Message from Chairperson

Dear "Members"

I am honoured to present to you our Annual Report for the year 2022-23, which encapsulates the significant strides we have taken as a Company. The previous year has been truly significant for us,

This major milestone signifies a crucial advancement in our pursuit of continuous growth and expansion. Beyond bolstering our financial stability, this remarkable accomplishment has also instilled in us a deep sense of motivation to uphold our promise of delivering exceptional value and trust to our esteemed stakeholders. With the unwavering backing of our investors and partners,

Our growth has been significantly driven by the establishment of new stores in both existing and untapped markets, garnering positive response from various market segments and specialised retailers. This success has prompted us to prioritise sustainable growth strategies by capitalising on opportunities across diverse product categories,

I am delighted to report that the future for the electronics consumer durable business in India looks very promising. As the world's secondlargest smartphone market, India has a rapidly expanding consumer electronics industry. The growth of this industry can be attributed to several factors including increasing purchasing power of the middle class and growing penetration of the internet and smartphones. Initiatives such as 'Make in India' and 'Digital India' by the Indian Government have also contributed significantly to this industry's growth. The provision of incentives to manufacturers to set up production units in India has also led to job creation and a reduction in the cost of electronic goods. Additionally, the Covid-19 led to an accelerated adoption of digital technologies, increasing the demand for electronic devices like laptops, smartphones, and tablets. Overall, The Company is well-positioned to leverage these favourable conditions and continue delivering innovative and quality products to customers.

In conclusion, I would like to emphasise that our achievements are a direct result of customer demand, and we take great pride in delivering exceptional customer service and an enjoyable shopping experience across our stores. This is facilitated by our focus on sustainable societal development, robust promoter background and a highly experienced senior management team, whose visionary leadership has played a pivotal role in cultivating a corporate culture centered around customer satisfaction. Our skilled management team and well-trained staff serve as the bedrock for sustaining and augmenting our long-term competitiveness.

I also want to express sincere gratitude to our valued business partners, suppliers, channel partners, and other associates for their indispensable contributions to our growth and success. We highly appreciate these partnerships and remain dedicated to fostering collaborative efforts that lead to mutual prosperity and accomplishment.

With Best Wishes,

Industry Structure and Developments

Global Economic

The year 2022 began with cautious optimism as the lingering effects of the Covid-19 pandemic continued to subside. However, the global economy still had to struggle with several headwinds in the form of increasing inflation, geopolitical tensions, Russia-Ukraine conflict and a tightening monetary policy. To control the inflationary pressure, central banks of various countries increased the interest rate, which impacted the bond market. Major international banks faced the heat from the tightened monetary policy, as it placed them on a shaky ground, further deteriorating their performance, including the collapse of Silicon Valley Bank. Moreover, the anticipated growth rate has also contracted from 3.4% in 2022 to 2.8% in 2023 because of these events. Central banks of a host of countries have launched a robust fight against rising inflation. The fight is starting to pay off, but central banks must continue their efforts. As a result of a weaker global demand and the implementation of tighter monetary policies, global inflation is anticipated to decrease from an average of 8.7% in 2022 to 7.0% in 2023. Despite efforts to control inflation, core inflation rates persistently remain high in most regions. The combination of supply chain bottlenecks, generous Government spending, tight labour markets and a commodity shock – triggered by the Russian invasion of Ukraine – have together contributed to this trend. The persistent volatility around high inflation, rising recession risks and monetary policy uncertainty has led to significant fluctuations in financial markets. However, both inflation and core inflation are showing signs of improvement as a result of concerted efforts.

Outlook

Despite challenges faced, the world economy is projected to grow at 3.0% in 2024. Advanced economies are anticipated to grow from 1.3% in 2023 to 1.4% in 2024. Conversely, emerging market and developing economies are projected to have more promising economic prospects, with an average growth rate predicted at 3.9% in 2023 and an anticipated increase to 4.2% in 2024. In order to balance the goals of boosting economic output and controlling inflation, macroeconomic policies to be thoughtfully calibrated. Effective coordination between monetary and fiscal policies is projected to mitigate the potential of an extended and severe economic downturn. It is in the best interest of all the countries to engage in stronger international collaboration to mobilise resources and avoid further disruptions

Indian Economy

The year 2022-23 witnessed India maintaining a steady trajectory of economic recovery, continued from 2021-22. The resilience of Indian economy owes it to a host of factors, including the widespread administration of the Covid-19 pandemic vaccinations. Moreover, an optimistic business environment and robust industrial output have provided strong momentum for the growth of India's economy. The manufacturing Purchasing Managers' Index (PMI), compiled by S&P Global rose to 57.8 in December 2022 from 55.7 in November 2022. The PMI average for the third quarter of the fiscal stood at 56.3. The fourth quarter PMI averaged to 58.7 rising to a 31 month high. Several indicators including total GST collections, digital transaction volume, electricity demand, rail & air passenger and freight traffic, petroleum product consumption, and coal production have pointed towards a positive recovery trajectory. Private consumption has rebounded, and overtaken export stimuli as the primary growth driver. This increase in private consumption has further augmented production activity, resulting in higher capacity utilisation across various sectors.

These combined factors have resulted in growth in GDP to 7.2% in FY 2022-23, positioning India as one of the fastest growing economies globally. The country is well-placed to weather global spillovers compared to other emerging markets.

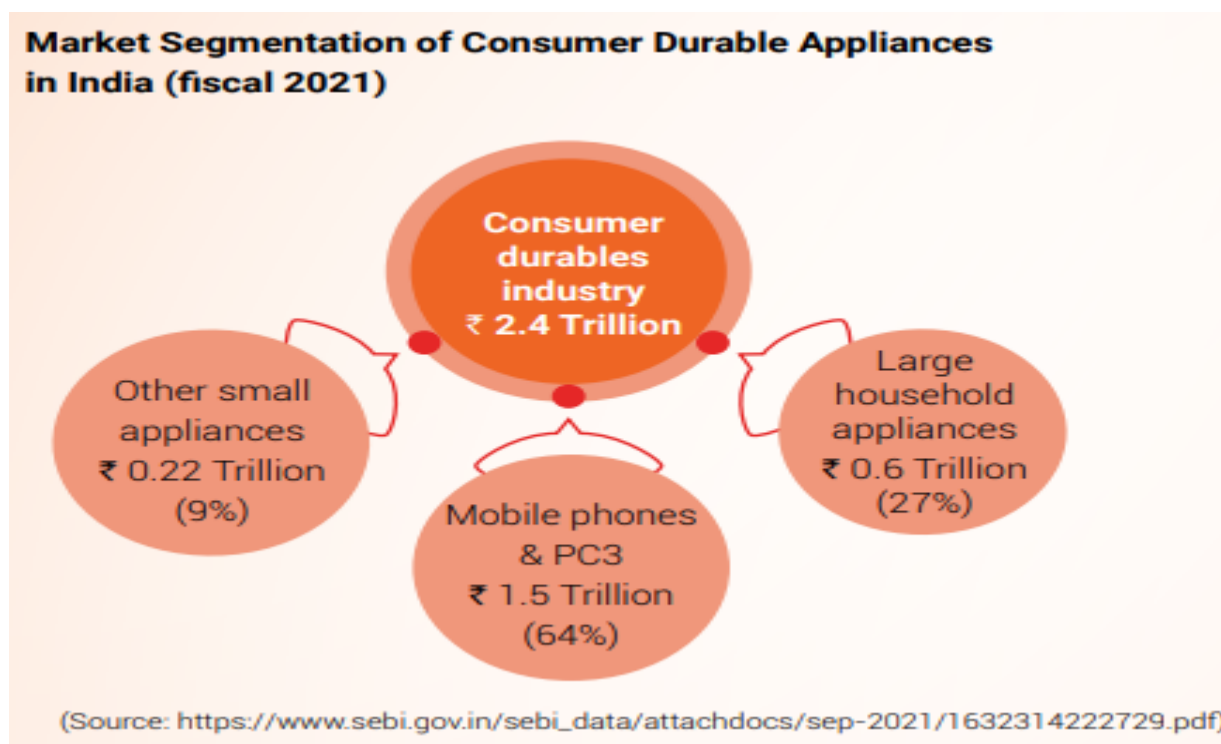

India's economy is well-positioned to weather global spillovers compared to other emerging markets. This is partly due to the country's sizeable domestic market and a steady increase in the capital expenditure of the Government. This has also contributed to an increase in employment. The 'Mahatma Gandhi National Rural Employment Guarantee Scheme' (MGNREGS) has been instrumental in generating employment opportunities directly in rural areas, while also creating avenues for rural households to diversify their income streams. Despite food scarcity across the globe, initiatives such as 'PM-Kisan' and 'PM Garib Kalyan Yojana' have played a crucial role in ensuring food security in the country and helping the Indian economy to remain immune to these challenges.

Outlook

The outlook for India continues to remain bright, with an investment boom sparking sharp increases in factory output, bank lending and consumer purchases. Moreover, this economic expansion is anticipated to boost business confidence and serve as a catalyst for increased private sector investment. The resultant optimism and enthusiasm among investors are further set to fuel the growth of the Indian economy

Indian Consumer Durable Industry

In India, there is a rising demand for various consumer durable goods due to increasing disposable income and technological advancements. As a result, there is intense competition among the numerous consumer durable brands, present in the country. Multinational organisations recognise the immense potential for growth and development in India and therefore view it as a critical market to prioritise. As per a report by CRISIL Research, the consumer durables industry was valued at Rs. 2.4 Trillion in 2021. Out of this, mobile phones & PCs accounted for the largest share, to the tune of Rs. 1.5 Trillion, whereas large household appliances and other small appliances comprising the rest of the share. This indicates that India is a promising destination for short-term to medium-term expansion of consumer electronics expenditure worldwide. Consumer electronics market in India has attracted several significant investments in the form of FDI inflows and merger & acquisition by major players in the international market. The approval of the 'Electronic Development Fund Policy' under the 'Make in India' initiative aims to streamline a convoluted duty structure. Alongside this, the 'Modified Special Incentive Package Scheme (M-SIPS)' has been implemented to offer a subsidy of approximately 15% to 20% for CAPEX. This will encourage increased investment by consumer electronics manufacturers in production, distribution and research & development activities in the coming years. Furthermore, 'Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECs 2022)', initiated by the Government of India, aims to strengthen the manufacturing ecosystem for electronic components and semiconductors in the country.

Major Growth Drivers

Rising Disposable Income

With the growing middle-class and rising disposable incomes, consumers are willing to spend more on electronic goods, including smartphones, laptops and home appliances.

Increasing Penetration of the Internet

The increasing penetration of the internet in India has led to a surge in online shopping, making it easier for consumers to purchase electronic goods from the comfort of their homes.

Government Policies

The Indian Government has implemented various policies to promote electronics manufacturing and increase foreign investment in the sector, which has led to a surge in demand for electronic goods in the country.

Technological Advancements

Rapid advancements in technology have led to the launch of new and innovative electronic products, such as smart home devices, wearables and virtual reality headsets, which have contributed to the growth of the electronics retail industry.

Urbanisation

The increasing urbanisation of India has led to a rise in demand for electronic goods as consumers in urban areas tend to have higher disposable incomes and a greater willingness to adopt new technologies.

Competitive Pricing

With the growing middle-class and rising disposable incomes, consumers are willing to spend more on electronic goods, including smartphones, laptops and home appliances.

Growing E-Commerce Industry

The growth of the e-commerce industry in India has led to a surge in demand for electronic goods as consumers can purchase them easily through online platforms.

Segment-Wise or Product-Wise Performance

Over the last few years, as a growth oriented company we have focused on diversifying into other consumer electronics products as we see a long run way for growth in sales of these products. This has helped us to only emerge as a multi-product brand but has also grow our profitability margins.

With an ambitious growth spree, the company has increased the number of multi product stores to 46 in 2023. This means that now 46 stores under our name sell electronic appliances such as Television, Refrigerator, Air Conditioners, Air Coolers, Washing Machines, and Microwaves, though our prime business still remains retail and wholesale distribution of mobile handsets, tablets, data cards and mobile accessories. Besides this, the conversion rate is at a whopping 98%.

Segment/ Product	Number of Stores
Total Stores	172
Owned Retail Stores	163
Franchised Stores	9

The total revenue of the company stood at **INR 34474.43 Lac** which was **INR 25175.69 Lac** in previous year. The company now owns a total of 172 store, out of which 163 are owned stores and 9 are franchised.

Outlook

Our Company over the last year has heavily invested time and efforts in diversifying the products sold through our stores and the result is that we have increased the total number of Multi Product stores. The stores of our company has been spread over the Gujarat covering almost every area even the rural and the remote areas. Also, the company has set its footing in Maharashtra this year. Our decision to invest in this growth spree roots from the fact that we are bullish on the demand of various consumer electronic items as the work from home culture spreads.

Risks and Concerns

- Supply chain disruptions, mobilizing workforce and keeping up with demand poses a risk, as we expect a dramatic increase in demand when various companies release their 5G phones in India.
- Many phone manufacturers offering lucrative offers and early-access deals directly to the consumer through its B2C channels can become difficult to compete with.
- Rapidly increasing in the technology trends, less life line of the products, outdated ratio increases rapidly.
- The continued maintenance and improvement of BHATIA's brand recognition and reputation are crucial to its future success. Failure to do so may impede the ability to maintain and expand its consumer base, leading to negative impacts on business operations, financial condition, cash flows, and results of operations.

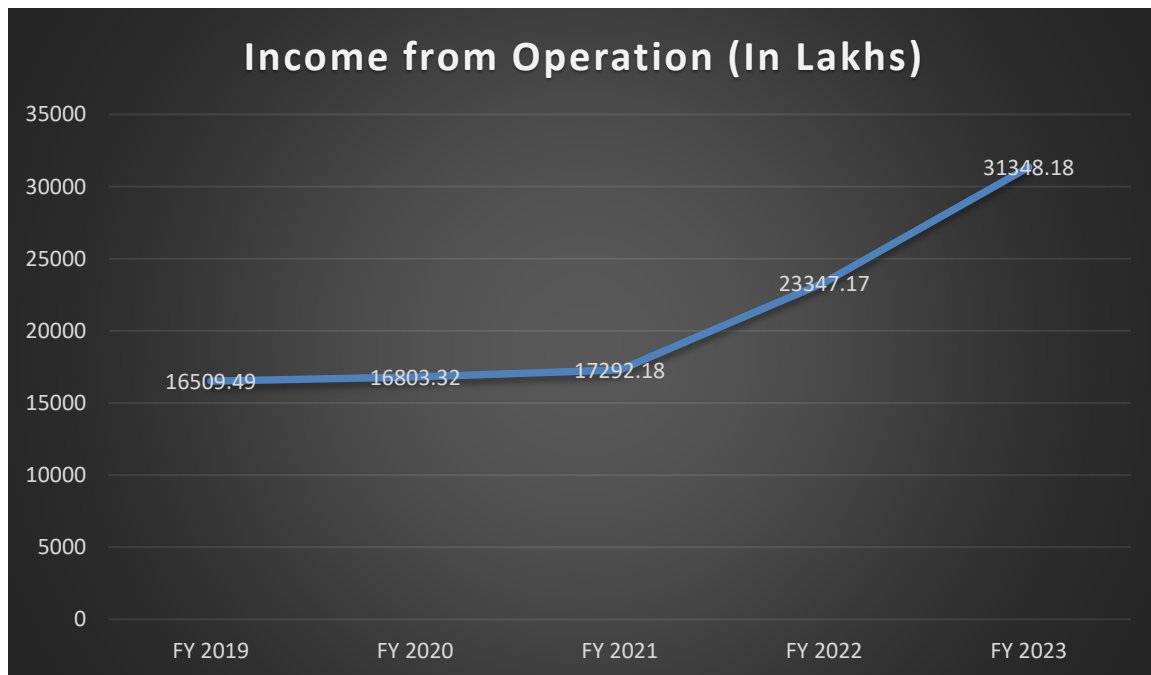

Internal Control Systems and Their Adequacy

The Company has in place an adequate system of internal control commensurate with its size and nature of its business. These have been designed to provide reasonable assurance that all assets are safeguarded and protected against loss from unauthorized use or disposition and that all transactions are authorized, recorded and reported correctly and the business operations are conducted as per the described policies and procedures of the Company. The Audit Committee and the Management have reviewed the adequacy of the internal control systems and suitable steps are taken to improve the same

Discussion on Financial Performance with respect to Operational Performance

In FY2023, the company's revenue from operations grew to INR 34,474 Lac, an increase of 37% from FY 2022.

The company managed to maintain its strong profitability due to a strong foundation and loyal consumer base. The company with better inventory management, diversified product portfolio, improving conversion rate and new multi-product outlets, realized economies of scale i.e., the company was able to increase its sales without much increase in input costs.

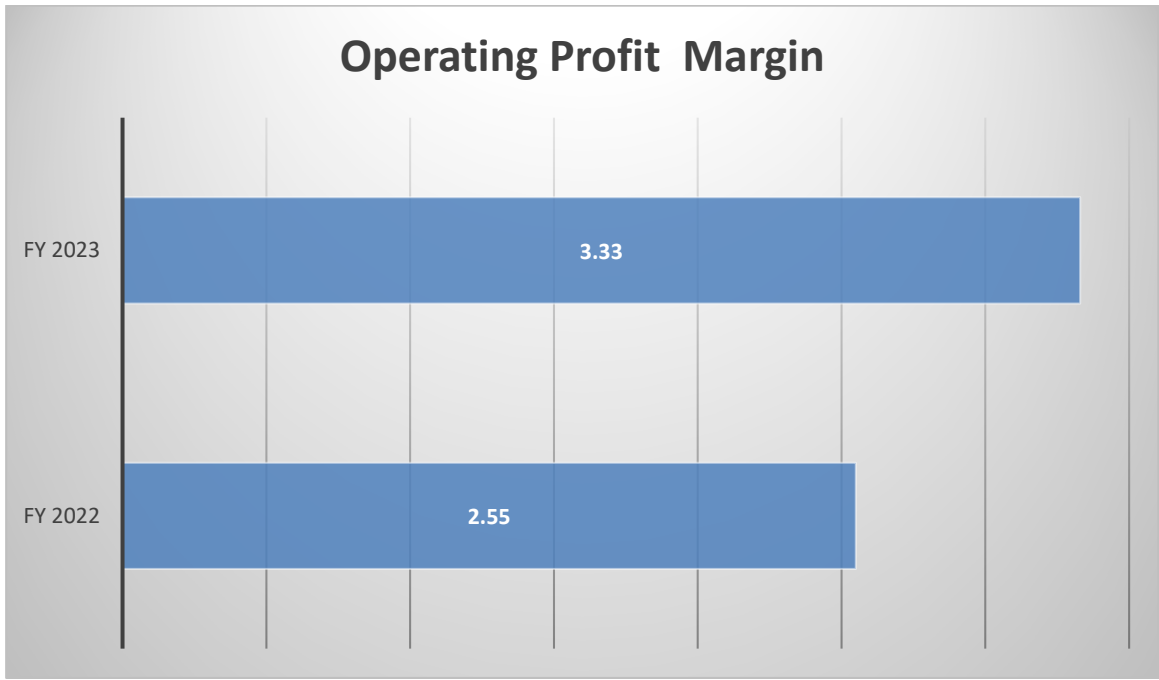

Details of Significant Changes in Key Financial Ratios

NET PROFIT MARGIN AND OPERATING PROFIT MARGIN

The company has been able to maintain a positive net profit margin and operating profit margin with an increasing trend.

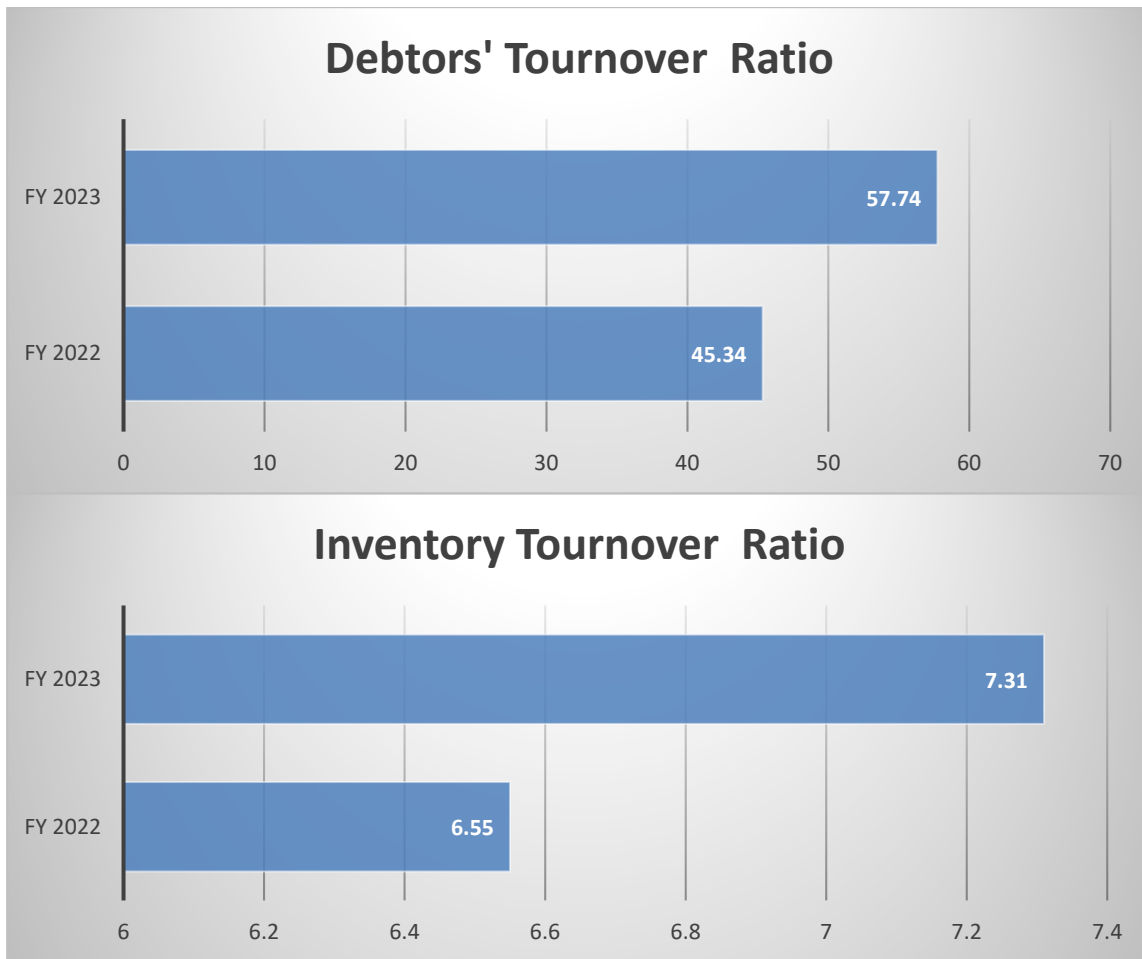

DEBT EQUITY RATIO

Debtor's Turnover Ratio is an accounting measure used to measure how effective a company is in extending credit as well as collecting debts. The company's collection of account receivables has been efficient over the years, as it caters to the B2C segment.

Inventory's turnover Ratio indicates the rate at which a company sells and replaces its stock of goods during a particular period. The company's higher Inventory Turnover ratio indicates the company's efficiency to convert its inventory quickly into Sales.

CURRENT RATIO

The Company over the past years has been able to maintain a healthy Current Ratio, because of Better Inventory Management System in place.

STATEMENT OF RISK MANAGEMENT

All businesses are fraught with risk and the consumer electronics business is not different. Our company and management seeks to minimize the adverse impacts of all kinds of risks, thus enabling the company to leverage market opportunities effectively and enhance long term competitive advantage. The Company has adopted a robust risk management policy, to identify, evaluate and mitigate business risks and protect stakeholder interests. The Company's Risk Management framework focuses on timely identification of risks and initiates mitigation strategies to steadily tide through crisis including sustainability, information security and so on.

The following are the risks associated with our Company and have been identified by the management of the company.

Risk	Impact	Mitigation
Operational Risk	The Company faces Operational Risk arises out of inefficiencies or negligence in the operations or system of internal controls. These are risk associated with non-compliance with statutory requirements or policies, not following the safety regulations, engaging in unlawful or fraudulent behavior or breaches of contractual agreement	As a company we have checks and balances in place ensure such things don't happen. Internal and audits on regular interval put the relevant checks in place.
Competition Risk	The Company faces competition from a diverse range of players, including those operating in the retail, wholesale and e-commerce sectors. The Company competes against a range of national and local large format stores, independent retail stores as well as e-commerce businesses that offer similar merchandise.	To mitigate this risk, the Company focusses on putting in efforts to build relations with reputed brands and propositions that will provide access to high-value products and create a connect between its customers and its brand identity
Reputational Risk	The continued maintenance and improvement of BHATIA's brand recognition and reputation are crucial to its future success. Failure to do so may impede the ability to maintain and expand its consumer base, leading to negative impacts on business operations, financial condition, cash flows, and results of operations.	To mitigate this risk, the Company leverages its strong corporate culture and is involved in continuous monitoring and improving the processes in vogue.
Supply Chain Risk	In the event of a delay or failure on the part of company suppliers to deliver products in a timely manner or any decline in the quality of products supplied, its business, profitability, and reputation may be materially and adversely affected.	To mitigate this risk, the Company focusses on implementing systems and processes to provide stability into supply chain, including inventory levels, lead times, and delivery schedules. It also avoids relying on a single supplier or region and diversifies its supplier base to minimise the impact of supply chain disruptions.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BHATIA COMMUNICATIONS & RETAIL (INDIA) LIMITED

Report on the Audit of Standalone Financial Statements:

Opinion:

We have audited the accompanying standalone Ind AS financial statements of **BHATIA COMMUNICATIONS & RETAIL (INDIA) LIMITED** ("The Company") which comprises the Balance Sheet as on 31st March 2023, the Statement of Profit and Loss (Including Other Comprehensive Income), the Statement of Change in Equity and the Cash Flow statement for the year then ended and notes to financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Companies (Indian Accounting Standards) Rules 2015, as amended, ("Ind As") and other accounting principles generally accepted in India, of the state of affairs of the company as at 31st March 2023 and its profit and total comprehensive income and change in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Branches and Franchise

The company has many franchises and branches and the company receives advances/security deposit from its various franchises and the same is adjusted against the amount due from them as on the balance sheet date. The company also receives deposit from branch partner towards security deposit against stock provided to them and same is shown in balance sheet as long term liability.

Auditor's Response

We get the complete list of franchise and branches from the management and check that there is no deviation in the security deposit received and stock provided to them. We also check the

agreement made with the branch partner and check whether proper disclosure is made regarding advances received from branch partner and term and conditions of the agreement.

Management's Responsibility for the Standalone Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; to design and perform audit procedures responsive to those risks; and to obtain audit evidence that is sufficient and appropriate to provide a basis for the auditor's opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statement may be influenced. We consider quantitative materiality and qualitative factor in (i) planning the scope of our audit work and in evaluating the result of our work and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements:

1. As required by the Companies (Auditor's Report), Order, 2016 (order dated 29.03.2016), issued by the Central Government of India in terms of section 143(11) of the Companies Act, 2013 (hereinafter referred to as 'order'), and on the basis of test check as we considered appropriate and according to information and explanation provided to us, we enclose in the Annexure "A" statement on the matters specified in paragraphs 3 and 4 of the said Order.
2. As required by section 143(3) of the Act, we report that:
 - 2.1 We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit
 - 2.2 In our opinion, proper books of account as required by law have been kept by the company as far as appears from our examination of those books.
 - 2.3 The Balance Sheet, Profit and Loss statement (Including Other Comprehensive Income), Cash Flow Statement and the statement of Change in Equity dealt with by this report are in agreement with the books of account.
 - 2.4 In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - 2.5 On the basis of written representations received from the directors, as on March 31, 2023, taken on record by the Board of directors, none of the directors are disqualified as on March 31, 2023 from being appointed as a director under section 164(2) of the Act
 - 2.6 With respect to the adequacy of financial controls over financial reporting of the company and the operative effectiveness of such controls, refer to our separate report in "Annexure B".
 - 2.7 With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197 (16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act; and
 - 2.8 With respect to the others matters to be included in the auditor's report in accordance with Rule 11 of the companies (audit and auditors) rules 2014, in our opinion and to the best of our information and according to the explanations given to us.

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **BHATIA COMMUNICATIONS & RETAIL (INDIA) LIMITED** ("The Company") as of 31 March 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or

timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Fair value hierarchy

Ind AS -113 contains a fair value hierarchy that is similar to the hierarchy established under Ind AS-107. The highest priority is given to level-1 inputs; Level-3 inputs get the lowest priority. The fair value hierarchy ranks fair value measurements based on the type of inputs; it does not depend on the type of valuation techniques used. A fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest-level input that is significant to the entire measurement.

Levels of Hierarchy:

Level 1: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Level 3 inputs are unobservable inputs for the asset or liability. Therefore, unobservable inputs shall reflect the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk.

Note: We have identified all our Financial assets and liabilities in **Level-3** as per fair value hierarchy.

NOTE 1

CORPORATE INFORMATION:

Bhatia Communications & Retail (INDIA) Limited is a company domiciled in India and Incorporated under the provisions of the Companies Act, 1956. The company is engaged into retail and wholesale distribution business of mobile handsets, tablets, data-cards, mobile accessories, mobile related products, Home appliances and other electronic items. The company caters to the domestic markets.

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation of Financial Statements

a. Compliance with Ind AS

The financial statements are prepared on the accrual basis of accounting and in accordance with the Indian Accounting Standards (hereinafter referred to as the Ind AS) as prescribed under section 133 of the Companies Act, 2013 and other relevant provisions of the Act.

b. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities that are measured at fair value,
- defined benefit plans - plan assets measured at fair value

2. Summary of significant accounting policies:

i. Current and non-current classification

The assets and liabilities reported in the balance sheet are classified on a "current/non-current basis".

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting date, or
- Cash or Cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities

ii. Fair value measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest

The fair value measurement of a non-financial asset takes into account market participant's ability to generate economic benefits by using

the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Where required/appropriate, external valuers are involved.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

-Level 1 - Quoted (unadjusted) prices in active market for identical assets or liabilities.

-Level 2 (if level 1 feed is not available/appropriate) - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

-Level 3 (if level 1 and 2 feed is not available/appropriate) - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amount approximates fair value due to the short maturity of these instruments.

The Company recognizes transfers between levels of fair value hierarchy at the end of reporting period during which change has occurred.

iii. Revenue Recognition :

Income and expenditure are recognized and accounted on accrual basis as and when they are earned or incurred. Revenue from sales

transaction is recognized as and when the significant risk and reward attached to ownership in the goods is transferred to the buyer.

Revenue from sale of goods is recognized on completion of sale of goods and is recorded net of trade discount and rebates and GST is accounted for on exclusive accounting method which does not get included in Sale

iv. Income tax:

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The provision for current tax is made at the rate of tax as applicable for the income of the previous year as defined under the Income tax Act, 1961. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and current tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is recognized using the Balance Sheet approach on temporary differences at the reporting date arising between the tax bases of assets and liabilities and their carrying amounts for the financial reporting purpose at the reporting date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry forwards and unused tax credits could be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

v. Impairment of Asset

An impairment loss is charged to the Statement of profit and loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount. During the year, there is no impairment of assets

vi. Cash & Cash Equivalent :

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are term deposit balances, highly liquid investments that are readily convertible into known amounts of cash and which are subject to in significant risk of changes in value

vii. Inventories :

Inventories are being valued as under : (As taken ,Valued and certified by the management)

Traded Goods at Lower of Cost or Net realizable Value.

viii. Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through Profit and Loss are expensed in the Statement of Profit and Loss.

Subsequent measurement

After initial recognition, financial assets are measured at:

Fair value (either through other comprehensive income or through Profit and Loss), or amortized cost.

Debt instruments

Debt instruments are subsequently measured at amortized cost, fair value through other comprehensive income ('FVOCI') or fair value through Profit and Loss ('FVTPL') till de-recognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

Amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in the Statement of Profit and Loss when the asset is derecognized or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value Through Other Comprehensive Income (FVOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in the Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value Through Profit and Loss (FVTPL)

Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognized in Statement of Profit and Loss in the period in which it arises. Interest income from these financial assets is recognized in the Statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are initially measured at its fair value plus or minus, in the case of a financial liability not at FVTPL, transaction costs that are directly attributable to the issue/origination of the financial liability.

Subsequent measurement

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in Statement of profit and loss. Any gain or loss on derecognition is also recognized in statement of Profit and Loss.

De-recognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

ix. Property, Plant and Equipment (PPE)

Items of Property, plant and equipment acquired or constructed are initially recognized at historical cost net of recoverable taxes, duties, trade discounts and rebates, less accumulated depreciation and impairment loss, if any. The historical cost of Property, plant and equipment comprises of its purchase price, borrowing costs and adjustment arising for exchange rate variations attributable to the assets, including any cost directly attributable to bringing the assets to their working condition for their intended use.

Capital Work-in-Progress represents Property, plant and equipment that are not ready for their intended use as at the reporting date.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable

that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The Company identifies and determines cost of each component/part of the plant and equipment separately, if the component/part has a cost which is significant to the total cost of the plant and equipment and has useful lives that is materially different from that of the remaining plant and equipment.

The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the year in which they are incurred.

Gains and losses arising from de-recognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all its Property, plant and equipment recognized as at April 1, 2018 measured as per the previous GAAP and use that carrying value as the deemed cost of the Property, plant and equipment.

Depreciation method

Depreciation on fixed assets are provided on Straight line Method in accordance with requirements of Schedule II to the Companies Act, 2013.

x. Intangible Assets

Intangible assets are stated at cost of acquisition net of recoverable taxes, trade discounts and rebates less accumulated amortization/depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable

that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and

the carrying amount of the asset and are recognized in the Statement of Profit & loss when the asset is derecognized.

xi. Provisions and contingent liabilities**Provisions**

Provisions are recognized when there is a present legal or constructive obligation as a result of a past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

Contingencies

Contingent liabilities are disclosed in the Notes to the financial statements. Contingent liabilities are disclosed for :-

- when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or
- a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent Liabilities: *HDFC Bank Ltd had given Guarantee of Rs 2.5 Crore to Xiaomi Technology India Private Limited on behalf the company against Hypothecation of Stock & Book Debts of the Company and Lien Mark of Fixed Deposit of Rs. 62.50 Lacs.*

xii. Earnings per Share :

Basic earnings per share is calculated by dividing the net profit after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, etc. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity share

xiii. Employee's Benefit :

Provident Fund and ESIC : Provident fund and ESIC contributions are made as per defined scheme and the contribution is charged to statement of Profit & Loss A/c of the year when it becomes due. The company has no other obligation other than to contribute and deposit to respective authorities

Short term employee benefits are recognized as an expense in the statement of Profit & Loss A/c for the year in which the related service is rendered.

Long term employee benefit are recognized as an expense in the statement of Profit & Loss A/c for the year in which the employee has rendered service

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method. The obligation is measured at present values of estimated future cash flows. The discount rates used for determining the present value are based on the market yields on government securities as at the balance sheet date. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur directly in other comprehensive income.

Sensitivity Analysis Gratuity Plan

Sensitivity Analysis: Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase rate. Effect of change in mortality rate is negligible. Please note that the sensitivity analysis presented below may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. The results of sensitivity analysis are given below:

Amount in Lacs

Period	As on : 31-03-2023
Defined Benefit Obligation (Base)	45.19 @ Salary Increase Rate : 5%, and discount rate :7.50%
Liability with x% increase in Discount Rate	40.52; x=1.00% [Change (10)%]
Liability with x% decrease in Discount Rate	50.83; x=1.00% [Change 12%]
Liability with x% increase in Salary Growth Rate	50.92; x=1.00% [Change 13%]
Liability with x% decrease in Salary Growth Rate	40.37; x=1.00% [Change (11)%]
Liability with x% increase in Withdrawal Rate	46.53; x=1.00% [Change 3%]
Liability with x% decrease in Withdrawal Rate	43.63; x=1.00% [Change (3)%]
