32. The Scrutinizer will submit his final and consolidated report to the Chairman of the Company within two working days after the conclusion of the Annual General Meeting. The Scrutinizer's decision on the validity of all kinds of voting will be final.

33. The results of the remote e-Voting/e-Voting at Annual General Meeting shall be declared by the Chairman or his authorized representative or any one Director of the Company after the Annual General Meeting within the prescribed time limits. The results along with the Scrutinizers Report shall be placed on the website of the Company i.e. www.emamipaper.in and on the website of CDSL i.e. www.evotingindia.com immediately after declaration of results. The Results will also be forwarded to the Stock Exchanges where the shares of the Company are listed.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Notes:

- It is recommended that shareholders should independently satisfy their eligibility to claim DTAA benefits including meeting all conditions laid down by DTAA.
- The Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction/withholding on dividend amounts. Application of beneficial DTAA Rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non-Resident member.
- Shareholders who are exempted from TDS provisions through any circular or notification may provide documentary evidence in relation to the same, to enable the Company in applying the appropriate TDS on dividend payment to such shareholders.
- Shareholders holding shares under multiple accounts under different statuses/categories (eg. Resident and Non-Resident) and single PAN, may note that higher the tax as applicable to the status in which shares held under a PAN will be considered on their entire holding in different accounts.
- Recording of the Permanent Account Number (PAN) for the registered Folio/DP ID-Client ID is mandatory. In the absence of a valid PAN, the tax will be deducted at a higher rate, as per Section 206AA read with 206AB of the Act.

TDS TO BE DEDUCTED AT A HIGHER RATE IN CASE OF NON-FILERS OF RETURN OF INCOME:

For Shareholders who are identified as "Specified Persons" under Section 206AB of the Act, a higher tax rate as applicable would be deducted if

- Shareholder has not furnished the return of income for the assessment year relevant to the previous year immediately preceding the financial year in which tax is required to be deducted
- Aggregate of tax deducted at source and tax collected at source is rupees fifty thousand or more in the said previous years.

For TDS, Company will verify the status (i.e., Specified Person or not) from the Government enabled online facility and deduct TDS accordingly.

Provision related to "Specified person" that as per Section 206AB shall not apply to nonresident who does not have a permanent establishment in India.

If the person is a "specified person" as per Section 206AB then TDS Rate is higher of:

- Twice the rate specified in the relevant provisions of the Income-tax Act; or
- Twice the rate or rates in force; or
- the rate of 5%;

TDS TO BE DEDUCTED AT A HIGHER RATE IN CASE OF NON-LINKAGE OF PAN WITH AADHAAR

As per Section 139AA of the Income Tax Act, every person who has been allotted a PAN and who is eligible to obtain Aadhaar shall be required to link the PAN with Aadhaar. In case of failure to comply with this, the PAN allotted shall be deemed to be invalid/inoperative and tax shall be deducted at the rate of 20% as per the provisions of Section 206AA of the Act. The Company will be using the functionality of the Income-tax department for the above purpose. Provisions will be effective from 1st July 2023.

Shareholders may visit the Income tax website for FAQ issued by Government on PAN Aadhar linking.

Section 199 of the Income Tax Act ('the Act'), read with Rule 37BA of the Income Tax Rules, 1962 ('the Rules') inter-alia states that if the income on which tax has been deducted at source is assessable in the hands of a person other than deductee, credit of the tax deducted at source shall be given to the other person and not to the deductees. Therefore, in case the shares are held by the member on behalf of any other person, then the deductee shall submit a declaration mentioning the name, address, permanent account number of the person to whom credit is to be given, payment or credit in relation to which credit is to be given and reasons for giving credit to such person. Only after receipt of such declaration, the deductor shall report the tax deduction in the name of the other person and shall issue the certificate for deduction of tax at source in the name of the other person, whose name is mentioned in the declaration. The shareholders are requested to submit the necessary documents by Tuesday, 5th September, 2023 at investor.relations@emamipaper.com

Over the past year, we have witnessed remarkable transformations within the organisation. Our determination to overcome hurdles and focus on what's important allowed us to add a new chapter to our growth story.

Inspiring Optimism

Changed mindsets, a renewed way of doing things and seeking better ways of accomplishing objectives marked a fresh start for us at Emami Papers. And it resulted in sustained outperformance, reflected across all aspects of the organisation – from our people, processes to our balance sheet. The new-found optimism instilled a sense of purpose that allowed us to diversify our product portfolio, broadbase risks and develop cross-functional synergies.

Our optimism is also evident through our emphasis on shaping a greener planet. Keeping sustainability as a core priority, we are eagerly contributing to a circular economy and inculcating responsible practices within the organisation.

The collective efforts of a 'new' Emami kept us optimistic about maximising value creation, strengthening returns and challenging convention. What emerged was a passionate response to accelerate our outperformance and relentlessly uncover opportunities in a dynamic business landscape.

Management's **Insight**

Aditya V. Agarwal,
Executive Chairman

Manish Goenka,
Vice Chairman

Our resolve to be better than before underscores our determination to introduce strategic transformations within the organisation.

Dear Shareholders ,

The cultural shift that represented a new way of doing things at Emami Paper inspires us to move ahead with optimism – to further strengthen the groundwork for our sustained outperformance.

Over the past year, we have continuously reiterated our commitment towards excellence, innovation and sustainability with a greater focus on adapting ourselves to an evolving business landscape. We have adopted a proactive approach to understand client expectations, improved our capacity to develop new-age products and above all, kept an unwavering focus on abiding by the highest standards of quality. Alongside, our focus on ensuring customer satisfaction drives us to operate with great passion, enabling us to produce customised products and consistently create new revenue generation streams. Besides, it forges enduring relationships and earns us the trust and loyalty of a marquee clientele.

Keeping sustainable value creation at the core of our efforts, we continue to reaffirm our emphasis on people and processes to grow with optimism and great confidence. Over the years, we have consciously undertaken initiatives

to build an empowered workforce. We realise, our talent pool plays an integral role in meeting our objectives. Therefore, to enable talent to thrive and prosper, we continue to undertake broad based initiatives that enhance professional as well as personal growth. It also nurtures a sense of belonging, thereby attuning our people to the Company's values and ethos – inspiring them to be a part of a high-performance work culture.

Setting aside the conventional approach, the Emami Paper of today believes in informing and educating its stakeholders. We are transparently sharing financial performances, operational metrics and procurement strategies within the organisation and it has created deeper engagements of various teams within the organisation. The cross-functional synergies derived from these efforts inspire us to set more precise targets and aim for greater goals.

Our ability to respond with a different mindset allows us to set the tone for the years ahead. With a determined focus on improving our capabilities, defying odds and trusting on a 'can-do' attitude, we are optimistic about future prospects. Besides, our dependence on data driven analytics empowers us to accelerate decision making and retain our competitive edge.

As a responsible business, we believe in not just pursuing profitability, but

also take into account its impact on the environment and society. By undertaking initiatives for the welfare of communities, optimising resource utilisation, and embracing viable methods to minimise our imprint on the planet, we are actively contributing to a greener and more sustainable future. It is also bolstering an integrated, inclusive and sustainable value creation model that takes into account the aspirations and expectations of diverse stakeholders.

Looking ahead, we sense incremental opportunities in the business landscape. Our perseverance, passion and will power to achieve the extraordinary keeps us optimistic about our future and lends us the strength to consistently generate value.

With best regards,

Aditya V. Agarwal,
Executive Chairman

Manish Goenka,
Vice Chairman

Whole-time Director & CEO's review

By encouraging innovation, collaboration and continuous learning, we create an environment that empowers our employees and drives our collective excellence.

Dear Shareholders,

With every new beginning, new opportunities beckon. The sustained transformation of Emami Paper to inculcate a new way of thinking has permeated through the organisation.

Our journey of transformation has instilled a fresh way of thinking across the organization, fostering optimism and a collective pursuit of common goals. Together, we are motivated to contribute our best and drive extensive improvements.

Reflecting on the past year, while the first half favored us, the latter part did not progress as expected. Several factors contributed to this, including

the unprecedented increase in the price of pulp, our key raw material. The Russia-Ukraine conflict and the COVID-19 outbreak in China were among the reasons for this surge. Additionally, the domestic consumption of pulp declined, and Chinese mills flooded the South-East Asian market with their paper products, leading to a significant impact on our sales. This region accounts for 20%-30% of Indian exports, resulting in a loss of nearly 30% of market share for companies in India. Moreover, the energy crisis in the Euro region posed a threat to our industry.

Despite these challenges, we navigated through with resilience and strategic interventions. We expanded and diversified our supplier base, forged long-term relationships with new partners, and resolved supply chain bottlenecks. This proactive approach

is expected to cushion us against external challenges and prepare us for the future.

During the fiscal year, our revenue grew by 18%, reaching ₹ 2,308 crore. The EBITDA and PAT stood at ₹ 237 crore and ₹ 69 crore respectively in the previous fiscal year.

Focus on innovation and digitisation

Focus on innovation and digitization remains a top priority for Emami Paper Mills. We understand that innovation is the key to remaining competitive in an ever-evolving paper industry. To foster innovation, we have established a dynamic Product Development Cell, dedicated to creating innovative paper products that meet the diverse needs of our customers while driving

profitability. This emphasis on quality and customization ensures we deliver high-quality products that stand out in the market.

In line with our commitment to enhancing customer experiences, we have revamped our Customer Relationship Management (CRM) system. This system enables us to promptly address customer grievances, offer personalized solutions, and improve communication with consumers. By putting the customer at the centre of our operations, we aim to build lasting relationships and exceed their expectations.

Towards a sustainable future

Sustainability remains a guiding principle for our business. We firmly believe that our operations should contribute positively to the communities we serve. Through strategic partnerships and initiatives, we are collaborating with local communities to empower them and create sustainable avenues of growth. Our programs focus on fostering self-sufficiency among individuals, promoting social welfare, and driving inclusive development.

Environmental stewardship is another key pillar of our sustainability strategy. Given the nature of our industry, it is crucial for us to find ways to reduce our freshwater consumption. To this end, we have set internal targets to increase the share of recycled water used in our paper production processes. We are also implementing energy-efficient practices by employing state-of-the-art energy meters to monitor and curtail our energy usage. These initiatives reduce our carbon footprint

and minimize our impact on the environment, aligning with our long-term sustainability goals.

Our people

Our people are at the heart of Emami Paper's success, and we strive to foster a people-centric culture. To nurture a motivated workforce, we have implemented a comprehensive performance management system that not only recognizes and nurtures talent but also provides opportunities for professional growth and advancement. This system, combined with a robust appraisal process, helps identify and promote talent within the organization. By encouraging innovation, collaboration and continuous learning, we create an environment that empowers our employees and drives our collective excellence.

Way Forward

Looking ahead, we are filled with optimism and enthusiasm for the journey that lies ahead. The prospects of India's economic growth in the coming years are promising, and we anticipate an increased demand for paper and packaging products across various sectors. With a favorable business landscape, we are well-positioned to capitalize on these opportunities.

Our unwavering commitment to quality, customer engagement, cost optimization, and operational efficiency will continue to be the cornerstones of our success. By consistently delivering high-quality products and services, engaging with our customers to understand their evolving needs, optimizing our costs, and driving operational efficiency, we are confident that we will achieve sustainable growth

in the years to come.

In the face of market volatilities, we remain resolute in our pursuit of excellence. We are determined to strengthen our internal operations and enhance our capabilities to navigate through challenges and seize opportunities. We believe that collective ownership of responsibilities will empower us to overcome obstacles and achieve our strategic objectives.

Furthermore, we recognize the importance of technology as a catalyst for progress. Through continuous investment in technology, we aim to enhance productivity, streamline processes, and ensure efficient resource utilization. By leveraging technology, we will stay at the forefront of innovation and reinforce our position as a leader in the industry.

On behalf of the entire team at Emami Paper I would like to express my heartfelt gratitude to our valued shareholders, customers, employees, and other stakeholders. Your unwavering support, dedication, and trust in our vision and abilities have been instrumental in our success. We are deeply appreciative of your ongoing partnership, and we remain committed to creating long-term value for all our stakeholders.

Together, we will forge ahead, embracing new opportunities, overcoming challenges, and realizing our shared vision for a prosperous future.

With warm regards,

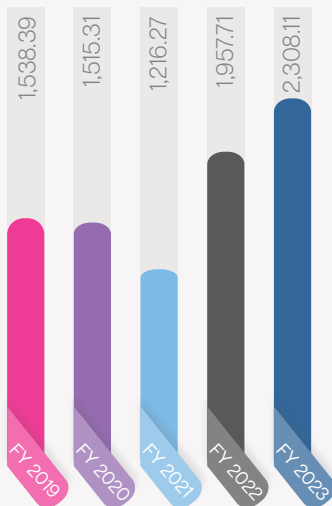

Vivek Chawla,

Committed to ensure **manufacturing excellence**

At Emami Paper, manufacturing excellence is a core priority. Our expertise in paper manufacturing is supported by state-of-the-art manufacturing facilities, human expertise and a relentless focus on quality parameters. It has empowered us to develop and deliver some of the finest paper products to the market.

With a long legacy of over four decades, we have cemented our position as a leading paper mill and the largest newsprint manufacturer in the country. Keeping sustainable operations at the core of our operations, our paper mills located at Balasore, utilise recycled wastepaper and fibres as a raw material for producing fine quality paper products.

Our total production capacity stands at 3,40,000 tons per annum. We have also established a captive power plant generating 33.5 MW power, thereby ensuring self-sufficiency in meeting our energy and steam demands. We produce 2,00,000 tons per annum of multi-layer coated packaging board and have a combined capacity to manufacture 1,40,000 tons per annum of superior quality writing and printing paper along with best-in-class newsprint.

1,40,000 TPA

2,00,000 TPA

Multi-layer coated board production capacity

Our state-of-the-art manufacturing facilities employ cutting-edge machinery and the latest technologies, thereby exemplifying our commitment to abide by the highest standards of quality.

Enhancing efficiency through innovation

Our ability to adopt new-age processes and innovative methods allows us to sustain a leading position in the industry. With consistent investments in technology and emphasis on developing products that are aligned to consumer needs, we are developing a future-ready product portfolio.

Ensuring continuous improvement

To create a culture of continuous improvement, we encourage teams to share ideas that add efficiency to our operational processes. We have created a dedicated Product Development team that collects market feedback to ensure the success of different initiatives. This has led to the successful creation of unique products like OGR (Oil and Grease Resistant) paper and Bulky paper.

Effective quality management

Our quality assurance department has the liberty to introduce only superior grade raw materials as well as finished products. They conduct rigorous quality tests before delivering products to our clients. By maintaining a strong focus on stringent quality standards, we are continuously developing superior quality products.

Streamlining procurement processes

Our robust procurement process ensures the production of high-quality paper. With efficient supply chain management, we ensure sourcing of raw materials at an optimised cost. We also maintain a strong relation with our supply partners to enable a steady supply of required raw materials from reliable suppliers.

Resiliently overcoming challenges

The price of paper pulp and wastepaper has witnessed significant volatility and has led to supply disruptions in recent times. To overcome pricing pressure from increasing raw material costs, we have implemented a number of initiatives to reduce risks and mitigate adverse impacts.

We conduct market research regularly to stay up to date on latest market trends and changes in input prices.

Strong relationships with suppliers allow us to negotiate better prices for bulk purchases.

Ensured cost efficiency through optimisation of production and logistics and waste reduction.

To reduce dependence on a particular raw material or supplier, we have increased the use of alternate raw materials and diversified sourcing from different locations.

We monitor and manage inventory levels to prevent stockouts or overstocking.

We also invest in advanced technology and data analytics to optimise logistics management.

Impact of new procurement strategy

Cost savings

By negotiating better prices with suppliers, we reduced our procurement costs and increased profit margins.

Improved efficiency

A more streamlined procurement process helped to reduce the time and resources required to purchase goods and services, thereby lowering the overall cost of procurement.

Supply chain optimisation

Our reinvented procurement function helped to better manage the supply chain, by reducing the lead time and improving delivery schedules. It enabled us to respond to changes in customer demand and remain competitive.

Stronger relationship with suppliers

We have developed a strong relationship with our supply partners which has led to better deals, more favourable payment terms, and improved delivery times, factors that have positively impacted the bottom line.

Better risk management

Our robust procurement strategy helps to identify and mitigate risks related to supply chain disruptions, quality control issues, or legal and compliance concerns.

Improved budgeting and forecasting

A well-defined procurement strategy provides more accurate cost estimates and forecasts, which helps us to better plan for future expenditures and avoid unexpected expenses.

Encouraging digital adoption

To add efficiency to our operations, improve the quality of products and ensure agility across the organisation, we are embracing digitalisation across the organisation. The integration of digital technology has improved our operations, significantly improved our performance and overall output.

Data analytics

Data analytics provides valuable insights into customer behaviour, preferences, and needs, enabling us to develop and deliver superior quality products and services that cater to specific requirements.

We have adopted varied technological tools and software, automated data collection, analysis, and reporting processes to enhance efficiency and ensure resource optimisation. The improved communication and collaboration capabilities offered by digital technology have strengthened our teams and allowed us to collaboratively accomplish shared objectives.

SAP S/4 HANA

We have adopted a comprehensive and real-time business suite, SAP S/4 HANA which provides advanced analytics, robust data processing and real-time insights to support instant decision making within the organisation.

Benefits

SAP S/4 HANA revolutionises data processing, offering real-time access to accurate information across operations, finances, and customers. Its advanced analytics empower businesses to seamlessly analyse great volumes of data, gain valuable insights into their operations, customers, and markets. These insights facilitate informed decision-making by identifying trends, patterns, and opportunities. By providing a centralised platform, SAP S/4 HANA

fosters collaboration and data sharing among departments, enhancing communication and ensuring information consistency. Its mobile-friendly nature, with Fiori Apps, also enables employees to access critical data. Additionally, its predictive analytics capabilities empower companies to forecast future trends, detect potential risks, and proactively address them.

Data security and privacy

With the rapid advancement of technology, cyber threats are becoming more frequent and complex. To safeguard and protect personal information and the privacy of the organisation, we are remaining vigilant and are taking initiatives to enhance our cyber security practices.

Our initiatives

- Regularly update systems and software to address vulnerabilities and protect against known threats.
- Installation of firewalls and antivirus software to monitor and block unauthorised access to our network and systems
- Create awareness among employees through training programmes to ensure password hygiene, protection against phishing scams and other social engineering tactics.
- Adoption of multi-factor authentication to reduce the risk of unauthorised access and cyber-attacks.
- Security audits and risk assessments at regular intervals to identify the areas of improvement and implement appropriate security measures.
- To protect against data theft and ransomware attacks, we use software to backup our data.

Bolstering marketing and sales

To improve our reach and enhance our sales functions, we remain determined to undertake efforts that help to maintain steady sales volumes and continuous revenue generation. Moreover, to retain our competitive edge, we lay emphasis on Quality, Service and Customer Satisfaction as key priorities.

Our marketing strategy encompasses the following:

Quality commitment

Pricing commitment

Customer service

Focus on customer delight

We are determined to ensure customer delight. Our teams actively engage with customers and strive to understand their unique needs. It lends them the capability to communicate specific customer requirements and aid the design and development of different grades of paper.

Strengthening product mix and market presence

We have made significant strides to increase sales in the domestic market. Building on this momentum, we aim to maintain the sales volumes achieved for packaging boards or newsprint and writing and printing paper, to further strengthen our market presence. Additionally, we are committed to enhance our export position, seize opportunities in international markets and expand our reach.

Building an empowered workforce

We believe that an Enabled, Empowered & Engaged workforce is key to success for the organization to deliver superior performance. Therefore, we empower our people to accomplish organisational objectives and ensure steady career progression through continuous learning and development. We strive to create an inclusive and diverse work culture where employees are valued and respected.

Talent acquisition and management

Talent Management

To Attract, Retain & Nurture Talent for Making a Future Ready Organization

Total Rewards

To Reward for Excellence & Growth Mindset and Extended Rightful Treatment to all Employees

Employee Engagement

To Encourage Inclusion & Participation by Providing Freedom to Express, Experiment & Innovate

Performance Management

To Enable & Motivate Employees to Perform at Best of their Abilities & Produce Superior Results

HR Architecture

We nurture talent and create an inclusive, diverse & performance driven work culture to become a high performing and future ready organization. We foster a culture of continuous learning & development. We ensure that leaders exemplify the desired values and behaviors, and promote a culture of trust, integrity, and accountability.

Leadership development

Leaders of tomorrow

The Leaders for Tomorrow (LFT) programme enables us to identify & develop future leaders. It is to identify young talent below 45 years & nurturing them by providing extended exposure and opportunities to become future ready.

LEAD

LEAD stands for learn, educate and develop that allows senior employees to pass on their experiences and knowledge to subordinates. It serves as a platform for mentoring and learning from experienced colleagues, enabling the transfer of valuable insights to future generations.

Talent Management Plan

Our TMP (Talent Management Plan) is tailored to the needs of each employee. We assess an individual's strengths, areas of improvement and identify training needs. It aims to bridge the competency gaps of each employee and enhance their skills and capabilities.

Rewards and recognition

Our rewards and recognition programme has been built on four key pillars encompassing safety, performance, business excellence, and learning. It aims to motivate and acknowledge employees who contribute to these areas and drive overall organisational success.

4 key pillars

Health & Safety

Performance

Business excellence

Learning & Development

The first pillar focuses on fostering a safety culture within our organisation. We acknowledge and reward employees for their outstanding safety performance and contributions.

The second pillar revolves around performance. We recognise individuals who demonstrate exceptional performance compared to their peers. This includes awards for young achievers and emerging leaders who showcase outstanding abilities in their respective fields.

The third pillar is centred around business excellence. We celebrate and reward individuals or teams that set new records, achieve significant milestones, and implement innovative best practices. We also recognise collaborative efforts through group activities and acknowledge initiatives that lead to continuous improvement.

The fourth and final pillar is dedicated to creating a learning organisation. We encourage a growth mindset and foster a culture of continuous learning. Employees and departments that actively engage in training programmes, with an emphasis on senior employees who contribute as trainers, are duly rewarded.

Health management practices

Our health management practices include regular health examination, emergency preparedness - MERP (medical emergency response plan), first aid and awareness. We also organize monthly special health camps. We assess & track health status of employees classify them in Red, Yellow & Green category & with regular monitoring we support improvement in their health status.

Safety management practices

- Our safety initiatives prioritize both engagement and enforcement. Our Top Management closely monitors and guides on key safety practices.
- With 'Safe Place to Work' campaign, we leverage technology for reporting of leading indicators. Initiatives like Hazard Hunting, Dekho-Roko-Bolo & 3 Stage Audit Systems have made our factory a 'Safe Place to Work'.

- Our empowerment program and Reward & Recognition programs in safety & housekeeping have been key to drive the TPM & 5S initiatives.
- We have taken safety beyond our premises. Our safety team shares knowledge & safety acumen with the students of engineering colleges in vicinity. We also act as mentors for safety to the surrounding smaller industries.

Towards a greener tomorrow

As an eco-conscious organisation, we realise our responsibility towards the environment. The paper industry is a resource intensive sector and we understand our obligation to minimise the impact of our operations on the planet. To create a sustainable future, we undertake measures to minimise energy consumption, conserve water and reduce waste.

Limit energy usage

We prioritise energy efficiency to fulfil our commitment as a sustainable and responsible organisation. To achieve our objectives, we have implemented targeted strategies to minimise energy usage.

Our initiatives

- In our de-inking plant, the old disc filter pumps with power ratings of 110 kW each were replaced with new energy-efficient pumps of 90 kW. It resulted in daily energy savings of 1,270 kWh, even when newsprint production is continuously carried out.
- The speed of the boiler feed water pump was reduced from 90% to 88% (2720 RPM to 2660 RPM), leading to a daily energy saving of 240 kWh.
- In the Effluent Treatment Plant (ETP), the old air blower was replaced with a new blower, resulting in daily energy saving of 480 kWh.
- The blade angle of our cooling tower was optimised from 16 degrees to 12 degrees, to achieve daily energy saving of approximately 170 kWh.

- In one of the boilers, three coal spreader motors with power ratings of 3.7 kW each were permanently stopped by modifying the overfeeding chute arrangement. This modification resulted in power saving of 190 kWh per day.
- Our old Primary centri cleaner pump was replaced with a new energy-efficient pump leading to a daily energy saving of 288 kWh during news print run.
- The old Secondary centri cleaner pump was replaced with a new energy-efficient pump, resulting in a daily energy saving of 300 kWh during news print run.

Water conservation

We have undertaken various initiatives to ensure optimum resource utilisation and reduction of water consumption. It has minimised the need for additional water treatment, and helped to achieve substantial cost savings. Additionally, these initiatives contribute to environmental sustainability by conserving water and reducing our ecological footprint.

Our initiatives

- In our production process, the low-pressure shower now utilises saved clear water instead of fresh water. This not only conserves fresh water resources but also ensures the use of clear water without the requirement for additional treatment.
- To prevent water overflow from the HP tank, a float valve has been installed. This mechanism ensures that water levels are properly regulated, preventing wastage and potential damage from excessive overflow.
- The couch vacuum pump water recirculation system has been implemented. This system recirculates and reuses the water, optimising water usage and reducing overall consumption.
- The blower cooling water, is now redirected to the cooling tower in the effluent treatment plant (ETP). By reusing this water, the facility conserves resources and minimises the demand for fresh water.
- Water from the rewinder and hydraulic heat exchanger is collected and sent to a water reservoir for reuse. This recovery system allows the facility to maximise the utilisation of water resources and minimise wastage.
- The clear water obtained from the Dissolved Air Flotation (DAF) process undergoes further treatment. It passes through a multimedia filter and activated carbon filter before being reused. This multi-stage treatment ensures its efficient reuse in the production process. By minimising the consumption of fresh water, this process significantly reduces water usage and associated costs.

Waste reduction

We understand that our actions have an impact on the planet, and we are committed to minimising that impact by implementing effective waste reduction measures.

Our initiatives

The fly ash generated from our facility is sent to brick manufacturing units. It has ensured proper waste management and has also reduced the burden on landfills.

We have made a significant reduction in coal consumption by 40 tons per day (TPD) through the co-firing of ETP (Effluent Treatment Plant) primary sludge in the boiler. This innovative

approach ensures efficient utilisation of the sludge as a fuel source, thereby minimising the reliance on coal and decreasing the associated environmental impact.

The secondary sludge generated in the process is recovered and transformed into valuable manure through the utilisation of a decanter. This sustainable practice enables the

conversion of sludge into a beneficial resource that can be used for agricultural purposes, contributing to waste reduction while also promoting soil health.

Ensuring protection of natural resources

We prioritise the preservation of natural resources and integrate sustainable practices into our production process. One of the key initiatives revolve around the development of greenbelts which play a vital role in supporting biodiversity, creating a natural habitat for various specie of plants and animals and preserving the ecological balance.

Besides, we understand the importance of preserving the depleting forest cover. As a result, instead of depending on wood pulp to produce paper, we prioritise the use of waste paper and recycled fibre as a primary raw material for manufacturing paper and board. By doing so, we significantly reduce the demand for fresh timber, alleviate the pressure on forests and mitigate the negative impacts of deforestation.

Minimising carbon emission

Primary sludge burning as co-fuel

We are the only waste paper mill in India that has substantially reduced coal consumption and minimised carbon emission. To avoid disposal in landfills and prevent groundwater contamination, we have chosen to burn 100% primary sludge from our Effluent Treatment Plant (ETP) as a co-fuel in our power boiler.

Additionally, we have successfully demonstrated that co-firing de-inking sludge with coal has no adverse impact on the environment. In fact, this practice has led to a reduction in local air pollutants and greenhouse gas emissions. By substituting 40TPD (tons per day) of coal with primary sludge, we have significantly reduced the emission of air pollutants such as sulfur dioxide (SO₂), carbon dioxide (CO₂), nitrogen oxides (NO_x), and suspended particulate matter (SPM).

Online Ambient Air Quality Monitoring

The Company has implemented an advanced online ambient air quality monitoring system to minimise pollution and carbon emissions. This system includes three strategically positioned monitoring stations, covering the entire plant area at a 120-degree angle from the central emission point.

The main objective of this monitoring system is to continuously evaluate and track the air quality in the vicinity. Real-time data on various parameters related to air pollution is collected and transmitted to the industry's main gate. This data is accessible to the public, as well as regulatory bodies like the Central Pollution Control Board (CPCB) and State Pollution Control Board (SPCB).

Through active air quality monitoring, it creates a suitable and healthy environment for workers. Prompt actions can also be taken based on real-time monitoring of data. This approach helps to preserve air quality, safeguard human health, and minimise adverse impacts on the environment.

Caring for communities

We realise our responsibility towards communities and society as a whole. It motivates us to engage in activities that have a meaningful impact on lives and foster sustainable development.

Our CSR strategy is centred around the seven pillars of:

Education

Healthcare

Sustainable Environment

Animal Welfare

Livelihood & Women Empowerment projects

Rural Development & Community Welfare projects

Protection of National Heritage and promoting Art & Culture

Education

Our CSR initiatives in the education sector aim to provide equal access to quality education, regardless of background or socio-economic status. We address the needs of underserved communities and our efforts revolve around infrastructure development, scholarship to deserving students & supply of study materials. In FY 2022-23, we supplied benches, desks, notebooks, furniture, and financial assistance to students. We are providing exposure & shaping the future of more than 1,000 tribal students in our new CBSE affiliated EMAMI KISS School.

'TEACH' an ADULT mission

In our commitment to promoting literacy, we understand that age should not be a barrier. We firmly believe that literacy is a fundamental human right and serves as a catalyst for personal development, social advancement, and economic empowerment. As part of our upcoming initiatives in the following financial year, we are planning to launch an Adult Literacy project known as 'T E A C H' which aims to bring adult literacy to ~ 20 villages in the locality. Through the mission, we aim to empower adults with the necessary literacy skills to improve their lives and enhance contributions to communities

Sustainable environment

We strongly emphasise the significance of preserving our environment for the well-being of present and future generations. Acknowledging the pressing environmental challenges, we are determined to reduce our environmental impact and strongly advocate environmental stewardship. In FY2023, we have planted more than 1,400 plants, furthering our commitment to forest conservation. Additionally, we have distributed more than 1,600 fruit-bearing plants to approx. 400 families within the community to encourage sustainable practices.

Animal welfare

We acknowledge the significance of treating animals responsibly and with kindness. Our organisation diligently tended to a herd of approx. 192 neglected cattle and created provision for their shelter and nourishment.

Women empowerment

Our women empowerment programmes strive to cultivate a nurturing ecosystem that fosters entrepreneurship, enhances its economic resilience, and fosters overall well-being. The impact of these programmes are gauged not only by economic outcomes but, also by the women's social empowerment, improved self-esteem, and elevated social standing. We have partnership with Govt of Odisha under “Mission Shakti Mission”, we initiated a complimentary tailoring training programme for women's in neighboring village, in another neighboring village we have arranged Mushroom Cultivation Training Program and startup ecosystem for the needy women.

Rural development and promotion of art and culture

In FY2022-23, we installed street lights in rural areas and financial assistant was provided to an old age home. Additionally, ~ 1,160 blankets were distributed, and financial support was extended to local organisations and the District Administration to promote art and culture for the support of handicraft artisans.

Awards & Accolades

▶ “Great Place to Work” recognition was granted to the Company by the “Great Place to Work – India”. This coveted certification is valid from January, 2023 to January 2024.

▶ Energy Excellency Award by CII (Eastern Region) in which the Company was adjudged as “State Champion - Odisha”.

▶ “Odisha” Leadership Award-2023” as most iconic organisation presented by World Manufacturing Congress

▶ “KALINGA CSR AWARD-2022” for CSR initiatives from IQEMS, IPE & OSPC Bhubaneswar BY Hon. Finance Minister Of The State

Management discussion and analysis

Global economic overview

In CY2022, global economies reeled under the impact of numerous headwinds in the wake of mounting inflationary pressures and the Russia-Ukraine conflict in Europe. The sustained hike in interest rates by Central Banks to tame inflation and the ongoing food and energy crises in Europe are impeding economic activity.

Throughout the course of FY23, a stronger boost from pent-up demand in several economies or a sharp fall in inflation is anticipated. The emerging and developing economies of the world are gaining ground and are likely to play a crucial role in accelerating global economic growth in the years ahead.

According to the IMF, India and China are expected to contribute more than 50% of the global growth in CY2023. As the headwinds in the Asia-Pacific region start to fade, the Emerging Market & Developing Economies (EMDEs) are set to clock a growth rate of 5.3% in CY2023.

Global economic output is expected to witness a slow yet steady rebound, driven by stabilising inflationary trends, reviving consumer sentiment and increasing investor confidence. The employment scenario in the US as well as other advanced economies has been promising when compared to pandemic levels and higher disposable income is also anticipated to facilitate the economy's growth in the upcoming years.

Indian economic overview

India’s economy remained relatively shielded from the gloomy global outlook and emerged as the fastest-growing major economy in the world. The domestic economy demonstrated remarkable resilience to global headwinds during FY 2023. The second advance estimate by the National Statistical Office (NSO) reveals that the Indian economy is on track to clock a growth rate of 7% in FY 2023.

Based on sectoral analysis, it can be reported that this growth is driven by robust construction activity facilitated by robust infrastructure investment both by the Central Government and state governments, which is paving the way for large-scale employment opportunities as well.

A sustained hike in GST collections, electronic toll collections and the volume of E-Way bills generated during FY 2023 signify encouraging momentum. Indicators of the services sector (UPI transactions, high credit demand) also indicate sustained expansion.

While the post-pandemic private investment recovery is still at an early stage, there are tentative signs that indicate that India is poised for a stronger investment upcycle in both the manufacturing and services sectors.

Overall, demand conditions in India remain conducive to economic growth. India remains bullish about the new fiscal year, bolstered by underlying and overall macroeconomic stability, while remaining cautious of emerging geopolitical and geo-economic concerns.

Union Budget 2023-2024

The objectives of the FY 2023-24 Union Budget are aligned with India's ambitions for the 'Amrit Kaal' era, which is the period leading up to its 100th year of Independence. The Union Budget for FY 2023 is expected to foster equitable growth and strengthen India's position as the leading fast-growing large economy globally.

The Budget reinforces the goals of fostering India's self-reliance, encouraging investment across multiple sectors, and strike a balance between borrowing and spending. Reductions in personal taxes are anticipated to boost consumption across all consumer segments.

Saptarishi- 7 priorities

The Government has announced an enhanced capex of INR 10 lakh crore for the third consecutive year, which is aimed at bolstering economic growth, creating job opportunities, pitching in private investments and protecting the economy from global challenges. The effective capital expenditure of the Central Government will be INR 13.7 lakh crore in FY 2023-24. Additionally, the Government has established a new Infrastructure Finance Secretariat to promote and facilitate private investment in infrastructure projects.

The Indian government has offered an enhanced impetus to the Defence Sector by allocating INR 5.94 lakh crore for the current fiscal year, as compared to last year's INR 5.25 lakh crore. Out of this, INR 1.62 lakh crore has been earmarked for capital expenditure, which includes the procurement of new weapons, aircraft, warships and other military hardware.

The Government has set a target of reducing the fiscal deficit to below 4.5% by FY 2025-26. Additionally, a revamped credit guarantee scheme for Micro, Small and Medium Enterprises (MSMEs) is set to be executed on April 1, 2023, with an allocation of INR 9,000 crore in its corpus. This scheme aims to provide additional collateral-free guaranteed credit of INR 2 lakh crore and lower the cost of credit by approximately 1%. Furthermore, the Government will roll out the Pradhan Mantri Kaushal Vikas Yojana 4.0, a scheme to upskill the youth for capitalising on international opportunities. Towards this end, 30 Skill India International Centres will be established across various states in the country.

The Indian government has designated INR 35,000 crore as priority capital for the transition to renewable energy. A green credit programme will be notified under the Environment Protection Act to support this initiative. Additionally, the Government has launched the National Green Hydrogen Mission, which will receive an outlay of INR 19,700 crore. This Mission aims to facilitate the country's transition to a low carbon economy (LCE), reduce dependence on fossil fuel imports and enable the country to gain technology and market leadership.

The Union Budget for 2023-24 allotted an enhanced outlay of INR 2.70 lakh crore for the highways sector. The allocation for the National Highways Authority of India (NHAI) has increased by 13.90% to INR 1.62 lakh crore for FY 2023-24. Moreover, the scope of services provided by DigiLocker is set to be expanded, offering greater accessibility and convenience to users. Additionally, 100 labs for creating applications that use 5G services will be developed in engineering institutions, further promoting the country's technological advancement.¹

Industry overview

Global paper industry

The global market for pulp and paper was worth USD 387.6 billion in 2022 and is expected to reach USD 477.7 billion by the year 2028, with a compound annual growth rate (CAGR) of 3.5% between 2022 and 2028.² Higher demand for eco-friendly packaging products, as well as developments in recycling infrastructure within the pulp industry are projected to drive this growth. Moreover, the demand for pulp-based packaging is anticipated to witness a surge in the near future owing to growing public aversion to plastic and government initiatives aimed at limiting the use of single-use plastics. These factors are likely to contribute to the global pulp and paper market's expansion.

The ever-growing demand for paper from the chemical and industrial processing industries in both advanced and emerging economies has boosted the pulp and paper market. Additionally, diversifying the range of applications for paper and pulp in packaging materials, particularly in developing nations, coupled with the growth of varied end-user sectors, is driving market growth.

Challenges faced

The global paper industry has confronted several headwinds that have contributed to the present all-time high pulp prices. One of the key concerns is the geopolitical conflict in the West, which has led to trade tensions and higher tariffs on certain products. This has made importing pulp from certain regions more challenging and expensive for paper manufacturers.

Apart from the trade tensions, the resurgence of COVID in China affected the global supply chain for pulp and paper products. The geopolitical conflict between Russia and Ukraine led to disruptions in raw material production and shipping, particularly pulp. This further exacerbated the already strained supply chain, leading to shortages and inflated pulp prices. These high pulp prices have had a ripple effect throughout the paper industry, with manufacturers battling to sustain profitability due to rising raw material costs.

Notwithstanding these challenges, the global paper industry has demonstrated sheer resilience by adapting to evolving market trends. Many businesses are exploring alternative sources of pulp, such as recycled materials and sustainably managed forests, to reduce their reliance on imported raw materials. Additionally, technological advancements and enhanced production processes are assisting manufacturers to improve efficiency and reduce waste, thereby helping offset the higher costs of pulp.

India's paper industry

The paper industry in India is expanding at a phenomenal pace, which is one of the swiftest observed worldwide. Between 2022 and 2028, the Indian paper market is projected to grow at an 8%

Compound Annual Growth Rate (CAGR). This growth trajectory is predicted to persist in the upcoming years, owing to the Indian economy's sound macroeconomic fundamentals and its ability to withstand the consequences of global disruptions.

The paperboard and industrial packaging paper markets, as well as the newspaper print markets, are estimated to account for over 70% of the total paper market share. However, the stationery paper and speciality paper sectors are predicted to experience an upward trend in annual market growth in terms of volume, while the growth of the stationery paper market in terms of value is likely to decline. At present, the growing demand for environment-friendly products is driving manufacturers to seek effective ways to meet this emerging demand. The paper industry is benefiting from technological advancements, which have resulted in improved production capacity and reduced fuel costs, among other advantages, thus enabling the industry to scale new heights.³ The pandemic adversely impacted paper consumption, leading to a sharp decline. However, demand has recuperated strongly in the current fiscal year, surpassing pre-pandemic levels.

The lockdown of the Chinese economy caused mills in China to flood the Southeast Asian market with their paper goods, significantly affecting paper businesses in India, which relies on this market for its exports. As a result, Indian companies saw a drop in their market share and profitability. Furthermore, an energy crisis in the Euro region posed a severe threat to the industry.

However, the industry has made great strides in limiting various consumption parameters, such as power and water consumption, as well as other environment-related factors. Specifically, water consumption has decreased by 75% compared to its previous levels and energy consumption has also declined by 30%.⁴

Packaging paper industry

Fast-Moving Consumer Goods (FMCG), pharmaceuticals and e-commerce sectors are anticipated to contribute to India's packaging paper industry's substantial growth in recent years. Moreover, the pandemic has expedited the growth of the packaging industry owing to the higher consumer preference for online shopping, which has resulted in a surge in demand for corrugated boxes and alternative packaging materials.

The packaging paper industry encounters a significant obstacle in terms of sourcing raw materials such as pulp and wastepaper, which often pose availability and cost-related challenges. The Government is adopting measures to tackle this concern by promoting the use of agro-based raw materials and introducing several policies to encourage wastepaper recycling. Another factor that is likely to propel the packaging paper industry's progress is the greater emphasis on eco-friendly packaging solutions. Businesses are dedicating their resources to investing in sustainable packaging alternatives, particularly paper-based options to replace plastic packaging.

²<https://www.researchandmarkets.com/reports/5661719/global-pulp-and-paper-market-volume-value>

³<https://www.researchandmarkets.com/reports/4593544/india-paper-market-overview-2022-28>

⁴<https://papermart.in/indias-paper-industry-towards-global-competitiveness-sustainability/>

It is expected that the paper packaging sector in India will sustain its growth trajectory, with revenues projected to improve by 14-16% during FY 2022-23, following a growth rate of approximately 35% in FY 2021-22.⁵ This growth can be attributed to increased volume, which is likely to drive the utilisation levels of industry players to near-optimal levels, consequently stimulating capacity expansion through the removal of supply chain bottlenecks and the establishment of new manufacturing facilities.

As per CRISIL Ratings, the paper packaging industry accounts for approximately 40% of the total revenue generated by the paper sector. This underscores the crucial role played by paper packaging in the overall paper packaging industry. The capacity of the paper sector is largely dominated by paper packaging, accounting for approximately 55-60% of the total capacity.

Writing and printing paper industry

The growth of the printing and writing materials market is being propelled by the increasing demand for printed catalogues. Retailers are executing multi-channel marketing strategies that integrate both online and physical marketing channels. The distribution of printed catalogues has emerged as a vital sales and marketing tactic to reach customers in the offline segment.

The writing and printing segment holds a considerable share of approximately 25% in India's paper industry, whereas the newspaper segment accounts for nearly 10%.⁶

Packaging sector growth to drive printing paper market

Considering the widespread use of tissue and packaging materials, global demand for printing papers has climbed immensely. The higher demand for containerboards has boosted the need for printing materials used in tissues and packaging. However, the Company's operations may be impeded by the stringent environmental regulations that govern the paper and pulp industry. Nonetheless, the adoption of innovative packaging solutions is likely to provide a major impetus to the printing paper industry's growth.

Company overview

Since its inception in 1981, Emami Paper Mills Limited has emerged as a leading Indian manufacturer of writing and printing paper, newsprint and packaging boards. The Company has undertaken rapid product range diversification, augmented production capacities and achieved a strong foothold in both domestic and international markets. The Company is committed to sustainability and has incorporated precise measures to safeguard the environment in its current as well as future operations. The Company's innovation-led strategy has also contributed to its success. Furthermore, the Company's resolute focus on customer-centricity and its robust reputation have enabled it to reinforce its leading position in the Indian paper industry.

Manufacturing location

Size press installation

The Company completed the installation of its size press in September this year, which is mainly used for writing paper printing.

Opportunities

Rising focus on sustainable packaging

The Government and consumers are increasingly focusing on environmentally sustainable packaging solutions, which presents an opportunity for the Company as paper-based packaging is a more eco-friendly alternative to plastics and other non-biodegradable materials. The Company can capitalise on this opportunity by investing in research and development to create innovative and sustainable packaging solutions.

Increasing demand for paper products

The increasing demand for paper products in the country presents a significant opportunity for the Company to grow and expand its operations. The growth in demand is driven by several factors, including the expansion of the Indian economy, population growth and increasing awareness among the people.

Growing e-commerce sector

With the expansion of e-commerce businesses, an increase in the demand for packaging materials, specifically those made of paper and paper-based products, is projected. The Company can capitalise on this opportunity to capture a substantial portion of the growing e-commerce packaging market, thereby ensuring sustained growth and success.

Expansion of the digital printing industry

Digital printing is gaining popularity due to its high-quality output and fast turnaround times; however, it requires a range of specialised papers. As a leading paper manufacturer, the Company can tap into this growing demand for digital printing papers and cater to the needs of this expanding industry.

Threats

Intense competition

The paper industry in India is highly competitive, with a large number of players operating in the market. There are many established players in the paper industry, as well as new entrants and smaller companies trying to capture a sizable market share. This creates competition, with businesses vying for customers and striving to maintain their market position. Moreover, competition from imported paper products is also a significant threat to the domestic paper industry in India. This can lead to price wars and reduced profit margins for the Company.

Digitalisation

The higher prevalence of digital devices and the shift towards a paperless society can impact the demand for paper products. With the advancement of technology, people are increasingly relying on electronic communication and storage, resulting in reduced demand for paper products. Additionally, e-books and e-magazines are gaining popularity, resulting in a decline in demand for physical paper books and magazines. This can result in reduced sales and profits for the Company.

Volatile raw material costs

The Company relies heavily on raw materials such as pulp and other chemicals to manufacture its products. With rising global demand and supply chain disruptions, the cost of these raw materials is expected to increase significantly, thereby affecting the Company's profit margins.

Fluctuations in foreign currency rates

The Company is involved in the import and export of raw materials and finished products, which exposes the Company to the risks of foreign currency fluctuations. Any significant variation in the value of the Indian rupee against major currencies can potentially affect the cost of raw materials, the pricing of finished goods and ultimately the profitability of the Company.

Risk management

The Company is exposed to varied risks, both within and outside its operational domain. To proactively track, control and alleviate these risks, the Company has implemented a range of systems, procedures and review mechanisms.

Risk Category	Risk Description	Mitigation
Asset utilization risk	Erratic demand could affect asset utilization.	The company possess a fungible capacity between newsprint as well as writing & printing paper, responding flexibly to market movements that ensured that its capacity was adequately utilized, empowering the company to amortise fixed costs effectively.
Raw material risk	The Company's operations depend on the procurement of pulp from overseas entities, as it is an essential ingredient in the production of paper. The accessibility of pulp significantly affects the Company's paper manufacturing business.	The Company is continuously exploring alternative sources of raw materials to mitigate the impact of imported raw material costs. The company's purchase department keeps a careful eye on the market. In addition to making strategic purchases in the event of supply shortages, effective hedging strategies are implemented based on market knowledge to balance increases in raw material costs.
Talent risk	The Company faces the risk of talent attrition.	The company strengthened its people-facing initiatives, enhancing a pride of association. The company provided an exciting workplace that was delegated, empowered and incentivised. The result is that people retention was a high during the year under review.
Regulatory compliance risk	The Company operates in a highly regulated industry and non-compliance with regulations can result in legal penalties and damage to the Company's reputation.	The Company instituted a team to monitor compliances, ensuring that this was done promptly and comprehensively.

Risk Category	Risk Description	Mitigation
Currency risk	The Company exports a significant portion of its products and fluctuations in foreign exchange rates can affect its profitability.	All outgo in foreign currency including loans are hedged by way of Forward contracts.
Economic risk	Economic downturns can affect the demand for paper products and adversely impact the Company's revenue.	The Company had broad-based its product mix to moderate an excessive dependence on any one segment, though the packaging segment accounted for the largest revenue proportion.
Quality risk	The Company's failure to provide customers with high-quality products may have an adverse effect on the demand for its products.	The company's certifications (ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018) show that it complies with modern quality, environmental, and safety standards.
Liquidity risk	The occurrence of substantial debt may have an adverse impact on both the liquidity and profitability of the Company.	The company continued to make value-added paper varieties, enhanced capacity utilization, negotiated competency for resources (terms of trade), and moderated debt through timely repayment, strengthening its liquidity.
Cyber security risk	Serious cyber-attacks can lead to the compromise of crucial information, thereby causing substantial financial repercussions for the overall operations of the Company.	The company has an IT Security Policy, and the in-house IT Team ensures that internal data breaches do not occur by adopting in-place data backup with Microsoft OneDrive and Bit locker encryptions. Access control and firewall security also safeguard endpoint systems from Malware, virus, Trojan, and Ransomware.

Sustainability

Sustainability has always been a business imperative at Emami Paper. The Company has always promoted environmental consciousness with an unwavering focus on recycling. The Company is committed to sourcing wood pulp only through suppliers certified by the Forest Stewardship Council (FSC). The Company's firm commitment to protecting and safeguarding the environment highlights its dedication to responsible business practices. This has also positioned the Company in a sweet spot to witness sustained growth in a world where sustainability is becoming increasingly vital.

Internal control systems

The Company has implemented a comprehensive internal control mechanism to ensure the efficient and secure conduct of its operations. The controls are designed to prevent and detect frauds and errors, maintain accurate and complete accounting records, and ensure timely preparation of reliable financial information as per the Management Information System (MIS). The primary objective of these controls is to provide reasonable assurance regarding the proper accounting controls, reliable financial reporting, and monitoring of operations while protecting the Company's assets from unauthorised use or losses and ensuring compliance with regulations. The Company has made sustained efforts to align its processes and controls with global best practices.

In addition to implementing robust internal controls, the Company has engaged the services of an external and independent Audit Firm to act as its internal auditors. The role of these auditors is to periodically review and monitor the effectiveness of the Company's internal control measures pertaining to its operations.

During the meetings of the Audit Committee, internal auditors are in attendance to discuss their audit reports, management comments, and observations. The Audit Committee's Terms of Reference encompass various responsibilities, including reviewing the adequacy of the internal control environment, monitoring the implementation of action plans resulting from internal audit findings, and ensuring the Company's Risk Management Systems are strengthened in compliance with statutory mandates.

The Company operates a comprehensive budgetary control system, with key performance indicators (KPIs) established for all significant operational parameters. The management team regularly monitors and reviews these KPIs during Management Committee Meetings, which are chaired by the Whole-time Director of the Company and attended by all departmental heads. Necessary corrective and preventive actions are taken based on the findings and recommendations discussed during these meetings.

2. STATE OF COMPANY'S AFFAIRS AND OUTLOOK

During the year under review, your Company achieved a steady growth while continued to recover through global pandemic challenges and the uncertainty caused by the global geopolitical developments such as russia-ukraine war. The war contributed to high commodity prices, tightening of monetary policy and a growth slowdown. In addition, the lockdown of the Chinese economy caused mills in China to flood the Southeast Asian market with their paper goods, significantly affecting paper businesses in India, which relies on this market for its exports. As a result, Indian paper and paper board companies saw a drop in their market share and profitability. Furthermore, an energy crisis in the Euro region posed a severe threat to the industry.

During FY 2022-23, your Company witnessed a significant impact from the rising prices of major imported raw materials such as pulp, waste paper and fuel. Amidst a trend of global greenflation, there has been also a surge in freight rates and container costs. Currently, we are sourcing raw materials from countries like United States of America, United Kingdom, Canada, New Zealand, Indonesia, etc. During the pandemic period and even thereafter, there were bottlenecks with regards to supply chain which is gradually now streamlining.

Despite external volatile environment, your Company was able to achieve highest ever turnover i.e. ₹ 2,308 crore achieving a growth of 18% over the immediately preceding financial year. The EBITDA, Cash profit and Profit after tax (PAT) for the year under review stood at ₹ 237.29 crore, ₹ 160.69 crore and

₹ 69.17 crore respectively. During the year under review, the export sales of the Company declined mainly due to increase in export from China to the Southeast market at throwaway prices where the paper industry in India was exporting. This led to sharp fall in the prices of the Paper Board in the countries where the Company was exporting. In FY 2022-23, the Company's export sale stood at ₹ 270 crore compared to ₹ 586 crore in immediately preceding financial year.

During the year under review, size press successfully retrofitted in the largest newsprint machine of your Company making it suitable for producing other grades of papers. The trial run has been successfully completed. For the first time in the Indian Paper Industry, such a project in a running mill was successfully commissioned. With the successful commissioning of size press, the company was able to cater to the increasing market demand in the writing and printing paper segment apart from Newsprint. During the year under review, the writing and printing paper segment gave a good realization.

The implementation of a ban on single-use plastic starting from July 2022 has sparked a positive surge in the demand for paper-based products. This shift has resulted in promising growth opportunities for the paper board and packaging paper segment. To capitalize on this trend, paper manufacturers have proactively increased production and invested in advanced technologies to improve the quality and durability of their products.

Additionally, the aftermath of the COVID-19 pandemic has witnessed a significant transformation in consumer preferences towards eco-friendly and sustainable products. This shift in mindset has created a favorable market environment for the paper industry. Looking ahead, your company is well-positioned to leverage its state-of-the-art manufacturing facilities, market leadership in value-added paper boards, writing & printing paper and newsprint, as well as its established supply chain system. These strategic advantages will further enhance your company's leadership status in the Indian Paperboard and Paper Industry in the forthcoming years.

3. DIVIDEND

Your Director's are pleased to recommend dividend of ₹ 8/- (i.e. 8%) per preference share of face value of ₹ 100/- each and ₹ 1.60/- (i.e. 80%) per equity share of face value of ₹ 2/- each for the financial year ended 31st March, 2023. 9. Briefly describe the waste management practices adopted in your establishment. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Following are the waste management practices adopted:

A. Liquid waste Management:

Unit has full-fledged effluent treatment plant to treat papermill effluents and Sewage treatment Plant (STP) to treat domestic/ trade effluents. The treated effluent is being partly recycled for non-process application and balance is being discharged for cultivation purpose and part quantity to River as per CTO directions issued by OSPCB.

B. Air Pollution Management:

Unit has adopted various below Air Pollution Control technologies to control point source emissions and fugitive emissions.

- All coal fired boilers are well equipped with high efficient Electrostatic Precipitators(ESP's).
- Dry fog system is in place for dust suppression in Coal handling plants.
- Fixed water sprinkling system is installed to control fugitive dust.
- Mechanical wheel washing system is in place.
- Mobile water sprinkler for suppression of dust emissions on road.
- Concrete roads inside the plant to reduce generation of fugitive emissions.
- Adequate green belt has been developed in and around the plant premises.
- Fly ash handling with ash conditioning system.

C. Solid Waste Management:

(i) Hazardous waste Management

- Plastic waste is being disposed for cement plants for incineration.
- Used oil is being disposed for CPCB&OSPCB authorized agency.
- Used Lead acid batteries are being disposed on buy back policy.
- E-Waste is being disposed for authorized recycling units.

(ii) Non-Hazardous waste Management:

- 100% Fly ash is being disposed to Brick manufacturing units.
- ETP primary sludge is fired in boiler and some portion is being disposed to egg tray manufacturing units based on demand

The Company has acknowledged that the waste generated by its operations possesses potential value for various alternative uses. As a result, the company has strategically realigned its focus towards maximizing the utilization of this valuable resource within its operations through the optimization of existing processes. This shift has strengthened the company's dedication to reducing the environmental impact of its business activities by minimizing waste and promoting its re-use.

INDEPENDENT AUDITOR'S REPORT

To the Members of Emami Paper Mills Limited

Report on the Audit of IND AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of Emami Paper Mills Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2023, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash flow statement and the Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2023, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and ICAI the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

The Key Audit Matters	Auditors response
<p>1. Revenue from Sale of Goods</p> <p>Revenue from the sale of goods (hereinafter referred to as "Revenue") is recognised when the Company performs its obligation to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable.</p> <p>The timing of such revenue recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon delivery. The timing of revenue recognition is relevant to the reported performance of the Company. The management considers revenue as a key measure for evaluation of performance. There is a risk of revenue being recorded before control is transferred.</p> <p>Refer Note 2 to the Standalone Ind AS Financial Statements - Significant Accounting Policies and Note 2.32</p>	<p>Our audit procedures included the following:</p> <p>Assessed the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and tested thereof.</p> <ul style="list-style-type: none"> • Evaluated the integrity of the general information and technology control environment and testing the operating effectiveness of key IT application controls over recognition of revenue. • Evaluated the design, implementation and operating effectiveness of Company's controls in respect of revenue recognition. • Tested the effectiveness of such controls over revenue cut off at year-end. • On a sample basis, tested supporting documentation for sales transactions recorded during the year which included sales invoices, customer contracts and shipping documents. • Performed an increased level of substantive testing in respect of sales transactions recorded during the period closer to the year end and subsequent to the year end. • Compared revenue with historical trends and where appropriate, conducted further enquiries and testing. • Assessed disclosures in financial statements in respect of revenue, as specified in Ind AS 115.

The Key Audit Matters	Auditors response
<p>2. Inventory- Existence and Valuation of Inventory</p> <p>As indicated in note 2.9 of the financial statements, the value of the Company's inventories at the year end was Rs. 408.81 crores representing 20.68% of the Company's total assets. The existence of inventory is a key audit matter due to its direct relation to the business cycle of the Company.</p>	<p>Our audit procedures included the following:-</p> <ul style="list-style-type: none"> • Evaluation of the design and testing the operating effectiveness of the internal controls relating to physical inventory counts. In testing this control, we observed the inventory cycle count process on a sample basis, inspected the results of the inventory cycle count and confirmed that the variances were approved and appropriately accounted for. • Evaluation of the design and testing the operating effectiveness of the internal controls relating to purchases, sales and inventories including automated controls. • We have also performed alternate procedures and physical verification on sample basis for establishing the existence of inventory as at year-end by validating purchases, sales, and stock movement of inventory during the intervening time i.e. from the time physical verification started till the completion of verification. • For a representative sample, verification that the finished goods inventories were correctly measured, using a recalculation of the measurement of those inventories based on the cost of acquiring them from suppliers and considering the costs directly attributable to such goods. • Assessed the key estimates used by the Management to determine the net realisable value and the consistency thereof with the Company's policy on provision for non-moving inventory and performed a sensitivity analysis on the estimated selling price and compared with the cost.
<p>3. Upgradation of ERP Version</p> <p>The Company has upgraded its version of ERP (i.e. SAP) from ECC to HANA at an investment of Rs. 4.50 crores approx. as the Company's key financial accounting and reporting processes are highly dependent on information systems including automated controls and other systems used for its overall financial reporting.</p>	<p>Our audit procedures included the following:-</p> <ul style="list-style-type: none"> • Understood General IT Control i.e. access controls, program/system change, program development, over key financial accounting and reporting systems including operating systems and databases. • Reviewed and checked the migration process of data and documents and checked the capitalisation of expenses incurred for the same. • Test checked the General IT Controls for design and operating effectiveness for the audit period.
<p>Information Other than the Ind AS Financials Statements and Auditor's Report thereon</p> <ul style="list-style-type: none"> • The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis and Board's Report but does not include the financial statements and our auditors' report thereon. • Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. 	<ul style="list-style-type: none"> • In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated. • If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India prescribed under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate

to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be

communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The financial statements of the Company for the year ended March 31, 2022 included in these financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those financial statements dated May 25, 2022.

Report on Other Legal and Regulatory Requirements

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
 - (B) The Company has maintained proper records showing full particulars of Intangible assets.
 - (b) According to the information and explanations given to us and on the basis of our examination of the records of the company, the Company has a regular programme of verification to cover all the items of Property, Plant and Equipment in a phased manner over a period of three years. In accordance with this programme certain property, plant and equipment were physically verified by the management during the year. In our opinion this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of these assets. No material discrepancies were noticed on such verification.
 - (c) With respect to immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in property, plant and equipment, according to the information and explanations given to us and based on the examination of the registered sale deed / title deed provided to us, we report that, the title deeds of such immovable properties are held in the name of the Company as at the Balance Sheet date.
 - (d) The Company has not revalued any of its Property, Plant and Equipment and intangible assets during the year.
 - (e) According to the information and explanations given to us and on the basis of our examination of the records of the company, no proceedings have been initiated during the year or are pending against the Company as at 31 March 2023 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii. (a) The inventories were physically verified during the year by the management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of accounts.
- (b) The Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets during the year. We have examined the statements filed by the company with banks or financial institutions and reconciled the same with books of accounts. We didn't find any material discrepancies and are in agreement with the book of account of the Company.
- iii. In our opinion and according to the information and explanations give to us, the Company has not made investments in, provided any guarantee or security, or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships, or any other parties during the year, hence reporting under paragraph 3(a),(b),(c),(d),(e) and (f) of the Order is not applicable.
- iv. According to the information and explanations given to us and as per records examined by us, the Company has not granted any loans, not made any investments and has not provided guarantees and securities as applicable with the provisions of Section 185 and 186 of the Companies Act, 2013.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposit within the meaning of Section 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Hence, reporting under clause 3 (v) of the Order is not applicable.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies(Cost Records and Audit) Rules, 2014, as amended prescribed by the Central Government under Section 148(1) of the Companies Act, 2013 and are of the opinion that, prima facie the prescribed cost records have been made and maintained.
- vii. According to the information and explanations given to us in respect of statutory dues:
 - (a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Duty of custom, Cess and other material statutory dues applicable to it with the appropriate authorities during the year.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Duty of custom, Cess and other statutory dues in arrears as at 31st March, 2023 for a period of more than six months from the date they became payable.

(b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2023 on account of disputes are given below:

Name of the Statute	Nature of Dues	Amount (Rs. in Crores)	Period to which the amount relates (Financial Year)	Forum where dispute is pending
Central Excise Act, 1944	Excise Duty	0.01	1994-95	Commissioner of Central Excise (Appeal)

		0.17	2009-10	Commissioner (Appeal)
		0.01	2015-16	Tribunal

- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. (a) The company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender. Hence reporting under clause (ix)(a) of the Order is not applicable.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) According to the information and explanation given to us and on the basis of our examination of the records of the company, the Company has utilized the loan amount taken during the year for intended purpose.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) The Company does not have any subsidiary, associate or joint venture. Hence, reporting under paragraph 3(ix) (e) and (f) of the Order is not applicable to the company.
- x. (a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable.
- xi. (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality as outlined in the Standards on Auditing, we report that no fraud by the Company or on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of Section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) To the best of our knowledge and according to the information and explanations given to us there were no whistle-blower complaints, received during the year by the Company.
- xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, clause (xii) of the Order is not applicable.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the Ind AS financial statements as required by the applicable Indian Accounting Standards.
- xiv. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

- xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of Section 192 of the Companies Act, 2013 are not applicable to the company.
- xvi. (a) In our opinion, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi) (a) (b) and (d) of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us by the Management, there are two companies forming part of the group which have applied for registration as Core Investment Company (CIC) with the Reserve Bank of India.
- xvii. The Company has not incurred cash losses during the financial year and the immediately preceding financial year. Hence reporting under paragraph 3(xvii) of the Order is not applicable to the Company.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. According to the information and explanation given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly reporting under paragraph 3(xx)(a) is not applicable for the year.
- (b) There are no ongoing projects under sub-section (5) of Section 135. Accordingly reporting under paragraph 3(xx)(b) is not applicable .
- xxi. The Company is not required to prepare consolidated financial statements and hence, reporting under clause (xxi) of the Order is not applicable.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Emami Paper Mills Limited (“the Company”) as of March 31, 2023 to the extent of records available with us in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and

maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

Inherent limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in

conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India .

2. RECENT ACCOUNTING PRONOUNCEMENTS

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below :

- a) Ind AS 1, Presentation of Financial Statements – This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company does not expect this amendment to have any significant impact in its financial statements.
- b) Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors – This amendment has introduced a definition of accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company does not expect this amendment to have any significant impact in its financial statements.
- c) Ind AS 12, Income Taxes – This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company does not expect this amendment to have any significant impact in its financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of Compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

b) Basis of Preparation

The financial statements have been prepared on accrual and going concern basis and under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values as per Ind AS.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Notes to the Financial Statements

for the Year ended 31st March, 2023

c) Use of estimates and critical accounting judgements

In preparation of the financial statements, the Company makes judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

Significant judgements and estimates relating to the carrying values of assets and liabilities includes useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, provisions for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

d) Property, Plant and Equipment

An item of property, plant and equipment is recognised as an asset if it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. Property, plant and equipment are carried at cost, less accumulated depreciation and impairment. Cost of an item of property, plant and equipment is the cash price equivalent at the recognition date; if payment is deferred beyond normal credit terms, the difference between cash price equivalent and the total payment is recognized as interest over the period of credit. Cost includes all direct costs and expenditures incurred to bring the asset to its working condition and location for its intended use. Trial run expenses (net of revenue) are capitalised. Borrowing costs incurred during the period of construction is capitalised as part of cost of the qualifying assets. Capital work-in-progress comprises the cost of fixed assets that are not ready for their intended use at the reporting date.

Property, plant and equipment includes spare parts, stand-by equipment and servicing equipment which are expected to be used for a period more than twelve months and meets the recognition criteria of plant, property and equipment.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the costs to the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gain or losses are recognized in the statement of profit and loss.

e) Intangible assets

Intangible assets are recognised, only if it is probable that the future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the assets can be measured reliably. The intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

f) Depreciation and amortization of property, plant and equipment and intangible assets

Depreciation on property, plant and equipment is provided to the extent of depreciable amount on pro-rata basis over the useful life of respective assets as prescribed under schedule-II to the Companies Act, 2013.

- a. On straight-line method in respect of
 - i) Buildings of Paper machine-II, III, IV, ETP-II, Power Generation Unit-II & III at Balasore.
 - ii) Plant & machinery of Paper Machine III, IV, ETP-II, Power Generation unit-II & III at Balasore.
- b. On written down value method in respect of other assets.
- c. Leasehold land is amortised over the period of lease.
- d. Software licenses are amortised over the period of license.

Notes to the Financial Statements for the Year ended 31st March, 2023

Freehold land is not depreciated.

Addition to an asset, is depreciated over the remaining useful life of that asset, except when such addition retains a separate identity and is capable of being used after the asset is disposed off, such additions are depreciated independently over its own useful life.

Depreciable value of fixed asset is its cost of acquisition as reduced by estimated residual value.

g) Inventories

- a. Finished goods, stock-in-process, raw materials, stores, chemicals and spare parts are valued at lower of cost or net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value is the price at which the inventories can be realised in the normal course of business after allowing for the cost of conversion from their existing state to a finished condition and for the cost of marketing, selling and distribution.
- b. Valuation of inventory is done under weighted average cost formula.
- c. Inventories do not include items of spare parts which meets the recognition criteria of plant, property and equipment and be treated as such.

Provisions are made to cover slow moving and obsolete items based on historical experience.

h) Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, demand deposits with banks, other short term highly liquid investments with original maturities of three months or less.

i) Financial Instruments

Financial Assets:

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognised at fair value, in case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified as measured at

- amortised cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables:

A Receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are initially recognized at transaction price, and subsequently measured at amortized cost by providing loss allowance at an amount equal to lifetime expected credit losses. For some trade receivables the Company may obtain security in the form of guarantee, security deposit or letter of credit which can be called upon if the counterparty is in default under the terms of the agreement.

The company recognizes loss allowance on trade receivable, which does not contain a significant financing component, using "simplified approach" at an amount equal to Lifetime Expected Credit Loss (ECL) considering the risk or probability that a credit loss may occur, even if the possibility of a credit loss occurring is very low, time value of money based on reasonable and supportable information that are available.

Loss allowances on trade receivable are recognized in the Statement of Profit and Loss within other expenses.

Notes to the Financial Statements

for the Year ended 31st March, 2023

Debt Instruments:

Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

a) Measured at amortised cost: Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

b) Measured at fair value through other comprehensive income:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

c) Measured at fair value through profit or loss:

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

Equity Instruments:

All investments in equity instruments classified under financial assets are measured at fair value. The company in respect of equity investments, which are not held for trading made an irrevocable election based on its judgment to present in other comprehensive income subsequent changes in the fair value (FVOCI) of such equity instrument.

The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of Financial Asset

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

Financial Liabilities and Equity Instruments:

Classification as debt or equity

Debt and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Notes to the Financial Statements for the Year ended 31st March, 2023

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs. While equity instruments are issued to extinguish all or part of a financial liability, those are recognized at the fair value of the equity instrument issued.

Preference shares

Preference shares issued by the company are considered as equity when those are convertible either mandatorily or at the option of the company into pre-determined fixed number of equity shares of the company. In all other cases, preference shares are classified as debt.

Contingent settlement conditions if any attached with the preference shares that may require redemption of preference shares in cash, are evaluated according to the substance of the conditions as well as considering operation, performance and outlook of the company. Contingent settlement conditions, which have no genuine possibility of occurring or have an extremely rare chance of occurrence, does not affect classification of preference shares.

Financial Liabilities-

Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

j) Provisions and Contingent Liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Notes to the Financial Statements for the Year ended 31st March, 2023

k) Revenue Recognition

Sales represents amounts received and receivable from the goods supplied to the customers. Sales are recognized when control of the goods has been transferred to the customer. Controls are transferred by satisfying the performance obligation of the contract. Revenue towards satisfaction of a performance obligation is measured at the transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of the goods sold is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Income from export incentives such as duty drawback and premium on sale of import licenses are recognised on accrual basis. Incentives are recognized when there is reasonable assurance that the Company will comply with the conditions and the incentive will be received. Duties and taxes waivers for capital assets purchased under Export Promotion Credit Guarantee (EPCG) schemes are recorded as deferred revenue and recognized in Statement of Profit and Loss on a systematic basis over the periods in which the related performance obligations are fulfilled.

Dividend income is recognized when the unconditional right to receive the income is established. Income from interest on deposits, loans and interest bearing securities is recognized on a time proportionate method using underlying interest rates.

Insurance claims are recognised when there exists no significant uncertainty with regard to the amounts to be realised and the ultimate collection thereof.

l) Government grants:

Government grants related to expenditure on property, plant and equipment are credited to the statement of profit and loss over the useful lives of qualifying assets or other systematic basis representative of the pattern of fulfilment of obligations associated with the grant received. Government grants received is subject to any condition to be fulfilled by the Company, recognition of grant in the statement of profit and loss is made on a systematic basis in proportion to fulfillment of such condition. Total grants received less the amounts credited to the statement of profit and loss at the Balance Sheet date are included in the Balance Sheet as deferred income.

m) Expenditure:

Expenses are accounted on accrual basis.

n) Employee Benefits:

Defined contribution plans

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution, in respect of certain employees, is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Company's Liabilities on account of Gratuity and Earned Leave on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from Registered Actuary in accordance with the measurement procedure as per Indian Accounting Standard (Ind AS)-19., 'Employee Benefits' These liabilities are funded on year-to-year basis by contribution to respective funds. The costs of providing benefits under these plans are also determined on the basis of actuarial valuation at each year end. Actuarial gains and losses for defined benefit plans are recognized through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Notes to the Financial Statements for the Year ended 31st March, 2023

The Defined Benefit Plan can be short term or long terms which are defined below:

a. Short-term Employee Benefit

All employees' benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus, ex-gratia are recognized during the period in which the employee renders related service.

b. Long-term Employee Benefits

Compensated absences which are not expected to occur within 12 months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the Balance Sheet date.

o) Impairment of Non-Financial Assets:

At each Balance Sheet date, the Company reviews the carrying values of its property, plant and equipment and intangible assets to determine whether there is any indication that the carrying value of those assets may not be recoverable through continuing use. If any such indication exists, the recoverable amount of the asset is reviewed in order to determine the extent of impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. An impairment loss is recognised in the statement of profit and loss as and when the carrying value of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying value of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount so that the increased carrying value does not exceed the carrying value that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised in the statement of profit and loss immediately.

p) Extinguishment of financial liabilities with equity instrument

When any financial liability is extinguished in exchange of equity instruments; the difference if any, between the carrying amount of the financial liability extinguished and the fair value of equity instrument issued or exchanged (whether explicitly or constructively) is recognized in profit and loss statement in the period in which such extinguishment takes place.

q) Income Taxes:

Income tax expense for the year comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to an item which is recognised directly in equity or in other comprehensive income.

Current tax

Current tax is the expected tax payable/receivable on the taxable income/ loss for the year using applicable tax rates at the Balance Sheet date, and any adjustment to taxes in respect of previous years.

Deferred tax

Deferred tax is provided using the Balance Sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred

Notes to the Financial Statements for the Year ended 31st March, 2023

income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognised as deferred tax assets in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

r) Leases:

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Emami's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

s) Foreign Currency Transactions and Translations

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions are recognised in the Statement of Profit and Loss at the end of each reporting period.

In accordance with Ind AS 101, the company has continued capitalization of exchange differences arising on long-term foreign currency monetary items outstanding as on 31st March, 2016 in accordance with paragraph 46A of Accounting Standard 11, "The Effect of Changes in Foreign Exchange Rates". Accordingly, exchange differences arising from such long term foreign currency monetary items relating to the acquisition of a depreciable asset are added to or deducted from the cost of the depreciable capital asset. Other exchange differences are recognized as income or expenses in the Statement of Profit & Loss.

Monetary Assets and Liabilities in foreign currency that are outstanding at the year end are translated at the year end exchange rates and the resultant gain/loss is accounted for in the Statement of Profit & Loss.

t) Derivatives and Hedge Accounting

Derivatives are initially recognised at fair value and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gains / losses is recognised in the Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of recognition in profit / loss / inclusion in the initial cost of non-financial asset depends on the nature of the hedging relationship and the nature of the hedged item.

The Company complies with the principles of hedge accounting where derivative contracts are designated as hedge instruments. At the inception of the hedge relationship, the Company documents the relationship between the hedge instrument and the hedged item, along with the risk management objectives and its strategy for undertaking hedge transaction, which can be a fair value hedge or a cash flow hedge.

a. Fair value hedges –

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The change in the fair value of the designated portion of hedging instrument and the change in fair value of the hedged item attributable to the hedged risk are recognised in the Statement of Profit and Loss in the line item relating to the hedged item.

Notes to the Financial Statements for the Year ended 31st March, 2023

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to profit or loss from that date.

b. Cash flow hedges –

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income. The gains / losses relating to the ineffective portion is recognised in the Statement of Profit and Loss.

Amounts previously recognised and accumulated in other comprehensive income are reclassified to profit or loss when the hedged item affects the Statement of Profit and Loss. However, when the hedged item results in the recognition of a non-financial asset, such gains / losses are transferred from equity (but not as reclassification adjustment) and included in the initial measurement cost of the non-financial asset.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gains/losses recognised in other comprehensive income and accumulated in equity at that time remains in equity and is reclassified when the underlying transaction is ultimately recognised. When an underlying transaction is no longer expected to occur, the gains / losses accumulated in equity is recognised immediately in the Statement of Profit and Loss.

u) Segment Reporting:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

v) Earnings Per Share:

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

w) Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

x) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Discounts or premiums and expenses on the issue of debt securities are amortised over the term of the related securities and included within borrowing costs. Premiums payable on early redemptions of debt securities, in lieu of future finance costs, are written off as borrowing costs when paid.

Notes to the Financial Statements

for the Year ended 31st March, 2023

y) Fair value measurements

The Company measures financial instruments such as derivatives and certain investments, at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability.

Or

- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Terms and rights attached to preference shares

In the F.Y 2020-21, the company has changed the terms attached to existing 61,25,000 Redeemable Preference Shares bearing 8% cumulative dividend (CRNPS) after obtaining approval from preference shareholders as well as that from equity shareholders through e-voting ended on 26.03.2021, so as to alter those CRNPS into equal number of Optionally Convertible Preference Shares (OCRPS), which are convertible into fixed number of equity shares at the option of the company and bears 8% non-cumulative dividend. Those preference shares were issued in three series from 28.03.2013 to 17.09.2014 and convertible or redeemable after 12 years from their respective date of issue.

Out of total above, 50,00,000 OCRPS are convertible into 3 equity shares each at the option of the company or redeemable at a premium of ₹ 500 per share; and 11,25,000 OCRPS are convertible into 3.5 equity shares each at the option of the company or redeemable at a premium of ₹ 600 per share on the expiry of 12 years from the date of issue with an option to convert or redeem it earlier to be decided mutually between the Company and the OCRPS holders at a meeting of OCRPS holders called for this purpose.

Brief changes in the terms attached to Preference Shares are given hereunder: -

- i) Convertible into equity shares at the option of the company; conversion ratio is as below: -

Conversion year	No. of shares	Conversion ratio	Redemption value per share (₹)
2026-27	11,25,000	3.5 : 1	700
2026-27	7,50,000	3 : 1	600
2025-26	22,50,000	3 : 1	600
2024-25	20,00,000	3 : 1	600

The option available with the company to convert OCRPS into equity shares at the ratio given above is not exercisable on happening of knock-out-event, that is, if average market price of the equity shares during 26 weeks immediately preceding the redemption / conversion is less than ₹ 180/share. On happening of the knock-out-event, which has an extremely rare chance, the company has to redeem those Preference Shares at predetermined redemption value.

Notes to the Financial Statements for the Year ended 31st March, 2023

- ii) Dividend rights attached to the preference shares are changed from cumulative to non-cumulative.
- iii) All other terms and conditions as were applicable to NCRPS would apply to OCRPS.

The preference shares with revised terms (OCRPS) are classified as equity measuring at its fair value and the debt that was carried at amortized cost towards CRNPS is extinguished. Difference between carrying value of CRNPS and fair value of OCRPS amounting to ₹ 72.46 crores was recognized in profit and loss statement under exceptional item in FY.2020-21.

The Company declares and pays dividends in Indian rupees on pro-rata basis from the date of allotment. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. Holders of OCRPS have voting rights on matters pertaining to OCRPS.

In the event of liquidation of the Company before conversion or redemption of OCRPS, the holders of OCRPS will have priority over equity shares in the repayment of capital.

2.46 FINANCIAL RISK MANAGEMENT

The company's business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has the overall responsibility for establishing and governing the Company's risk management framework. The Company has established a Risk Management system, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Company.

A. MANAGEMENT OF LIQUIDITY RISK

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

The Company maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31st March, 2023 and 31st March, 2022. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis.

The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on on-going basis to meet operational needs. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits and other highly marketable debt investments with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

B. MANAGEMENT OF MARKET RISK

The Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- currency risk;
- price risk; and
- interest rate risk

The above risks may affect the Company's income and expenses, or the value of its financial instruments. The Company has a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the board of directors.

(i) Market risk

Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

a) Foreign currency exchange rate risk:

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit and loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency.

Notes to the Financial Statements for the Year ended 31st March, 2023

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates. The risks primarily relate to fluctuations in U.S. dollar, Euro and GBP against the functional currencies of the Company.

The Company, as per its risk management policy, uses foreign exchange and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. Any weakening of the functional currency may impact the Company's imports and cost of borrowings and consequently may increase the cost of financing the Company's capital expenditures.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using derivative financial instruments in accordance with its risk management policies.

The foreign exchange rate sensitivity is calculated for each currency by aggregation of the net foreign exchange rate exposure of a currency and a simultaneous parallel foreign exchange rates shift in the foreign exchange rates of each currency by 1%.

The following table sets forth information relating to foreign currency exposure as at 31st March, 2023:

(₹ in crores)

	U.S. dollar	Euro	GBP	Total
a) Financial assets	18.38	2.91	-	21.30
b) Financial liabilities	386.13	0.55	-	386.68

1% appreciation/depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease/increase in the Company's net profit/(loss) before tax by approximately ₹ 0.21 crores and ₹ 0.12crores for financial assets and financial liabilities respectively for the year ended 31st March, 2023.

The following table sets forth information relating to foreign currency exposure as at 31st March, 2022:

(₹ in crores)

	U.S. dollar	Euro	GBP	Total
a) Financial assets	89.10	0.33	-	89.43
b) Financial liabilities	265.16	0.30	-	265.46

1% appreciation/depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease/increase in the Company's net profit/(loss) before tax by approximately ₹0.89 crores and ₹ 2.65 crores for financial assets and financial liabilities respectively for the year ended 31st March, 2022.

b) Interest rate risk

Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rates. Any movement in the reference rates could have an impact on the Company's cash flows as well as costs.

The Company is subject to variable interest rates on some of its interest bearing liabilities. The Company's interest rate exposure is mainly related to debt obligations. The Company also uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations like short-term loans.

Notes to the Financial Statements

for the Year ended 31st March, 2023

c) Equity Price risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The company is not an active investor in equity markets; it continues to hold certain investments in equity for long term value accretion which are accordingly measured at fair value through Other Comprehensive Income.

The fair value of Company's investment in quoted equity securities as at 31st March, 2023 and 31st March, 2022 was ₹ 33.45 crores, and ₹41.79 crores, respectively. A 10% change in equity price as at 31st March, 2023 and 31st March, 2022 would result in an impact of ₹ 3.35 crores and ₹4.18 crores, respectively.

(Note: The impact is indicated on equity before consequential tax impact, if any).

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations.

Trade receivables

Concentration of credit risk with respect to trade receivables are limited, due to the Company's customer base being large and diverse. All trade receivables are reviewed and assessed for default on a quarterly basis.

Our historical experience of collecting receivables is that credit risk is low. Hence, trade receivables are considered to be a single class of financial assets.

Other financial assets

The Company maintains exposure in cash and cash equivalents, term deposits with banks, investments in treasury bills, government securities, money market liquid mutual funds and derivative instrument with financial institutions. The Company has set counter-parties limits based on multiple factors including financial position, credit rating, etc.

The Company's maximum exposure to credit risk as at 31st March, 2023 and 31st March, 2022 is the carrying value of each class of financial assets.

C. CAPITAL RISK MANAGEMENT

The Company's policy is to maintain an adequate capital base with the objective to create value for the shareholders along with maintaining creditor and market confidence. Capital includes issued capital, share premium and all other equity reserves attributable to be equity holders. In order to strengthen the capital base, the company mainly use appropriate means to enhance or reduce capital, as the case may be.
