Notice No. 20080130-15 Notice Date 30 Jan 2008
 Category Segment General
 Subject DATA UPLOADING SYSTEM (DUS) VERSION 18

Content

To : All Members of the Exchange

Members of the Exchange are aware that the **Data Uploading System (DUS)** is used for uploading the Margin Trading, Bulk and Block deal data and Client Funding data on a regular basis.

In this connection, Members are hereby informed that a new Version, i.e., Version 18 of Data Uploading System (DUS) will be available for download for reporting the Short Sale Transaction from Thursday, i.e., January 31, 2008 7:00 pm onwards through Dload32, by clicking on "Data Uploading System S/W.". This is a compulsory download.

On clicking the Data Uploading System S/W option, a file named DUS_ZIP.exe will be downloaded. This DUS_ZIP.exe is a self-extractable exe, which on clicking will extract three files namely, DUS.exe, DUS.ini and Consolidated DUS Manual.doc. **Members are requested to extract these files in the c:\boltntsb directory only.**

The following changes are incorporated in the new Version 18 :

- A new window for reporting of the "Short Sale Transaction" is available under the Department -> Surveillance -> Short Sale.
- The members have the option of entering single entry through data entry form and even upload batch file using the "Load" button.
- The file format for generating the batch file is given in the Consolidated DUS Manual, which is downloaded alongwith, the DUS_ZIP.exe.

Members are requested to go through the Consolidated DUS Manual and in case of any queries/ clarification, you may contact the under mentioned officials:
