able to identify and move to new premises within a reasonable period of time and/ or that new arrangements will be on commercially acceptable terms. If such event occurs, we may suffer a significant disruption in our operations which could have an adverse effect on our business, prospects, results of operations, cash flows and financial condition.

24. ***In addition to normal remuneration or benefits and reimbursement of expenses, some of our Promoters and Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.***

Our Promoter, Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Promoters and Director may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see ‘Capital Structure’, ‘Our Management’ and ‘Our Promoters and Promoter Group’ on pages 74, 157 and 172, respectively, of this Draft Red Herring Prospectus.

25. ***Most of the Directors of the Company don’t have experience of being a director of a public listed company.***

Most of our Directors of Our Company do not have the experience of having held directorship of public listed company. Accordingly, they have limited exposure to management of affairs of the listed company which inter-alia entails several compliance requirements and scrutiny of affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, the Company will require to adhere strict standards pertaining to accounting, corporate governance and reporting that it did not require as an unlisted company. The Company will also be subject to the SEBI Listing Regulations, which will require it to file audited annual and unaudited half yearly reports with respect to its business and financial condition. If the Company experiences any delays, we may fail to satisfy its reporting obligations and/or it may not be able to readily determine and accordingly report any changes in its results of operations as promptly as other listed companies.

Further, as a publicly listed company, the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of the Company’s disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Board of Directors of the Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

26. We have certain contingent liabilities which may adversely affect our financial condition.

As on March 31, 2024, our Company had the following contingent liabilities:

Particulars	Amount (₹ in lakhs)
Performance bank guarantees	23.24
Corporate guarantees	100.00
Total	123.24

In the event that any of these contingent liabilities materialize, our financial condition may be adversely affected. For further information, please refer chapter titled “Restated Financial Information – Note 30 Restated Contingent Liabilities and Commitments” on page 204 of this Draft Red Herring Prospectus.

27. We do not own certain premises used by our Company. Disruption of our rights as licensee/ lessee or termination of the agreements with our licensors/ lessors would adversely impact our operations and, consequently, our business

As on the date of this Draft Red Herring Prospectus, our Company has taken on lease certain properties from related parties or third parties, the details of which have been provided below:

Primary Purpose	Location	Owned/ Leased
Registered Office	615, Janki Center, Off. Veera Desai Road, Andheri West, Mumbai 400 053, Maharashtra, India	Right to Use
Manufacturing Facility	Plot No. 190/ 191 G.I.D.C Umbergaon, Dist: Valsad, Gujarat – 396 171	Leased
Office	502/503, Vishakha Arcade, Off Veera Desai Road, Andheri (W), Mumbai – 400053, Maharashtra, India	Leased
Guest House	F-309, 3 rd Floor, 30, Aditya Arcade, Community Centre, Preet Vihar, New Delhi	Leased

Our registered office is owned by one of our related party, M/s. Fabtech Turnkey Solutions LLP, and they have granted the right to use the said premise to our Company without payment of any consideration. Although, there has been no instances of conflict in the past with our promoter, or our subsidiary, there might be a conflict of interest with promoters/promoter group/directors/KMPs or their relatives of our Company, subsidiary, etc, with respect to the rented properties. The offices are taken on rental basis from third parties. There can also be no assurance that our Company will be able to renew the rent agreements or deeds entered into with related or third parties in a timely manner or at all. Further, there can be no assurance that we will not face any disruption of our rights as a tenant and that such leave and license agreements will not be terminated prematurely by the owner of the property. Any such non-renewal or early termination or any disruption of our rights as licensee will adversely affect our business operations. For details, see the “Summary of Issue– Related Party Transaction” on page 24 of this Draft Red Herring Prospectus

28. Our Company requires significant amount of working capital for a continuing growth. Our inability to meet our working capital requirements may adversely affect our results of operations.

Our business requires a significant amount of working capital. As per our settled business terms, we require our customers to pay the full amount of the consideration only after they receive the order, as a result, significant amounts of our working capital are often required to finance the purchase of raw material and execution of manufacturing processes before payment is received from our customers. Further, we are also required to meet the increasing demand and for achieving the same, adequate stocks have to be maintained which requires sufficient working capital. In the event, we are unable to source the required amount of working capital for addressing such increased demand of our products, we might not be able to efficiently satisfy the demand of our customers. Even if we are able to source the required amount of funds, we cannot assure you that such funds would be sufficient to meet our cost estimates

and that any increase in the expenses will not affect the price of our products.

Any delay in processing our payments by our customers may increase our working capital requirement. Further, if a customer defaults in making payments for a product on which we have devoted significant resources, it could affect our profitability and liquidity and decrease the capital reserves that are otherwise available for other uses. We may file a claim for compensation of the loss that we incurred pursuant to such defaults but settlement of disputes generally takes time, financial and other resources, and the outcome is often uncertain. In general, we take provisions for bad debts, including those arising from such defaults based primarily on ageing and other factors such as special circumstances relating to special customers. There can be no assurance that such payments will be remitted by our customers to us on a timely basis or that we will be able to effectively manage the level of bad debt arising from defaults. We may also have large cash outflows, including among others, losses resulting from environmental liabilities, litigation costs, adverse political conditions, foreign exchange risks and liability claims.

All of these factors may result, in increase in the amount of working capital requirements of Our Company. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. Any issuance of equity, on the other hand, could result in a dilution of your shareholding. Accordingly, continued increases in our working capital requirements may have an adverse effect on our financial condition and results of operations.

29. *We have presented certain supplemental information of our performance and liquidity which is not prepared under or required under Indian GAAP*

We have included certain financial and operational measures in this Draft Red Herring Prospectus, which we believe to be non-GAAP financial measures (“*Non-GAAP Measures*”) and KPIs, in accordance with the SEBI ICDR Regulations. We compute and disclose such KPIs relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of companies such as us. These KPIs may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial and operational measures, and industry-related statistical information of similar nomenclature that may be computed and presented by other companies pursuing similar business.

Further, while after listing of the Equity Shares, we will continue to disclose the KPIs in accordance with the applicable laws, however, as the industry in which we operate continues to evolve, the measures by which we evaluate our business may change. Our internal systems and tools have a number of limitations, and our methodologies or assumptions that we rely on for tracking these metrics may also change over time, which could result in unexpected changes to our metrics, including the metrics we publicly disclose, or our estimates of our category position. In addition, if the internal tools we use to track these measures under-count or overcount performance or contain algorithmic or other technical errors, the data and/or reports we generate may not be accurate. We calculate measures using internal tools, which are not independently verified by a third party. Any real or perceived inaccuracies in such metrics may harm our reputation and adversely affect our stock price, business, results of operations, and financial condition. Further, Non-GAAP measures presented in this Draft Red Herring Prospectus is a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS, U.S. GAAP or any other GAAP. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity and should not be considered in isolation or construed as an alternative to cash flows, profit for the years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS, U.S. GAAP or any other GAAP. In addition, these Non-GAAP Measures are not standardized terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP Measures are not a measure of

performance calculated in accordance with applicable accounting standards, our Company's management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company's operating performance.

30. *Improper storage, processing and handling of materials and products may cause damage to our inventory leading to an adverse effect on our business, results of operations and cash flows.*

Our raw materials and finished products are susceptible to damage if not appropriately stored, handled and processed, which may affect the quality of the finished product. In the event such damage is detected at the manufacturing facility during quality checks, we may have to suspend manufacturing activities, and lower capacity utilizations, which could materially and adversely affect our business prospects and financial performance. Improper storage may also result in higher than usual damage to our inventory due to adverse weather conditions or longer than usual storage periods, which may also require us to incur additional expenses in replacing that portion of the inventory and/ or incur additional expenses in maintenance and improvement of our storage infrastructure, which may adversely affect our profit margin.

31. *We are dependent upon the experience and skill of our Promoters, management team and key managerial personnel and senior management personnel. Loss of our Promoters or our inability to attract or retain such qualified personnel, this could adversely affect our business, results of operations and financial condition.*

We believe that our Promoters have played a key role in the development of our business and we benefit from their industry knowledge and expertise, vision and leadership. Our Promoters have strong operational knowledge, good relationships with our customers and a successful track record of executing infrastructure projects. In addition to our Promoters, our key management and senior management team includes qualified, experienced and skilled professionals who possess requisite experience across various division of our business. We believe the stability of our management team and the industry experience brought on by our Promoters enables us to continue to take advantage of future market opportunities. We believe that our senior management team is well qualified to leverage our market position with their collective experience and knowledge in the capital goods industry, to execute our business strategies and drive our future growth.

Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled professionals. The loss of the services of our key personnel or our inability to recruit or train sufficient number of experienced personnel or our inability to manage the attrition levels in different employee categories may have an adverse effect on our financial results and business prospects.

If we are unable to hire additional qualified personnel or retain them, our ability to expand our business may be impacted. Our Company's profitability, financial condition and results of operations may also be impacted due to lack of experienced and talented workforce. As we intend to continue to expand our operations and develop new projects, we will be required to continue to attract and retain experienced personnel. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting suitable employees. There can be no assurance that our competitors will not offer better compensation incentives and other perquisites to such skilled personnel.

32. *We have not entered into any formal arrangement for technical support service for maintenance and smooth functioning of our equipments and machineries, which may affect our performance.*

Our manufacturing processes involve daily use of technical equipment's and machineries. They require periodic maintenance checks and technical support in an event of technical breakdown or malfunctioning. Our Company has not entered into any formal technical support service agreements with a competent third-party vendor. However, Company has an in-house team for maintenance and advancement of machinery. Our failure to reduce the downtime in as such events occur may adversely affect our productivity, business and results of operations.

33. *We have in past entered into related party transactions and we may continue to do so in the future (As can moved up)*

As of March 31, 2024, we have entered into a few related party transactions, such as transaction involving Director's remuneration and supply of products to our Group Company. In financial year 2024, our related party transactions include supply of goods to our Group companies – Fabtech Technologies Limited, Fabsafe Technologies Private Limited and Fabtech Technologies International Private Limited. We also purchased raw materials and other consumables from our related parties, viz. Fabsafe Technologies Private Limited and FABL International Technologies LLP.

In addition, we have also entered into transactions with other related parties in the past. We confirm that the transactions with Related Parties entered into by our Company in the preceding three years have been carried out at arms' length price and are not prejudicial to the interest of our Company.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future. For further details, see "Summary of the Issue Document - Summary of Related Party Transactions" and "Restated Financial Statements" on page 24 and 184 of this Draft Red Herring Prospectus.

34. *We may be exposed to liabilities arising from defects during installation, which may adversely affect our business, financial condition, results of operations and prospects.*

Actual or claimed defects in product quality during the use of our panels for the creation of cleanrooms, could give rise to claims, liabilities, costs and expenses. Further, we may not be able to recover such increased costs from our customers in part, or at all, for any defects observed in the projects or damage caused to the project on account of the fault of our workers. We may further face slight delays in the estimated project completion schedule in respect of such projects on account of additional works required to be undertaken towards rectifying such installation faults, and we may have to appoint additional workforce and resources in order to complete the project within the pre-determined time period, which may result in increased expenditure for our Company, which we may not be able to pass on to our customers. While any of the aforementioned events could materially impact our projects or business operations, we cannot assure you that any claims in respect of the quality of our installation will not arise in the future and would not affect our business or financial condition. In the event any we are not able to address and rectify our quality defects, it may lead to termination of our contracts, blacklisting of our Company and may lead to litigations and therefore, could adversely affect our business operations and result of operations.

35. *Pricing pressure from customers may affect our gross margin, profitability and ability to increase our prices, which in turn may materially adversely affect our business, results of operations and financial condition.*

Pursuing cost-cutting measures while maintaining rigorous quality standards may lead to an erosion of our margins, which may have a material adverse effect on our business, results of operations and financial condition. In addition, estimating amounts of such price reductions is subject to risk and uncertainties, as any price reduction is the result of negotiations and other factors. Accordingly, we must be able to reduce our operating costs in order to maintain profitability. Such price reductions may affect our sales and profit margins. If we are unable to offset customer price reductions in the future through improved operating efficiencies, new manufacturing processes, sourcing alternatives and other cost reduction initiatives, our business, results of operations and financial condition may be materially adversely affected. To maintain our profit margins, we seek price reductions from our suppliers, improved production processes to increase manufacturing efficiency and streamlined product designs

to reduce costs. There can be no assurance that we will be able to avoid future customer price reductions or offset the impact of any such price reductions through continued technology improvements, improved operational efficiencies, cost-effective sourcing alternatives, new manufacturing processes, cost reductions or other productivity initiatives, which may adversely affect our business, financial condition and results of operations.

36. ***We are dependent on credit facilities from banks, to fund our business operations. Any event where we are unable to obtain, renew or enhance credit limits from the banks, or repay such facilities obtained, would affect our financial position and credit standing.***

We rely on various credit facilities from banks to finance our operations, including working capital requirements. The inability to renew existing credit facilities, obtain additional financing, or enhance current credit facilities due to changes in banking regulations, adverse economic conditions, or our financial performance could adversely affect our cash flow, operations, and overall financial condition. A failure to secure necessary financing could constrain our ability to meet our financial obligations, fund future growth initiatives, and manage day-to-day operations effectively.

As on March 31, 2024, our total indebtedness (short-term as well as long-term) stood at ₹ 574.74 lakhs. We may need to avail further loans in the future and if we are unable to do so, or unable to repay the loans, it could potentially impact on our financial stability, operational capabilities and credit standing. For further information, please refer section titled *Financial Indebtedness*” on page 225 of this Draft Red Herring Prospectus.

37. ***Certain sections of this Draft Red Herring Prospectus disclose information from the industry report which has been commissioned and paid for by us exclusively in connection with the Issue and any reliance on such information for making an investment decision in the Issue is subject to inherent risk.***

We have availed the services of an independent third-party research agency, CARE Analytics Advisory Private Limited (“CARE”) appointed by us to prepare an industry report on July 24, 2024 (“**CARE Report**”), that has been exclusively commissioned and paid for by us, for purposes of inclusion in this Draft Red Herring Prospectus. The Industry Report is available on the website of our Company at www.fabtechcleanroom.com. Our Company, our Promoters and our Directors are not related to CARE. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Further, the Industry Report is not a recommendation to invest/ disinvest in any company covered in the Industry Report. Accordingly, prospective investors should not place undue reliance on, or base their investment decision solely on this information.

You should consult your own advisors and undertake an independent assessment of information in this Draft Red Herring Prospectus based on, or derived from, the Industry Report before making any investment decision regarding the Issue. For further details, kindly refer “*Industry Overview*” on page 104 of this Draft Red Herring Prospectus.

38. ***Wage pressures and increases in operating costs in India may prevent us from sustaining our competitive advantage and may reduce our profit margins.***

Wage and operating expenses increase in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. Wages in India are increasing at a faster rate

than in the developed economies, which could result in increased employee benefit expenses. We may need to continue to increase the levels of our employee compensation to remain competitive and manage attrition. Further, The Code on Wages, 2019 received the assent of the President of India on August 8, 2019 and proposes to subsume four existing laws namely, the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. The provisions of this code will be brought into force on a date to be notified by the Central Government. This may impact our wage structure and may lead to increased wage payments to our employees. Additionally, the cost of operating expenses is also increasing as India continues to grow. Compensation increases manifest a hike in operational costs which may result in a material adverse effect on our business and financial condition and result of operations.

39. *We have taken guarantees from Promoters in relation to debt facilities provided to us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities*

Our individual promoters and their relatives viz., Aarif Ahsan Khan, Aatif Ahsan Khan and Hemant Mohan Anavkar have provided personal and/or corporate guarantees towards certain financing facilities taken from our Bankers by our Company. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information, please see the chapter titled '*Financial Indebtedness*' on page 225 of this Draft Red Herring Prospectus.

40. *Some of our loan agreements contain restrictive covenants which may adversely affect our business results of operations and financial condition.*

As on March 31, 2024, our indebtedness (long term and short term) was ₹ 574.74 lakhs. The terms of sanction of such borrowings and certain terms of the financing agreements include covenants, such as requirement to maintain certain security, margins, financial ratios and other restrictive covenants relating to issuance of new shares, changes in capital structure, making material changes to constitutional documents, implementing any expansion scheme, incurring further indebtedness, encumbrances on, or disposal of, assets and paying dividends. There can be no assurance that maintaining or adhering to such covenants will not hinder business development and growth. There can be no assurance that we will be able to comply with these financial or other covenants, or that we will be able to obtain the consents necessary to proceed with the actions which we believe are necessary to operate and grow our business, which may in turn have a material adverse effect on our business and operations. We cannot assure you that we have complied with all such restrictive covenants in a timely manner, or at all, or that we will be able to comply with all such restrictive covenants in the future. Further, during any period in which we are in default, we may not be able to raise, or may face difficulties raising, further financing. For details, see "*Financial Indebtedness*" on page 225 of this Draft Red Herring Prospectus

41. *Our operations are subject to environmental, health and safety laws and regulations*

We are required to comply with various laws and regulations relating to the environment, health and safety. Our manufacturing operations are subject to local environmental laws and regulations. We are also required to have license from state pollution control board and abide by the rules enforced by the pollution control board. There can be no assurance that compliance with such environmental laws and regulations will not result in a curtailment of operations, or a material increase in the costs of operations, or otherwise have a material adverse effect on the financial condition and results of our operations. For further details, please see "*Key Regulations and Policies*" on page 146 of this Draft Red Herring Prospectus. While as of the date of this Draft Red Herring Prospectus, we are not subject to any environmental legal proceedings, we may be impleaded in such legal proceedings in the course of our business. Such legal proceedings could divert management time and attention and consume financial resources in defense or prosecution of such legal proceedings or cause delays in the construction, development or commencement of operations of our projects. No assurance can be given that we will be

successful in all, or any, of such proceedings.

42. *Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect business prospects, results of operations and financial condition.*

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes, and improper use of confidential information. While we have not faced any such instances of material nature in the last three (3) financial years, it may not always be possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which may result in write-off of such amounts.

43. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own a majority of the Equity Shares of our Company. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our AoA. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

44. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 183 of this Draft Red Herring Prospectus.

45. *The average cost of acquisition of Equity Shares by our Promoters is lower than the floor price.*

Our Promoters’ average cost of acquisition of Equity Shares in our Company is lower than the Floor Price of the Price Band as may be decided by the Company in consultation with the Book Running Lead Manager. The average cost of acquisition of Equity Shares acquired by our Promoters is set out below:

Promoter	Average cost of acquisition per Equity Share (in ₹)
Aasif Ahsan Khan	0.53
Aarif Ahsan Khan	Nil
Hemant Mohan Anavkar	Nil

Promoter	Average cost of acquisition per Equity Share (in ₹)
Manisha Hemant Anavkar # Negligible as value is less than 0.01	Negligible#

For more details regarding weighted average cost of acquisition of Equity Shares by our Promoters and buildup of Equity Shares by our Promoters in our Company, see “*Capital Structure*” on page 74 of this Draft Red Herring Prospectus.

46. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

Our Company has no experience as a public listed company or with the increased scrutiny of its affairs by shareholders, regulators and the public at large that is associated with being a public listed company. As a public company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted public company. Our Company will also be subject to the provisions of the listing related compliances which require us to file unaudited financial results on a quarterly basis. In order to meet our Company’s financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

47. *If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.*

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our internal audit functions make an evaluation of the adequacy and effectiveness of internal systems on an ongoing basis so that our operations adhere to our policies, compliance requirements and internal guidelines. We periodically test and update our internal processes and systems and there have been no past material instances of failure to maintain effective internal controls and compliance system. However, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances.

We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting so that we produce reliable financial reports and prevent financial fraud. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. Maintaining such internal controls requires human diligence and compliance and is therefore subject to lapses in judgment and failures that result from human error. Any lapses in judgment or failures that result from human error can affect the accuracy of our financial reporting, resulting in a loss of investor confidence and a decline in the price of our Equity Shares.

Further, our operations are subject to anti-corruption laws and regulations. These laws generally prohibit us and our employees and intermediaries from bribing, being bribed or making other prohibited payments to government officials or other persons to obtain or retain business or gain some other business advantage. We participate in collaborations and relationships with third parties whose actions could potentially subject us to liability under these laws or other local anti-corruption laws. If we are not in compliance with applicable anti-corruption laws, we may be subject to criminal and civil penalties, disgorgement and other sanctions and remedial measures, and legal expenses, which could have an adverse impact on our business, financial condition and results of operations. Likewise, any investigation of any potential violations of anti-corruption laws by the relevant authorities could also have an adverse impact on our business and reputation.

48. ***We may not be successful in implementing our business strategies and such failures may materially and adversely affect our business, prospects, financial condition and results of operations.***

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

49. ***Our Company's logo is not registered as on date of Draft Red Herring Prospectus. We may be unable to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third-party intellectual property rights.***

As on date of Draft Red Herring Prospectus, our Company uses the logo *Fabtech* under the Trademarks Act, 1999, our logo is owned by, Fabtech International Private Limited (“FIPL”), and therefore, we do not have the statutory protections of a registered logo. We have obtained a 'No Objection Certificate' from FIPL to use the trademark, but this permission could be revoked. Additionally, we cannot guarantee that third parties will not infringe on our intellectual property, potentially harming our business prospects, reputation, and goodwill. Unauthorized use may go undetected, and our efforts to protect our intellectual property may be insufficient, leading to a decline in our business value and negatively impacting our operations. We may need to engage in litigation to determine the validity of claims and the extent of others' proprietary rights. Further, we have made application for the registration of the trademark in name of our Company, however, such applications are currently pending before the authorities. Such legal proceedings could be time-consuming, expensive, and their outcomes are uncertain. Please refer to chapter “Government Approvals- Intellectual Property” on page 239 of this Draft Red Herring Prospectus.

50. ***We operate in a competitive business environment, both globally and domestically. Competition from existing players and new entrants and consequent pricing pressures may adversely affect our business, financial condition and results of operations.***

We operate in a competitive business environment. Growing competition in the domestic and / or international markets may subject us to pricing pressures and require us to reduce the prices of our products in order to retain or attract customers, which may have a material adverse effect on our revenues and margins. In the event our competitors harness better process technology or improved process yield or are able to source raw materials at more competitive prices, and are therefore able to create new products or substitutes for our products at competitive prices, we may not be able to maintain our growth rate and revenues and profitability may decline. Some of our competitors may be increasing their capacities and targeting the same products or applications as us. Some of our competitors are global companies that have larger technical and financial resources and broad customer bases needed to bring competitive solutions to the market. Such companies may use these advantages to offer solutions that are perceived to be as effective as ours at a lower price. There can be no assurance that we can continue to effectively compete with our competitors in the future, and failure to compete effectively may have an adverse effect on our business, financial condition and results of operations. For details concerning our competition, kindly refer the chapter titled “Our Business” beginning on page 133 of this Draft Red Herring Prospectus.

EXTERNAL RISK FACTORS

51. ***Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.***

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business.

Incidents such as the terrorist attacks and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well as the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Share.

52. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized in excess will be subject to long term capital gains tax in India at the specified rates in case STT was paid on the sale transaction. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of Securities Transaction Tax ("STT"), on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

53. *Changing regulations in India could lead to new compliance requirements that are uncertain*

The regulatory environment in which we operate is evolving and is subject to change. The Government of India may implement new laws or other regulations that could affect our industry, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. Any adverse regulatory change in this regard could lead to fluctuation of prices of raw materials and thereby increase our operational cost. Additionally, our loans are subject to specific conditions imposed by the Ministry of Commerce and Industry, Government of India and the RBI. In the event of any adverse regulatory development or in the event that we are otherwise not able to secure such loans, we may not be able to benefit from such low interest rates or the ability to fix the price within the specified time frame at the same price at which we sell our products to our customers. Further, as GST is implemented, there can be no assurance that we will not be required to comply with additional procedures or obtain additional approvals and licenses from the government and other regulatory bodies or that they will not impose onerous requirements and conditions on our operations. With the implementation of GST, we are obligated to pass on any benefits accruing to us as result of the transition to GST to the consumer thereby limiting our benefits. In order for us to utilise input credit under GST, the entire value chain has to be GST compliant, including us. While we are and will continue to adhere to the GST rules and regulations, there can be no assurance that our suppliers and dealers will do so. Any such failure may result in increased cost on account of non-compliance with the GST and may adversely affect our business and results of operations.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of

administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

54. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

We are dependent on domestic, regional and global economic and market conditions, where some of our revenue from operations is generated. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic and regional economies. Economic growth in the countries in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates. Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

55. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

ISSUE RELATED RISKS

56. *The ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors.*

The amount of future dividend payments, if any, will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors. The ability to pay dividends may also be restricted under certain financing arrangements that the company has and may enter into. There can be no assurance the company shall have distributable funds in the future.

57. *After this Issue, the price of the Equity Shares may be volatile, or an active trading market for the Equity Shares may not develop.*

Prior to this Issue, there has been no public market for the Equity Shares. The trading price of the Equity Shares may fluctuate after this Issue due to a variety of factors, including the results of operations and the performance of our business, competitive conditions, general economic, political and social factors, volatility in the Indian and global securities markets, the performance of the Indian economy and significant developments in India's the financial year regime. There can be no assurance that an active

trading market for the Equity Shares will develop or be sustained after this Issue, or that the price at which the Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue.

58. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and widespread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian company than as a shareholder of an entity in another jurisdiction

59. *Future issuances or sales of the equity shares could significantly affect the trading price of the Equity Shares and the grant of stock options under our employee stock option schemes may result in a charge to our profit and loss account and adversely impact our results of operations.*

Any future issuance of equity shares by us, the disposal of our equity shares by any of our major shareholders or our issuance of stock options under our existing or future employee stock options schemes (—ESOPs) could dilute your shareholding, adversely affect the trading price of our Equity Shares or impact our ability to raise capital through another offering of securities. In addition, any perception by investors that such issuance or sales of equity shares by our major shareholders may occur may significantly affect the trading price of our Equity Shares.

60. *There are restrictions on daily movements in the price of Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Subsequent to listing, we will be subject to a daily circuit breaker imposed on listed companies by all stock exchanges in India which does not allow transactions beyond certain volatility in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on the Indian stock exchanges. The percentage limit on our circuit breaker is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The Indian stock exchanges are not required to inform us of the percentage limit of the circuit breaker from time to time, and may change it without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the price of Equity Shares. As a result of this circuit breaker, there can be no assurance regarding the ability of shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

61. *There is no guarantee that the Equity Shares will be listed on the Stock Exchange in a timely manner or at all, and any trading closures at Stock Exchange may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted until after those Equity Shares have been issued and allotted. Approval for listing and trading requires all other relevant documents authorizing the issuing of the Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the Stock Exchange. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares.

62. *A third party could be prevented from acquiring control of us because of the anti-takeover provisions under Indian law.*

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the takeover regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether

individually or acting in concert with others. Although these provisions have been formulated to ensure that the interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Indian takeover regulations.

- 63. *You will not be able to sell immediately on an Indian stock exchange any of the Equity Shares you purchase in the Issue.***

The Equity Shares will be listed on the SME platform of BSE Limited. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. Investors' book entry, or demat accounts with depository participants in India are expected to be credited within two working Days of the date on which the basis of allotment is approved by Designated Stock Exchange. Thereafter, upon receipt of final approval from the Designated Stock Exchange, trading in the Equity Shares is expected to commence within seven Working Days of the date on which the basis of allotment is approved by the Designated Stock Exchange. We cannot assure you that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence within the time periods specified above.

- 64. *You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.***

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realized on the sale of shares held for more than 36 months to an Indian resident, which are sold other than on a recognized stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of equity shares held for a period of 36 months or less which are sold other than on a recognized stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at relatively higher rate as compared to the transaction where STT has been paid in India.

- 65. *QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Issue Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While we are required to complete Allotment, listing and commencement of trading pursuant to the Issue within three (3) Working Days from the Bid/ Issue Closing Date, events affecting the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Issue or may cause the trading price of our Equity Shares to decline on listing.

- 66. *The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.***

The Issue Price may not be indicative of the market price for the Equity Shares after the Issue. The market

price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. There can be no assurances that investors who are allotted Equity Shares through the Issue will be able to resell their Equity Shares at or above the Issue Price.

67. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between nonresidents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI, or any other government agency, can be obtained on any particular terms or at all.

68. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

69. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

70. *Our Company's revenues and profits are difficult to predict and can vary significantly from quarter to quarter. This could cause our share price to fluctuate.*

Our Company's quarterly operating results may fluctuate from quarter to quarter depending upon various internal and external factors. Therefore, we believe that period-to-period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as an indication of our Company's future performance. It is possible that in the future some of our Company's quarterly results of operations may be below the expectations of market analysts and our investors, which could lead to a significant decline of the share price of the Equity Shares.

71. *Our assets and operations are located in India, and we are subject to regulatory, economic and political uncertainties in India and a significant change in the central and state governments' economic liberalization and deregulation policies could disrupt our business.*

Under the foreign exchange regulations currently in force in India, transfers of shares between nonresidents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then prior approval of the RBI will be required.

Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI, or any other government agency, can be obtained on any particular terms or at all.

72. *Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association and applicable law govern our corporate affairs. Legal principles related to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company incorporated under the laws of another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Consequently, investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation incorporated under the laws of another jurisdiction.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “*Issue Procedure*” on page 264 of this Draft Red Herring Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Draft Red Herring Prospectus and in the Bid cum Application Form;

1. Economic Outlook

1.1. Global Economy

Global growth, which stood at 3.2% in CY23, is anticipated to maintain this rate throughout CY24 and CY25. The CY24 forecast has been adjusted upwards by 0.1 percentage point compared to the January 2024 World Economic Outlook (WEO) Update, and by 0.3 percentage point compared to the October 2023 WEO. Despite this, the expansion remains historically low, attributed to factors including sustained high borrowing costs, reduced fiscal support, lingering effects of the COVID-19 pandemic and Russia’s Ukraine invasion, Iran–Israel Cold War, sluggish productivity growth, and heightened geo-economic fragmentation.

Emerging Market and Developing Economies Group

Emerging market and developing economies are forecasted to maintain stable growth at 4.2% in both CY24 and CY25. While there's a slowdown expected in emerging and developing Asia, this is counterbalanced by increasing growth in economies across the Middle East, Central Asia, and sub-Saharan Africa. Low-income developing countries are anticipated to experience a gradual growth uptick, starting at 4.0% in CY23 and climbing to 4.7% in CY24 and 5.2% in CY25, as certain constraints on near-term growth begin to ease.

The economic forecast for emerging and developing Asia reveals a modest deceleration in growth, with projections indicating a decline from 5.6% in CY23 to 5.2% in CY24 and 4.9% in CY25. **China's** trajectory reflects a slowdown, transitioning from 5.2% in CY23 to 4.6% in CY24 and 4.1% in CY25 due to fading post-pandemic stimuli and ongoing property sector challenges. In contrast, **India's** growth remains robust, with anticipated rates of 6.8% in CY24 and 6.5% in CY25, bolstered by resilient domestic demand and a burgeoning working-age populace.

Despite the turmoil in the last 2-3 years, India bears good tidings to become a USD 5 trillion economy by CY27. According to the IMF dataset on Gross Domestic Product (GDP) at current prices, the nominal GDP has been estimated to be at USD 3.6 trillion for CY23 and is projected to reach USD 5.3 trillion by CY27 and USD 6.4 trillion by CY29. India's expected GDP growth rate for coming years is almost double compared to the world economy.

Besides, India stands out as the fastest-growing economy among the major economies. The country is expected to grow at more than 6.5% in the period of CY24-CY29, outshining China's growth rate. By CY27, the Indian economy is estimated to emerge as the third-largest economy globally, hopping over Japan and Germany. Currently, it is the third-largest economy globally in terms of Purchasing Power Parity (PPP) with a ~7.6% share in the global economy, with China [~18.7%] on the top followed by the United States [~15.6%]. Purchasing Power Parity is an economic performance indicator denoting the relative price of an average basket of goods and services that a household needs for livelihood in each country.

Despite Covid-19's impact, high inflationary environment and interest rates globally, and the geopolitical tensions in Europe, India has been a major contributor to world economic growth. India is increasingly becoming an open economy as well through growing foreign trade. Despite the global inflation and uncertainties, Indian economy continues to show resilience. This resilience is mainly supported stable financial sector backed by well-capitalized banks and export of services in trade balance. With this, the growth of Indian economy is expected to fare better than other economies majorly on account of strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners.

1.2. Indian Economic Outlook

1.2.1. GDP Growth and Outlook

Resilience to External Shocks remains Critical for Near-Term Outlook

India's real GDP grew by 7.0% in FY23 and stood at ~Rs. 161 trillion, as per the First Revised Estimate, despite the pandemic in previous years and geopolitical Russia-Ukraine spillovers. In Q1FY24, the economic growth accelerated to 8.2%. The manufacturing sector maintained an encouraging pace of growth, given the favorable demand conditions and lower input prices. The growth was supplemented by a supportive base alongside robust services and construction activities. This momentum remained in the range in the Q2FY24 with GDP growth at 8.1%, mainly supported by acceleration in investments. However, private consumption growth was muted due to weak rural demand and some moderation in urban demand amid elevated inflationary pressures in Q2FY24. The GDP growth number improved for Q3FY24 at 8.6%.

GDP Growth Outlook

- Driven by fixed investment and improving global environment, domestic economic activity continues to expand. The provisional estimates (SAE) placed real GDP growth at 8.2% for FY24.
- Industrial activity led by manufacturing continues its momentum on the back of strengthening domestic demand. The eight core industries also show healthy growth. Moreover, services sector shows exhibit broad based buoyancy. The purchasing managers' index for both manufacturing and services continues to exhibit a sustained and healthy expansion.

Persistent geopolitical tensions and volatility in international commodity prices do pose risk to this outlook. Based on these considerations, the RBI, in its June 2024 monetary policy, has projected real GDP growth at 7.2% y-o-y for FY25.

Table 2: RBI's GDP Growth Outlook (Y-o-Y %)

7.2%	7.3%	7.2%	7.3%	7.2%

Note: P-Projected; Source: Reserve Bank of India

1.2.2. Concluding Remarks

The major headwinds to global economic growth are escalating geopolitical tensions, volatile global commodity prices, and a shortage of key inputs. Despite the global economic growth uncertainties, the Indian economy is relatively better placed in terms of GDP growth compared to other emerging economies. According to IMF's forecast, it is expected to be 6.8% in CY24 compared to the world GDP growth projection of 3.2%. The bright spots for the economy are continued healthy domestic demand, support from the government towards capital expenditure, moderating inflation, investments in technology and improving business confidence.

Likewise, several high-frequency growth indicators including the purchasing managers index, auto sales, bank credit, and GST collections have shown improvement in FY23. Moreover, normalizing the employment situation after the opening up of the economy is expected to improve and provide support to consumption expenditure.

The India Meteorological Department (IMD) has made a significant forecast, predicting "above normal" rainfall for the upcoming monsoon season, marking the first time in a decade that such an optimistic outlook has been declared at the initial stage. This forecast, coupled with an anticipated eight-year-high rainfall, offers promising prospects for the agrarian economy and inflation. The weakening of El Nino to a neutral stage in the early monsoon season, followed by the likely development of La Nina conditions in the later part, adds to the positive outlook. El Nino typically leads to suppressed rainfall during the

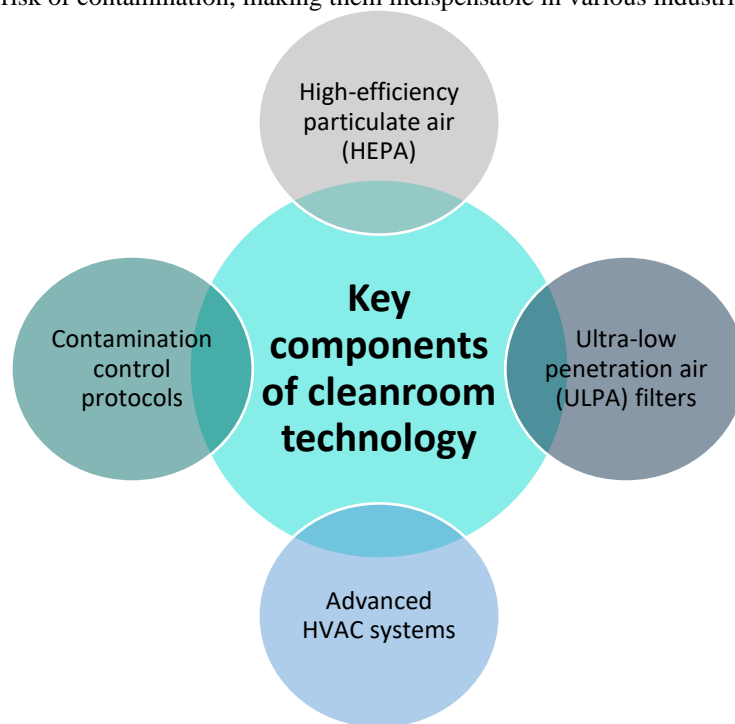

Indian monsoon, whereas La Nina tends to enhance rainfall activity. IMD's more optimistic prediction is expected to bolster agricultural growth and incomes, while also potentially alleviating stubborn food inflation pressures.

At the same time, public investment is expected to exhibit healthy growth as the government has allocated a strong capital expenditure of about Rs. 11.11 lakh crores for FY25. The private sector's intent to invest is also showing improvement as per the data announced on new project investments and resilience shown by the import of capital goods. Additionally, improvement in rural demand owing to good rabi crop and an expected normal monsoon will aid the investment cycle in gaining further traction.

2. Cleanroom Technologies Industry in India

2.1. Overview

Cleanroom technology refers to specialized engineering and production processes aimed at creating controlled environments known as cleanrooms. These environments minimize airborne particles, contaminants, and pollutants to extremely low levels. Cleanroom technology involves a combination of equipment, materials, and procedures designed to maintain strict cleanliness standards crucial for industries requiring high levels of sterility and precision, such as pharmaceuticals, biotechnology, electronics, and healthcare. Cleanrooms are essential for ensuring product quality and safety by minimizing the risk of contamination, making them indispensable in various industrial sectors.

The Indian cleanroom technologies market is witnessing robust growth, valued at USD 277.4 Million in 2023 and projected to reach USD 484.2 Million by 2030, with a CAGR of 8.3% from 2023 to 2030. The end users of the Indian Cleanroom Technologies market include Industries such as Pharmaceutical, Semiconductor and Electronic, Biotechnology, Foods and Beverage, Hospital and Healthcare, and others (including Automotive, Plastic, Optical, etc). In pharmaceuticals, cleanrooms ensure sterile environments, crucial for drug production and compliance with regulatory standards. Semiconductor and electronics industries rely on cleanrooms to prevent contamination and ensure product reliability. Biotechnology facilities utilize cleanrooms for sterile conditions in research and bioprocessing. In food processing, cleanrooms prevent microbial contamination and ensure product safety. Healthcare settings employ cleanrooms to minimize infections during medical procedures. Additionally, cleanroom technologies are vital in automotive, plastic, and optical industries to maintain product quality and meet cleanliness requirements.

The factors driving market growth include expanding industries, stringent regulations, increased R&D investments, and the COVID-19 pandemic's emphasis on clean environments in healthcare. Technological advancements like modular cleanrooms and innovative filtration systems offer more efficient solutions, although challenges like high initial costs and regulatory compliance remain. Despite obstacles, the market is expected to continue growing, supported by industrialization, contamination control awareness, and the pursuit of stringent quality standards. The segmentation of the Indian Cleanroom Technologies market extends beyond end users to include differentiation based on Material and Design/Type. Cleanrooms come in various types, including Standard/Drywall Cleanroom, Modular Cleanroom, Mobile Cleanroom, Soft Wall Cleanroom, and Terminal Boxes/Pass-through Cabinets. These cleanrooms are constructed using a range of materials, such as steel, stainless steel, epoxy resin, and high-density polyethylene (HDPE).

2.2. Market Size of the Industry by Value

The Indian Cleanroom Technologies market size, by value, has been on an upward trend since 2019. It grew in value from USD 213.3 million in 2019 to USD 277.4 million in 2023 at a CAGR of 6.8%. This robust growth can be attributed to the increasing demand across various industries like pharmaceuticals, biotechnology, healthcare, and electronics. Additionally, stringent regulations and quality standards are driving adoption, while investments in R&D aim to enhance manufacturing processes and meet global benchmarks. The COVID-19 pandemic also emphasized the importance of clean environments, boosting demand, especially in healthcare and laboratories. Technological advancements, such as modular cleanrooms and innovative filtration systems, offering efficient solutions are further driving this market growth.

2.2.1. Market Size by Construction Material

Based on materials used in construction of cleanrooms, the Indian Cleanroom Technologies market can be divided into four segments: Polyurethane Foam Panels (PUF), Epoxy Resin, Stainless Steel, Steel and Rockwool.

- **Polyurethane Foam Panels (PUF):** PUF is favored for cleanroom walls and ceilings because they are lightweight, provide effective thermal insulation, and maintain strong structural integrity. Their smooth surface finish and resistance to moisture help uphold controlled environments. These panels are commonly chosen for modular cleanroom setups due to their easy installation and design versatility.

3.3. Key Demand Drivers

- Increasing infrastructural development:** The increasing number of infrastructure development plans are significantly driving growth in the Indian HVAC market. As cities are expanding, new commercial complexes, residential towers, and industrial facilities are being constructed, thus surging demand for climate control systems to maintain comfortable indoor temperatures and air quality for occupants. Moreover, the modernization of existing infrastructure, including airports, railway stations, and hospitals, also fuels the demand for advanced HVAC systems. Upgrading these facilities often involves integrating modern HVAC solutions that enhance occupant comfort and improve energy efficiency, addressing the growing concerns about energy consumption in India. Additionally, the focus on cold chain infrastructure for food storage highlights the necessity for reliable refrigeration systems, benefiting India's agricultural sector.
- Government Initiatives:** Government initiatives regarding infrastructure development are further driving demand for HVAC systems. The Regional Connectivity Scheme UDAN, led by the Ministry of Civil Aviation, aims to enhance air links to smaller towns in India, inaugurating 58 airports in its first five years. With a notable budget increase in 2023–24, totaling INR 1,244.07 Cr, the government underscores its commitment to UDAN's expansion, including reviving 22 airports and revitalizing 50 more. This surge in airport projects, under the National Infrastructure Pipeline (NIP), emphasizes Public-Private Partnerships (PPP) as key drivers for infrastructure development, promising growth in the HVAC market. Another such initiative is the "Smart Cities Mission" which further boosts demand for energy-efficient HVAC solutions, promoting smart technologies like occupancy-based air conditioning adjustments.
- Rising focus towards energy-efficient systems:** The increasing emphasis on energy-efficient HVAC systems is driven by rising energy costs, environmental concerns, and government regulations. Both commercial and residential sectors prioritize energy efficiency to reduce costs and carbon footprints. Technologies like inverter-based air conditioners, Variable Speed Drives (VSDs), and smart thermostats adjust system output in real-time, minimizing energy wastage. Government policies, such as BEE's star rating system and initiatives like the Smart Cities Mission and ECBC, promote adoption of energy-efficient technologies. Commercial entities invest in building management systems to optimize energy usage. These trends lead to significant energy savings, environmental benefits, and support India's sustainable development and energy security goals.

- **Growing awareness of Indoor Air Quality (IAQ):** The rising awareness of indoor air quality (IAQ) is driving the demand for advanced HVAC systems capable of managing and enhancing IAQ in various settings. Particularly in urban areas with high pollution levels, clean indoor air is a priority for both residential and commercial spaces. This has led to increased adoption of HVAC systems with advanced filtration and purification technologies to remove pollutants and allergens. Sectors like healthcare, education, and offices are investing in IAQ-focused HVAC solutions to protect occupants' health. The COVID-19 pandemic has further emphasized the importance of IAQ, accelerating demand for systems with enhanced ventilation, UV-C disinfection, and HEPA filters. Manufacturers like Carrier, Blue Star, and Daikin are innovating to meet these demands with multi-stage filtration and real-time air quality monitoring. With health and well-being becoming central concerns, IAQ is shaping consumer preferences and industry trends, indicating significant growth potential for the HVAC market.
- **Increasing focus on green buildings:** Green building certifications like LEED prioritize energy efficiency and sustainability, spurring demand for advanced HVAC systems in India. Companies such as Voltas and Blue Star employ technologies like Variable Speed Drives (VSDs) to optimize energy consumption. Daikin offers heat pumps using renewable energy sources like geothermal power to align with green building principles. Specialized HVAC solutions are gaining traction, with companies like Johnson Controls and Siemens focusing on energy-efficient technologies and building management systems. Indoor air quality is a key concern, addressed by companies like Carrier and Honeywell with HEPA filters and dedicated ventilation systems. Innovation is thriving, with companies like Thermax developing radiant cooling systems and Sorbent Technologies focusing on desiccant dehumidification. Green buildings with efficient HVAC systems offer long-term benefits such as lower operating costs and reduced environmental impact, exemplified by projects like the ITC Green Centre in Gurgaon certified by USGBC LEED.
- **Rising demand in Tier-I and Tier-II cities:** As urbanization extends to smaller cities and towns in India, there's a growing demand for HVAC solutions in Tier-II and Tier-III urban areas. Infrastructure development and commercial expansion drive the need for comfortable indoor environments in commercial spaces like malls, hotels, and offices. Similarly, residential construction is on the rise, with developers integrating HVAC systems into projects to attract buyers seeking modern amenities. Manufacturers like Blue Star and Voltas are expanding their offerings and presence in these markets, tailoring solutions to local needs. Government initiatives like the Smart Cities Mission further accelerate investments in HVAC infrastructure in Tier-II and Tier-III cities.

3.4. Challenges

- **Lack of access to credit for public and private investments:** In India, access to credit poses significant challenges for infrastructure development, including HVAC projects. Macroeconomic conditions and government policies influence credit availability, impacting banks' willingness to fund large-scale projects. Risk assessment criteria, collateral availability, and borrower creditworthiness further affect lending decisions. Concerns over non-performing assets (NPAs) in the banking sector can also limit financing options. Additionally, the high upfront costs and longer payback periods of HVAC projects deter some investors and lenders. Addressing these challenges requires supportive policies, financial incentives, and efforts to streamline financing processes to promote sustainable growth in the HVAC sector.
- **Competition from unorganized players:** Competition from unorganized players in the Indian HVAC market presents significant hurdles due to their informal operations and disregard for industry standards and regulations. These players often offer cheaper products and services, drawing price-sensitive customers and exerting pricing pressures on established HVAC firms. This dynamics undermines the market share and profitability of reputable companies that prioritize quality, reliability, and customer service. Moreover, the presence of unorganized players tarnishes the overall reputation of the HVAC industry, as instances of substandard

workmanship and inadequate support erode consumer trust. Furthermore, unorganized players typically do not invest in research and development or adopt innovative technologies to enhance energy efficiency and environmental sustainability. This technological disparity hampers the overall progress of the HVAC industry in India and limits the availability of advanced solutions for consumers.

- **Skilled workforce shortage:** A critical challenge in the Indian HVAC market is the scarcity of adequately trained technicians and engineers specialized in HVAC systems. The complexity of modern HVAC technologies demands skilled professionals proficient in installation, troubleshooting, and servicing. However, India faces a shortage of qualified HVAC personnel, leading to project delays and diminished service quality. This shortage also impedes the adoption of advanced HVAC solutions, such as variable refrigerant flow (VRF) systems and smart HVAC controls, which require specialized expertise. Additionally, the dearth of skilled technicians results in heightened maintenance costs and system downtime, as personnel may lack the proficiency to address complex issues promptly. The rapid growth of the construction and infrastructure sectors exacerbates this challenge, amplifying the demand for HVAC services and widening the skills gap further.
- **High maintenance and installation cost of HVAC systems:** Indian HVAC market faces a significant challenge due to the high maintenance and installation costs associated with HVAC systems, affecting both customers and industry players. For customers, the substantial initial investment required for purchasing and installing HVAC systems, especially in commercial and industrial settings, can be prohibitive. Ongoing maintenance expenses further add to the total cost of ownership. From the industry perspective, these high costs can deter potential customers and limit market penetration, especially in price-sensitive segments.
- **Geopolitical tensions:** Geopolitical tensions often disrupt the supply chain of HVAC components, affecting availability and increasing costs. With many components sourced internationally, conflicts or strained relations with major trading partners can lead to delays and higher expenses. Tariffs, trade restrictions, and embargoes further complicate procurement for Indian manufacturers. In response, the Indian HVAC market is prioritizing energy efficiency and sustainability to reduce dependency on imported materials and mitigate geopolitical instability's impact on energy prices. Government initiatives like star labeling and the Perform, Achieve and Trade (PAT) scheme promote efficient HVAC systems adoption. However, the recent geopolitical unrest has exacerbated input costs, with major raw materials prices rising by 18–63% y-o-y basis. Increased logistics costs due to rerouted shipments and enhanced security measures further inflate expenses, reducing the competitiveness of Indian air conditioners in the global market.

3.5. Industry Outlook

The Indian HVAC market, valued at USD 5.68 billion in 2023, is projected to soar to USD 31.85 billion by 2030, with a CAGR of 27.9% fuelled by increasing urbanization and the imperative for efficient climate control systems in residential, commercial, and industrial buildings. The market's offerings, segmented into equipment and services, are characterized by a strong demand for HVAC equipment like air conditioners, chillers, and ventilation systems, particularly in urban areas. The equipment segment is expected to dominate the market with a 71.1% market share in 2030, driven by urbanization, rising disposable incomes, and heightened awareness of indoor air quality. Among end-users, the commercial and residential segment are expected to dominate the market with market size of 52.6% (USD 16.7 billion) and 37.1% (USD 11.8 billion) respectively. This is going to be driven by the adoption of smart, energy efficient and sustainable HVAC systems in offices, retail spaces, households and healthcare facilities, spurred by the need for comfortable indoor environments, growing awareness about indoor air quality, and compliance with stringent regulations. Despite promising growth prospects, the industry grapples with challenges such as limited access to credit, competition from unorganized players, high maintenance and installation costs, and a shortage of skilled technicians. Addressing these challenges and leveraging drivers like increasing infrastructural development and rising demand in Tier-II and Tier-III cities will be critical for sustaining the India HVAC market's momentum and fostering its evolution.

Cleanroom

A cleanroom is a highly specialized space engineered to maintain an exceptionally low concentration of airborne particulates. Cleanrooms are controlled environments that are designed to be completely isolated from contaminants. They are commonly used in scientific research and industrial production that involves nanoscale processes, such as those found in pharmaceutical facilities, food processing plants, hospitals, dairies, chill freezers, veterinary centers, electronic industries, laboratories, and semiconductor manufacturing.

The primary purpose of a cleanroom is to ensure that everything from dust to airborne organisms or vaporized particles is kept away from the materials that are being handled inside it. To achieve this level of cleanliness, cleanrooms are classified based on the number of particles per cubic meter at a predetermined molecule measure.

The level of cleanliness required for a particular cleanroom will depend on the specific application.

Cleanrooms are essential in modern manufacturing and research environments, where even the smallest amount of contamination can have serious consequences. Therefore, it is critical to maintain optimal levels of cleanliness and to adhere to strict protocols for entering and exiting cleanrooms. By doing so, we can ensure that the materials and products produced in the cleanroom meet the highest quality standards and are free from contaminants.

The main components of cleanrooms are as follows:

- 1) Modular Cleanroom Panels System
- 2) Heat Ventilation Air Conditioning System
- 3) Electrification Works

1. Modular Cleanroom Panel System

Modular partition system comprises of wall panels, ceiling panels (walkable/non-walkable), doors, view panels, and covings etc., which are all designed as per the customer's requirements/ layout and installed at project sites. The cleanroom system delivers a reliable, cost effective and efficient solution for creating controlled environment that meets stringent cleanliness and safety standards.

A. Wall Panel

The implementation of wall panels has gained popularity in construction due to the smooth, monolithic, and easy-to-clean finish they provide. Wall panels are characterized by their radius corners and non-shedding, non-porous surfaces. They are constructed using Puff, Rockwool, and PIR infills and skins that are non-hygroscopic and corrosion resistant. These surfaces endure multiple rounds of cleaning and sanitization with various chemicals while resisting microbial and fungal growth.

Wall panels offer a reliable, durable, and hygienic solution for cleanroom projects. With their unique features, they provide a seamless and easy-to-maintain surface that is ideal for businesses, institutions, and other settings that require high levels of hygiene and cleanliness.

B. Walkable / Non-Walkable Ceiling Panels

The modular walkable/non-walkable ceiling panels are a type of flush ceiling system that enables end-users to conveniently access the area above the cleanroom for maintenance purposes. These panels have been designed to support mechanical services and provide a walk-on capability when required. Additionally, the HVAC and electrical services can be integrated flush in ceiling panels along with utility openings.

The modular walkable/non-walkable ceiling panels offer a versatile, efficient, and practical solution for

accessing the area above cleanrooms. Their modular design and flush ceiling system make them ideal for a range of applications, while their integration of HVAC and electrical services enhances their functionality.

C. Doors

Cleanroom doors have airtight seals and high cycle speeds to maintain a sterile environment. These doors are available in various finishes such as powder coating, galvanized iron, and stainless steel. They have smooth, easy-to-clean surfaces that are non-shedding, nonporous, and resistant to microbial growth. Additionally, cleanroom panels can accommodate almost any type of swing, sliding, or roll-door.

D. View Panel

The cleanroom boasts two flush window systems that are expertly crafted to blend in with other cleanroom components, providing a sleek and seamless surface that is completely free of ledges or joints. The windows are specially designed for optimal performance, as they can be hermetically sealed and coated with a desiccant finish. Additionally, the cleanroom provides a range of glazing options to choose from, ensuring that you can customize your space to meet your specific needs.

E. Covings

Radius coving is an excellent way to achieve a sleek and polished look in Cleanroom design. It enables you to create smooth transitions between walls, ceilings and corners, eliminating any unsightly seams that might detract from the overall aesthetic appeal. By incorporating radius coving into your design, you can ensure that your Cleanroom spaces look seamless and cohesive, lending a touch of sophistication and elegance to your overall Cleanroom System.

2. Heat Ventilation Air Conditioning System

Heating, ventilation, and air conditioning (HVAC) refers to a set of technologies that are used to ensure thermal comfort, and healthy indoor air quality. The design of HVAC systems is a sub-discipline of mechanical engineering, which is based on the principles of thermodynamics, fluid mechanics, and heat transfer. The goal of HVAC is to create a comfortable and safe indoor environment, by controlling the temperature, humidity, and purity of the air. HVAC is an essential part of the Cleanroom system of medium to large industrial, Ventilation (the "V" in HVAC) is the process of exchanging or replacing air in any space to provide high indoor air quality, which involves temperature control, oxygen replenishment, and removal of moisture, odors, smoke, heat, dust, airborne bacteria, carbon dioxide, and other gases. Ventilation removes unpleasant smell and excessive moisture, introduces outside air, keeps interior building air circulating, and prevents stagnation of the interior air. Methods for ventilating a building are divided into mechanical/forced and natural types. By ensuring proper ventilation, HVAC

systems can help create a healthy and safe indoor environment for everyone.

The input is then processed and displayed, and the relevant alarm, control, or modulation is set. The system is governed by an Integrated Building Management System that includes

online facility management that complies with 21 CFR Part 11.

The Electrical & BMS systems have undergone significant work to ensure their optimal functionality. This includes load analysis and calculations, BMS sensors to monitor and display relative humidity, temperature, and differential pressure, MV and LV distribution panels, HVAC atomization, fire detection and protection, CCTV and fire alarms systems, complete cabling works with earthing, internal electrification (lighting & power distribution) with BMS systems, and low voltage distribution (data & voice) with cables and cable trays.

In conclusion, the Cleanroom Electrical system is an invaluable feature of the facility that guarantees smooth operations and uninterrupted functionality. Its meticulous engineering and advanced features make it a reliable and efficient tool for ensuring the success of day-to-day operations.

MANUFACTURING PROCESS

Manufacturing of cleanroom panels requires raw materials such as Pre-Painted Galvanized Iron Steel coil (PPGI) or Pre-Coated Galvanized Iron coil (PCGI), Puff material, Rockwool, Panel profile, and hardware such as screws and rivets. In manufacturing metal sandwich panels Pre-Painted Galvanized Iron Steel (PPGI) or Pre-Coated Galvanized Iron coil (PCGI) sheet with a thickness of 0.6 to 0.8 mm put into a roll forming machine using a forklift. The machine will automatically shear and bend the coil according to programmed specifications, resulting in a tray of varying widths ranging from 385 mm to 1185 mm. The tray is then transported to the assembly area using a specially fabricated trolley. If Galvanized Iron coil is used for panel production, it must be powder coated in our powder coating setup and for non-standard panels, the tray is sheared to the required length and then bent on a bending machine.

Panel profiles of varying thickness (35, 50, 75, 80, and 100 mm) are cut to size using a pneumatically operated profile cutting machine. Four profiles are then used to create one panel with punching operations carried out to insert conduct and Polyurethane Foam commonly known as “Puff” machine injection nozzles as required by the design. The tray is combined with the profile to create a hollow panel and then manually riveted and fitted with PVC corner joints. The panels are then transported to a puff machine, where they are injected with puff to the specified density. Puff injection is carried out using a programmable machine that can store data for seven panels. Puff panels have properties like thermal insulation, fire resistance, acoustic insulation, structural integrity, moisture control and ease of maintenance.

The manufacturing process for rock wool panels is similar up to the assembly stage. In this case, however, rock wool is used as the inner core of the panel, with different densities used depending on the panel requirements. The rock wool is cut using a semi-automatic machine and manually placed on the metal tray using glue. Two PU-based compounds are used to glue the rock wool to the tray. After curing, the panels are cleaned, inspected, and placed on pallets for dispatch.

The Factories Act, 1948 read with the Gujarat Factories Rules, 1963

The primary central legislation governing the manufacturing sector is the Factories Act, 1948 (“**Factories Act**”). It applies to industries in which 10 or more workers are employed on any day of the preceding 12 months in any manufacturing process carried out with the aid of power, or where 20 or more than 20 workers are employed in the manufacturing process being carried out without the aid of power. Each state government has enacted rules in respect of the prior submission of plans and their approval for the establishment, registration and licensing of factories. The Factories Act requires that the occupier of a factory, i.e., the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors, must ensure the health, safety and welfare of all workers especially in respect of safety and proper maintenance of the factory, such that it does not pose health risks, the safe use, handling, storage and transport of factory articles and substances, provision of adequate instruction, training and supervision to ensure workers’ health and safety, cleanliness and safe working conditions. The Factories Act also provides for fines to be paid and imprisonment of the manager of the factory in case of any contravention of the provisions of the Factories Act. The Gujarat Factories Rules, 1963 (“**Gujarat Factories Rules**”) deals with various compliances to be undertaken by the occupier with respect to running a factory and also elaborates on occupational safety, health and welfare measures for workers employed in such factories.

(xv) Taxation:

Tax expense comprises current and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rate and tax laws enacted or substantially enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

(xvi) Provisions and contingent liabilities:

a. A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. b. Contingent liabilities are recognised only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(xix) Earnings per share (EPS):

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

Fabtech Technologies International Limited & Ors. Vs Pawankumar Ramakrishna Chunduru & Ors. - Criminal Revision Application No. 57 of 2022 IN Criminal Case No. SW/02 of 2022

Pawan Kumar Ramakrishna (“**Complainant**”) filed a Summons Warrant Case bearing number 2 of 2022 against Fabtech Technologies International Limited (“**Accused No. 4**”) and its directors before the Ld. Metropolitan Magistrate, 65th Andheri Court, Mumbai by under Sections 419, 420, 406, 465, 467, 471 and 34 read with section 120 (B) of Indian Penal Code (“**Complaint**”). It is the alleged case of the Complainant that in the year 2013-2014, the Complainant received certain work orders from Rajesh Dokaniya and Shirish Devendra Kejriwal (“**Accused No. 2 and Accused No. 3**”) pertaining to HVAC and Clean Room Panel for the pharmaceutical factory/ plant of Brucke Pharma Private Limited (“**Accused No. 1**”). It is further the case of the Complainant that he had deposited blank cheques with Accused No. 2 and 3. Thereafter it is alleged that, Aasif Ahsan Khan (“**Accused No. 5**”) and Amjad Arani (“**Accused No. 6**”) had sold supplied and delivered the goods directly to Accused No. 1 pursuant to which the Accused No. 2 and 3 handed over the said blank cheques to Accused No. 5 and 6. Thereafter, it is alleged that Accused No. 5 and 6 prepared bogus invoices, letters and undertaking to prove the liability and have misused the said security deposit cheques by filing complaint under section 138 of Negotiable Instruments Act, 1881. In view of these allegations, the Complainant has filed the present case under sections 419, 420, 406, 465, 467, 471 and 34 read with section 120 (B) of Indian Penal Code. Thereafter vide order dated December 30, 2021, the Ld. Metropolitan Magistrate, Court at Andheri, Mumbai issued summons against all the Accused. The case is currently pending before the Ld. Metropolitan Magistrate, Court at Andheri, Mumbai.

These allegations are categorically denied by Accused No. 4, 5 and 6. During the trial of the Complaint in Criminal Complaint No. 5774/SS/2017 and 5083/SS/2017, the Complainant and other directors of the company i.e., Centech Engineers Limited, neither raised defence nor even put-up any suggestion during the cross examination of the Complainant that the aforesaid cheques were falsely procured by Accused No. 4, 5 and 6 from Accused No. 2 and 3. In fact the two cases filed under the Negotiable Instruments

Act were decided against the Complainant and the Court was pleased to convict the said company i.e., Centech Engineers Limited. and being aggrieved by the order they have preferred appeals against the convictions which are pending.

Therefore, being aggrieved by the issuance of process vide order dated December 30, 2021, the Accused No. 4, 5 and 6 have preferred a Criminal Revision Application No. 57 of 2022 against the order dated December 30, 2021 which is pending before the Court of Sessions, Borivali Division, Goregaon, Mumbai and a stay has been granted by the Court on the order dated December 30, 2021. Aarif Ahsan Khan vs Jayesh Sanghrajka and Ors. – Civil Appeal 1526 of 2023 from Company Appeal No. (AT) (Insolvency) 1429 of 2023 and 1510 of 2023

Our Promoter, Aarif Ahsan Khan (“**Appellant**”) filed the present appeal under Section 61 of the Insolvency and Bankruptcy Code, 2016 (“**IBC**”) against Jayesh Sanghrajka (“**Respondent**”), the resolution professional of Ornate Spaces Private Limited (“**Corporate Debtor**”). The appeal was filed as a composite appeal against the order dated May 2, 2023 (“**First Impugned Order**”), only to the limited extent as against the Appellant, passed in Interlocutory Application No. 1927 of 2021 (“**PUFE Application**”) and order dated August 17, 2023 (“**Second Impugned Order**”) passed in Interlocutory Application No. 2679 of 2023 (“**Modification Application**”) passed by the Hon’ble National Company

Law Tribunal, Mumbai (Bench - IV) (“**NCLT**”) in corporate insolvency resolution process initiated in C.P. No. (IB) – 4469/2019 “*IDBI Trusteeship Services Limited vs. Ornate Spaces Private Limited*”. However, on the records of the Hon’ble NCLAT, there were two composite appeals, being Company Appeal (AT) (Insolvency) 1429 of 2023 (“**Appeal No. 1429**”) and Company Appeal (AT) (Insolvency) 1510 of 2023 (“**Appeal No. 1510**”). The contents of the appeal are identical but for filing purposes the Appeal No. 1429 was considered challenging the First Impugned Order and Appeal No. 1510 was considered challenging the Second Impugned Order. The Hon’ble NCLT by the First Impugned Order disposed the said PUFEE Application against the respondents therein and directed Aryan Spaces (sole proprietorship of the appellant) to contribute ₹ 120 lakhs to the Corporate Debtor. The First Impugned Order was passed without considering the Appellant’s Affidavit in Reply and arguments advanced by the advocates for the Appellant. Further, the Appellant filed Modification Application praying for modification of the First Impugned Order, but the Hon’ble NCLT yet again failed to consider the arguments advanced by the Appellant and by the Second Impugned Order, only clarified that the Affidavit in Reply filed on behalf of the Appellant was duly considered while passing the First Impugned Order. Therefore, being aggrieved by the said orders, the appellant filed the present Appeal.

Since Appeal No. 1429 was considered challenging the First Impugned Order, an Interlocutory Application No. 5116 of 2023 was also filed, seeking condonation of delay in filing the Appeal No. 1429. However, the Hon’ble National Company Law Appellate Tribunal (“**NCLAT**”) dismissed the Appeal No. 1429 vide order dated December 8, 2023 on the ground that it is time barred by limitation. Therefore, being aggrieved by this order, the Appellant has filed a Civil Appeal No. 1526 of 2024 before the Hon’ble Supreme Court and the same is pending. Further, the Appeal No. 1510 is also pending before the Hon’ble NCLT. In the above-mentioned appeals, apart from the Interlocutory Applications mentioned above 2 more were also filed seeking (a) stay of the impugned orders and (b) exemption from filing typed/ legible/ original/ certified documents. The next date of hearing for the Civil Appeal is August 27, 2024 and for Appeal No. 1510 is September 05, 2024.

Aarif Ahsan Khan vs Jayesh Sanghrajka and Ors. – Company Appeal No. (AT) (Insolvency) 1547 of 2023

Our Promoter, Aarif Ahsan Khan (“**Appellant**”) filed the present appeal under Section 61 of the Insolvency and Bankruptcy Code, 2016 (“**IBC**”) against Jayesh Sanghrajka (“**Respondent**”), the resolution professional of Ornate Spaces Private Limited (“**Corporate Debtor**”). The appeal is filed against an order dated October 6, 2023 (“**Impugned Order**”) passed in Interlocutory Application No. 277 of 2023 (“**Application**”) passed by Hon’ble National Company Law Tribunal, Mumbai (Bench - IV) (“**NCLT**”) in corporate insolvency resolution process initiated in C.P. No. (IB) – 4469/2019 “*IDBI Trusteeship Services Limited vs. Ornate Spaces Private Limited*”. The Hon’ble NCLT by the impugned order dismissed the said Application for claims of the Appellant against the Corporate Debtor for payments made by the Appellant amounting to ₹ 438 lakhs towards booking of certain flats in a project of the Corporate Debtor. The Hon’ble NCLT not only dismissed the said Application, but even took a view that the booking of flats by the Appellant is a “*sham transaction, having been made by using the funds received from the Corporate Debtor*” and directed the Respondent to re-appreciate the evidence on record to decide whether the amount paid to the Corporate Debtor by the Appellant is routed from the amount received from the Corporate Debtor. Therefore, being aggrieved by the impugned order, the Appellant has filed the present Appeal. Further, there are also 2 Interlocutory Applications filed in the above-mentioned appeal praying for a stay of the impugned order and for exemption from filing typed/ legible/ original/ certified documents. The next date of hearing of the appeal is September 05, 2024.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase is applicable from January 1, 2019, and will continue up to June 30, 2019. Under this phase, a Retail Individual Investor would also have the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing would continue to be six Working Days.

Phase II: This phase commenced on completion of Phase I, i.e., with effect from July 1, 2019, and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular No. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount will be continued till further notice. Under this phase, submission of the Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public Issue closure to listing would continue to be six Working Days during this phase.

Phase III: The commencement period of Phase III is notified pursuant to SEBI press release bearing number 12/2023 and as per the SEBI Circular No. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023, where the revised timeline of T+3 days shall be made applicable in two phases i.e. (i) voluntary for all public issues opening on or after September 01, 2023; and (ii) mandatory on or after December 01, 2023. The issue will be made under UPI Phase III of the UPI Circulars.

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed [●] as the Sponsor Bank to act as a conduit between the Stock Exchange and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Investors into the UPI mechanism.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful applicants to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure

to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the Book Running Lead Manager will be required to compensate the concerned investor.

SEBI through its circular SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 05, 2022, has prescribed. that all individual investors applying in initial public offerings opening on or after May 01, 2022, where the application amount is up to ₹ 5,00,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹ 2,00,000 and up to ₹ 5,00,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

While the Industrial Policy prescribed the limits and the conditions subject to which foreign investment may be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”). The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment, where applicable. The Government of India has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases.

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, GoI, earlier known as Department of Industrial Policy and Promotion (“DPIIT”) has issued the Consolidated FDI Policy Circular of 2020 (“FDI Policy”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by DPIIT that were in force and effect as on October 15, 2020.

Pursuant to Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Each Applicant must seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Applicant must intimate our Company and the Registrar to the Issue in writing about such approval, along with a copy thereof within the Issue Period.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore, applicable foreign investment up to 100% is permitted in our company under automatic route.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares offered in the Issue have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and the applicable state securities laws.
